IIFL FINANCE LIMITED

IIFL Finance Limited (the "**Company**" or "**Issuer**") was incorporated at Mumbai on October 18, 1995 as a private limited company with the name Probity Research & Services Private Limited under the provisions of the Companies Act, 1956. The status of our Company was changed to a public limited company and our name was changed to Probity Research & Services Limited pursuant to a fresh certificate of incorporation dated on April 28, 2000 issued by the Registrar of Companies, Maharashtra, Mumbai. The name of our Company was subsequently changed to India Infoline.Com Limited, and a fresh certificate of incorporation, consequent upon change of name was issued by the Registrar of Companies, Maharashtra, Mumbai on May 23, 2000. The name of our Company was further changed to India Infoline Limited, and a fresh certificate of incorporation, consequent upon change of name was issued by the Registrar of Companies, Maharashtra, Mumbai on March 2s3, 2001. Thereafter, the name of our Company was changed to IIFL Holdings Limited, and a fresh certificate of incorporation, consequent upon change of name was issued by Registrar of Companies, Maharashtra, Mumbai on February 18, 2014. Thereafter, the name of our Company was changed to IIFL Finance Limited and a fresh certificate of incorporation, consequent upon change of name was issued by Registrar of Companies, Maharashtra, Mumbai on May 24, 2019. Also, our Company has obtained a Certificate of Registration dated March 06, 2020 bearing Registration No. N-13.02386 issued by the Reserve Bank of India ("**RBI**") to commence the business of a non-banking financial institution without accepting public deposits under Section 45 IA of the RBI Act, 1934. Our Company is a Non-Banking Finance Company- Middle Layer ("**NBFC-ML**"). For details of the changes in name of our Company, see "*General Information*" beginning on page 57.

GENERAL RISKS

Investment in non-convertible securities is risky, and investors should not invest any funds in such securities unless they can afford to take the risk attached to such investments. Investors are advised to take an informed decision and to read the risk factors carefully before investing in this offering. For taking an investment decision, investors must rely on their own examination of the Issuer and the Issue, including the risks involved in it. Specific attention of the Investors is invited to the chapters *"Risk Factors"* and *"Material Developments"* on pages 23 and 234, respectively, before making an investment in such Issue. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the non-convertible securities or investor's decision to purchase such securities. This Draft Shelf Prospectus has not been and will not be approved by any regulatory authority in India, including the Securities and Exchange Board of India ("**SEBI**"), the Reserve Bank of India ("**RBI**"), any Registrar of Companies or any Stock Exchanges in India nor do they guarantee the accuracy or adequacy of this document.

COUPON RATE, COUPON PAYMENT FREQUENCY, REDEMPTION DATE, REDEMPTION AMOUNT & ELIGIBLE INVESTORS

For details relating to Coupon Rate, Coupon Payment Frequency, Redemption Date, Redemption Amount & Eligible Investors of the NCDs, see "*Issue Related Information*" on page 420.

CREDIT RATING

The NCDs proposed to be issued under the Issue have been rated "Crisil AA/Stable (pronounced as Crisil double A rating with Stable outlook)" for an amount of ₹ 3,500 crore by Crisil vide their rating rationale dated February 11, 2025 and a credit bulletin dated October 30, 2025 read with rating letter dated December 3, 2025 and "BWR AA+/Stable" for an amount of ₹ 2,000 crore by Brickworks vide their rating rationale dated December 24, 2025 read with rating letter dated December 24, 2025. Securities with this rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such securities carry very low credit risk. Ratings given by Crisil and Brickworks are valid as on the date of this Draft Shelf Prospectus and shall remain valid on date of issue and allotment of NCDs and the listing of the NCDs on Stock Exchanges unless withdrawn. In case of any change in credit ratings till the listing of NCDs, our Company will inform the investors through public notices/ advertisements in all those newspapers or electronic modes such as online newspapers or website of the issuer or the stock exchanges in which pre issue advertisement has been given. The rating is not a recommendation to buy, sell or hold the rated instrument and investors should take their own decisions. The rating may be subject to revision or withdrawal at any time by the assigning rating agency and each rating should be evaluated independently of any other rating. The rating agencies have a right to suspend or withdraw the rating at any time on the basis of factors such as new information. For the rating letter, rationale and press release for these ratings, see "Annexure A" of this Draft Shelf Prospectus. There are no unaccepted ratings and any other ratings other than as specified in this Draft Shelf Prospectus.

LISTING

The NCDs offered through this Draft Shelf Prospectus along with the Shelf Prospectus and relevant Tranche Prospectus(es) are proposed to be listed on National Stock Exchange of India Limited and BSE Limited ("**NSE**" and "**BSE**" or "**Stock Exchange**"). Our Company has received an 'in-principle' approval from NSE vide its letter no. [•] dated [•] and BSE vide its letter no.[•] dated [•]. NSE shall be the Designated Stock Exchange for the Issue.

PUBLIC COMMENTS

This Draft Shelf Prospectus dated December 30, 2025, has been filed with NSE and BSE, pursuant to the provisions of the SEBI NCS Regulations and will be open for public comments for a period of one day (i.e., until 5:00 p.m.) immediately after the date of filing of this Draft Shelf Prospectus with the Stock Exchange. All comments on this Draft Shelf Prospectus are to be forwarded to the attention of the Company Secretary and Compliance Officer of our Company. Comments may be sent through post, facsimile or e-mail. However, please note that all comments by post must be received by the Issuer by 5:00 p.m. (Indian Standard Time) within one Day from the date on which this Draft Shelf Prospectus is hosted on the website of the Designated Stock Exchange. All comments received on this Draft Shelf Prospectus will be suitably addressed prior to filing of the Shelf Prospectus with the RoC.

XIRR	Internal rate of return for irregular cash flows.
Yield	Ratio of interest income to the daily average of interest earning assets.

Notwithstanding the foregoing, the terms defined as part of "General Information", "Risk Factors" "Industry Overview", "Regulations and Policies", "Statement of Possible Tax Benefits", "Summary of Key Provisions of Articles of Association", "Financial Information" and "Other Regulatory and Statutory Disclosures" on pages 57, 23, 121, 106, 94, 496, 233 and 348, respectively shall have the meaning ascribed to them as part of the aforementioned sections. Terms not defined as part of the sections "Our Business", "Risk Factors", "Industry Overview" and "Regulations and Policies", on pages 161, 23, 121 and 106, respectively, shall have the meaning ascribed to them hereunder.

CERTAIN CONVENTIONS, USE OF FINANCIAL, INDUSTRY AND MARKET DATA AND CURRENCY OF PRESENTATION

Certain Conventions

In this Draft Shelf Prospectus, unless otherwise specified or the context otherwise indicates or implies the terms, all references to "we", "us", "our" are to IIFL Finance Limited, and references to "you", "offeree", "purchaser", "subscriber", "recipient", "investors" and "potential investor" are to the prospective investors in this Issue. Unless stated otherwise, all references to page numbers in this Draft Shelf Prospectus are to the page numbers of this Draft Shelf Prospectus.

All references in this Draft Shelf Prospectus to "India" are to the Republic of India and its territories and possessions. All references to the "Government", "Central Government" or "State Government" are to Government of India, Central or State, as applicable.

Unless otherwise specified, any time mentioned in this Draft Shelf Prospectus is in Indian Standard Time.

Presentation of Financial Information

The financial year of our Company commences on April 1 and ends on March 31 of the next year, so all references to particular "financial year", "fiscal year" and "fiscal" or "FY", unless stated otherwise, are to the 12 months period ended on March 31 of that year. Unless the context requires otherwise, all references to a year in this Draft Shelf Prospectus are to a calendar year ended on December 31 and all references to a financial year in this Draft Shelf Prospectus are to a financial year or fiscal ended on March 31 of that particular calendar year.

The basis of presentation of the Audited Financial Information is as follows:

1. The Audited Standalone Financial Statements for Fiscal 2025 and Audited Consolidated Financial Statements for Fiscal 2025, each as at and for the year ended March 31, 2025, have been prepared in accordance with the Ind AS, as specified under Section 133 of the Companies Act, 2013, the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time. The Audited Standalone Financial Statements for Fiscal 2025 and Audited Consolidated Financial Statements for Fiscal 2025, each as at and for the year ended March 31, 2025, have been audited by our Current Joint Statutory Auditors i.e. Sharp & Tannan Associates, Chartered Accountants and G.M. Kapadia & Co. Chartered Accountants.

2. The Audited Standalone Financial Statements for Fiscal 2024 and Audited Consolidated Financial Statements for Fiscal 2024, each as at and for the year ended March 31, 2024, have been prepared in accordance with the Ind AS, as specified under Section 133 of the Companies Act, 2013, the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time. The Audited Standalone Financial Statements for Fiscal 2024 and Audited Consolidated Financial Statements for Fiscal 2024, each as at and for the year ended March 31, 2024, have been audited by our Erstwhile Joint Statutory Auditors, Sharp & Tannan Associates, Chartered Accountants and Chhajed & Doshi, Chartered Accountants.

3. The Audited Standalone Financial Statements for Fiscal 2023 and Audited Consolidated Financial Statements for Fiscal 2023, each as at and for the year ended March 31, 2023 have been prepared in accordance with the Ind AS, as specified under Section 133 of the Companies Act, 2013, the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time. The Audited Standalone Financial Statements for Fiscal 2023 and Audited Consolidated Financial Statements for Fiscal 2023, each as at and for the year ended March 31, 2023, have been audited by Erstwhile Joint Statutory Auditors Chhajed & Doshi, Chartered Accountants and V Sankar Aiyar & Co. Chartered Accountants.

4. The H1 2026 Unaudited Standalone Financial Results and H1 2026 Unaudited Consolidated Financial Results have been prepared in accordance with the principles laid down in Indian Accounting Standard (Ind AS) 34 "Interim Financial Reporting" specified under Section 133 of the Companies Act, 2013, as amended, read with the relevant rules issued thereunder and other accounting principles generally accepted in India. These H1 2025 Unaudited Standalone Financial Results and H1 2025 Unaudited Consolidated Financial Results have been reviewed by Current Joint Statutory Auditors i.e. Sharp & Tannan Associates, Chartered Accountants and G.M. Kapadia & Co. Chartered Accountants. The H1 2026 Unaudited Standalone Financial Results and H1 2026 Unaudited Consolidated Financial Results are not indicative of full year results and are not comparable with Audited Financial Statements.

The Audited Financial Statements and the H1 2026 Unaudited Financial Results for the quarter and half year ended September 30, 2025 are included in this Draft Shelf Prospectus.

The auditors reports on the Audited Financial Statements and the limited review report on the H1 2026 Unaudited Financial Results for the quarter and half year ended September 30, 2025 are included in this this Draft Shelf Prospectus. For further details, please refer to the section titled "*Financial Statements*" on page 233.

Unless stated otherwise or unless the context requires otherwise, the financial data as at and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023 used in this Draft Shelf Prospectus is derived from the Audited Financial Statements and for the quarter and half year ended September 30, 2025 is derived from our H1 2026 Unaudited Financial Results for the quarter and half year ended September 30, 2025. Accordingly, the degree to which the Audited Financial Statements in this Draft Shelf Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Shelf Prospectus should accordingly be limited.

Unless stated otherwise and unless the context requires otherwise, the financial data used in this Draft Shelf Prospectus is on a consolidated basis.

Unless stated otherwise, macroeconomic and industry data used throughout this Draft Shelf Prospectus has been obtained from publications prepared by providers of industry information, government sources and multilateral institutions. Such publications generally state that the information contained therein has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed and their reliability cannot be assured. Although the Issuer believes that industry data used in this Draft Shelf Prospectus is reliable, it has not been independently verified. Further, the extent to which the market and industry data presented in this Draft Shelf Prospectus is meaningful depends on the readers' familiarity with and understanding of methodologies used in compiling such data.

Non-GAAP Financial Measures

Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance and other industry metrics have been included in this section and elsewhere in this document. These non-GAAP measures are supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or US GAAP. We compute and disclose such non-GAAP financial measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used by securities analysts, investors and others to evaluate the operational performance of financial services businesses. Many financial services businesses provide such non-GAAP financial measures and other statistical and operational information when reporting their financial results. Such non-GAAP measures are not measures of operating performance or liquidity defined by generally accepted accounting principles and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP.

In addition, these non-GAAP measures are not standardised terms, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. Other companies may calculate these Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. These non-GAAP financial measures and other statistical and other information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry. Therefore, such non-GAAP measures may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other banks in India or elsewhere.

Currency and Unit of Presentation

In this Draft Shelf Prospectus, all references to 'Rupees'/'₹'/'INR'/ 'Rs.' are to Indian Rupees, the official currency of the Republic of India. Except where stated otherwise in this Draft Shelf Prospectus, all figures have been expressed in 'in crore'. All references to 'million/million/mn.' refer to one million, which is equivalent to 'ten lakh' or 'ten lacs', the word 'lakh/lacs/lac' means 'one hundred thousand' and 'crore' means 'ten million' and 'billion/bn./billions' means 'one hundred crore'.

Certain figures contained in this Draft Shelf Prospectus, including financial information, have been subject to rounding adjustments. Unless set out otherwise, all figures in decimals, including percentage figures, have been rounded off to two

decimal points. In certain instances, (i) the sum or percentage change of such numbers may not confirm exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not confirm exactly to the total figure given for that column or row. Further, any figures sourced from third party industry sources may be rounded off to other than one decimal point to confirm to their respective sources.

Industry and Market Data

Unless stated otherwise or unless otherwise requires, industry and market data used throughout this Draft Shelf Prospectus has been obtained from the industry report titled "*NBFC Report October 2025 Economic Report – December 2025*" ("**Industry report on NBFCs**") prepared and issued by Crisil Intelligence and various industry publications and sources. Industry publications generally state that the information contained in such publications has been obtained from publicly available documents from various sources believed to be reliable but accuracy, completeness and underlying assumptions of such third-party sources are not guaranteed. Although the industry and market data used in this Draft Shelf Prospectus is reliable, the data used in these sources may have been re-classified by us for the purposes of presentation. However, no material data in connection with the Issue has been omitted. Data from these sources may also not be comparable.

The extent to which the market and industry data used in this Draft Shelf Prospectus is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which business of our Company is conducted, and methodologies and assumptions may vary widely among different industry sources. Certain information and statistics in relation to the industry in which we operate, which has been included in this Draft Shelf Prospectus has been extracted from an industry report titled "*NBFC Report October 2025 Economic Report – December 2025*", prepared and issued by Crisil Intelligence. Please see "*Industry Overview*" on page 121 for further details.

General Risk

Investment in NCDs is risky, and investors should not invest any funds in NCDs unless they can afford to take the risk attached to such investments. Investors are advised to take an informed decision and to read the risk factors carefully before investing in this offering. For taking an investment decision, investors must rely on their examination of the issue including the risks involved in it.

Specific attention of investors is invited to statement of risk factors contained under section "*Risk Factors*" on page 23. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the NCDs or Investor's decision to purchase such securities.

Exchange Rates

The exchange rates for INR (₹) *vis-à-vis* of USD, as at September 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 are provided below:

Currency*	September 30, 2025	March 31, 2025	March 31, 2024	March 31, 2023
1 USD	88.79	85.58	83.37	82.22

**Source: https://www.fbil.org.in/#/home and https://www.rbi.org.in/scripts/ReferenceRateArchive.aspx*

The above exchange rates are for the purpose of information only and may not represent the rates used by the Company for purpose of preparation or presentation of its financial statements. The rates presented are not a guarantee that any person could have on the relevant date converted any amounts at such rates or at all.

In case September 30 or March 31 of any of the respective years/ period is a public holiday, the previous working day not being a public holiday has been considered.

FORWARD LOOKING STATEMENTS

Certain statements contained in this Draft Shelf Prospectus that are not statements of historical fact constitute "forward-looking statements". Investors can generally identify forward-looking statements by terminology such as "aim", "anticipate", "believe", "continue", "could", "estimate", "expect", "intend", "may", "objective", "plan", "potential", "project", "pursue", "shall", "seek", "should", "will", "would", or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All statements regarding our expected financial conditions, results of operations, business plans and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, revenue and profitability, new business and other matters discussed in this Draft Shelf Prospectus that are not historical facts. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Important factors that could cause actual results, including our financial conditions and results of operations to differ from our expectations include, but are not limited to, the following:

- We are subject to periodic inspections by the RBI. Any deficiencies highlighted by RBI are required to be rectified and we may be subject to penal action in the event of failure to comply with RBI directions. Any such penal action could adversely impact our overall brand, profitability and results of operations. We are subject to supervision and regulation by the RBI as a NBFC-ML, and changes in RBI's regulations governing us could adversely affect our business.
- We may not be able to realise the full value of our pledged gold, and inaccurate appraisal of the pledged gold jewellery by our personnel may adversely affect our business and exposes us to potential loss.
- Our Company, Directors, Promoters and our Subsidiaries are involved in certain legal and regulatory proceedings and any adverse outcome in these or other proceedings may adversely affect our future financial performance, business and our operations.
- Our Company's inability to recover the amounts due from customers to whom it has provided secured and unsecured loans in a timely manner, or at all, and its full collateral and its customers' failure to comply with applicable statutory or regulatory requirements in relation to such loans could adversely affect our Company's operations and profitability.
- High levels of customer defaults and the resultant non-performing assets could adversely affect our Company's business, financial condition, results of operations and future financial performance.
- Our financial performances are particularly vulnerable to interest rate risk and volatility in interest rates could adversely affect our net interest margin, the value of our fixed income portfolio, our income from treasury operations, the quality of our loan portfolio and our financial performance.
- We may not be able to successfully sustain our growth plans.
- Our business requires substantial capital, and any disruption in funding sources would have a material adverse effect on our liquidity and financial condition.
- Our inability to obtain or maintain statutory or regulatory approvals and licenses for conducting our business.

For further discussion of factors that could cause our actual results to differ, see "*Risk Factors*" on page 23.

All forward-looking statements are subject to risks, uncertainties and assumptions about our Company that could cause actual results and valuations to differ materially from those contemplated by the relevant statement. Additional factors that could cause actual results, performance or achievements to differ materially include, but are not limited to, those discussed under the sections titled "*Industry Overview*", "*Our Business*" and "*Legal and Other Information*" on pages 121, 161 and 301, respectively. The forward-looking statements contained in this Draft Shelf Prospectus are based on the beliefs of management, as well as the assumptions made by and information currently available to management. Although our Company believes that the expectations reflected in such forward-looking statements are reasonable at this time, it cannot assure investors that such expectations will prove to be correct or will hold good at all times. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements. If any of these risks and uncertainties materialise, or if any of our Company's underlying assumptions prove to be incorrect, our Company's actual results of operations or financial condition could differ materially from that described herein as anticipated, believed, estimated or expected. All subsequent forward-looking statements attributable to our Company are expressly qualified in their entirety by reference to these cautionary statements.

Neither our Company, its Directors, its KMPs, SMPs and officers, or the Lead Managers, nor any of their respective affiliates or associates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI NCS Regulations, our Company and the Lead Managers will ensure that investors in India are informed of material developments until the time of the grant of listing and trading permission by the Stock

Exchanges.

By their nature, certain market risk disclosures are only estimate(s) and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Neither our Company, nor the Lead Managers or its respective Directors and officers, nor any of its respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI NCS Regulations, our Company and the Lead Managers will ensure that investors are informed of material developments between the date of filing the Shelf Prospectus and the relevant Tranche Prospectus(es) with ROC and the date of receipt of listing and trading permission from the Stock Exchanges for the NCDs issued pursuant to this Issue.

SECTION II – RISK FACTORS

An investment in NCDs involves a certain degree of risk. You should carefully consider all the information contained in this Draft Shelf Prospectus, including the chapters "Our Business" and "Financial Statements" on pages 161 and 233, respectively, before making an investment decision. The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the NCDs. Additional risks and uncertainties, which are currently unknown or now deemed immaterial, if materialises, may in the future have a material adverse effect on our business, financial condition and results of operations and cash flows. The market prices of the NCDs could decline due to such risks and you may lose all or part of your investment.

If any one of the following stated risks or other risks that are not currently known or are now deemed immaterial actually occurs, the Company's business, financial conditions and results of operations and cash flows could suffer and, therefore, the trading price of the Company's NCDs could decline and/or the Company's ability to meet its obligations in respect of the NCDs could be affected and you may lose all or part of your interest and/or redemption amounts. More than one risk factor may have simultaneous affect with regard to the NCDs such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No prediction can be made as to the effect that any combination of risk factors may have on the value of the NCDs and/or the Company's ability to meet its obligations in respect of the NCDs.

The financial and other related implications of the risks described in this section, have been disclosed to the extent quantifiable as on the date of this Draft Shelf Prospectus. This Draft Shelf Prospectus also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including events described below and elsewhere in this Draft Shelf Prospectus.

This Draft Shelf Prospectus contains forward looking statements that involve risk and uncertainties. Our Company's actual results could differ materially from those anticipated in these forward-looking statements as a result of several factors, including the considerations described below and elsewhere in this Draft Shelf Prospectus. Certain information in this section includes extracts from – industry report titled "NBFC Report October 2025 Economic Report – December 2025" prepared and issued by Crisil Intelligence. Neither our Company, the Lead Managers, the Debenture Trustee, nor any other person connected with the Issue has independently verified such industry and third-party information. For more information, please see "Industry Overview" on page 121.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implication of any of the risks described in this section.

Unless otherwise stated or unless context requires otherwise, the financial information used in this section is derived from and should be read in conjunction with the Audited Financial Statements and H1 2026 Unaudited Financial Results as included in this Draft Shelf Prospectus. Unless stated otherwise, financial information used in this section is on a consolidated basis. For further details on the financial information used in this section, please refer to "Presentation of Financial Information" under chapter "Certain Conventions, Use of Financial, Industry and Market Data and Currency of Presentation." on page 18.

In this section any reference to "Company", "we" or "us" or "Our" refers to IIFL group.

INTERNAL RISK FACTORS

1. We are subject to periodic inspections by the RBI. Any deficiencies highlighted by RBI are required to be rectified and we may be subject to penal action in the event of failure to comply with RBI directions. Any such penal action could adversely impact our overall brand, profitability and results of operations.

As a NBFC-ML, we are subject to annual inspection by the RBI in terms of the Master Directions and under Section 45N of the Reserve Bank of India Act, 1934. As part of its inspection, RBI inspects our books of accounts and other records to verify the correctness or completeness of any statement, information or particulars furnished to the RBI, or for the purpose of obtaining any statements, information or particulars which our Company has failed to furnish on being called upon to do so. RBI issues reports to our Company highlighting areas of concern or matters which may require further improvements to our operations. Further, such regulatory authorities also seek certain clarifications and share their findings in the ordinary course of business. We respond to observations made by such authorities and address them appropriately. However, in the event we are unable to resolve such deficiencies to the satisfaction of the RBI, we may be

restricted in our ability to conduct our business as we currently do. For example, in respect of RBI inspection with reference to financials position as on March 31, 2023 ("**Inspection Report**"), we have received certain observations from RBI *inter alia* including in respect of high staff attrition rates, complaint management system incapable of storing information with no systems in place for categorizing complaints, deficiency in anti-money laundering ("**AML**") monitoring mechanism for filing of suspicious transaction reporting ("**STR**") and anomalies in Company's agreement with digital lending platforms. The Company has taken various positives steps to comply with RBI observations. The customer redressal mechanism system has been enhanced and updated as per RBI requirements. The Company has enhanced its STR parameters and reviewed its all active agreements with digital lending platforms and has designed a vendor assessment framework and review mechanism to ensure better controls.

Further in the Inspection Report RBI observed certain material supervisory concerns in respect to the gold loan portfolio of our Company, including serious deviations in assaying and certifying purity and net weight of the gold at the time of sanction of loans and at the time of auction upon default; breaches in loan-to-value ratio; significant disbursal and collection of loan amount in cash far in excess of the statutory limit; non-adherence to the standard auction process; and lack of transparency in charges being levied to customer accounts, etc. Pursuant to press release and order dated March 4, 2024, RBI had directed our Company to cease and desist, with immediate effect, from sanctioning or disbursing gold loans or assigning/ securitising/ selling any of our gold loans. Our Company, however, was permitted to continue service our existing gold loan portfolio through usual collection and recovery processes. RBI, by way of its subsequent letter dated September 19, 2024, has lifted the restrictions imposed on our gold loan business and that we are allowed to offer gold loans.

Additionally, RBI, in its recent inspection, highlighted several concerns including a decrease in our leverage ratio due to an increase in owned funds, and the need for strengthening our risk management framework in light of frauds and complaints, prompting us to enhance internal fraud monitoring committees, early warning systems, and Board-level oversight. The inspection also noted serious deviations in assaying and certifying the purity and net weight of gold at loan sanction and auction upon default, indicating gaps in compliance culture. Further, deficiencies in our interest rate model were observed, where prescribed parameters such as cost of borrowing and credit risk were not adequately captured, resulting in broad and arbitrary ranges without documented rationale. RBI also flagged excessive cross-selling practices by lending partners, where multiple products and insurance plans were sold to borrowers with significant upfront charges deducted from disbursal amounts; we have since put such arrangements on hold and initiated corrective measures. Additionally, RBI observed drastic fluctuations in our Liquidity Coverage Ratio (LCR) during February–March 2024, attributed to commercial paper repayments and subsequent fund placements for repayments. While overall attrition declined, senior management attrition remained high, and significant cybersecurity vulnerabilities across Windows and Linux servers breached turnaround times for closure, requiring urgent remediation. The Company has received a an inspection report from RBI in relation to the inspection conducted for the financial year 2024-25. The Company is currently assessing the same and is in process to submit a response to RBI within stipulated timelines in the inspection report.

The PAT of the Company was ₹ 578.16 crore and ₹ 692.11 crore as on March 31, 2025 and as on September 30, 2025 respectively on a consolidated basis. While our Company is working towards resuming the normal operations since the upliftment of the embargo, we cannot assure you that we would not be subject to further regulatory action or penalties on account any deficiencies.

Further, RBI has in the Inspection Report identified other deficiencies, in our operations such as deficiencies in risk management system, risk culture and implementation of fair practice code, non-adherence to the extant RBI guidelines with respect to reporting to credit information companies ("**CICs**"). We have implemented system controls to prevent LTV breaches. Further, we have updated our Interest Rate Model, as per the fair practices code, which includes granting discretionary power to product-level business heads to determine interest rates for various loan products. With respect to reporting of NPA cases to CICs, we will be reporting data on a monthly basis. Further, the loan management and originating system has been modified to ensure compliance with the Income Tax Act, 1961. Further, the Company has digitized the suspicious transaction monitoring mechanism using a third-party platform, covering parameters such as high-value cash and non-cash transactions and sudden high-value transactions by customers daily and monthly.

While we seek to comply with all regulatory provisions applicable to us, in the event we are unable to comply with the observations made by the regulatory authorities, we could be subject to penalties and restrictions which may have an adverse effect on our business, results of operations, financial condition and reputation. Further, we cannot assure you that these authorities will not find any deficiencies in future inspections or otherwise/ the authorities will not make similar or other observations in the future.

2. We are subject to supervision and regulation by the RBI as a NBFC-ML, and changes in RBI's regulations governing us could adversely affect our business.

Being an NBFC, the operations of our Company are subject to various regulations prescribed by the RBI and other statutory authorities including regulations relating to foreign investment in India. Our Company has a certificate of registration from the RBI to operate as a Non-Banking Financial Company and is regulated by the RBI. Accordingly, legal and regulatory risks are inherent and substantial in our business. As we operate under licenses and registrations obtained from the applicable regulators, we are subject to actions that may be taken by such regulators in the event of any non-compliance with any applicable policies, guidelines, circulars, notifications and regulations issued by the relevant regulators.

As per the Master Circular-Reserve Bank of India (Non-Banking Financial Company- Registration, Exemption and Framework for Scale Based Regulation) Directions, 2025 dated November 28, 2025, as amended, NBFCs are required to consider a loan as non-performing asset if it is overdue for more than 90 days than the earlier norm of 180 days overdue for loans. Our Company is required to maintain a CAR of 15% besides complying with other prudential norms, directions and the requirements under the revised regulatory framework. Further, RBI had by way of circular dated June 24, 2021 capped the dividend pay-out ratios for NBFCs and has laid out minimum prudential guidelines for NBFCs to be eligible for declaring and paying out dividends. Restrictions as laid out by RBI may restrict our Company to pay out dividend to its shareholders. Compliance with many of the regulations applicable to our Company across jurisdictions including any restrictions on investments and other activities currently being carried out by our Company involve a number of risks, particularly in areas where applicable regulations may be subject to varying interpretations. If the interpretation of the regulators and authorities varies from our interpretation, we may be subject to penalties and the business of our Company could be adversely affected. Further, the RBI may amend regulations/ guidelines applicable to NBFCs in future which may require us to restructure our activities, incur additional cost or could otherwise adversely affect our business and our financial performance.

While, RBI has not provided for any restriction on interest rates that can be charged by NBFC-ML, there can be no assurance that the RBI and/or the Government will not implement regulations or policies, including policies or regulations or legal interpretations of existing regulations, relating to or affecting interest rates, taxation, inflation or exchange controls, or otherwise take action, that could have an adverse effect on non-deposit taking NBFCs. In addition, there can be no assurance that any changes in the laws and regulations relative to the Indian financial services industry will not adversely impact our business. We work in a regulated environment and we cannot predict any restrictions that may be placed by the regulator with respect to interest that is to be charged to our customers in future. There can be no assurance that any changes in the laws and regulations relative to the Indian financial services industry will not adversely impact our business.

3. We may not be able to realise the full value of our pledged gold, and inaccurate appraisal of the pledged gold jewellery by our personnel may adversely affect our business and exposes us to potential loss.

In case of loan against gold and fluctuation in gold prices, we may not be able to realise the full value of our pledged gold, due to, among other things, defects in the quality of gold. We cannot assure you that we will be able to auction such pledged gold jewellery at prices sufficient to cover the amounts under default. Moreover, there may be delays associated with the auction process. Any failure to recover the expected value of pledged gold could expose us to a potential loss. Any such losses could adversely affect our financial condition, cash flows and results of operations.

The accurate appraisal of pledged gold jewellery is a significant factor in the successful operation of our business and such appraisal requires a skilled and reliable workforce. Inaccurate appraisal of gold by our workforce may result in gold being overvalued and pledged for a loan that is higher in value than the gold's actual value, which could adversely affect our reputation and business.

Further, we are subject to the risk that our gold appraisers may engage in fraud regarding their estimation of the value of pledged gold. Any such inaccuracies or fraud in relation to our appraisal of gold may adversely affect our reputation, business and financial condition.

4. Our Company, Directors, Promoters and our Subsidiaries are involved in certain legal and regulatory proceedings and any adverse outcome in these or other proceedings may adversely affect our future financial performance, business and our operations.

Our Company, our Directors, our Promoters and our Subsidiaries, are involved, from time to time, in legal and regulatory proceedings that are incidental to our operations and these involve proceedings filed by and against us. These include

criminal and civil proceedings, including arbitration cases, consumer proceedings, tax investigations and cases filed by us under the Negotiable Instruments Act, 1881 and Insolvency and Bankruptcy Code, 2016 and other regulatory and statutory proceedings and notices. These proceedings are pending at different levels of adjudication before various courts, fora, authorities, tribunals and appellate tribunals. A summary of outstanding legal proceedings involving our Company, our Promoters, our Directors and our Subsidiaries as on the date of this Draft Shelf Prospectus is set forth in the table below:

Name	Criminal Proceedings	Tax Proceedings	Statutory or Regulatory Proceedings	Disciplinary actions by the SEBI or Stock Exchanges	Material Civil Litigations	Aggregate amount involved (₹ in crore)

Against the Subsidiaries	38	3	3	-	-	8.23

**We have not included amounts in relation to matters which have no financial implication on us.*

A notice dated December 2, 2020 was issued under Rule 4 of (Procedure for Holding Inquiry And Imposing Penalties By Adjudicating Officer) Rules, 1995 was issued) against the Promoters & Promoter Group ("Promoters") to show cause against alleged violation of provisions of Regulation 3(1) read with Regulation 13(1) and 13(2)(a) of SAST Regulation. The Promoters responded with a reply dated December 19, 2020 contending that there was no such violation since Regulation 3(1) would be attracted if there is an entitlement to exercise voting rights of 25% or more and if the entitlement to exercise voting rights does not touch 25%, the charging provisions would not be attracted. Therefore, when an acquirer acquires, or even for that matter, "agrees to acquire", the underlying contractual obligation or the intention of the impending contract ought to be the acquisition of an entitlement to voting rights of 25% or more. In the instant case, there was no intention or agreement to acquire an entitlement to voting rights of 25% or more. A computational error led to the instruction to the broker for purchase of shares. No sooner than the error was discovered, it was ensured that threshold to exercise voting rights of 25% or more never came about, by timely selling of existing shares. Therefore, the entitlement to exercise voting rights in the hands of the promoter group never reached threshold of 25% or more. It remained 24.99 % as was always the actual intent of the Promoters. At no point of time, either during a day or at the close of the register of beneficial ownership of shares on any day, did the Promoters ever cross the threshold of 25% and hence there was no question of Regulation 3(1) read with Regulation 13(1) and / or Regulation 13(2) being violated. Inspite of the above representation, an adjudication order dated March 28, 2022 was passed by SEBI against the Promoters imposing a penalty of ₹ 10,00,000. The Promoters vide its letter dated May 09, 2022 respectfully disagreed with the findings and imposition of the said penalty, however the Promoters paid the said penalty with a view to moving forward constructively and putting this matter behind.

Further, SEBI has by way of a letter dated June 7, 2022 directed us to provide certain specific information and documents with respect to suspected insider trading activities, including (amongst others) (a) chronology of events in relation to declaration of financial results for the period ended December 31, 2020 on January 29, 2021; (b) details of all persons who were involved in the process of/ having access to unpublished price sensitive information vis-a-vis the aforesaid financial results; (c) all relevant documentary evidence with respect to communications with members of board of directors for the period August 31, 2020 to May 3, 2021; (d) details of all on market and off market trades undertaken by the directors, promoters, key managerial personnel, compliance officer of our Company and their family members during the period August 31, 2020 to May 3, 2021; (e) relationship of Company and/or any of its Promoters/ Directors/ employees or any other person with the entities as mentioned in the letter issued by SEBI, etc. Each of these requests were responded by our Company to SEBI. Each of these requests were responded by our Company to SEBI in July 2022. We have and we will respond to any further queries from SEBI.

Further, a first information report dated September 30, 2013 ("**Complaint**") was lodged by Pankaj Saraf, an investor in National Spot Exchange Limited ("**NSEL**"), at the MRA Marg Police Station, Mumbai against NSEL and other brokers, including IIFL Commodities Limited, alleging *inter alia*, criminal conspiracy, fraud and criminal breach of trust, under

Sections 406, 420 and 120B of the Indian Penal Code, 1860. Basis the complaint, the Economics Offences Wing, Mumbai, lodged a first information report against the Accused ("**FIR**"). In this matter, EOW has filed its final chargesheet on December 2, 2022. Post this, NSEL and Arvind Bahl, IICL client moved an application to implead Mr. Nirmal Jain as an accused. MPID Court vide its Order allowed the application and issued the summons. Against, the said order, Mr. Nirmal Jain preferred an appeal before High Court, Mumbai, the stay is granted by the Hon'ble HC against the said order. The matter is pending for hearing.

There can be no assurance that these disputes will not be determined against our Company, our Subsidiaries, our Directors or our Promoters or that our Company, our Subsidiaries, our Directors or our Promoters will not be required to pay all or a portion of the disputed amounts or that it will be able to recover amounts for which our Company and our Subsidiaries have filed recovery proceedings and also there can be no assurance that similar proceedings will not be initiated against our Company in the future. Further, there could be a material and adverse impact on our reputation, business and results of operations. In addition, even if our Company our Subsidiaries are successful in defending such cases, they will be subject to legal and other costs to defend such litigation, and such costs may be substantial, which may impact our cash flows.

For further details in relation to legal proceedings, please see "*Outstanding Litigations and Defaults*" on page 301.

5. Our Company's inability to recover the amounts due from customers to whom it has provided secured and unsecured loans in a timely manner, or at all, and its full collateral and its customers' failure to comply with applicable statutory or regulatory requirements in relation to such loans could adversely affect our Company's operations and profitability.

Our Company's Loan Book, on a consolidated basis as on September 30, 2025, is ₹ 59,667.82 crore which includes secured loans constituting 81.12% and unsecured loans constituting 18.88% of our Company's Loan Book and as on March 31, 2025, is ₹ 54,945.90 crore, which includes secured loans constituting 75.05% and unsecured loans constituting 24.95% of our Company's Loan Book. Further on a consolidated basis, our GNPA was 2.14%, our NNPA was 1.02% and our overall PCR was 89.73% as on September 30, 2025 and our GNPA was 2.23%, our NNPA was 1.05% and our overall PCR was 99.99% as on March 31, 2025. Further, our Company's Loan Book, on a standalone basis as on September 30, 2025, is ₹ 27,714.27 crore which includes secured loans constituting 82.94% and unsecured loans constituting 17.06% of our Company's Loan Book and as on March 31, 2025, is ₹ 22,546.27 crore, which includes secured loans constituting 70.37% and unsecured loans constituting 29.63 % of our Company's Loan Book. Further on a standalone basis, our GNPA was 1.43 %, our NNPA was 0.53 % and our overall PCR was 102.64 % as on September 30, 2025 and our GNPA was 1.88 %, our NNPA was 0.69 % and our overall PCR was 103.76 % as on March 31, 2025. For further details please refer to the section titled "*Business–- Key Operational and Financial Parameters*" on page 163.

Substantial portion of our Company's Loan Book is secure in nature and the value of collateral that we collect is dependent on various factors, including (i) prevailing market conditions, (ii) the general economic and political conditions in India, (iii) growth real estate sector in India and the areas in which our Company operates, (iv) any change in statutory and/or regulatory requirements; and (v) fluctuation in gold prices. We maintain loan-to-value on the basis of the products being offered and product specific LTVs vary from case to case. In the event our borrowers default on the repayment of loans, we may not be able to realize the full value of the collateral due to various reasons, including a possible decline in the realizable value of the collateral, defective title as security, prolonged legal proceedings, unavailability of a ready market and fraudulent actions by borrowers, or we may not be able to foreclose on collateral at all. Further, certain kinds of loans that are advanced by us are not secured by any assets. In India, foreclosure on collateral may be subject to delays and administrative requirements that may result, or be accompanied by, a decrease in the value of the collateral. Foreclosure on collateral generally requires a written petition to an Indian court or tribunal, any proceedings brought may be subject to delays and administrative requirements that may result in, or be accompanied by, a decrease in the value of the collateral.

A decline in the value of the security could impair our ability to realize the secured assets upon any foreclosure, which may require us to increase our provision for loan losses. In the event of a default with respect to any of these loans, the amounts we receive upon sale of the secured assets may be insufficient to recover the outstanding principal and interest on the loan. If we are required to re-value the assets securing a loan to satisfy the debt during a period of reduced asset values or to increase our allowance for loan losses, our profitability could be adversely affected, which could have a material adverse effect on our business, financial condition, results of operations and prospects.

In respect to unsecured portion of our Company's Loan Book which accounts to 18.88% on a consolidated basis as on September 30, 2025, in the event of defaults by the customers, our Company's ability to realise the amounts due to it from the loans would be restricted to initiating legal proceedings for recovery as our Company will not have the benefit

of enforcing any security interest. There can be no guarantee as to the length of time it could take to conclude such legal proceedings or for the legal proceedings to result in a favourable decision for our Company.

6. High levels of customer defaults and the resultant non-performing assets could adversely affect our Company's business, financial condition, results of operations and future financial performance.

Our Company's business involves lending money and accordingly, our Company is subject to risks of customer default which includes default or delays in repayment of principal and/or interest on the loans our Company provides to its customers. Customers may default on their obligations as a result of various factors, including certain external factors which may not be within our Company's control such as developments in the Indian economy and the real estate market, movements in global markets, changes in interest rates and changes in regulations. Customers could also be adversely affected by factors such as, bankruptcy, lack of liquidity, lack of business and operational failure. If customers fail to repay loans in a timely manner or at all, our Company's financial condition and results of operations will be adversely impacted. To the extent our Company is not able to successfully manage the risks associated with lending to these customers, it may become difficult for our Company to make recoveries on these loans. In addition, our Company may experience higher delinquency rates due to prolonged adverse economic conditions or a sharp increase in interest rates. An increase in delinquency rates could result in a reduction in our Company's total interest income (i.e., our Company's accrued interest income from loans, including any interest income from credit substitutes) and as a result, lower revenue from its operations, while increasing costs as a result of the increased expenses required to service and collect delinquent loans, and make loan loss provisions as per applicable laws. Our Company may also be required to make additional provisions in respect of loans to such customers in accordance with applicable regulations and, in certain cases, may be required to write-off such loans. For further details please refer to the section "*Business - Key Operational and Financial Parameters*" on page 163.

7. Our financial performances are particularly vulnerable to interest rate risk and volatility in interest rates could adversely affect our net interest margin, the value of our fixed income portfolio, our income from treasury operations, the quality of our loan portfolio and our financial performance.

For the six months period ended September 30, 2025, six months period ended September 30, 2024 and for the Fiscals 2025, 2024 and 2023, our revenue from operations on a consolidated basis was ₹ 6,257.94 crore, ₹ 5,185.30 crore, ₹ 10,210.90 crore, ₹ 10,249.43 crore and ₹ 8,258.85 crore, respectively, whereas our total comprehensive income post minority was ₹597.10 crore, ₹ 123.96 crore, ₹ 367.54 crore, ₹1,747.77 crore and ₹ 1,534.01 crore, respectively.

As at September 30, 2025, September 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023 on a consolidated basis, our Loan Book stood at ₹ 59,667.82 crore, ₹ 44,526.78 crore, ₹ 54,945.90 crore, ₹ 50,833.49 crore and ₹ 40,101.87 crore, respectively and our assets under management were ₹ 90,122.36 crore, ₹ 66,963.51 crore, ₹ 78,341.24 crore, ₹ 78,959.88 crore and ₹64,637.64 crore, respectively.

Our Company's financial performance is substantially dependent upon the level of its net interest margins. As a result of certain reserve requirements of the Reserve Bank of India applicable to non-banking financial companies, we are structurally exposed to interest rate risk than other corporates. If the yield on our interest-earning assets does not increase at the same time or to the same extent as our cost of funds, or if our cost of funds does not decline at the same time or to the same extent as the decrease in yield on our interest-earning assets, our net interest income and net interest margin would be adversely impacted. Further, any tightening of liquidity and volatility in markets may limit our access to capital markets and result in an increase in our cost of funding. Continued volatility in international markets could also constrain and increase the cost of our borrowings and our ability to replace maturing borrowings and fund new assets.

Furthermore, we are also exposed to interest rate risks as a result of lending to customers at floating interest rates, which comprise of 44.71% of our consolidated AUM as on September 30, 2025, and in amounts and for periods which may differ from our funding sources. While we seek to match our interest rate positions to minimise interest rate risk, we are unable to assure you that significant variation in interest rates will not have an effect on our results of operations. Moreover, volatility in interest rates is sensitive to factors which are beyond our control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions, inflation and other such considerations. In a rising interest rate environment, if the yield on our interest-earning assets does not increase simultaneously with or to the same extent as our cost of funds, or, in a declining interest rate environment, if our cost of funds does not decline simultaneously or to the same extent as the yield on our interest-earning assets, our net interest income and net interest margin would be adversely impacted and the same would adversely affect our business and results of operations.

8. We may not be able to successfully sustain our growth plans.

In recent years, we have experienced steady growth. Our growth plan includes growing our secured and unsecured lending and expanding our retail customer base through strategic business alliances and marketing initiatives, expanding and diversifying our loan product portfolio, growing our operations and network across the country and expanding our customer base across various business verticals in India. However, there can be no assurance that we will be able to sustain our growth plan successfully or that we will be able to expand further or diversify our product portfolio. If we grow our Loan Book too rapidly or fail to make proper assessments of credit risks associated with new borrowers, a higher percentage of our loans may become non-performing, which would have a negative impact on the quality of our assets and our financial condition. Our gold loan business contributed 38.37% of our consolidated AUM for September 30, 2025. Our consolidated AUM for March 31, 2025 was ₹ 78,341.24 crore, which was increased to ₹ 90,122.36 crore as on September 30, 2025. Any adverse regulatory action arising from contravention of regulatory requirements may also adversely impact the IIFL Finance brand and hence, our overall business operations.

We also face a number of operational risks in executing our growth strategy. Our Company has experienced growth in our mortgage loans and microfinance loans; our branch network has expanded significantly as part of our growth strategy. Our rapid growth exposes us to a wide range of increased risks, including business and operational risks, such as the possibility of growth of NPAs, fraud risks and regulatory and legal risks.

Our ability to sustain our rate of growth also significantly depends upon our ability to recruit trained and efficient personnel and retain key managerial personnel, maintain effective risk management policies, continuing to offer products which are relevant to our target base of clients, developing managerial experience to address emerging challenges and ensuring a high standard of client service. We will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to train our employees properly may result in an increase in employee attrition rates, erode the quality of customer service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us.

Further, a principal component of our strategy is to continue to grow by expanding the size and geographical scope of our businesses, as well as the development of our business streams viz. mortgage loans, construction and real estate finance, small & medium enterprise loans, capital market finance, microfinance and home loans. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition and adversely affect our results of operations.

9. Our business requires substantial capital, and any disruption in funding sources would have a material adverse effect on our liquidity and financial condition.

Our Company's liquidity and ongoing profitability are, to a large extent, dependent upon its timely access to, and the costs associated with, raising capital. Our funding requirements historically have been met from various sources, including shareholder funding, term loans, working capital limits from banks, issuance of commercial papers and non-convertible debentures, cash credit facilities from banks and inter-corporate deposits. Thus, our Company's business growth, liquidity and profitability depends and will continue to depend on its ability to access diversified, relatively stable and low-cost funding sources as well as our Company's financial performance, capital adequacy levels, credit ratings and relationships with lenders. Any adverse developments or changes in applicable laws and regulations which limit our Company's ability to raise funds through issuance of non-convertible debentures can disrupt its sources of funding and as a consequence, could have a material adverse effect on our Company's liquidity and financial condition.

Further, the RBI vide its directions Reserve Bank of India (Commercial Banks – Credit Facilities) Directions, 2025 relating to financing of NBFCs by banks has prescribed that the exposure of a bank to single NBFC which is predominantly engaged in lending against collateral of gold jewellery (i.e. such loans comprising 50 % or more of their financial assets), shall not exceed 7.5 % of the bank's capital funds (Tier I plus Tier II Capital). However, this exposure ceiling may go up by 5 %, i.e., up to 12.5 % of banks' capital funds if the additional exposure is on account of funds on-lent by such NBFCs to the infrastructure sector.

The CF Directions also imposed certain restrictions regarding investments made by banks in securities / instruments issued by NBFCs as follows:

(i) Banks cannot invest in zero coupon bonds issued by NBFCs unless the issuer NBFC builds up sinking fund for all accrued interest and keeps it invested in liquid investments/securities (government bonds); and

(ii) Banks are permitted to invest in Non-Convertible Debentures ("**NCDs**") issued by NBFCs with original or initial maturity for up to a year NBFCs. However, while investing in such instrument's banks should be guided by the extant prudential guidelines in force, ensure that the issuer has disclosed the purpose for which the NCDs are being issued in the disclosure document and such purposes are eligible for bank finance in terms of the CF Directions.

Additionally, pursuant to RBI notification DOR.STR.REC.57/21.06.001/2023-24 dated November 16, 2023, it was decided to increase the risk weights on exposure of scheduled commercial banks on credit facilities provided to NBFCs by 25% points (over and above the risk weight associated with the given external rating) in all cases where the extant risk weight as per external rating of NBFCs is below 100%. Thereafter, on February 25, 2025, the RBI, has issued a circular, whereby, it has decided to restore the risk weights applicable to such exposures as per the external rating, as specified in Paragraph 5.8.1 of the 'Master Circular – Basel III Capital Regulations' dated April 1, 2024, as amended from time to time. The same has update has been implemented by RBI through the updated 'Master Circular – Basel III Capital Regulations' dated April 1, 2025.

These circulars could affect our business and any similar notifications released by the RBI in the future, which has a similar impact on our business could affect our growth, margins and business operations. Our Company's ability to borrow funds and refinance existing debt may also be affected by a variety of factors, including liquidity in the markets, the strength of the lenders from which our Company borrows, the amount of eligible collateral and accounting changes that may impact calculations of covenants in our Company's financing agreements. An event of default, a significant negative ratings action by a rating agency, an adverse action by a regulatory authority or a general deterioration in prevailing economic conditions that constricts the availability of credit may increase our Company's cost of funds and make it difficult for our Company to access financing in a cost-effective manner. A disruption in sources of funds or increase in cost of funds as a result of any of these factors may have a material adverse effect on our Company's liquidity and financial condition

10. We have had negative cash flows in the past including negative cash flows from operating activities and investing activities for the six months period ended September 30, 2025 and for Fiscals 2025, 2024 and 2023, and it is possible that we may experience negative cash flows in the future which could adversely affect our cash flow requirements, our ability to operate our business and implement our growth plans, thereby affecting our financial performance.

We have had negative cash flows in the past including negative cash flows from operating activities and investing activities for the six months period ending September 30, 2025 and for the Fiscals 2025, 2024 and 2023.

The table below sets forth selected information from our statements of cash flows for the six months period ending September 30, 2025 and Fiscal 2025, Fiscal 2024 and Fiscal 2023 on a consolidated basis:

(in ₹ crore, unless otherwise stated)

Particulars	Six months period ending September 30, 2025	Fiscal 2025	Fiscal 2024	Fiscal 2023
Net cash (used in) / generated from operating activities	(4,475.20)	(4,780.83)	(5,848.00)	(4,940.56)
Net cash (used in)/ generated from investing activities	(2,143.22)	(1,148.66)	(1,356.37)	(2,730.45)
Net cash (used in)/ generated from financing activities	7,092.12	5,526.25	6,042.11	5,090.04

The table below sets forth selected information from our statements of cash flows for the six months period ending September 30, 2025 and Fiscal 2025, Fiscal 2024 and Fiscal 2023 on a standalone basis:

(in ₹ crore, unless otherwise stated)

Particulars	Six months period ending September 30, 2025	Fiscal 2025	Fiscal 2024	Fiscal 2023
Net cash (used in) / generated from operating activities	(4,774.69)	(5,309.69)	(1,556.27)	(2,080.52)
Net cash (used in)/ generated from investing activities	(290.87)	(674.80)	(2,054.93)	(1,384.03)
Net cash (used in)/ generated from financing activities	6,372.83	5648.80	2711.25	870.00

For further details, see "*Financial Information*" on page 233. We cannot assure you that we will not experience negative cash flows in the future. If we continue to experience such negative cash outflows in the future, this could adversely affect our business prospects, financial condition, and results of operations.

11. Our contingent liabilities could adversely affect our financial condition.

As per the consolidated financial statements of our Company for the Fiscal 2025, we had certain contingent liabilities not

provided for, amounting to ₹ 1,349.98 crore as of March 31, 2025. Further, as per the standalone financial statements of our Company for Fiscal 2025, we had certain contingent liabilities not provided for, amounting to ₹ 1,232.15 crore as of March 31, 2025. The contingent liability amounts disclosed in our Audited Financial Statements represent estimates and assumptions of our management based on advice received. If, for any reason, these contingent liabilities materialize, it may adversely affect our financial condition. For more details regarding the contingent liabilities please see the "*Financial Information*" on page 233.

12. Our growth will depend on our continued ability to access funds at competitive rates which are dependent on a number of factors including our ability to maintain our credit ratings.

As we are a "non-deposit accepting" NBFC-ML and do not have access to deposits, our liquidity and ongoing profitability are primarily dependent upon our timely access to, and the costs associated with raising capital. Our business is significantly dependent on funding from the debt capital markets and commercial borrowings. The demand for such funds is competitive and our ability to obtain funds at competitive rates will depend on various factors including our ability to maintain positive credit ratings. Ratings reflect a rating agency's opinion of our financial strength, operating performance, strategic position, and ability to meet our obligations. In relation to our long-term debt instruments, we have long term ratings of **'**AA/Stable**'** from Crisil, 'IND AA/Stable**'** from India Rating, **'**[ICRA] AA;(Negative)' from ICRA. Further Brickwork Ratings has given our Company a rating of 'BWR AA+/ Stable' for our non-convertible debentures. In relation to our short-term debt instruments, we currently have a short-term rating of A1+ from Crisil and ICRA respectively.

Fitch Ratings has put our Company's long-term issuer default rating (IDR) and global medium-term note programme at 'B+' with positive outlook. S&P Global ratings has put our Company's long-term issuer default rating (IDR) and global medium-term note programme a rating of B+ / Stable.

Any downgrade of our credit ratings might increase borrowing costs and constrain our access to capital and debt markets and, as a result, would negatively affect our net interest margin and our business. In addition, downgrades of our credit ratings could increase the possibility of additional terms and conditions being added to any additional financing or refinancing arrangements in the future. Any such adverse development could adversely affect our business, financial condition and results of operations.

Our business depends and will continue to depend on our ability to access diversified funding sources. Changes in economic and financial conditions or continuing lack of liquidity in the market could make it difficult for us to access funds at competitive rates. While our borrowing costs have been competitive in the past due to our ability to raise debt products, credit rating and our asset portfolio, in the event we are unable to access funds at an effective cost that is comparable to or lower than our competitors, we may not be able to offer competitive interest rates for our loans. This may adversely impact our business and results of operations.

13. Insurance of relevant assets obtained by our borrowers may not be adequate to protect them against all potential losses, which could indirectly affect our ability to recover our loans to such borrowers. Further, our insurance coverage may not adequately protect us against losses.

Pursuant to our loan agreements, where loans are extended on the basis of a charge on assets, our borrowers are required to create a charge on their assets in our favour in the form of hypothecation or mortgage, or both. In addition, the terms and conditions of the loan agreements require our borrowers to maintain insurance against damage caused by any disasters including floods, fires and earthquakes or theft on the assets charged, primarily as collateral against the loan granted by us. However, our borrowers may not have obtained the required insurance coverage, or may not renew the insurance policies, or the amount of insurance coverage may be less than the replacement cost of the relevant assets and therefore insufficient to cover all financial losses that our borrowers may suffer, or at all, resulting in adverse effect on our business and financial condition.

We maintain such insurance coverage that we believe is adequate for our operations. Our insurance policies, however, may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. We cannot, however, assure you that the terms of our insurance policies will be adequate to cover any damage or loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim.

A successful assertion of one or more large claims against us that exceeds our available insurance coverage or changes in our insurance policies, including premium increases or the imposition of a larger deductible or coinsurance requirement, could adversely affect our business, financial condition and results of operations. These circulars could

affect our business and any similar notifications released by the RBI in the future, which has a similar impact on our business could affect our growth, margins and business operations.

14. Our Company's inability to obtain, renew or maintain the statutory and regulatory permits and approvals which are required to operate its existing or future businesses may have a material adverse effect on its business, financial condition and results of operations.

NBFCs in India are subject to regulations and supervision by the RBI. In addition to the numerous conditions required for the registration as an NBFC with the RBI, our Company is also required to comply with certain other regulatory requirements for its business imposed by the RBI. In the future, there could be circumstances where our Company may be required to renew applicable permits and approvals, including its registration as an NBFC-ML and obtain new permits and approvals for its current and any proposed operations or in the event of a change in applicable law and regulations. There can be no assurance that RBI or other relevant authorities will issue any such permits or approvals in the timeframe anticipated by our Company, or at all. Failure by our Company to renew, maintain or obtain the required permits or approvals may result in an interruption of its operations and may have a material adverse effect on its business, financial condition and results of operation. In addition, our branches are required to be registered under the relevant shops and establishments laws of the states in which they are located. The shops and establishment laws regulate various employment conditions, including working hours, holidays and leave and overtime compensation. If we fail to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected. If we fail to comply, or a regulator claims we have not complied, with any of these conditions, our certificate of registration may be suspended or cancelled and we shall not be able to carry on such activities.

15. Our current joint statutory auditors and our erstwhile statutory auditors have highlighted certain emphasis of matter / remark to their audit report relating to our audited financial statements, which may affect our future financial results.

There were no modifications i.e., unmodified opinions were given by our current Joint Statutory Auditors audit reports , limited review report for the H1 2026 Unaudited Financial Results, and by our Erstwhile Statutory Auditors in their audit reports for the Audited Financial Statements. However, certain emphasis of matter ("**EOM**") / remarks were highlighted by our current Joint Statutory Auditors for FY 2025 and by our Erstwhile Joint Statutory Auditors for FY 2024 in their audit reports. Following are the details of EOM / remarks in our audit reports:

Period	Emphasis of Matter / Remarks
2025 Audited Consolidated Financial Statements	We draw attention to Note 42.3 to the consolidated financial statements, which describe the matter relating to excess remuneration as compared to minimum remuneration specified under Schedule V to the Act, to the extent of Rs. 9.88 crore paid to the Managing Director of the Holding Company as a result of inadequate profit for the year, and subsequent resolution passed by the Board of Directors of the Holding Company ratifying the same. As stated therein, approval by the Board of Directors of the Holding Company is subject to approval by the shareholders of the Holding Company, which is proposed to be taken at the ensuing Annual General Meeting by way of a special resolution. Excess remuneration paid is accounted as expenses for the year and pending the approval, the Managing Director is holding the amount in trust for the Holding Company. Our opinion is not modified in respect of this matter.
2025 Audited Standalone Financial Statements	We draw attention to Note 44.3 to the standalone financial statements, which describe the matter relating to excess remuneration as compared to minimum remuneration specified under schedule V to the Act, to the extent of Rs. 9.88 crore paid to the Managing Director of the Company as a result of inadequate profit for the year, and subsequent resolution passed by the Board of Directors of the Company ratifying the same. As stated therein, approval by the Board of Directors is subject to approval by the shareholders of the Company, which is proposed to be taken at the ensuing Annual General Meeting by way of a special resolution. Excess remuneration paid is accounted as expenses for the year and pending the approval, the Managing Director is holding the amount in trust for the Company. Our opinion is not modified in respect of this matter.
2024 Audited Consolidated Financial Statements	This section of our report contains and we reproduce hereunder sections of our audit report of even date issued on the standalone financial statements of the Holding Company described under Material Uncertainty Relating to Going Concern and Emphasis of Matter sections, respectively.

	1. We draw attention to Note No 48 in the financial statements, which explains that the Reserve Bank of India ("RBI") vide its directive dated March 4, 2024 and in exercise of its powers under Section 45l(1)(b) of the Reserve Bank of India, 1934 has directed the Company to cease and desist, with immediate effect, from sanctioning or disbursing gold loans or assigning / securitizing/ selling any of its gold loans. However, the RBI permitted the company to continue to service its existing gold loan portfolio through usual collection and recovery processes. The Company has total Loan book of Rs. 17,842 crores and Rs. 14,047 crores as on March 31, 2024, and March 31, 2023 respectively. Out of the above, the Gold Loan stood at Rs. 9,634 crores (54.00%) and Rs. 8,330 crores (59.30%) for each respective financial year. These events or conditions may cast significant doubt on the Company's ability to continue as a going concern. However, in view of the factors as described in the note no 49 in the financial statements, the management is of the view that the going concern basis of accounting is appropriate. 2. We refer to Note No 49 of the accompanying financial statements that explains the directives issued by The Reserve Bank of India ("RBI") dated March 4, 2024. The Note explains the supervisory concerns noted by the RBI in respect of restrictions on loan against gold. These supervisory restrictions are under review by RBI post completion of special audit instituted by the RBI. Our opinion is not modified in respect of this matter.
2024 Audited Standalone Financial Statements	**Material Uncertainty related to Going Concern** We draw attention to Note No 42 in the financial statements, which explains that the Reserve Bank of India ("RBI") vide its directive dated March 4, 2024 and in exercise of its powers under Section 45l(1)(b) of the Reserve Bank of India Act, 1934 has directed the Company to cease and desist, with immediate effect, from sanctioning or disbursing gold loans or assigning / securitizing/ selling any of its gold loans. However, the RBI permitted the company to continue to service its existing gold loan portfolio through usual collection and recovery processes. The Company has total Loan book of Rs. 17,842 crores and Rs. 14,047 crores as on March 31, 2024 and March 31, 2023 respectively. Out of the above, the Gold Loan stood at Rs. 9,634 crores (54.00%) and Rs. 8,330 crores (59.30%) for each respective financial year. These events or conditions may cast significant doubt on the Company's ability to continue as a going concern. However, in view of the factors as described in the note no 43 in the financial statements, the management is of the view that the going concern basis of accounting is appropriate. Our opinion is not modified in respect of this matter. **Emphasis of matter** We refer to Note No 42 of the accompanying financial statements that explains the directives issued by The Reserve Bank of India ("RBI") dated March 4, 2024. The Note explains the supervisory concerns noted by the RBI in respect of restrictions on loan against gold. These supervisory restrictions are under review by RBI post completion of special audit instituted by the RBI. Our Opinion is not modified in respect of this Emphasis of Matter.

For further details, in relation to the emphasis of matter, etc. please see "*Financial Information*" on page 233. There can be no assurance that our statutory auditors will not include further matters of emphasis or other similar comments in the audit reports to our audited financial statements in the future, or that such remarks or matters of emphasis will not affect our financial results in future fiscal periods. Investors should consider the matters of emphasis and remark in evaluating

our financial condition, results of operations and cash flows. Any such matter of emphasis or remark in the auditors' report on our financial statements in the future may also adversely affect the trading price of the NCDs.

16. Our Company's business is dependent on relationships established through its branches with its clients. Any events that harm these relationships including closure of branches or the loss of our Company's key personnel or employees may lead to a decline in our Company's revenue and profits. Further, our Company's results of operations could be adversely affected in the event of any disputes with its employees.

Our Company's business is dependent on the key personnel and employees who directly manage client relationships. Our Company encourages dedicated personnel to service specific clients since our Company believes that this leads to long-term client relationships, a trust based business environment and over time, better cross-selling opportunities. While no key personnel or employees contribute a significant percentage of the business, the business may suffer materially if a substantial number of them either becomes ineffective or leaves the organisation. As a result, there may be an adverse effect on our Company's business and profits. While our Company believes that our Company maintains good relationships with its employees, there can be no assurance that our Company will not experience future disruptions to its operations due to disputes or other problems with its work force which may adversely affect our Company's business and results of operations.

17. As on March 31, 2025, our Company's (on a standalone basis) top 20 borrowers represented 3.84% of our total advances. Our inability to maintain relationships with these customers or any payment default by or credit losses of these customers could materially and adversely affect our business, future financial performance and results of operations.

As on March 31, 2025, our Company's top 20 borrowers on a standalone basis accounted for 3.84% of our total advances, on a standalone basis. Our business and results of operations will be adversely affected if we are unable to maintain or further develop relationships with such significant customers. There can be no assurance that we will be able to maintain the historic levels of business from such significant customers. Further, in the event we lose any such significant customer, we cannot assure that we will be able to replace them, which could have a material adverse effect on our results of operations. Our business and results of operations depend upon the timely repayment of the interest and principal from our significant customers. We cannot assure you that we will not experience delays in servicing of the loan advanced or that we will be able to recover the interest and the principal amount of the loan. Any such delay or default will adversely affect our income from operations and consequently, our profitability. In case we are unable to recover the full amount of principal and interest or any part of thereof, and the collateral is not sufficient to recover the full amount, our financial condition may be adversely affected.

18. The value of our collateral may decrease or we may experience delays in enforcing our collateral when borrowers default on their obligations to us which may result in failure to recover the expected value of collateral security exposing us to a potential loss.

As on September 30, 2025, 85.62% of our Company's loans, on a consolidated basis, to its customers is secured by collateral. Changes in asset prices may cause the value of our collateral to decline, and we may not be able to realize the full value of our collateral as a result of delays in bankruptcy and foreclosure proceedings, delays in the creation of security interests, defects or deficiencies in the perfection of collateral (including due to inability to obtain approvals that may be required from various persons, agencies or authorities), fraudulent transfers by borrowers and other factors, including depreciation in the value of the collateral and illiquid market for disposal of and volatility in the market prices for the collateral, current legislative provisions or changes thereto and past or future judicial pronouncements. Foreclosure on collateral consisting of property can be undertaken directly by lenders by fulfilling certain procedures and requirements (unless challenged in courts of law) or otherwise by a written petition to an Indian court or tribunal. An application, when made (or a legal challenge to the foreclosure undertaken directly), may be subject to delays or administrative requirements that may result in, or be accompanied by, a decrease in the value of collateral. These delays can last for several days and might lead to deterioration in the physical condition or market value of the collateral.

Delays in recovery, bankruptcy and foreclosure proceedings, defects in the title and delays in obtaining regulatory approvals for the enforcement of such collaterals may affect the valuation of the collateral. As a result, our Company may not be able to recover the full value of the collateral for the loans provided by it within the expected timeframe or at all. Further, legal proceedings may have to be initiated by our Company in order to recover overdue payments on loans and as a consequence, the money and time spent on initiating legal proceedings may adversely affect our Company's cash flow.

The value of the security provided by the borrowers to our Company may be subject to a reduction in value on account of various reasons. While our Company's customers may provide alternative security to cover the shortfall, the realisable value of the security for the loans provided by our Company in the event of a liquidation may continue to be lower than the combined amount of the outstanding principal amount, interest and other amounts recoverable from the customers.

Any default in the repayment of the outstanding credit obligations by our Company's customers may expose it to losses. A failure or delay to recover the loan value from sale of collateral security could expose our Company to potential losses. Any such losses could adversely affect our Company's financial condition and results of operations. Furthermore, the process of litigation to enforce our Company's legal rights against defaulting customers in India is generally a slow and potentially expensive process.

Similarly, in case of capital market finance, the value of collateral may be extremely volatile and in default scenario might not yield results same as per book value. A failure to recover the expected value of collateral security could expose us to a potential loss. Any such losses could adversely affect our financial condition and results of operations.

Further, the security for our MSME loans are usually movable assets, making it difficult to locate or seize in the event of any default by our customers. There can also be no assurance that we will be able to sell such collaterals at prices sufficient to cover the amounts under default. In addition, there may be delays associated with seizure and disposal of such collaterals, including litigations and court proceedings which is generally a slow and potentially expensive process in India. A failure or delay to recover the expected value from sale of collateral security could expose us to a potential loss. Any such losses could adversely affect our financial condition and results of operations. Accordingly, it may be difficult for us to recover amounts owed by defaulting customers in a timely manner or at all.

19. Certain of our group companies are involved in regulatory proceedings or have received notices or administrative warning letters from SEBI in the ordinary course of their business. Any adverse orders in such proceedings or pursuant to such notices may result in monetary penalties or administrative warnings or suspension or debarring or cancellations of registrations of the respective entities. While there is no monetary impact on our Company, we may face adverse reputational impact on account of orders or penalties against entities using the IIFL brand.

Certain of our group companies are SEBI registered intermediaries. In the ordinary course of their respective business, these entities have received and may in the future receive notices or administrative warnings from various regulators. Our group companies are also involved in litigation and regulatory proceedings in the ordinary course of their business. For instance, IIFL Capital Services Limited *(formerly known as IIFL Securities Limited)* and 360 One WAM Limited have in the past three financial years settled the following matters, without admission of guilt in terms of the SEBI Settlement Regulations: (i) in terms of a show cause notice dated June 16, 2022 in respect of alleged facilitation of fraudulent transactions in illiquid stock options on BSE Limited, IIFL Capital Services Limited *(formerly known as IIFL Securities Limited)*, has opted for a settlement and has paid ₹ 0.01 crore towards settlement fees. Further, SEBI had initiated two enquiry proceedings dated July 4, 2022 and July 18, 2022 against IIFL Capital Services Limited *(formerly known as IIFL Securities Limited)* under the Securities and Exchange Board of India (Intermediaries) Regulations, 2008 pursuant to SEBI's observations from six inspections conducted by SEBI during the period between April 1, 2011 to January 31, 2017. The observation letter issued pursuant to the inspections indicated failure of segregation of own funds from clients' funds, misuse of credit balance of clients' funds for the benefit of the clients having debit balance and improper designation of the client bank account. During the period of three years beginning the date of conclusion of the onsite inspection, three supplementary reports were issued in this matter by SEBI. Consequently, SEBI had passed two adjudication orders dated May 20, 2022 and May 30, 2022, imposing a penalty aggregating to ₹ 2.00 crore on IIFL Capital Services Limited *(formerly known as IIFL Securities Limited)* and a separate order dated June 19, 2023 was passed in the enquiry proceedings whereby IIFL Capital Services Limited *(formerly known as IIFL Securities Limited)* was banned on taking up / onboarding any new client for a period of two years in respect of its business as a stockbroker. IIFL Capital Services Limited *(formerly known as IIFL Securities Limited)* filed an appeal against the SEBI order before SAT. SAT vide its order dated December 07, 2023 passed a common order and partly allowed the appeals and set aside the ban on taking up / onboarding any new client for a period of two years in respect of its business as a stockbroker and also reduced penalty to ₹ 0.20 crore. SEBI has filed an appeal against the SAT order before the Supreme Court of India and the matter is currently pending before the Supreme Court of India.

Further, IIFL Capital Services Limited *(formerly known as IIFL Securities Limited),* received certain adjudication notices dated May 2, 2017 and October 28, 2021 from SEBI, alleging i) failure to do segregation of own funds from clients' funds; ii) misused credit balance of clients' funds for debit balance clients' funds; and iii) not having a designated client bank account. IIFL Capital Services Limited *(formerly known as IIFL Securities Limited) filed an* appeal before SAT on June 20, 2023 aggrieved by SEBI findings. SAT, pursuant to its order dated December 07, 2023 passed the common order and partly allowed the appeals and set aside the ban from taking new clients for a period of two years and reduced

penalty to Rs. 0.20 crore. SEBI preferred an appeal before the Supreme court against the SAT order. The same is pending.

Further, IIFL Capital Services Limited *(formerly known as IIFL Securities Limited), had received a notice from* SEBI of summary settlement dated June 14, 2024, in relation to the role played by IIFL Capital Services Limited in handling various public issues of Non- Convertible Debt Securities between August 9, 2021 to November 30, 2023. The settlement application has been filed by IIFL Capital Services before SEBI.

Further, IIFL Capital Services Limited *(formerly known as IIFL Securities Limited)*, had received a show cause notice dated October 9, 2024 in relation to association of IIFL Capital Services Limited with Tradetron and other algorithm platforms where strategies providing guaranteed returns/ consistent profit and/or past and/or expected future performance of the algorithm were hosted. IIFL Capital Services Limited filed Settlement Application and a response to the show cause notice February 27, 2025. Matter is pending with SEBI.

Further, few of our group companies have also received notices and administrative warning letters in the ordinary course of business from various regulators, including notice advising them to submit their compliance with the Securities and Exchange Board of India (Intermediaries) Regulations, 2008 in relation to the "*fit and proper criteria*". The constitutional validity of Schedule II of Securities and Exchange Board of India (Intermediaries) Regulations, 2008, as mentioned in the said notice has been challenged before the Bombay High Court and is presently pending. These notices may result in regulatory action or litigation in the future. Further, one of our group companies, IIFL Commodities Limited's application for registration with SEBI was rejected and it has been debarred from making fresh application, for the period 6 months or complete acquittal by the courts pursuant to the chargesheet or FIR filed by/with EOW, whichever is earlier. The appeal is preferred before the Securities Appellate Tribunal and the same is pending.

While there is no monetary impact on our Company, we may face adverse reputational impact on account of orders or penalties against entities using the IIFL brand.

20. Any increase in the levels of non-performing assets ("NPA") on our loan portfolio, for any reason whatsoever, would adversely affect our business and results of operations

Various factors, including a rise in unemployment, prolonged recessionary conditions, our regulators' assessment and review of our loan portfolio, a sharp and sustained rise in interest rates, developments in the Indian economy, movements in global commodity markets, fluctuations in gold prices, exchange rates and global competition, could cause an increase in the level of our non-performing assets and have a material adverse impact on the quality of our loan portfolio. Consistent with the growth of our branch network and our product portfolio, we expect an increase in our loan assets. Should the overall credit quality of our loan portfolio deteriorate, the current level of our provisions may not be adequate to cover further increases in the amount of our NPAs. Moreover, there also can be no assurance that there will be no further deterioration in our provisioning coverage as a percentage of Gross NPAs or otherwise, or that the percentage of NPAs that we will be able to recover will be similar to our past experience of recoveries of NPAs.

As of September 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, the gross value of NPAs on a standalone basis was ₹ 397.11 crore , ₹ 423.69 crore, ₹ 653.24 crore and ₹ 181.33 crore, respectively which is 1.43%, 1.88%, 3.66% and 1.29%, respectively, of our loan book. Further, As of September 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, the gross value of NPAs on a consolidated basis was ₹ 1,274.25 crore, ₹ 1,223.96 crore, ₹ 1,181.43 crore and ₹ 738.14 crore, respectively which is 2.14%, 2.23%, 2.32% and 1.84%, respectively, of our loan book on a consolidated basis.

Further as of September 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, the NPAs on gold loans portfolio on a standalone basis was ₹ 24.68 crore , ₹ 76.12 crore and ₹ 368.70 crore and ₹ 66.68 crore respectively and provision coverage ratio on a standalone basis was 42.93%, 22.67%, 34.61% and 17.42%.

If our provisioning requirements are insufficient to cover our existing or future levels of non-performing loans or other loan losses that may occur, or if future regulation (or change in accounting standards) requires us to increase our provisions, our results of operation and financials may get adversely affected including our ability to raise additional capital and debt funds at favourable terms. Further, if our customers are unable to meet their financial obligation in a timely manner, then it could adversely affect our results of operations. Any negative trends or financial difficulties particularly among our borrowers could increase the level of non-performing assets in our portfolio and adversely affect our business and financial performance. If a significant number of our customers are unable to meet their financial obligations in a timely manner, it may lead to an increase in our level of NPAs. If we are not able to prevent increases in our level of NPAs, our business and our future financial performance could be adversely affected.

21. We may be unable to realize the expected value of collateral when borrowers default on their obligations to us, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We follow internal risk management guidelines in relation to portfolio monitoring which, inter alia, include a periodic assessment of loan to security value on the basis of conservative market price levels and ageing analysis, amongst others. However, we may not be able to realize the full value of the collateral as a result of the following (among other factors):

1. delays in bankruptcy and foreclosure proceedings;
2. defects or deficiencies in the perfection of collateral (including due to inability to obtain any approvals that may be required from third parties);
3. destruction / material damage to the underlying property;
4. fraud by borrowers;
5. errors in assessing the value of the collateral;
6. illiquid market for the sale of the collateral; and
7. applicable legislative provisions or changes thereto and past or future judicial pronouncements;

As a result of any of the foregoing factors, we may not be able to realize the full value of collateral, which could have an adverse effect on our financial condition, results of operations and cash flows.

22. A failure or inadequacy in our Company's information technology and telecommunication systems or its inability to adapt to rapid technological changes may adversely affect its business, results of operation and financial condition.

Our Company's ability to operate and remain competitive depends in part on its ability to maintain and upgrade its information technology systems and infrastructure on a timely and cost-effective basis, including its ability to process a large number of transactions on a daily basis. Our Company's operations also rely on the secure processing, storage and transmission of confidential and other information in its computer systems and networks. Our Company's financial, accounting or other data processing systems and management information systems or its corporate website may fail to operate adequately or become disabled as a result of events that may be beyond its control, including a disruption of electrical or communications services. RBI has in its past inspection reports, highlighted certain deficiencies in our IT systems such as the inadequacy of IT systems to record information related to auction processes, non-maintenance of complete information related to jewellery being auctioned. Further, the information available to and received by our Company's management through its existing systems may not be timely and sufficient to manage risks or to plan for and respond to changes in market conditions and other developments in its operations. If any of these systems are disabled or if there are other shortcomings or failures in our Company's internal processes or systems, it may disrupt our Company's business or impact its operational efficiencies and render it liable to regulatory intervention or damage to its reputation. The occurrence of any such events may adversely affect our Company's business, results of operations and financial condition.

Our Company is dependent on various external vendors for the implementation of certain elements of its operations, including implementing information technology infrastructure and hardware, industry standard commercial off-the-shelf products, networking and back-up support for disaster recovery. Our Company is, therefore, exposed to the risk that external vendors or service providers may be unable to fulfil their contractual obligations to it (or will be subject to the risk of fraud or operational errors by their respective employees) and the risk that their (or their vendors') business continuity and data security systems prove to be inadequate or fail to perform. Failure to perform any of these functions by our Company's external vendors or service providers could materially and adversely affect its business, results of operations and cash flows.

In addition, the future success of our Company's business will depend in part on its ability to respond to technological advances and to emerging financing industry standards and practices on a cost-effective and timely basis. The development and implementation of such technology entails significant technical and business risks. There can be no assurance that our Company will successfully implement new technologies effectively or adapt its technology and systems to meet customer requirements or emerging industry standards. If our Company is unable, for technical, legal, financial or other reasons, to adapt in a timely manner to changing market conditions, customer requirements or technological changes, its financial condition could be adversely affected. Any technical failures associated with its information technology systems or network infrastructure, including those caused by power failures and other unauthorised tampering, may cause interruptions or delays in our Company's ability to provide services to its customers on a timely basis or at all, and may also result in added costs to address such system failures and/or security breaches, and for information retrieval and verification.

23. Any non-compliance with mandatory Anti-Money Laundering and Know Your Customer policies could expose us to additional liability and harm our business and reputation.

In accordance with the requirements applicable to us, we are mandated to comply with rules and regulations under Prevention of Money Laundering Act 2002 ("**PMLA"**), the Prevention of Money-Laundering (Maintenance of Records) Rules, 2005 and RBI Know Your Client ("**KYC**") regulations in India. These laws and regulations require us, among other things, to adopt and enforce AML and KYC policies and procedures. While we have adopted policies and procedures aimed at collecting and maintaining all AML and KYC related information from our customers in order to detect and prevent the use of our networks for money-laundering activities, there may be instances where we may be used by other parties in attempts to engage in money-laundering and other illegal or improper activities. There can be no assurance that we will be able to fully control instances of any potential or attempted violation by other parties and may, accordingly, be subject to regulatory actions, including imposition of fines and other penalties by the relevant government agencies. We have not been found in non-compliance of the PMLA in Fiscal 2023, Fiscal 2024, Fiscal 2025 and for the six months period ended September 30, 2025. Our business and reputation could suffer if any such parties use or attempt to use us for money-laundering or illegal or improper purposes and such attempts are not detected or reported to the appropriate authorities in compliance with applicable regulatory requirements.

24. We have significant exposure to the real estate sector through our housing finance and construction & real estate finance businesses and any negative trends affecting this sector could adversely affect our business and result of operations.

In our housing finance business, the primary security for the loans disbursed by our Company is the underlying property; the value of this security is largely dependent on housing market conditions prevalent at that time. The value of the collateral on the loans disbursed by our Company may decline due to adverse market conditions, including an economic downturn or a downward movement in real estate prices. In the event the real estate sector is adversely affected due to a decline of demand for real properties, changes in regulations or other trends or events, which negatively impact the real estate sector, the value of our collaterals may diminish which may affect our business and results of operations.

We have significant exposure of 46.58% as of September 30, 2025, 52.85% as of March 31, 2025 of our AUM to the real estate sector through our housing finance and construction & real estate finance businesses, on a consolidated basis. As of September 30, 2025 on a consolidated basis, we have assets under management aggregating to ₹ 90,122.36 crore, towards mortgage loans which comprises of housing loans of approximately ₹ 32,034.26 crore. MSME secured loan of ₹ 8998.69 crore and construction and developer loans (wholesale book) of ₹ 942.39 crore. In the event the real estate sector is adversely affected due to any reason whatsoever, the value of our collateral may diminish which may affect our results of operations in the event of a default in repayment by our clients.

As of September 30, 2025, the wholesale book in the mortgage loans comprises 1.05% of our consolidated AUM. The projects primarily comprise residential projects in Mumbai MMR, Delhi NCR, Bengaluru and Pune region.

Failure to recover the expected value of collateral could expose the Issuer to losses and, in turn, result in a material adverse effect on our business, results of operations, cash flows and financial condition. Following the introduction of the SARFAESI Act, we are allowed to enforce on secured property after 60 (sixty) days' notice to a borrower, whose loan has been classified as non-performing. Although the enactment of the SARFAESI Act has strengthened the rights of creditors by allowing expedited enforcement of security in an event of default, there is still no assurance that we will be able to realize the full value of our collateral, due to, among other things, delays on our part in taking action to enforce the property, delays in bankruptcy foreclosure proceedings, stock market downturns, defects in the perfection of collateral and fraudulent transfers by borrowers.

Further, among the various regulatory developments that have impacted the real estate sector recently, we believe that the implementation of the Real Estate Regulation and Development Act, 2016 ("**RERA Act**") is expected to have the biggest impact over the long term. After notification of certain provisions of the RERA Act with effect from May 2016, the remaining provisions of the RERA Act became effective from May 2017 onwards. Subsequent to this, the obligations of real estate project developers under the provisions of the RERA Act including mandatory project registration, enhanced disclosure norms and penal provisions for violation of rules have become effective across India. While most of the state governments have notified rules in relation to the RERA Act, other states are in the process of doing so.

To ensure compliance with the requirements of the RERA Act, companies in the real estate sector may need to allocate additional resources, which may increase compliance and they may face regulatory actions or be required to undertake remedial steps, which may have an adverse effect on the business, operations and financial condition of various companies in the sector leading to less than anticipated growth in the housing sector, resulting in adverse effect on our

business.

25. Majority of the gold loans we offered were due within one year of disbursement, and a failure to disburse new loans may result in a reduction of our loan portfolio and a corresponding decrease in our interest income.

Majority of the gold loans we offered were due within one year of disbursement. The relatively short term nature of our loans means that we are not assured of long term interest income streams compared to businesses that offer loans with longer terms. In addition, our existing customers may not obtain new loans from us upon maturity of their existing loans, particularly if competition increases. The short term nature of our loan products and the potential instability of our interest income could materially and adversely affect our results of operations and financial position.

26. Microfinance loans offered by our subsidiary, IIFL Samasta Finance Limited ("Samasta") are unsecured and are susceptible to various operational, credit and political risks which may result in increased levels of NPAs, thereby adversely affecting our business, results of operation and financial condition.

The focus client segment for our micro-loans is women in rural areas. The clients of Samasta typically have limited sources of income, savings and credit histories and as a result, are usually adversely affected by declining economic conditions. Further, for most of the loans provided by Samasta, clients do not provide any collateral or security for their borrowings as the RBI has mandated that loans given by NBFC-MFIs should be collateral free and should have annual household income up to ₹3,00,000 (Reserve Bank of India (Commercial Banks – Credit Facilities) Directions, 2025) for the purpose of "*consideration as microfinance loans"*. Such clients generally do not have a high level of financial resilience, and, as a result, they can be adversely affected by declining economic conditions and natural calamities. Furthermore, although Samasta uses credit bureau reports to check certain background information such as the total indebtedness of each potential client and their existing repayment/ default history, the information in such reports may be incomplete or unreliable and accordingly the credit risk analysis we carry out on potential clients may be limited. Further, Samasta relies primarily on non-traditional guaranteed mechanisms rather than any tangible assets such as collateral. Most of its loans involve a joint liability mechanism whereby borrowers form an informal joint liability group and provide joint and several guarantees for loans obtained by each member of the group. Such joint liability arrangements are likely to fail if there is no meaningful personal relationship or bond among members of such group, if there is irregular participation in group meetings, if inadequate risk management procedures have been employed, or as a result of adverse external factors such as natural calamities. As a result, its clients potentially present a higher risk of loss in case of a credit default compared to that of borrowers in other asset-backed financing products. In addition, the microfinance business is susceptible to various political and social risks, including political interference in the working of MFIs at the district, state or national level; adverse publicity or litigation relating to the microfinance sector; public criticism of the microfinance sector; introduction of a stringent regulatory regime; or religious beliefs relating to loans and interest payments, which adversely affect repayment by its clients and may have an adverse effect on our business prospects and future financial performance.

Due to the underlying profile of the clients of Samasta, we may, in the future, experience increased levels of non-performing assets and related provisions and write-offs, which would materially and adversely impact our business and results of operations.

27. A rise in the general income level of our customers may adversely affect the demand for our loans.

The size of our loans portfolios (other than housing loans) is dependent upon the demand for loans in India, which is inversely related to the general income level of our customers. A rise in the general income level in India could make our loans unattractive to some customers due to their having increased disposable income, making them less reliant on loans. Such a shift in income levels could lower our interest income, which could in turn adversely affect our business, financial condition, cash flows and results of operations.

28. We may not be able to appropriately assess the credit worthiness of our customers before extending credit facilities to them. Unavailability of adequate information or inaccurate and/or incomplete information provided by our customers may adversely affect our operations and profitability.

In deciding whether to extend credit or enter into other transactions with customers and counterparties, we may rely on information furnished to us by or on behalf of customers and counterparties, including financial statements and other financial information. We may also rely on certain representations as to the accuracy and completeness of that information and, with respect to financial statements, on reports of independent auditors. For example, in deciding whether to extend credit, we may assume that a customer's audited financial statements conform to generally accepted accounting principles and present fairly, in all material respects, the financial condition, results of operations and cash flows of the customer.

Our financial condition and results of operations could be negatively affected by relying on financial statements that do not comply with generally accepted accounting principles or other information that is materially misleading. In addition, we may not be able to place a reliance on credit bureaus to assess credit worthiness of all our borrowers segment. This may affect the quality of information available to us about the credit history of our borrowers, especially individuals and small businesses. As a result, our ability to effectively manage our credit risk may be adversely affected.

Moreover, we have implemented KYC norms and other measures, to prevent money laundering. In the event of ineffectiveness of these norms and systems, our reputation, business and results of operations may be adversely affected.

29. The Bankruptcy Code in India may affect our rights to recover loans from borrowers.

The Insolvency and Bankruptcy Code, 2016, as amended from time to time ("**Bankruptcy Code**") was notified on August 5, 2016. The Bankruptcy Code offers a uniform and comprehensive insolvency legislation encompassing all companies, partnerships and individuals (other than financial firms). It allows creditors to assess the viability of a debtor as a business decision and agree upon a plan for its revival or a speedy liquidation. The Bankruptcy Code creates a new institutional framework, consisting of a regulator, insolvency professionals, information utilities and adjudicatory mechanisms, which will facilitate a formal and time-bound insolvency resolution and liquidation process.

In case insolvency proceedings are initiated against a debtor to our Company, we may not have complete control over the recovery of amounts due to us. Under the Bankruptcy Code, upon invocation of an insolvency resolution process, a committee of creditors is constituted by the interim resolution professional, wherein each financial creditor is given a voting share proportionate to the debts owed to it. Any decision of the committee of creditors must be taken by a vote of not less than 66% of the voting share of all financial creditors. Any resolution plan approved by committee of creditors is binding upon all creditors, even if they vote against it.

In case a liquidation process is opted for, the Bankruptcy Code provides for a fixed order of priority in which proceeds from the sale of the debtor's assets are to be distributed. Before sale proceeds are distributed to a secured creditor, they are to be distributed for the costs of the insolvency resolution and liquidation processes, debts owed to workmen and other employees, and debts owed to unsecured credits. Further, under this process, dues owed to the Central and State Governments rank at par with those owed to secured creditors. Moreover, other secured creditors may decide to opt out of the process, in which case they are permitted to realise their security interests in priority.

Accordingly, if the provisions of the Bankruptcy Code are invoked against any of the borrowers of our Company, it may affect our Company's ability to recover our loans from the borrowers and enforcement of our Company's rights will be subject to the Bankruptcy Code.

Further, the GOI vide notification dated March 24, 2020 ("**Notification**") has amended section 4 of the Bankruptcy Code due the lingering impact of the COVID-19 pandemic. Pursuant to the said Notification, GoI has increased the minimum amount of default under the insolvency matters from ₹ 100,000 to ₹ 10,000,000. Therefore, the ability of our Company to initiate insolvency proceedings against the defaulters where the amount of default in an insolvency matter is less than ₹ 10,000,000 may impact the recovery of outstanding loans and profitability of our Company.

30. We may face tax related assessments or regulatory actions.

The laws and regulations governing the tax liability of our Company could change in the future and any such changes could adversely affect its business and future financial performance by requiring a restructuring of its activities, which may impact its results of operations. Further, the tax department may impose additional tax liability on our Company upon completion of their assessments of our past tax returns. Our Company cannot assure you that the tax department will not initiate scrutiny, investigation or regulatory action or reopen assessments for previous years. Any adverse finding by the tax department may have a material adverse effect on our Company's reputation, business, operations and financial conditions. For instance, on January 28, 2025, the Indian income tax department initiated a search under the Indian Income Tax Act at the Issuer's registered office and the residences of certain key management personnel of the IIFL group. The search operation concluded on February 3, 2025. Following the search, none of the Issuer's assets, including bank accounts, investments, or fixed assets have been seized by the Indian income tax department. The Issuer has provided necessary clarifications as a part of the standard procedure, and, as of the date of this Draft Shelf Prospectus the financial impact of the outcome of the search operation is not ascertainable to the Issuer. For further details, see "*Outstanding Litigations and Default*" on page 301.

31. The financing industry is becoming increasingly competitive and our growth will depend on our ability to compete effectively.

The sector in which we operate is highly competitive and we face significant competition from banks and other NBFCs. Many of our competitors are larger institutions, which may have much larger customer and funding sources, larger branch networks and more capital than we do. Some of our competitors may be more flexible and better-positioned to take advantage of market opportunities. In particular, private banks in India and many of our competitors outside of India may have operational advantages in implementing new technologies and rationalising branches. These competitive pressures affect the industry in which we operate as a whole, and our future success will depend in large part on our ability to respond in an effective and timely manner to these competitive pressures.

In our housing finance and gold loan business, we face increasing competition from commercial banks and other players in the unorganized sector. Interest rate deregulation and other liberalization measures affecting the housing finance industry, together with increased demand for home finance, have also increased our exposure to competition. The demand for housing loans has also increased due to the increase in demand of real estate, stable property prices, higher disposable incomes and increased fiscal incentives for borrowers. The demand for gold loans has also increased due to urgent borrowing or bridge financing requirements and the need for liquidity for assets held in gold and also due to increased awareness among customers of gold loans as a source of quick access to funds. All of these factors have resulted in the housing finance and gold loan industry, including our Company, facing increased competition from other lenders to the retail housing market, including commercial banks. Unlike commercial banks, we do not have access to funding from savings and current deposits of customers. Instead, we are reliant on higher cost loans and debentures for our funding requirements, which may reduce our margins compared to competitors. Our ability to compete effectively with commercial banks will depend, to some extent, on our ability to raise low-cost sources of funding in the future.

Furthermore, as a result of increased competition in the housing finance and gold loan industry, home loans and gold loans are becoming increasingly standardized and terms such as floating rate interest options for housing loans, lower processing fees, monthly rest periods and no prepayment penalties are becoming increasingly common in India. There can be no assurance that we will be able to react effectively to these or other market developments or compete effectively with new and existing players in the increasingly competitive housing finance industry. Increasing competition may have an adverse effect on our net interest margin and other income, and if we are unable to compete successfully, the origination of new loans will decline and we may not be able to achieve our growth objectives.

32. Our Company has entered into number of related party transactions and may continue to enter into related party transactions, which may involve conflict of interest.

Our Company enters into transactions with the related parties in the ordinary course of business pursuant to the applicable provisions of the Companies Act, 2013. Such transactions may give rise to current or potential conflicts of interest with respect to dealings between us and such related parties. While our Company believes that all related party transactions entered into are conducted on an arms' length basis and in the ordinary course of business, there can be no assurance that it could not have achieved more favourable terms if such transactions had not been entered into with related parties. For further details, please see "*Financial Information*" on page 233. Additionally, there can be no assurance that any dispute that may arise between our Company and related parties will be resolved in our Company's favour.

33. We are permitted to use the IIFL trademark IIFL FINANCE, by IIFL Capital Services Limited (formerly known as IIFL Securities Limited) pursuant to the trademark license agreement between our Company and IIFL Capital Services Limited (formerly known as IIFL Securities Limited). Such right to use the IIFL trademark is subject to the termination based on the terms and conditions of the trademark license agreement and any such termination may result in us being unable to use the IIFL trademark, which could have a material adverse effect on our reputation and business.

We have been given the right to use the IIFL trademark, owned by IIFL Capital Services Limited *(formerly known as IIFL Securities Limited)* pursuant to the trademark license agreement entered into between our Company and IIFL Capital Services Limited *(formerly known as IIFL Securities Limited)*. We have been provided a non-exclusive, non-transferable for a onetime fee payable to the Licensor, as set out therein, to use the trademark. Any termination of the agreement by IIFL Capital Services Limited *(formerly known as IIFL Securities Limited)* may result in us being unable to use this trademark which could have a material adverse effect on our reputation and business.

34. We may not be able to adequately protect our intellectual property rights.

Our ability to compete effectively depends in part upon protection of our intellectual property rights. On January 12,

2024, we made an application for registration of our logo " " and trademark "My Money", respectively, with the Registrar of Trade Marks, Mumbai under class 36 of the Trade Marks Act. The Trade Marks Registry has examined the captioned trade mark application and has raised objections inter alia under the provisions of Sections 9 and 11 of the Trade Marks Act, 1999. While our Company will file a response against the objections raised once the examination report is served upon us, there can be no assurance that our trademark application will be accepted. Further, there are no assurances that we will be able to register this mark. In the event we are not able to obtain registrations due to any injunctive or other adverse order issued against us by the appellate authorities in respect of the registration of our logo or slogan, we may not be able to avail legal protections under the trade mark or prevent unauthorised use of such trademarks by third parties, and in case the logo or slogan is used or claimed by a third party, our ability to use such logo or slogan may be restricted or lost, which may adversely affect our goodwill or business. For further details, please see "*Our Business*" on page 161.

35. We face asset-liability mismatches which could affect our liquidity and consequently may adversely affect our operations and profitability.

Our Company's funding requirements is met through long-term and medium-term funding sources such as bank loans and non-convertible debentures and our short-term funding requirements are met through working capital demand loans, cash credit, commercial paper and other short term loans. Our Company may face potential liquidity risks due to varying periods over which our Company's assets and liabilities mature. Our Company's inability to obtain additional credit facilities or renew its existing credit facilities in a timely and cost-effective manner, may lead to gaps and mismatches between its assets and liabilities, which in turn may adversely affect our Company's liquidity position, and in turn, its operations and financial performance. Our liquidity position may be adversely affected and we may be required to pay higher interest rates in order to meet our liquidity requirements in the future, which could have a material adverse effect on our business and financial results. For further details, please refer "*Other Regulatory and Statutory Disclosures – Residual Maturity of Assets and Liabilities*" on page 417.

36. We extend margin funding loans, or loans against shares, to our clients, and any default by a client coupled with a downturn in the stock markets could result in substantial losses for us.

We extend, margin funding loans or loans against shares which are secured by liquid, marketable securities at an appropriate or predetermined margin levels. In the event of a volatile stock market or adverse movements in stock prices, the collateral which secures the loans may decrease significantly in value, which might result in losses which our Company may be unable to support. Customers may default on their obligations to us as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure. Although we use a technology-based risk management system and follow strict internal risk management guidelines on portfolio monitoring, which include limits on the amount of margin, the quality of collateral provided by the client and pre-determined margin call thresholds, no assurance can be given that if the financial markets witnessed a significant single-day or general downturn, our financial condition and results of operations would not be adversely affected.

37. We are exposed to fluctuations in currency exchange and interest rates.

As our functional currency is the Rupee, our operating expenses are denominated primarily in Rupees. However, the Company is exposed to interest rate risk arising from its foreign currency borrowings. Interest on the borrowing is payable at a floating rate linked to the benchmark plus margin. The Company hedges the interest rate risk arising from the debt with a 'receive floating - pay fixed' interest rate swap. The Company uses cross currency swap contracts and forward exchange contracts to hedge its risks associated with interest rate and currency risk arising from the foreign currency loans.

To the extent that we are unable to match revenue received in our functional currency with liabilities paid in foreign currencies, exchange rate fluctuations in any such currency could have an adverse effect on our profitability. Substantially all of our cash flows are generated in Rupees and, therefore, significant changes in the value of the Rupee relative to the other foreign currencies could have a material adverse effect on our business, prospects, financial condition, results of operations and cash flows. Any amounts spent to hedge the risks to our business due to fluctuations in currencies may not adequately hedge against any losses we incur due to such fluctuations. There is no assurance that we will be able to reduce our foreign currency risk exposure, through the hedging transactions we have already entered into or will enter into, in an effective manner, at reasonable costs, or at all.

38. Third party industry and industry-related statistical data in this Draft Shelf Prospectus may be incomplete, out of date, incorrect or unreliable.

Industry data in this document is derived from Industry report on NBFCs commissioned by and paid for us for such purpose. The Industry report on NBFCs is not exhaustive and is based on certain assumptions, parameters and conditions. The data and statistics in the Industry report on NBFCs may be inaccurate, incomplete or unreliable.

Neither we, nor the Lead Managers have independently verified the third party and industry related data obtained from "*NBFC Report October 2025 Economic Report – December 2025*" prepared by Crisil Intelligence and other industry sources referred in this Draft Shelf Prospectus and therefore, while we believe them to be true, there can be no assurance that they are complete or reliable. Such data may also be produced on different bases from those used in the industry publications we have referenced. Therefore, discussions of matters relating to India, its economy and our industry in this Draft Shelf Prospectus are subject to the caveat that the statistical and other data upon which such discussions are based may be incomplete or unreliable. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends.

Industry sources including the "*NBFC Report October 2025 Economic Report – December 2025*" prepared by Crisil Intelligence and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. While industry sources may take due care and caution while preparing their reports, they do not guarantee the accuracy, adequacy or completeness of the data or report and do not take responsibility for any errors or omissions or for the results obtained from using their data or report. Accordingly, investors should not place undue reliance on, or base their investment decision on this information. See "*Industry Overview*" on page 121.

39. The MSMEs to which our Company provides loans may not perform as expected and our Company may not be able to control the non-performance of such businesses.

Our Company provides loans to select growing MSMEs which obtain loans against their assets and profits made by them. Our Company does not manage, operate or control such businesses or entities. Further, our Company has no control over those businesses' functions or operations. As a result, such businesses may make business, financial or management decisions which our Company does not agree or the majority shareholders or the management of such companies may make business, financial or management decisions that may be adverse to, or otherwise act in a manner that does not serve, our Company's best interests. The repayment of the loans extended to such businesses will depend to a significant extent on the specific management team of the relevant borrower entity. The actions taken by the management of our Company's customers may lead to significant losses and affect their ability to repay our Company's loans. Consequently, this may adversely affect our Company's financial performance.

40. We do not own the premises where our branch offices are located and in the event our rights over the properties is not renewed or is revoked or is renewed on terms less favourable to us, our business activities may be disrupted.

At present we do not own the premises of any of our branch offices. All such non-owned properties are leased or licensed to us. If the owners of these properties do not renew the agreements under which we occupy the premises or only agree to renew such agreements on terms and conditions that are unacceptable to us, or if the owners of such premises withdraw their consent to our occupancy, our operations may suffer a disruption. We may be unable to locate suitable alternate facilities on favorable terms, or at all, and this may have a material adverse effect on our business, results of operations and financial condition.

41. We are required to comply with the requirements of certain labour laws which may impose additional costs on us.

Our employees are required to be registered under the provisions of certain labour laws such as the Employees' State Insurance Act, 1948, the Payment of Gratuity Act, 1972, and the Employees Provident Fund and Miscellaneous Provisions Act, 1952. We are also required to maintain certain records under the provisions of these laws, which add to our costs. If we are subject to penalties under these labour laws or if we do not obtain the requisite approvals, our business, financial condition, cash flows and results of operations may be adversely affected.

42. Our results of operations could be adversely affected by any disputes with employees.

As of September 30, 2025, our Company has a standalone workforce of 16,310 employees, and our Company and our Subsidiaries have a combined workforce of 37,334 employees. Currently, none of our employees are members of any labour union. While we believe that we maintain good relationships with our employees, there can be no assurance that we will not experience future disruptions to our operations due to disputes or other problems with our work force, which

may adversely affect our business and results of operations.

43. We require several licenses and approvals for our business and in the event we are unable to procure or renew them in time or at all, our business may be adversely affected.

Our Company requires several licenses, approvals and registration in order to undertake its business activities. These registrations include registrations with the RBI as a NBFC-ML. We are also required to maintain licenses under various state Shops and Establishment Acts for some of our offices and branches. Failure by us to comply with the terms and conditions to which such permits or approvals are subject, and/or to renew, maintain or obtain the required permits or approvals may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

44. Certain of our Directors, Key Management Personnels and Senior Management Personnels may have interests in us other than reimbursement of expenses incurred and normal remuneration or benefits.

Certain of our Directors, Key Management Personnels and Senior Management Personnels may be regarded as having an interest in our Company other than reimbursement of expenses incurred and normal remuneration or benefits. Certain Directors and Senior Management Personnels, as applicable, may be deemed to be interested to the extent of Equity Shares held by them, as well as to the extent of any dividends, ESOPs, bonuses or other distributions on such Equity Shares. We cannot assure you that our Directors and Senior Management Personnels will exercise their rights as shareholders to the benefit and best interest of our Company. For further details, see sections titled "*Capital Structure*" and "*Our Management*" on pages 68 and 203, respectively.

45. Our branches are vulnerable to various operational risks, including theft, fraud, burglary and embezzlement by our employees and customers due to high volume of cash and gold jewellery handled by us.

Our business involves carrying out cash and gold jewellery transactions that expose us to the risk of fraud by employees, agents, customers or third parties, theft, burglary and misappropriation or unauthorised transactions by our employees. Storage of cash and pledged gold jewellery as part of our business entails the risk of theft and resulting loss to our reputation and business. The short tenure of the loans advanced by us and our practice of processing loan repayments within short timelines require us to store pledged gold on our premises at all points in time. With regard to all burglaries, we may not be able to recover the entire amount of the loss suffered and may receive only a partial payment of the insurance claim. While we are insured against the risk of burglary arising from our business, such insurance may not be sufficient to fully cover the losses we suffer. Additionally, our cash in transit policies do not cover theft where an employee is involved, unless such involvement is identified within 48 hours of such thefts. Further, the actual recovery of the insured amount from the insurer requires the undertaking of certain procedures, and any delay in recovery could adversely affect our reputation and results of operation.

Pursuant to the same, while we have strengthened our security policies and procedures, we cannot guarantee that theft will not be committed in the future, which could adversely affect our reputation, business and results of operations. Further, we are exposed to the risk of fraud and other misconduct by employees and customers. While we carefully recruit all of our employees and screen all our employees who are responsible for disbursement of gold loans and custody of gold, there have in the past been acts of fraud with respect to gold loans and cash related misappropriation committed by our employees.

46. Our Company has entered into securitisation/assignment agreements to sell certain loans from our outstanding loan portfolio. Our business, financial condition and results of operations could be adversely affected due to some of the restrictions imposed under such agreements or downgrade in the ratings of our securitized debt or if such assignment of loan is held to be unenforceable or due to any change in the regulatory requirements.

As part of our means of raising and/or managing our funds, we assign or securitise the receivables from our loan portfolio to banks and other institutions. Such assignment or securitization transactions are conducted on the basis of our internal estimates of our funding requirements, which may vary from time to time. As of September 30, 2025 outstanding book value of assignment was ₹ 8,217.01 crore on a standalone basis. Our Company has sold and assigned a group of similar loans from our outstanding loan portfolio to Banks/financial institutions in return for an upfront fixed consideration. Under such agreements, we have provided credit enhancement through fixed deposits with banks to the purchaser for an amount equal to a percentage of the value of the loans being assigned as per the rating agency to enhance the rating of the pool. If there is any short fall in the scheduled cash flow promised to the investor then credit enhancement will be utilized to that extent.

Further, any change in statutory and/regulatory requirements such as securitisation guidelines issued by RBI in June 2018 in relation to assignments or securitizations by financial institutions, including the requirements prescribed by RBI and the Government of India, could have an adverse impact on our assignment or securitization transactions. Any adverse changes in the policy and/or regulations in connection with securitization of assets by NBFCs and/or new circulars and/or directions issued by the RBI in this regard, affecting NBFCs or the purchasers of assets, would affect the securitization market in general and our ability to securitize and/or assign our assets.

47. Our loan portfolio may no longer continue to be classified as priority sector advances by the RBI.

The RBI currently mandates domestic commercial banks operating in India to maintain an aggregate 40% of adjusted net bank credit or credit equivalent amount of off-balance sheet exposure, whichever is higher as "priority sector advances". These include advances to agriculture, micro and small enterprises, micro enterprises within the micro and small enterprises sector, export credit and advances to weaker sections where the government seeks to encourage flow of credit for developmental reasons. Banks in India that have traditionally been constrained or unable to meet these requirements organically have relied on specialised institutions like us that are better positioned to or exclusively focus on originating such assets through on-lending or purchase of assets or securitised and assigned pools to comply with these targets.

In the event that any part of our loan portfolio is no longer classified as a priority sector advance by the RBI, or if the laws relating to priority sector lending as applicable to the banks undergo a change, our ability to securitise/assign our asset pool will be hampered, which may adversely affect our financial condition, results of operations and/or cash flows.

48. A decline in our capital adequacy ratio could restrict our future business growth.

Pursuant to the Reserve Bank of India (Non-Banking Financial Company – Registration, Exemption and Framework for Scale Based Regulation) Directions, 2025 vide the circular dated November 28, 2025, as amended all NBFC-ML have to maintain a minimum capital ratio, consisting of Tier I and Tier II capital, which shall not be less than 15% of its aggregate risk weighted assets on balance sheet and risk adjusted value of off-balance sheet items and Tier I capital of 10%. On a standalone basis, our capital adequacy ratio computed on the basis of applicable RBI requirements was 18.55% as of September 30, 2025, with Tier I capital comprising 13.68%, respectively. If we continue to grow our loan portfolio and asset base, we will be required to raise additional Tier I and Tier II capital in order to continue to meet applicable capital adequacy ratios with respect to our business. There can be no assurance that we will be able to raise adequate additional capital in the future on terms favourable to us or at all, and this may adversely affect the growth of our business.

49. Our Company may have to comply with stricter regulations and guidelines issued by regulatory authorities in India.

Our Company is regulated principally by and have reporting obligations to the RBI and our subsidiary is regulated by and have reporting obligations to NHB. Our Company is also subject to the corporate, taxation and other laws in effect in India. In recent years, existing rules and regulations have been modified, new rules and regulations have been enacted and reforms have been implemented which are intended to provide tighter control and more transparency. Moreover, new regulations may be passed that restrict our ability to do business.

Our Company cannot assure you that we will not be subject to any adverse regulatory action in the future. Further, these regulations are subject to frequent amendments and depend upon government policy. The costs of compliance may be high, which may affect our profitability. If we are unable to comply with any such regulatory requirements, our business and results of operations may be materially and adversely affected.

50. Our Company is subject to certain restrictive covenants in our loan documents, which may restrict our operations and ability to grow and may adversely affect our business. Any default in compliance with the material covenants could adversely affect our financial condition, and/or our ability to obtain financing in the future.

There are restrictive covenants in the agreements we have entered into with our lenders. These restrictive covenants require us to maintain certain financial ratios and seek the prior permission of these banks/financial institutions for various activities, including, amongst others, selling, leasing, transferring or otherwise disposing of any part of our business or revenues, effecting any scheme of amalgamation or reconstitution, implementing a new scheme of expansion, taking up an allied line of business or making any amendments to Memorandum and Articles of Association etc. Such restrictive covenants in our loan documents may restrict our operations or ability to expand and may adversely affect our business.

IIFL Samasta Finance Limited, one of the principle subsidiaries of the Company, is in breach of certain asset quality related covenants in relation to some of its facilities. These breaches have arisen due to the prevailing challenges in the

microfinance industry, which have had an impact on the overall asset quality and performance metrics of microfinance institutions. Considering the broader industry-wide context and the systemic challenges faced by the microfinance institutions, none of the lenders of SFL have enforced their rights in relation to the aforesaid breach of covenants.

A failure to observe the covenants under our financing arrangements or to obtain necessary consents required thereunder may lead to the termination of our credit facilities, acceleration of all amounts due under such facilities and the enforcement of any security provided. Any acceleration of amounts due under such facilities may also trigger cross default provisions under our other financing agreements. If the obligations under any of our financing documents are accelerated, we may have to dedicate a substantial portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes. Further, during any period in which we are in default, we may be unable to raise, or face difficulties raising, further financing. Any of these circumstances could adversely affect our business, credit rating and financial condition, cash flows and results of operations.

51. We may experience difficulties in expanding our business into new regions and markets in India.

As part of our growth strategy, we continue to evaluate attractive growth opportunities to expand our business into new regions and markets in India. Factors such as competition, culture, regulatory regimes, business practices and customs and customer requirements in these new markets may differ from those in our current markets, and our experience in our current markets may not be applicable to these new markets. In addition, as we enter new markets and geographical regions, we are likely to compete not only with other banks and financial institutions but also the local unorganised or semi-organised private financiers, who are more familiar with local regulations, business practices and customs, and have stronger relationships with customers.

If we plan to expand our geographical footprint, our business may be exposed to various additional challenges, including: obtaining necessary governmental approvals; identifying and collaborating with local business and partners with whom we may have no previous working relationship; successfully gauging market conditions in local markets with which we have no previous familiarity; attracting potential customers in a market in which we do not have significant experience or visibility; being susceptible to local taxation in additional geographical areas of India; and adapting our marketing strategy and operations to different regions of India in which different languages are spoken. Our inability to expand our current operations may adversely affect our business prospects, financial conditions, results of operations and/or cash flows.

52. We may not be able to fully comply with insider trading rules and regulations, which could result in criminal and regulatory fines and severe reputational damage. Further, we may fail to detect illegal or improper activities in our business operations on a timely basis, which may have an adverse effect on our reputation, business operations, financial condition, cash flows and results of operation.

We are required to comply with applicable insider trading laws and regulations, including the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015. These laws and regulations require us to establish sound internal control policies and reporting procedures with respect to insider trading. Such policies and procedures require us to, among other things, establish or designate a policy for prohibition of insider trading which imposes reporting obligations on connected persons who are in possession of undisclosed price sensitive information in relation to the securities of our Company. Further, we are subject to various laws relating to the prevention of other conflicts of interest. Conflicts of interest may exist between, (i) our departments; (ii) us and our vendors; (iii) different customers serviced by us; (iv) our employees and us; or between (v) our customers and our employees. Although we have internal controls and measures in place, there is no assurance that we will always manage such conflicts of interest, including compliance with various applicable laws and regulations. If the controls and measures implemented for detecting or eliminating insider trading or other improper or illegal trading activities which result in conflicts of interest are considered inadequate under applicable laws and regulations by any regulatory, governmental or judicial authority, we may be subject to penal action, freezing or attachment of our assets, imposition of fines, or both. There is no assurance that the controls and measures implemented by us are adequate to detect or eliminate every instance of insider trading in a timely manner or at all. Any such lapse may adversely affect our reputation, business operations, financial condition, cash flows and results of operations.

53. We utilize the services of certain third parties for our operations and any deficiency or interruption in their services could adversely affect our business and results of operations.

We rely on third parties, such as direct selling agents, recovery agents, and other service providers to facilitate our business operations. All our third party contracts are subject to outsourcing guidelines issued by RBI and any other

regulatory authority from time to time. We are exposed to various risks related to the business of such third parties, including the following: (i) fraud or misconduct, including mis-selling, by such third parties; (ii) operational failure of such third parties systems; (iii) adverse change or termination in our relationship with such third parties; (iv) failures in legal or regulatory compliance, by such third parties; (v) regulatory changes relating to the operations of such third parties; (vi) violation of laws and regulations, including those relating to licensing or registration by such third parties; and (vii) regulatory actions due to improper business practices of such third parties.

Any of the above risks may result in litigation or regulatory action against us, which could have a material adverse effect on our business, reputation, financial condition, cash flows and results of operations. Outsourcing of our certain operations to third-party service providers. Further, there is no assurance that such third-party service providers will comply with regulatory requirements or meet their contractual obligations to us in a timely manner, or at all. Third-party service providers may breach agreements they have with us because of factors beyond our control. They may also terminate or refuse to renew their agreements because of their own financial difficulties or business priorities, potentially at a time that is costly or otherwise inconvenient for us. In addition, if our third-party service providers fail to operate in compliance with regulations or corporate and societal standards, we could suffer reputational harm by association, which would likely cause a material adverse effect on our business, financial condition, cash flows, results of operations and prospects. We also rely on third parties to provide certain critical IT infrastructure. If the third parties upon which we rely cannot expand system capacity to handle increased demand, or if any of their systems otherwise fail to perform or experience interruptions, malfunctions, disruptions in service, slower response times or delays, then we could incur reputational damage, regulatory sanctions, litigation and loss of trading, any of which could materially adversely affect our business, financial condition, cash flows and results of operations. In addition, we license certain software and technology from third parties. Any premature termination of our license agreements or the loss of the ability to use such software or technology for any reason would have an adverse impact on our business and operations. Rapid changes in our industry or technology may also result in our licensed technologies being recalled or discontinuation of support for outdated products or services. Any deficiencies in the infrastructure used, or processes adopted, by such third parties could have a material adverse effect on our business, results of operations and prospects.

54. Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

The amount of future dividend payments by the Issuer, if any, will depend upon a number of factors, including but not limited to our future earnings, financial condition, cash flows, working capital requirements, contractual obligations, applicable Indian legal restrictions and capital expenditures. In addition, our ability to pay dividends may be impacted by a number of factors, including restrictive covenants under the loan or financing agreements the Issuer may enter into to finance our fund requirements for our business activities. There can be no assurance that we will be able to pay dividends in the future. We may decide to retain all of our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. Additionally, in the future, we may be restricted by the terms of our financing agreements in making dividend payments unless otherwise agreed with our lenders.

55. We face difficulties and incur additional expenses in operating from rural and semi urban areas, where infrastructural facilities are limited.

A portion of our operations are conducted in rural and semi urban areas. We face certain difficulties in conducting such operations, such as accessing power facilities, transporting people and goods and maintaining profitability at branches in remote areas. We may also face increased costs in implementing security measures and expanding our advertising presence. We cannot assure that such costs will not increase in the future as we expand our network in rural and semi urban areas.

56. Our success largely depends on our management team and key personnel and our ability to attract, train and retain such persons. Our inability to attract and retain talented professionals, or the resignation or loss of key management personnel, may have an adverse impact on our business and future financial performance.

Our ability to sustain our rate of growth depends significantly upon our ability to manage key issues such as selecting and retaining key managerial personnel, developing managerial experience to address emerging challenges and ensuring a high standard of client service. In order to be successful, we must attract, train, motivate and retain highly skilled employees, especially branch managers and product executives. If we cannot hire additional qualified personnel or retain them, our ability to expand our business will be impaired and our revenue could decline. We will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to train and motivate our employees properly may result in an increase in employee attrition rates, require additional hiring, erode the quality of customer

service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us. Hiring and retaining qualified and skilled managers are critical to our future, as our business model depends on our credit-appraisal and asset valuation mechanism, which are personnel-driven operations. Moreover, competition for experienced employees can be intense. While we have an incentive structure and an ESOP designed to encourage employee retention, our inability to attract and retain talented professionals, or the resignation or loss of key management personnel, may have an adverse impact on our business and future financial performance.

57. If we fail to identify, monitor and manage risks and effectively implement our risk management policies, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our Company has devoted resources to develop our risk management policies and procedures and aim to continue to do so in the future. Please see "*Our Business*" on page 161. Despite this, our policies and procedures to identify, monitor and manage risks may not be fully effective. Some of our risk management systems are not automated and are subject to human error. Some of our methods of managing risks are based upon the use of observed historical market behaviour. As a result, these methods may not accurately predict future risk exposures, which could be significantly greater than those indicated by the historical measures.

To the extent any of the instruments and strategies we use to hedge or otherwise manage our exposure to market or credit risk are not effective, we may not be able to mitigate effectively our risk exposures in particular market environments or against particular types of risk. Further, some of our risk management strategies may not be effective in a difficult or less liquid market environment, where other market participants may be attempting to use the same or similar strategies to deal with the difficult market conditions. In such circumstances, it may be difficult for us to reduce our risk positions due to the activity of such other market participants. Other risk management methods depend upon an evaluation of information regarding markets, clients or other matters. This information may not in all cases be accurate, complete, up-to-date or properly evaluated.

Our investment and interest rate risk are dependent upon our ability to properly identify, and mark-to-market changes in the value of financial instruments caused by changes in market prices or rates. Our earnings are dependent upon the effectiveness of our management of changes in credit quality and risk concentrations, the accuracy of our valuation models and our critical accounting estimates and the adequacy of our allowances for loan losses.

If we fail to effectively implement our risk management policies, it could materially and adversely affect our business, financial condition, results of operations and cash flows.

58. Certain non-GAAP measures and other statistical information relating to our operations and financial performance have been included in this Draft Shelf Prospectus. These non-GAAP measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable with those presented by other companies.

Certain non-GAAP measures and other statistical information relating to our operations and financial performance such as net worth, return on net worth and Net Asset Value per Equity Share have been included in this Draft Shelf Prospectus. Such non-GAAP measures are supplemental measures of our performance and liquidity that are not required by, or presented in accordance with, Ind AS. Further, these non-GAAP measures are not a measurement of our financial performance or liquidity under Ind AS and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS. We compute and disclose such non-GAAP measures and other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance. However, such information may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other companies and are not measures of operating performance or liquidity defined by Ind AS.

59. Our Company is exposed to many operational risks which could materially impact our business and results of operations.

Our Company is exposed to many types of operational risks. Operational risk can result from a variety of factors, including failure to obtain proper internal authorizations, improperly documented transactions, failure of operational and information security procedures, computer systems, software or equipment, fraud, inadequate training and employee errors. We attempt to mitigate operational risk by maintaining a comprehensive system of internal controls, establishing

systems and procedures to monitor transactions, maintaining key back-up procedures, undertaking regular contingency planning and providing employees with continuous training. Any failure to mitigate such risks could adversely affect our business and results of operations.

60. Significant fraud, system failure or calamities could adversely impact our business.

We seek to protect our computer systems and network infrastructure from physical break-ins as well as fraud and system failures. Computer break-ins and power and communication disruptions could affect the security of information stored in and transmitted through our computer systems and network infrastructure. We employ security systems, including firewalls and password encryption, designed to minimize the risk of security breaches. Although we intend to continue to implement security technology and establish operational procedures to prevent fraud, break-ins, damage and failures, there can be no assurance that these security measures will be adequate. A significant failure of security measures or operational procedures could have a material adverse effect on our business and our future financial performance. Although we take adequate measures to safeguard against system-related and other frauds, there can be no assurance that it would be able to prevent frauds.

We are exposed to many types of operational risks, including the risk of fraud or other misconduct by employees and unauthorized transactions by employees. Although we have been careful in recruiting all our employees, we have in the past been held liable for the fraudulent acts committed by our employees adversely impacting our business. Our reputation could be adversely affected by significant frauds committed by employees, customers or outsiders.

61. Inaccurate appraisal of credit may adversely impact our business

We may be affected by failure of employees to comply with internal procedures and inaccurate appraisal of credit or financial worth of our clients. Inaccurate appraisal of credit may allow a loan sanction which may eventually result in a bad debt on our books of accounts. In the event we are unable to check the risks arising out of such lapses, our business and results of operations may be adversely affected.

62. Some of our Directors may have interests in entities, which are in businesses similar to ours and this may result in conflicts of interest with us.

Some of our Directors are also directors on the board of our related parties. Commercial transactions in the future between us and related parties may result in conflicting interests which could have an adverse effect on our operations. Such factors may have an adverse effect on the results of our operations and financial condition.

63. We rely on direct selling agents ("DSAs") to sell some of our products across the country. These DSAs may not perform their obligations satisfactorily or in compliance with law or may be part of unlawful/unethical behaviour which may adversely affect the business and reputation of our Company

We enter into direct selling arrangements with DSAs for the purpose of marketing and selling some of our products across India. Although adequate due diligence is conducted before entering into any DSA arrangement with any person, we cannot guarantee that there shall be no disruptions in the provision of their services to our Company or that these DSAs will adhere to their contractual obligations. If there is a disruption in the services of these DSAs, or if the DSAs discontinue their service agreement with us, our business, financial condition and results of operations will be adversely affected. In case of any dispute between our Company and the DSAs, we cannot assure you that the terms of the agreements/arrangements entered into with the DSAs will not be breached, which may result in litigation costs. Such additional cost, in addition to the cost of entering into agreements with other DSAs, may materially and adversely affect our business, financial condition and results of operations. Further, our DSAs or the personnel they employ may be engaged in unethical or unlawful behaviour or they may misrepresent or mis-sell our products and services. Due to this, we may also suffer from reputational and legal risks and these actions may materially and adversely affect our business, financial condition and results of operations.

64. Our Company and its Subsidiaries have availed or may avail of certain loans that are recallable by lenders, at any time.

Our Company and its subsidiaries have availed or may avail of loans that are repayable on demand at any time by the relevant lenders. Any such unexpected demand for immediate repayment may have a material adverse effect on the business, cash flows and financial condition of the entity against which repayment is sought.

65. Our ability to raise foreign capital may be constrained by Indian law.

As an Indian company, we are subject to exchange control laws that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted without onerous conditions, or at all. Limitations on raising foreign debt may have an adverse effect on our business, results of operations and financial condition.

66. There may be inadvertent discrepancies in our secretarial filings and/ or corporate records. We cannot assure you that no legal proceedings or regulatory actions will be initiated against our Company in the future in relation to any such discrepancies and we will not be subject to any penalty imposed by the competent authority in this regard.

We manage our internal compliance by monitoring and evaluating internal controls and ensuring all relevant statutory and regulatory compliances. However, there can be no assurance that deficiencies in our internal controls will not arise, or that we will be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal controls, in a timely manner or at all.

Accordingly, we cannot assure you that our Company will not be subject to any legal proceedings or regulatory actions, including monetary penalties by statutory authorities on account of any inadvertent discrepancies in our secretarial filings and/or corporate records in the future, which may adversely affect our business, financial condition and reputation.

EXTERNAL RISK FACTORS

67. Our results of operations have been, and may continue to be, adversely affected by Indian and international financial market and economic conditions.

Our business is highly dependent on Indian and international markets and economic conditions. Such conditions in India include fluctuations in interest rates; changes in consumer spending; the level of consumer confidence; housing prices; corporate or other scandals that reduce confidence in the financial markets, among others. International markets and economic conditions include the liquidity of global financial markets, the level and volatility of debt and equity prices and interest rates, investor sentiment, inflation, the availability and cost of capital and credit, and the degree to which international economies are expanding or experiencing recessionary pressures. The independent and/or collective fluctuation of these conditions can directly and indirectly affect demand for our lending finance and other financial products or increase the cost to provide such products. In addition, adverse economic conditions, such as declines in housing values, could lead to an increase in mortgage and other home loan delinquencies and higher write offs, which can adversely affect our earnings.

Global financial markets were and continue to be extremely volatile and were materially and adversely affected by a significant lack of liquidity, decreased confidence in the financial sector, disruptions in the credit markets, reduced business activity, rising unemployment, declining home prices and erosion of consumer confidence. These factors have contributed to and may continue to adversely affect our business, financial condition and results of operations.

68. Financial difficulties and other problems in certain financial institutions in India could cause our business to suffer and adversely affect our results of operations.

We are exposed to the risks of the Indian financial system, which in turn may be affected by financial difficulties and other problems faced by certain Indian financial institutions. Certain Indian financial institutions have experienced difficulties during recent years. Some co-operative banks (which tend to operate in rural sector) have also faced serious financial and liquidity crises. There has been a trend towards consolidation with weaker banks and NBFCs being merged with stronger entities. The problems faced by individual Indian financial institutions and any instability in or difficulties faced by the Indian financial system generally could create adverse market perception about Indian financial institutions, banks and NBFCs. Our transactions with these financial institutions and other non-banking financial institutions expose us to various risks in the event of default by a counterparty, which can be exacerbated during periods of market illiquidity.

69. Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.

Terrorist attacks and other acts of violence or war may negatively affect our business and may also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence. In addition, any deterioration

in relations between India and its neighboring countries might result in investor concern about stability in the region, which could adversely affect our business.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic and political events in India could have a negative impact on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk.

70. Natural calamities could have a negative impact on the Indian economy, particularly the agriculture sector, and cause our business to suffer.

India has experienced natural calamities such as earthquakes, a tsunami, floods and drought in the past few years. The extent and severity of these natural disasters determines their impact on the Indian economy. The erratic progress of the monsoon over the course of past few years affected sowing operations for certain crops. Further, prolonged spells of below normal rainfall or other natural calamities could have a negative impact on the Indian economy thereby, adversely affecting our business.

71. Any downgrading of India's debt rating by an international rating agency could have a negative impact on our business.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, the interest rates and other commercial terms at which such additional financing is available. Any such adverse development could adversely affect our business, financial condition and results of operations.

72. Instability of economic policies and the political situation in India could adversely affect the fortunes of the industry.

There is no assurance that the liberalization policies of the Government will continue in the future. Protests against privatization could slow down the pace of liberalization and deregulation. The Government of India plays an important role by regulating the policies and regulations that govern the private sector. The current economic policies of the Government may change at a later date. The pace of economic liberalization could change and specific laws and policies affecting the industry and other policies affecting investments in our Company's business could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our Company's business.

Unstable domestic as well as international political environment could impact the economic performance in the short term as well as the long term. The Government of India has pursued the economic liberalization policies including relaxing restrictions on the private sector over the past several years. The present Government has also announced polices and taken initiatives that support continued economic liberalization. The Government has traditionally exercised and continues to exercise a significant influence over many aspects of the Indian economy. Our Company's business may be affected not only by changes in interest rates, changes in Government policy, taxation, social and civil unrest but also by other political, economic or other developments in or affecting India.

73. Financial instability in other countries may cause increased volatility in Indian financial markets and could disrupt our business.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the economy as a whole, in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause volatility in Indian financial markets and indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India. Further, financial disruptions may occur again and could harm our business and our future financial performance.

In the event that the current difficult conditions in the global credit markets continue or if the recovery is slower than expected or if there any significant financial disruption, this could have an adverse effect on our cost of funding, loan portfolio, business, prospects, results of operations and financial condition.

74. Changing laws, rules and regulations, including taxation laws, may adversely affect our business, results of operations, cash flows and prospects.

Change on the quantum of taxes and duties levied globally, or in the terms of international trade agreements, environmental regulation or other applicable laws may require us to incur additional costs. The Government of India has implemented two major reforms in Indian tax laws, namely the Goods and Services Tax ("**GST**"), and provisions relating to general anti-avoidance rules ("**GAAR**"). The indirect tax regime in India has undergone a complete overhaul. The indirect taxes on goods and services, such as central excise duty, service tax, central sales tax, state value added tax, surcharge and excise have been replaced by GST with effect from July 1, 2017. The GST regime continues to be subject to amendments and its interpretation by the relevant regulatory authorities is constantly evolving. GAAR became effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement may result in, among others, a denial of tax benefit to us and our business. In the absence of any substantial precedents on the subject, the application of these provisions is subjective. If the GAAR provisions are made applicable to us, it may have an adverse tax impact on us. Further, if the tax costs associated with certain of our transactions are greater than anticipated because of a particular tax risk materializing on account of new tax regulations and policies, it could affect our profitability from such transactions.

Earlier, distribution of dividends by a domestic company was subject to Dividend Distribution Tax ("**DDT**"), in the hands of the company at an effective rate of 20.56% (inclusive of applicable surcharge and cess). Such dividends were generally exempt from tax in the hands of the shareholders. However, the GoI has amended the Income-tax Act, 1961 ("**IT Act**") to abolish the DDT regime. Accordingly, any dividend distribution by a domestic company is subject to tax in the hands of the investor at the applicable rate. Additionally, the domestic company is required to withhold tax on such dividends distributed at the applicable rate.

However, non-resident shareholders may claim benefit of an applicable tax treaty, subject to satisfaction of certain conditions. We may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of withholding tax pursuant to any corporate action including dividends. Further, the Finance Act, 2023 has introduced various amendments to the IT Act. There is no certainty on the impact that the Finance Act, 2023 may have on our business and operations or on the industry in which we operate. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

We cannot predict whether any new tax laws or regulations impacting our services will be enacted, the likely nature and impact of the specific terms of any such laws or regulations or whether, if at all, any laws or regulations would have an adverse effect on our business.

75. Companies operating in India are subject to a variety of central and state government taxes and surcharges.

Tax and other levies including stamp duty imposed by the central and state governments in India that affect our tax liability include central and state taxes and other levies, income tax, goods and service tax, stamp duty and other special taxes and surcharges which are introduced on a temporary or permanent basis from time to time. Moreover, the central and state tax scheme in India is extensive and subject to change from time to time. The statutory corporate income tax in India (as applicable to us), which includes a surcharge on the tax and a health and education cess on the tax and the surcharge. The central or state government may in the future increase the corporate income tax it imposes. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. Additional tax exposure could adversely affect our business and results of operations.

76. Trading of the NCDs may be limited by temporary exchange closures, broker defaults, settlement delays, strikes by brokerage firm employees and disputes.

The Indian stock exchanges have experienced temporary exchange closures, broker defaults, settlement delays and strikes by brokerage firm employees. In addition, the governing bodies of the Indian stock exchanges have from time to time imposed restrictions on trading in certain securities, limitations on price movements and margin requirements. Furthermore, from time to time, disputes have occurred between listed companies and stock exchanges and other regulatory bodies, which in some cases may have had a negative effect on market sentiment.

77. If inflation were to rise in India, we might not be able to increase the prices of our services at a proportional rate in order to pass costs on to our customers and our profits might decline.

Inflation rates could be volatile, and we may face high inflation in the future as India had witnessed in the past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of transportation, salaries, and other expenses relevant to our business. Further, high inflation leading to higher interest rates may also lead to a slowdown in the economy and adversely impact credit growth. Consequently, we may also be affected and fall short of business growth and profitability.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our operating expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

While the Government of India through the RBI has previously initiated economic measures to combat high inflation rates, it is unclear whether these measures will remain in effect, and there can be no assurance that Indian inflation levels will not rise in the future.

78. We are subject to regulatory, economic and social and political uncertainties and other factors beyond our control.

We are incorporated in India and we conduct our corporate affairs and our business in India. Consequently, our business, operations, financial performance will be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Factors that may adversely affect the Indian economy, and hence our results of operations may include:

- Any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- The impact of international trade wars or uncertain or unfavourable policies on international trade or (whether or not directly involving the Government of India);
- Any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- Prevailing income conditions among Indian customers and Indian corporations;
- Epidemic or any other public health in India or in countries in the region or globally, including in India's various neighboring countries;
- Macroeconomic factors and central bank regulation, including in relation to interest rates movements which may in turn adversely impact our access to capital and increase our borrowing costs;
- Volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- Decline in India's foreign exchange reserves which may affect liquidity in the Indian economy;
- Political instability, including terrorism or military conflict in India or in countries in the region or globally, including in India's various neighboring countries;
- Civil unrest, acts of violence, regional conflicts or situations or war may adversely affect the financial markets;
- International business practices that may conflict with other customs or legal requirements to which we are subject, including anti-bribery and anti-corruption laws;
- Logistical and communication challenges;
- Downgrading of India's sovereign debt rating by rating agencies;
- Changes in government policies, including taxation policies, social and civil unrest and other political, social and economic developments in or affecting India;
- Occurrence of natural calamities and force majeure events;
- Difficulty in developing any necessary partnerships with local businesses on commercially acceptable terms and/or a timely basis; and
- Being subject to the jurisdiction of foreign courts, including uncertainty of judicial processes and difficulty enforcing contractual agreements or judgments in foreign legal systems or incurring additional costs to do so.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could materially adversely affect our business, financial condition, results of operations, cash flows and prospects.

79. Significant differences exist between Ind AS and other accounting principles, such as US GAAP and IFRS, which may be material to NCD Holders' assessments of our financial condition.

The annual financial statements and H1 2026 Unaudited Financial included in this Draft Shelf Prospectus have been prepared in accordance with Ind AS. We have not attempted to quantify the impact of US GAAP or IFRS on the financial data included in this Draft Shelf Prospectus, nor do we provide a reconciliation of our financial statements to those of US GAAP or IFRS. US GAAP and IFRS differ in significant respects from Ind AS. Accordingly, the degree to which the Ind AS financial statements included in this Draft Shelf Prospectus, will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Shelf Prospectus should be limited accordingly.

80. This Draft Shelf Prospectus includes certain unaudited financial information, which has been subjected to limited review, in relation to our Company. Reliance on such information should, accordingly, be limited.

This Draft Shelf Prospectus includes certain unaudited financial information, which has been subjected to limited review, in relation to our Company. Reliance on such information should, accordingly, be limited. This Draft Shelf Prospectus includes certain unaudited financial information of our Company for the quarter and half year ended September 30, 2025, prepared in accordance with Indian Accounting Standards 34 "Interim Financial Reporting", prescribed specified under the Section 133 of the Companies Act, 2013, Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act and in respect of which the Joint Statutory Auditors of our Company have issued their limited review report dated October 30, 2025 for H1 2026 Unaudited Financial Results. As this financial information has been subject only to limited review as required under Regulations 33 and 52(2) of SEBI Listing Regulations and as described in 46 Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India, and not to an audit, any reliance by prospective investors to the Issue on such financial information for the quarter and half year ended September 30, 2025 should be limited.

Further, this Draft Shelf Prospectus includes certain unaudited financial information such as information relating to financial indebtedness as on September 30, 2025 which has not been subjected to limited review by our Joint Statutory Auditors. Accordingly, prospective investors should rely on their independent examination of our financial position and results of operations, and should not place undue reliance on, or base their investment decision solely on the financial information included in this Draft Shelf Prospectus.

RISKS RELATING TO THE ISSUE AND NCDS

81. Any downgrading in credit rating of our NCDs may affect the value of NCDs and thus to raise further debt.

The NCDs proposed to be issued under the Issue have been rated "Crisil AA/Stable (pronounced as Crisil double A rating with Stable outlook)" for an amount of ₹ 3,500 crore by Crisil *vide* their rating rationale dated February 11, 2025 and a credit bulletin dated October 30, 2025 read with rating letter dated December 3, 2025 and "BWR AA+/Stable" for an amount of ₹ 2,000 crore by Brickworks vide their rating rationale dated December 24, 2025 read with rating letter dated December 24, 2025. Securities with this rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such securities carry very low credit risk. Ratings given by Crisil and Brickworks are valid as on the date of this Draft Shelf Prospectus and shall remain valid on date of issue and allotment of NCDs and the listing of the NCDs on Stock Exchanges unless withdrawn In case of any change in credit ratings till the listing of NCDs, our Company will inform the investors through public notices/ advertisements in all those newspapers or electronic modes such as online newspapers or website of the issuer or the stock exchanges in which pre issue advertisement has been given. The rating is not a recommendation to buy, sell or hold the rated instrument and investors should take their own decisions. The rating may be subject to revision or withdrawal at any time by the assigning rating agency and each rating should be evaluated independently of any other rating. The rating agencies have a right to suspend or withdraw the rating at any time on the basis of factors such as new information. For the rating letter, rationale and press release for these ratings, see "Annexure A" of this Draft Shelf Prospectus. There are no unaccepted ratings and any other ratings other than as specified in this Draft Shelf Prospectus.

82. You may be subject to taxes arising on the sale of the NCDs.

Sale of NCDs by any holder may give rise to tax liability, under Indian taxation laws. Investors and or subscribers are advised to consult their own tax consultant with respect to the specific tax implications arising out of sale of the NCDs.

83. There may be no active market for the NCDs on the platform of the Stock Exchanges. As a result, the liquidity and market prices of the NCDs may fail to develop and may accordingly be adversely affected.

There can be no assurance that an active market for the NCDs will develop. If an active market for the NCDs fails to develop or be sustained, the liquidity and market prices of the NCDs may be adversely affected. The market price of the NCDs would depend on various factors, *inter alia*, including (i) the interest rate on similar securities available in the market and the general interest rate scenario in the country, (ii) the market price of our Equity Shares, (iii) the market for listed debt securities, (iv) general economic conditions, and (v) our financial performance, growth prospects and results of operations. The aforementioned factors may adversely affect the liquidity and market price of the NCDs, which may trade at a discount to the price at which you purchase the NCDs and/or be relatively illiquid.

84. There may be a delay in making refund/ unblocking of funds to Applicants.

We cannot assure you that the monies refundable to you, on account of (i) withdrawal of your Applications, (ii) our failure to receive minimum subscription in connection with the Base Issue, (iii) withdrawal of the Issue, or (iv) failure to obtain the final approval from the Stock Exchanges for listing of the NCDs, will be refunded to you in a timely manner. We, however, shall refund / unblock such monies, with the interest due and payable thereon as prescribed under applicable statutory and/or regulatory provisions.

85. In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets remaining to pay amounts due on the NCDs.

The NCDs will be subordinated to certain liabilities preferred by law such as the claims of the Government on account of taxes, and certain liabilities incurred in the ordinary course of our business. In the event of bankruptcy, liquidation or winding-up, our Company's assets will be available to pay obligations on the NCDs only after all of those liabilities that rank senior to these NCDs have been paid as per Section 327 of the Companies Act, 2013. In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets remaining to pay amounts due on the NCDs.

86. There is no assurance that the NCDs issued pursuant to the Issue will be listed on Stock Exchanges in a timely manner, or at all.

In accordance with Indian law and practice, permissions for listing and trading of the NCDs issued pursuant to the Issue will not be granted until after the NCDs have been issued and allotted. Approval for listing and trading will require all relevant documents to be submitted and carrying out of necessary procedures with the stock exchanges. There could be a failure or delay in listing the NCDs on the Stock Exchanges for reasons unforeseen. If permission to deal in and for an official quotation of the NCDs is not granted by the stock exchanges, our Company will forthwith repay, with interest, all monies received from the Applicants in accordance with prevailing law in this context, and pursuant to this Draft Shelf Prospectus. There is no assurance that the NCDs issued pursuant to this Issue will be listed on stock exchanges in a timely manner, or at all.

87. There are other lenders and debenture trustees who have pari passu charge over the Security provided.

There are other lenders and debenture trustees of the Company who have *pari passu* charge over the Security provided for the Issue. While the Company is required to maintain 100% asset cover for the outstanding amount of the NCDs and interest thereon, upon the Company's bankruptcy, winding-up or liquidation, the other lenders and debenture trustees will rank *pari passu* with the NCD holders and to that extent, may reduce the amounts recoverable by the NCD holders.

88. The NCD Holders may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the NCDs. Failure or delay in recovering the expected value from a sale or disposition of the assets charged as security in connection with the NCDs could expose the holders to a potential loss.

Our ability to pay interest accrued on the NCDs and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors, *inter alia*, including our financial condition, profitability and the general economic conditions in India and in the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the NCDs and/or the interest accrued thereon in a timely manner or at all. Our Company will create appropriate security in favour of the Debenture Trustee for the NCD Holders on the assets adequate to ensure 100% asset cover for the NCDs. The Debenture Trustee will protect the interest of the NCD Holders in the event of default by us in regard to timely payment of interest and repayment of principal and they will take necessary action at our cost. It is it the duty of the debenture trustee to monitor the security cover is maintained, however,

the recovery of 100% of the amount shall depend on the market scenario prevalent at the time of enforcement of the security and the realisable value of the assets charged as security, when liquidated, may be lower than the outstanding principal and/or interest accrued thereon in connection with the NCDs. A failure or delay in recovering the expected value from a sale or disposition of the assets charged as security in connection with the NCDs could expose you to a potential loss.

89. The Issuer, being a NBFC is not required to maintain a debenture redemption reserve ("DRR").

Pursuant to a Ministry of Corporate Affairs notification dated August 16, 2019 amending Section 71 of the Companies Act, 2013 and Rule 18 (7) of the Companies (Share Capital and Debentures) Rules, 2014, an NBFC is not required to maintain DRR for debentures issued through a public issue. Hence, investors shall not have the benefit of reserve funds to cover the re-payment of the principal and interest on the NCDs.

90. The fund requirement and deployment mentioned in the Objects of the Issue have not been appraised by any bank or financial institution

We intend to use the proceeds of the Issue, after meeting the expenditures of and related to the Issue, for the purpose of onward lending, financing / refinancing the existing indebtedness of our Company, and/or debt servicing (payment of interest and/or repayment / prepayment of interest and principal of existing borrowings of our Company), subject to applicable statutory and/or regulatory requirements. For further details, see "*Objects of the Issue*" on page 90. The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution. The management will have significant flexibility in applying the proceeds received by us from the Issue. The utilization details of the proceeds of the Issue shall be adequately disclosed as per applicable law. Further, as per the provisions of the SEBI NCS Regulations, we are not required to appoint a monitoring agency and therefore no monitoring agency has been appointed for the Issue.

SECTION III – INTRODUCTION

GENERAL INFORMATION

Our Company was incorporated under the provisions of the Companies Act, 1956 on October 18, 1995, under the name of Probity Research & Services Private Limited. The status of our Company was changed to a public limited company and our name was changed to Probity Research & Services Limited pursuant to a fresh certificate of incorporation dated on April 28, 2000 issued by the Registrar of Companies, Maharashtra, Mumbai. Credit Rating and Rationale

The NCDs proposed to be issued under the Issue have rated "Crisil AA/Stable (pronounced as Crisil double A rating with Stable outlook)" for an amount of ₹ 3,500 crore by Crisil vide their rating rationale dated February 11, 2025 and a

credit bulletin dated October 30, 2025 read with rating letter dated December 3, 2025 and "BWR AA+/Stable" for an amount of ₹ 2,000 crore by Brickworks vide their rating rationale dated December 24, 2025 read with rating letter dated December 24, 2025. Securities with this rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such securities carry very low credit risk. Securities with this rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such securities carry very low credit risk. Ratings given by Crisil and Brickworks are valid as on the date of this Draft Shelf Prospectus and shall remain valid on date of issue and allotment of NCDs and the listing of the NCDs on Stock Exchanges unless withdrawn. In case of any change in credit ratings till the listing of NCDs, our Company will inform the investors through public notices/ advertisements in all those newspapers or electronic modes such as online newspapers or website of the issuer or the stock exchanges in which pre issue advertisement has been given. The rating is not a recommendation to buy, sell or hold the rated instrument and investors should take their own decisions. The rating may be subject to revision or withdrawal at any time by the assigning rating agency and each rating should be evaluated independently of any other rating. The rating agencies have a right to suspend or withdraw the rating at any time on the basis of factors such as new information. For the rating letter, rationale and press release for these ratings, see "Annexure A" of this Draft Shelf Prospectus.

There are no unaccepted ratings and any other ratings other than as specified in this Draft Shelf Prospectus.

Disclaimer Statement of Crisil

Crisil Ratings Limited (Crisil Ratings) has taken due care and caution in preparing the Material based on the information provided by its client and / or obtained by Crisil Ratings from sources which it considers reliable (Information).A rating by Crisil Ratings reflects its current opinion on the likelihood of timely payment of the obligations under the rated instrument and does not constitute an audit of the rated entity by Crisil Ratings. Crisil Ratings does not guarantee the completeness or accuracy of the information on which the rating is based. A rating by Crisil Ratings is not a recommendation to buy, sell, or hold the rated instrument; it does not comment on the market price or suitability for a particular investor. The Rating is not a recommendation to invest / disinvest in any entity covered in the Material and no part of the Material should be construed as an expert advice or investment advice or any form of investment banking within the meaning of any law or regulation. Crisil Ratings especially states that it has no liability whatsoever to the subscribers / users / transmitters/ distributors of the Material. Disclaimer Statement of Brickworks

Brickwork Ratings India Pvt. Ltd. (BWR), a Securities and Exchange Board of India (SEBI) registered Credit Rating Agency and accredited by the Reserve Bank of India (RBI), offers credit ratings of Bank Loan facilities, Non- convertible / convertible / partially convertible debentures and other capital market instruments and bonds, Commercial Paper, perpetual bonds, asset-backed and mortgage-backed securities, partial guarantees and other structured / credit enhanced debt instruments, Security Receipts, Securitization Products, Municipal Bonds, etc. (hereafter referred to as "Instruments"). BWR also rates NGOs, Educational Institutions, Hospitals, Real Estate Developers, Urban Local Bodies and Municipal Corporations.

BWR wishes to inform all persons who may come across Rating Rationales and Rating Reports provided by BWR that the ratings assigned by BWR are based on information obtained from the issuer of the instrument and other reliable sources, which in BWR's best judgment are considered reliable. The Rating Rationale / Rating Report & other rating communications are intended for the jurisdiction of India only. The reports should not be the sole or primary basis for any investment decision within the meaning of any law or regulation (including the laws and regulations applicable in Europe and also the USA).

BWR also wishes to inform that access or use of the said documents does not create a client relationship between the user and BWR. The ratings assigned by BWR are only an expression of BWR's opinion on the entity / instrument and should not in any manner be construed as being a recommendation to either purchase, hold or sell the instrument. BWR also wishes to abundantly clarify that these ratings are not to be considered as an investment advice in any jurisdiction nor are they to be used as a basis for or as an alternative to independent financial advice and judgment obtained from the user's financial advisors. BWR shall not be liable to any losses incurred by the users of these Rating Rationales, Rating Reports or its contents. BWR reserves the right to vary, modify, suspend or withdraw the ratings at

any time without assigning reasons for the same.

BWR's ratings reflect BWR's opinion on the day the ratings are published and are not reflective of factual circumstances that may have arisen on a later date. BWR is not obliged to update its opinion based on any public notification, in any form or format although BWR may disseminate its opinion and analysis when deemed fit.

Neither BWR nor its affiliates, third party providers, as well as the directors, officers, shareholders, employees or agents (collectively, "BWR Party") guarantee the accuracy, completeness or adequacy of the Ratings, and no BWR Party shall have any liability for any errors, omissions, or interruptions therein, regardless of the cause, or for the results obtained from the use of any part of the Rating Rationales or Rating Reports. Each BWR Party disclaims all express or implied warranties, including, but not limited to, any warranties of merchantability, suitability or fitness for a particular purpose or use. In no event shall any BWR Party be liable to any one for any direct, indirect, incidental, exemplary, compensatory, punitive, special or consequential damages, costs, expenses, legal fees, or losses (including, without limitation, lost income or lost profits and opportunity costs) in connection with any use of any part of the Rating Rationales and/or Rating Reports even if advised of the possibility of such damages. However, BWR or its associates may have other commercial transactions with the company/entity. BWR and its affiliates do not act as a fiduciary.

BWR keeps certain activities of its business units separate from each other in order to preserve the independence and objectivity of the respective activity. As a result, certain business units of BWR may have information that is not available to other BWR business units. BWR has established policies and procedures to maintain the confidentiality of certain non-public information received in connection with each analytical process.

BWR clarifies that it may have been paid a fee by the issuers or underwriters of the instruments, facilities, securities etc., or from obligors. BWR's public ratings and analysis are made available on its web site, www.brickworkratings.com. More detailed information may be provided for a fee. BWR's rating criteria are also generally made available without charge on BWR's website.

This disclaimer forms an integral part of the Ratings Rationales / Rating Reports or other press releases, advisories, communications issued by BWR and circulation of the ratings without this disclaimer is prohibited. BWR is bound by the Code of Conduct for Credit Rating Agencies issued by the Securities and Exchange Board of India and is governed by the applicable regulations issued by the Securities and Exchange Board of India as amended from time to time.

Disclaimer Statement of Crisil Intelligence

Crisil Intelligence, a division of Crisil Limited, provides independent research, consulting, risk solutions, and data & analytics to its clients. Crisil Intelligence operates independently of Crisil's other divisions and subsidiaries, including, Crisil Ratings Limited. Impersonation

As a matter of abundant precaution, attention of the investors is specifically drawn to the provisions of sub-Section (1) of Section 38 of the Companies Act, 2013, relating to punishment for fictitious applications. Section 38(1) of the Companies Act, 2013 provides that:

"Any person who —

(a) makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or
(b) makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or
(c) otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name,

shall be liable for action under Section 447."

The liability prescribed under Section 447 of the Companies Act 2013 for fraud involving an amount of at least ₹ 0.10 crore or 1.00% of the turnover of our Company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years (provided that where the fraud involves public interest, such term shall not be less than three years) and fine of an amount not less than the amount involved in the fraud, extending up to three times of such amount. In case the fraud involves (i) an amount which is less than ₹ 0.10 crore or 1.00% of the turnover of our Company, whichever is lower; and (ii) does not involve public interest, then such fraud is punishable with an imprisonment for a term extending up to five years or a fine of an amount extending up to ₹ 0.50 crore or with both.

Recovery Expense Fund

Our Company has created a recovery expense fund in the manner as specified by SEBI in SEBI Debenture Trustee Master Circular as amended from time to time and Regulation 11 of SEBI NCS Regulations with the Designated Stock Exchange and have informed the Debenture Trustee regarding the creation of such fund. The Recovery expense fund may be utilized by Debenture Trustee, in the event of default by our Company under the terms of the Debenture Trust Deed, and the Applicable Laws, for taking appropriate legal action to enforce the security.

Settlement Guarantee Fund

Our Company will deposit amounts in the settlement guarantee fund, as applicable, in the manner as specified in the SEBI NCS Master Circular. This fund has been created under the SEBI NCS Master Circular to ensure upfront collection of charges from eligible issuers at the time of allotment of debt securities.

Underwriting

This Issue is not underwritten**.**

Arrangers to the Issue

There are no arrangers to the Issue.

Guarantor to the Issue

There are no guarantors to the Issue.

Minimum subscription

In terms of the SEBI NCS Regulations, for an issuer undertaking a public issue of debt securities the minimum subscription for public issue of debt securities shall be 75% of the Base Issue Size as specified in the relevant Tranche Prospectus(es). If our Company does not receive the minimum subscription of 75% of Base Issue Size, prior to the Issue Closing Date the entire Application Amount shall be unblocked in the relevant ASBA Account(s) of the Applicants within 8 (eight)Working Days from the Issue Closing Date or such time as may be specified by SEBI. In the event, there is a delay by our Company in unblocking the aforesaid ASBA Account within the prescribed time limit our Company will become liable to refund the Application Amount along with interest at the rate of 15 (fifteen) percent per annum for the delayed period.

Under Section 39(3) of the Companies Act, 2013 and Rule 11(2) of the Companies (Prospectus and Allotment of Securities) Rules, 2014 if the stated minimum subscription amount is not received within the specified period, the application money received is to be credited only to the bank account from which the subscription amount was remitted. To the extent possible, where the required information for making such refunds is available with our Company and/or Registrar, refunds will be made to the account prescribed. However, where our Company and/or Registrar does not have the necessary information for making such refunds, our Company and/or Registrar will follow the guidelines prescribed by SEBI in this regard included in the SEBI NCS Master Circular.

Designated Intermediaries

Self-Certified Syndicate Bank

The list of banks that have been notified by SEBI to act as the SCSBs for the ASBA and UPI Mechanism process is provided on the website of SEBI at https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognised=yes and https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=44 respectively, as updated from time to time. For a list of branches of the SCSBs named by the respective SCSBs to receive the ASBA Forms and UPI Mechanism through app/web interface from the Designated Intermediaries, refer to the above-mentioned links.

In relation to Bids submitted under the ASBA process to a Member of the Consortium, the list of branches of the SCSBs at the Specified Locations named by the respective SCSBs to receive deposits of the ASBA Forms from the Members of the Consortium is available on the website of SEBI at https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=44 and updated from time to time. www.nseindia.com for RTAs and CDPs, as updated from time to time.

The list of branches of the SCSBs at the Broker Centres, named by the respective SCSBs to receive deposits of the Application Forms from the Registered Brokers will be available on the website of the SEBI (www.sebi.gov.in) and updated from time to time.

Utilisation of Issue proceeds

For details on utilisation of Issue proceeds please see, "*Objects of the Issue*" beginning on page 90.

Issue Programme*

Issue Opens on	As specified in the relevant Tranche Prospectus(es) for each Tranche Issue.
Issue Closes on	As specified in the relevant Tranche Prospectus(es) for each Tranche Issue.
Pay in Date	As specified in the relevant Tranche Prospectus(es) for each Tranche Issue.
Deemed Date of Allotment	The date on which the Board of Directors or the Finance Committee approves the Allotment of the NCDs for this Issue or such date as may be determined by the Board of Directors or Finance Committee thereof and notified to the Designated Stock Exchange. The actual Allotment of NCDs may take place on a date other than the Deemed Date of Allotment. All benefits relating to the NCDs including interest on NCDs shall be available to the Debenture Holders from the Deemed Date of Allotment.

** The Issue shall remain open for subscription on Working Days from 10:00 a.m. to 5:00 p.m. (Indian Standard Time) during the period indicated in the relevant Tranche Prospectus, except that the Issue may close on such earlier date or extended date (subject to a minimum period of 2(two) Working Days and a maximum period of 10(ten) Working days from the date of opening of this Issue and subject to not exceeding thirty days from filing of the relevant Tranche Prospectus(es) with RoC including extensions) as may be decided by the Board of Directors of our Company or the Finance Committee thereof, subject to compliance with Regulation 33A of the SEBI NCS Regulations. In the event of an early closure or extension of the Issue, our Company shall ensure that notice of the same is provided to the prospective investors through an advertisement in an English daily national newspaper with wide circulation and a regional daily with wide circulation where the registered office of the Company is located (in all the newspapers in which pre-issue advertisement for opening of this Issue has been given on or before such earlier or initial date of Issue closure) on or before such earlier or initial date of Issue closure. Application Forms for this Issue will be accepted only from 10:00 a.m. to 5:00 p.m. or such extended time as may be permitted by the Stock Exchange, on Working Days during the Issue Period. On the Issue Closing Date, the Application Forms will be accepted only between 10:00 a.m. and 3:00 p.m. (Indian Standard Time) and uploaded until 5:00 p.m. or such extended time as may be permitted by the Stock Exchange. Further, pending mandate requests for bids placed on the last day of bidding will be validated by 5:00 p.m. on the Issue Closing Date.*

*Application Forms for the Issue will be accepted only from 10:00 a.m. to 5:00 p.m. (Indian Standard Time) ("**Bidding Period**"), during the Issue Period as mentioned in this Draft Shelf Prospectus for Issue on all Working Days (a) by the Designated Intermediaries at the Bidding Centres, or (b) by the SCSBs directly at the Designated Branches of the SCSBs. On the Issue Closing Date, Application Forms will be accepted only between 10:00 a.m. to 3:00 p.m. (Indian Standard Time) and uploaded until 5:00 p.m. (Indian Standard Time) or such extended time as may be permitted by the Stock Exchange. It is clarified that the Applications not uploaded on the Stock Exchange(s) Platform would be rejected. Further, pending mandate requests for bids placed on the last day of bidding will be validated by 5:00 p.m. (Indian Standard Time) on the Issue Closing Date.*

Due to limitation of time available for uploading the Applications on the Issue Closing Date, Applicants are advised to submit their Application Forms one day prior to the Issue Closing Date and, no later than 3.00 p.m. (Indian Standard Time) on the Issue Closing Date. Applicants are cautioned that in the event a large number of Applications are received on the Issue Closing Date, there may be some Applications which are not uploaded due to lack of sufficient time to upload. Such Applications that cannot be uploaded will not be considered for allocation under this Issue. Neither our Company, nor the Lead Managers, nor any Member of the Consortium, Registered Brokers at the Broker Centres, CDPs at the Designated CDP Locations or the RTAs at the Designated RTA Locations or designated branches of SCSBs are liable for any failure in uploading the Applications due to failure in any software/ hardware systems or otherwise. As per the SEBI NCS Master Circular, the allotment in this Issue is required to be made on the basis of date of upload of each application into the electronic book of the Stock Exchanges. However, from the date of oversubscription and thereafter, the allotments will be made to the applicants on proportionate basis in accordance with SEBI NCS Regulations and SEBI NCS Master Circular. For further details please section titled 'Issue Related Information' on page 420.

Nil

17. Details of Employee Stock option Scheme

Company has in force the following ESOS Schemes with an object of rewarding employee:

IIFL Finance Employees Stock Option Plan 2007 ***("ESOS Scheme 2007").***

Pursuant to the approval given by the shareholders at their extraordinary general meeting held on October 20, 2007, our Company has implemented "Employee Stock Option Scheme, 2007" ("**ESOS Scheme 2007**"). The Company received In Principal approval for the said scheme from National Stock Exchange of India Limited and BSE Limited on November 14, 2008 and November 25, 2008 respectively. The maximum number of options that can be granted under the Schemes shall be 7,500,000. There are no outstanding employee stock options as on March 31, 2023.

*IIFL Finance Employee Stock Option Plan 2008 ("**ESOS Scheme 2008**")*

Pursuant to the approval given by the shareholders at their extraordinary general meeting held on December 15, 2008, our Company has implemented "Employee Stock Option Scheme, 2008" ("**ESOS Scheme 2008**"). The Company received In Principal approval for the said scheme from National Stock Exchange of India Limited and BSE Limited on December 17, 2009 and December 18, 2009 respectively. The maximum number of options that can be granted under the Schemes shall be 50,000,000.

The stock options cancelled or lapsed without being exercised will be available for allocation to other Employees, subject to compliance with the provisions of the Applicable Laws.

The Nomination & Remuneration Committee shall in accordance with ESOS Scheme 2008 and Applicable Laws approve the grant of stock options from time to time to the Employees under various series and approve terms of grant of stock options under each series, including vesting schedule for each series of grants.

The Nomination & Remuneration Committee shall, in accordance with ESOS Scheme 2008 and Applicable Laws, approve the procedure for making a fair and reasonable adjustment in case of a corporate action such as stock split /consolidation, rights issues, bonus issues, merger, de-merger, sale of division and others, to ensure that the stock option holders are compensated appropriately in case of any diminution in the value of their stock options as a result of such corporate action.

Stock options granted under ESOS Scheme 2008 would vest as per the vesting schedule as determined under each series of grant approved by the Nomination & Remuneration Committee, subject to a minimum period of one year from the date of grant of such stock options. Vesting of stock options would be subject to continued employment of the respective Employee with the Company. Any acceleration in vesting schedule of the stock option will be subject to approval of Nomination & Remuneration Committee.

Please refer below for the details of stock options as on September 30, 2025:

ESOP Plan 2008:

S.No.	Particulars	(No. of Stock Options)
1	Stock options granted	5,92,70,000
2	Stock options vested	5,25,04,862
3	Stock options exercised	4,06,16,155
4	Total number of shares arising out of exercise of Stock options	4,06,16,155
5	Stock options lapsed	1,53,07,229

IIFL Finance Employee Stock Option Plan 2020 - Merger Scheme (“ESOS Scheme 2020”)

Pursuant to the merger of India Infoline Finance Limited with the Company under the Composite Scheme of Arrangement, the stock option holders of India Infoline Finance Limited were required to be granted 135 stock options by the Company for every 100 stock options held in India Infoline Finance Limited, on terms and conditions similar to the ESOP Scheme of India Infoline Finance Limited. Accordingly, the Board adopted new ESOP scheme named as “*IIFL Finance Limited Employee Stock Option 2020 - Merger Scheme*” and 8,281,111 stock option were granted under the scheme to option holders of India Infoline Finance Limited. The Company received in-principal approval for the said scheme from National Stock Exchange of India Limited and BSE Limited on June 1, 2020 and June 3, 2020 respectively.

The Nomination & Remuneration Committee shall in accordance with ESOS Scheme 2020 and Applicable Laws approve the grant of stock options from time to time to the Employees under various series and approve terms of grant of stock options under each series, including vesting schedule for each series of grants.

The Nomination & Remuneration Committee shall, in accordance with ESOS Scheme 2020 and Applicable Laws, approve the procedure for making a fair and reasonable adjustment in case of a corporate action such as stock split /consolidation, rights issues, bonus issues, merger, de-merger, sale of division and others, to ensure that the stock option holders are compensated appropriately in case of any diminution in the value of their stock options as a result of such corporate action.

Stock options granted under ESOS Scheme 2020 would vest as per the vesting schedule as determined under each series of grant approved by the Nomination & Remuneration Committee, subject to a minimum period of one year from the date of grant of such stock options. Vesting of stock options would be subject to continued employment of the respective Employee with the Company. Any acceleration in vesting schedule of the stock option will be subject to approval of Nomination & Remuneration Committee.

Please refer below for the details of stock options as on September 30, 2025:

ESOP Plan 2020:

S. No.	Particulars	(No. of Stock Options)
1	Stock options granted	82,81,111
2	Stock options vested	50,39,052
3	Stock options exercised	35,87,444
4	Total number of shares arising out of exercise of Stock options	35,87,444
5	Stock options lapsed	44,50,831

OBJECTS OF THE ISSUE

Our Company has filed this Draft Shelf Prospectus for a public issue of secured, rated, listed, redeemable, NCDs for an amount up to ₹ 2,000 crore (the "**Shelf Limit**"). The NCDs will be issued in one or more tranches up to the Shelf Limit, on the terms and conditions as set out in the relevant Tranche Prospectus for any Tranche Issue, which should be read together with this Draft Shelf Prospectus and the Shelf Prospectus.

The Issue is being made pursuant to the provisions of the SEBI NCS Regulations and the Companies Act and the rules made there under. Our Company proposes to utilize the proceeds raised through this Issue, after deducting the Issue related expenses to the extent payable by our Company ("**Net Proceeds**") towards funding the objects listed under this section.

The details of the proceeds of the Issue are summarized below:

(₹ in crore)

Particulars	Estimated amount
Gross proceeds of the Issue	As specified in the relevant Tranche Prospectus(es) for each Tranche Issue.
Less: Issue related expenses*	As specified in the relevant Tranche Prospectus(es) for each Tranche Issue.
Net proceeds	As specified in the relevant Tranche Prospectus(es) for each Tranche Issue.

**The above Issue related expenses are indicative and are subject to change depending on the actual level of subscription to this Issue, the number of allottees, market conditions and other relevant factors.*

Requirement of Funds and Utilization of Net Proceeds

The following table details the objects of this Issue (collectively, referred to herein as the "**Objects**") and the amount proposed to be financed from Net Proceeds:

Sr. No.	Objects of the Issue	Percentage of amount proposed to be financed from Net Proceeds
a.	For the purpose of onward lending, financing / refinancing the existing indebtedness of our Company, and/or debt servicing (payment of interest and/or repayment / prepayment of interest and principal of existing borrowings of our Company)*	At least 75%
b.	General Corporate Purposes**	Maximum up to 25%
	Total	**100%**

**Our Company will not utilise the proceeds of this Issue towards payment of prepayment penalty, if any*

***The Net Proceeds will be first utilized towards the Objects of this issue mentioned above. The balance is proposed to be utilized for general corporate purposes, subject to such utilization not exceeding 25% of the amount raised in this Issue, in compliance with the SEBI NCS Regulations.*

The main objects clause of the Memorandum of Association of the Company permits the Company to undertake its existing activities as well as the activities for which the funds are being raised through this Issue.

Issue related expenses break-up

The expenses for this Issue include, inter alia, lead management fees and selling commission to the Lead Managers, Consortium Members and intermediaries as provided for in the SEBI NCS Master Circular, fees payable to debenture trustees, the Registrar to the Issue, SCSBs' commission/ fees, printing and distribution expenses, legal fees, advertisement expenses, listing fees and any other expense directly related to the Issue. The Issue expenses and listing fees will be paid by our Company.

The estimated breakdown of the total expenses for each Tranche Issue shall be as specified in the relevant Tranche Prospectus(es).

Our Company shall pay processing fees to the SCSBs for ASBA forms procured by Lead Managers/ Consortium Members/Trading Members and submitted to the SCSBs for blocking the Application Amount of the Applicant, at the rate of ₹ [●] per Application Form procured, as finalized by the Company. However, it is clarified that in case of ASBA Application Forms procured directly by the SCSBs, the relevant SCSBs shall not be entitled to any ASBA Processing Fee. Further, our Company shall pay the Sponsor Bank ₹ [●] for every valid Application that is blocked.

The payment will be made on the basis of valid invoices within such timelines mutually agreed to/prescribed by the Company with the Designated Intermediaries.

Purpose for which there is a requirement of funds

As specified in the relevant Tranche Prospectus(es) for each Tranche Issue.

Funding Plan

Our Company confirms that for the purpose of this Issue, funding plan will not be applicable.

Summary of the project appraisal report

Our Company confirms that for the purpose of this Issue, project appraisal report will not be applicable.

Schedule of implementation of the project

Not Applicable

Breakup of the cost of the project for which the money is being raised

Not Applicable

Means of financing for the project

Not Applicable

Proposed deployment status of the proceeds at each stage of the project

Not Applicable

Monitoring and reporting of utilization of funds

There is no requirement for appointment of a monitoring agency in terms of the SEBI NCS Regulations. The Audit Committee of our Company shall monitor the utilisation of the proceeds of the Issue. Our Company will disclose in its financial statements for the relevant financial year commencing from Fiscal 2026, the utilisation of the proceeds of the Issue under a separate head along with details, if any, in relation to all such proceeds of the Issue that have not been utilised thereby also indicating investments, if any, of such unutilized proceeds of the Issue. Our Company shall utilize the proceeds of the Issue only upon receipt of minimum subscription, i.e., 75% of Base Issue Size as specified in the relevant Tranche Prospectus(es), the execution of the documents for creation of security and the Debenture Trust Deed and receipt of final listing and trading approval from the Stock Exchanges. Our Company, in accordance with the timeline prescribed in SEBI Listing Regulations, shall submit to the stock exchange, a statement indicating the utilization of issue proceeds of non-convertible securities, which shall continue to be given till such time the issue proceeds have been fully utilised or the purpose for which these proceeds were raised has been achieved. Our Company shall utilise the proceeds of the Issue only upon execution of the documents for creation of Security and the Debenture Trust Deed and receipt of listing and trading approval from the Stock Exchanges as stated in the section titled "*Terms of the Issue*" on page 442.

Interim use of proceeds

Our Management, in accordance with the policies formulated by it from time to time,will have the flexibility in deploying the proceeds received from the Issue. Pending utilization of the proceeds out of the Issue for the purposes described above, our Company intends to temporarily invest funds in high quality interest/ non- interest bearing liquid instruments including money market mutual funds, deposits with banks, current account of banks or temporarily deploy the funds in investment grade interest bearing securities as may be approved by the Board of Directors including any duly authorised committee there-of. Such investment would be in accordance with applicable law and the investment policies approved by the Board of Directors or any committee thereof from time to time.

General Corporate Purposes

Our Company intends to deploy up to 25% of the amount raised and allotted in the Issue for general corporate purposes, including but not restricted to routine capital expenditure, renovations, strategic initiatives, meeting any expenditure in relation to our Company as well as meeting exigencies which our Company may face in the ordinary course of business, or any other purposes as may be approved by our Board of Directors or duly authorized committee thereof.

Other Confirmations

In accordance with the SEBI NCS Regulations, our Company will not utilize the proceeds of the Issue for providing loans to or acquisition of shares of any person or company who is a part of the Promoter Group or Group Companies.

In accordance with the SEBI NCS Regulations, our Company will not utilize the proceeds of the Issue towards full or part consideration for the purchase or any other acquisition, inter alia by way of a lease, of any immovable property. No part of the proceeds from the Issue will be paid by us as consideration to our Promoter, the Directors, Key Managerial Personnel, Senior Management Personnel or companies promoted by our Promoters except in ordinary course of business.

No part of the proceeds from the Issue will be utilized for buying, trading or otherwise dealing in equity shares of any listed company. Further our Company undertakes that Issue proceeds from NCDs allotted to banks shall not be used for any purpose, which may be in contravention of RBI guidelines including those relating to classification as capital market exposure or any other sectors that are prohibited under RBI Regulations.

All monies received out of the Issue shall be credited/ transferred to a separate bank account maintained with a Scheduled Bank as referred to in section 40(3) of the Companies Act 2013.

Details of all monies utilised out of the Issue referred above shall be disclosed under an appropriate separate head in our balance sheet indicating the purpose for which such monies have been utilised along with details, if any, in relation to all such proceeds of the Issue that have not been utilized thereby also indicating investments, if any, of such unutilized proceeds of the Issue.

Details of all unutilised monies out of the Issue, if any, shall be disclosed under an appropriate separate head in our balance sheet indicating the form in which such unutilised monies have been invested.

Our Company confirms that it will not use the proceeds from the Issue, directly or indirectly, for the purchase of any business or in the purchase of any interest in any business whereby our Company shall become entitled to an interest in either the capital or profit or losses or both in such business exceeding 50% thereof, the purchase or acquisition of any immovable property (direct or indirect) or acquisition of securities of any other body corporate.

The fund requirement as above is based on our current business plan and is subject to change in light of variations in external circumstances or costs, or in our financial condition, business or strategy. Our management, in response to the competitive and dynamic nature of the industry, will have the discretion to revise its business plan from time to time and consequently our funding requirements and deployment of funds may also change.

There is no contribution being made or intended to be made by the Directors as part of the Issue or separately in furtherance of the Objects of this Issue, except to the extent of NCDs subscribed by the Director (if subscribed).

None of the Directors, Key Managerial Persons and Senior Management Personnel have any financial or other material interest in the Issue and no benefit / interest will accrue to our Directors, Key Managerial Persons and Senior Management Personnel.

Variation in terms of contract or objects in this Draft Shelf Prospectus

Our Company shall not, in terms of Section 27 of the Companies Act, 2013, at any time, vary the terms of the objects for which the Shelf Prospectus and this Draft Shelf Prospectus are issued, except as may be prescribed under the applicable laws and specifically under Section 27 of the Companies Act, 2013. Further, in accordance with the SEBI Listing Regulations, in case of any material deviation in the use of proceeds as compared to the objects of the issue, the same shall be indicated in the format as specified by SEBI from time to time.

We shall utilize the Issue proceeds only upon execution of Debenture Trust Deed, receipt of the listing and trading approval from the Stock Exchange(s) as stated in this Draft Shelf Prospectus.

Benefit / interest accruing to Promoters/Directors/ Key Managerial Person/ Senior Management Personnel out of the Object of the Issue

Neither our Promoters nor the Directors or Key Managerial Person or Senior Management Personnel of our Company are interested in the Objects of the Issue.

STATEMENT OF POSSIBLE TAX BENEFITS

To,

The Board of Directors,
IIFL Finance Limited
IIFL House, Sun Infotech Park,
Road No. 16V, Plot No. B-23,
Thane Industrial Area, Wagle Estate,
Thane – 400 604

Dear Sirs,

Subject: Proposed public issue by IIFL Finance Limited ("Company" / "Issuer") of Secured, Rated, Listed, Redeemable, Non-Convertible Debentures of face value of ₹ 1,000 Each ("NCDs") for an amount aggregating up to ₹ 2,000 crore ("Shelf Limit") ("Issue"). The NCDs will be issued in one or more tranches up to the Shelf Limit, on terms and conditions as set out in the relevant tranche prospectus(es) for each tranche of the Issue.

We, **Sharp & Tannan Associates**, Chartered Accountants and **G. M. Kapadia & Co.**, Chartered Accountants ("**Current Joint Statutory Auditors**") have been requested by the management of the Company to certify the attached **Annexure A** statement of possible tax benefits available to the Company and its debenture holders under the Income-tax Act, 1961 ("**the Act**") as amended by The Finance Bill, 2025 read with the Income Tax Rules, 1962, i.e. applicable for the Financial Year 2025-26 relevant to the assessment year 2026-27 (referred to as "**the Direct Tax Law**") in connection with the proposed Issue, pursuant to Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021, as amended ("**SEBI NCS Regulation**").

Management's Responsibility

The preparation of the enclosed **Annexure A** is the responsibility of the Management of the Company, including the preparation and maintenance of all records supporting its contents. This responsibility includes the designing, implementation and maintaining of internal control relevant to the preparation and presentation of **Annexure A** and applying an appropriate basis of preparation; and making estimates that are reasonable in the circumstances
Management of the Company is responsible for preparing the **Annexure A** under Applicable Direct Tax Law in India.

The management is also responsible for ensuring compliance with the requirements of SEBI NCS Regulations and applicable law and regulations for the purpose of furnishing this **Annexure A** and for providing all relevant information to the Lead Manager.

The Management is responsible to intimate and provide complete information to us on timely basis in respect of changes and material developments relating to subject matter of this certificate.

Our Responsibility

At your specific request, we, the joint statutory auditors of the Company, have examined the enclosed **Annexure A**. The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

Pursuant to the SEBI NCS Regulations, it is our responsibility to report whether the Statement prepared by the Company, presents, in all material respects, the possible tax benefits available to the Company and the Debenture holders of the Company, under the Direct Tax Laws as of the date of this certificate.

We have conducted our verification and issued this certificate in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised 2016) (the "**Guidance Note**") issued by the Institute of Chartered Accountants of India ("**ICAI**"). The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI.

We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

Opinion

Based on the information and documents presented to us. We report that **Annexure A**, prepared by the Company, presents, in all material respects, the possible tax benefits available to the Company and the Debenture holders of the Company, under the Direct Tax Laws as of the date of this certificate.

The benefits discussed in the enclosed **Annexure A** are not exhaustive. We are informed that this statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing Direct Tax Laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed Issue of NCD by the Company on in accordance with the provisions of SEBI NCS Regulations and the guidelines and circulars issued thereunder. We are neither suggesting nor advising the investors to invest in the Issue relying on this statement.

We are informed that the debentures of the Company will be listed on recognised stock exchanges in India. **Annexure A** has been prepared on that basis.

We do not express any opinion or provide any assurance as to whether:

i. the Company or its debenture holders will obtain/continue to obtain these tax benefits in future;
ii. the conditions prescribed for availing the tax benefits have been/would be met with; and
iii. the revenue authorities/courts will concur with the views expressed herein

Restriction of use

We hereby consent to inclusion of the extracts of this certificate in this Draft Shelf Prospectus and/or any other document in relation to the Issue, and is not to be used, referred to or distributed for any other purpose without our prior written consent. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this certificate is shown or into whose hands it may come without our prior consent in writing. Any subsequent amendment/ modification to provisions of the applicable laws may have an impact on the views contained in our statement. While reasonable care has been taken in the preparation of this certificate, we accept no responsibility for any errors or omissions therein or for any loss sustained by any person who relies on it.

Signed by the Joint Statutory Auditors of the Company

Annexure A

STATEMENT OF POSSIBLE TAX BENEFITS AVAILABLE TO THE DEBENTURE HOLDER(S)

This Annexure is based on the provisions of the Income-tax Act, 1961 ('IT Act') in force as on the current date, after considering the amendments made by the Finance Act, 2025 ('FA, 2025')

This Annexure intends to provide general information on the applicable provisions of the IT Act. However, in view of the nature of the implications, the investors are best advised to consult their respective tax advisors/consultants for appropriate counsel with respect to the specific tax and other implications arising out of their participation in the Portfolio as indicated herein.

Taxability under the IT Act

Section 50AA of the IT Act

The Finance Act, 2023 has inserted section 50AA to the IT Act to provide for a special provision for computation of capital gains in case of Market Linked Debenture (MLD). For the purposes of the said section, MLD have been defined in the Explanation to Section 50AA to mean a security by whatever name called, which has an underlying principal component in the form of a debt security and where the returns are linked to the market returns on other underlying securities or indices, and includes any security classified or regulated as a MLD by the Securities and Exchange Board of India.

Based on the definition, MLD has the following essential features:
- It is a security in the nature of debt;
- It has an underlying principal component;
- Returns with respect to such security are linked to market returns on other underlying securities or indices;
- And, by way of extension, it is also provided that any security classified or regulated by SEBI as an MLD, shall for the purposes of section 50AA of the IT Act, be deemed to be an MLD.

The Non-Convertible Debentures (NCDs) issued/ proposed to be issued by the issuer creates a borrower-lender relationship between the issuer and subscriber and to that extent, such NCDs constitute a security in the nature of debt.

Further, such NCDs, by their very nature, have a principal component (which is the price at which the subscriber subscribes to such NCDs).

However, the returns with respect to such NCDs (excess of redemption value over the principal component) is a fixed return and is not linked to any market return or underlying security or indices.

Given the same, the NCDs issued by the issuer do not satisfy the first limb of the definition of MLD as provided in the explanation to section 50AA of the IT Act and thus, such NCDs should not constitute an MLD for the purposes of section 50AA of the IT Act.

The second limb of the definition of MLD which deems any security classified or regulated by SEBI as an MLD, to be an MLD for the purposes of section 50AA of the IT Act, is an independent limb and need to be construed as such. We have been given to understand that, at present, the NCD issued/ proposed to be issued by the issuer is neither classified nor regulated by the SEBI as an MLD and accordingly, the NCDs issued by the issuer should not constitute an MLD for the purposes of section 50AA of the IT Act. However, the said fact-pattern would have to be re-visited in light of any amendment in the law as may be notified by SEBI in future.

A. Common provisions applicable to both Resident and Non-Resident debenture holders:

1. Determination of head of income for the purpose of assessability:

The returns received by the investors from the Non-Convertible Debentures ('NCD') in the form of 'interest' and gains on transfer of the NCD, may be characterized under the following broad heads of income for the purposes of taxation under the IT Act:

- Profits and gains of business or profession ('PGBP');
- Capital gains ('CG'); and
- Income from other sources ('IFOS').

For determining the appropriate head of income (as mentioned above) *vis-à-vis* the income or loss earned on/from the NCD, it will be pertinent to analyse whether the NCD are held as 'Investments' i.e. capital asset or as 'Stock-in-trade'.

If the NCD are held as 'Stock-in-trade', interest income as well as gain or loss on its transfer will be assessed to tax under the head PGBP, whereas, if the NCD are held as 'Investments', then the interest income will be assessed to tax under the head IFOS and any gain/ loss on its transfer will be assessed to tax under the head CG (explained in ensuing paragraphs), based on facts of each case.

However, as per section 2(14) of the IT Act, 'capital asset' includes, *inter alia*, securities held by a Foreign Institutional Investor ('FII') [now known as Foreign Portfolio Investor ('FPI')] which has invested in such securities in accordance with the regulations made under Securities and Exchange Board of India Act, 1992. Accordingly, such securities, held by an FPI, will be characterised as 'capital asset' and classification as 'Stock-in-trade' shall not apply.

The investors *may obtain specific advice from their tax advisors regarding the above classification and tax treatment.*

2. Taxation of Interest and Gain/ loss on transfer of debentures:

Taxation of Interest

Income by way of interest received on NCD held as 'Investments' (i.e. capital asset) will be charged to tax under the head IFOS at the rates applicable to the investor after deduction of expenses, if any, allowable under section 57 of the IT Act. These are essentially expenses (not being in the nature of capital expenditure) laid out or expended wholly and exclusively for the purpose of earning the interest income. In case of NCD held as 'Stock-in-trade', interest received thereon will be charged to tax under the head PGBP. Further, any expenditure specifically laid out or expended wholly and exclusively for the purpose of earning such interest income shall be allowed as deduction while computing income under the head PGBP.

The investors may obtain specific advice from their tax advisors regarding the tax treatment of their Interest income.

Taxation of gain or loss on transfer

a) Taxable under the head PGBP

As discussed above, depending on the particular facts of each case, the NCD may, in certain cases, be regarded to be in the nature of 'Stock-in-trade' and, accordingly, the gains from the transfer of such NCD should be considered to be in the nature of business income and hence chargeable to tax under the head PGBP.

In such a scenario, the gains from the business of investing in the NCD may be chargeable to tax on a 'net' basis (i.e. net of allowable deductions for expenses under the head PGBP/allowances under Chapter IV – Part D of the IT Act).

Based on section 145 of the IT Act, the timing of charging any income to tax would depend on the method of accounting followed by the taxpayer consistently (i.e. cash or mercantile).

Investors should obtain specific advice from their tax advisors regarding the manner of computing business income, the deductions available therefrom and the tax to be paid thereon.

b) Taxable under the head Capital Gains

As discussed above, based on the particular facts of each case, the NCD may, in certain cases, be regarded to be held as 'Investments' in which case the gains or loss from the transfer of such NCD should be chargeable to tax under the head CG.
In such a scenario, the gains / loss from the transfer of such NCD may be chargeable to tax on a 'net' basis (i.e. net of acquisition cost of NCD, expenditure incurred in relation to transfer of NCD).

Investors should, however, seek specific advice from their tax advisors/ consultants in respect of characterization of capital gains, the manner of computation and the tax to be paid thereon.

3. Period of holding and Capital gain – long term & short term:

As per section 2(29AA) read with section 2(42A) of the IT Act, listed NCD is treated as a long-term capital asset if the same is held for more than 12 months immediately preceding the date of its transfer and consequently, the gain/ loss on transfer of such NCD should be treated as long term capital gain/ loss.

Accordingly, if listed NCD is held for upto 12 months immediately preceding the date of its transfer, the same should be treated as a short-term capital asset and the gain/ loss on transfer of such NCD should be treated as short-term capital gain/ loss.

Without prejudice to the fact that the NCDs to be issued by the issuer are not MLD (as has been concluded at the outset), where, for whatsoever reasons, the NCDs are treated as MLDs, then in such cases, as per the amendment by the FA, 2023, the capital gains arising on transfer or redemption or maturity of such NCDs shall be deemed to be capital gains arising from transfer of a short-term capital asset.

4. Computation of capital gains and tax thereon

Capital gains is computed after reducing from the consideration received for the transfer of the capital asset ['full value of consideration (FVC)], the cost of acquisition (CoA) of such asset and the expenses incurred wholly and exclusively in connection with the transfer. The capital gains so computed will be chargeable to tax at the rates as detailed in the ensuing paragraphs.

5. Set off of capital losses

As per section 74 of the IT Act, long-term capital loss incurred during a year can be set-off only against long term capital gains arising in that year or in subsequent years and cannot be set-off against short-term capital gains arising in that year or in subsequent years. The long-term capital loss remaining after set-off, if any, can be carried forward for eight years immediately succeeding the year in which the loss was first computed, to be for set-off against subsequent years' long-term capital gains.

On the other hand, short-term capital loss incurred during a year can be set-off against both, short-term and long-term capital gains of the same year or of subsequent years. The short-term capital loss remaining after set-off, if any, can be carried forward for eight years immediately succeeding the year in which the loss was first computed, to be set-off against subsequent years' short-term as well as long-term capital gains.

B. Tax benefits available to Resident NCD holders:

- Interest on NCD received by resident NCD holders would form part of their total income and be subject to tax at the applicable rates of tax (Note 1 and 2 below) in accordance with and subject to the provisions of the IT Act.

- Capital gains on transfer of NCD shall be computed by deducting from the FVC, expenditure incurred wholly and exclusively in connection with the transfer and the CoA of the NCD.

As per section 112 of the IT Act, capital gains arising on the transfer of long-term capital assets being listed debentures are subject to tax at the rate of 12.5% (plus applicable surcharge and health & education cess – Note 2 below) on the capital gains calculated without indexing the cost of acquisition (Fourth *proviso* to Section 48 restricts indexation benefit in case of long-term capital asset being a bond or debenture).

In case of an individual or HUF, being a resident, where the total income as reduced by such long-term capital gains is below the maximum amount which is not chargeable to income-tax, then, such long-term capital gains shall be reduced by the amount by which the total income as so reduced falls short of the maximum amount which is not chargeable to income-tax and the tax on the balance of such long-term capital gains shall be computed at the rate mentioned above.

Short-term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months would be taxed at the applicable rates of tax (as mentioned in Note 1 and 2 below) in accordance

with the provisions of the IT Act.

C. Tax benefits available to Non-Resident debenture holders:

- A non-resident Indian has an option to be governed by Chapter XII-A of the IT Act, subject to the provisions contained therein which are given in brief as under:
- As per section 115C(e) of the IT Act, the term "non-resident Indian" means an individual, being a citizen of India or a person of Indian origin who is not a "resident". A person shall be deemed to be of Indian origin if he, or either of his parents or any of his grandparents, was born in undivided India.
- As per section 115E of the IT Act, interest income from debentures acquired or purchased with or subscribed to in convertible foreign exchange will be taxable at 20% (plus applicable surcharge and cess), whereas long term capital gains on transfer of such debentures will be taxable at 12.5% (plus applicable surcharge and cess – Note 2 below) of such capital gains without indexation of CoA. Short-term capital gains will be taxable at the applicable rates of tax (as mentioned in Note 1 and 2 below) in accordance with and subject to the provisions contained therein.
- Under section 115F of the IT Act, long term capital gains arising to a non-resident Indian from transfer of debentures acquired or purchased with or subscribed to in convertible foreign exchange will be exempt from capital gain tax if the whole of the net consideration is invested within six months after the date of transfer of the debentures in any specified asset or in any saving certificates referred to in section 10(4B) of the IT Act in accordance with and subject to the provisions contained therein.
- Under section 115G of the IT Act, it shall not be necessary for a non-resident Indian to file a return of income under section 139(1) of the IT Act, if his total income consists only of investment income as defined under section 115C and/or long term capital gains earned on transfer of such investment acquired out of convertible foreign exchange, and the tax has been deducted at source from such income under the provisions of Chapter XVII-B of the IT Act in accordance with and subject to the provisions contained therein.
- Under section 115H of the IT Act, where a non-resident Indian becomes a resident in India in any subsequent year, he may furnish to the Assessing Officer a declaration in writing along with return of income under section 139 for the assessment year for which he is assessable as a resident, to the effect that the provisions of Chapter XII-A shall continue to apply to him in relation to the investment income (other than on shares in an Indian Company) derived from any foreign exchange assets in accordance with and subject to the provisions contained therein. On doing so, the provisions of Chapter XII-A of the IT Act shall continue to apply to him in relation to such income for that assessment year and for every subsequent assessment year until the transfer or conversion (otherwise than by transfer) into money of such assets.
- In accordance with and subject to the provisions of section 115-I of the IT Act, a non-resident Indian may opt not to be governed by the provisions of Chapter XII-A of the IT Act. In such a case, long-term capital gains on transfer of listed debentures would be subject to tax at the rate of 12.5% (plus applicable surcharge and cess – Note 2 below) computed without indexation of CoA.
- Interest income and short-term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months preceding the date of transfer, would be taxed at the applicable rates of tax (as mentioned in Note 1 and 2 below) in accordance with and subject to the provisions of the IT Act.
- Without prejudice to the fact that the NCDs to be issued by the issuer are not MLD (as has been concluded at the outset), where, for whatsoever reasons, the NCDs are treated as MLDs, then in such cases, as per the amendment by the FA, 2023, the capital gains arising on transfer or redemption or maturity of such NCDs shall be deemed to be capital gains arising from transfer of a short-term capital asset.
- Where debentures are held as stock-in-trade, the income on transfer of debentures would be taxed as business income in accordance with and subject to the provisions of the IT Act.
- As per section 90(2) of the IT Act read with the Circular no. 728 dated October 30, 1995, issued by the Central Board of Direct Taxes ('CBDT'), in the case of a remittance to a country with which a Double Tax Avoidance Agreement ('DTAA') is in force, the tax should be deducted at the rate provided in the Finance Act of the relevant year or at the rate provided in the DTAA, whichever is more beneficial to the assessee.

As per Rule 21AB of Income Tax Rules, 1962 ('the Rules'), the following information shall be provided by an assessee in mandatory electronic Form No. 10F to avail the benefit under Section 90A, namely:

(i) Status (individual, company, firm etc.) of the assessee;

(ii) Nationality (in case of an individual) or country or specified territory of incorporation or registration (in case of others);

(iii) Assessee's tax identification number in the country or specified territory of residence and in case there is no such number, then, a unique number on the basis of which the person is identified by the Government

of the country or the specified territory of which the assessee claims to be a resident;

(iv) Period for which the residential status, as mentioned in the certificate referred to in sub-section (4) of section 90 or sub-section (4) of section 90A, is applicable; and

(v) Address of the assessee in the country or specified territory outside India, during the period for which the certificate, as mentioned in (iv) above, is applicable.

Submission of a valid and subsisting tax residency certificate ('TRC') and other documents as notified under the IT Act is a mandatory condition for availing benefits under any DTAA.

D. Tax benefits available to Foreign Institutional Investors ('FII's) or Foreign Portfolio ` Investors ('FPI's):

- In accordance with and subject to the provisions of section 115AD of the IT Act,
  - ✓ Long-term capital gains on transfer of debentures by FIIs are taxable at 12.50% (plus applicable surcharge and cess – Note 2 below)
  - ✓ Short-term capital gains are taxable at 30% (plus applicable surcharge and cess - Note 2 below).

  The benefit of indexation of CoA will not be available.
- Income other than capital gains arising out of debentures is taxable at 20% (plus applicable surcharge and cess - Note 2 below) in accordance with and subject to the provisions of Section 115AD of the IT Act.
- However, the above is subject to any relief available under DTAA entered into by the Government of India (as mentioned in Point C above).
- The CBDT has issued Notification No.9 dated 22 January 2014 which provides that Foreign Portfolio Investors (FPI) registered under SEBI (Foreign Portfolio Investors) Regulations, 2014 shall be treated as FII for the purpose of Section 115AD of the IT Act.

E. Withholding provisions

The withholding provisions provided under the IT Act are machinery provisions meant for tentative deduction of income-tax subject to regular assessment. The withholding tax is not the final liability to income-tax of an assessee. For rate of tax applicable to an assessee, please refer Notes 1 and 2 below:

S. No	Scenarios	Provisions
1	Withholding tax rate on interest on NCD issued to Indian residents	▪ Interest paid to residents other than insurance companies will be subject to withholding tax as per section 193 of the IT Act at the rate of 10 per cent. ▪ No tax is required to be deducted on interest paid to an individual or a HUF, in respect of debentures issued by a company in which the public is substantially interested if; ▪ the amount of interest paid to such person in a financial year does not exceed INR 10,000 (As per the amendment proposed by finance Act 2025); and ▪ such interest is paid by an account payee cheque
2	Withholding tax rate on interest on NCD issued to Foreign Portfolio Investor (FII)	▪ Interest to a non-resident, not being a company or to a foreign company by a specified company or a business trust, may alternatively be eligible for concessional tax rate of 5 per cent under section 194LC(2)(ia) of the IT Act in respect of monies borrowed by it from a source outside India by way of issue of rupee denominated bond before the 1st day of July 2023. The FA, 2023 has extended the applicability of section 194LC of the IT Act with the following modification: 1. The provisions of section 194LC(2)(ic)of the IT Act shall continue to apply to monies borrowed from a source outside India by way of issue of long-term bond or rupee denominate bond on or after 1 July 2023 where such bond is listed on a recognised stock exchange located in an International Financial Services Centre. 2. The rate of tax in case of the aforesaid borrowings shall be 9 per cent. 3. With respect to the borrowings made prior to 1 July 2023, the provisions of section 194LC of the IT Act, as they applied at that time, shall continue to apply *sans* the modification discussed *supra*. 4. No extension of date for payment of interest in case of section 194LD of the IT Act has been made by the FA, 2023. Where such remains the case, interest therein shall then be subject to tax at the rate of 20%

S. No	Scenarios	Provisions
		(excluding applicable surcharge and cess) subject to availability of DTAA benefits. ▪ Withholding rate will be increased by surcharge as applicable (Refer Note 2) and a health and education cess of 4 per cent on the amount of tax plus surcharge as applicable. However, where the withholding is done as per the rate of tax provided under the relevant DTAA, the said rate shall not be required to be increased by a surcharge and health and education cess.
3	Withholding tax rate on interest on NCD issued to non-residents other than FIIs	▪ Interest payable to non-resident (other than FII) would be subject to withholding tax at the rate of 30 per cent/ 35 per cent as per the provisions of section 195 of the IT Act subject to relief under the relevant DTAA depending upon the status of the non-resident. ▪ Alternatively, benefits of concessional rates of 5/ 9 per cent under section 194LC of the IT Act provided the said interest falls within the ambit of the provisions of section 194LC of the IT Act and meets the conditions mentioned therein which inter-alia includes the loan / bond being issued prior to/ on or after 1st July 2023, obtaining approval from the Central Government with respect to the rate of interest, etc. ▪ Withholding rate will be increased by surcharge as applicable (Refer Note 2) and a health and education cess of 4 per cent on the amount of tax plus surcharge, as applicable.
4	Withholding tax rate on purchase of 'goods'	▪ As per section 194Q of the IT Act, any sum payable by a 'buyer' to a resident for purchase of 'goods' of the value exceeding INR 50 Lakhs shall be liable to withholding at the rate of 0.1 percent. ▪ Buyer means a person whose total sales, turnover or gross receipts from the business carried on by him exceeds INR 10 crores in the financial year immediately preceding the financial year in which the purchase is carried out. ▪ TDS shall not be applicable where; ▪ Tax is deductible under any of the provisions of the IT Act; ▪ The CBDT has issued Circular No 13 of 2021 dated 30 June 2021 laying down guidelines under section 194Q of the IT Act. It *inter alia* provides that TDS under section 194Q of the IT Act shall not apply to transaction in securities and commodities which are traded through recognised stock exchanges or cleared and settled by the recognised clearing corporation (including exchanges or corporation located in IFSC). ▪ Given that the Circular does not provide clarity in respect of shares/ securities traded off-market, it is advisable that the investors obtain specific advice from their tax advisors regarding applicability of these provisions.

F. ***Requirement to furnish PAN under the IT Act***

i. Section 139A(5A) requires every person from whose income tax has been deducted under the provisions of chapter XVIIB of the IT Act, to furnish his PAN to the person responsible for deduction of tax at source.

ii. As per provisions of section 206AA of the IT Act, the payer would be obliged to withhold tax at higher of the following rates in case the deductee has not furnished PAN to the payer or PAN which are inoperative (i.e. PAN which are not linked with aadhar):
   a) at the rate in force specified in the relevant provision of the IT Act; or
   b) at the rates in force; or
   c) at the rate of twenty per cent

   Section 206AA of the IT Act provides that the provisions shall not apply to non-residents in respect of payment of interest on long-term bonds as referred to in section 194LC and any other payment subject to such conditions as may be prescribed.

   Further, as per Rule 37BC of the Income-tax Rules, 1962 ('the Rules'), the provisions of section 206AA shall not apply to non-residents (not having PAN) where the non-residents provide the following information to the payer of such income:

   ▪ Name, email-id, contact number;
   ▪ Address in the country or specified territory outside India of which the deductee is a resident;

- A certificate of his being resident in any country or specified territory outside India from the government of the other country or specified territory if the law of that country or specified territory provides for issuance of such certificate;
- Tax Identification Number of the deductee in the country or specified territory of his residence and in a case, no such number is available, then a unique number on the basis of which the deductee is identified by the Government of that country or the specified territory of which he claims to be a resident.

However, this shall apply only to interest, royalty, fees for technical services, dividend and payments on transfer of any capital asset.

Where an incorrect PAN is provided, it will be regarded as non-furnishing of PAN and TDS shall be deducted as mentioned above, apart from any other penal consequences that may ensue.

But other than a non-resident who does not have a permanent establishment in India. Further, FA, 2023 has carved-out from the definition of 'specified person' under section 206AB of the IT Act, a person who is not required to file/ furnish a return of income and who, in that behalf, is notified by the Central Government *vide* the Official Gazette.

G. General Anti Avoidance Rules ("GAAR")

The General Anti Avoidance Rule ('**'GAAR''**) was introduced in the IT Act by the Finance Act, 2012. The Finance Act, 2015 made the provisions of GAAR applicable prospectively from 1 April 2017. Further, income accruing, arising, deemed to accrue or arise or received or deemed to be received by any person from transfer of investments made up to 31 March 2017 would be protected from the applicability of GAAR.

H. *Exemption* under Section 54F of the IT Act

Exemptions may be claimed from taxation of LTCG if investments in certain specified securities/assets is made subject to fulfillment of certain conditions.
Section 54F of the IT Act exempts long-term capital gains on transfer of any long-term capital asset (other than a residential house), held by an individual or HUF, if the net consideration is utilized to purchase/ construct a residential house within the specified timelines and subject to the fulfillments prescribed condition mentioned therein.

Note 1: Tax Rates

Resident Individuals and Hindu Undivided Families:

The FA, 2023 has amended section 115BAC of the IT Act by, *inter alia*, inserting sub-section (1A) thereto to provide that the tax regime provided under section 115BAC of the IT Act shall be the default tax regime applicable in case of an individual, HUF, AOP (other than a co-operative society), body of individual or artificial juridical, beginning with the financial year 2023-24, except where the assessee specifically opts to be governed by the erstwhile regime.

In such cases, the following shall be the rate of tax applicable For FY 2025-2026 as per the amendment proposed by Finance Act 2025:

Slab	Tax Rate
Total income up to INR 4,00,000	Nil
More than INR 4,00,001 but up to INR 8,00,000	5% of excess over INR 4,00,000
More than INR 8,00,001 but up to INR 12,00,000	10 % of excess over INR 8,00,000 + INR 20,000
More than INR 12,00,001 but up to INR 16,00,000	15 % of excess over INR 12,00,000 + INR 60,000
More than INR 16,00,001 but up to INR 20,00,000	20 % of excess over INR 16,00,000 + INR 1,20,000
More than INR 20,00,001 but up to INR 24,00,000	25 % of excess over INR 20,00,000 + INR 2,00,000
More than INR 24,00,000	30 % of excess over INR 24,00,000 + INR 3,00,000

In computing the income-tax under the new regime, certain deductions like standard deduction available to salaried taxpayers, etc., shall be allowed. However, most of the deductions/exemptions such as section 80C, 80D, etc. would need to be foregone.

A resident individual (whose total income does not exceed Rs 12,00,000) whose income is chargeable to tax under subsection (1A) of section 115BAC can avail rebate under section 87A. (As per the amendment proposed by finance Act 2025) It is deductible from income tax before calculating health and education cess. The amount of rebate available would be 100 per cent of income-tax chargeable on his total income or Rs 60,000, whichever is less. Further, where the total income exceeds Rs 12,00,000, the assessee shall be entitled for deduction of an amount equal to the amount by which the income-tax payable on the total income exceeds the amount by which the total income exceeds Rs 12,00,000.

Where the assessee as stated above, specifically opts to be governed by the erstwhile regime, the income earned by assessee should be liable to tax as per the applicable slab rates (plus applicable surcharge and health and education cess) based on the taxable income of such assessee. The slab rates applicable to such investors (other than resident individuals aged 60 years or more) are as follows:

Income	Tax rate*
Up to INR 2,50,000#	NIL
Exceeding INR 2,50,000 up to INR 5,00,000@	5 per cent of the amount by which the total income exceeds INR 2,50,000
Exceeding INR 5,00,000 up to INR 10,00,000	20 per cent of the amount by which the total income exceeds INR 5,00,000 plus INR 12,500$
Exceeding INR 10,00,000	30 per cent of the amount by which the total income exceeds INR 10,00,000 plus INR 112,500$

@A resident individual (whose total income does not exceed Rs 500,000) can avail rebate under section 87A. It is deductible from income tax before calculating health and education cess. The amount of rebate available would be 100 per cent of income-tax chargeable on his total income or Rs 12,500, whichever is less.
** plus surcharge if applicable and a health and education cess ('cess') of 4 per cent on the amount of tax plus surcharge, if applicable).*
 # for resident senior citizens of sixty years of age and above but below eighty years of age, Rs 250,000 has to be read as Rs 300,000 and for resident senior citizens of eighty years of age and above ("super senior citizen) Rs 250,000' has to be read as Rs 500,000.
$Similarly, for resident senior citizens of sixty years of age and above but below eighty years of age, Rs 12,500 has to be read as Rs 10,000 and Rs 112,500 has to be read as Rs 110,000. And for super senior citizen Rs 12,500 has to be read as Nil and Rs 112,500 has to be read as Rs 100,000.

Partnership Firms & LLP's:
The tax rates applicable would be 30 per cent (plus surcharge if applicable – Refer Note 2 and a health and education cess of 4 per cent on the amount of tax plus surcharge, if applicable).

Domestic Companies:

Type of Domestic company	Base normal tax rate on income (other than income chargeable at special rates)	Base MAT rate
Domestic companies having turnover or gross receipts of upto Rs 400 Crore in FY 2020-21 (For AY 2023-24) and in FY 2021-22 (For AY 2024-25)	25 per cent	15 per cent
Domestic manufacturing company set-up and registered on or after March 01, 2016 subject to fulfilment of prescribed conditions (Section 115BA)	25 per cent	15 per cent
Any domestic company (even if an existing company or engaged in non-manufacturing business) has an option to avail beneficial rate, subject to fulfilment of prescribed conditions (Section 115BAA)	22 per cent	Not applicable
Domestic manufacturing company set-up and registered on or after October 01, 2019 and commences manufacturing upto March 31, 2024, has an option to avail beneficial rate, subject to fulfilment of prescribed conditions (Section 115BAB)	15 per cent	Not applicable
Domestic companies not falling under any of the above category	30 per cent	15 per cent

Note 2: Surcharge (as applicable to the tax charged on income)

Non-corporate assessees (other than firm, co-operative societies and FIIs):

Particulars	Rate of Surcharge
Where total income (including dividend income and income under the provisions of section 111A, section 112A and section 112 of the IT Act) does not exceed Rs 50 lacs	Nil
Where total income (including dividend income and income under the provisions of section 111A, section 112A and section 112 of the IT Act) exceeds Rs 50 lacs but does not exceed Rs 1 crore	10 per cent on total tax
Where total income (including dividend income and income under the provisions of section 111A section 112A and section 112 of the IT Act) exceeds Rs 1 crore but does not exceed Rs 2 crore	15 per cent on total tax
Where total income (excluding dividend income and income under the provisions of section 111A, section 112A and 112 of the IT Act) does not exceed Rs 2 crore but total income (including dividend income and income under the provisions of section 111A, section 112A and 112 of the IT Act) exceeds Rs 2 crore	15 per cent on total tax

Note: *The Finance Act, 2022 from FY 2022-23 has capped the surcharge rates for long-term gains chargeable to tax under section 112 of the IT Act as well.*

As per the FA, 2023, the maximum surcharge rate in case of capital gains chargeable to tax under section 112 of the IT Act, in case of an assessee being an individual, HUF, AOP (not being a co-operative society), BOI or artificial juridical person is also capped to 15%.

FIIs (Non – corporate):

Particulars	Rate of Surcharge
Where total income (including dividend income or income of the nature referred to in section 115AD(1)(b) of the IT Act) does not exceed Rs 50 lacs	Nil
Where total income (including dividend income or income of the nature referred to in section 115AD(1)(b) of the IT Act) exceeds Rs 50 lacs but does not exceed Rs 1 crore	10 per cent on total tax
Where total income (including dividend income or income of the nature referred to in section 115AD(1)(b) of the IT Act) exceeds Rs 1 crore but does not exceed Rs 2 crore	15 per cent on total tax
Where total income (excluding dividend income or income of the nature referred to in section 115AD(1)(b) of the IT Act) does not exceed Rs 2 crore but total income (including dividend income or income of the nature referred to in section 115AD(1)(b) of the IT Act) exceeds Rs 2 crore	15 per cent on total tax
Where total income (excluding dividend income or income of the nature referred to in section 115AD(1)(b) of the IT Act) exceeds Rs 2 crore	- 25 per cent on tax on income excluding dividend income or income of the nature referred to in section 115AD(1)(b) of the IT Act - 15 per cent on tax on dividend income or income of the nature referred to in section 115AD(1)(b) of the IT Act

Note: The FA, 2023 has capped the highest surcharge rate to 25 per cent.

For assessees other than those covered above:

Particulars	Rate of surcharge applicable
Non-corporate taxpayers being co-operative societies	Nil where total income does not exceed Rs 1 crore
	7 per cent where total income exceeds Rs 1 crore but does not exceed Rs 10 crore
	12 per cent where total income exceeds Rs 10 crore
Non-corporate taxpayers being firm	12 per cent where total income exceeds Rs 1 crore
Domestic companies (other than companies availing benefit under section 115BAA and section 115BAB of the IT Act)	Nil where total income does not exceed Rs 1 crore
	7 per cent where total income exceeds Rs 1 crore but does not exceed Rs 10 crore

Particulars	Rate of surcharge applicable
	12 per cent where total income exceeds Rs 10 crore
Domestic companies availing benefit under section 115BAA and section 115BAB of the IT Act	10 per cent (irrespective of total income)
Foreign Companies (including corporate FIIs)	Nil where total income does not exceed Rs 1 crore
	2 per cent where total income exceeds Rs 1 crore but does not exceed Rs 10 crore
	5 per cent where total income exceeds Rs 10 crore

A health and education cess of 4 per cent is payable on the total amount of tax plus surcharge.

We do not assume responsibility to update the views consequent to such changes

REGULATIONS AND POLICIES

The regulations summarised below are not exhaustive and are only intended to provide general information to investors and are neither designed nor intended to be a substitute for any professional legal advice. Taxation statutes such as the IT Act, 1961 and applicable tax statutes, labour regulations such as the Employees State Insurance Act, 1948 and the Employees Provident Fund and Miscellaneous Provisions Act, 1952, and other miscellaneous regulations such as the Trade Marks Act, 1999 and applicable Shops and Establishments statutes apply to us as they do to any other Indian company and therefore have not been detailed below. For purposes of this section, references to any legislation, act, regulation, rule, guideline, policy, circular, notification or clarification are to such legislation, act, regulation, rule, guideline, policy, circular, notification or clarification as amended from time to time. Investors shall carefully consider the information described below, together with the information set out in other sections of this Draft Shelf Prospectus including the financial statements before making an investment decision relating to the NCDs, as any changes in the regulations and policies could have a material adverse effect on our Company's business.

The following description is a summary of certain sector specific laws and regulations and policies as prescribed by the Government of India and other regulatory bodies, which are applicable to our Company. The information detailed in this section has been obtained from publications available in the public domain. The regulations set out below may not be exhaustive, and are only intended to provide general information to the investors and are neither designed nor intended to substitute for professional legal advice. The statements below are based on the current provisions of the Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.

NBFC Regulations

The Reserve Bank of India Act, 1934

The RBI regulates and supervises activities of NBFCs. Chapter III B of the Reserve Bank of India Act, 1934 ("**RBI Act**") empowers the RBI to regulate and supervise the activities of all NBFCs in India. The RBI Act defines an NBFC under Section 45-I (f) as:

i. a financial institution which is a company;

ii. a non-banking institution which is a company and which has as its principal business the receiving of deposits, under any scheme or arrangement or in any other manner, or lending in any manner;

iii. such other non-banking institution or class of such institutions as the RBI may, with the previous approval of the Central Government and by notification in the Official Gazette, specify.

Section 45-I(c) of the RBI Act, defines "financial institution" to mean any non-banking institution which, among other things, carries on the business of, or part of its business of, financing, by way of making of loans or advances or otherwise, of any activity other than its own; the acquisition of shares, stock, bonds, debentures or securities issued by a Government or local authority or other marketable securities of a like nature, leasing, hire-purchase, insurance business, chit business but does not include any institution whose principal business is that of carrying out any agricultural or industrial activities or the sale/purchase/ construction of immovable property.

The RBI has clarified through a press release dated April 08, 1999, that in order to identify a particular company as an NBFC, it will consider both the assets and the income pattern as evidenced from the last audited balance sheet of the company to decide its principal business. The company will be treated as an NBFC if (a) its financial assets are more than 50 per cent. of its total assets (netted off by intangible assets); and (b) income from financial assets should be more than 50 per cent. of the gross income. Both these tests are required to be satisfied as the determinant factor for principal business of a company.

Every NBFC is required to submit to the RBI a certificate, from its statutory auditor within 5 working days from the date of signing of the auditor's report in terms of section 134 of the Companies Act, 2013, but not later than December 31 of same year, in any case, based on audited books of accounts of the applicable entity for the preceding financial year.
With effect from 1997, NBFCs were not permitted to commence or carry on the business of a non-banking financial institution without obtaining a Certificate of Registration ("**CoR**"). Further, with a view to imparting greater financial soundness and achieving the economies of scale in terms of efficiency of operations and higher managerial skills, the RBI has raised the requirement of minimum net owned fund ("**NOF**") of ₹ 2 crore for the NBFCs not availing public funds.

Further under Section 45 - IC of the RBI Act, every NBFC must create a reserve fund and transfer thereto a sum not less than 20 per cent. of its net profit every year, as disclosed in the statement of profit and loss account and before any dividend is declared. Such a fund is to be created by every NBFC irrespective of whether it is a non-deposit taking NBFC or not. Further, no appropriation can be made from the fund for any purpose by the NBFC except for the purposes specified by the RBI from time to time and every such appropriation shall be reported to the RBI.

NBFCs are primarily governed by the RBI Act, Master Circular – Reserve Bank of India (Non-Banking Financial Company – Registration, Exemption and Framework for Scale Based Regulation) Directions, 2025, as amended from time to time, Reserve Bank of India (Non-Banking Financial Companies - Peer to Peer Lending Platform) Directions, 2025, Reserve Bank of India (Non-Banking Financial Companies - Account Aggregator) Directions, 2025, Master Direction – Reserve Bank of India (Commercial Paper and Non-Convertible Debentures of original or initial maturity upto one year) Directions, 2024 and the Reserve Bank of India (Non-Banking Financial Companies – Acceptance of Public Deposits) Directions, 2025. In addition to these regulations, NBFCs are also governed by various circulars, notifications, guidelines and directions issued by the RBI from time to time, and some such key circulars, notifications, guidelines and directions are further described below.

Although by definition, NBFCs are permitted to operate in similar sphere of activities as banks, there are a few important and key differences. The most important distinctions are:

i. An NBFC cannot accept deposits repayable on demand;
ii. NBFCs do not form part of the payment and settlement system and cannot issue cheques drawn on itself; and
iii. Deposit insurance facility of Deposit Insurance and Credit Guarantee Corporation is not available to depositor of NBFCs.

Section 45-IA of the RBI Act makes it mandatory for every NBFC to get itself registered with the RBI in order to be able to function as an NBFC.

Master Direction – Reserve Bank of India (Non-Banking Financial Company – Registration, Exemption and Framework for Scale Based Regulation) Directions, 2025 ("**SBR Directions**")

On November 28, 2025 the RBI issued the SBR Directions which is a revised regulatory framework for NBFCs whereby NBFCs have been categorised into following four layers based on their size, activity, and perceived riskiness by the RBI:

i. NBFC- Base Layer ("**NBFC-BL**");
ii. NBFC- Middle Layer ("**NBFC-ML**");
iii. NBFC- Upper layer ("**NBFC-UL**"); and
iv. NBFC- Top Layer ("**NBFC-TL**").

The NBFC- BL comprise of (a) non-deposit taking NBFCs below the asset size of Rs. 1,000 core and (b) NBFCs undertaking the following activities- (i) NBFC-Peer to Peer Lending Platform ("**NBFC-P2P**"), (ii) NBFC-Account Aggregator ("**NBFC-AA**"), (iii) Non-Operative Financial Holding Company ("**NOFHC**") and (iv) NBFCs not availing public funds and not having any customer interface.

The NBFC- ML consist of (a) all deposit taking NBFCs ("NBFC-Ds"), irrespective of asset size, (b) non-deposit taking NBFCs ("**NBFC-ND**") with asset size of Rs. 1,000 crore and above and (c) NBFCs undertaking the following activities (i) Standalone Primary Dealers ("**SPDs**")– (ii) Infrastructure Debt Fund - Non-Banking Financial Companies ("**IDF-NBFCs**"), (iii) Core Investment Companies ("**CICs**"), (iv) Housing Finance Companies ("**HFCs**") and (v) Infrastructure Finance Companies ("**NBFC-IFCs**").

The NBFC-UL comprise of those NBFCs which are specifically identified by RBI as warranting enhanced regulatory requirement based on a set of parameters and scoring methodology as provided in Annex I to SBR Directions. The top ten eligible NBFCs in terms of their asset size shall always reside in the upper layer, irrespective of any other factor.

The NBFC-TL will ideally remain empty. This layer can get populated if RBI is of the opinion that there is a substantial increase in the potential systemic risk from specific NBFC-UL. Such NBFC shall move to the NBFC-TL.

Our Company, being a NBFC-ND, with an asset size of more than Rs. 1,000 crore, is classified as NBFC-ML under the SBR Directions.

Prudential Norms

The SBR Directions, amongst other requirements, prescribe guidelines on NBFC-ML regarding income recognition,

asset classification, provisioning requirements, constitution of audit committee, capital adequacy requirements, concentration of credit/investment and norms relating to infrastructure loans.

Provisioning Requirements

Every NBFC (except microfinance loans of NBFC-MFIs), after taking into account the time lag between an account becoming non-performing, its recognition, the realization of the security and erosion overtime in the value of the security charged, shall make provisions against standard assets, sub-standard assets, doubtful assets and loss assets in the manner provided for in the SBR Directions.

In the interests of counter cyclicality and so as to ensure that NBFCs create a financial buffer to protect them from the effect of economic downturns, pursuant to the provisions of SBR Directions, all NBFCs (except NBFC-UL) make provisions for standard assets at 0.40 per cent. of the outstanding, which shall not be reckoned for arriving at net NPAs. The provision towards standard assets need not be netted from gross advances but shall be shown separately as 'Contingent Provisions against Standard Assets' in the balance sheet.

Capital Adequacy Norms

Every NBFC should maintain, a minimum capital ratio consisting of Tier 1 and Tier 2 Capital of not less than 15 per cent of its aggregate risk weighted assets on balance sheet and of risk adjusted value of off-balance sheet items is required to be maintained, wherein Tier 1 capital in respect of NBFC (except NBFC-MFI and NBFC primarily engaged in lending against gold jewellery), at any point of time, shall not be less than 10 percent. Further, NBFCs primarily engaged in lending against gold jewellery (such loans comprising 50 per cent or more of their financial assets) are required to maintain a minimum Tier 1 capital of 12.00 per cent.

Credit Concentration Norms

In order to ensure better risk management and avoidance of concentration of credit risks, the RBI has, in terms of the SBR Directions, prescribed credit exposure limits for financial institutions in respect of their lending to single/group borrowers.

For an NBFC – UL: Credit exposure to a single counterparty shall not exceed 20 per cent of the Company's available eligible capital base at all times. Board of the NBFC may allow additional 5 percent exposure beyond 20 percent but at no time higher than 25 percent of the NBFC's eligible capital base, subject to the following conditions: (a) NBFC has a policy approved by its board of directors setting out conditions under which exposure beyond 20 percent may be considered; and (b) NBFC shall record in writing the exceptional reasons for which exposure beyond 20 percent is being allowed in a specific case.

The credit exposure to a group of connected counterparties shall not exceed 25 per cent of the Company's available eligible capital base at all times. However, the Company may exceed the exposure limit by 10 percent of its Tier 1 capital for exposure to a group of connected counterparties, if the additional exposure is on account of infrastructure loan and/or investment.

For NBFC – BL and NBFC - ML: Credit exposure to a single counterparty shall not exceed 25 percent of their Tier 1 capital at all times and 40 percent of their Tier 1 capital to a single group of parties. However, the NBFCs may exceed these limits by 5 percent for a single party and 10 percent for a group if the excess is related to infrastructure loans or investments. For NBFC-IFC, the limits are slightly higher, allowing 30 percent exposure to a single party and 50 percent to a group.

Further NBFCs-BL shall put in place an internal Board approved policy for credit/investment concentration limits for both single borrower/party and single group of borrowers/parties.

Asset Classification

The SBR Master Directions require that every NBFC shall, after taking into account the degree of well-defined credit weaknesses and extent of dependence on collateral security for realisation, classify its lease/hire purchase assets, loans and advances and any other forms of credit into the following classes:

i. Standard assets;
ii. Sub-standard assets;
iii. Doubtful assets; and

iv. Loss assets.

Further, such class of assets would not be entitled to be upgraded merely as a result of rescheduling, unless it satisfies the conditions required for such upgradation. At present every NBFC is required to make a provision for standard assets at 0.40 per cent.

Net Owned Fund

Section 45-IA of the RBI Act provides that to carry on the business of a NBFC, an entity would have to register as an NBFC with the RBI and would be required to have a minimum net owned fund of ₹ 2 crore.
For this purpose, the RBI Act has defined "Net Owned Fund" to mean:
Net Owned Fund —
(1) The aggregate of the paid-up equity capital and free reserves as disclosed in the latest balance sheet of the company, after deducting:
(i) accumulated balance of losses,
(ii) deferred revenue expenditure, and
(iii) other intangible assets,
(2) further reduced by the amounts representing,
(i) investment by such companies in shares of (a) its subsidiaries, (b) companies in the same group, (c) other NBFCs; and
(ii) the book value of debentures, bonds, outstanding loans and advances (including hire purchase and lease finance) made to, and deposits with (a) subsidiaries of such companies; and (b) companies in the same group, to the extent such amount exceeds 10 per cent. of (1) above.

Maintenance of liquid assets

Every NBFC-D shall invest and continue invest in unencumbered approved securities valued at a price not exceeding the current market price and in unencumbered approved term deposits / approved bonds, an amount which shall at the close of business on any day be not less than 15.0% of public deposits outstanding at the close of business on the last working day of the second preceding quarter.

NBFCs such as the Company, which do not accept public deposits, are subject to lesser degree of regulation as compared to a NBFC-D and are governed by Reserve Bank of India (Non-Banking Financial Companies – Acceptance of Public Deposits) Directions, 2025.

All NBFCs are required to inform the RBI of any change in the address, telephone no's, etc. of its registered office/corporate office, names and addresses of its directors/auditors, names and designations of its principal officers, the specimen signatures of its authorised signatories, within one month from the occurrence of such an event. Further, an NBFC-ND would need to ensure that its registration with the RBI remains current.

All NBFCs with an asset size of Rs. 100 crore and above and all NBFC-Ds are required to adhere to the guidelines for liquidity risk management provided under the SBR Directions.

Capital Market Financing

We provide financing for capital market activities, including loans against pledge of shares, mutual fund units, and debentures, as well as IPO and ESOP financing. These activities are carried out in compliance with the Reserve Bank of India Act, 1934, RBI's Master Directions for NBFCs, and exposure norms that limit capital market lending. We follow KYC/AML requirements and fair lending practices, and adhere to relevant SEBI guidelines where applicable. Our policy ensures proper credit appraisal, monitoring of market risks, and governance controls to maintain regulatory compliance and financial stability.

Guidelines for NBFCs with gold loan business

The RBI pursuant to the SBR Directions has prescribed that all NBFCs shall maintain a loan to value ratio not exceeding 75 per cent. for loans granted against the collateral of gold jewellery. The SBR Directions has issued guidelines with regard to the following:

i. Appropriate infrastructure for storage of gold ornaments: A minimum level of physical infrastructure and facilities is available in each of the branches engaged in financing against gold jewellery including a safe deposit

vault and appropriate security measures for operating the vault to ensure safety of the gold and borrower convenience. Existing NBFCs should review the arrangements in place at their branches and ensure that necessary infrastructure is put in place at the earliest. No new branches should be opened without suitable storage arrangements having been made thereat. No business of grant of loans against the security of gold can be transacted at places where there are no proper facilities for storage/security.

ii. Prior approval of RBI for opening branches in excess of 1,000: It is henceforth mandatory for NBFC to obtain prior approval of the RBI to open branches exceeding 1,000. However, NBFCs which already have more than 1,000 branches may approach the Bank for prior approval for any further branch expansion. Besides, no new branches will be allowed to be opened without the facilities for storage of gold jewellery and minimum security facilities for the pledged gold jewellery.

iii. Standardisation of value of gold in arriving at the loan to value ratio: For arriving at the value of gold jewellery accepted as collateral, it will have to be valued at the average of the closing price of 22 carat gold for the preceding 30 days as quoted by BBA or the historical spot gold price data publicly disseminated by a commodity exchange regulated by the Forward Markets Commission.

iv. Verification of the Ownership of gold: NBFCs should have Board approved policies in place to satisfy ownership of the gold jewellery and adequate steps be taken to ensure that the KYC guidelines stipulated by the RBI are followed and due diligence of the customer undertaken. Where the gold jewellery pledged by a borrower at any one time or cumulatively on loan outstanding is more than 20 grams, NBFCs must keep record of the verification of the ownership of the jewellery. The method of establishing ownership should be laid down as a Board approved policy.

v. Auction Process and Procedures: The following additional stipulations are made with respect to auctioning of pledged gold jewellery:

(a) The auction should be conducted in the same town or taluka in which the branch that has extended the loan is located. While auctioning the gold, the NBFC should declare a reserve price for the pledged ornaments. The reserve price for the pledged ornaments should not be less than 85 per cent. of the previous 30 day average closing price of 22 carat gold as declared by The Bombay Bullion Association Limited and value of the jewellery of lower purity in terms of carats should be proportionately reduced.

(b) It will be mandatory on the part of the NBFCs to provide full details of the value fetched in the auction and the outstanding dues adjusted and any amount over and above the loan outstanding should be payable to the borrower.

(c) NBFCs must disclose in their annual reports the details of the auctions conducted during the financial year including the number of loan accounts, outstanding amounts, value fetched and whether any of its sister concerns participated in the auction.

vi. Other Instructions:

i. NBFCs financing against the collateral of gold must insist on a copy of the PAN Card of the borrower for all transaction above Rs. 500,000.

ii. Documentation across all branches must be standardised.

iii. NBFCs shall not issue misleading advertisements like claiming the availability of loans in a matter of 2-3 minutes.

*Master Direction – Know Your Customer ("**KYC**") Directions, 2025 (updated as on December 29, 2025), as amended ("**RBI KYC Directions**")*

The RBI KYC Directions are applicable to every entity regulated by the RBI, specifically, scheduled commercial banks, regional rural banks, local area banks, primary (urban) co-operative banks, state and central co-operative banks, all India financial institutions, NBFCs, miscellaneous non-banking companies and residuary non-banking companies, amongst others. In terms of the RBI KYC Directions, every entity regulated there under is required to formulate a KYC policy which is duly approved by the board of directors of such entity or a duly constituted committee thereof. The KYC policy formulated in terms of the RBI KYC Directions is required to include four key elements, being customer acceptance

policy, risk management, customer identification procedures and monitoring of transactions. It is advised that all NBFCs adopt the same with suitable modifications depending upon the activity undertaken by them and ensure that a proper policy framework of anti-money laundering measures is put in place. The RBI KYC Directions provide for a simplified procedure for opening accounts by NBFCs. It also provides for an enhanced and simplified due diligence procedure. It has prescribed detailed instructions in relation to, inter alia, the due diligence of customers, record management, and reporting requirements to Financial Intelligence Unit — India. The RBI KYC Directions have also issued instructions on sharing of information while ensuring secrecy and confidentiality of information held by Banks and NBFCs. The regulated entities must also adhere to the reporting requirements under Foreign Account Tax Compliance Act and common reporting standards. The RBI KYC Directions also require the regulated entities to ensure compliance with the requirements/obligations under international agreements. The regulated entities must also pay adequate attention to any money-laundering and financing of terrorism threats that may arise from new or developing technologies and ensure that appropriate KYC procedures issued from time to time are duly applied before introducing new products/services/technologies.

*Reserve Bank of India (Commercial Banks – Credit Facilities) Directions, 2025 ("**CF Directions**")*

The RBI has issued the CF Directions, as amended, relating to financing of NBFCs by banks. In particular, these guidelines prohibit banks from lending to NBFCs for the financing of certain activities, such as:

i. bills discounted / rediscounted by NBFCs, except for rediscounting of bills discounted by NBFCs arising from sale of - commercial vehicles (including light commercial vehicles), and two wheeler and three wheeler vehicles, subject to the conditions prescribed under CF Directions.
ii. investments of NBFCs both of current and long-term nature, in any company / entity by way of shares, debentures, etc. However, Stock Broking Companies may be provided need-based credit against shares and debentures held by them as stock-in-trade.
iii. unsecured loans / inter-corporate deposits by NBFCs to / in any company.
iv. all types of loans and advances by NBFCs to their subsidiaries, group companies / entities.
v. finance to NBFCs for further lending to individuals for subscribing to Initial Public Offerings ("IPOs") and for purchase of shares from secondary market.

Norms for excessive interest rates

All NBFCs must formulate appropriate internal procedures for determining interest rates, processing and other charges. The board of each NBFC shall adopt an interest rate model considering the various relevant factors such as cost of funds, margin and risk premium and determine the rate of interest to be charged for loans and advances. The rate of interest and the approach for gradation of risk and the rationale for charging different rates of interest for different categories of borrowers shall be required to be disclosed to the borrowers in the application form and communicated explicitly in the sanction letter as well as on the company's website. Furthermore, the rate of interest would have to be annualised so that the borrower is aware of the exact rates that would be charged to the account.

Supervisory Framework

In order to ensure adherence to the regulatory framework by non-deposit taking NBFC-MLs, the RBI has directed such NBFCs to put in place a system for submission of an annual statement of capital funds, and risk asset ratio, etc. as at the end of March every year, in a prescribed format. Every NBFC is required to submit to the RBI a certificate, from its statutory auditor within 5 working days from the date of signing of the auditor's report in terms of section 134 of the Companies Act, 2013, but not later than December 31 of same year, in any case, based on audited books of accounts of the applicable entity for the preceding financial year, together with such other submissions/returns to the RBI as specified in the Master Direction – Reserve Bank of India (Filing of Supervisory Returns) Directions, 2024, as amended and any other related rules, regulations, directions, circulars.

Asset Liability Management

NBFCs, in terms of the SBR Directions are required to have in place an asset liability management ("**ALM**") system for managing liquidity risk of the NBFCs. This involves the categorization of all assets and liabilities into different maturity profiles and evaluating these items for any mismatches in any particular maturities, especially in the short term. The ALM system rests on the functioning of ALM information systems within the NBFC, including an Asset Liability Committee ("ALCO") and ALM support groups, and the ALM process including entity-level liquidity risk tolerance; funding strategies; prudential limits; system for measuring, assessing and reporting/reviewing liquidity; framework for stress testing; liquidity planning under alternative scenarios/formal contingent funding plan; nature and frequency of management reporting; periodical review of assumptions used in liquidity projection etc.

The ALCO consisting of the NBFC's top management shall be responsible for ensuring adherence to the risk tolerance/limits set by the Board as well as implementing the liquidity risk management strategy of the NBFC. The role of the ALCO with respect to liquidity risk should include, inter alia, decision on desired maturity profile and mix of incremental assets and liabilities, sale of assets as a source of funding, the structure, responsibilities and controls for managing liquidity risk, and overseeing the liquidity positions of all branches.

The ALM Support Group consisting of the operating staff shall be responsible for analysing, monitoring and reporting the liquidity risk profile to the ALCO. Such support groups will be constituted depending on the size and complexity of liquidity risk management in an NBFC.

The ALM Guidelines mainly address liquidity and interest rate risks. In case of structural liquidity, the net cumulative negative mismatches in the maturity buckets 1-7 days, 8-14 days, and 15- 30 days shall not exceed 10 percent, 10 percent and 20 percent of the cumulative cash outflows in the respective time buckets.

Anti-Money Laundering

The RBI has issued a Master Circular dated 1 July 2015 to ensure that a proper policy frame work for the Prevention of Money Laundering Act, 2002 ("PMLA") is put into place. The PMLA seeks to prevent money laundering and provides for confiscation of property derived from, or involved in money laundering and for other matters connected therewith or incidental thereto. It extends to all banking companies, financial institutions, including NBFCs and intermediaries. Pursuant to the provisions of PMLA and the RBI guidelines, all NBFCs are advised to appoint a principal officer for internal reporting of suspicious transactions and cash transactions and to maintain a system of proper record (i) for all cash transactions of value of more than Rs 10 lakh; (ii) all series of cash transactions integrally connected to each other which have been valued below Rs 10 lakh where such series of transactions have taken place within one month and the aggregate value of such transaction exceeds Rs 10 lakh; (iii) all transactions involving receipts by non-profit organisations of value more than Rs. 10 lakh; (iv) all cash transactions where forged or counterfeit currency notes or bank notes have been used as genuine and where any forgery of a valuable security or a document has taken place facilitating the transaction; and (v) all suspicious transactions, whether or not in cash.

Further, all NBFCs are required to take appropriate steps to evolve a system for proper maintenance and preservation of account information in a manner that allows data to be retrieved easily and quickly whenever required or when requested by the competent authorities. Further, NBFCs are also required to maintain for at least ten years from the date of transaction between the NBFCs and the client, all necessary records of transactions, both domestic or international, which will permit reconstruction of individual transactions (including the amounts and types of currency involved if any) so as to provide, if necessary, evidence for prosecution of persons involved in criminal activity.
Additionally, NBFCs should ensure that records pertaining to the identification of their customers and their address are obtained while opening the account and during the course of business relationship, and that the same are properly preserved for at least five years from the date of the transaction. The identification records and transaction data is to be made available to the competent authorities upon request.
RBI Notification dated 3 December 2015 titled "Anti-Money Laundering (AML)/Combating of Financing of Terrorism (CFT) — Standards" states that all regulated entities (including NBFCs) are to comply with the updated FATF Public Statement and document 'Improving Global AML/CFT Compliance: on-going process' as on 23 October 2015.

Accounting Standards & Accounting policies

Subject to the changes in Indian Accounting Standards ("IAS") and regulatory environment applicable to a NBFC we may change our accounting policies in the future and it might not always be possible to determine the effect on the statement of profit and loss of these changes in each of the accounting years preceding the change. In such cases our profit/loss for the preceding years might not be strictly comparable with the profit/loss for the period for which such accounting policy changes are being made.

Reporting by Statutory Auditor

The statutory auditor of the NBFC-ND is required to submit to the Board of Directors of the company along with the statutory audit report, a special report certifying that the Directors have passed the requisite resolution mentioned above, not accepted any public deposits during the year and has complied with the prudential norms relating to income recognition, accounting standards, asset classification and provisioning for bad and doubtful debts as applicable to it. In the event of non-compliance, the statutory auditors are required to directly report the same to thereby.
Master Direction – Reserve Bank of India (Filing of Supervisory Returns) Directions, 2024

The said master directions are applicable on supervised entities which includes all NBFCs except for HFCs and asset reconstruction companies. The said master direction prescribes for provisions in relation to responsibilities of the board and senior management, data architecture and IT infrastructure, accuracy and integrity in reporting, applicable returns, a general description of such returns, timelines for return submissions, alternate timelines for specific returns, mode of submission of returns along with details of online portals for filing applicable returns by NBFCs.

Master Direction on Treatment of Wilful Defaulters and Large Defaulters dated July 30, 2024

The said master direction aims to promote transparency and fairness in the classification of borrowers as wilful defaulters by lenders, including NBFCs, and to establish a system for sharing credit information about these defaulters to alert other lenders. This directive will take effect 90 days after being published on the RBI website and applies to 'lenders' including all India financial institutions, banks, or NBFCs providing credit to the borrower. Additionally, regardless of an entity's classification as a 'lender,' restrictions on further financial support to wilful defaulters and provisions for large defaulters will apply to all entities regulated by RBI.

The directions set forth a detailed process for identifying the wilful defaulters, so that the penal provisions are applied in a fair manner and the scope for discretion is obviated, and require a transparent mechanism throughout the identification process, including a role for internal audits. The said master direction also outline: (a) procedures for reporting and sharing credit information on wilful and large defaulters with CICs; (b) handling of compromise settlements with wilful defaulters; (c) treatment of defaulted loans transferred to other lenders and asset reconstruction companies; (d) approach for accounts resolved under the Insolvency and Bankruptcy Code, 2016/ resolution framework guidelines issued by RBI; and (e) preventive measures that lenders, statutory auditors, and third parties should take to prevent and identify wilful defaults.

Master Direction – Reserve Bank of India (Commercial Paper and Non-Convertible Debentures of original or initial maturity upto one year) Directions, 2024

The said master direction issued by RBI on January 3, 2024 are applicable on all persons/agencies dealing in commercial paper and/or non-convertible debentures of original or initial maturity up to one year and the same have been made effective from April 01, 2024. The eligible issuers under the said master directions include NBFCs. The issuance under these directions is subject to condition that all fund-based facilities availed, if any, by the eligible issuer from banks/ all India financial institutions/ NBFCs are classified as 'standard' at the time of issue. The said master direction provides for, among other provisions, a list of eligible investors, general guidelines (in relation to primary issuance, discount / coupon rate, credit enhancement, end-use of funds, rating requirement, primary and secondary market related conditions, buyback, repayment, default, market timing and practices), reporting requirements, roles and responsibilities of (a) issuing and paying agent, (b) debenture trustee, and (c) credit rating agency. Further, it has been stated that the public deposit directions shall not be applicable to the NBFCs raising funds by issuance of commercial papers in accordance with the aforesaid master directions.

*Master Direction – Reserve Bank of India ((Non-Banking Financial Companies – Securitisation Transactions) Directions, 2025, as amended ("**Securitisation Directions**")*

Securitisations of identified loan assets of NBFCs is regulated by the Securitisation Directions. The Securitisation Directions are applicable to, inter alia, NBFCs.

The Securitisation Directions regulate securitisation of standard assets and intend to legally isolate the transferred exposures from the originator in such a way that the exposures are put beyond the reach of the originator or its creditors, even in bankruptcy (especially the Insolvency and Bankruptcy Code. 2016) or administration. Investors who purchase securitisation notes have a claim only to the underlying exposures. There are minimum holding periods and minimum retention requirements ("MRR") that apply. The Securitisation Directions prescribes a minimum retention requirement of 5% of the loans being securitised, if the maturity is of 24 months or less. The MRR for loans with a maturity period of more than 24 months is 10% of the book value of the loan being securitised. Further, the Securitisation Directions mandates NBFCs to regularly perform stress tests while taking into consideration, inter alia, default rates in the underlying portfolios, rise in pre-payment rates due to fall in rate of interest and rise in income levels of borrowers. Securitisation Directions mandates NBFCs to have policies for the purposes of monitoring credit and assessing the valuation of securitisation notes.

*RBI Master Direction on Transfer of Loan Exposures dated 24 September 2021, as amended ("**Master Direction on Transfer of Loan Exposures**")*

The Master Direction on Transfer of Loan Exposures are applicable to inter alia NBFCs including HFCs. The Master Direction on Transfer of Loan Exposures lay down the conditions for transfer of loans, including allowing transfer of loans by lenders to only certain permitted transferees. Pursuant to the Master Direction on Transfer of Loan Exposures, the board must approve a policy for transfer and acquisition of loan exposures that states the minimum quantitative and qualitative standards relating to due diligence, valuation, requisite IT systems for capture, storage and management of data, risk management, periodic board level oversight, etc. Further, the policy must also ensure independence of functioning and reporting responsibilities of the units and personnel involved in transfer or acquisition of loans from that of personnel involved in originating the loans. Further, the Master Direction on Transfer of Loan Exposures also state that loan transfers should result in transfer of economic interest without being accompanied by any change in underlying terms and conditions of the loan contract usually.

Master Directions on Fraud Risk Management in Non-Banking Financial Companies dated July 15, 2024

The said master direction has been issued with a view to providing a framework for prevention, early detection and timely reporting of incidents of fraud to law enforcement agencies, RBI. These directions are applicable to all NBFCs (including housing finance companies) in the upper layer, middle layer and in the base layer (with asset size of ₹ 500 crore and above). The said master directions provides for provisions relating to governance structure for fraud risk management, requirement of framework for early warning signals for detection of frauds, role of internal and external audits for detection of fraudulent activities, applicable penal measures for the persons / entities classified and reported as fraud, reporting of cases of frauds to law enforcement agencies and RBI and such other provisions in relation to the fraud monitoring and reporting in NBFCs.

Further, the said master direction require the NBFCs to formulate and establish various mechanisms, policies, frameworks etc. for fraud monitoring which includes: (i) constitution of a special committee comprising of at least two independent directors and chief executive officer to oversee the effectiveness of fraud risk management, monitor fraud cases and suggest mitigating measures; (ii) constitution of transparent mechanism to ensure that whistle blower complaints on possible fraud cases / suspicious activities in account(s) are examined and concluded appropriately under the whistle blower policy; (iii) set up of organisational structure for institutionalisation of fraud risk management within overall risk management functions / department; (iv) establishment of a framework for early warning signs to detect potential frauds in credit facilities, loan accounts, and other financial transactions (to be complied within 6 months of the date of issuance of these master directions). Further, the Master Direction provides for detailed compliances for the reporting of fraudulent cases / accounts including but not limited to (a) establishment of suitable nodal point(s)/ designate officer(s) for reporting incidents of fraud to and coordination with law enforcement agencies (b) furnishing fraud monitoring returns (FMR) in individual fraud cases; (c) separate reporting of frauds perpetrated in their group entities; (d) criteria for the closure of fraud cases and maintenance of record of such closed cases for auditors examinations; (e) reporting of theft, burglary, dacoity, and robbery cases within 7 days of their occurrence and submission of return on the same to RBI on quarterly basis.

Master Direction on Information Technology Governance, Risk, Controls and Assurance Practices dated November 07, 2023

The said master direction consolidates, updates, and integrates guidelines, instructions, and circulars on information technology (IT) governance, risk management, controls, assurance practices, and business continuity/disaster recovery management. The said directions apply to regulated entities, including NBFCs in the 'Top Layer,' 'Upper Layer,' and 'Middle Layer.' The said directions require regulated entities to implement specific frameworks and policies, providing guidance on: (a) roles of the board of directors, (b) establishment of an IT strategy committee and senior management and IT steering committee, (c) appointment of a senior, technically competent, and experienced head of IT, (d) management of infrastructure and services, including audit requirements, system logging, and audit trails, (e) regular risk and vulnerability assessments/penetration testing for critical and non-critical information systems, (f) development of processes to enhance incident response and recovery based on past incidents and test drills, (g) systems for business continuity and disaster recovery management, and (h) a dedicated information systems audit function or professionals within internal audit with the necessary expertise and skills.

Master Direction - Reserve Bank of India (Internal Ombudsman for Regulated Entities) Directions, 2023

The said master direction has been issued by RBI on December 29, 2023 to enhance the internal grievance redressal system within regulated entities and expedite customer complaint resolution. This directive outlines requirements for the appointment of an internal ombudsman, deputy internal ombudsman, and covers their qualifications, tenure, roles and

responsibilities, removal procedures, complaint handling processes, and more.

Under the said master direction, applicable NBFCs are required to: (a) assign necessary officers or staff to support the internal ombudsman; (b) determine, through the customer service or consumer protection committee, the ombudsman's compensation, facilities, and benefits in alignment with their seniority; (c) conduct an annual internal audit to assess compliance with these directions; (d) have the customer service/consumer protection committee review cases where an internal ombudsman's decision is rejected, with RBI approval required for rejections; (e) create a standard operating procedure and fully automated complaint management system for escalating complaints partly or fully rejected by the internal grievance system to the internal ombudsman; (f) ensure the staff is well-informed of the guidelines related to this direction upon appointing an internal ombudsman; and (g) submit quarterly and annual reports to the RBI's Consumer Education and Protection Department, Central Office, using the specified formats.

Reserve Bank of India (Co-Lending Arrangements) Directions, 2025

To broaden the scope of co-lending involving banks and NBFCs and provide regulatory clarity on permissibility of such arrangements, RBI has issued the CLA Directions. The CLA Directions shall come into effect from January 1, 2026 or such earlier date as the regulated entities (as prescribed thereunder), which includes NBFCs, may decide as per their internal policy. The CLA Directions defines "co-lending arrangement" as an arrangement, formalised through an ex-ante agreement, between a regulated entity, which is originating the secured or unsecured loan (the "**Originating RE**"), and another regulated entity, which is co-lending (the "**Partner RE**", and together with the Originating RE, the "**CLA Partners**"), to jointly fund a portfolio of loans in a pre-agreed proportion, involving revenue and risk sharing. The CLA Partners shall include, among other things, the terms and conditions of the arrangement, the criteria for selection of borrowers, customer protection issues and grievance redressal mechanism in the agreement to be entered between them. The loan agreement signed with the borrower shall make upfront disclosures in relation to the roles and responsibilities of the CLA Partners. NBFCs are required to adhere to the applicable accounting standards and comply with the CLA Directions while booking unrealized profits, if any, under the co-lending arrangements.

Guidance Note on Operational Risk Management and Operational Resilience dated April 30, 2024

To strengthen operational risk management among regulated entities (REs) and boost resilience within the interconnected financial system, the RBI released a new guidance note on operational risk management and resilience on April 30, 2024 ("Guidance Note"). This update replaces the previous "Guidance Note on Management of Operational Risk" from October 14, 2005, which did not apply to NBFCs but now includes them. The updated Guidance Note uses a principle-based, proportional approach to facilitate smooth implementation across REs of varied sizes, complexity, geographic reach, and risk profiles. It is structured around three pillars: (i) prepare and protect, (ii) build resilience, and (iii) learn and adapt.

Pillar 1 introduces a "three lines of defense" model for operational risk management: (i) Business unit management, tasked with identifying and managing risks in the products, services, activities, processes, and systems they oversee, with REs required to define roles and responsibilities for relevant units in policy; (ii) organizational operational risk management, including compliance, which must establish policies, standards, and guidelines for risk management and have an independent reporting line separate from risk-generating business units; and (iii) an audit function that provides the board with independent assurance on the suitability of the RE's operational risk management, conducted through internal or external audits or qualified third parties.

The Guidance Note also sets out core principles for each pillar, directing REs to establish mechanisms, criteria, committees, frameworks, policies, and codes of conduct, including, but not limited to: (a) a fully integrated operational risk management framework documented in board-approved policies; (b) a board-approved policy on service provider management to handle risks from third-party reliance, whether related or unrelated; (c) a forward-looking business continuity plan with scenario analyses, impact assessments, and recovery procedures; and (d) a robust information and communication technology risk management program, including cybersecurity safeguards.

Master Direction - Reserve Bank of India (Regulatory Framework for Microfinance Loans) Directions, 2022 dated March 14, 2022

Applicability:
The master directions are applicable to the following entities:

i) All Commercial Banks (including Small Finance Banks, Local Area Banks, and Regional Rural Banks) excluding Payments Banks;
ii) All Primary (Urban) Co-operative Banks/ State Co-operative Banks/ District Central Cooperative Banks; and

iii) All Non-Banking Financial Companies (including Microfinance Institutions and Housing Finance Companies).

Definition of microfinance loan
A microfinance loan is defined as a collateral-free loan given to a household having annual household income up to ₹ 3,00,000. For this purpose, the household shall mean an individual family unit, i.e., husband, wife and their unmarried children. Further, all collateral-free loans, irrespective of end use and mode of application/ processing/ disbursal (either through physical or digital channels), provided to low-income households, i.e., households having annual income up to ₹ 3,00,000, shall be considered as microfinance loans.

Pricing of loans According to the directions, each of the regulated entities must implement a board-approved policy on microfinance loan pricing, on microfinance loans, interest rates and other charges/fees should not be usurious and shall be subjected to the supervisory scrutiny of the Reserve Bank. Further, according to the master directions each of the regulated entities shall also disclose pricing related information in a standardised format.

The master directions also lay down the guidelines on conduct towards microfinance borrowers.

Qualifying asset criteria
Under the earlier guidelines, an NBFC that does not qualify as an NBFC-MFI, cannot extend microfinance loans exceeding 10 per cent of its total assets. As per the master directions, the maximum limit on microfinance loans for such NBFCs (i.e., NBFCs other than NBFC-MFIs) is now revised to 25 per cent of the total assets.

Master Directions on Fraud Risk Management in Non-Banking Financial Companies (NBFCs) (including Housing Finance Companies) dated July 15, 2024.

On July 15, 2024, the RBI issued the revised Master Directions on Fraud Risk Management in Non-Banking Financial Companies (NBFCs) (including Housing Finance Companies) ("**Fraud Directions**") superseding the erstwhile Master Directions on Monitoring of Frauds in NBFCs (Reserve Bank), Directions, 2016. Under the Fraud Directions, NBFCs, including housing finance companies, classified as NBFC-BL, NBFC-ML and NBFC-UL shall put in place a board approved policy on fraud risk management delineating roles and responsibilities of board and senior Management of the NBFCS. NBFCs are required to report all instances of fraud to the RBI through fraud monitoring returns portal within 14 (fourteen) days of classifying an incident or account as fraudulent. Furthermore, all attempted and successful instances of theft, burglary, dacoity, and robbery must be reported to the fraud monitoring group of the RBI within 7 (seven) days of occurrence. NBFCs must also report all incidents of fraud immediately to appropriate law enforcement agencies through a nodal point or designated officer of such NBFC.

*The National Housing Bank Act 1987 ("**NHB Act**")*

The NHB Act was enacted to establish the National Housing Bank ("**NHB**") to operate as the principal agency for the promotion of housing finance companies ("**HFCs**"), both at the local and regional levels, and to provide financial and other support to such institutions for matters connected therewith or incidental thereto. The business of NHB includes, among others:

- promoting, establishing, supporting and aiding in the promotion, establishment and support of housing finance institutions;
- making loans and advances or rendering any other form of financial assistance for housing activities of HFCs, scheduled banks, state co-operative agricultural and rural development banks or any other institution or class of institutions as may be notified by the central government;
- guaranteeing the financial obligations of HFCs and underwriting the issue of stocks, shares, debentures and other securities of HFCs;
- formulating one or more schemes for the purpose of mobilisation of resources and extension of credit for housing;
- providing guidelines to HFCs to ensure their growth on sound lines; and
- providing technical and administrative assistance to HFCs and exercising all powers and functions in the performance of duties entrusted to the NHB under the NHB Act or under any other law for the time being in force.

Under the terms of the NHB Act, the NHB may, on being directed so to do by the RBI, cause an inspection of the books of accounts and other documents of any institution to which the NHB has provided a loan, advance or granted any other financial assistance. Further, the NHB is required to provide a copy of its report to such an institution. Also, the NHB is

empowered to direct and collect the credit information from any HFC at any time in order to efficiently discharge its function.

The NHB may, at any time on its own or on being directed so to by the RBI, inspect any HFC in order to verify the correctness or completeness of any statement, information or particulars provided to the NHB, or for the purpose of obtaining any information or particulars which the HFC has failed to provide after being called upon to do so. If any HFC fails to comply with any direction given by the NHB, the NHB may take appropriate actions against the HFC.

Pursuant to the Finance (No. 2) Act, 2019, the NHB Act has been amended, pursuant to the NHB Act Amendments, to transfer the regulating authority for the housing finance sector from NHB to RBI. Accordingly, amongst others, (i) HFCs are now required to apply to the RBI for registration under the NHB Act, in place of the NHB; and (ii) the RBI has now been conferred the power (a) to determine the percentage of assets to be maintained in terms of its investments and its reserve fund to be maintained; and (b) to regulate, by specifying conditions or prohibit the issue by any HFC of any prospectus or advertisement soliciting deposits of money from the public. However, the NHB Act Amendments, retain certain powers with the NHB, in addition to conferring such powers on the RBI, such as power to conduct inspections and request for documents from the HFCs.

Further, pursuant to the amendments to the 'Master Direction –Exemptions from the RBI Act, 1934 dated November 24, 2020, sections 45 –IA, 45 -IB and 45 –IC of the RBI Act, which deal with requirement of registration and net owned fund, maintenance of percentage assets, and the setting up and maintenance of a reserve fund are not applicable to HFCs.

Accordingly, activities of HFCs, are primarily regulated by the RBI and the NHB, including various aspects of our business such as definition of housing finance and housing finance company, net owned fund requirement, capital adequacy, sourcing of funds, on-boarding of customers, credit approval and risk management and asset classification and provisioning. Certain other generally applicable legislations as set out below also regulate other aspects of our business such as recovery of debt and taxation.

Circular on Key Fact Statement (KFS) for loans and advances dated April 15, 2024

In order to harmonize the instructions on the financial products being offered by various regulated entity (including NBFCs) and enhance transparency, the RBI has issued a circular on April 15, 2024 replacing certain instructions in relation to key fact statement and disclosure of annual percentage rate specified in the master direction on 'Regulatory Framework for Microfinance Loans' dated March 14, 2022 and 'Guidelines on Digital Lending' dated September 2, 2022. The aforesaid circular shall be applicable on all retail and MSME term loans extended by all regulated entities (including NBFCs) and are required to be complied with on or after October 01, 2024. The said circular provides as follows: (a) definition of the following terms 'Key Facts', 'Key Fact Statement ("KFS")', 'Annual Percentage Rate ("APR")' and 'Equated Periodic Instalment (EPI)'; (b) require NBFCs to provide a KFS to all prospective borrowers before executing the loan contract as per the standardised format; (c) to include KFS as summary box attached in the loan agreement; (d) provide for the following in KFS: unique proposal number, computation sheet of APR, the amortisation schedule of the loan over the loan tenor, validity period of KFS as prescribed in the circular, (d) NBFCs to include all charges which are levied by it including charges recovered on behalf of third-party service providers on actual basis in the APR and provide all receipts and related documents to borrower for each payment from time to time; (e) NBFCs should not charge any fees or charges not mentioned in the KFS at any stage during the term of the loan, without explicit consent of the borrower. Further, it has been specified that credit card receivables are exempted from the provisions of the aforesaid circular.

Circular on Fair Practice Code for Lenders – Charging of Interest dated April 29, 2024

The RBI has issued the circular on Fair Practices Code for Lenders – Charging of Interest ("**Circular on Fair Practices**") dated April 29, 2024. The Circular on Fair Practices is applicable to all the regulated entities (including NBFCs) in relation to charging of interest rates. In view of the same, NBFCs have been directed to review their practices regarding mode of disbursal of loans, application of interest and other charges and take corrective action, including system level changes, as may be necessary, to address the issues highlighted above. NBFCs are also being encouraged to use online account transfers in lieu of cheques being issued in a few cases for loan disbursal.

Notification on Extension of Timeline for Implementation of Instructions of Fair Lending Practice - Penal Charges in Loan Accounts

The circular on 'Fair Lending Practice - Penal Charges in Loan Accounts' dated August 18, 2023, initially set the implementation date for January 1, 2024. However, through a notification on December 29, 2023, the RBI extended this

timeline by three months in response to requests from certain regulated entities for additional preparation time. As a result, the instructions must now be applied to all new loans issued from April 1, 2024, onward. For existing loans, the transition to the new penal charges framework should occur on the next review or renewal date on or after April 1, 2024, but no later than June 30, 2024.

*Circular – Legal Entity Identifier ("**LEI**") for Borrowers dated April 21, 2022*

RBI has extended guidelines on LEI to NBFCs. Non-individual borrowers with an aggregate exposure of 50 million must obtain LEI codes in a phased manner by April 30, 2025. The aggregate exposure includes all fund based and non-fund based (credit as well as investment) exposure towards the borrower, taking the higher of sanctioned limit or outstanding balance for the purpose. Borrowers (other than government departments and agencies) who fail to obtain LEI codes cannot be sanctioned any new exposure norm be granted renewal or enhancement of any existing exposure.

Micro, Small and Medium Enterprises Development Act, 2006

As a Non-Banking Financial Company (NBFC), we are committed to financing Micro, Small, and Medium Enterprises (MSMEs) in accordance with the Micro, Small and Medium Enterprises Development Act, 2006, which defines MSMEs based on investment and turnover criteria. Our operations comply with the Reserve Bank of India Act, 1934, and the regulatory framework under the Master Direction – Non-Banking Financial Company – Housing Finance Company (Reserve Bank) Directions, 2021, the Master Directions on Fraud Risk Management in NBFCs (2024), and the Master Direction – Know Your Customer (KYC) Directions, 2016. We adhere to prudential norms on Income Recognition, Asset Classification, and Provisioning (IRACP) as per RBI guidelines, and maintain capital adequacy in line with the Scale-Based Regulation (SBR) Framework for NBFCs.

Real Estate (Regulation and Development) Act, 2016

RERA (Real Estate Regulatory Authority) was introduced in the year 2016. The purpose of the RERA Act, 2016, is to protect the homebuyer and increase the investments in the real estate industry. The RERA law is implemented in all the states to regulate the real estate sector. The law facilitates fast and effective dispute resolution.

The RERA Act makes it mandatory to register a project with RERA, for the launch of any residential or commercial real estate project where the land area is more than 500 square meters. Registering with RERA helps in creating transparency in the implementation of the projects launched.

SEBI Regulations

The Securities and Exchange Board of India (SEBI) regulates listed companies under the authority granted by the Securities and Exchange Board of India Act, 1992, as amended. Utilizing these powers, SEBI establishes regulations for listed entities to uphold high standards of investor protection and corporate governance.

As a listed entity dealing in both equity and debt, the Issuer must adhere to applicable rules and regulations, which include, but are not limited to, the SEBI Listing Regulations, and the SEBI NCS Regulations, each as amended. The SEBI Listing Regulations mandate that entities comply with ongoing disclosure obligations and corporate governance standards related to their listed securities, ensuring transparency in processes and ethical practices within the capital markets. The SEBI NCS Regulations are designed to regulate the issuance and listing of debt securities and non-convertible redeemable preference shares, whether through public offerings or private placements.

Legislative Framework for Recovery of Debts And Bankruptcy

*Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002, as amended (the "**SARFAESI Act**")*

The SARFAESI Act, as amended, states that if a borrower defaults on a secured debt and their account is classified as a non-performing asset, the secured creditor can issue a written notice requiring the borrower to fully discharge their liabilities within 60 days. If the borrower fails to do so, the secured creditor is entitled to exercise one or more of the following rights.

The secured creditor may take possession of the secured assets or assume control of the borrower's business, including the right to lease, assign, or sell the assets to recover the secured debt. Additionally, where a financial asset is financed by multiple secured creditors or through joint financing of financial assets by secured creditors, no individual secured

creditor may exercise any rights unless the action is approved by secured creditors representing at least sixty percent of the outstanding amount as of a record date. This decision will be binding on all the secured creditors.

The SARFAESI Act also establishes the framework for asset reconstruction companies, which are regulated by the RBI. These asset reconstruction companies can acquire financial assets from banks and financial institutions by issuing debentures, bonds, or other securities, as agreed upon with the respective bank or financial institution, or by entering into agreements for the transfer of such financial assets under mutually agreed terms and conditions.

*Recovery of Debts due to Banks and Financial Institutions Act, 1993, as amended ("**DRT Act**")*

Under the DRT Act, the procedures for recovery of debt have been prescribed and time frames have been fixed for speedy disposal of cases. The DRT Act prescribes the rules for establishment of Debt Recovery Tribunals ("**DRTs**"), procedure for making application to DRTs, powers of DRTs and modes of recovery of debts determined by DRTs, including inter alia attachment and sale of movable and immovable properties of defendants, taking possession of property over which security interest is created or any other property of the defendant and appointing receiver for such property and to sell the same, arrest of defendants, defendants' detention in prison and appointment of receivers for management of the movable or immovable properties of defendants. The DRT Act also provides that a bank or public financial institution, having a claim to recover its debt may join an ongoing proceeding filed by some other bank or public financial institution against its debtor at any stage of the proceedings before the final order is passed by making an application to the DRT.

Insolvency and Bankruptcy Code, 2016

The Insolvency and Bankruptcy Code, 2016 (the "**Bankruptcy Code**") amends certain provisions of existing legislation, including the Companies Act, 2013, and aims to consolidate existing insolvency laws for companies, corporate entities, and individuals. It establishes the Insolvency and Bankruptcy Board of India (IBBI) to regulate insolvency professionals, agencies, and information utilities while performing various legislative, administrative, and quasi-judicial functions. The Bankruptcy Code classifies creditors as financial creditors, who are owed debts for financial considerations, and operational creditors, who are owed debts for goods, services, or employment-related payments.

The Bankruptcy Code sets a 330-day timeline for resolving insolvency applications, including time spent on related litigations. As part of the resolution process, any insolvency resolution plan developed by insolvency professionals must receive approval from at least 66% of the voting share of financial creditors, who are calculated based on their financial debts, including interest. If the plan is rejected, the adjudicating authority will issue a liquidation order.
Pursuant to the Insolvency and Bankruptcy (Insolvency and Liquidation Proceedings of Financial Service Providers and Application to Adjudicating Authority) Rules, 2019 and Ministry of Corporate Affairs Notification S.O. 4139(E) dated November 18, 2019, the Bankruptcy Code is applicable to NBFCs with an asset size of at least ₹ 500 crore. However, only RBI can commence a corporate insolvency resolution process against NBFCs.

Legislative Framework for Data Protection

*The Digital Personal Data Protection Act, 2023 ("**DPDP Act**")*

The DPDP Act was passed by Parliament on August 9, 2023, received presidential assent, and was notified on August 11, 2023. This legislation aims to strike a balance between individuals' rights to protect their personal data and the necessity of processing that data for lawful and incidental purposes. Data fiduciaries, responsible for determining the means and purposes of personal data processing, are required to provide a clear and itemized notice to data principals, detailing the personal data to be collected and the reasons for processing it. Personal data can only be processed for lawful purposes with the individual's consent, which must be sought through a notice outlining the data to be collected and its intended use. Individuals can withdraw their consent at any time.

Data principals whose information is being processed have several rights, including the right to (i) obtain information about how their data is processed, (ii) request corrections or erasure of their personal data, and (iii) appoint someone else to exercise these rights in the event of their death or incapacity. The DPDP Act also establishes duties for data principals, such as not filing false or frivolous complaints or impersonating others in certain situations. Additionally, data fiduciaries are obligated to (i) take reasonable steps to ensure data accuracy and consistency, (ii) implement adequate security measures to prevent data breaches, (iii) notify the Data Protection Board of India and affected individuals in case of a breach, and (iv) delete personal data when consent is withdrawn or when it is no longer necessary for the specified purpose, whichever occurs first.

Legislative Framework on Labour Laws

Our Company is subject to various labour laws that regulate the conditions of work and employment, work hours, safety, protection, working condition, employment terms and welfare of labourers and/or employees. Our Company is, inter alia, subject to the applicable shops and establishments legislations, the Employees State Insurance Act, 1948, the Employees (Provident Fund and Miscellaneous Provisions) Act, 1952, the Payment of Gratuity Act, 1972, the Minimum Wages Act, 1948, the Payment of Wages Act, 1936, the Payment of Bonus Act, 1965, the Maternity Benefit Act, 1961, the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, and the Equal Remuneration Act, 1976. The Ministry of Labour and Employment has introduced four labour codes, namely, The Industrial Relations Code, 2020, Wages Code, 2020, Occupational Safety, Health and Working Conditions Code, 2020, and Social Security Code. The Social Security Code, 2020 has been passed in both houses of the parliament and received the Presidential assent but it is yet to be enforced, once enforced, it shall subsume Employee State Insurance Act, 1948, Employees (Provident Fund and Miscellaneous Provisions) Act, 1952, and the Payment of Gratuity Act, 1972. Similarly, Code on Wages, 2019 has received presidential assent, if enforced would subsume the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965, the Equal Remuneration Act, 1976.

Legislative Framework on Intellectual Property

Intellectual Property in India enjoys protection under both common law and statute. Under statute, India provides for patent protection under the Patents Act, 1970, copyright protection under the Copyright Act, 1957 and trademark protection under the Trade Marks Act, 1999. The above enactments provide for protection of intellectual property by imposing civil and criminal liability for infringement.

Global economic overview

Global economy is expected to grow at 3.2% in CY 2025 and 3.1% in CY 2026

In April 2025, the US announced sweeping import taxes on nearly every country, leading to elevated global uncertainties. Following this announcement, a 90-day pause was implemented until August 1, 2025, to allow for country-by-country negotiations on the tariffs.

During this period, only the UK and Vietnam were able to secure trade deals with the US. After the deadline, a universal tariff floor of 10% was applied to all imports from countries with which the US has a trade surplus, affecting most countries. Additionally, a 15% tariff floor was imposed on around 40 countries with which the US has a trade deficit. A total of 26 countries with significant trade deficits with the US are subject to tariffs exceeding 15%, including Bangladesh (20%), Indonesia (19%), Malaysia (19%), Pakistan (19%), Switzerland (39%), South Africa (30%), Taiwan (20%), Thailand (19%), and Vietnam (20%). However, for many of these countries, the new tariffs are lower than those initially announced in April 2025, and they became effective on August 7, 2025.
According to the International Monetary Fund's (IMF) World Economic Outlook (October 2025), the global economy is expected to experience a slowdown, with real GDP growth projected to decline from 3.3% in calendar year (CY) 2024 to 3.2% in CY 2025 and decrease further to 3.1% in CY 2026, much below the historical (2000-19) average of 3.7%.

IMF expects global inflation to decrease from 5.8% in 2024, albeit at a slower pace than previously anticipated, reaching 4.2% in 2025 and 3.7% in 2026. Inflation in the US is expected to remain above 2% target, with risks tilted to the upside, owing to pass-on of tariffs and impact of weaker dollar on consumer prices in some export sensitive goods. As per IMF, inflation projections went up for the United States and down for many other countries.

Despite the global uncertainties, the Indian economy will remain one of the fastest growing economies in the world. In fiscal 2024, Indian economy logged a robust 9.2% GDP growth on the back of strong domestic fundamentals and benign inflation. According to the provisional estimates of National Statistics Office (NSO) and Ministry of Statistics and Programme Implementation (MoSPI), the Indian economy logged a GDP growth of 6.5% in fiscal 2025. Crisil Intelligence has revised the GDP outlook upward considering a stronger than expected first half with projects the projected GDP growth rate to remain steady for fiscal 2026 at at 7.06.5% in fiscal 2026. We expect a mix of headwinds and tailwinds to influence the growth in the second half with net GDP growth expected to moderate in the second half to 6.1% compared with 8% in the first half of fiscal 2026. Going forward, in fiscal 2027, growth is expected to moderate to 6.7% but remain above trend, driven by healthy consumption and a mild revival in private investment. Besides a high base, moderating government capex is expected to pull growth.

Real GDP change (% year-on-year)

All data and forecast are as per IMF based on calendar year.
**For India, data and forecast are presented on fiscal year basis as per MoSPI and NSO. The GDP for 2024 is First Revise Estimate and for 2025 is Provisional Estimate. The fiscal 2026 and 2027 GDP is Crisil projection*
Source: International Monetary Fund (World Economic Outlook Update, October 2025), Ministry of Statistics and Programme Implementation (MoSPI), National Statistical Office (NSO), Crisil Intelligence

According to IMF, advanced economies, growth is projected to slow to 1.6% in 2025 (vs. 1.8% in 2024), with the United States expected to experience a significant slowdown to 2.0% (vs. 2.8% in 2024). This is attributed to impact of tariffs on demand momentum. The European Union is expected to grow slightly to 1.4% in 2025 (vs. 1.1% in 2024). Emerging market and developing economies are expected to experience a slowdown in growth to 4.2% in 2025 (vs. 4.3% in 2024).

Rising per capita GDP

With strong GDP growth, Crisil Intelligence forecasts that the per capita income will gradually improve, enabling domestic consumption over the medium term. As per IMF estimates, India's per capita income (at current prices) is expected to grow annually at 4.6% during fiscal 2026.

An overview of the Indian economy

India expected to remain one of the fastest growing economies in the world

India's economy continues to outperform, with real GDP growth accelerating to a six-quarter high of 8.2% year-on-year in the July-September quarter of fiscal 2026, up from 7.8% in the previous quarter. This robust momentum is primarily driven by strong private consumption, buoyed by soft inflation, lower lending rates, and income tax relief. Private final consumption expenditure grew 7.9%, marking a five-quarter high. On the supply side, gross value added (GVA) rose to 8.1%, supported by manufacturing and services, both expanding above 9%.

While private consumption and services led growth, government consumption expenditure declined (-2.7%), and export growth softened amid global headwinds and higher US tariffs. Fixed investment growth moderated but remained healthy, supported by state government capex. Industrial growth surged, with manufacturing at a six-quarter high of 9.1%, and services growth remained strong at 9.2%. Agriculture growth eased to 3.5% due to a high base and excess rain impacting some crops.

Nominal GDP growth was slightly softer at 8.7%. Statistical factors, including a low base and low deflator growth, contributed to the surge in real GDP. Urban demand remained healthy, as indicated by rising credit growth and improved consumer confidence. Given the stronger-than-expected first half, Crisil Intelligence has revised India's real GDP growth forecast for fiscal 2026 to 7% (up from 6.5%). Growth is expected to moderate to 6.1% in the second half, influenced by headwinds from US tariffs and a softer boost from low inflation. Tax relief, GST rate cuts, and further monetary easing will continue to support consumption. In fiscal 2027, growth is projected to moderate to 6.7%, remaining above trend, driven by healthy consumption and a mild revival in private investment, though government capex is expected to slow.

India's economy expected to grow at 7.0% in fiscal 2026

RBI cuts repo rate, supporting domestic growth against external headwinds

In fiscal 2023, India experienced a rise in inflation, driven by increasing food and fuel prices. To combat this, the Reserve Bank of India (RBI) raised the repo rate by a cumulative 250 basis points to 6.5%. As inflation eased and approached the RBI's 4% target, the central bank shifted its monetary policy stance, delivering rate cuts of 25 bps each in February and April 2025, followed by a 50-bps cut in June. The repo rate was held steady at 5.5% in August and October 2025 amid easing inflation, GST rate reductions, and global trade uncertainties.

In December 2025, the RBI's Monetary Policy Committee (MPC) cut the repo rate by an additional 25 bps to 5.25%, citing lower-than-expected inflation and revising its inflation outlook downward. Liquidity was further boosted through open market operations and forex swaps. The MPC maintained its 'neutral' stance, emphasizing a data-dependent approach going forward.

Crisil expects the benefits of recent rate cuts to play out in the coming year, with limited demand pressure on inflation and policy space for further rate cuts if growth surprises on the downside. The RBI is likely to remain flexible, responding to evolving domestic and global conditions.

Repo rate in India (%)

Trends in key macroeconomic indicators

Macro variables	FY24	FY25	FY26P	Rationale for outlook
Real GDP (y-o-y)	9.2%	6.5%#	7.0%*	Lower inflation and the RBI's rate cuts are expected to maintain growth this fiscal, assuming a normal monsoon and lower crude prices. The budget will be mildly supportive of growth, though the fiscal impulse will moderate with fiscal consolidation. Any substantial pick-up in investment growth will hinge on accelerating private capex. Exports face headwinds from the tariff hikes initiated by the US
Consumer Price Index (CPI) inflation (y-o-y)	5.4%	4.6%	2.5%	CPI-based inflation projected to decline to 2.5% in fiscal 2026, driven by a sharper-than-expected fall in food inflation, supported by healthy agricultural growth, benign global crude prices, and benefits from GST rate cuts.
10-year Government security yield (Fiscal end)	7.1%	6.7%	6.4%	Rate cuts by the RBI, lower inflation and softer crude prices are expected to lead to a mild softening of yields in this fiscal. A rise in gross market borrowings will cap the downside to yields
Fiscal Deficit (% of GDP) *	5.5%	4.8%^	4.4%^^	Fiscal consolidation will be made possible via moderating revenue expenditure thrust, even as capex focus is broadly maintained. On the receipts front, expectations of strong tax collections and a large dividend from the RBI and other central PSUs will help.
CAD (Current Account Deficit as % of GDP)	-0.7%	-0.6%	-1.0%	Current account deficit (CAD) is expected to increase owing to headwinds to exports from US tariffs. Lower crude oil prices, healthy services trade balance and robust remittances growth will prevent CAD from widening too much.
Rs/$ (March average)	83.0	86.6	88.0	A manageable CAD would mean limited pressure on the rupee, but global shocks and uncertainty are key risks. That said, India's healthy macroeconomic parameters will provide some cushion.

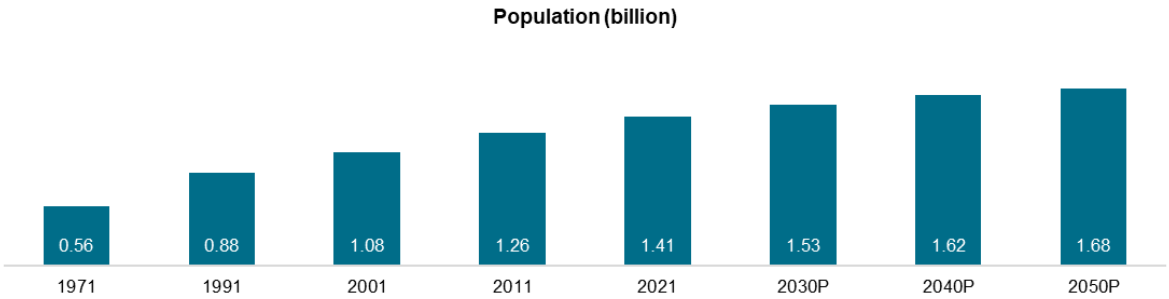
Long term growth drivers for India

India has the largest population in the world

As per World Bank, India's population witnesses a decadal growth rate of 12% during 2011-2021. With 1.53 billion estimated population in 2030, India will continue to be a major opportunity market from demand perspective. Additionally, as per United Nations Department of Economic and Social Affairs, India has overtaken China as the world's most populous country in April 2023.

India's population growth trajectory (billion)

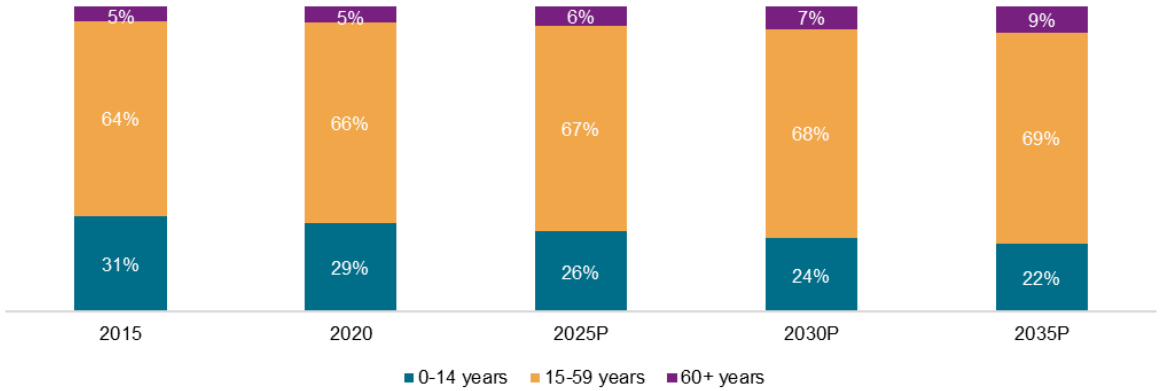


Note: P – Projected
Source: World Bank, Population estimates and Projections, Crisil Intelligence

Favourable demographics

India is also one of the countries with the largest youth population. About 90% of Indians are aged below 60 years. As per World Bank, 67% of the population is projected to be in the age group 15 and 59 years in 2025. Crisil Intelligence expects the existence of a large share of working population, coupled with rapid urbanisation and rising affluence, will propel growth of the Indian financial services sector.

India's demographic division (share of different age groups in India's population)



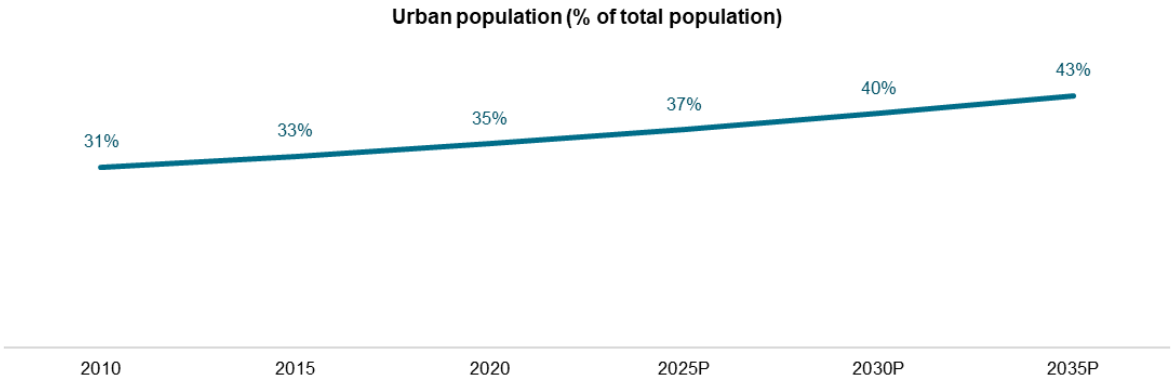
Note: P – Projected
Source: World Bank, Population estimates and Projections, Crisil Intelligence

Rise in urbanisation

Urbanisation is a key growth driver for India, as it leads to faster infrastructure development, job creation, development of modern consumer services, and the city's ability to mobilise savings. The share of urban population in total population has been consistently rising over the years and is expected to reach 37% in 2025 from 31% in 2010, spurring more demand.

Urban consumption in India has shown signs of improvement and given the country's favourable demographics, coupled with rising disposable incomes, the trend is likely to continue and drive domestic economic growth.

Urbanisation in India



Note: P – Projected
Source: World Bank, Population estimates and Projections, Crisil Intelligence

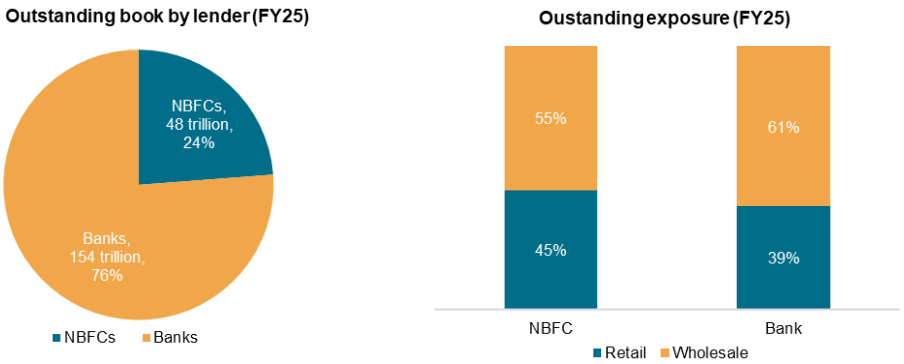
Structural reforms that will drive future growth

In 2025, India is undergoing significant structural reforms, adopting a "next generation" approach to drive economic growth and development. A key pillar of these reforms is the rationalization and simplification of the Goods and Services Tax (GST) to reduce taxes on essential items and ease compliance for Micro, Small, and Medium Enterprises (MSMEs). This move is expected to have a positive impact on the overall economy, as MSMEs are the backbone of India's industrial sector, providing employment to millions of people. By simplifying the GST, the government aims to increase tax compliance, reduce tax evasion, and generate more revenue. Additionally, the reforms also focus on boosting domestic production in critical sectors like defense and semiconductors to reduce import dependence, and a continued emphasis on infrastructure and financial inclusion. This comprehensive approach is expected to have a multiplier effect on the economy, leading to increased economic growth, job creation, and improved living standards.

Overview of NBFC sector

Rate cuts, tax incentives and regulatory support key drivers for credit expansion of NBFCs

Wholesale credit dominates lending of banks and NBFCs



Note:
1. The above representation of bank credit is exclusive of agriculture credit and onward lending to non-banks
2. Numbers in the presentation have been adjusted for the merger of HDFC Ltd and HDFC Bank for like-for-like comparison
Source: Reserve Bank of India (RBI), company reports and Crisil Intelligence

As of the end of fiscal 2025, the financing market was estimated at Rs 202 trillion, with banks (excluding agriculture credit) accounting for ~76% of the pie and a loan portfolio of Rs 154 trillion and non-banking financial companies (NBFCs) and housing finance companies (HFCs) comprising ~24%, with a loan portfolio of Rs 48 trillion.

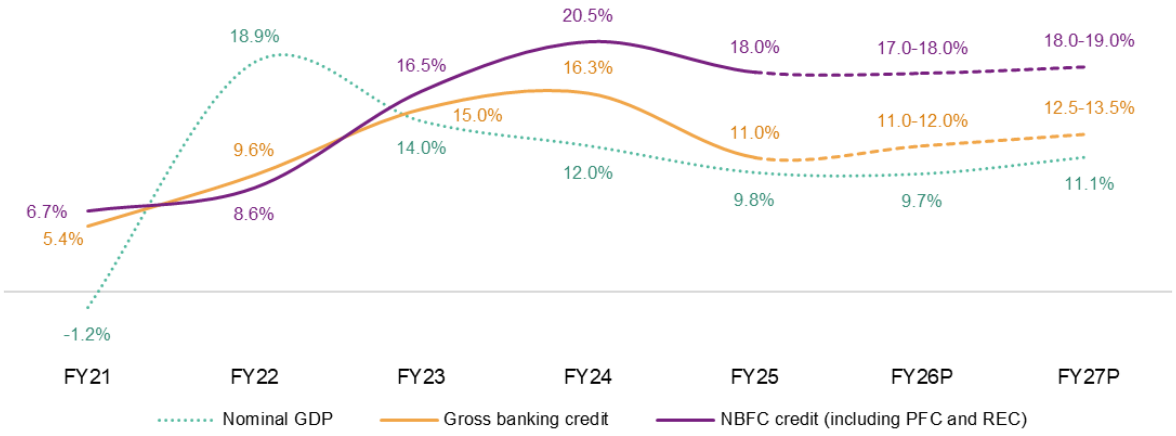
The portfolio of NBFCs and HFCs—excluding Power Finance Corporation (PFC) and Rural Electrification Corporation (REC), the two major government-owned infrastructure finance companies—is likely to remain skewed towards retail,

with a share of 58%.

The credit growth of NBFCs slowed to 18.0% in fiscal 2025 compared with 20.5% in fiscal 2024 on account of moderation in unsecured loans, including microfinance, personal and consumer durables loans, due to rapid expansion of such loans over the past few fiscals and overleveraging concerns, which can impact asset quality. As a result, in November 2023, the RBI tightened capital norms to slow down the growth of unsecured retail loans.

The trend continued in the first quarter of fiscal 2026, with NBFCs recording a slowdown in unsecured loans while secured loans saw growth. However, RBI's cumulative repo rate cut of 125 basis points (bps) between February to December 2025, increase in disposal income due to income tax and goods and services tax (GST) rates incentives and stabilisation in unsecured segments will support credit growth of NBFCs in fiscal 2026 and 2027.
Credit at NBFCs clocked a compound annual growth rate (CAGR) of 13.9% between fiscals 2020 and 2025. Credit growth picked up pace in fiscal 2023 after a slowdown due to pandemic-related disruptions in fiscals 2021 and 2022. In fiscal 2024, the financing market was valued at Rs 179 trillion, with banks accounting for Rs 138 trillion and NBFCs, Rs 41 trillion. In fiscal 2024, NBFCs recorded a 20% credit growth, driven by auto loans, personal loans, housing finance and microfinance in the retail segment and micro, small and medium enterprises (MSMEs) and infrastructure financing in the wholesale segment.

Wholesale segment, especially MSME loans, and pickup in retail loans to support credit expansion of NBFCs



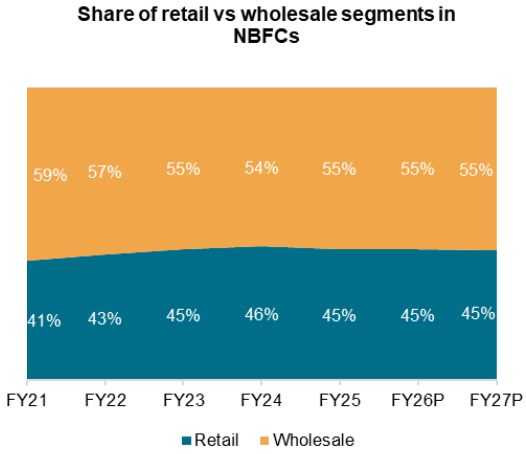
P: Projected
Note: Historical credit growth numbers have been adjusted for the merger of HDFC Ltd with HDFC Bank for like-for-like comparison
Source: RBI, National Housing Bank (NHB), Ministry of Finance, company reports and Crisil Intelligence

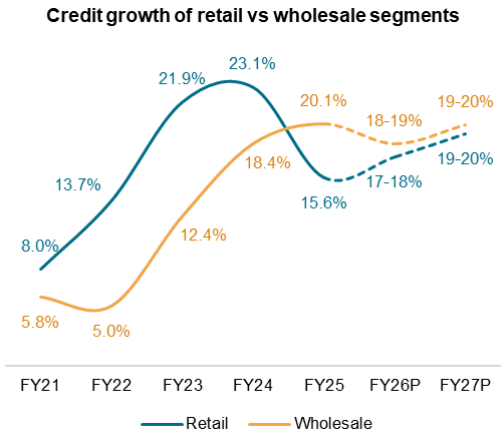
The credit growth of NBFCs, including PFC and REC, slowed down to 18.0% in fiscal 2025, compared to 20.5% in the previous year. Looking ahead to fiscal 2026, the credit growth rate is expected to stabilise at 17-18%. In fiscals 2026 and 2027, the wholesale segment is expected to drive credit growth. Among wholesale segment, MSME loans (accounting for 23% of total NBFC credit outstanding in fiscal 2025) is expected to continue growing at high double digit in the range of 26-28% in fiscal 2026 and 27-29% in fiscal 2027, driven by strong domestic consumption demand, increasing formalisation and penetration of credit in the sector and increasing focus on loan against property among lenders. In the retail segment, credit growth is expected to pick up after a slight slowdown in fiscal 2025 due to stress in unsecured loans.

In fiscal 2025, in the retail segment, gold loans recorded robust growth owing to a sharp increase in gold prices. Growth in housing loans remained broadly stable, while the auto loan book normalised. Microfinance loans recorded a dip due to overleveraging concerns among borrowers. On the other hand, real estate and corporate loans, construction equipment and infrastructure financing in the wholesale segment logged loan growth, while MSME loans continued their high double-digit growth rate despite some moderation.

In terms of asset quality, the retail segment witnessed a reduction in the gross non-performing asset (GNPA) levels in fiscal 2025, except for microfinance, which was impacted by overleveraging by underlying borrowers. Housing, personal, vehicle and gold loans saw improvement in asset quality, supported by a resilience of underlying customer base from the impact of high interest rates and tighter monitoring and collection efforts by NBFCs.

Wholesale segment to drive credit growth in fiscals 2026 and 2027 despite slight moderation; retail credit projected to pick up after a slowdown in fiscal 2025 due to stress in unsecured loans





P:

Projected
Note:
1) Retail includes housing, vehicle, gold, microfinance, personal, consumer durables and education loans
2) Wholesale includes MSME, real estate and large corporate, infrastructure and construction equipment loans
Source: Industry and Crisil Intelligence

In fiscal 2025, the retail segment's share in the lending mix is estimated to have declined marginally to 45%, while that of wholesale is likely to have increased to 55%. The share of these segments is expected to sustain in fiscals 2026 and 2027.

The growth rate in the retail segment is likely to pick up to 17-18% in fiscal 2026, driven by growth in housing, vehicle, personal and consumer durable loans. However, NBFCs are expected to maintain a cautious approach on microfinance due to the ongoing asset quality concerns. The growth of gold loans is expected to normalise after clocking an exceptional growth in fiscal 2025.

The wholesale segment's growth rate is projected to remain high despite a slight moderation owing to an expected slowdown in infrastructure disbursements. MSME loans are expected to continue witnessing high double-digit growth rate and corporate and real estate loans are projected to see an uptick as legacy loan issues are now largely resolved.

In fiscal 2024, the retail segment's share in the lending mix increased to 46%, driven by strong credit growth over the past two years. The wholesale segment also saw a healthy credit growth of 18%. These trends were a continuation of the patterns observed in fiscal 2023 when the retail and wholesale segments expanded 21.9% and 12.4%, respectively. Growth in the wholesale segment was driven by MSME loans in fiscal 2023, which was further aided by a steady rise in infrastructure financing.

Historically, the retail segment led growth in the NBFC sector, while the wholesale segment logged low single-digit growth between fiscals 2021 and 2022.

Break-up of retail and wholesale NBFC credit in fiscal 2025

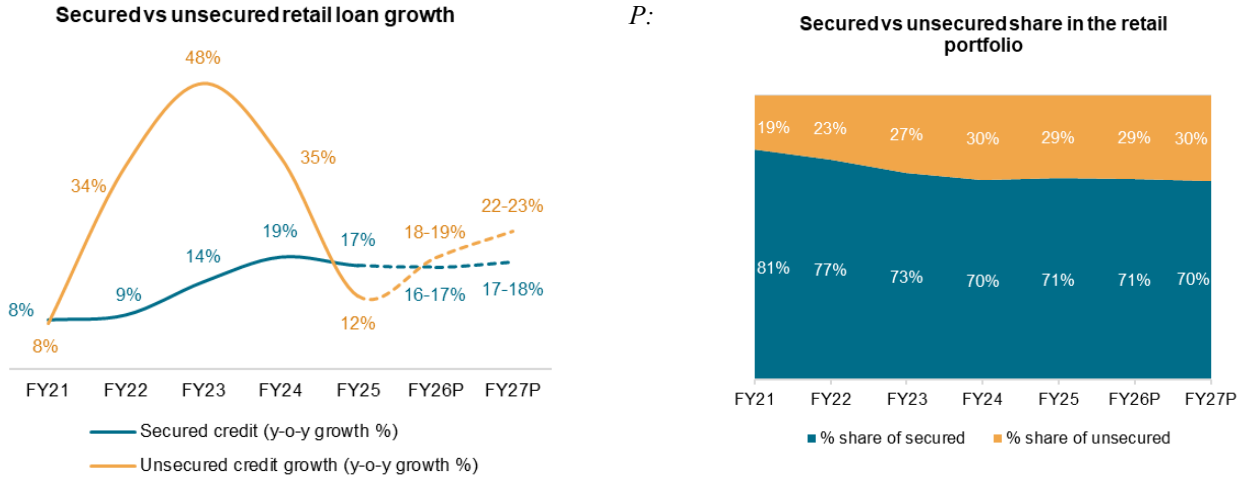
Secured lending segments aided NBFC credit growth momentum in fiscal 2025; growth expected to remain rangebound in fiscals 2026 and 2027

Unsecured loans to grow, albeit at a slower pace, to calibrate underlying stress



Projected
Note: For the calculation of unsecured retail loans offered by NBFCs, segments such as personal, microfinance, consumer durable loans and the unsecured proportion of education loans have been considered
Source: RBI, NHB, Microfinance Institutions Network (MFIN) and Crisil Intelligence

In fiscal 2025, the retail portfolio of NBFCs is estimated to have grown 15.6% on-year to Rs 22 trillion. Within the portfolio, the unsecured category expanded rapidly in the past five fiscals. The surge raised concerns about underlying risks, prompting the RBI to issue the November 2023 circular requiring lenders to keep higher capital buffers against such exposures. This led to a slowdown in credit in the second half of fiscal 2024, which continued into fiscal 2025. The impact was evident in microfinance and personal loans, driven by overleveraging, higher inflation and stagnant income, which impaired the borrowers' repayment capability.

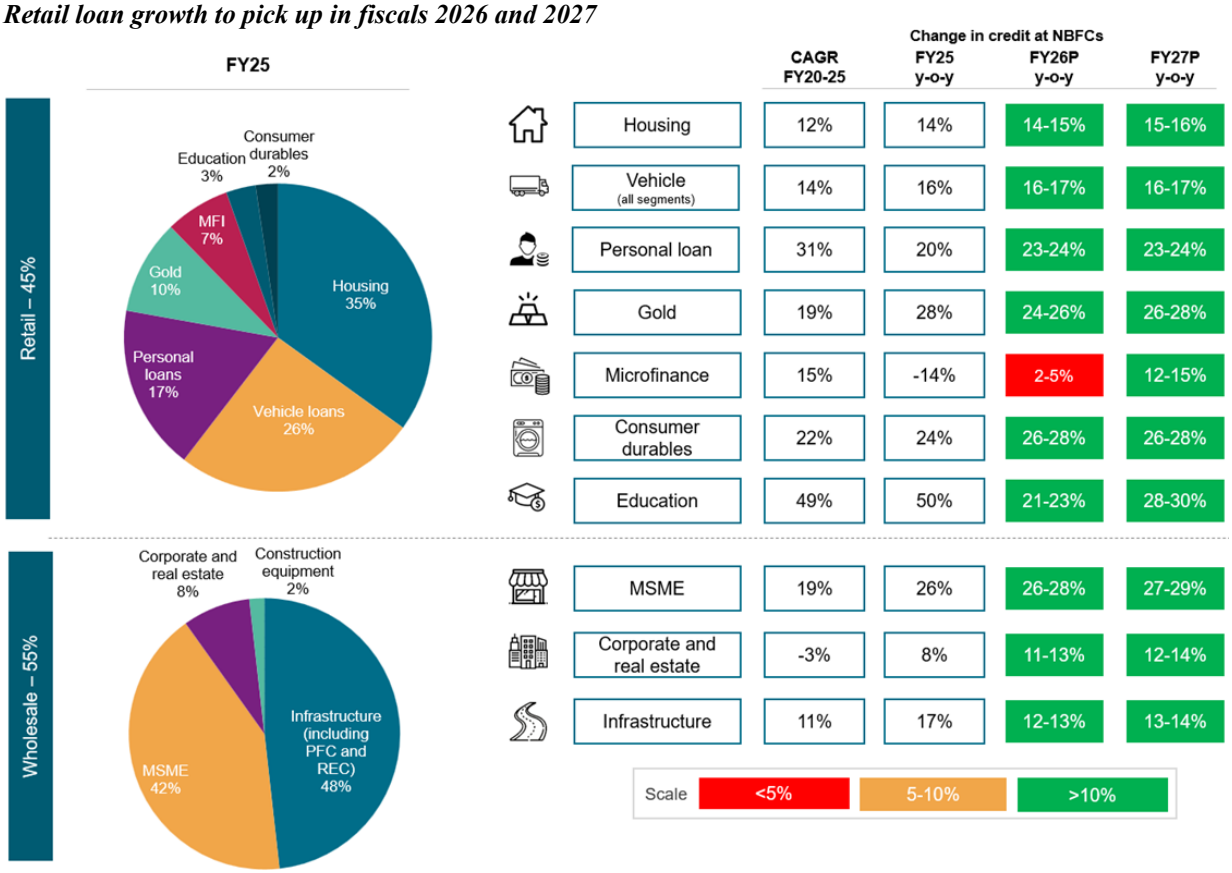
Overleveraging at the borrower's end augments asset quality vulnerability. This is exacerbated in unsecured lending, where there is no recourse to collateral. Consequently, the loss, given the default, is high. Hence, NBFCs lowered their exposure to unsecured loans in fiscal 2025.

Crisil Intelligence project the unsecured lending segment's share to remain stable at 29% in fiscal 2026 and rise to 30% in fiscal 2027, supported by loan growth recovery in microfinance, following a considerable credit decline in fiscal 2025. To manage overleveraging in microfinance, the MFIN announced a cap of three microfinance lenders and maximum retail unsecured loan indebtedness of Rs 0.2 million per borrower, effective from April 1, 2025. In anticipation of these

guidelines, lenders cautiously lowered their exposure in fiscal 2025 to fulfil the applicable criteria, leading to a decline in the loan book.

Personal loans and consumer durable loans are also expected to pick up in fiscal 2026 and 2027 due to GST cuts and increasing private consumption. As a result, Crisil Intelligence expect the unsecured segment's growth rate to increase to 18-19% in fiscal 2026, and that of the secured segment to remain range-bound at 16-17% supported by growth in housing, auto and gold loans.

Retail loan growth to pick up in fiscals 2026 and 2027



Note: P – projected
Source: Company reports, Crisil Intelligence

Housing finance: In fiscal 2025, the sector recorded credit growth of 14.6%, led by prime housing-focused HFCs. Meanwhile, credit growth for affordable housing-focused HFCs moderated slightly due to the impact of high interest rates on their underlying customer base. The growth in housing credit was supported by rising disposable income, salaried-class appetite for home loans being relatively resilient to the impact of a high repo rate, and sustained demand from Tier II and III cities. Crisil Intelligence expects growth in the housing loan book of HFCs/ NBFCs to accelerate moderately to 14-15% in fiscal 2026, as the impact of the repo rate cut on lending rates will boost demand for home loans. In addition, the recent allocation of Rs 30 billion to the Interest Subsidy Scheme under the Pradhan Mantri Awas Yojana for fiscal 2026 will accelerate growth in the sector.

Vehicle finance: The vehicle finance segment of NBFCs clocked a CAGR of 13.9% between fiscals 2020 and 2025, compared with 14.5% for overall vehicle finance advances. In fiscal 2025, NBFCs' vehicle finance portfolio expanded 16.4%, outpacing the industry growth rate. Crisil Intelligence expects overall vehicle finance advances to increase 13-14% in fiscal 2026, with NBFCs' vehicle finance advances projected to grow 16-17%. The growth drivers for this segment include improved market sentiment, reduced borrowing costs, an expected increase in government capital expenditure and rising preference for used vehicles. In addition, replacement demand for commercial vehicles, premiumisation in the passenger vehicle and two-wheeler segments, and a pick-up in demand for tractors and two-wheelers will support the vehicle finance segment.

Gold finance: The gold loan segment of NBFCs grew 28.2% in fiscal 2025, driven by an increase in gold prices. Further, NBFCs' tightening of underwriting standards for unsecured and microfinance advances led to expansion in gold loans. As of June 2025, the average gold price of past 12 months increased 28%. The combined tonnage growth of the top two

gold loan NBFCs increased 4.9%, while the combined active gold loan customer base expanded 8.3%, indicating strong demand for gold loans. Crisil Intelligence projects the gold loan segment of NBFCs to grow 24-26% in fiscal 2026, driven by an expected increase in gold prices, the revised loan-to-value norms, and the relaxation of underwriting standards for loans with a ticket size of up to Rs 250,000.

Microfinance: NBFC-microfinance institutions (NBFC-MFIs) clocked a CAGR of 15% between fiscals 2020 and 2025 in microfinance advances. However, in fiscal 2025, the industry's growth slowed down considerably, with credit outstanding of NBFC-MFIs declining 13.7% due to factors such as environmental challenges, increasing indebtedness of borrowers and state-level hurdles. Crisil Intelligence expects NBFC-MFIs to grow at a slow pace of 2-5% in fiscal 2026 due to tighter underwriting standards, focus on stable operations, and prudent lending practices. However, supporting factors include the introduction of additional measures by the MFIN, such as limiting the number of microfinance lenders to three per borrower and capping overall indebtedness of borrowers, and the modification to the qualifying asset norms by the RBI, which is expected to result in diversification of the loan portfolio.

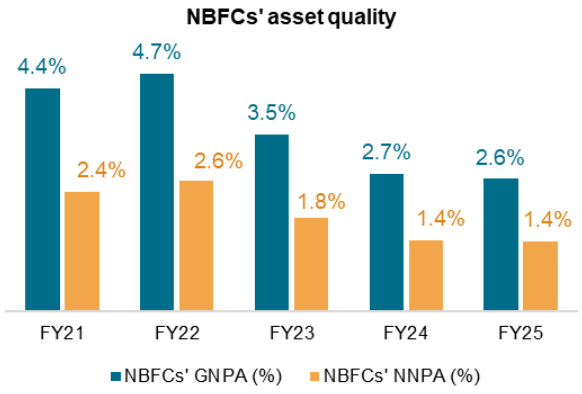
MSME finance: MSME lending has undergone a significant transformation in recent years, with banks and NBFCs sharpening their focus on this segment. The rise of digital lending, government-backed initiatives, a thriving economy and the increasing adoption of formal credit channels have led to growth in the segment. The shift towards the assessed income-based underwriting model has further boosted lending to MSME customers, who were unable to provide collateral and adequate income proof documents due to the nature of their business. Consequently, NBFC credit to MSMEs grew a robust 26% in fiscal 2025. Crisil Intelligence expects NBFCs to drive growth of MSME credit in fiscal 2026, with NBFC credit to MSMEs projected to increase 26-28% as domestic demand continues to rise following rate cuts and lower GST.

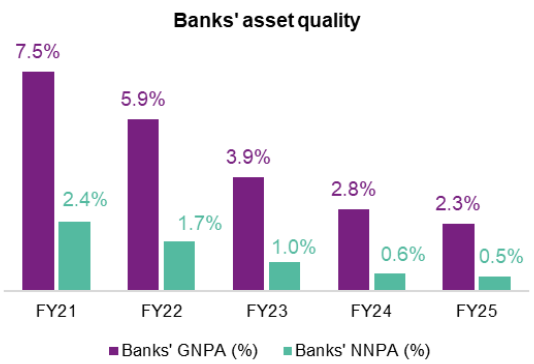
Real estate and corporate finance: NBFCs/HFCs have been reducing their wholesale exposure and focusing on the retail business because of asset quality issues. However, NBFCs/HFCs that continued to expand their wholesale portfolios in fiscal 2025 reported steady growth, leading to overall loan growth of 8%. Crisil Intelligence projects the wholesale book of NBFCs to grow 11-13% in fiscal 2026 as the pass-on of the cumulative repo rate cut of 125 bps between February and December 2025 is expected to increase real estate sales and revive new project-launches.

Infrastructure finance: The infrastructure book of NBFCs grew 16.7% in fiscal 2025, driven by investments in the renewable power and transmission and distribution (T&D) sectors, which saw a significant pickup in demand. The segment is projected to grow 12-13% in fiscal 2026, led by the continued expansion of the power sector and an anticipated pick-up in non-power capital expenditure, such as construction. However, the segment's growth rate is expected to be lower than the previous fiscal owing to higher repayments and the completion of certain government schemes, which will moderate disbursements. The 11.6% increase in budgetary allocation for infrastructure to Rs 10.7 trillion is expected to provide a boost to infrastructure investment in fiscal 2026.

Asset quality improved despite stress in unsecured loans

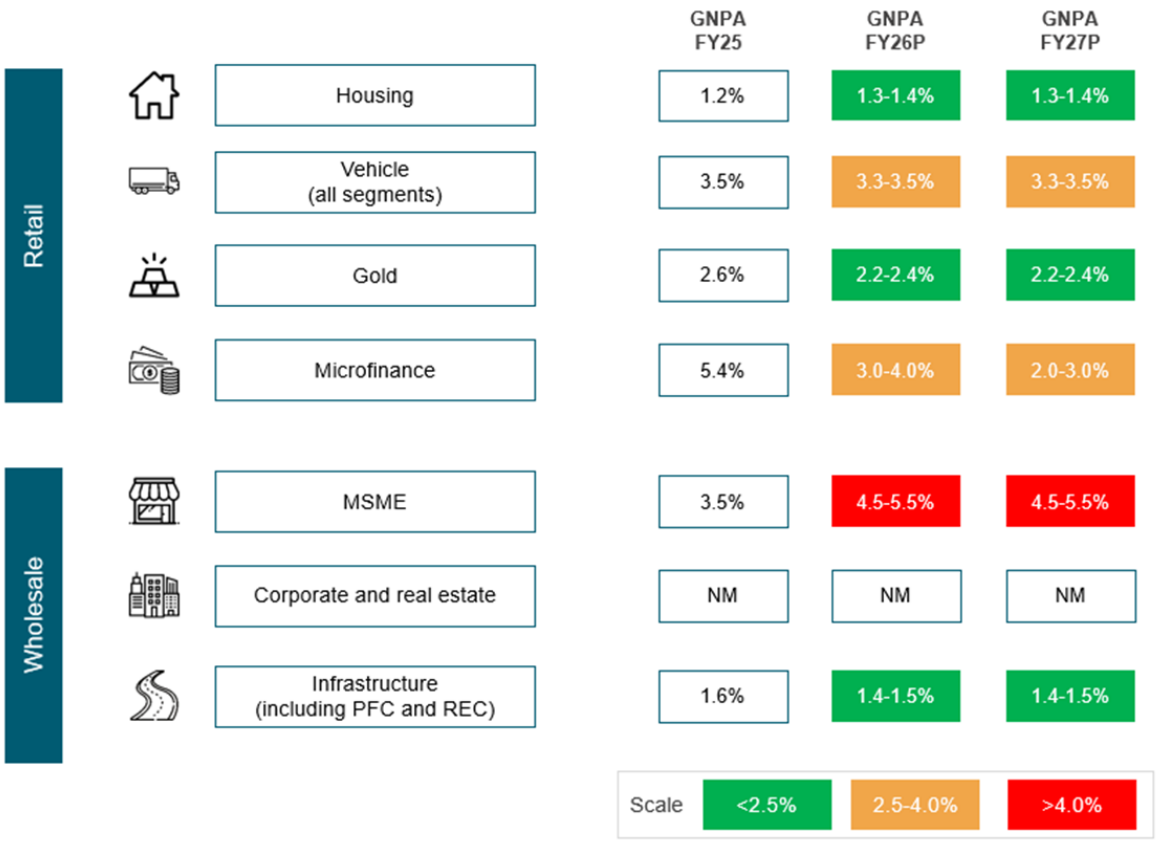
Improving asset quality, a positive for medium-term growth





Note: The analysis is based on data of over 100 NBFCs (including HFCs), which collectively accounted for loans and advances of Rs 30,600 billion as on March 31, 2025. These NBFCs account for more than 80% of the total loans and advances outstanding of the overall NBFC sector. The above set excludes PFC and REC.
Source: RBI, company reports, Crisil Intelligence

Asset quality of the unsecured segment primarily supported by write-offs



Note:
1) P – projected, NM – not meaningful
2) Asset quality of real estate and corporate loans is not meaningful due to the addition of contractual moratoriums, extension of date of commencement of commercial operations, one-time restructuring, and player strategy to downsize the wholesale portfolio
Source: Company reports, Crisil Intelligence

Housing finance: The housing portfolio of HFCs has demonstrated a positive trend, with the decline in GNPA since fiscal 2021 indicating an improvement in asset quality. In fiscal 2025, the housing portfolio's GNPA ratio decreased an estimated 23 bps to 1.2%, attributable to the resilience of customers of prime housing focused HFCs, along with intensified efforts to improve collection efficiency by closely monitoring early delinquencies (days past due: +1 day). Crisil Intelligence projects GNPA to increase marginally to 1.3-1.4% in fiscal 2026, with stress arising from customers in sectors such as textiles, jewellery, footwear, handicrafts and agriculture, which have been highly impacted by reciprocal tariffs of the United States (US). However, the pass-on of the repo rate cut to lending rates should alleviate downside risk to asset quality. Crisil Intelligence projects GNPA to be range-bound in fiscal 2027.

Vehicle finance: In fiscal 2025, the segment's asset quality initially declined due to delayed government expenditure and extreme weather conditions. The combined GNPA ratio for the top four vehicle finance NBFCs increased to 4.6% in December 2024, before improving to 4.2% at the end of the fiscal. The ratio increased slightly to 4.3% in the quarter ended June 2025. Crisil Intelligence expects the overall asset quality of vehicle finance companies to remain stable in fiscal 2026, with the overall GNPA ratio of vehicle finance NBFCs projected at 3.3-3.5% (vs 3.5% in fiscal 2025), as the expected pickup in government and private capital expenditure is likely to result in better capacity utilisation and realisation.

Gold finance: Asset quality of gold loan NBFCs was a concern in the past, with the GNPA ratio rising to 3.2% in September 2024 due to delayed auction process, which was a result of key NBFC players adopting a customer-centric approach that prioritised the sentimental value attached to the gold holdings by their customers, leading to a temporary increase in GNPA. However, the GNPA ratio declined to 2.6% by the end of fiscal 2025, and further to 2.1% as of June 2025, driven by recoveries and an expansion in the gold loan portfolio. Crisil Intelligence expects asset quality to remain

stable in fiscal 2026, with a projected GNPA ratio of 2.2-2.4%.

Microfinance: In fiscal 2025, the microfinance industry saw a decline in asset quality, with the portfolio at risk (PAR) 90+ increasing to 5.4% as of March 2025, driven by the general election, heatwaves, extended rainfall and overleveraging among borrowers. The GNPA further increased to 5.6% in June 2025. In response to these challenges, the MFIN has proposed self-regulatory measures, including limiting the number of lenders per borrower to three (including unsecured retail loans) while capping total indebtedness of the borrower. In fiscal 2026, Crisil Intelligence expects asset quality to improve, with GNPA projected to decline to 3-4% by the end of the fiscal, driven by increased write-offs and a reduction in overleveraging among borrowers following the implementation of stricter guidelines by the MFIN in April 2025. However, potential risks to asset quality include the introduction of the Tamil Nadu ordinance and the Bihar elections, which will be closely monitored.

MSME finance: In March 2021, asset quality of MSME loans deteriorated as the pandemic impacted borrowers' incomes, leading to a rise in GNPA. However, with continued improvement in economic activity, better collection efficiency and strong credit growth, GNPA decreased to 3.5% in fiscal 2025. Crisil Intelligence projects GNPA in the range of 4-5% in fiscal 2026 due to stress experienced by a few MSME sectors as a result of US tariffs.
Real estate and corporate finance: Crisil Intelligence expects continued high stress in the wholesale book, driven by contractual moratoriums and the extension of the date of commencement of commercial operations. Wholesale GNPA of NBFCs/HFCs moderated marginally in fiscal 2025, owing to recoveries and write-offs. However, for a few players, the GNPA ratio was in high double digits because of a continued decline in the wholesale book and no new disbursements.

Infrastructure (including PFC and REC) finance: Most of the borrowers of PFC, REC and Indian Renewable Energy Development Agency are state-owned generation and T&D entities covered by state government guarantees. Hence, delinquencies are restricted. The GNPA ratios of PFC, REC and India Infrastructure Finance Company Ltd fell 140 bps, 136 bps and 5 bps, respectively, in fiscal 2025, owing to effective resolution of stressed assets. The industry's GNPA declined 122 bps to 1.66% in fiscal 2025 from 2.88% in fiscal 2024. In fiscal 2026, the infrastructure loan book of NBFCs is expected to see continued improvement in asset quality, with GNPA projected to remain stable at 1.4-1.5% of gross outstanding loans. This optimistic outlook is supported by the consistent resolution of non-performing loans by large NBFC-IFCs and the anticipated resolution of additional accounts in the near term. Further, the GNPA ratios of PFC and REC have been declining, providing additional evidence of the improving asset quality in the sector.

Securitisation volume by NBFCs was strong in first half of this fiscal, share of banks declined

Securitisation volume grew 8% to Rs 1,240 billion in the first half of fiscal 2026 compared with Rs 1,150 billion in the corresponding period of the preceding fiscal. The volumes were driven by sustained activity from NBFCs. Originations by banks, however, remained subdued.

In the second quarter alone, aggregate market volume was ~Rs 750 billion, up from Rs 700 billion in the same period last fiscal. Volumes by NBFCs, the largest originators, remained strong in the second quarter and accounted for 69% of the market volumes.

Among retail asset classes, the share of vehicle loans (including commercial vehicles and two-wheelers) dropped marginally to 42% from 45%. Nevertheless, vehicle loans remain the largest asset class in securitisation supported by healthy volumes from large vehicle financiers. The share of mortgage-backed securitisation declined to ~ 17% compared with ~27% in the corresponding period of the preceding fiscal due to subdued activity by a large private bank.

Securitisation backed by microfinance loans grew 38% on-quarter and accounted for a 12% share in the first half of fiscal 2026, buoyed by a better performance of post-guardrails disbursements and demand for priority sector loans. The share of personal loans decreased to ~6% (vs ~7%) while that of business loans was stable at ~10%. Gold loan securitisation accounted for 11% of the market volume in the first half and continued to be dominated by a leading originator.

The share of pass-through certificates (PTCs) and direct assignments (DAs) continues to be driven by the nature of the asset class and investor preference. PTC volumes touched a decadal high of 68%, driven by a combination of large deals from non-financial sector entities and healthy volumes in securitisation backed by vehicle loans. DA volumes slowed down owing to a reduction in the quantum of transactions by a large private sector bank.

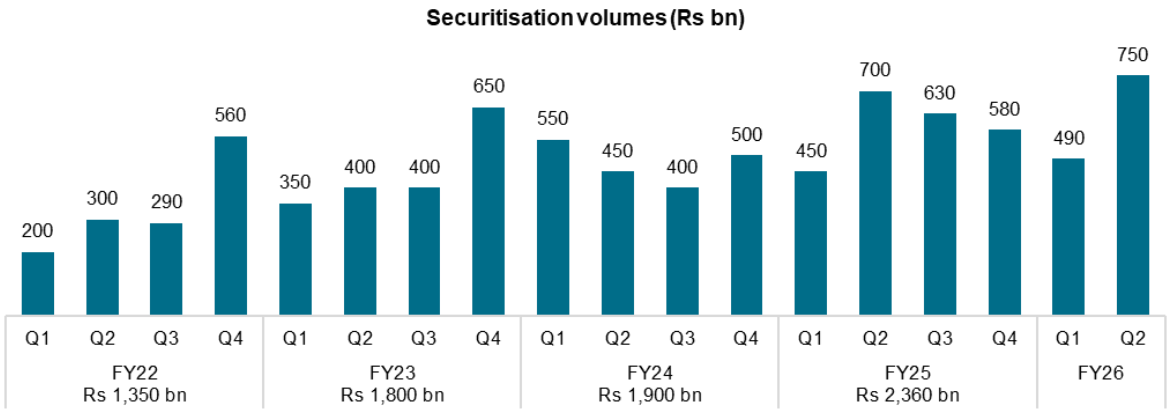
Securitisation volumes in fiscal 2026 are expected to be supported by sustained originations from NBFCs as growth picks up for the sector on the back of rising consumption supporting an uptick in retail credit demand. On the other hand,

with the credit-deposit ratio stabilising, the extent of bank originations, which accounted for a quarter of fiscal 2025 volumes, is envisaged to be subdued.

In fiscal 2025, the securitisation market in India grew 24% on-year to a record high of Rs 2.36 trillion, driven by large deals from private sector banks and steady fundraising by NBFCs. Despite a slower fourth quarter, the diversity of issuances increased, with 175 originators taking part compared with 165 in fiscal 2024. The share of securitisation by banks increased significantly to 26%, which was utilised to manage challenges arising from the high credit-deposit ratios.

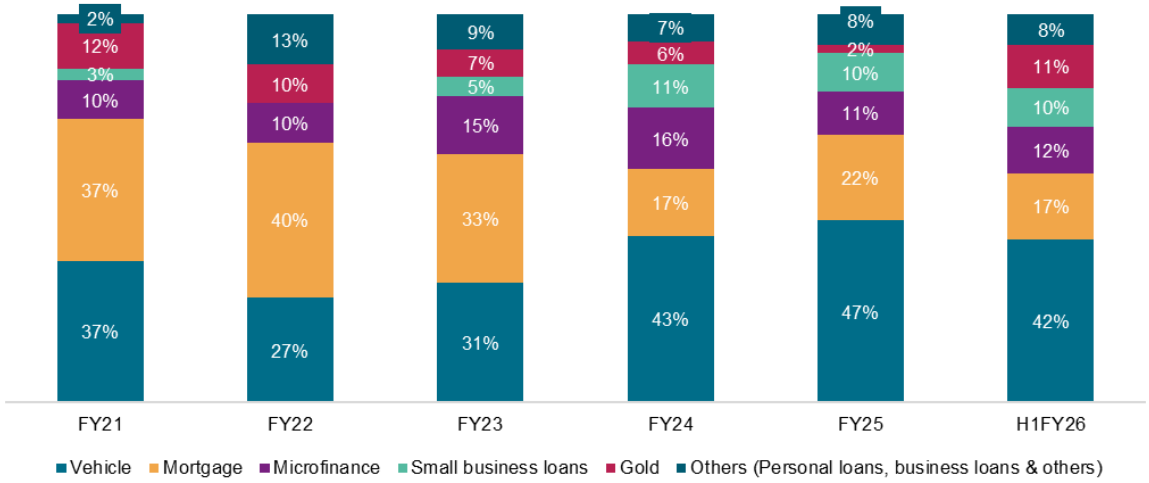
The securitisation market in India has grown steadily as banks and NBFCs see it as an efficient fundraising tool. With credit growth expected to pick up in fiscal 2026, the momentum in the market is likely to continue. The flexibility of PTCs and the ability to tailor cash flows to suit investor requirements and risk profiles are expected to support the growth. The securitisation market in India is expected to remain a key source of funding for banks and NBFCs in fiscal 2026.

Securitisation volumes reached a record high in second quarter of fiscal 2026 led by microfinance loans



Source: Crisil Ratings

Vehicle loans and mortgages dominate securitisation volumes



Source: Crisil Ratings

The securitisation and assignment of loan portfolios yield substantial benefits for NBFCs. Securitisation deals can unlock liquidity, help manage asset-liability mismatches and liberate capital to pursue new lending opportunities. The assignment of loans to banks or other investors, meanwhile, enables NBFCs to transfer credit risk, reduce provisioning requirements and improve balance-sheet resilience. Furthermore, securitisation and assignments can provide NBFCs access to diversified funding, reduce their reliance on traditional sources and bolster their financial stability.

Housing Finance - Review and outlook

Repo rate decline, PMAY scheme support and rising disposable income to support housing credit growth of 12-13% in fiscal 2026 and 13-14% in fiscal 2027

The Indian housing finance sector clocked a healthy compound annual growth rate (CAGR) of 12.7% between fiscals 2020 and 2025, riding on increasing disposable income, strong demand from smaller cities, branch expansion in Tier II and III cities, the emergence of new players and the rollout of government schemes to support the housing sector.

The housing finance sector comprises financial institutions (FIs), scheduled commercial banks, scheduled cooperative banks, regional rural banks, agriculture and rural development banks, housing finance companies (HFCs), state-level apex cooperative housing finance societies and non-banking financial companies (NBFCs).

In fiscal 2025, the total housing credit outstanding of banks, HFCs and NBFCs expanded 11.5% to Rs 38 trillion, moderating slightly from the 12.4% growth in fiscal 2024. The moderation can be attributed to the repo rate being on the higher side for a large part of the fiscal year, along with several headwinds in disbursements on account of elections in states such as Maharashtra, Andhra Pradesh, Jharkhand and Haryana.

Disbursements were also impacted by the amendments in property registration systems in Karnataka (e-Khata) and Madhya Pradesh, and the decision of the Hyderabad Disaster Response and Asset Monitoring and Protection Agency (HYDRAA) to demolish certain constructions in Telangana.

That said, factors such as rising disposable income and sustained demand from Tier II and III cities supported growth. Also, the home-loan appetite of the salaried class was relatively insulated from the impact of higher interest rates.

Crisil Intelligence expect the total housing credit outstanding of banks and HFCs/NBFCs to grow 12-13% in fiscal 2026 and 13-14% in fiscal 2027, mainly on account of the transmission of the cumulative repo rate cut of 125 basis points (bps) between February and December 2025 to the end customer and the resolution of property registration issues in Karnataka. Housing credit demand will further be catalysed by the allocation of Rs 35 billion to the Interest Subsidy Scheme under the Pradhan Mantri Awas Yojana (PMAY) in the Union Budget 2025-26 and the launch of the second tranche of the Special Window for Affordable and Mid-Income Housing (SWAMIH) fund of Rs 150 billion to help the completion of additional 100,000 housing units.

Housing credit outstanding

Type	Share in housing loans FY25	Housing loan book (Rs bn) FY25	CAGR FY20-25	Growth in FY25	Growth outlook for FY26P	Growth outlook for FY27P
HFCs and NBFCs	20%	7,572	11.6%	14.6%	14-15%	15-16%
Banks	80%	30,105	13.0%	10.7%	11-12%	12-13%
Overall	**100%**	**37,676**	**12.7%**	**11.5%**	**12-13%**	**13-14%**

P: projection
Note: HDFC Ltd and HDFC Bank became a merged entity effective July 1, 2023. Past numbers have been adjusted for HDFC Ltd's housing loan book to arrive at normalised credit growth
Source: Company reports, Reserve Bank of India (RBI), Crisil Intelligence

The merger of HDFC Ltd with HDFC Bank raised the retail housing credit market share of banks to ~80%. Prior to the merger, banks and non-banks held a share of 66% and 34%, respectively. Banks dominate the housing finance market because of their competitive advantages, such as higher liquidity and the ability to offer lower interest rates.

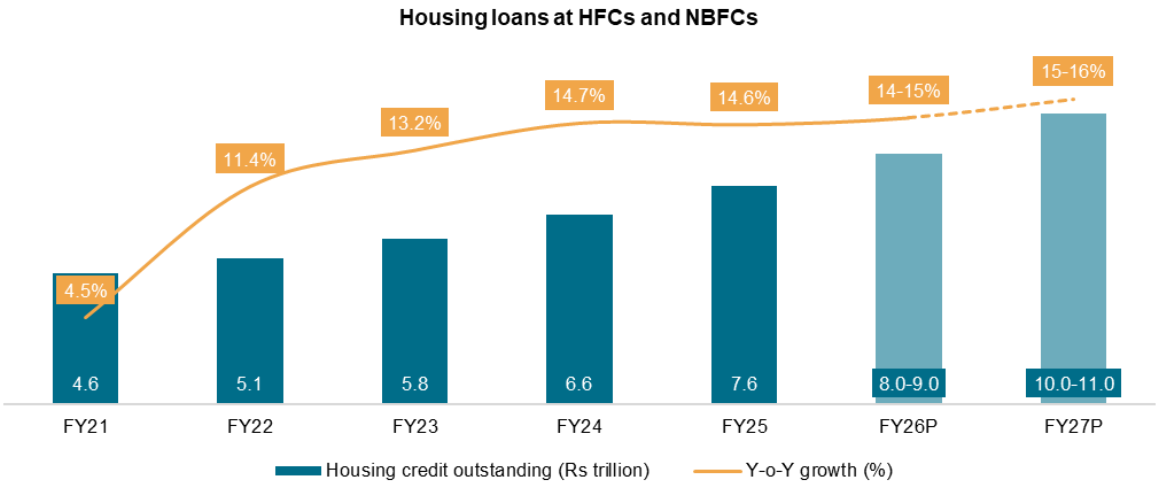
Between fiscals 2020 and 2025, housing loans by HFCs/NBFCs clocked a CAGR of ~11.6%, led by improved affordability, release of pent-up demand, the rollout of concessions on stamp duties by state governments and the central government's push through PMAY.

In fiscal 2025, HFCs/NBFCs' housing credit grew 14.6% on-year, reaching Rs 7.6 trillion. As inflation pressures eased, housing credit growth picked up in the second half of the fiscal, especially for HFCs focused on prime housing. Additionally, to alleviate the pressure of the high repo rate on margins, some large HFCs established dedicated affordable housing divisions or verticals as an additional growth avenue.

In the first quarter of fiscal 2026, HFCs/NBFCs experienced a slight slowdown in housing finance growth. This was

owing to a seasonal impact and heightened pricing competition from public sector banks, especially in the prime housing segment, as both players cater to the salaried customer segment. Property registration issues in Karnataka also contributed to the slowdown as lenders were unable to log cases owing to documentation hurdles.
Crisil Intelligence expect the housing loan book growth of HFCs/NBFCs to normalise in the remaining fiscal and remain range-bound at 14-15% in fiscal 2026 and expand by 15-16% in fiscal 2027, supported by a pick-up in demand due to pass-on of repo rate cuts on their lending rates and the rate competition from the public sector banks cooling down. The Interest Subsidy Scheme under PMAY and the SWAMIH 2.0 fund will provide additional impetus to growth in the affordable housing segment.

Housing credit of HFCs and NBFCs to grow steadily



P: projection
Note: HDFC Ltd and HDFC Bank became a merged entity effective July 1, 2023. Past numbers have been adjusted for HDFC Ltd's housing loan book to arrive at normalised credit growth
Source: Company reports, RBI, Crisil Intelligence

A-HFC credit continues to outpace housing credit growth

Affordable housing finance companies (A-HFCs)* saw housing credit expand at a CAGR of ~16.8% between fiscals 2020 and 2025. The momentum was driven by sustained urbanisation, growing housing demand from the migrant population in Tier III cities, rising demand from first-time low-income homebuyers and consistent government policy tailwinds through schemes like PMAY and SWAMIH fund.

Against this backdrop, new housing projects mushroomed, leading to a sharp rise in disbursements by A-HFCs, especially smaller companies expanding aggressively to capture a share of the affordable housing segment.

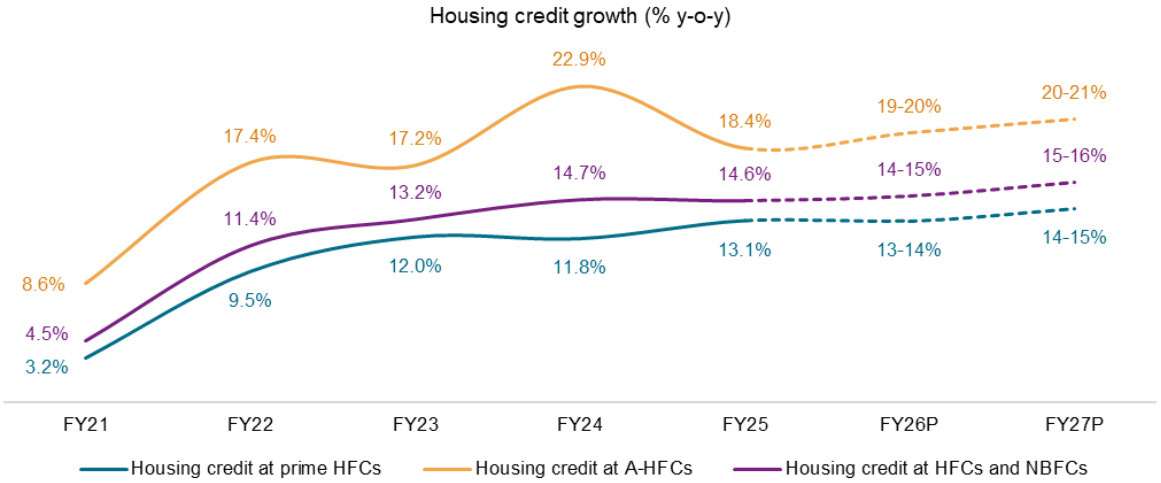
In fiscal 2025, housing credit at A-HFCs grew by 18.4% on-year, reaching Rs 2.2 trillion, slower than the robust 22.9% growth recorded in fiscal 2024. The slowdown can be attributed to the prolonged period of high interest rates, which impacted affordability. Moreover, few large HFCs focused on prime housing ventured into the affordable housing space by setting up dedicated divisions or verticals. Hence, A-HFCs faced an increase in competition and a reduction in their market share.

In the first quarter of fiscal 2026, A-HFCs saw a marginal slowdown in housing credit growth because of a seasonal impact, hiccups in the property registration system in Karnataka and pricing pressure from larger players.
According to Crisil Intelligence, credit growth of A-HFCs is projected to rebound to 19-20% in fiscal 2026, driven by pass-on of repo rate cuts benefit on borrowing rates and increasing traction from PMAY, with many customers starting to receive interest subsidy.

The total Rs 2.2 trillion budgetary allocation for PMAY-Urban over the next five years is likely to support affordable housing supply amid a mild slowdown as developers shift their focus towards the premium and luxury segments in metros and Tier II and III cities. Crisil intelligence projects, housing credit of A-HFCs to increase 20-21% in fiscal 2027.

**Note: Crisil Intelligence defines A-HFCs with average ticket size of less than Rs 2 million*

Housing credit growth of A-HFCs to rebound in fiscal 2026



P: projection
Note:
1. HDFC Ltd and HDFC Bank became a merged entity effective July 1, 2023. Past numbers have been adjusted for HDFC Ltd's housing loan book to arrive at normalised credit growth
2. Prime housing focused HFCs/NBFCs are LIC Housing Finance, PNB Housing Finance, Bajaj Housing Finance, Tata Capital Housing Finance, Can Fin Homes, Aditya Birla Housing Finance and Sammaan Capital
3. Affordable housing focused HFCs/NBFCs are ICICI Home Finance, Repco Home Finance, GIC Housing, Aadhar Housing, Aavas Financiers, Nido Home Finance, Motilal Oswal Home Finance, Home First Finance, Aptus Value Housing Finance, Truhome Finance (formerly Shriram Housing), Vastu Housing Finance Ltd, IIFL Home Finance Ltd, India Shelter Home Loans, Sundaram Home Finance, SMFG India Home Finance, Hinduja Housing Finance, Hero Housing Finance, Mahindra Rural Housing Finance and vPiramal Finance

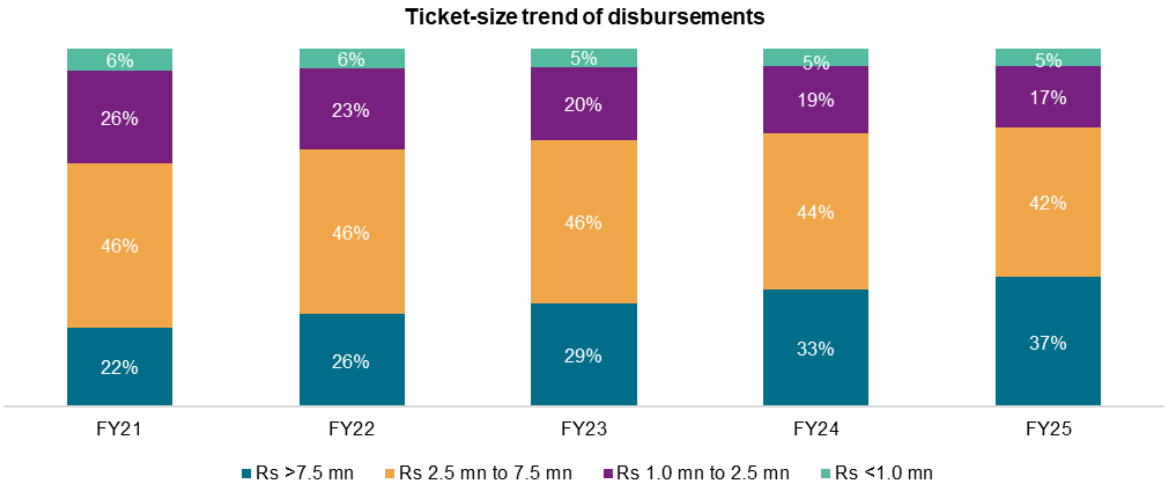
Share of prime housing loans increases in FY25

Share of housing loan disbursed with ticket size of Rs 7.5 million and above rose approximately 400 bps



Note: The ticket size-wise share is calculated based on the value of housing loans disbursed during the coverage period across all lenders, including banks
Source: Credit Bureau, Crisil Intelligence

In fiscal 2026, the shift towards high-ticket-size housing loans is expected to continue, driven by an increase in disposable income owing to income tax relief, transmission of the repo rate cut benefit to end customers and the reduction in goods and services tax rates. Additionally, the Master Directions for Priority Sector Lending (PSL) Direction—2025 increased the loan size for the priority sector loan classification of housing loans, making it more beneficial for banks to lend to high-ticket loans. However, this leaves room for HFCs and NBFCs to grow their share of loans with a lower ticket size.

According to the new PSL guidelines, loans up to Rs 5.0 million in centres with population of 5.0 million and above are eligible for PSL classification provided the cost to purchase/construct the house is less than Rs 6.3 million. For centres with population of 1.0 million to 5.0 million, the PSL loan limit is Rs 4.5 million for a house cost of up to Rs 5.7 million. Similarly, for centres with a population of less than 1.0 million, the PSL loan limit is Rs 3.5 million for a house cost of up to Rs 4.4 million.

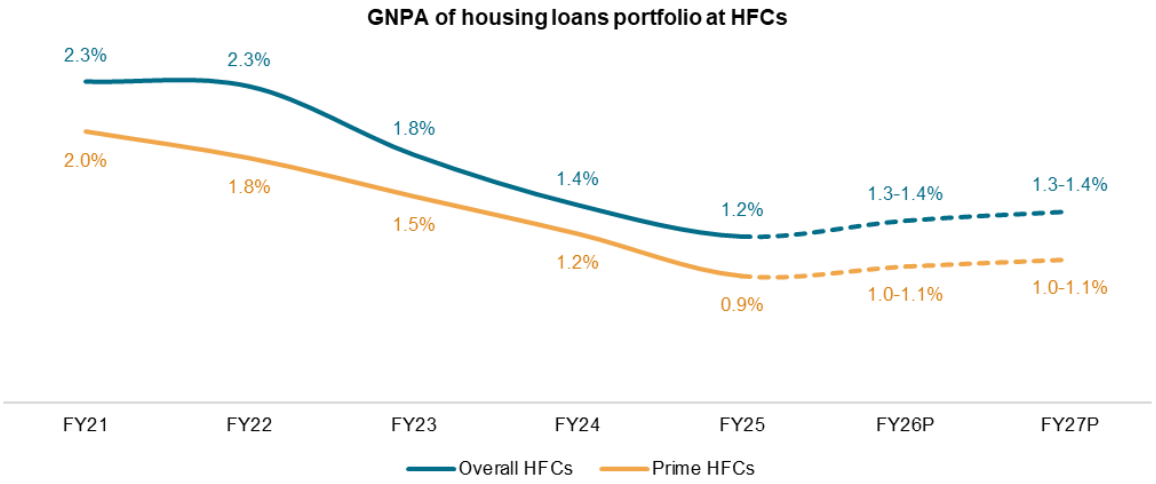
In the affordable housing finance space, the passing on of the repo rate cut benefit to the end borrowers is expected to improve the affordability of homes priced Rs 2.5 million and below, while government initiatives such as the PMAY are likely to boost growth in the affordable housing sector. Moreover, the SWAMIH 2.0 fund will help increase the supply of affordable houses.

In fiscal 2025, the share of housing loans disbursed with ticket size larger than Rs 7.5 million rose 400 bps to 37% in fiscal 2025 driven by stable income levels of underlying customers and demand for housing, which remained largely unaffected.

In fiscal 2024, too, the high-end segment (loans above Rs 7.5 million) had gained 400 bps on-year, driven by a 9% surge in property prices, whereas the mid-ticket loan segment (Rs 2.5-7.5 million) saw its share drop to 44%. In fiscals 2021 and 2023, the mid-ticket loan segment had maintained a steady 46% share. The proportion of homes priced Rs 2.5 million and below had been declining since fiscal 2020 owing to rising property values, while the middle-income group (MIG) category had seen improved affordability, leading to a shift towards mid-ticket
homes priced Rs 2.5-7.5 million.

Asset quality witnessed strong improvement over the past five fiscals

Housing portfolio to remain broadly resilient, despite stress from specific sectors affected by US tariffs

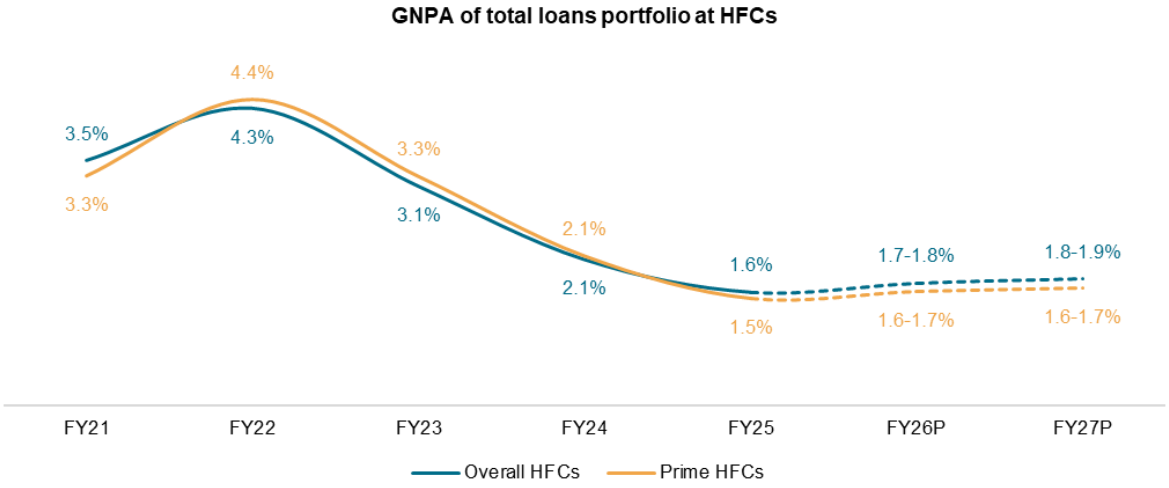


P: projection
Note: HDFC Ltd and HDFC Bank became a merged entity effective July 1, 2023. Past numbers have been adjusted for HDFC Ltd's housing loan book GNPA
Source: Company reports, Crisil Intelligence

In fiscal 2025, the housing portfolio's GNPA decreased ~23 bps to 1.2% on account of the resilience of both prime and affordable housing customers. Effective collections and higher provisioning also contributed to the improvement. Notably, lenders intensified collection efforts and monitoring, especially for early delinquencies (Days Past Due: +1 day), supporting improvement in asset quality.

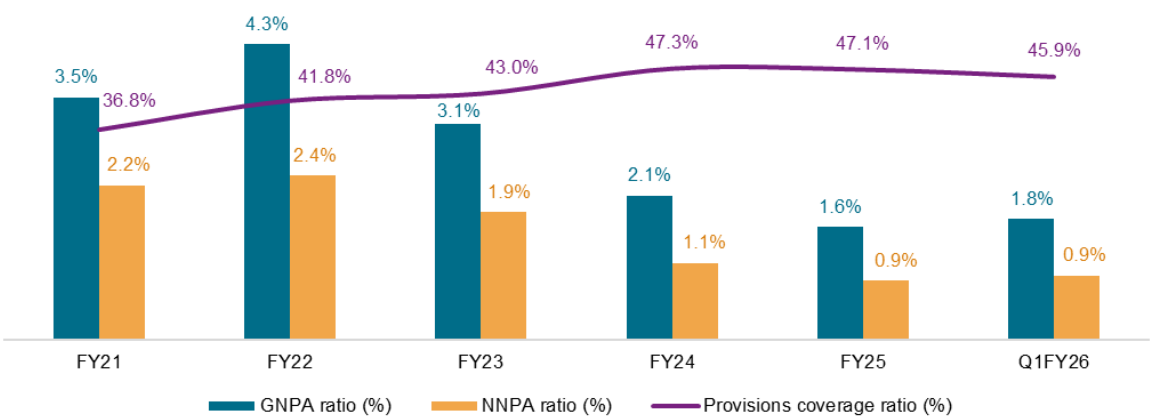
In fiscal 2026, Crisil Intelligence project housing portfolio's GNPA to increase marginally to 1.3-1.4%, with stress arising mainly from borrowers in the sectors such as textiles, jewellery, footwear, handicrafts and agriculture, which are highly impacted by the reciprocal tariffs imposed by the United States (US). However, lower lending rates following the repo rate cuts by the Monetary Policy Committee of the Reserve Bank of India should alleviate downside risk to asset quality. Crisil Intelligence project GNPA to remain range bound in fiscal 2027.

Asset quality of HFCs' total loan portfolio to remain higher than housing loan portfolio



P: Projection
Note: HDFC Ltd and HDFC Bank became a merged entity effective July 1, 2023. Past numbers have been adjusted for HDFC Ltd's total loan book GNPA
Source: Company reports, Crisil Intelligence

Asset quality of total portfolio weakened slightly in the first quarter of fiscal 2026 due to seasonality impact



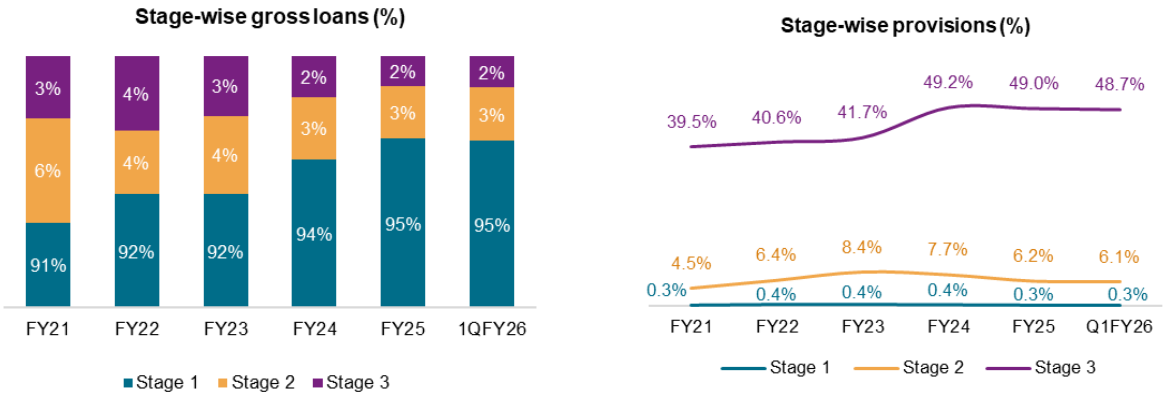
Source: Company reports, Crisil Intelligence

In fiscal 2025, the GNPA ratio of the HFC's total portfolio improved 47 bps to 1.6% mainly on account reduced stress in non-housing loans, as companies offloaded a significant portion of their wholesale loans to focus on retail lending. In the non-housing portfolio, the retail loan against property (LAP) and developer finance segments had a considerable share in GNPA and witnessed significant improvement in delinquency rates driven by overall economic growth and improvement in financial position of key borrowers.

In the first quarter of fiscal 2026, GNPA ratio weakened slightly mainly due to seasonality impact. However, many HFCs recorded a recovery in GNPAs towards the end of quarter.

Crisil Intelligence project GNPA of HFCs total portfolio (housing plus non-housing loans) to increase marginally to 1.7-1.8% in fiscal 2026 due to the likely impact of US tariffs on the LAP portfolio in highly affected sectors.

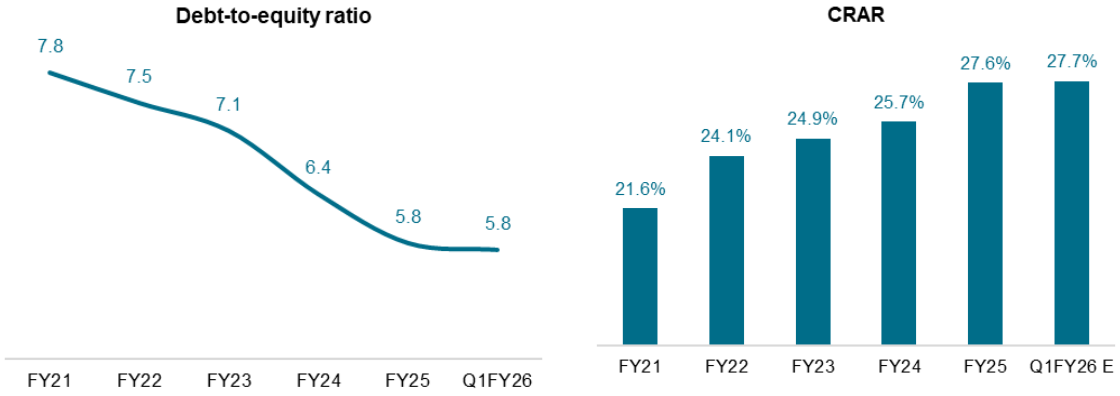
Trend in movement of stage-wise asset quality and provisions



Note: The trend in stage-wise asset quality and provisions is calculated based on 11 listed HFCs with total loans and advances of Rs. 6,470 bn as of June 2025
Source: Company reports, Crisil Intelligence

Over the past five fiscals, asset quality of listed HFCs improved with Stage 3 loans declining to 2% in fiscal 2025 from a peak of 4% in fiscal 2022. High loan growth along with cautious stance of HFCs, tighter underwriting practices and intensifying collection efforts helped improve asset quality. In the first quarter of fiscal 2026, asset quality was broadly stable across all stages.

Capital profile of HFCs remains strong, providing ample headroom for growth opportunities



E: Estimate
Note: Q1FY26 CRAR ratio is estimated based on the trend in the ratio reported by few players.
Source: Company reports, Crisil Intelligence

The capital profile of HFCs have been on an improving trend since the past five fiscals with debt-to-equity ratio declining from 7.8% in fiscal 2021 to 5.8% in fiscal 2025, supported by internal capital generation and increase in net worth through equity issuance. In the first quarter of fiscal 2026, debt-to-equity ratio was stable at 5.8%.
Similarly, CRAR ratio improved strongly over the past five fiscals from 21.6% in fiscal 2021 to 27.6% in fiscal 2025. In the first quarter of fiscal 2026, CRAR ratio is estimated to have improved to 27.7% supported by profit accretion.

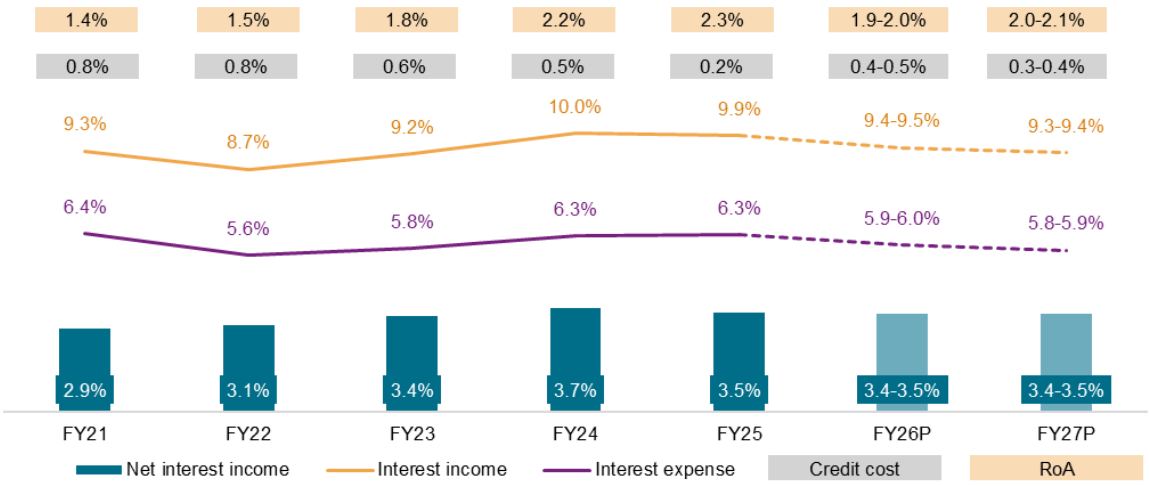
Profitability

Decline in lending yields on account of rate cuts and rise in credit cost to impact profitability in fiscal 2026
In fiscal 2025, the net interest income to average assets ratio of HFC declined ~16 bps to 3.5% on account of a drop in lending yields and a rise in borrowing cost. Interest income on average assets declined around 10 bps to 9.9% due to an increase in asset base on account of loan growth along with pricing pressures owing to intense competition in the housing space as both banks and non-banks focused on growing secured assets to mitigate asset quality pressures. On the funding side, interest expense to average assets ratio increased around 5 bps to 6.3% due to elevated interest rates during the fiscal and increased reliance on costlier funding sources such as commercial paper and NCDs.

Credit costs declined materially by ~29 bps to 0.2% as many large HFCs reversed their provisions during fiscal 2025 on account of improving asset quality. As a result, return on assets improved around 4 bps to 2.3%.

Crisil Intelligence expect interest income to average asset to decrease 40-50 bps to 9.4-9.5% in fiscal 2026 as lenders reduce the yields due to repo rate cuts. Interest expense to average assets is expected to drop 30-40 basis points to 5.9-6.0% due to slower repricing, leading to a 5-10 bps decline in net interest income to 3.4-3.5% in fiscal 2026. Credit cost is expected to normalise in the range of 0.4-0.5% after large reversals in previous fiscals. Overall, return on assets is expected to decline 20-30 bps to 1.9-2.0%.

Profitability to weaken in fiscal 2026 on NII compression and higher credit cost



P — projection
Notes: All ratios are based on total assets
HDFC Ltd and HDFC Bank became a merged entity effective July 1, 2023. Past numbers have been adjusted for HDFC Ltd's profitability to arrive at normalised ratios

Housing Finance – Industry overview

Crisil Intelligence defines affordable-housing loans as housing loans with an average ticket size of less than Rs 2 million.

A-HFCs are able to increase their share owing to:
- Strong origination skills and a focused approach
- Ability to cater to a niche category of customers
- Relatively superior customer service and diverse channels of business sourcing
- Non-salaried profile of ~80% of customers
- Higher presence in smaller cities

These factors have helped A-HFCs capture market share as banks have become risk averse and are focusing on high-ticket customers with good credit profiles.

By virtue of being largely present in metros and urban areas, ticket sizes of banks and large HFCs have gone up along with property prices. Further, a focus on the urban salaried segment by banks and large HFCs has enabled A-HFCs to tap credit demand from non-salaried customers, Tier 3 cities and rural markets.

Business model

The high cost of serving the affordable-housing category has prompted financiers to adopt innovative models to grow their business. An HFC targeting a low-income, informal-sector customer employs a hub-and-spoke model: Its retail branches operate as hubs in urban areas and project site kiosks follow up on low-income construction projects to source customers.

Although this model is popular and is largely followed by financiers, a developer-based model, where the HFC is present at the low-income housing-project site and business takes place directly alongside developer-partners, is not uncommon. Financiers also spread awareness about their products in rural areas by setting up kiosks at gram sabhas and arranging loan melas.

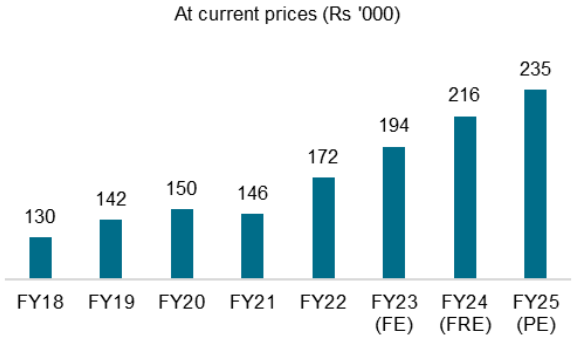
Direct customer contact enables better visibility and reliable customer assessment, thus limiting fraud. Moreover, all critical functions, such as origination, verification and credit appraisal, are undertaken in-house, while certain non-core activities, such as loan documentation and processing, may be outsourced. This allows a startup HFC to allocate more internal resources towards vital aspects of lending, such as verification and credit appraisal.

Customer risk

HFCs are aware of the challenges of serving low-income customers, particularly those in the informal sector. This income group rarely has proof of income and expenditure documents that conventional mortgage lenders rely on to assess creditworthiness. Thus, evaluating these customers requires a more field-based approach to verify cash flow using surrogates and building up knowledge about customer sub-segments to increase assessment reliability. The person, and not just documents, helps assess credit quality.

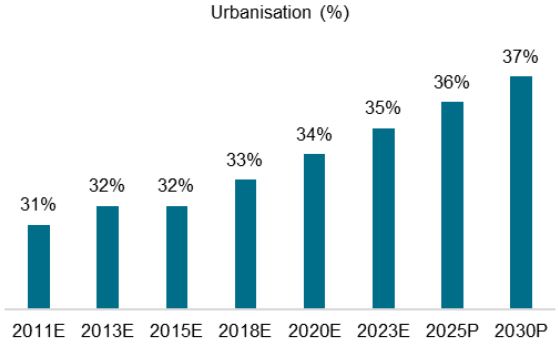
Long-term growth drivers of the housing finance sector

Rising per capita income



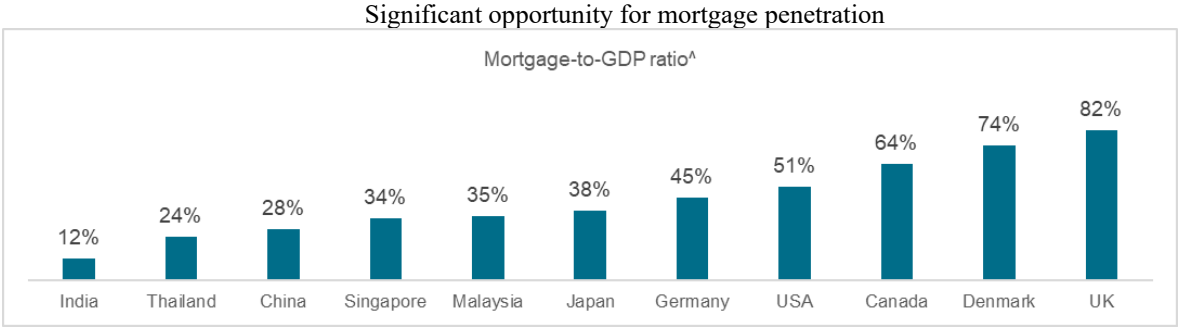
Rising income levels lead to higher disposable income and, therefore, increased affordability

Rapid urbanisation



Urbanisation increases the number of nuclear families, leading to the formation of more urban households

Significant opportunity for mortgage penetration



India's mortgage penetration, though low, is improving owing to ease of financing, tax incentives and increasing reach of financiers

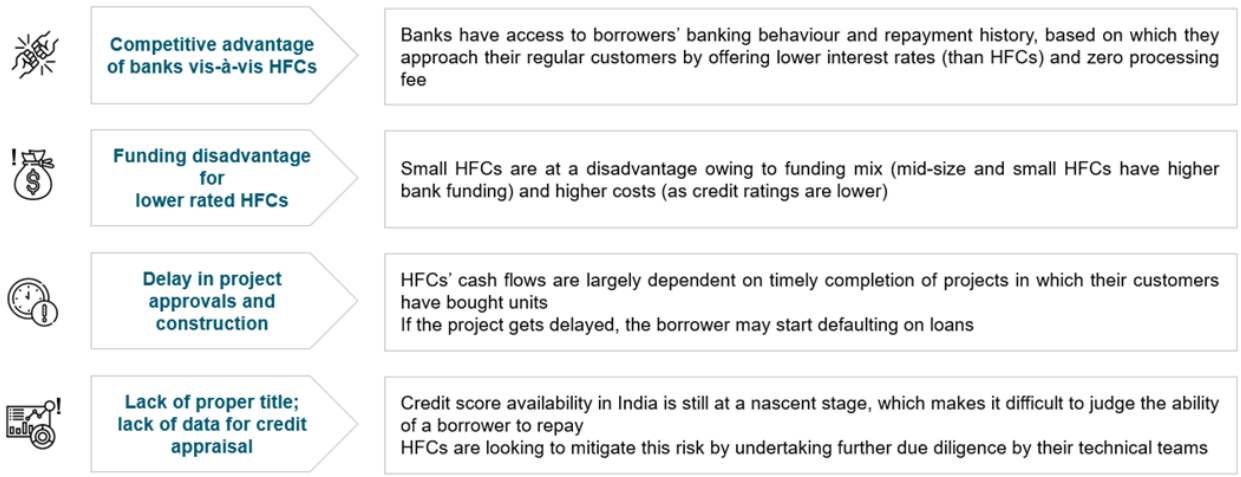
Risks and challenges



Affordable Housing Finance – Review and outlook

Affordable-housing credit growth to gain momentum in fiscal 2026

The affordable housing sector provides lenders substantial opportunities for growth, backed by the government's 'Housing for All' push and large unmet demand from low- and middle-income segments amid rapid urbanisation. Schemes such as Pradhan Mantri Awas Yojana (PMAY) and the Interest Subsidy Scheme to support development of affordable housing.

As a result, credit growth of affordable-housing finance companies (A-HFCs) or those disbursing loans with an average ticket size of less than Rs 2 million, logged a compound annual growth rate (CAGR) of 16.8% between fiscals 2020 and 2025 compared with the overall HFCs/NBFCs segment at 11.6%.

The double-digit growth of A-HFCs was driven by an improved operating environment, further aided by higher penetration in tier-I and II cities and disposable incomes, stable economic conditions and various government initiatives.

Housing credit outstanding of HFCs, NBFCs and A-HFCs

Type	Share in book FY25	Book (Rs billion) FY25	CAGR FY20-25	Growth in FY25 (%)	Growth outlook for FY26P (%)	Growth outlook for FY27P (%)
Affordable HFCs	28%	2,092	16.8%	18.4%	19-20%	20-21%
Overall HFCs and NBFCs	100%	7,572	11.6%	14.6%	14-15%	15-16%

P: Projected
Note: HDFC Ltd and HDFC Bank became a merged entity effective July 1, 2023. Past numbers have been adjusted for HDFC Ltd's housing loan book to arrive at normalised credit growth
Source: Company reports, Reserve Bank of India (RBI), Crisil Intelligence

In fiscal 2025, demand for A-HFCs grew 18.4% on-year to Rs 2.1 trillion albeit slower than the 22.9% growth recorded in the previous fiscal. The slowdown in credit growth for A-HFCs can be attributed to a prolonged period of high interest rates, which impacted affordability. Additionally, a few large prime housing-focused HFCs ventured into the affordable housing space by setting up dedicated segments. Hence, A-HFCs faced higher competition and a reduction in their share of affordable housing credit.

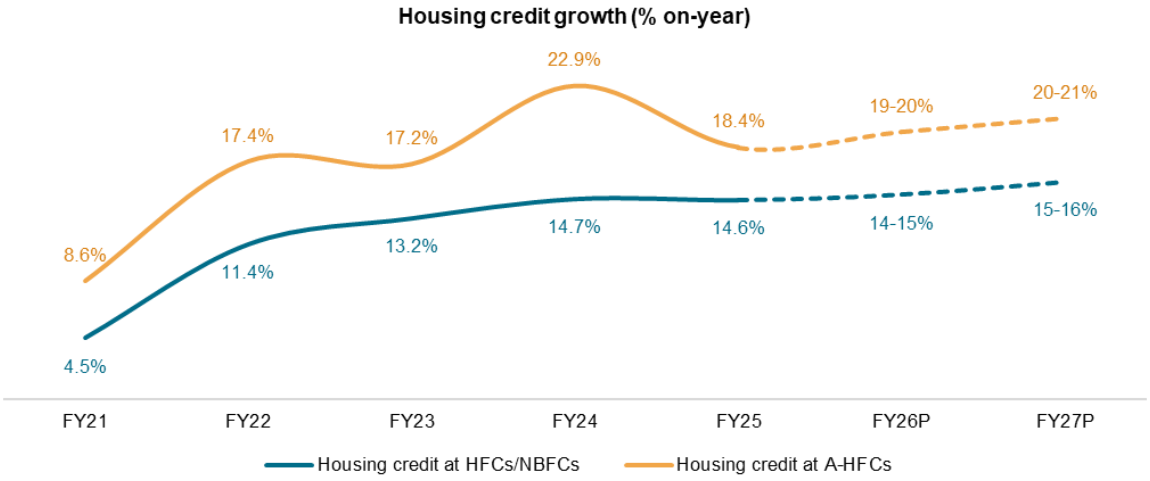
In the first quarter of fiscal 2026, housing credit growth of A-HFCs moderated due to a seasonally slow quarter, hiccups in the property registration system in Karnataka and pricing pressure from larger players.

Crisil Intelligence estimates credit growth of A-HFCs to rebound 19-20% fiscal 2026, driven by lower borrowing costs on the back of repo rate cuts and higher traction from the PMAY schemes as many customers started receiving interest subsidy during the quarter.

The overall allocation of Rs 2.2 trillion for PMAY-Urban over the next five years, announced in the fiscal 2026 budget, is likely to support supply in the affordable housing segment amid a mild slowdown in the construction of affordable houses. This slowdown can be attributed to a shift in developers' focus towards the premium and luxury segments in metros and tier-II and III cities. Crisil intelligence projects A-HFCs' housing credit to further increase 20-21% in fiscal 2027.

Note: Crisil Intelligence defines A-HFCs as companies with an average ticket size of less than Rs 2 million

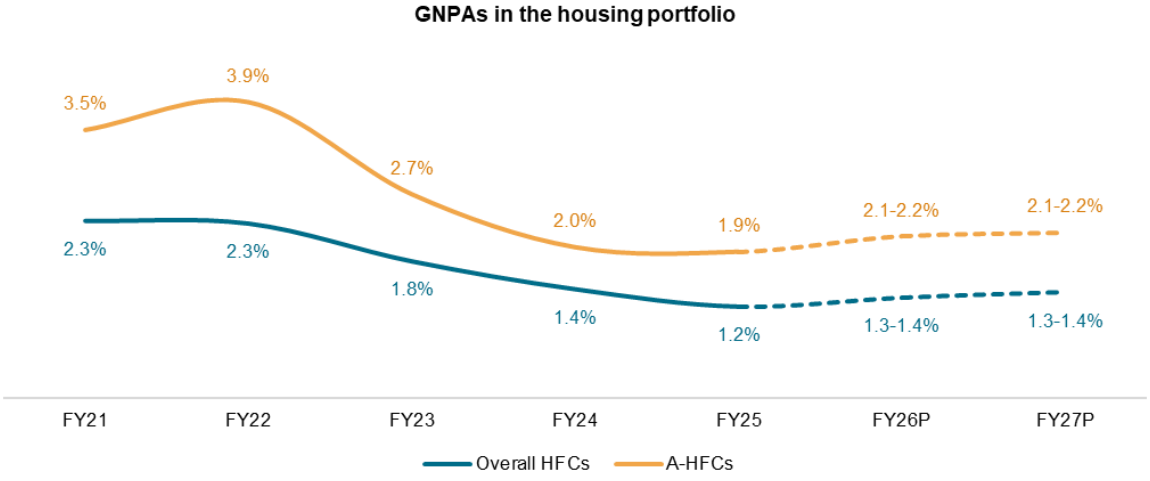
Credit growth of A-HFCs vs the overall segment



P: Projected
Note: HDFC Ltd and HDFC Bank became a merged entity effective July 1, 2023. Past numbers have been adjusted for HDFC Ltd's housing loan book to arrive at normalised credit growth
Source: Company reports, RBI, Crisil Intelligence

Affordable housing segment's asset quality improves amid better access to information, grassroot monitoring of loans and technology integration for credit assessment

A-HFCs' gross non-performing assets (GNPAs) of the housing portfolio to remain at manageable levels



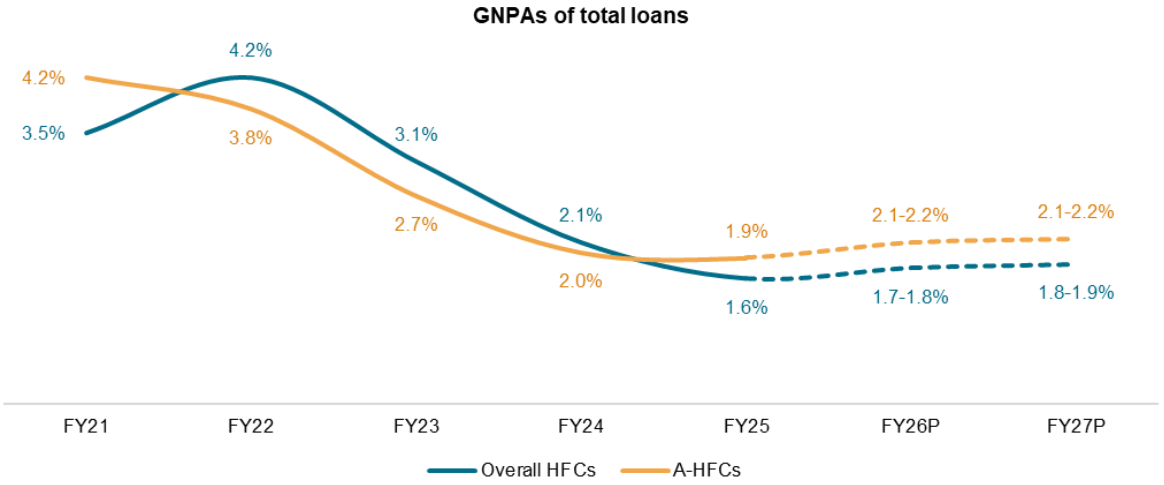
P: Projected
Note: HDFC Ltd and HDFC Bank became a merged entity effective July 1, 2023. Past numbers have been adjusted for HDFC Ltd's housing loan GNPAs to arrive at normalised ratios
Source: Company reports, RBI, Crisil Intelligence

In fiscal 2025, A-HFCs' GNPAs of the housing portfolio improved six basis points (bps) owing to better collection, adoption of the early warning signals framework for overdue loans, resilient economic conditions and appropriate underwriting controls of the customer base.

Moreover, A-HFCs major customer base is self-employed borrowers. Hence, A-HFCs have increased presence on the ground through additional branch openings for monitoring of loans and gathering regular information on the borrowers' financial profile.

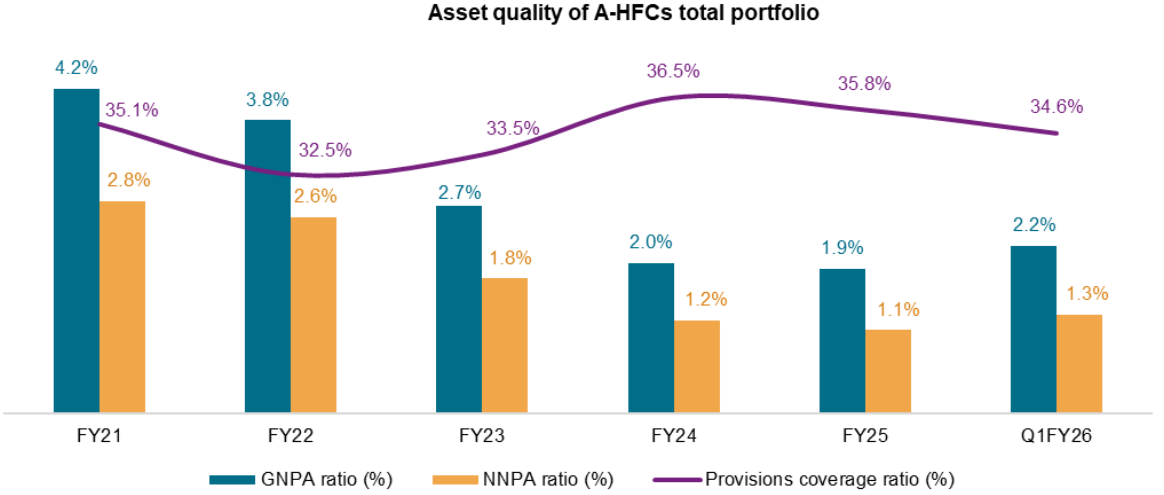
Crisil Intelligence project the asset quality of A-HFCs to increase moderately to 2.1-2.2% in fiscal 2026 given the impact of the US reciprocal tariffs on customers in the textile, jewellery, footwear, handicraft and agriculture sector. However, pass of rate cut benefit on lending rates should alleviate downside risk to asset quality. That said, A-HFCs are well positioned to manage the impact, given their adequate provisioning.

A-HFCs' total loan GNPAs to increase moderately in fiscal 2026



P: Projected
Note: HDFC Ltd and HDFC Bank became a merged entity effective July 1, 2023. Past numbers have been adjusted for HDFC Ltd's total loan GNPAs to arrive at normalised ratios
Source: Company reports, RBI, Crisil Intelligence

Asset quality of total portfolio weakened slightly in the first quarter of fiscal 2026 due to seasonality impact

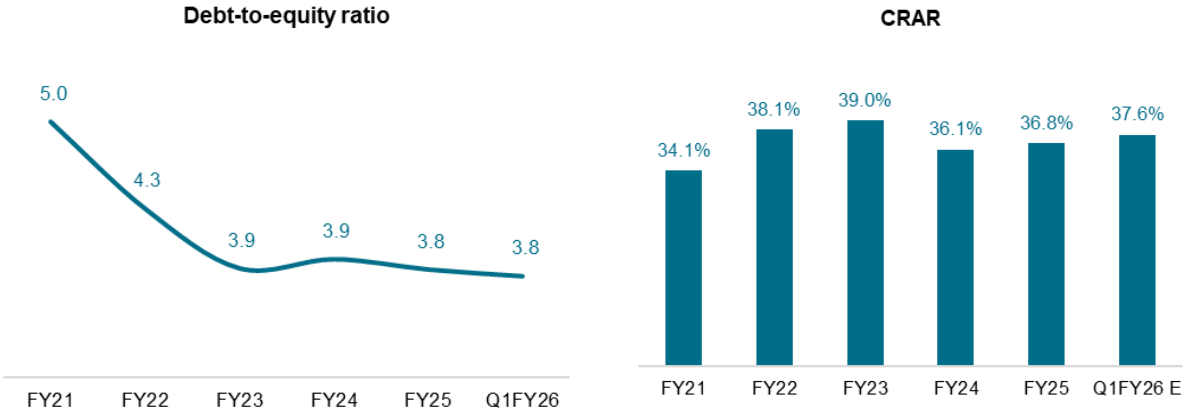


Source: Company reports, Crisil Intelligence

The asset quality of total loan portfolio of A-HFCs improved post the pandemic. In fiscal 2025, A-HFCs' total loan GNPAs declined to 1.9% in fiscal 2025 from a peak of 4.6% in fiscal 2021. Unlike prime housing-focused HFCs, A-HFCs have negligible exposure to construction finance and wholesale loans. Instead, A-HFCs are more focused on individual housing loan and loans against property (LAP) portfolios, which adds resilience to their asset quality.
Crisil Intelligence expect A-HFCs' GNPAs of total portfolio in the range of 2.1-2.2% in fiscal 2026, with stress arising in micro-LAP loans (with ticket size less than Rs 0.1 million) due to employment-related stress in sectors highly impacted by the reciprocal tariffs imposed by the US.

Capital profile of A-HFCs remains strong, providing ample headroom for growth opportunities

E:



Estimate
Note: Q1FY26 CRAR ratio is estimated based on the trend in the ratio reported by few players.
Source: Company reports, Crisil Intelligence

The capital profile of A-HFCs has improved strongly in the past five fiscals with debt-to-equity ratio declining from 5.0% in fiscal 2021 to 3.8% in fiscal 2025, supported by internal capital generation and increase in net worth through equity issuance. In the first quarter of fiscal 2026, debt-to-equity ratio was stable at 3.8%.

Similarly, CRAR ratio improved strongly over the past five fiscals from 34.1% in fiscal 2021 to 36.8% in fiscal 2025. In the first quarter of fiscal 2026, CRAR ratio is estimated to have improved to 37.6% supported by profit accretion.

Profitability

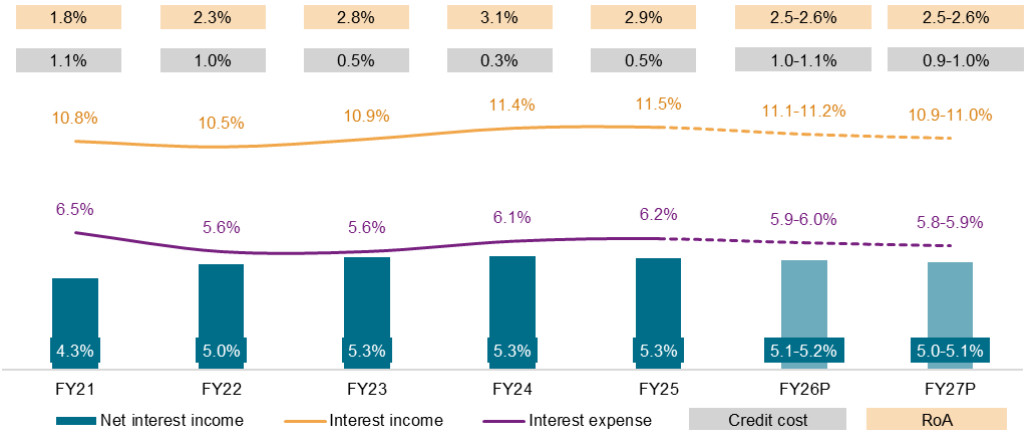
Declining interest income and higher credit costs to impact return on average assets (RoAs) in fiscal 2026

In fiscal 2025, A-HFCs' net interest margin (NIM) declined ~8 bps to 5.3%, mainly on account of higher funding costs. Amid restricted term loan funding from banks, A-HFCs turned to relatively high-cost funding sources such as NCDs and commercial papers to fund loan growth. As a result, their interest expense to average assets ratio increased ~12 bps to 6.2%. On the contrary, interest income to average assets ratio increased only 4 bps to 11.5% due to intensified competition in the affordable housing space, though multiple A-HFCs also raised their prime lending rate in the second half of fiscal 2025 amid higher borrowing costs.

Provisions for A-HFCs increased 19 bps in fiscal 2025 to ~0.5% due to write-offs. As a result, RoA declined ~18 bps to 2.9%.

For fiscal 2026, Crisil Intelligence projects interest income to average assets ratio to decline ~33 bps to 11.1-11.2% given the transmission of rate benefits to end-customers. Borrowing costs are expected to decline ~24 bps to 5.9-6.0% as the average funding cost of fixed-rate funding sources such as NCDs and commercial papers are slow to reprice. As a result, net interest income to average assets ratio is expected to decline ~10 bps to 5.0-5.1%.
Credit costs are expected to increase ~50 bps to 1.0-1.1%. Overall, RoA is expected to decline ~41 bps to 2.4-2.5% in fiscal 2026.

RoA to shrink moderately in fiscal 2026 on account of NIM compression and higher credit cost



P: Projected
Note: All ratios are based on total assets
Source: Company reports, Crisil Intelligence

Affordable Housing Finance – Industry overview

Crisil Intelligence defines loans disbursed by HFCs with an average ticket size of less than Rs 2 million as affordable-housing loans.

A-HFCs can strongly tap the 'less than Rs 2 million' segment owing to:
- Strong origination skills and a focused approach
- Focus on niche customers
- Superior customer services and diverse channels for the sourcing business
- Non-salaried customer profile (~80%)
- Increased presence in smaller cities

These factors help A-HFCs gain a market share as banks have become risk-averse and focus on high-ticket customers with strong credit profiles. The wider presence of banks and large HFCs in metros and urban areas offering higher-ticket sized loans to salaried customers enables A-HFCs to exclusively tap the demand from non-salaried customers, and those from tier- II and tier-III cities and rural areas.

Characteristics of HFCs

Parameters	Large HFCs with an average ticket size of more than Rs 2 million	A-HFCs with an average ticket size of less than Rs 2 million
Markets	Metros, urban and semi-urban	Semi-urban and rural
Customers	Salaried customers and high-net worth individuals	Self-employed customers, small traders and farmers
Average yield	7-9%	9-13%
Average loan to value	65-75%	50-60%

Source: Company reports, Crisil Intelligence

Business model

The high cost of serving customers from the economically weaker sections and low-income groups has prompted finance companies to adopt innovative models to source business. A HFC targeting the low-income informal sector operates on a hub-and-spoke model, where its retail branches operate as hubs in urban areas, while project-site kiosks follow up on low-income construction projects to attract customers.

Although the model is popular among finance companies, a developer-based model, which involves the HFC's presence at the low-income housing project site by dealing directly with developer partners, is not uncommon. HFCs also spread awareness about their products in rural areas by setting up kiosks at gram sabhas and organising loan melas for potential customers.
Direct customer contact provides greater transparency and helps limit fraud, supporting reliable customer assessment. In addition, critical functions, such as origination, verification and credit appraisal are performed in-house, while certain

non-core activities, such as loan documentation and processing, can be outsourced. This allows HFC startups to deploy additional internal resources towards the vital aspects of lending, such as verification and credit appraisal.

Mitigating customer risk

Conventional mortgage lenders require a record of the borrowers' income and expenditure documents to assess the creditworthiness of customers from the low-income group and the informal sector. Recognising the challenges in reliable assessment, HFCs adopt a field-based evaluation approach to verify cash flow. Using surrogates and staying updated about customer sub-segments can enhance assessment reliability.

Simply put, a one-on-one assessment, which is not just limited to documents, can help mitigate customer risk.

Gold finance - Review and outlook

Rally in gold price and revision in norms for gold loans to sustain credit momentum

Gold loans of non-banking financial companies (NBFC) are expected to grow, driven by rising gold prices and stricter lending criteria for unsecured personal and microfinance loans, as well as revised guidelines promoting sustainable growth in the gold loan sector.

The Reserve Bank of India (RBI) issued revised directions for gold loans on June 6, 2025, which include changes to the loan-to-value (LTV) limit and credit appraisal. These changes are expected to support sustainable growth, although strong growth experienced in fiscal 2025 and stricter norms on renewal and top-up may have a moderating effect. The revised directions are scheduled to be implemented by April 1, 2026.

Rising gold prices, tighter underwriting of unsecured loans drive demand for gold loans

Type	Share in the book, FY25	Book (Rs billion), FY25	CAGR, FY21-25	Growth, FY25	Growth outlook, FY26P	Growth outlook, FY27P
NBFCs	18%	2,155	16.5%	28.2%	24-26%	26-28%
Banks	82%	9,837	23.2%	27.2%	24-26%	23-25%
Overall	**100%**	**11,992**	**21.9%**	**27.4%**	**24-26%**	**24-26%**

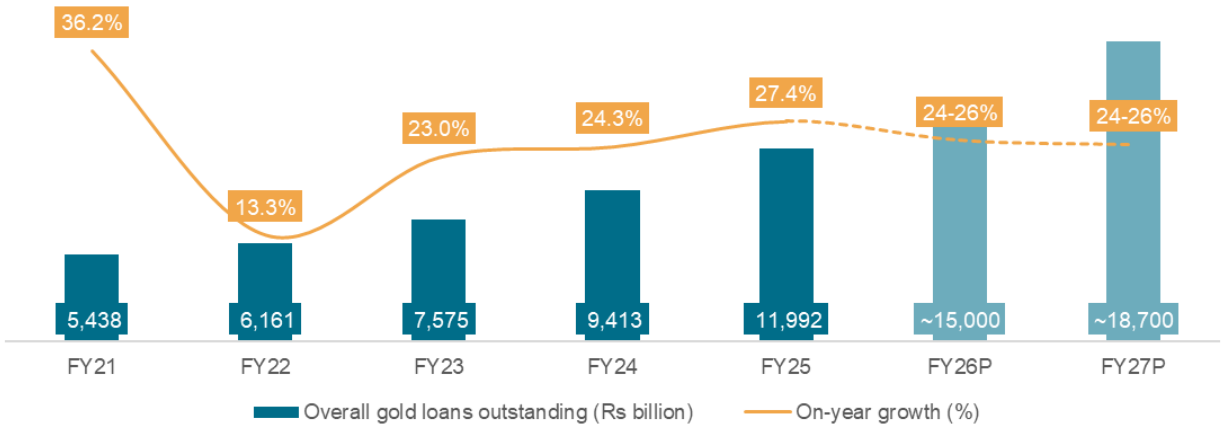
P — projected
Source: Ministry of Finance, RBI, Company reports, Crisil Intelligence

Rise in gold prices and harmonised regulatory framework drove gold loans growth in fiscal 2025

Between fiscals 2021 and 2025, the gold loan industry clocked a CAGR of 21.9%, with the portfolio of banks growing faster than that of NBFCs. However, fiscal 2025 saw NBFCs grow 28.2% compared with 27.2% of banks, while the overall segment grew 27.4%, supported by a rise in gold prices tighter underwriting standards for unsecured personal and microfinance loans, customer addition and tonnage growth, underscoring strong demand.
Gold loans became a preferred option for financial institutions on account of strong demand for credit amid rising concerns over asset quality and overleveraging in the unsecured loan segment.

Further, the average gold prices increased 28% over the past 12 months as of June 2025. For top two NBFCs, which accounted for 59% of the NBFC gold loan market as of March 2025, saw the tonnage growth of 4.9% and an 8.3% rise in active gold loan customer, indicating strong demand for gold loans.

Proposed LTV grid based on the ticket size and higher LTVs for lower-ticket consumption loans to support growth



P — projected
Note: The gold loan portfolio of banks includes the loans against gold jewellery and agri-gold loans portfolio
Source: Ministry of Finance, RBI, Company reports, Crisil Intelligence

Rising gold prices and relaxation under the revised framework to support NBFC gold loans growth

Crisil Intelligence expect that, overall gold loans credit outstanding (NBFCs and banks combined) will experience growth of 24-26%, representing a slight moderation from the 27.4% growth recorded in fiscal 2025. The gold loan portfolio of NBFCs logged a CAGR of 16.5% between fiscals 2021 and 2025 despite low credit growth of 9.2% in fiscal 2022 while that of banks logged a CAGR of 23.2% during the same period on account of more than 25% on-year growth since last three fiscal years.

The growth is expected to be primarily driven by NBFCs gold loans portfolio which is expected to rise 24-26% in fiscal 2026 and 26-28% in next fiscal. While banks overall gold loans portfolio is also expected to rise 24-26% during fiscal 2026 and 23-25% in next fiscal.

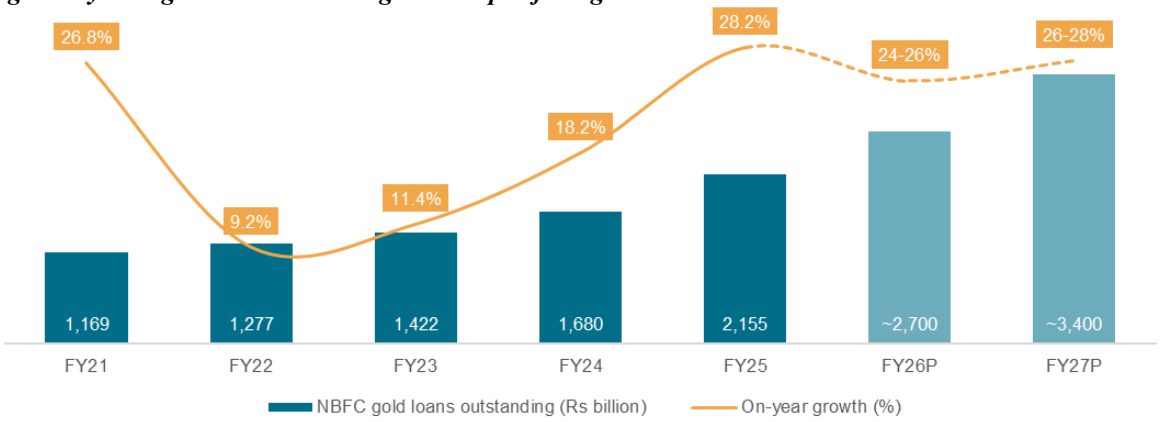
The growth during fiscal 2026 is expected to be driven by rising gold prices, tighter underwriting standards for unsecured and microfinance credit further supported by favourable regulatory developments such as the increase in LTV ratios for small-ticket loans and the relaxation of underwriting requirements for loans up to Rs 250,000.
Further, growth in fiscal 2027 shall continue to be driven by revised directions on gold loans and rise in gold prices. These guidelines shall be implemented no later than April 1, 2026.

NBFCs are expected to slightly outpace banks in term of credit growth due to their ability to turnaround quickly on small ticket size loans and their penetration into rural parts of the nation.

The strategic shift towards secured lending is also expected to boost the gold loan advances of NBFCs as they seek to reduce exposure to the unsecured segment. Gold loans are considered a low-risk proposition due to the strong collateral the yellow metal provides, reinforced by the sentimental value borrowers attach to gold. In addition, gold loans offer attractive interest margins with spread at 9-10%, making them more lucrative than other secured asset classes. Also, the low credit cost associated with gold loans, combined with enhanced borrowing capacity facilitated by rising gold prices, is expected to fuel growth in this segment in the longer term.

Further, the vast gold reserves held by Indian households (estimated at 25,000 tonnes according to the World Gold Council, of which only 2,950-3,350 tonnes are currently being utilised as collateral) present a significant growth opportunity. The increasing penetration of the formal sector is likely to unlock this potential, driving growth in the gold loan market and making it an attractive proposition for lenders.

Regulatory changes to back NBFCs gold loan portfolio growth



P — projected
Source: Company reports, Crisil Intelligence

NBFCs grew their gold loan portfolio at a robust 18.2% in fiscal 2024 and 28.2% in fiscal 2025.

Crisil Intelligence, project the gold loan credit growth of NBFCs at 24-26% in fiscal 2026 and further 26-28% in fiscal 2027 on account relaxation in the revised gold loan framework, rising gold prices and tighter underwriting standards and cautious growth in unsecured and microfinance loans.

To compete more effectively with banks and fintech players in the gold loan segment, NBFCs are expanding their reach and customer base through focused marketing, increased spending on advertising and employee incentives. They are also working towards increasing their high-value customers (those availing loans of over Rs 200,000), who are targeted by banks, and expanding to cater to rural low-income customers. While the customer base of most NBFCs offering gold loans remains relatively stable due to their focus on smaller loan sizes, one major NBFC has shifted its strategy to target customers seeking larger loans.

Rising penetration will drive organised gold loans market share

The shift in customer preference towards organised players from unorganised ones will also support credit growth, largely because the latter charge exorbitant interest rates and provide little clarity on the valuation of gold and the LTV ratio. Also, there is no assurance that the pledged asset will be returned.
Crisil Intelligence believe the share of organised financiers will grow, increasing gold loan penetration in the country through geographical diversification and wider popularity of this mode of financing.
Organised gold loan penetration in India is expected to deepen due to wider geographical diversification, a growing branch network and the increasing interest of households to monetise their gold holdings for consumption and income generation. Rising gold prices and expectations that micro enterprises would fund their working capital requirements through gold loans are also expected to boost gold financing. The organised segment has been using digital and online platforms, along with phygital (combination of physical and digital) modes, for business. The increasing uptake through these modes is expected to be the primary growth driver.

Evolving dynamics in India's gold loan space

Banks have historically dominated the domestic gold loan market, with their share increasing during times of financial disruption, such as the 2008 global financial crisis, the 2014 taper tantrum and the Covid-19 pandemic. Banks view gold loans as a relatively low-risk product due to the liquid collateral and potential for increasing gold prices.

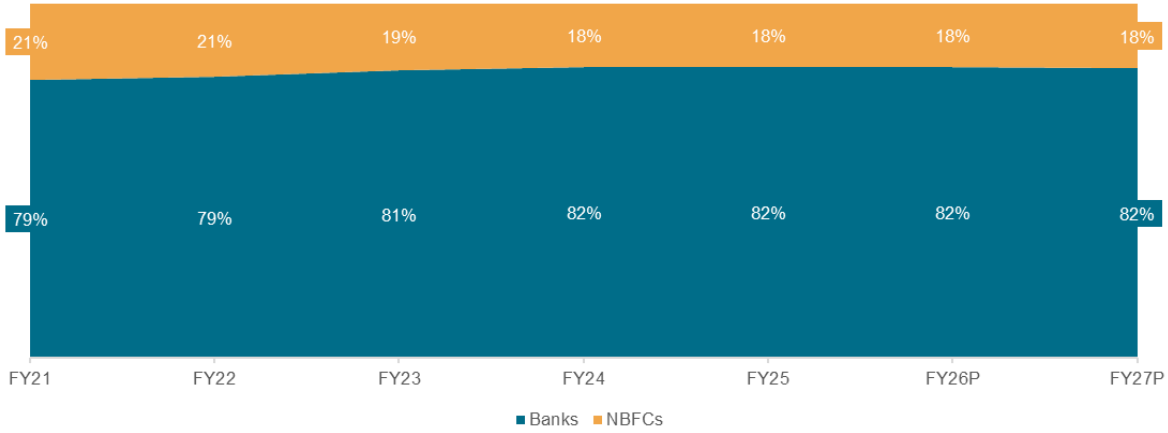
Prior to the revision, regulatory guidelines permitted a LTV ratio of up to 90% (as of fiscal 2021), which prompted banks to concentrate on gold loans. Subsequently, the LTV ratio was adjusted to 75% (later revised for all lender types), yet banks continued expanding their presence in this segment. NBFCs have maintained their market share by competing on factors, such as faster turnaround times, better service, ease of processing and geographic reach. Banks, on the other hand, have focused on agricultural-gold loans and offered lower interest rates to existing customers, particularly for higher-ticket products.

The RBI revised directions established a uniform standard for LTV ratios across lender types, creating a level playing field that enables all lenders to compete on an equal footing. The revised directions require an LTV ratio of 85% for loans up to Rs 250,000, 80% for a loan between Rs 250,000 to Rs 500,000 and 75% for a loan amount of more than Rs 500,000.

It is anticipated that the market share of banks and NBFCs in the gold loan credit segment will remain relatively stable, with banks maintaining an 82% share and NBFCs holding the remaining 18%. However, NBFCs are expected to benefit due to their ability to provide quicker turnaround times compared with banks. However, they will no longer be permitted to offer gold loans with bullet repayment structures for tenures exceeding 12 months, similar to banks. It is important to note that the tenure limit cap applies only to consumption purpose loans with bullet repayment structure and does not extend to income-generating loans.

On the other hand, the RBI clarification on the voluntary pledge of gold and silver as collateral is likely to enable banks to improve their priority sector lending targets, facilitating risk-calibrated lending through collateralised loans up to Rs 250,000.

The RBI direction on gold loans to harmonise the regulatory framework, promoting a level playing field



P — projected
Note: Gold loan portfolio of banks includes the loans against gold jewellery and agri-gold loans portfolio
Source: Ministry of Finance, RBI, Company reports, Crisil Intelligence

NBFCs compete on operating efficiency, turnaround time and local connect, while managing risks

Banks offering gold loans have a competitive advantage over NBFCs because of lower costs. Hence, NBFCs have been attempting to stay competitive through aggressive branch expansion and better customer experience. With a sharp focus on the gold loan business, NBFCs have built their service offerings by investing significantly in staffing, systems and processes, in line with customer needs.

Key features of NBFCs' operations include:

1. Lower turnaround time and less documentation: The borrower generally wants the loan to be disbursed as quickly as possible. Availability of well-trained and experienced employees for assessment and gold valuation helps NBFCs disburse loans faster than banks.
2. Wider reach and better local connect: NBFCs have a wider and deeper reach geographically, especially in rural and semi-urban regions, where demand for gold loans is higher.
3. Risk management process: Most NBFCs have put in place a comprehensive and robust risk management process based on their experiences and the key risks involved. This includes steps to prevent fraud, ensure safety of the gold stored and recoup losses from possible non-performing assets (NPAs).
4. Operational efficiency: Gold loan finance requires operational efficiency in storing, securing, transporting and auctioning assets. In fiscal 2025, key gold loan players Muthoot Finance and Manappuram Finance achieved significant growth of 41% and 19%, respectively, in assets under management (AUM) per branch, indicating improved operational efficiency. Since they together account for 59% of the NBFC gold loan market, their performance sets the benchmark for the industry.

Rising gold prices aid growth in ticket size for NBFCs

The average ticket size of gold loans has increased over the past five years, as higher gold prices have created headroom for incremental credit due to lowering of the LTV ratio. The LTV ratio cap for NBFCs and banks has been revised, with a cap of 85% for loans with an average ticket size up to 250,000 and a cap of 80% for loans with an average ticket size between 250,000 and 500,000. As per the revised framework, accrued interest is required to be added to monitor the LTV ratio throughout the tenure of the loan. According to Crisil Ratings, for bullet loans, the LTV ratio at disbursement could increase from the current range of 65-68% to 70-75%. The revision in the LTV cap is expected to increase the average ticket size.

Microfinance – Review and outlook

The microfinance industry is expected to prioritise balance sheet cleanup overgrowth in fiscal 2026

Microfinance plays an important role in delivering credit to the people at the bottom of the economic pyramid in India. It supports income-generating activities and livelihoods in both rural and urban areas.

Microfinance loans are smaller, have shorter tenures, are extended without collateral and have a higher frequency of repayments compared with traditional commercial loans. According to the Reserve Bank of India (RBI)'s revised regulatory framework, any collateral-free loan given for income-generating activities to a household with an annual income of up to Rs 300,000 would be considered an MFI loan.

Over the years, the industry has faced numerous challenges, including the Andhra Pradesh crisis (2010), farm loan waivers (2014, 2017 and 2019), demonetisation (2016), the Covid-19 pandemic (2021 and 2022), concerns over borrower leveraging (2024 and 2025) and state ordinances in Tamil Nadu and Karnataka in 2025 to prevent coercive recovery practices and lending by unregulated entities.

Non-banking financial company – microfinance institutions (NBFC-MFIs), which are major players in the MFI segment, have been particularly tested. The credit outstanding of NBFC-MFIs declined 13.7% in fiscal 2025 as over-leveraging of borrowers led to a sharp reduction in disbursements. As a result, delinquent assets surged, and collection efficiency deteriorated. Hence, to mitigate stress and to instill credit discipline and promote sustainable lending Microfinance Institutions Network (MFIN) introduced guardrails and self-regulatory measures. These measures are expected to improve credit quality with some moderating effect on credit expansion.

Balance sheet rationalisation efforts, including accelerated write-offs and revision of risk frameworks, are expected to mitigate over-leveraging but also moderate credit growth.

Accelerated write-offs, additional guardrails and state-specific factors to limit credit expansion

Type	Share in book FY25 (%)	Loan Book in FY25 (Rs bn)	CAGR in FY21-25 (%)	Growth in FY25 (%)	Growth outlook in FY26P (%)	Growth outlook in FY27P (%)
NBFC-MFIs	39.3%	1,475.7	16.2%	-13.7%	2-5%	12-15%
Banks	32.8%	1,228.3	2.0%	-14.7%	0-5%	0-5%
Others	27.9%	1,046.4	12.4%	-11.9%	0-5%	10-15%

The microfinance industry recorded stellar growth after the pandemic, driven by improving economic activity and rural sentiment

After a brief slowdown in fiscal 2021 and the first half of fiscal 2022, the MFI sector grew 22% on-year in fiscal 2023. NBFC-MFIs grew 38% in fiscal 2023 on the back of a revival in economic activity and improved collection efficiency. The RBI's decision to revise MFI guidelines and raise the household income threshold for collateral-free loans fueled growth.

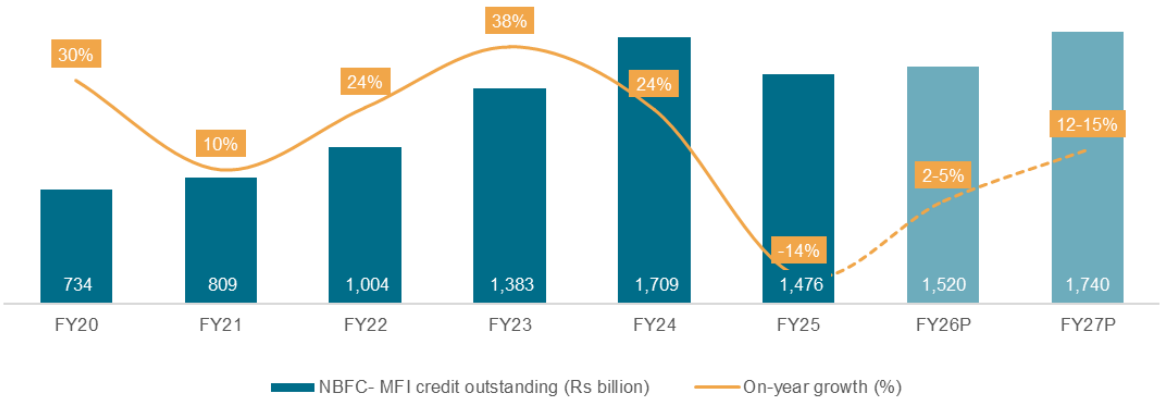
The sector experienced robust growth in fiscal 2024, with NBFC-MFIs witnessing a 24% increase in credit outstanding, closely mirroring the industry's 25% growth rate. This expansion can be attributed to geographical expansion into new regions and markets, adoption of technology to enhance operational efficiency and reach, a favourable regulatory environment, and increased interest from lenders and investors. However, this growth also led to concerns about over-

leveraging, with some borrowers availing over four loans from multiple lenders, and intensified competition among lenders to serve the same customer base.

Headwinds to credit expansion led to sharp contraction in portfolio in fiscal 2025

The overall microfinance credit outstanding declined 13.5% on-year in fiscal, 2025 but recorded a compound annual growth rate (CAGR) of 9.6% between fiscals 2021 and 2025. Credit outstanding of NBFC-MFIs contracted 13.7% in fiscal 2025, despite logging a CAGR of 16.2% between fiscals 2021 and 2025. They have gradually gained market share from banks. Share of Banks stood at 33% as of March 2025 as compared to 44% as of March 2021 while the share of NBFC-MFIs increased from 31% to 39% during this period.

NBFC-MFIs are expected to recover from the declining portfolio phase by the end of fiscal 2026

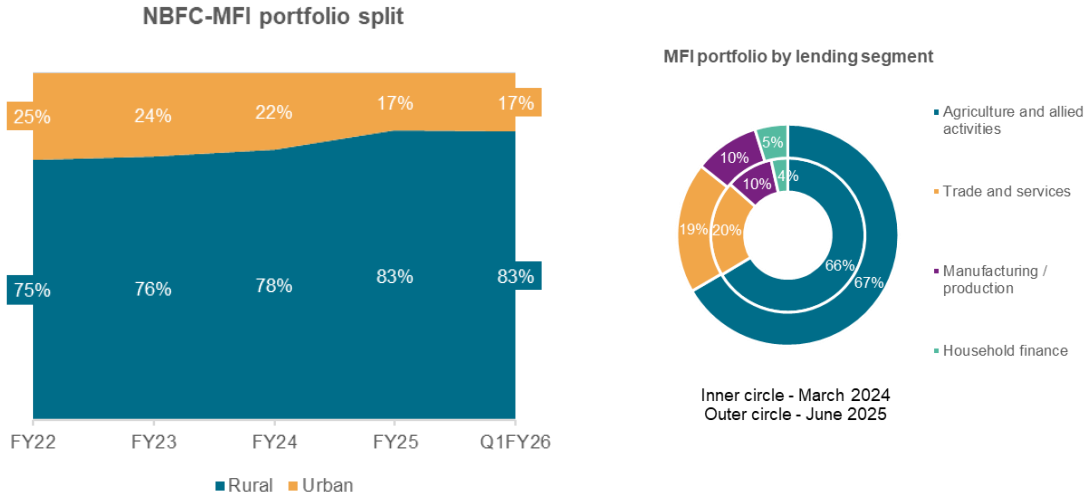


P — projected
Source: MFIN, Crisil Intelligence

Ratio of existing to new customers expected to rise this fiscal

The recent credit growth of NBFC-MFIs has led to a shift in customer profiles. There number of borrowers without established credit history rose due to the rising penetration of NBFC-MFIs. However, considering rising stress in the industry, the NBFC-MFIs have shifted their focus back to existing customers with a good repayment track record and to those who are eligible under the revised guardrails. Also, some lenders have begun to reassess their branch-level strategies by focusing more on stable operations and exercising greater caution in lending. This measured approach is likely to impact the sector's growth.

Share of rural lending increased considerably during fiscal 2025



Source: MFIN, company reports, Crisil Intelligence

Going forward, NBFC-MFIs are expected to bring more individuals under formal financing, increase financial literacy and support credit growth.

The main objective of microfinance lending is to support capital formation in agriculture and allied sectors. With disbursements targeting the rural areas, NBFC-MFIs promote alternative employment opportunities by supporting farm and manufacturing sectors.

Key success factors

- ***Ability to attract funds/raise capital and maintain healthy capital position*** - The microfinance industry had seen rapid growth over the past few years, before moderating in fiscal 2025, owing to small ticket sizes and doorstep disbursement. Despite this, a large portion of the market remains underpenetrated, necessitating MFIs to raise funds at regular intervals to sustain growth. This remains a challenge for several MFIs owing to perceived risk of the borrower segment, their susceptibility to sociopolitical issues and volatility in asset quality.

  The ability of MFIs to raise funding from diverse sources and maintain a capital position much higher than the prescribed regulatory minimum is vital for long-term sustainability. To provide support, the RBI rolled back the 25% increase in risk weights on consumer loans, excluding microfinance loans, amid rising industry stress.

- ***Geographically diversified portfolio helps MFIs mitigate risks -*** A large, well-diversified portfolio in various geographies enables players to mitigate risks associated with a concentrated portfolio. Apart from this, wider scale of operations helps reduce operating expenses as a percentage of outstanding loans.

  Rural areas are still underpenetrated in India; hence, players operating in/focused on these areas are likely to see faster growth in their portfolios.

- ***Ability to control asset quality and ageing of NPAs -*** The vulnerability of MFI portfolios to local issues and events that impact the repayment ability of borrower households makes it critical for them to have a strong hold on asset quality and regularly engage with borrowers to control slippages. MFIs, thus, need to put in place methods and use analytics to understand and predict the quality of the portfolio, and minimise the frequency and size of asset quality-related risks.

- ***Competitive dynamics -*** The microfinance segment has seen intense competition between banks, NBFC-MFIs, vanilla NBFCs and SFBs. Over the past few fiscals, the NBFC-MFI segment has clearly outpaced other lenders, increasing their market share to 39% as of June 2025 from 31% as of March 2021. To be sure, this increase in market share has come at the cost of banks. The NBFC-MFI were able to capture market share on account of their consistently rising ticket size, increased penetration into new geographies and sustained support from investors (impact and private equity funds).

MSME finance – Review and outlook

Credit outstanding to micro, small and medium enterprises (MSMEs) is estimated at Rs 42 trillion in fiscal 2025. Of this, banks had a dominant 74% share, while non-banking finance companies (NBFCs) accounted for the balance.

NBFCs are growing faster and gaining market share in MSME lending

Type	Share in book FY25 (%)	Book (Rs billion) FY25	CAGR (%) FY20-25	Growth in FY25 (%)	Growth Outlook for FY26P (%)	Growth Outlook for FY27P (%)
NBFCs and HFCs	26%	11,090	19.3%	26.4%	26-28%	27-29%
Banks	74%	30,786	17.5%	16.5%	18-20%	19-21%
Overall	**100%**	**41,876**	**18.0%**	**19.0%**	**20-22%**	**21-23%**

Notes:

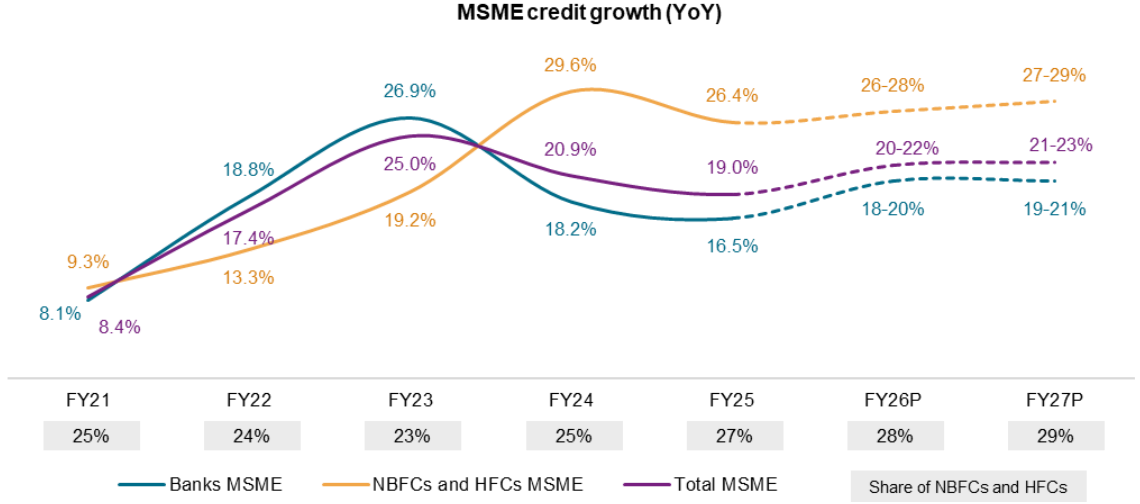
2. Credit deployment data published by the Reserve Bank of India (RBI) has undergone revision and consequently, the comparable numbers for the previous fiscal years have also been revised
3. Companies with a turnover of less than Rs 100 million and an investment of less than Rs 250 million are classified as micro; those with a turnover between Rs 100 million and Rs 10 billion and an investment between Rs 250 million and Rs 2.5 billion as small; and those with a turnover between Rs 10 billion and Rs 50 billion and an investment between Rs 2.5 billion and Rs 12.5 billion as medium
Source: Company reports, Crisil Intelligence

The MSME lending landscape has transformed significantly in recent years, with both banks and NBFCs intensifying their focus on this segment. A combination of digital lending, government-backed initiatives, a thriving economy and increasing adoption of formal credit channels has propelled this growth. Moreover, the shift towards cash flow-based underwriting has boosted lending to MSMEs. This upward trend has been consistent over the past five fiscals, with lenders recognising the vital role MSMEs play in the economy.

The overall lending to MSMEs grew 19.0% in fiscal 2025, with NBFCs peaking at 26.4% and banks following at 16.5%, albeit on a higher base.

Boost in domestic consumption and NBFC's focus on trading and service sector to propel MSME credit



Notes:
1. P: Projected
2. Credit deployment data published by the Reserve Bank of India (RBI) has undergone revision and consequently, the comparable numbers for the previous fiscal years have also been revised Sources: Company reports, Crisil Intelligence

According to data from Udyam Udyog, since its launch, majority of registrations on the portal have been from MSMEs in the services sector, accounting for ~75% of the total registrations. In contrast, manufacturing MSMEs account for only 25% of the total. Furthermore, the data reveals that micro industries dominate registrations, with a staggering 98.6% of total registered entities. Small enterprises account for 1.2% of registrations, while medium-sized enterprises make up a mere 0.1% of the total.

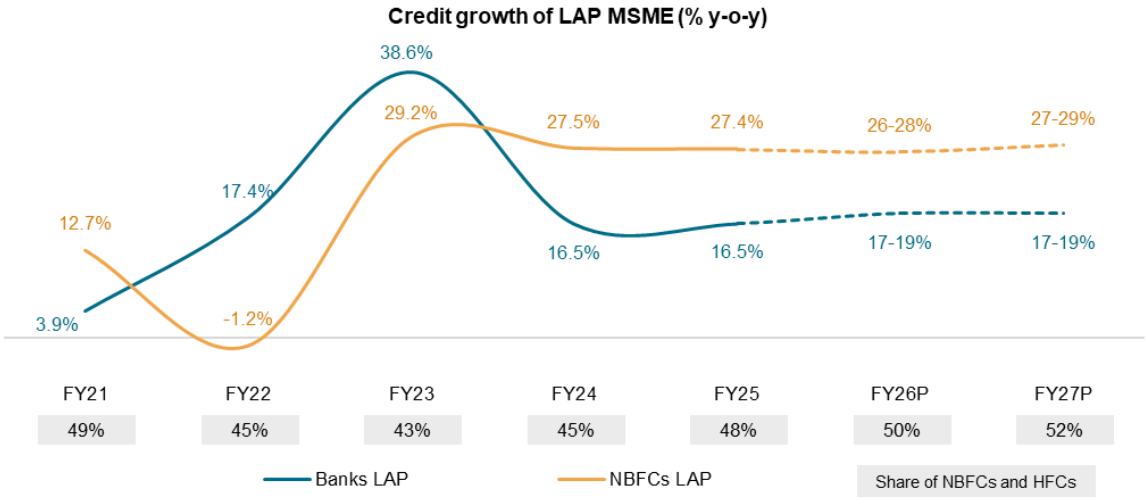
According to the RBI's sectoral deployment data of banks, in fiscal 2025, credit growth among manufacturing MSMEs was significantly slower at 12%, compared with services-related MSMEs, which saw a growth of 19%. Moreover, the share of credit to manufacturing MSMEs was lower at 34%, compared with services MSMEs, which accounted for 66% of the total credit in fiscal 2025.

Crisil Intelligence projects that NBFCs will drive the growth of MSME credit at a rate of 26-28% in fiscal 2026. Banks are expected to clock a growth rate of 18-20% in fiscal 2026. As domestic demand continues to rise, the overall MSME credit is expected to grow at 20-22% in fiscal 2026, fuelling the growth of SME revenue and corporate India.

LAP portfolio is expected to grow steadily

LAPs can be obtained by mortgaging residential and commercial real estate with a lender. These loans can be used for personal or business purposes by both salaried and self-employed individuals are eligible to apply. The main purpose of the loan is not strictly regulated and as it offers the financier security in the form of real estate. LAP is a secured offering with an interest rate lower than a personal or corporate loan.

NBFCs' LAP portfolio to grow 26-28% in fiscal 2026, outpacing banks



Notes:
1. P: Projected
2. Credit deployment data published by the RBI was revised with effect from January 2021 and so were the comparable numbers for the previous fiscals
Sources: Company reports, Crisil Intelligence

Growth in LAPs at banks was stable at 16.5% in fiscal 2025 as they focused on higher-yielding products to earn better lending margins. LAPs at NBFCs grew at 27.4% as they focused on secured lending to safeguard asset quality. Moreover, few HFCs focused on LAPs to earn a better yield compared to home loans, supporting growth in the LAP book.

The LAP market saw a rebound in fiscal 2023, with banks and NBFCs posting growth rates of 38.6% and 29.2%, respectively, the highest since the pandemic. However, the growth slowed in fiscal 2024, with banks growing at 16.5% and NBFCs at 27.5%. In fiscal 2023, banks initially took the lead owing to the perceived safety of collateral-backed loans. However, in fiscal 2024, non-banks, particularly HFCs, caught up and even surpassed banks in LAP growth, driven by their focus on maintaining higher yields.

According to Crisil Intelligence, the LAP segment is expected to expand in fiscal 2026 with banks and NBFCs growing at 17-19% and 26-28%, respectively. The growth in LAP segment will be driven by lenders increasing preference for secured lending to MSMEs due to asset quality pressures and the impact of US tariffs on few sectors.

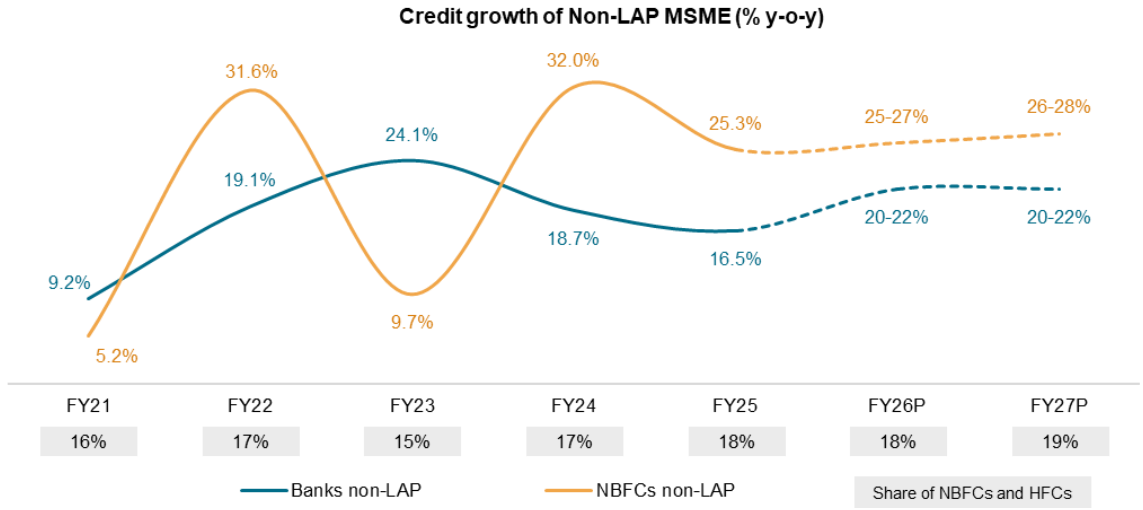
NBFCs to lead non-LAP growth, albeit on a low base

Loans with security and those without it make up the non-LAP segment. Working capital products such as cash credit, overdraft facilities and bill discounting, as well as other term loan products (asset-backed or hypothecated loans), are examples of non-LAP secured MSME loans. Hypothecated loans are term-based where the offered collateral is a combination of real estate, asset, stock and so on.

Self-employed borrowers are provided unsecured MSME loans in the absence of a collateral. This type of lending is cash flow-based rather than collateral. Unsecured loans are reviewed based on a variety of factors, including scorecards, bureau checks, bank accounts, financial statements and returns from the goods and services tax. When a small business reaches a bank's cash credit and overdraft limits, it opts for an unsecured business loan to expand or sustain operations, take advantage of short-term possibilities or get through a cash flow crisis. Many lenders offer such loans in addition to the secured loans.

Due to the non-availability of collateral, underwriting plays a key role in maintaining asset quality of unsecured business loans. Underwriting these loans requires expertise and is powered by new financial technology and increased availability of data on customers' credit history. Competition in the secured loans market (especially retail loans) has compelled NBFCs and a few private banks to gain expertise in niche lending and build robust digital platforms to cash in on the fresh opportunities in the unsecured business loans space, while maximising profitability.

Banks' non-LAP book moderated in fiscal 2025



Notes:
1. P: Projected
2. The non-LAP segment includes secured and unsecured loans
3. Credit deployment data published by the RBI was revised with effect from January 2021 and so were the comparable numbers for the previous fiscals have been revised accordingly.
Sources: Company reports, Crisil Intelligence

In fiscal 2025, the non-LAP segment slowed down as both banks and NBFCs focused on secured lending by reducing exposure to unsecured MSME, particularly micro entities.

In fiscal 2023, banks outperformed NBFCs in the non-LAP segment, achieving a robust growth rate of 24.1% driven by aggressive strategies, increased market presence, lower funding costs and sufficient liquidity. NBFCs, however, grew at a slower pace of 9.7%. In fiscal 2024, the trend reversed, with bank credit growth slowing to 18.7% due to the high base effect, while NBFCs witnessed significant acceleration in growth to 32.0%, with aggressive expansion in their market share.

Looking ahead, Crisil Intelligence projects non-LAP growth to be marginally higher in fiscal 2026 and fiscal 2027 at both banks and NBFCs as lenders become more cautious about unsecured lending and focus on secured loan against property lending.

Wholesale finance – Review and outlook

Wholesale portfolio of NBFCs/HFCs back on growth trajectory: 7.9% in FY25, poised for 11-13% expansion in FY26

Wholesale finance involves short- and long-term funding provided by financial institutions to large and medium-sized firms, including real estate developers, and institutional customers. Crisil Intelligence excludes lease-rental discounting and lending to the infrastructure sector from the wholesale book.

Lending by non-banking financial companies (NBFCs) including housing finance companies (HFCs) to the wholesale sector which had been on a declining trend over the past few fiscals, marked a reversal in fiscal 2025, growing at 7.9% on-year.

At present, only a few NBFCs are expanding their wholesale book, albeit with a slight change in strategy. Highly rated NBFCs have ventured into alternative avenues of wholesale financing such as lending to other NBFCs as well as catering to mid and large corporate segments. Additionally, their wholesale exposure is now more granular with backing from cashflows and tangible collateral.

Similarly, large HFCs have also adopted a risk-averse approach by partnering only with highly rated real estate developers. This partnership also helps HFCs in sourcing loans from these developers.

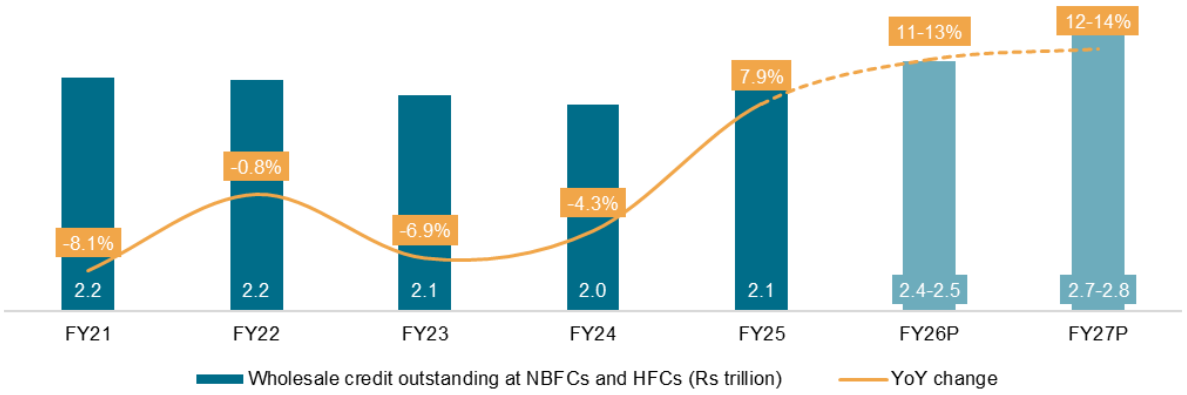
Over the past few fiscals, the wholesale loan book of NBFCs has changed considerably in terms of size and complexity. After facing asset quality issues following the NBFC crisis of 2019 and the pandemic, several NBFCs started downsizing

their wholesale book, categorising it as legacy assets. Hence, between fiscals 2020 and 2024, the total NBFC wholesale book was on a declining trend. Volatile asset quality of high-ticket-size loans was the primary reason for several NBFCs pruning their wholesale book. Defaults on these loans led to significant deterioration in asset quality and material write-offs, impacting the net interest margins (NIMs) and return on assets (RoAs) of NBFCs. In real estate project finance, viability issues arose due to high gestation periods and adverse market conditions, such as labour shortage during the pandemic-driven lockdowns and the rising cost of raw materials.

By the end of fiscal 2025, NBFCs that had been cutting back on wholesale loans achieved significant rundown of their exposure, consequently constituting a very small portion of the total NBFC wholesale loan book. At the same time, NBFCs that continue to expand their wholesale portfolios reported steady growth in their loan book.

NBFCs wholesale segment recovers with a 7.9% growth in FY25

Growth momentum expected to continue with 11-13% growth in FY26



Notes:
1. P: Projected
2. The merger of HDFC Ltd and HDFC Bank became effective from July 1, 2023. Past numbers have been adjusted for HDFC Limited's wholesale loan book for normalised credit growth
3. Historical numbers are restated based on changes in reporting by companies
Sources: Company reports, RBI, Crisil Intelligence

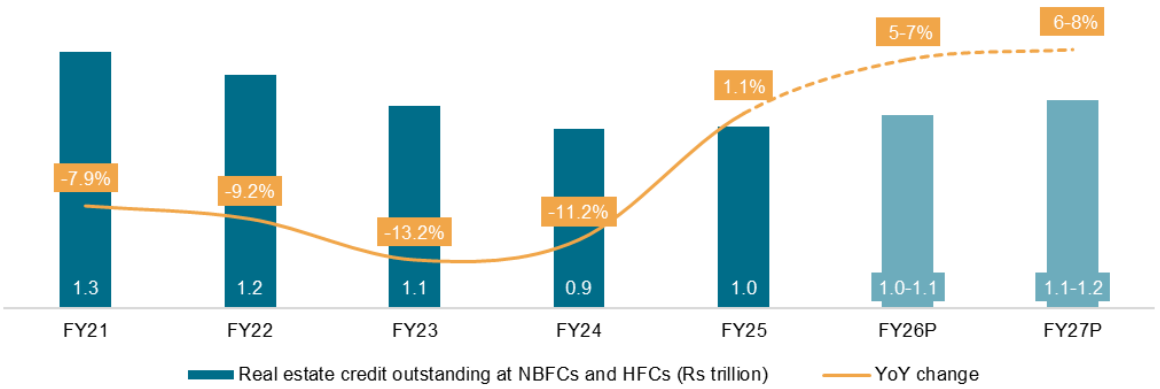
In fiscal 2025, the wholesale book of NBFCs recorded a 7.9% on-year growth as many players deepened their focus on mid-corporates lending segment along with continued growth in real estate/construction finance. Many players also expanded their corporate loan book by lending to other NBFCs. As a result, the growth of corporate finance book outpaced that real estate financing.

In the first quarter of fiscal 2026, NBFCs recorded healthy momentum in wholesale loans disbursements driven by increased focused on mid-corporates as banks cautiously targeted large and high rated corporates.

Crisil Intelligence projects the wholesale book of NBFCs to grow at 11-13% in fiscal 2026 as the pass on of cumulative repo rate cut of 125 bps between February to December 2025 is expected to increase real estate sales and revive new project launches, thereby supporting the growth of the wholesale book.

Real estate book to showcase steady growth

NBFCs' and HFCs' real estate lending expected to pick up in fiscal 2026



Notes:
1. P: Projected
2. The merger of HDFC Ltd and HDFC Bank became effective from July 1, 2023. Past numbers have been adjusted for HDFC Limited's wholesale loan book for normalised credit growth
3. Historical numbers are restated basis change in reporting by companies
Sources: Company reports, RBI, Crisil Intelligence

Since the pandemic, real estate lending by NBFCs (including HFCs) had been on a declining trend. The pandemic-led lockdowns led to asset quality stress due to halted construction, rise in labour shortages, extended construction timelines and financing challenges. In the aftermath of pandemic, the RBI raised the repo rate to curb inflation, leading to a slowdown in new real estate projects.

In fiscal 2025, real estate lending book of NBFCs pivoted to growth and rose by 1.1% on-year to Rs 1.0 trillion with a majority of the growth coming from expansion of construction and developer loans by HFCs. Few players cautiously resumed lending to real estate projects after cleaning up their loan book. Additionally, NBFCs which have been reducing their real estate financing book, achieved significant rundown in their exposure to the segment.
In the first quarter of fiscal 2026, real estate book of NBFCs continued the growth momentum as demand remained strong from developers. Few HFCs have also built a good project finance pipeline which will get disbursed in upcoming quarters.

Crisil Intelligence projects the real estate book of NBFCs to grow 5-7% in fiscal 2026 and 6-8% in fiscal 2027 supported by a pickup in new real estate project launches on the back of lower repo rate. Also, the bulk of the real estate portfolio reduction by NBFCs is likely to have been completed.

Asset quality

Stress in NBFCs' wholesale loan books is expected to be high, particularly in the real estate and corporate segments, due to the concentration of large loans. This is exacerbated by extensions to contractual moratorium and the date of commencement of commercial operations (DCCO).

Wholesale segment gross non-performing assets (GNPAs) of NBFCs moderated marginally in fiscal 2025 owing to recoveries as well as wite-offs. However, for a few players, GNPAs remained in high double digits due to reduction in their wholesale book and no new disbursements. Crisil Intelligence estimates the overall GNPAs will remain on a higher side — at 6-9% — in fiscal 2026.

Business Overview

Our Company is a Non-Banking Financial Company – Middle Layer ("**NBFC-ML**") registered with the RBI, catering to the credit requirements of a diverse customer base with its plethora of products. Our offerings include home loans, gold loans, MSME secured loan, MSME unsecured loan, supply chain finance, micro finance, construction and real estate finance and capital market finance, catering to both retail and corporate clients.

The Company has received a registration as a Non-Banking Financial Company bearing registration number N-13.02386 vide certificate dated March 6, 2020.

Over the past several years, we have diversified our products and expanded our presence into segments that are of greater relevance to the evolving business environment and customer demand trends. Our key strategy is to steadily grow high quality, diversified retail assets focusing on under-banked segments, with effective risk management and cost optimization through well-defined processes and leveraging technology.

Our product offering evolution is depicted below:

Home Loans: include finance for purchase of flats, construction of houses, extension and for improvement in the flats/homes.

MSME secured loan: is availed for working capital requirements, business use or acquisition of new commercial property.

Gold Loans: includes finance against security of mainly used gold ornaments. We offer loan against gold to small businessmen, vendors, traders, farmers and salaried people for their personal needs as well as for working capital needs.

MSME unsecured loan: is to provide working capital finance to small business owners. We provide small ticket loans, thereby being able to meet the needs of small-scale businesses including standalone shops etc.

Supply Chain Finance: encompasses technology-enabled solutions designed to reduce financing costs and enhance operational efficiency for buyers and sellers in a sales transaction. By automating processes and tracking invoice approvals and settlements, SCF simplifies financial operations from start to finish.

In this arrangement, buyers approve their suppliers' invoices for financing through IIFL, providing short-term credit that improves liquidity and optimizes working capital for both parties. Suppliers gain faster access to funds, while buyers benefit from extended payment terms. This allows both sides to manage cash flow effectively and allocate resources to other business priorities.

Microfinance: includes credit support mainly to women, who have either limited or no access to formal banking channels. We provide financial services to the economically weaker sections of society with an aim to bring microfinance services to the doorstep of the rural and semi-urban BoP (Bottom of Pyramid) families in India. Loans are offered under various categories such as income generation, education, sanitation etc. We follow the Grameen Model (also regarded as joint liability group).

Construction and Real Estate finance: includes loans to developers for construction and development of predominantly affordable residential projects and a small proportion of mixed-use projects. In line with our broader retail strategy, the construction finance vertical is an enabler for providing retail loans under the approved project route, wherein the Company has tie-ups with developers for funding the property buyers under the retail home loan category.

Capital Market Finance: includes Loans against Securities, Margin Funding, IPO financing and other structured lending transactions.

As at September 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, our consolidated assets under management were ₹90,122.36 crore, ₹ 78,341.24 crore, ₹ 78,959.88 crore and ₹ 64,637.64 crore, respectively.

Our product wise split of assets under management on a consolidated basis is as under:

(₹ in crore, unless otherwise stated)

Products	AUM (Consolidated basis)			
	September 30, 2025	**March 31, 2025**	**March 31, 2024**	**March 31, 2023**

We are subject to capital adequacy ratio ("**CAR**") requirements prescribed by RBI. We are currently required to maintain a minimum of 15% as prescribed under the Prudential Norms of RBI based on our total capital to risk weighted assets. As part of our governance policy, we ordinarily maintain capital adequacy higher than statutorily prescribed CAR. As of September 30, 2025, our capital adequacy ratio computed on the basis of applicable RBI requirement was 18.55% as compared to a minimum of capital adequacy requirement of 15% stipulated by RBI.

Set forth below is our capital adequacy ratio for the last three Fiscals and half year ended September 30, 2025 on a standalone basis:

Particulars	Half year ended September 30, 2025	March 31, 2025	March 31, 2024	March 31, 2023
Capital Adequacy Ratio	18.55%	18.48%	18.85%	20.38%
Tier I Capital	13.68%	13.78%	12.56%	12.85%
Tier II Capital	4.87%	4.70%	6.29%	7.53%

Corporate Structure*

Our Strengths

We believe that the following are our key strengths:

Diversified product portfolio catering to a wide customer base

Our Company aims at promoting inclusive growth and with a wide variety of loan products including home loans, gold loans, micro finance, MSME secured loan, MSME unsecured loan, supply chain finance, construction and real estate finance and capital market financing caters to all types of customers in the country – salaried, self-employed, informal sector, HNIs and corporates. As on September 30, 2025, our overall portfolio comprises 35.55% home loans, 38.37% gold loans, 9.28% microfinance, 9.98 % MSME secured loan, 4.36% MSME unsecured loan, 0.60% supply chain finance, 0.13% personal loan, 1.05% construction and real estate finance, and 0.68% capital market financing. Further, our overall portfolio as on March 31, 2025 comprises 40.32% home loans, 26.83% gold loans, 12.58% microfinance, 11.45 % MSME secured loan, 5.67% MSME unsecured loan, 0.98% supply chain finance, 0.30% personal loan, 1.07% construction and real estate finance and 0.78% capital market financing. We have a widespread network of branches spanning the length and breadth of the country which facilitates servicing a broad customer base while reducing dependency on a single or small number of regions. Our branch network also helps us adopt best practices developed in a region across all our branches. We provide multiple products from our branches thereby providing better accessibility to clients, reducing operating costs and improving total sales.

Strong asset quality with consistent low level of NPAs

The quality of our loan portfolio is reflected in the consistent low level of NPAs. We believe that our robust credit approval mechanisms, credit control processes, audit and risk management processes and policies help us maintain the quality of our loan portfolio. We have in place product specific lending policies, credit approval committees and regular

monitoring of exposures. We routinely monitor credit risk, risk concentration and compliance with board approved policies. Credit monitoring for retail products is undertaken at portfolio level wherein risk assessment is undertaken on various parameters like demographics, sector, geography, etc. As part of the credit assessment, we analyze past financial information, applicant's business performance/earnings history to assess their ability to repay loans. In addition to document verification and credit bureau reports, we conduct site verifications, interviews, as well as market and banking reference checks on the applicant, co-applicant and guarantor, as applicable. For institutional borrowers, additional assessment is undertaken on parameters of viability of business, credit history, and reputation and experience of the relevant promoters/founders/management of the organization. Additionally, as on September 30, 2025, 85.62% of our consolidated Loan Book is secured with adequate collaterals which helps mitigate risks further.

As on September 30, 2025, on a consolidated basis, our Net NPA constituted 1.02% of our consolidated loan book, as compared to 1.05% of our consolidated Loan Book as on March 31, 2025, 1.20% of our consolidated Loan Book as on March 31, 2024 and 1.08% of our Loan Book as on March 31, 2023.

As on September 30, 2025 our Gross NPA constituted 2.14% of our Loan Book, as compared to 2.23% of our Loan Book as on March 31, 2025, on a consolidated basis, as compared to 2.32% of our Loan Book as on March 31, 2024 and 1.84% of our Loan Book as on March 31, 2023. Total provisions coverage ratio (including Stage 1 and Stage 2 provisions) (as defined hereinafter) for half year ended September 30, 2025 and Fiscal 2025 on a consolidated basis is 89.73% and 99.99%. Our specific provision coverage ratio is 52.77% of our gross NPA as on September 30, 2025, 53.59% of our gross NPAs as on March 31, 2025, 49.06% as on March 31, 2024.

Diversified funding sources and strong credit profile

Our funding requirements are currently predominantly sourced through term loans from banks, issue of secured and subordinated redeemable non-convertible debentures on public and private placement basis, external commercial borrowing, refinance from various financial institutions, securitization and direct assignment of our retail portfolio of loans with sufficient availability of working capital facilities from banks. We have access to funds from multiple classes of credit providers, including public sector banks, private commercial banks, other financial institutions, pension and provident funds, mutual funds, foreign institutional investors and domestic retail investors. Through our stable, long-term relationships with our lenders, we have been able to borrow from a range of sources at competitive rates and have maintained adequate liquidity to meet our borrowing obligations and fund our growth, keeping a margin of safety.

In relation to our long-term debt instruments, we currently have long term ratings of 'AA/Stable' from Crisil, 'IND AA/ Stable' from India Rating, '[ICRA]AA (Negative)' from ICRA Limited and "BWR AA+/Stable" from Brickworks.

We have also received a rating of "IVR AA/Stable" from Infomerics Valuation and Rating Limited (formerly known as Infomerics Valuation and Rating Pvt. Ltd.) and a rating of "BWR AA/Stable" from Brickworks for our perpetual debt instruments.

Fitch Ratings has put our Company's long-term issuer default rating (IDR) and global medium-term note programme at 'B+' with positive outlook on IDR.

In relation to our short-term debt instruments, we currently have short term rating of A1+ from Crisil and ICRA.

Our financing requirements have historically been met from a variety of sources including term loans and working capital facilities from both PSU and private banks, proceeds from the issuance of publicly listed and privately placed NCDs, external commercial borrowing, proceeds from loans assigned, subordinated debts, issuance of CP and NCD from mutual funds, insurance companies and other financial institutions to meet our capital requirements. As at September 30, 2025 and March 31, 2025, March 31, 2024 and March 31, 2023 our total borrowings was ₹ 30,929.80 crores, ₹ 24,524.16 crores, ₹ 20,010.90 crores and ₹ 17,380.49 crores, respectively.

Period	September 30, 2025	Fiscal 2025	Fiscal 2024	Fiscal 2023
Average cost of borrowing	9.41%	9.22%	9.08%	8.75%

Robust systems with a strong focus on digitization

We believe our well-defined business processes ensure efficient achievement of organisational tasks and in turn effective service to our customers. Our robust credit approval and credit control processes, centralized operations unit, independent audit unit for checking compliance with the prescribed policies, and risk management processes and policies provide for multiple checks and verifications for both legal and technical parameters. Our loan approval and administration procedures, collection and enforcement procedures are designed to minimize delinquencies and maximize recoveries.

Further, we have a strong focus on digitization across all organizational functions and believe technology is a business enabler for our Company. Our technology driven processes aid in product innovation, reduced turnaround times, cost optimization and superior customer experience thereby creating balanced scalable growth models. We are incrementally leveraging technology to streamline processes across the loan lifecycle including sourcing and on-boarding, underwriting, administration, monitoring and collection in order to further improve turnaround times, enhance the quality of service provided to customers as well as achieve a higher degree of productivity within the organization. We believe technology driven processes will facilitate us to respond to market opportunities and challenges swiftly, help monitor process and performance, and improve our risk management capabilities.

We believe that our digitized processes, robust loan management system and strong analytics abilities offer us a significant competitive advantage. Our systems have the capability of end-to-end customer data capture, computation of income, margin monitoring, collateral data capture, and repayment management. Our loan approval is controlled by the in-house loan application system and our systems are customised for our services and help us reduce turnaround time and enhance our processes and operational excellence. Our systems fully integrate businesses in every aspect bringing together various departments in simple transitions and customer information updates. Continuous enhancement of our technology capabilities allows us better informed decision making and faster execution along with strong internal control mechanisms.

We have also enabled digital top-up to retain quality customers in home loan, MSME secured loan and MSME unsecured loan, wherein the entire journey is paperless – communication for accepting sanction letter and e-agreement is sent to eligible customers sent *via* SMS.

Strong physical and digital footprint

A strong physical as well as digital footprint is very important in our business, as it increases reach and access to customers. Physical presence is required in the gold and micro finance business whereas a digital identity provides wider access in the home, personal and MSME loan categories. We have steadily expanded our branches over time and have 4,780 branches as of September 30, 2025. Our widespread branch network enhances the brand equity and enriches customer experience. Our branch network is well spread across Tier I/II and Tier III cities across the country, effectively providing credit to the underserved segments of customers in these areas. Our microfinance branches are well entrenched in rural and semi-urban areas as well, effectively serving the relevant customer segment with 1,641 dedicated microfinance branches, as on September 30, 2025. In line with our strategy to achieve greater digitization in the organisation and considering the ever-increasing penetration of internet and mobile services in the country, we also have in place advanced technology-led systems for loan applications through our website and portable tablet-based applications. This caters to the growing section of population which prefers or is incrementally relying on digital channels to access services. Our cross-country branch presence coupled with well-developed digital infrastructure gives us a

widespread presence across channels and enables us to access and service a diverse customer base and their multiple credit requirements.

Well established brand along with a strong and experienced management team

'IIFL' is a well-established brand among retail, institutional and corporate clientele in India. We believe we have benefited extensively from the Promoters' experience in the financial services industry to develop deep understanding of the market and related opportunities, gauge customer expectations and design suitable products for our target customer base.

We derive synergies from our group companies and are able to leverage it for competitive advantage. IIFL Capital Services Limited *(Formerly known as IIFL Securities Limited)* has a vast broker network and relationships with mutual funds, insurance companies etc. We also have a referral agreement with an entity forming part of our group, engaged in the business of healthcare and wellness solutions and online tele-consultation services through their empaneled doctors. Our company's wide branch network in turn offers reach and brand recognition, we are able to provide capital market funding to clients of IIFL Capital Services Limited *(Formerly known as IIFL Securities Limited)*. All our group company transactions are strictly done on arms-length basis.

We are led by qualified and experienced Board of Directors and key managerial personnel. The Board comprises 9 (nine) directors with significant experience in the banking and finance sector. The members of our executive management team also have significant experience in the products and services offered by us. We believe that our senior management and experienced executives are and would continue to be the principal drivers of our growth and success in all of our businesses; and that their extensive relevant experience and financial acumen will continue to provide us with a distinct competitive advantage. Our management organization structure is designed to support each product line with a dedicated team of executives with substantial experience in their particular business segment.

Our Strategies

Our key strategy is to steadily grow high quality, diversified retail assets focusing on under-banked segments, with effective risk management and cost optimization through well-defined processes and leveraging technology. Key elements of our strategy are:

Address growing financial needs in under-served markets

With a significant portion of population still being outside the reach of the formal credit system, our Company believes in contributing to bridging the credit gap in the country. We aim to efficiently and effectively provide credit to the underserved segment of customers and our diversified offerings have been built on a sound understanding of customer needs. With our widespread branch network, retail focus and a product suite catering to all classes of customers, we aim to contribute to financial inclusion in the country.

Build capacity and grow customer base through retail focus and geographic expansion

We are focused on high growth, dispersed risk- retail lending. We have innovatively designed our product and distribution strategies to fulfil our clients' credit requirements. Our product portfolio caters to all segments of customers – salaried, self-employed, informal sector, HNIs and corporates. We seek to further increase our presence in retail segments including home loans, gold loans, MSME and micro financing with an aim to capitalize on the opportunity arising from underserved customer segments as well as provide scale and diversify the risk across industries and collaterals.

We intend to utilize our extensive branch network to access a larger customer base and plan to expand our network as relevant with the aim of achieving deeper penetration in existing products and regions as well as tap new, lucrative markets. While assessing a potential branch site, we analyse the local market and proximity to target customers with the objective of providing ease of access to customers as well as enhancing brand visibility for the Company. Our diversification and expansion strategy aims to adapt to a constantly changing digital milieu, and thereby seize growth opportunities whilst remaining cognizant to associated risks to our value chain.

Achieve superior performance with further strengthening our operating processes and risk management system

We are focused on building a process driven organization with a culture of compliance, audit and risk management. Operations excellence and risk management forms an integral part of our business. Our processes have been standardized

with the objective of providing high levels of service quality and we have implemented high levels of digitization in our operational processes which contribute to faster turnaround times with lesser incidence and occurrence of errors.

Our risk management procedures are integrated seamlessly across our business operations and ensure constant measurement and monitoring of various risks we are subject to. The risk management model involves initial management control at business entity level, risk control and compliance oversight functions and overall independent audit and assurance functions. We intend to continue to improve our operating processes and risk management systems that will further enhance our ability to manage the risks inherent to our business.

Continue to invest in digitization and technology which will reduce cost and improve efficiency

As retail lending needs a high degree of operational excellence and automation to reduce turnaround time, we have our own proprietary system for loan processing and booking. Our loan application system has been built in-house by leveraging the expertise of the business and technology teams. We regularly update our systems and continue to streamline our credit approval, administration and monitoring processes to meet customer requirements and maintain our risk profile. We continue to focus on developing and strengthening our technological capabilities to support our growth and improve the quality of our services.

Ensure effective asset-liability management, diversify borrowing sources and strengthen our credit profile

The Company has in place Risk Management Committee and Asset Liability Management Committee ("**ALCO**"), consisting of Directors and senior officials. They regularly meet and review the policies, systems, controls, and positions of the financing business. Since our Company is a non-deposit taking NBFC and has a varied product mix of lending portfolio resulting into maturities of loans in different time buckets, efforts are made to match the maturity of liabilities with those of the assets and minimize the asset liability mismatch. We monitor liquidity risk through our ALCO Committee with the help of fortnightly and monthly liquidity and Asset Liability mismatch reviews. This involves the categorisation of all assets and liabilities in different maturity buckets and evaluating them for any mismatches in any particular maturity bucket, especially in the short-term. The ALM Policy has capped the maximum mismatches in the various maturities in line with RBI guidelines.

We secure funding from a variety of sources to meet our capital requirements. We believe that we have been able to access cost-effective debt financing and reduced our average cost of borrowings over the years due to several factors, including our financial performance and credit ratings. We will continue to focus on developing a diversified funding model to achieve an optimum cost of funds while balancing liquidity and concentration risks. We believe we will continue to improve our credit ratings and thereby access a greater pool of diversified funding sources.

Capital Optimized Value Innovation Driven strategy

Our business strategy is centered around a capital optimized value innovation driven strategy. Banks have a strong capital base and risk appetite whereas we have access to customers and advanced niche underwriting skills. Working together will turn into a win-win approach wherein banks profitably expand their retail and priority loan assets and we are able to leverage our capital resources more effectively. We have entered into Co-lending agreements with various banks for gold loans, home loan and secured MSME loan. Assets transferred to banks through co-lending constitute 13.15% of AUM and 33.79% of off-book loan assets as on September 30, 2025.

Our Company has partnered with several fintech players to collaborate and build innovative strategies to digitally source and underwrite. Our Company has also formed a joint venture with SME-focused neo-banking platform to establish a neobank that would cater to micro and small businesses' banking and credit needs and retail customers including lending, investment, and wealth management services.

We are uniquely placed to source, service & collect due to our vast branch network strong online presence and proprietary technology and large base of existing customers coupled with a culture of innovation.

Our Products and Services

We operate in the following lines of business: (i) home loan; (ii) gold loan; (iii) micro finance; (iv) construction and real estate finance; (v) capital market finance; (vi) MSME secured loan; (vii) MSME unsecured loan; and (viii) Supply chain finance.

Details of each product, originations, operations, underwriting policies and risk management are given below:

Home Loans

Home loans include finance for purchase of flats, construction of houses, extension and for improvement in the flats/homes and for acquiring plots of land (which are intended to be used for construction of houses). Pricing of retail home loans is driven by the risk profile of the borrower, the product and market demand for the product. Loan applications are sourced through direct sourcing and other alternate channels. These loans are mortgage-backed secured loans. Home loans are secured by equitable mortgage or a registered mortgage of the residential property, land, under construction residential/commercial properties and fully constructed properties, as applicable.

As on September 30, 2025, our home loans accounted for 35.55% of the consolidated AUM with an onboarding average ticket size of ₹ 0.21 crore, portfolio yield of 10.75%.

As of March 31, 2025, our home loans accounted for 40.32% of the consolidated AUM with an onboarding average ticket size of ₹ 0.16 crore, portfolio yield of 10.97%.

Business origination

We generate loans through both in-house direct sales team ("DSTs") and external direct sales agents ("DSAs"). Loans sourced through DSTs can be through our website, social media platforms, walk-ins, cross sell etc. or may be sourced directly by the DST. We have dedicated policy defining norms which have to be complied before taking a DSA on our panel. Our contribution from DSTs to total disbursements has remained almost consistent i.e. from 87% in Fiscal 2023 to 76% in Fiscal 2025. DSTs utilise Jhatpat Application for on-boarding a new home loan borrower. As at September 30, 2025, our direct selling team comprised 1,774 members.

Our target customers are individuals with low to middle range income levels. Self-employed individuals include both professionals and small business owners and salaried individuals hail from a broad spectrum of companies/firms across industries. We cater to the broad section with a range of loans with suitable ticket-sizes.

Credit approval and disbursement process

Our credit policy is approved by the Board of Directors. Loan approval for home loans and MSME secured loan is undertaken with the help of our in-house technology that integrates various business rule engines. Our lending policy is automated in our on-boarding application "Jhatpat", which filters out the non-eligible customers for loan processing. The details of qualifying customers flow to our in-house loan processing system and are processed by our central team of underwriters. The paperless credit evaluation includes online validation of KYC, credit history check, income/ financial analysis, banking analysis, contact point verification and profile verification, where required. The eligibility of customers is auto calculated in the system. These digital verifications and automation not only enable the underwriters to process a loan application faster but also helps them to review more number of loans in a day leading to faster turnaround time ("TAT") for our customers.

The affordable housing project loans are sourced by the business teams wherein the focus is on lending to reputed developers having successful completion track record and active in the space of developing affordable housing projects, requiring construction funding. The developer should be of strategic relevance and complement to our retail strategy as

well. A thorough discussion by the business and the credit team with the developer is done to understand his funding requirements. The processing of the loans is done by the specialised central credit team in accordance with the laid down guidelines and the loan proposal is evaluated on the parameters such as developer's overall real estate experience, execution capabilities and timely delivery, past repayment history, group strength and market reputation. Project assessment includes micro market analysis, location advantages, stage of construction, project future cash flow potentials, sales potential, execution capabilities and timely delivery, past repayment history, group strength and market reputation, etc. done both by in-house legal and technical team and but also through reputed international property consultants and law firms. After doing a thorough developer data analysis its audit, financial and banking analysis, legal and technical evaluation commenting on the clear title and availability of requisite approvals, RERA registrations etc., a detailed note is prepared and loan sanction is granted post approval from requisite authorities. The loan is subject to strict post disbursal monitoring by the central credit team which includes ensuring security perfection, regular developer data analysis and audit, escrow account, periodic review of project progress, etc.

For our construction finance business, we operate largely in Tier 1 and Tier 2 cities. Our underwriting team conducts an exhaustive review of the developer's space in affordable/budget homes and /or who can offer such projects to meet construction finance requirements, our team also verify financial health, historical project outcomes, developer's leverage ratios and credit bureau standings of developers. The developers who complies with green building norms are preferred. The team also scrutinizes project approvals, local market conditions, competitive benchmarks and gathers feedback from our existing clientele, in addition to obligatory site inspections. The underwriting process integrates various construction-related benchmarks, including progress milestones, sales velocity and collection targets. The offered tenure of our loan tenor for construction finance is for a period up to 5 years (including Principal Moratorium period, if any), however this tenor can be extended depending on size of the project and construction in phases.

Loan collection and monitoring

Our loan collection and monitoring is fully digitized and we use digital communication channels for monitoring our loans. Our in-house collection team comprises of tele-calling team, field collections and legal recovery. We send customers reminders before the due date using omnichannel communication like text messages and automated calls. We have logics in place to identify certain risk divisions of customers who need more focus than others and we send multiple channel reminders. Recovery actions are initiated immediately as and when the customer defaults. The degree of engagement increases with increase in number of days past due.

In case of delay in payment of EMI, we use our CRM platform to generate data and monitor the actions taken on these cases. Default cases are assigned to tele-calling team or field collections, using predefined logics present in system. Our platform empowers us to identify the focus areas and initiate campaigns based on the previous feedback entered by the collection agents. We have also provided a mobile application which is an end-to-end platform for our feet-on-street collection managers. This app helps them for receipt entry, deposit entry, visit schedule and other day to day field collection related activities. Collection Manager also uses our multiple online payment collection channels to reduce physical cash collection activities. For difficult to recover cases, we have related legal process initiated in parallel to field visits to assist our agents collect customers' outstanding. The legal collection team also uses digital platforms for efficient tracking of cases.

Our loan collection mechanism for project finance is managed through Escrow mechanism. The loan is getting repaid from the project receivable which is shared between the lender and the developer as defined in the sanction letter. The EMIs are collected through ACH banking every month. In case of delay in payment of EMI, the first level escalation is to the concerned business & in-house collection team. We also maintain a Debt Service Reserve Account (DSRA) for each case which has an amount equivalent to 3 months of interest. As the second level of escalation, DSRA is liquidated and adjusted towards the pending EMI. Once the EMI is collected, DSRA is replenished again.

Risk management

The Company has a dedicated risk management team which works to achieve the below mentioned objectives:

- to identify the various types of risks involved in the business;
- to define the methodology to measure/ quantify the risks;
- to control and mitigate the variety of risks involved in business;
- to specify the risk tolerance of the Company;
- to ensure regulatory and statutory compliance on risk management and prudential norms;
- to improve the asset quality of the Company by using risk management tools; and

- to maximize the return on equity with an acceptable level of risk, for the purpose of protecting, preserving and increasing the net worth of the Company.

Gold loans

We offer loan against gold to small businesses, vendors, traders, farmers and salaried people for their short term financial requirements as well as for personal needs and working capital needs, at competitive rates with a fast turnaround time. We provide a range of schemes for our customers' diverse requirements along with multiple disbursal modes and repayment options.

As at September 30, 2025, gold loans accounted for 38.37% of the consolidated AUM with an onboarding average ticket size of ₹ 89558, with a portfolio yield of 18.56% with a maximum tenor upto 24 months.

As at March 31, 2025, gold loans accounted for 26.83% of the consolidated AUM with an onboarding average ticket size of ₹ 99,826, with a portfolio yield of 17.83% with a maximum tenor upto 24 months.

Business origination

We source clients directly at our branches which are conveniently spread across the country to grant ease of access to our diverse customer base, along with sourcing through our website, other online channels, customer referrals and partners. Our sales staff periodically conduct promotional activities and events around the catchment areas to drive visibility and generate leads. The campaigns create awareness on the various schemes on offer and contribute to brand recall.

Once a prospective customer walks into any of our gold branch, the customer care executive in the branch explains the various product schemes on offer and helps in identification of best scheme for the customer based on the current requirement. Upon selection of a suitable scheme by the customer, the customer care executive enters client details and uploads mandatory KYC documents into our in-house loan origination tablet application. This application is equipped to screen customers for earlier defaults, frauds and presence in negative customer list as circulated by concerned regulatory and government bodies from time to time.

Credit policy and controls

Post successful authentication of the mandatory documents, the customer proceeds for valuation where the physical gold is valued independently by an experienced team of valuers. Dual underwriting helps in enhancing controls further. We follow a strong verification process and our officers are certified and trained in asset quality practices.

Our branch staff are trained to observe and/or handle fraudulent customers by observing their behavior, verifying ownership of the gold and matching the jewellery with customer profile or location. For some of high ticket loans, a secondary evaluation may be required to be conducted by an independent internal auditor. After our branch staff have opened and verified the loan account, the loan is sanctioned/approved by the appropriate authorities. The disbursal is processed post completion of mandatory checks as per our credit policy.

Disbursement

Loans upto ₹10 lakh are approved by branches and adequate due diligence is undertaken for cases above ₹10 lakh. Disbursement generally happens through Cash/RTGS/NEFT/IMPS/UPI/Multimode. Cash disbursements shall be done as per RBI Guidelines DoR.FIN.REC.No.45/03.10.119/2023-24 and in accordance with the rules issued under Section 269SS and 269T of the Income Tax Act, 1961 and the requirements under the Income Tax Act, 1961, as amended from time to time, would be applicable.

Collections and monitoring

We have developed a comprehensive collection mechanism leveraging both technology and on-field branch network. Our collection strategy is centred on important pillars comprising branch staff tele-calling, centralized tele-calling team and legal recovery team.

At the time of loan disbursement, customers are provided with both Digital (Quick Pay and Virtual Account) and cash payment options. Prior to payment due-dates, customers are reminded of their dues in the form of automated SMS reminders and branch staff tele-calling. Customers are also sensitized about the implication of default.

For customers defaulting on payments, collection tele-calling is carried out by our branch staff. Our branch staff are assigned specified number of borrowers and they have the responsibility for ensuring timely collection. We ensure that there is continuous monitoring of all customer accounts, especially for strategic high-ticket cases and adopt various collection strategies (including auction) on a case-to-case basis.

Risk management

Ensuring the safety and security of the branch premises is vital to our business since our cash reserves and gold inventory are stored in each branch. The gold ornaments pledged with us are kept in a tamper proof packet with its details mentioned on the packet and then placed into a fire and burglary proof vault. The branch is also under centralised electronic surveillance at all times.

We follow mark-to-market process for valuation of the underlying collateral. In the event of drop in gold prices, collection is initiated from the customer to cover the margin. IIFL reserves the right to sell the collateral in the event of fall in prices below prescribed threshold.

Majority of our loans go through an audit process at a transaction level where, apart from a valuation done by independent valuers at the time of loan disbursement, an experienced and trained audit executive re-appraises the pledged jewels to ensure the purity of the gold is the same as mentioned. Basis risk based sampling criteria, gold loan cases are audited by our audit executives, customers' KYC and financing documents are also checked and scrutinised by offsite auditors and additionally, fraud triggers in place are well defined and identify early warning alarms of unusual behavior and suspicious customers.

Micro finance

In the microfinance segment, we offer credit support to women who have either limited or no access to formal banking channels. We provide financial services to the economically weaker sections of society with an aim to bring microfinance services to the doorstep of the rural and semi-urban BoP (Bottom of Pyramid) families in India. Loans are offered under various categories such as income generation, education, emergency etc. We follow the Grameen Model (also regarded as "JLG" or Joint Liability Group). Through the model, loan is disbursed to each individual in the group, and the group guarantees for each other's loans.

As of September 30, 2025, the segment accounted for 9.28% of our AUM on a consolidated basis with an onboarding average ticket size of ₹ 60,794, portfolio yield of 24.33%.

As of March 31, 2025, the segment accounted for 12.58% of our AUM on a consolidated basis with an onboarding average ticket size of ₹ 48,146, portfolio yield of 24.35%.

Business origination

The loan application is sourced by our Company through its customer relationship officers through a centre disbursement model. A pre-group recognition test is conducted for the customers to give complete information on the product, terms and conditions and repayment criteria, along with providing them financial training related to opening of bank accounts, digital repayments etc.

It is ensured that the customers make use of their loans for their enhancement of their income and financial standard. The customer's residence is also visited by our customer relationship officers.
Once an application is logged into the system, the branch manager performs the group recognition test and visits the residence of the customer and ascertains the identity and residential status of the customer.

Loan Application and acceptance process

The loan application is sourced by our Company through its customer relationship officers through a centre disbursement model. A pre-group recognition test is conducted for the customers to give complete information on the product, terms and conditions and repayment criteria, along with providing them financial training related to opening of bank accounts, digital repayments etc. The following is the eligibility criteria for customers to avail Microfinance loan with the Company:

- The applicant must be within 18-55 years at the time of loan sanctioning for IGL - 1st cycle loans. Applicant must be within 18-60 years at the time of loan sanctioning for IGL - subsequent cycle loans, top up loans and product loans.
- The maximum annual income must be less than ₹ 3,00,000.
- Divorced, widow and unmarried female with more than 35 years at the time of loan application and maximum as per the above policy at the time of loan Sanctioning is eligible for a loan from our Company.
- It is ensured that the customers make use of their loans for their enhancement of their income and financial standard. The customer's residence is also visited by our customer relationship officers. Once an application is logged into the system, the branch manager performs the group recognition test and visits the residence of the customer and ascertains the identity and residential status of the customer.

Loan Repayment Process

The NACH mandate is collected from the customer as per standard norms. If the business team is unable to collect the NACH in time, they may be allowed to use the PDC cheque or cash collection only for the first instalment. This time frame shall be utilised by the team for enabling the collection through NACH.

Credit policy and controls

We require each member seeking a loan from us to submit an application in the centre meeting that is managed by our customer relationship officers. Once complete, a new loan application is only accepted at a group meeting if the majority of members in a group are present. Once we have accepted the loan application, we review the information provided by the member on items such as the purpose of the loan, the amount, and the relevant expertise of the member in the business, as well as the experience, if any. We also review the previous loan of customers with us as well as other lenders through the credit bureau reports.

A credit check is done mandatorily for all customers through an automated system integrated with the credit bureau. Apart from this, certain parameters are analysed to verify the customer's credit-worthiness and also to ensure they are not overburdened.

We approve new loans based on internal credit approval process and reports from credit bureau.

This approval process comprises of the following steps:

- credit bureau checks;
- consent from the centre/group members;
- customer understanding on company process and policy;
- customer agreement for joint liability conditions; and
- approval of loan application by the branch manager and scrutinising of the customer documents by branch credit manager.

Most of the application and approval mechanism is controlled through the technology so that policy and regulatory aspects are adhered. In addition to this, we do have a maker checker concept at the branch to reduce the errors and to ensure proper control over the laid down process and policies.

The repayment frequency for MFI customers is fortnightly and monthly. Multiple modes of repayment are provided to the customer. The general practice remains that the customer relationship officers visits the center on the center repayment date and collects the EMIs/EFIs in form of cash or online repayment. Our Company is at the forefront of driving digital collection mechanisms through UPI/BBPS and other modes.

Risk management

The initial focus of our loan portfolio management efforts is on our customer relationship officers, who are given primary responsibility for both the issuance of loans and the collection of repayments from our borrowers. They also regularly conduct checks or reviews of our borrowers and the end use of loans.

We regularly monitor defaults in the field and get in touch with the field teams to conduct prompt follow up. Central teams also report the observations to the management and seek guidance for further action to improve collections. In addition, we have an internal audit team, which reports on the exceptions in operational, system and other processes.

We have in place a dedicated risk management team to analyze and identify the risks associated with each line of business and suggest suitable policy and process changes to reduce the identified risks. The identified risks are reported & reviewed in the Product risk management committee on a regular basis and the risks associated with the enterprise as a whole are reported on a quarterly basis through Risk Management Committee to the Board for review.

Code of conduct and Fair Practices Policy as stipulated by the regulator has been adopted and the same is communicated to the field team so as to address any potential reputational risks. A dedicated vigilance team has been constituted which conducts regular screening of branch centers, and customers to identify frauds at an early stage and also to suggest suitable recommendations to prevent frauds.

Construction and Real Estate finance

Construction and Real Estate finance includes loans to developers for construction and development of predominantly affordable residential projects and a small proportion of mixed-use projects. In line with our broader retail strategy, the construction finance vertical is an enabler for providing retail loans under the approved project route, the Company has tie-ups with developers for funding the property buyers under the retail home loan category.

As at September 30, 2025, our Construction and Real Estate finance accounted for 1.05% of the consolidated AUM with an onboarding average ticket size of ₹ 2.79 crore, portfolio yield of 15.64%.

As at March 31, 2025, our Construction and Real Estate finance accounted for 1.07% of the consolidated AUM with an onboarding average ticket size of ₹ 19.19 crore, portfolio yield of 15.80.

Business origination

In the real estate financing business, we endeavor to enter into and maintain a relationship with the client, understanding their business requirement and structuring appropriate mix of construction finance option to the developer. In order to determine demand and supply in a market, we conduct surveys, either directly or through external vendors. We lend largely to residential projects and developers that are not subject to any concentration risks. We have also formulated a prudent lending criteria for borrowers in this segment.

Our sales teams meet with clients for deal origination and receive preliminary information. A name clearance memorandum is generated for the credit committee of the Board and post the committee's deliberation, the borrower may be considered for a loan. Our team then proceeds to collect requisite information and documentation from the prospective customer, prepares a proposal with case details for relevant authorities to review and logs the case into our loan management system for further processing.

Credit policy and controls

The loan application submitted by the sales team is checked for various parameters including the completeness of the application form, relevant KYC documents, etc. A legal and technical assessment by reputed external vendors is initiated to verify the authenticity of the documents, the legal title to the collateral property and its market value. Our credit team also conducts in-person meeting with the prospective customer to gain understanding of their business, revenue streams, expenses and cash management. The credit team then prepares a credit appraisal note which is sent to our sanctioning authority for final approval.

We follow a strict underwriting and risk assessment mechanism for our real estate loan cases, which include the following:

- *Borrower group and promoter profile check*: wherein we check the developers' past and ongoing project details, financial and banking details, debt history and other outstanding loans etc.

- *Project assessment/overview*: wherein, in case of a developed/partially developed project, we check the location, total saleable area, number of units available for sale and the market conditions in the geographic region for assessing demand etc; and in case of a new/under construction project, we check the committed commencement and completion dates, percentage of work done, total cost incurred and projections for the planned duration of the project.

- *Financial performance appraisal*: which involves an in-depth assessment of the financial statements and health of the developer using ratio analysis, sensitivity analysis, credit worthiness assessments and total project cost and expected sales assessments.

- *Collateral/security evaluation by external agencies*: which involves assessment of the external valuation report along with various approvals received by the developer for the project, and the title search report.

- *Cash flow and sensitivity analysis*: wherein cash flows of the project are analysed on the rationale of sales, construction, approvals, contingencies and debt cost assumptions. A sensitivity check is performed to ascertain the project level debt service coverage ratio.

- *Completion of requisite documentation*: Prescribed financing documents and KYC documents are obtained and included in the loan application file.

Disbursement and collection process

For our construction finance business, we operate largely in Tier 1 and Tier 2 cities. Our underwriting team conducts an exhaustive review of the developer's space in affordable/budget homes and /or who can offer such projects to meet construction finance requirements, our team also verify financial health, historical project outcomes, developer's leverage ratios and credit bureau standings of developers. The developers who complies with green building norms are preferred. The team also scrutinizes project approvals, local market conditions, competitive benchmarks and gathers feedback from our existing clientele, in addition to obligatory site inspections. The underwriting process integrates various construction-related benchmarks, including progress milestones, sales velocity and collection targets. The offered tenure of our loan tenor for construction finance is for a period up to 5 years (including Principal Moratorium period, if any), however this tenor can be extended depending on size of the project and construction in phases.

Risk management

Our construction and real estate loan application proposals are screened by the senior management and a multi-level committee depending on the loan amount. We seek to mitigate the risk of default by including specific covenants in the financing documentation in addition to our general terms and conditions, on a case-to-case basis.

Our risk management system involves monitoring projects and assessing the facility on a regular basis. Strict project monitoring process post disbursement is followed which includes a quarterly site visit by the technical manager to evaluate technical progress of the project, monitoring of fund transfers, NOC issuances and sales, audit of escrow account, and annual asset quality review. Performance of the portfolio is also regularly reviewed at senior management level and suitable actions are taken either by change in credit policy or by other requisite actions.

MSME secured loan

MSME secured loan is availed for working capital requirements, business use, acquisition of new commercial property. These loans are mortgage-backed secured business loans. Pricing of the product is driven by risk profile of borrower and the type of property being funded along with current prevailing property market rates.

As of September 30, 2025, our MSME secured loan accounted for 9.98% of our AUM on a consolidated basis with an onboarding average ticket size of ₹ 0.20 crores, portfolio yield of 17.89%.

As of March 31, 2025, our MSME secured loan accounted for 11.45% of our AUM on a consolidated basis with an onboarding average ticket size of ₹ 0.14 crores, portfolio yield of 18.52%.

Business origination

We source these loans through multiple channels like direct sales teams (DST), direct sales agents (DSA), website, walk-ins at our branches, and cross sell. Incrementally, most of our low-ticket loan originations are being done using our proprietary portable tablet-based application. Upon lead identification, our sales executives equipped with tablets visit and obtain requisite information including identity and address proof, business financials, bank statements and income tax returns. The application is entrenched with basic credit appraisal checks using analytical tools which analyses the basic data obtained from customer. Upon preliminary assessment of basic parameters, an instant in-principle approval for the loan application is granted. For cases where additional details are necessary to be assessed, the DSA/DSTs collect all requisite documents as per policy norms and submit to credit appraisal teams for assessment. Our on-field presence provides greater convenience to our customers and increases access to customers for the Company without incurring additional operational costs.

Credit policy and controls

For all our products, the credit policy is approved by the Board of Directors, senior management members, risk and audit committees.

We undertake digital underwriting for small ticket loan borrowers where logical policy checks and underwriting rule engines are in- built in the tablet-based loan application as well as in the Loan Processing System. In most cases the digital underwriting process is sufficient to assess eligibility of a prospective borrower and provide instant credit decision. For appraisal of applications of big-ticket customers, multiple document checks, financial and credit history and risk control checks are carried out and assessment is conducted/considered by various credit committees and at the board level, depending on the value of the transaction. Senior members of the credit teams are empowered at the local level to take credit decisions. Credit team members are authorized to underwrite and approve the cases depending on the value of the transaction and assigned approval authority.

In accordance with our credit policy, once a customer has been identified and has completed an application, the loan proposal is evaluated on the prescribed parameters such as past repayment history, income source, KYC and business profile. Credit underwriting is done as specified in the credit control policies and procedures manual.

The credit appraisal process is summarized as follows:

- Bureau Credit score is the gatekeeper for accepting a loan application. If score parameters defined in policy are met, then the case is logged in for further processing.
- Various checks are performed on the documents provided by the borrower to assess genuineness. These checks are done through an independent fraud control unit.
- Depending on the loan size, our loan officers either connect digitally or meet the borrowers at their business premises and carry out a personal discussion.
- A credit and financial background check on each borrower is mandatorily conducted.
- For collateralized loans, we conduct legal and technical evaluation of the offered security. We have empaneled professionally qualified legal vendors and valuation agencies to carry out security evaluation for us. These vendors are supervised by our professionally qualified, independent legal and technical teams.

In addition to the aforesaid, we have empaneled experienced and qualified vendors and agencies to carry out customer profile evaluation for us. These vendors are supervised by our independent credit and fraud control team.

Risk management

Our robust risk management procedures include monthly portfolio quality reports ‘analysis and portfolio performance review TTD (Through-The-Door) population monitoring based these reports. We generate, analyse and review extensive MIS reports which are broken down by multiple segments (sourcing channels, salaried/ self- employed etc.) in order to better understand each segment we are active in, logically analyse performance trends and mitigate potential/perceived risks in the portfolio by way of modification in credit policy or other measures as relevant.

MSME unsecured loan

In this segment, the facilities are extended to MSMEs with profitable business operations for certain pre-defined period as a mandatory criterion. The target borrowers must have existing business establishments having good business vintage, running cash flow, need funds to expand business related activities and have past repayment tracks. The pricing is driven by the risk profile of the borrower, the product and the market demand.

As of September 30, 2025, our MSME unsecured financing segment accounted for 4.36% of our AUM on a consolidated basis with an onboarding average ticket size of ₹0.22 crore, portfolio yield of 20.51%.

As of March 31, 2025, our MSME unsecured financing segment accounted for 5.67% of our AUM on a consolidated basis with an onboarding average ticket size of ₹0.09 crore, portfolio yield of 21.16%.

Business Origination:

Loans are sourced by direct/indirect channels and assessed by credit team using internal platform. We source unsecured loans through Omni channels strategies like Direct Sales Teams (DST), Direct Sales Agents (DSA), walk-ins at our branches, cross sell and other digital channels/ partners. The user can enter key details including identity and address

proof, business financials, bank statements, income tax returns on the IIFL loan application platform. The authenticated documents are then fed into the underwriting rule engine to provide a soft sanction to the applicant. Upon preliminary assessment of basic parameters, an instant in-principle approval for the loan application is granted. For cases where additional details are necessary to be assessed, the sales team collects all requisite documents as per policy norms and submit for credit appraisal.

Credit policy and controls:

For appraisal of loan applications, multiple document checks, financial and credit history and risk control checks through BRE (Business Rules Engine) are carried out and assessment is conducted/considered by various credit committees and at the board level, depending on the value of the transaction. Senior members of the credit teams are empowered at the local level to take credit decisions. Credit team members are authorized to underwrite and approve the cases depending on the value of the transaction and assigned approval authority.

In accordance with our credit policy, once a customer has been identified and has completed an application, the loan proposal is evaluated on the prescribed parameters such as past repayment history, income source, KYC, assessment of business cash flows and profile. Credit underwriting is done as specified in the credit control policies and procedures manual.

We leverage our IT infrastructure to pull data points from the application form and various other checkpoints like Credit bureau reports, Banks, GST and other integrations. Riskier customers get weeded out at the time of application only.

Various parameters of fraud checks and fintech solutions have been implemented in the journey. With the help of these data points, multiple variables are generated in system at various stages which is consumed by the BRE system to decision the case and populate their eligible loan amount. These generated variables are basis all the available data points like Bureau report (type of loans, delayed loans, loan enquiries), Banking variables (Cash inflow and outflow into the account, cheque returns, Credit / Debit count, Cash transaction etc.) and other application variables like vintage, industry category etc. Overall IIFL uses it internal BRE rule engine and analytical scorecards to decision the case (approve / reject) and determine the final loan amount for approved cases.

The credit appraisal process is summarized as follows:

- Bureau Credit score is the gatekeeper for accepting a loan application. If score parameters defined in policy are met, then the case is logged in for further processing.
- Various checks are performed on the documents provided by the borrower to assess genuineness. These checks are done through an independent fraud control unit.
- Depending on the loan size, our loan officers either connect digitally or meet the borrowers at their business premises and carry out a personal discussion. A credit and financial background check on each borrower is mandatorily conducted.
- For collateralized loans, we conduct legal and technical evaluation of the offered security. We have empaneled professionally qualified legal vendors and valuation agencies to carry out security evaluation for us. These vendors are supervised by our professionally qualified, independent legal and technical teams.

In addition to the aforesaid, we have empaneled experienced and qualified vendors and agencies to carry out customer profile evaluation for us. These vendors are supervised by our independent credit and fraud control team.

Disbursement and collection process

Disbursement process:

Our operations team is responsible for managing loan disbursements, ensuring timely and accurate processing, and overseeing loan disbursement. It includes verification of various documents like KYC, Business documents, banking and payment to respective customer. The Operations team ensuring adherence to internal policy, regulatory and compliance parameters through pre-defined checklist.

Collection process:

IIFL Finance has a strong collections team. All members of the collection team have a good amount of prior collection experience with different banking and finance organizations and all members are exposed to Unsecured, Digital lending (including products like personal loan, business loan, SME products) and Supply chain. The team is spread all across the country in multiple locations and receives regular training on best standard practices and regulation regarding collection.

Our loan collection and monitoring is fully digitized and we use digital communication channels for monitoring our loans. Our in-house collection team comprises tele-calling team, field collections and legal recovery. We send customers reminders before the due date using omnichannel communication like text messages and automated calls. Recovery actions are initiated immediately as and when the customer defaults. The degree of engagement increases with an increase in the number of days past due.

In case of delay in payment of EMI, we use our CRM platform to generate data and monitor the actions taken on these cases. Default cases are assigned to tele-calling team or field collections, using predefined logics present in the system. Collection Manager also uses our multiple online payment collection channels to reduce physical cash collection activities. For difficult to recover cases, we have a related legal process initiated in parallel to field visits to assist our agents collect customers' outstanding.

In terms of physical coverage, we have strategically placed our team in regions where we have higher loan exposure and delinquent cases. Currently our in-house Team is covering more than 11,000 pin codes. For monitoring collection efficiency, we have divided our loan exposure across multiple collection zones and each zone is headed by a Zonal Collection Manager and under him, there are Regional/Area Managers and Agency Managers who manage collection agencies and field executives in their zone. Further to strengthen our collection initiatives, we have empaneled reputed collection agencies based on their local collection strength and preference to empanelment of collection agency is given to those agencies who had earlier exposure of collection for similar products.

Risk Management

Our robust risk management procedures include monthly portfolio quality reports 'analysis and portfolio performance review TTD (Through-The-Door) population monitoring based these reports. We generate, analyse and review extensive MIS reports which are broken down by multiple segments (sourcing channels, salaried/ self- employed etc.) in order to better understand each segment we are active in, logically analyse performance trends and mitigate potential/perceived risks in the portfolio by way of modification in credit policy or other measures as relevant.

Capital Market Finance

Our capital market finance products are short term loans secured by pledge of listed equity shares, vested ESOPs, equity and debt mutual fund units, bonds, debentures and collateral as approved by the credit policy ("**Approved Securities**"). In case of IPO financing, margins are dependent on over subscription of the issue.

As at September 30, 2025, our capital market finance accounted for 0.68% of our AUM on a consolidated basis with an onboarding average ticket size of ₹ 0.92 crore, portfolio yield of 12.02%.

As at March 31, 2025, our capital market finance accounted for 0.78% of our AUM on a consolidated basis with an onboarding average ticket size of ₹ 0.34 crore, portfolio yield of 11.94%.

Capital market finance includes loan against shares, mutual fund units, debentures etc., IPO financing and ESOP financing.

Business origination

In our loan against security product we offer an opportunity to borrowers generally HNIs, corporates, private trusts, HUFs, limited liability partnership firms etc. to monetise their investments (listed equity shares, mutual fund units, bonds, debentures etc.) in order to raise capital for their personal, investments, or business financing needs. The shares or securities are generally very liquid, from high quality companies, and highly valued securities. The amount depends on valuation of the shares, margin allowed by the company, and client's past credit history.

The origination/sourcing team is our group wealth and broking entities which directly meets with clients for deal origination and receives preliminary information.

Credit policy and controls

A proper due diligence is conducted on the profile of the borrower and collateral offered for the loan, keeping in mind the concentration risk involved against the funding of the particular security at borrower level as well as entity level. The eligibility criteria for loan are very stringent with regards to borrower profile and nature of the security. The proposals

are presented to the credit committee who decides on the final eligibility of a particular client before sanctioning the loan.

Upon sourcing a customer and obtaining a loan application along with the relevant documentation, the relationship officers fill in the case details on the online loan management portal or in hard copy format and hand over the documents and credit appraisal note to a credit officer. Thereafter, credit bureau checks and other relevant checks like watchout investor, google search, SEBI search etc. are conducted to identify any fraudulent activity at an early stage by our credit team. A credit bureau report is then generated where the credit score of the applicant is reviewed along with a track record of loan repayments, where relevant.

The loan application is checked by our internal audit team for various parameters including the completeness of the application form, relevant KYC documents, and income proofs, where applicable. Upon the receipt of security documents, which are to be used as collateral, the disbursement officer initiates a legal and technical assessment, to verify the authenticity of the collateral, the legal title to the collateral and its market value. A personal discussion is conducted by our credit managers over the telephone as well as through in-person meetings at the customer's house or place of business to understand their business, revenue streams, expenses etc., and based on income validations, determine their loan eligibility.

The credit risk team sends documents to the credit committee or sanctioning authority for final approval. We use a risk based pricing matrix to determine the interest rate to be charged for different loans. We seek to mitigate the risk of default by including specific covenants in the financing documentation in addition to our general terms and conditions, on a case-by-case basis.

We have implemented a robust process of credit assessment comprising:

- *Underwriting*: We have a credit team comprising credit managers and disbursement officers who conduct an independent verification of customers, evaluate their securities, and analyse their ability to repay loans;

- *Legal assessments*: We conduct legal assessments through our in-house team of lawyers and by engaging external vendors who help us perform functions such as the verification of documents and title to securities;

- *Technical assessments*: We conduct technical assessments through our in-house team of internal audit and by engaging external vendors who help us perform functions such as conducting valuation of collateral and the periodical review of overall portfolio; and

- *Risk Control Unit*: Our risk containment unit conducts credit bureau checks, security checks, scrutinizes documents, visits certain customers and seeks to identify fraud at early stages. They also conduct risk assessment of the portfolio on daily basis to maintain a healthy portfolio within the regulatory purview. Daily mark to mark valuation of securities is performed by the risk team so as to track portfolio quality and take necessary corrective action.

Risk management

A robust risk management process is conducted on a daily basis on the overall portfolio to maintain the portfolio quality.

The prices of the securities are updated daily on the basis of end of day price file received from the stock exchanges. On volatile days price files are uploaded on a real-time basis. The clients are then intimated of the margin shortfalls by business teams via phones/emails/letters. The collateral in the loan management system is reconciled with the securities lying with the depositories on a daily basis through an automated process by the operations team. Margins on each of the loans are monitored on regular basis and further margin is called for as and when the need arises. This helps us to maintain comfortable margins and enables us to mitigate risks against potential defaults. Margin calls are sent to clients on a daily basis and in case of a shortfall when the client is unable to maintain the margin, the loan value is realised through the sale of the securities at the earliest. Our centralized risk management system helps us monitor our client's credit exposure on a real time basis, enabling us to make margin calls on a dynamic basis and take suitable action in volatile markets.

Supply Chain Finance:

Supply Chain Finance (SCF) encompasses technology-enabled solutions designed to reduce financing costs and enhance operational efficiency for buyers and sellers in a sales transaction. By automating processes and tracking invoice approvals and settlements, SCF simplifies financial operations from start to finish.

In this arrangement, buyers approve their suppliers' invoices for financing through IIFL, providing short-term credit that improves liquidity and optimizes working capital for both parties. Suppliers gain faster access to funds, while buyers benefit from extended payment terms. This allows both sides to manage cash flow effectively and allocate resources to other business priorities.

Types of Supply chain financing:

- Vendor Finance: Vendor financing is the funding arrangement where an Anchor (buyer) arranges the funding for its Vendors (suppliers) and this financing is available for both- Purchase & Sales invoices.

- Dealer finance: This financing arrangement focuses on financing of dealers which are associated with the reputed Anchors. Buyers of the anchors are IIFL customers & discounting of invoices raised by anchor is funded. Repayment is done by buyers/dealers based on the mutually agreed arrangement/agreement.

As on September 30, 2025, the average ticket size of the supply chain financing loans was ₹ 8.55 lakhs, the average yield is 13.94% and it provided for 0.60% of the AUM of our Company. As on March 31, 2025, the average ticket size of the supply chain financing loans was ₹ 17.11 lakhs, the average yield is 13.17% and it provided for 0.98% of the AUM of our Company.

Business Origination

Supply Chain Finance loans are primarily sourced through direct & indirect channels, supported by a network of partners and assessed by the credit team using IIFL's internal platform. These loans are acquired through a comprehensive omni-channel strategy, including partnerships. User can conveniently enter key information, such as identity and address proof, business financials, bank statements, and income tax returns, on the IIFL loan application platform. The uploaded documents undergo authentication and are processed through the underwriting rule engine to generate a soft sanction. For cases requiring further evaluation, the sales team collaborates with the applicant to gather additional documents as per policy norms for detailed credit appraisal.

Credit Policy and Control

1. Buyer Creditworthiness Assessment
   - Since SCF is often based on the buyer's credit strength, IIFL evaluates the buyer's credit rating, financial stability, and payment history.
   - Large, established buyers with strong credit profiles increase the likelihood of financing approval.
2. Supplier Evaluation
   - While the focus is primarily on the buyer, IIFL also assess the supplier's business operations, financials, and industry reputation.
   - Consistent supply performance and quality of goods/services can positively result in higher chances of approval.
3. Invoice Verification
   - IIFL verifies whether the invoice is legitimate, ensuring it accurately reflects the transaction between the buyer and the supplier.
   - IIFL also checks for any discrepancies, duplicate invoices, or signs of fraud.
4. Payment History and Transaction Analysis
   - IIFL examines the historical payment behavior of both buyers and suppliers.
   - Timely payments and well-maintained relationships are favourable indicators.
5. Industry and Market Conditions
   - External factors like market volatility, economic conditions, and industry-specific risks are considered.
   - For volatile sectors, IIFL may apply stricter terms or factor the same in financing rate.
6. Legal and Compliance Check
   - Ensuring that all invoices, contracts, and agreements comply with legal and regulatory standards.
   - IIFL ensures adherence to RBI guidelines and other applicable financial regulations.

Below is a step-by-step overview:

- Purchase and Invoice Generation: The supplier delivers goods or services to the buyer as per the agreed terms. After delivery, the supplier issues an invoice to the buyer.
- Invoice Approval: The buyer verifies and approves the invoice for payment. This approval acts as a confirmation of the transaction and the buyer's commitment to pay on the due date.

- Financing Request: The supplier submits the approved invoice to IIFL.
- The supplier requests early payment of the invoice amount, typically at a discounted rate.
- Financing by IIFL: IIFL assesses the invoice and based on the buyer's creditworthiness - disburses funds to the supplier.
- Buyer Payment: On the agreed due date (e.g., 30, 60, or 90 days), the buyer pays IIFL the full invoice amount. The buyer benefits from the extended payment period, improving their cash flow.
- Completion: IIFL recovers the payment from the buyer, and the SCF transaction is concluded.

Disbursement process:

Our operations team is responsible for managing loan disbursements, ensuring timely and accurate processing, and overseeing loan disbursement. It includes verification of various documents like KYC, Business documents, banking and payment to respective customer. The Operations team ensuring adherence to internal policy, regulatory and compliance parameters through pre-defined checklist.

Loan collection and monitoring:

Collection is a critical business function that involves the systematic process of recovering overdue payments from customers who have failed to fulfil their financial obligations. It encompasses a range of activities designed to minimize bad debt, protect revenue, and maintain positive customer relationships.

IIFL Finance has a strong collections team. All members of the collection team have good amount of prior collection experience with different banking and finance organization and all members are exposed to Unsecured, Digital lending (including products like personal loan, business loan, SME products), Secured Business Loan and Supply chain. The team is spread all across the country in multiple locations and receives regular training on best standard practices and regulation regarding collection.

Our loan collection and monitoring is fully digitized and we use digital communication channels for monitoring our loans. Our in-house collection team comprises of tele-calling team, field collections and legal recovery. We send reminders to customers before the due date using multiple communication channels like text messages and automated calls. We have frameworks in place to identify certain risk divisions of customers who need more focus than others and we send multiple channel reminders. Recovery actions are initiated immediately as and when the customer defaults. The degree of engagement increases with increase in number of days past due.

In case of delay in payment of EMI, we use our CRM platform to generate data and monitor the actions taken on these cases. Default cases are assigned to tele-calling team or field collections, based on different strategies. Our platform empowers us to identify the focus areas and initiate campaigns based on the previous feedback entered by the collection agents. We have also provided a mobile application which is an end-to-end platform for our feet-on-street collection managers. This app helps them to capture receipt entry, deposit entry, visit schedule and other day to day field collection related activities. Collection Manager also uses our multiple online payment collection channels to reduce physical cash collection activities. For difficult to recover cases, we have related legal process initiated in parallel to field visits to assist our agents collect customers' outstanding. The legal collection team also uses digital platforms for efficient tracking of cases.

In terms of physical coverage, we have strategically placed our team in regions where we have higher loan exposure and delinquent cases. Currently our in-house Team is covering more than 11000 pin codes. For monitoring collection efficiency, we have divided our loan exposure across multiple collections zones and each zone is headed by a Zonal Collection Manager and under him, there are Regional/Area Managers and Agency Managers who manages collection agencies and field executives in their zone. Further to strengthen our collection initiatives, we have empaneled reputed collection agencies basis their local collection strength and preference to empanelment of collection agency is given to those agencies who had earlier exposure of collection for similar products.

Agency assigns a team leader and field executives who follow up on the cases in the field for recovering the default amount from the delinquent customer. The Agency Managers conducts daily follow-ups with their agencies along with ACH on a regular basis. Agency Manager and above also do the joint visits on Refused to pay, Broken promise, Non Contactable along with any critical or problematic cases with Supervisor and field executive. Their visit report is also get published on a weekly basis and reviewed by Zonal Manager, Head collection on monthly basis. Cash collection is restricted and avoided by our partner agencies. Agency is only authorized to collect cheque/ DD/PO or request customer to pay us through online payment modes(Links)/ RTGS / NEFT /IMPS. The Agency shares repayment updates with the Agency Managers. An Agency performance updates are monitored monthly.

Pre EMI activities:

Analytical models are executed to identify high risky cases so that special focus can be established & allocation strategies can be decided.

Additionally, prior to EMI due dates, customer awareness & pre-EMI calling by in house call centre teams are conducted to increase customer awareness about their due dates & EMI details & reduce the number of overdue customers.

Collection allocation strategies:

Overdue cases are allocated to different teams based sourcing channel, current delinquency bucket, past feedbacks and other factors. Multi allocations of different set of customer helps is achieving higher efficiency & builds specialist teams dealing with each buckets.

Joint efforts are put in by collections & sales teams for cases with up to 6 MOB with an aim to bring in accountability as well as helps in maintaining customer experience with IIFL.

Similarly, overdue pool from current bucket is allocated to call centre teams to ensure timely contacts with customers for quick repayments & capturing feedbacks to be passed on to field teams after a specified period of days where payments are still due. Field allocations are handled by in-house as well outsourced agencies. Portfolio cases are allocated within digital teams, lower bucket teams & recovery teams to drive highest efficiency in terms of collections. Assistance from Legal teams is sought wherever required like NPA, write off cases.

Risk Management

Our robust risk management procedures include monthly portfolio quality reports, analysis and portfolio performance review, TTD (Through-The-Door) population monitoring based these reports. We generate extensive analyse and review MIS reports which are broken down into multiple segments (products, credit programs, sourcing channels, nature of employment, etc.) in order to better understand each segment we operate in & logically analyse performance trends and mitigate potential/ perceived risks in the portfolio by way of modification in credit policy or other measures as relevant.

Operational controls

We have well defined policies and procedures that help maintain operational control across the lifecycle of the loan. The function is independent and centralized and among other tasks, majorly checks loan cases for adherence to policy parameters. For every loan proposal, disbursals are approved by the front-end operations after conducting proper non-discrepancy checks.

Collections and monitoring

We have developed a comprehensive collection mechanism leveraging both technology and on-field branch network. Our collection strategy is centered on important pillars comprising branch staff tele-calling, centralized tele-calling team and legal recovery team.

At the time of loan disbursement, customers are provided with both Digital (Quick Pay and Virtual Account) and cash payment options. Prior to payment due-dates, customers are reminded of their dues in the form of automated SMS reminders and branch staff tele-calling. Customers are also sensitized about the implication of default.

For customers defaulting on payments, collection tele-calling is carried out by our branch staff. Our branch staff are assigned specified number of borrowers and they have the responsibility for ensuring timely collection. We ensure that there is continuous monitoring of all customer accounts, especially for strategic high-ticket cases and adopt various collection strategies (including auction) on a case-to-case basis.

Branch Network

As on September 30, 2025, our Company had 4,780 branches and 2,840 branches across India on consolidated basis and standalone basis, respectively. For details of our branches as on September 30, 2025, please refer to "*Annexure C-List of Branches*" on page 514.

Total Income	1.58	8.85	9.62	5.77
Total Comprehensive Income /(loss)	1.41	(9.18)	1.79	3.68

Provisioning norms

The Company recognizes loss allowances using expected credit loss ("**ECL**") model. Primarily, ECL accounts for credit losses in future based on observed portfolio behaviour. ECL Credit losses can be considered as difference observed between contractual future cash inflows and expected cash inflows. ECL accounts for two major characteristics: current behavior of a financial instrument and observed portfolio losses in the portfolio over a period of time considering the time value of money and has following important parameters:

Exposure at default – Estimate of contractual cash inflows in future as on reporting date

Probability of default – Indicator of likelihood of default of financial instrument for a time period

Loss given default – Indicator of normalised loss incurred post default of financial instrument

Stage 1 includes financial instruments that have low credit risk as on the reporting date. For such assets, 12-month expected credit losses are computed on the exposure and interest revenue is accounted on gross asset value (without considering expecting credit losses). ECL is computed based on expected default events within 12 months since reporting date. It is a measure of likelihood of low credit risk portfolio transitioning to high credit risk (and losses post its transition) in next 12 months ("**Stage 1**").

Stage 2 includes financial instruments that have higher credit risk than Stage 1 but with no objective impairment evidence. For such assets, lifetime expected credit losses are computed on the exposure yet interest revenue is accounted on gross asset value (without considering expecting credit losses). ECL is computed based on expected default events over the balanced loan tenure ("**Stage 2**").

Stage 3 includes financial assets that have high credit risk and are considered default as per regulatory norms at the reporting date. For these assets, losses are computed based on empirical data and interest revenue is not accrued ("**Stage 3**").

Further, additional provisions are provided for certain weak accounts.

Sales and Marketing

Marketing activities for our Company are managed by our marketing and corporate communications department. Through in-house teams, external creative agencies and execution partners, the marketing department conducts various activities ranging from brand awareness, product awareness, creative development, lead generation activities and enhancing customer experience, with a focus on aligning product communication to create an economic, social and environmental impact and an overall aim to make our brand 'IIFL' the brand of choice for its customers. The above activities are implemented through various modes such as broadcast media (TV, print, radio), digital assets (website, social media platforms), digital advertising, out-of-home media and on-ground activities.

Risk and Asset-Liability Management

Risk management is a key element of our business strategy and is integrated seamlessly across all of its business operations. The objective of the Company's risk management process is to manage the risk-return equation and ensure meticulous compliance to all extant laws, rules, and regulations applicable for its business. We take a holistic view of risk management and undertakes an enterprise-wide risk management approach under the Enterprise Risk Management ("**ERM**") framework.

In order to address the risks that are inherent to our business, we have developed a risk management architecture that includes monitoring by our Board through the Audit Committee, the Asset Liability Committee and the Risk Management Committee. We adopt a 'three lines-of-defence' model wherein management control at the business entity level is the first line of defence in risk management. Various risk control and compliance oversight functions, established by the management are the second line of defence. Finally, the third line comprises the internal audit/assurance function. In order to maintain financial soundness of the company, it seeks to promote a strong risk culture throughout the organization. All major risk classes viz credit risk, market risk, operational risk, fraud risk, liquidity risk, business risk and reputational risk are managed via well-defined risk management processes.

Risk	Risk Response Strategies
Credit, liquidity and finance risk	Our Company has separate multi-level credit and investment committee, consisting of Directors of the Board/head of the departments, to consider medium to large credit proposals. However, smaller proposals are decided at appropriate level as per the approval matrix. The Company has in place a risk management committee and asset liability management committee (ALCO), consisting of directors and senior officials. They regularly meet and review the policies, systems, controls, and positions of the financing business. The committee reviews the risk management processes, covering credit and underwriting controls, operations, technology and compliance risks. Liquidity risk arises due to non-availability of adequate funds or non-availability of adequate funds at an appropriate price, or of appropriate tenure, to meet our business requirements. This risk is minimised through flexibility in funding mix by way of sourcing the funds through money markets, debt markets and banks to meet its business and liquidity requirements. Also Priority sector qualified assets available for securitization gives ontap liquidity comfort to the company. We monitor liquidity risk through our ALCO Committee with the help of fortnightly and monthly liquidity and asset liability mismatch reviews. This involves the categorisation of all assets and liabilities in different maturity buckets and evaluating them for any mismatches in any particular maturity bucket, especially in the short-term. The ALM Policy has capped the maximum mismatches in the various maturities in line with RBI guidelines.
Technology Risk	Our management periodically reviews various technology risks such as protecting sensitive customer data, identity theft, cybercrimes, data leakage, business continuity, access controls, etc. We have put in processes, systems and tools for ensuring vigilant monitoring, audit logging and suspicious activity reporting. • Robust Business Continuity Framework including Business Continuity Plan (BCP) is in place. BCP Plan is regularly being tested in form of periodic BCP drills from alternate working sites with report submissions to Top Management and Board by Business Continuity Crisis Management Team (BCCMT) and Quick Response Team (QRT).

Risk	Risk Response Strategies
	We successfully completed the ISO 27001:2013 annual re-certification in January 2023. During the year, many processes are automated to reduce the risk of manual error and frauds.
Compliance Risk	We have implemented business-specific compliance manuals, limit monitoring systems and AML/KYC policies. The compliance requirements across various service points have been communicated comprehensively to all through compliance manuals and circulars. To ensure complete involvement in the compliance process, reporting processes have been instituted by heads of all businesses/zones/area offices and departments, through submission of quarterly compliance reports. The compilations of these reports are reviewed by the Audit Committee/Board and are also submitted to regulatory authorities, periodically. Besides, the internal auditors verify the compliances as part of their audit process.
Operational risk management	Operational risk is the risk of loss resulting from inadequate or failed internal processes, people, systems and controls or from external events (as defined by Basel Committee on Banking Supervision). Independent operational risk management team reporting to the risk head is in place which is responsible for coordinating all the operational risk activities including building an understanding of the risk profile, implementing tools related to operational risk management, branch operations, cash handling, customer lifecycle management, etc., and working towards the goals of improved controls and lower risk.
Credit risk management	Credit Risk is a measure of loss arising due to failure of borrower to meet the contractual obligation of repayment as per agreement. Our Company has defined processes for identification, ongoing assessment and mitigation of credit risk for various products on regular basis. Our Company routinely monitors credit risk including asset impairment risks and ensures compliance within the board approved policies and risk limits. Additionally, we monitor risk concentrations based on various characteristics. Portfolio reviews are undertaken on monthly basis highlighting behaviour of products on various financial and non-financial parameters. Our Company's credit concentration monitoring is undertaken on continual basis. Our Company has board-approved policy capping credit concentration to entities. This is effectively undertaken to ensure avoidance of default of large exposures affecting our Company's financial performance.
Fraud Risk Management	Our Company has a comprehensive Fraud Risk Management framework in place with an independent Fraud Control Unit (FCU) team responsible for fraud prevention, fraud detection and fraud investigations supported by offsite Audit team, internal audit function, outsourced verification vendors and fraud analytics.

Internal Controls

The Company has an internal control system which is commensurate with the size, scale and complexity of its operation. The internal audit team monitors and evaluates the efficacy and adequacy of internal control systems in the Company, its compliance with operating systems and accounting procedures. Based on the report of the internal auditor, process owners undertake corrective action in their respective areas and thereby strengthen the controls. Significant audit observations, if any and corrective actions and implementation thereof are presented to the Audit Committee of the Board. Status of resolution tracking as well as pending issues is reported to senior management and audit committee of the Board on a regular basis as an 'Action Taken Report'.

Human Resources

Our human resource management systems and processes are future ready and go hand-in-hand with the demands of the business and environment. We have got a scalable talent acquisition system which seamlessly interacts with business and stakeholders to hire and onboard talent. Training and development which is central to our people development theme has the right mix of classroom, online, MDP trainings and certification courses.

We have been taking employee feedback through our annual pulse survey, which enables us to constantly recalibrate our policies and initiatives and improve on areas, based on the feedback. As of September 30, 2025, the Company (along with its subsidiaries) has a strong workforce of 37,334 employees on a consolidated basis and 16,310 on a standalone basis.

Corporate Social Responsibility

On the social front, IIFL Foundation (the CSR arm of the IIFL group) has undertaken many initiatives for community welfare, with a special focus on five for development i.e. health, education & environment, livelihood and poverty alleviation. While designing the CSR programmes, a major emphasis has been given to grant opportunities and building the skills of women through our initiatives, especially those from marginalised and vulnerable communities. The programmes contribute to the sustainable development goals by working to promote gender equality, reduced inequalities, no poverty, quality education and good health and wellbeing.

IIFL Foundation's Sakhiyon ki Baadi programme, is an initiative that addresses the issue of female education, to introduce young girls especially from tribal belts, into formal education. The programme aims to eliminate female illiteracy in the indigenous tribal and other vulnerable areas with disproportionate male-female literacy and education ratios, thereby trying to address gender disparities by achieving literacy and numeracy skills for both men and women. The programme is spread across Rajasthan which has an overall reach across 5 districts with 460 learning centres focused on reducing gender disparity providing girl child with access to educational opportunities. The foundation has also supported digitization in learning at some government schools, at Rajasthan, by developing smart classrooms.

IIFL Foundation also collaborates with NGOs to hold and support medical camps. The foundation has supported the Pandharpur Medical Camp by providing medical supplies, in-patient services and food distribution. It has also provided support for conducting eye and dental check-ups camps at Barsana. As part of IIFL Foundation's initiative on skill development it initiated a course on 'Hospitality Training Program and Chef Trade' for youths at Kupwara, a district in Kashmir.

The IIFL Foundation also supports the 'Chhoti Badi Baatein' programme which focuses on improving learning and mental well being for children. The objective of the programme is to support children to develop appropriate social and interpersonal skills, develop a sense of responsibility, recognise and manage their emotions and foster the development of cognitive, language, communication and mathematic skills among others.

Competition

Our Company offers a diversified range of products including home, gold, business and micro finance loans, loans against property and loans against securities. These are provided to a broad segment of customers including salaried and self-employed personnel and corporates. We face competition primarily from other NBFCs and banks. The major competitive factors among the peer group are an extensive branch network, greater funding capabilities, wider range of products and services, and advanced technology offerings.

Insurance

Our Company has insured its various properties and facilities against the risk of fire, burglary, breakdown of office equipment, risk of financial loss due to fraud and other perils including public liability which covers the legal liability arising out of third party bodily injury or third-party property damage in company premises. Our Company has obtained money policy to cover "money in safe and till counter and money in transit" for the branches and various offices.

Our Company also has in place a group insurance policy for its employees and their dependent family members, group term life and group personal accident policies, which provide uniform benefits to all the employees.

Further, our Company has a Directors and Officers Liability Policy which provides a cover for the personal liability of directors and officers arising due to wrongful acts in their managerial capacity.

For a discussion of certain risks relating to our insurance coverage, please see Risk Factor No. 13 *"Insurance of relevant assets obtained by our borrowers may not be adequate to protect them against all potential losses, which could indirectly affect our ability to recover our loans to such borrowers. Further, our insurance coverage may not adequately protect us against losses."* on page 31 of this Draft Shelf Prospectus.

Intellectual Property

Our Company has entered into a trademark license agreement with IIFL Capital Services Limited *(Formerly known as IIFL Securities Limited)* dated March 19, 2019. Pursuant to which, IIFL Capital Services Limited *(Formerly known as IIFL Securities Limited)* has granted our Company with a non-exclusive right and license to use the trademark, service mark and logos pertaining to "IIFL" i.e. IIFL FINANCE. The term for which the license is granted is in perpetuity, subject to the terms and conditions contained in the trademark license agreement. For details, please see "*History and Main Objects"* on page 196 of this Draft Shelf Prospectus. Further, our Company has applied for registration of the logo " MyMoney" and trademark 'My Money' in class 36 on January 12, 2024. The Trade Marks Registry has examined the captioned trademark application and has raised objections inter alia under the provisions of Sections 9 and 11 of the Trade Marks Act, 1999. Once the examination report is served, our Company will file a response against the objections raised.

Information Technology

Information Technology in our Company is the core element which drives business growth and forms the backbone of our organization. Information technology is used as a strategic tool which comprises industry standard business applications and robust IT infrastructure setup which are used to manage business operations which improves our overall productivity and efficiency and provide seamless and world class experience to our customers. We believe that through our information systems and adequate controls we are able to manage our nationwide operations efficiently, market effectively to our target customers, and effectively monitor and control risks. Business applications including loan operating system are designed, developed and implemented to meet our business and regulatory requirements round the clock and is being used in all our branches across India to manage business operations, improve customer services and efficiency from time to time. IT and Information security and processes are aligned with RBI Master Directions, ISO 27001 and Industry best practices and industry standard security solutions are implemented to control security and Cyber Risks.

Treasury Operations

Our treasury operations are mainly focused on meeting our funding requirements and managing short term surpluses. Our funding requirements are currently predominantly sourced through term loans, issuance of debentures, commercial paper and securitisation of receivables. We believe that through our treasury operations we are able to maintain our ability to repay borrowings as they mature and obtain new loans at competitive rates. Our treasury department undertakes liquidity management by seeking to maintain an optimum level of liquidity and complying with the RBI requirements of asset liability management. The objective is to ensure smooth functioning of all our operations and at the same time avoid the holding of excessive cash. Our treasury maintains a balance between interest earning liquid assets and cash to optimize earnings. We actively manage our cash and funds flow using various cash management services provided by banks. As part of our treasury activities we also invest our temporary surplus funds in fixed deposits with banks, liquid debt-based mutual funds and government securities. Our investments are made in accordance with the investment policy approved by the Board.

He had a career as a central banker with nearly four decades of experience of working in all the major functional areas of the Reserve Bank. He served as the Nominee Director of RBI on the Boards of Punjab and Sindh Bank, Punjab National Bank, National Housing Bank and NABARD.

Remuneration of Directors

The Nomination and Remuneration Committee ("**NRC**") determines and recommends to the Board the compensation to be paid to Directors. The Board of Directors or the shareholders, as the case may be, approve the compensation to Directors.

The tables below sets forth the details of the remuneration pertaining to last three financial years and current year which has been paid or was payable to the Directors by the Company.

A. Remuneration paid to our Directors by our Company

The terms of remuneration of the Executive Directors are as below:

1. Nirmal Bhanwarlal Jain, Managing Director

The following sets forth Terms of Remuneration of Mr. Nirmal Bhanwarlal Jain, Managing Director appointed with effect from April 01, 2022. The following terms of remuneration has been approved by the Board of Directors at its meeting held on June 09, 2022 and the same was approved by the shareholders at the Annual General Meeting held on July 08, 2022. Further, the Nomination and Remuneration Committee at its meeting held on April 25, 2023 approved increase in remuneration by 20% effective from April 1, 2023.

a) Basic salary of ₹ 0.72 crore per month subject to change as may be proposed by the NRC/Board from time to time.
b) Housing/HRA: He shall be entitled to a Company provided house or house rent allowance of 20% of basic salary if house owned by him but furnished by the Company or house rent allowance of 50% of basic salary if house owned and furnished by himself.
c) Leave Travel: Expenses for him and his family, once in a year subject to a maximum of one month's basic salary.
d) Other benefits: In addition to the above, he will be entitled to claim reimbursement of expenses on account of residence telephones, two cars, business promotion, entertainment, professional development and traveling, full re-imbursement of the education expenses of his children and other incidental expenses incurred in the normal course of the Company's business, full medical expenses incurred for self and his family, including premium

for medical insurance or any other benefit as approved by the NRC. Other benefits will be subject to a maximum of ₹ 0.30 crore per month.

e) Increment: Board/NRC can determine the remuneration on an annual basis subject to increment not exceeding 25% p.a. of basic salary, allowances and perquisites.

f) Commission: He shall be paid commission as permissible under the Companies Act, 2013 ("the Act") and as determined by the Board/NRC from time to time. In addition, he will be eligible for contribution to provident funds, gratuity and superannuation and leave encashment as per the rules of the Company.

g) Other terms: He shall not be paid any sitting fees or any other salary for attending Meetings of the Board of Directors or Committees thereof.
In case of absence or inadequacy of profit in any financial year, the aforesaid remuneration and perquisites shall be paid to Mr. Nirmal Jain as minimum remuneration, subject to provisions of the Act.

h) Termination of Employment:
This employment shall be deemed to be terminated on the occurrence of death, on expiration of tenure, permanent disability or on resignation, the notice period will be as per the Company's Policy.
In the event of termination for any of the reasons specified above, he or his Nominee(s) shall be entitled to receive as a lump sum severance payment, a sum equal to 5 times the annual salary including allowances and perquisites.

2. R Venkataraman, Joint Managing Director

R Venkataraman is appointed as the Managing Director of IIFL Capital Services Limited *(formerly known as IIFL Securities Limited)*, an IIFL group company, w.e.f. March 22, 2025 and is drawing his entire remuneration from IIFL Capital Services Limited *(formerly known as IIFL Securities Limited)*. Previously, he was Managing Director of IIFL Facilities Services Limited, an IIFL group company and was drawing his entire remuneration from IIFL Facilities Services Limited and not drawing any remuneration from the Company.

Details of remuneration paid to the Executive Directors for the financial years ended March 31, 2025, March 31, 2024 and March 31, 2023, by our Company:

(₹ in crore)

Name of Director	Current financial year as on September 30, 2025	Fiscal 2025[#]	Fiscal 2024[#]	Fiscal 2023[#]
Nirmal Jain[#]	5.19	12.24	11.09	9.95
R Venkataraman	-	-	-	-

[#] *Exclusive of gratuity / leave liability.*

Remuneration of Non-Executive Director and Independent Directors

The Non-Executive Directors and Independent Directors are paid remuneration by way of sitting fees, commission and reimbursement of other expenses (travelling, boarding and lodging incurred for attending the Board/Committee meetings), except for one Non-Executive Director to whom neither sitting fees nor commission is paid by our Company and one Non-Executive Nominee Director to whom only sitting fee is paid by our Company.

The Company pays sitting fees of ₹1,00,000 (Rupees One Lakh only) per meeting to Non–Executive Directors for attending meetings of the Board, Audit Committee, Risk Management Committee and IT Strategy Committee. Further, ₹50,000 (Rupees Fifty Thousand only) per meeting for attending other Board committee meetings plus reimbursement directly related to the actual travel and out-of-pocket expenses, if any, incurred by them, except the Corporate Social Responsibility Committee meetings for which there is no sitting fees is payable.

Apart from above, the Non-Executive Directors and Independent Directors are eligible for commission as approved by the shareholders of the Company at the Annual General Meeting held on June 30, 2021. The amount of commission is based on the overall financial performance of the Company and as may be decided by the Board of Directors of the Company. The commission payable to the Non-Executive Independent Directors of the Company is as recommended by the Nomination and Remuneration Committee and as decided by the Board of the Company from time to time provided it does not exceed one percent of the net profit of the Company for the respective year.

The following table sets forth all compensation recorded by the Company to the Non-Executive and Independent Directors for the current financial year and financial years ended March 31, 2025, March 31, 2024 and March 31, 2023, by our Company:

^

^^ Bibhu Prasad Kanungo was appointed as an Additional Independent Director w.e. f. June 16, 2025 and subsequently his appointment was approved by the shareholders of the Company at the Annual General Meeting of the Company held on July 18, 2025, further, pursuant to the resolution dated December 19, 2025, he has been designated as the Chairperson of the Board.

Terms of Appointment of Independent Directors

1. Appointment

   Appointment will be for a term of five years from the date of appointment unless terminated earlier or extended, as per the provisions of this letter or applicable laws ("Term"). As an Independent Director you will not be liable to retire by rotation.

   Re-appointment for another term of maximum period of five years at the end of the current term shall be based on the recommendation of the Nomination and Remuneration Committee and subject to the approval of the Board and the shareholders by way of Special Resolution. Your reappointment would be considered by the Board based on the outcome of the performance evaluation process and you continuing to meet the independence criteria.

2. Role, duties and responsibilities

   As member of the Board you along with the other Directors will be collectively responsible for ensuring the objectives of the Board which include:

   a) The Company ensuring the requirements under the Companies Act, 2013,

   b) Responsibilities of the Board as outlined in the Corporate Governance requirements as prescribed by Stock Exchanges under the Companies Act, 2013 and the SEBI LODR Regulations,

c) Accountability under the Directors' Responsibility Statement,

d) Overseeing the maintenance of high standards of company's values and ethical conduct of business,

e) Reviewing the business plan, model and monitoring the action plan,

f) Overseeing the Company's contribution to enhancing the corporate social responsibility,

g) Act not in a manner that unfairly obstructs the functioning of the board and its committees,

h) Strive to attend all meetings of the board and its committees,

i) Abide by the 'Code for Independent Directors' as outlined in Schedule IV to section 149(8) of the 2013 Act, and duties of directors as provided in the 2013 Act (including Section 166) and under the SEBI LODR Regulations, as may be applicable from time to time.

3. Time Commitment

You shall devote such time as is prudent and necessary for the proper performance of your role, duties and responsibilities as an Independent Director.

4. Remuneration

As an Independent Director you shall be paid sitting fees for attending the meetings of the Board and the Committees of which you are a member as fixed by the Board from time to time.

In addition to the sitting fees, you may be eligible for commission as may be decided by the Board subject to the necessary approval of the shareholders of the Company.

Further, the Company may pay or reimburse to you such reasonable travel, hotel or other related expenditure, as may have been incurred by you while performing your role as an Independent Director of the Company. This could include reimbursement of expenditure incurred by you for attending Board/ Committee meetings, Annual General Meetings, Extraordinary General Meetings, court convened meetings, meetings with shareholders/ creditors/ management, induction and training (organized by the Company for Directors) and in obtaining, subject to prior consultation with the Board, professional advice from independent advisors in the furtherance of your duties as an Independent Director.

5. Insurance

The Company has obtained Directors' and Officers' Liability Insurance policy and you will be covered under the same.

6. Code of Conduct

As an Independent Director of the Company, you agree to comply with the Code of Conduct for Non-Executive Directors (NEDs). For your reference, the Code of Conduct for Non-Executive Directors is outlined below:

a) Non-Executive Directors of a Company will always act in the interest of the Company and ensure that any other business or personal association which they may have, does not involve any conflict of interest with the operations of the Company and his/ her role therein,

b) Non-Executive Directors will comply with all applicable laws and regulations of all the relevant regulatory and other authorities as may be applicable to such Directors in their individual capacities,

c) Non-Executive Directors will strictly safeguard the confidentiality of all information received by them by virtue of their position.

d) Unless specifically authorised by the Company, you shall not disclose company and business information to public constituencies such as the media, the financial community, employees, shareholders, agents,

franchisees, dealers, distributors and importers.

e) Your obligation of confidentiality shall survive termination or cessation of your directorship with the Company.

f) We would also like to draw your attention to the applicability of both, Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992 and the Code of Conduct on Prevention of Insider Trading Policy, prohibiting disclosure or use of unpublished price sensitive information.

Additionally, you shall not participate in any business activity which might impede the application of your independent judgment in the best interest of the Company. You are required to sign a confirmation of acceptance of the Code of Conduct for NEDs on annual basis.

7. Familiarization program

The Company shall, if required, conduct formal familiarization program for its Independent Directors.

8. Performance Appraisal / Evaluation Process

As a member of the Board, your performance as well as the performance of the entire Board and its Committees shall be evaluated annually. Evaluation of each director shall be done by all the other directors. The criteria for evaluation shall be determined by the Nomination and Remuneration Committee and disclosed in the Company's Annual Report.

However, the actual evaluation process shall remain confidential and shall be a constructive mechanism to improve the effectiveness of the Board / Committee.

9. Disclosures, other directorships and business interests

During the Term, you agree to promptly notify the Company of any change in your directorships, and provide such other disclosures and information as may be required under the applicable laws. You also agree that upon becoming aware of any potential conflict of interest with your position as Independent Director of the Company, you shall promptly disclose the same to the Chairman and the Company Secretary. Please confirm that as on date of this letter, you have no such conflict of interest issues with your existing directorships. Further, you are required to obtain prior consent of the Company in case you intent to join the board of any companies engaged in the same sphere of activities that of IIFL group.

During your term, you agree to promptly provide a declaration under Section 149(7) of the 2013 Act, every year and upon any change in circumstances within 20 days which may affect your status as an Independent Director.

10. Changes of personal details

During the term, you shall promptly intimate the Company Secretary and the Registrar of Companies in the prescribed manner, of any change in address or other contact and personal details provided to the Company.

11. Termination

Your directorship on the Board of the Company shall terminate or cease in accordance with law. Apart from the grounds of termination as specified in the 2013 Act, your directorship may be terminated in case of violation of any provision of the Code of Conduct as applicable to Non- Executive Directors.

You may resign from the directorship of the Company by giving a notice in writing to the Company stating the reasons for resignation and also to Registrar of Companies (RoC). The resignation shall take effect from the date on which the notice is received by the Company or the date, if any, specified by you in the notice, whichever is later.

If at any stage during the Term, there is a change that may affect your status as an Independent Director as envisaged in Section 149(6) of the 2013 Act or, if applicable, you fail to meet the criteria for "independence" under the provisions of the SEBI LODR Regulations, you agree to promptly submit your resignation to the Company with

effect from the date of such change.

12. Co-operation

In the event of any claim or litigation against the Company, based upon any alleged conduct, act or omission on your part during your Term, you agree to render all reasonable assistance and cooperation to the Company and provide such information and documents as are necessary and reasonably requested by the Company or its counsel.

13. Miscellaneous

This letter represents the entire understanding, and constitutes the whole agreement, in relation to your appointment and supersedes any previous agreement between yourself and the Company with respect thereto and, without prejudice to the generality of the foregoing, excludes any warranty, condition or other undertaking implied at law or by custom.

No waiver or modification of this letter shall be valid unless made in writing and signed by you and the Company.

As per the provisions of the Companies Act, 2013 and SEBI LODR, the terms of this letter along with your detailed profile shall be disclosed on the website of the Company and the relevant stock exchanges.

Independent Auditors' Review Report on Consolidated Unaudited Quarterly and Half yearly Financial Results of the Company Pursuant to the Regulation 33 and 52 of the Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

TO THE BOARD OF DIRECTORS OF
IIFL Finance Limited

Introduction

We have reviewed the accompanying Statement of Consolidated Unaudited Financial Results of IIFL Finance Limited ("the Parent") and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group") for the quarter and half year ended September 30, 2025 ("the Statement"), being submitted by the Parent pursuant to the requirement of Regulation 33 and 52 of the Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("the Listing Regulations").

This Statement, which is the responsibility of the Parent's Management and approved by the Parent's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.

Scope of the Review

We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33(8) of the Listing Regulations, to the extent applicable.

The Statement includes the results of the following entities:

Sr No	Name of the Entities	Relationship
1	IIFL Finance Limited	Holding Company
2	IIFL Home Finance Limited (IHFL)	Subsidiary
	IIHFL Sales Limited	Subsidiary of IHFL
3	IIFL Samasta Finance Limited	Subsidiary
4	IIFL Fintech Private Limited (formerly IIFL Open Fintech Private Limited)	Subsidiary

Conclusion

Based on our review conducted and procedures performed as stated in paragraph above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standard and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement or that it has not been prepared in accordance with the relevant prudential norms issued by the Reserve Bank of India in respect of income recognition, asset classification, provisioning and other related matters.

G. M. KAPADIA & CO. Chartered Accountants MUMBAI

IIFL FINANCE LIMITED

3. The above consolidated financial results for the quarter and half year ended September 30, 2025, have been reviewed and recommended by the Audit Committee and approved by the Board of Directors of the Company at its meeting held on October 30, 2025. The Joint Statutory Auditors of the Company have carried out a limited review of the aforesaid results and have issued an unmodified conclusion.

4. These consolidated financial results have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standards 34 "Interim Financial reporting" ("Ind AS 34") as prescribed under Section 133 of the Companies Act, 2013 read with relevant Rules issued there under and other accounting principles generally accepted in India and in accordance with the requirements of Regulation 33 and 52 of the Securities and Exchange Board of India ("SEBI") (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.

5. The above consolidated financial results of the group include standalone financial results of the holding company, consolidated financial results of one subsidiary and standalone financial results of two subsidiaries.

6. During the quarter ended September 30, 2025, the Company allotted 60,211 equity shares (previous quarter: 4,13,897) having face value of ₹ 2/- each on exercise of stock options under the Employee Stock Option Scheme(s).

7. The Group's main business is financing and investing activities. All other activities revolve around the main business. Further all activities are carried out within India. As such there are no separate reportable segments as per the Indian Accounting Standard (Ind AS) 108 on Operating Segment.

8. The Indian Parliament has approved the Code on Social Security, 2020, which would impact the contributions by the company towards Provident Fund and Gratuity. The effective date from which the changes are applicable is yet to be notified and the final rules are yet to be framed. The group will carry out an evaluation of the impact and record the same in the financial results in the period in which the code becomes effective and related rules are published.

9. During January 2025, the Income Tax Department conducted a search under the provisions of the Income Tax Act, 1961, at the registered office and other premises of the Holding Company and IIFL Home Finance Limited (subsidiary).The Income-tax department has now issued notice u/s 158BC on October 06, 2025, requiring us to furnish return of income for Block period from April 01, 2018 to March 25, 2025. We have been given a 60-day window from the date of issue to report any income to tax, if applicable, for the specified block period. The company is in the process of compiling the necessary information to ensure that we meet the deadline and comply with the requirements set forth by the Income-tax department.

10. The Holding Company had certain AIF investments that were due to mature in June 2024. In March 2024, the Holding Company requested the AIF to do in-specie distribution of assets (i.e.: debentures of underlying SPV companies) in lieu of its investment in the AIF. Subsequently, these debentures were assigned to an ARC, and the book value of the resulting Security Receipts (SRs), based on the same underlying assets as of September 30, 2024, was ₹ 586.50 crores. The RBI Circular dated December 19, 2023, on "Investments in Alternative Investment Funds (AIFs)" required a 100% provision of AIF investments if they were not liquidated within 30 days of the circular being applicable. To comply with the spirit of this circular, the management had decided to make a provision equivalent to 100% of the book value of these SRs, accordingly the same has been disclosed under exceptional items for the year ended March 31, 2025.

11. The Secured Non-Convertible Debentures are secured by way of a first pari passu charge on receivables of the group, both present and future, book debts, loans and advances and current assets of the group, except those receivables present and/or future specifically and exclusively charged in favor of certain existing charge holders and specified immovable property such that a security cover of 100% or higher (up to 125%) as per the terms of the offer document is maintained till the time of maturity.

12. Disclosure in compliance with Regulation 52(4) of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015 is attached as **Annexure 1**.

13. The figures for the quarter ended September 30, 2025, and quarter ended September 30, 2024, are the balancing figures between unaudited figures in respect of the half year ended September 30, 2025, and September 30, 2024, and the unaudited figures of quarter ended June 30, 2025, and unaudited figures of quarter ended June 30, 2024, respectively.

14. Previous period/ year figures have been regrouped/ reclassified to make them comparable with those of the current period.

Independent Auditors' Review Report on Standalone Unaudited Quarterly and Half yearly Financial Results of the Company pursuant to the Regulation 33 and 52 of the Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

TO THE BOARD OF DIRECTORS OF
IIFL Finance Limited

Introduction

We have reviewed the accompanying statement of standalone unaudited financial results of IIFL Finance Limited ("the Company") for the quarter and half year ended September 30, 2025 ("the Statement"), being submitted by the Company pursuant to the requirement of Regulation 33 and 52 of the Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended ("the Listing Regulations").

This Statement, which is the responsibility of the Company's Management and approved by the Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.

Scope of the Review

We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

Conclusion

Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement of standalone unaudited financial results prepared in accordance with applicable accounting standards and other recognized accounting practices and policies has not disclosed the information required to be disclosed in terms of the Listing Regulations including the manner in which it is to be disclosed, or that it contains any material misstatement or that it has not been prepared in

IIFL FINANCE LIMITED

3. The above standalone financial results for the quarter and half year ended September 30, 2025, have been reviewed and recommended by the Audit Committee and approved by the Board of Directors of the Company at its meeting held on October 30, 2025. The Joint Statutory Auditors of the Company have carried out a limited review of the aforesaid results and have issued an unmodified conclusion.

4. These standalone financial results have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial reporting" ("Ind AS 34") as prescribed under Section 133 of the Companies Act, 2013 read with relevant Rules issued there under, RBI Guidelines and other accounting principles generally accepted in India and in accordance with the requirements of Regulation 33 and 52 of the Securities and Exchange Board of India ("SEBI") (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.

5. During the quarter ended September 30, 2025, the Company allotted 60,211 equity shares (previous quarter: 4,13,897) having face value of ₹ 2/- each on exercise of stock options under the Employee Stock Option Scheme(s).

6. The Company's main business is financing and investing activities. All other activities revolve around the main business. Further all activities are carried out within India. As such there are no separate reportable segments as per Indian Accounting Standard (Ind AS) 108 on operating segments.

7. The Indian Parliament has approved the Code on Social Security, 2020, which would impact the contributions by the company towards provident fund and gratuity. The effective date from which the changes are applicable is yet to be notified and the final rules are yet to be framed. The Company will carry out an evaluation of the impact and record the same in the financial results in the period in which the code becomes effective and related rules are published.

8. The Company is a Non-Banking Financial Company registered with the RBI and is classified as a NBFC-Middle Layer (NBFC-ML) in accordance with the RBI (NBFC - Scale Based Regulation) Directions 2023.

9. During January 2025, the Income Tax Department conducted a search under the provisions of the Income Tax Act, 1961, at the registered office and other premises of the Company & IIFL Home Finance Limited (subsidiary). The Income-tax department has now issued notice u/s 158BC on October 06, 2025, requiring us to furnish return of income for Block period from April 01, 2018 to March 25, 2025. We have been given a 60-day window from the date of issue to report any income to tax, if applicable, for the specified block period. The company is in the process of compiling the necessary information to ensure that we meet the deadline and comply with the requirements set forth by the Income-tax department.

10. The Company had certain AIF investments that were due to mature in June 2024. In March 2024, the Company requested the AIF to do in-specie distribution of assets (i.e.: debentures of underlying SPV companies) in lieu of its investment in the AIF. Subsequently, these debentures were assigned to an ARC, and the book value of the resulting Security Receipts (SRs), based on the same underlying assets as of September 30, 2024, was ₹ 586.50 crores. The RBI Circular dated December 19, 2023, on "Investments in Alternative Investment Funds (AIFs)" required a 100% provision of AIF investments if they were not liquidated within 30 days of the circular being applicable. To comply with the spirit of this circular, the management had decided to make a provision equivalent to 100% of the book value of these SRs, accordingly the same has been disclosed under exceptional items for the year ended March 31, 2025.

INDEPENDENT AUDITORS' REPORT

To,
The Members of
IIFL Finance Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of IIFL Finance Limited (hereinafter referred to as the 'Holding Company") its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Cash Flows statement for the year then ended, and notes to the Consolidated Financial Statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate / consolidated financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2025, of consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of consolidated financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditors' Responsibilities for the Audit of the consolidated financial statements" section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained together with the audit evidence obtained by the other auditors in terms of their reports referred to in Other Matter section below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Emphasis of Matter

We draw attention to Note 42.3 to the consolidated financial statements, which describe the matter relating to excess remuneration as compared to minimum remuneration specified under Schedule V to the Act, to the extent of Rs. 9.88 crore paid to the Managing Director of the Holding Company as a result of inadequate profit for the year, and subsequent resolution passed by the Board of Directors of the Holding Company ratifying the same. As stated therein, approval by the Board of Directors of the Holding Company is subject to approval by the shareholders of the Holding Company, which is proposed to be taken at the ensuing Annual General Meeting by way of a special resolution. Excess remuneration paid is accounted as expenses for the year and pending the approval, the Managing Director is holding the amount in trust for the Holding Company.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment and based on the consideration of the reports of the other auditors on the separate / consolidated financial statements of the subsidiaries, were of most significance in our audit of the consolidated financial statements for the financial year ended March 31, 2025. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We / The other auditors of the subsidiaries have determined the matters described below to be the key audit matters.

A. Key audit matters of the Holding Company – IIFL Finance Limited

Sr. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
1	**Information technology (IT) systems used in financial reporting process.** The Holding Company's operational and financial reporting processes are dependent on IT systems due to large volume of transactions that are processed daily. The gaps in the IT general control environment could result in a misstatement of the financial accounting. Proper IT general and application controls are essential to ensure accurate, complete, and consistent data processing for reliable financial reporting. We therefore identified IT systems and controls with reference to standalone financial statements as a key audit matter for the Holding Company.	We obtained an understanding of the Holding Company's IT control environment relevant to the audit. We tested the design, implementation and operating effectiveness of the Holding Company's General IT controls over the key IT systems which are critical to financial reporting. For these elements of the IT infrastructure the areas of our focus included access security (including controls over privileged access), program change controls, database management and network operations. In particular: 1. We tested the design, implementation, and operating effectiveness of the Holding Company's general IT controls over the IT systems relevant to financial reporting. This included evaluation of Holding Company's controls over segregation of duties and access rights being provisioned / modified based on duly approved requests, access for exit cases being revoked in a timely manner and access of all users being recertified during the period of audit. 2. We also tested key automated business cycle controls and logic for the reports generated through the IT infrastructure that were relevant for financial reporting or were used in the exercise of internal financial controls with reference to financial statements. Our tests included testing of the compensating controls or alternate procedures to assess whether there were any unaddressed IT risks that would materiality impact the financial statements.
2	**Allowances for Expected credit loss on Loans ("ECL"):** As on March 31, 2025 as per the standalone financial statements of the Holding Company, the carrying value of the loan assets measured at amortised cost and fair value through other comprehensive income aggregated to Rs. 22,867 crores (net of allowance of expected credit loss of Rs. 437 crores) out of the total assets amounting to Rs. 32,114 crores. Since the loans and advances form a major portion of the Holding Company's assets, and due to the significance of the judgments used in classifying loans and advances into various stages and identifying loans which are	Our audit approach was a combination of test of internal controls and substantive procedures which included the following: 1. Evaluating the Holding Company's accounting policies, as approved by their Board of Directors, for impairment of loans. 2. Obtained an understanding of the modelling techniques / models adopted by the Holding Company including the key inputs and assumptions.

Sr. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
	measured at fair value through other comprehensive income as stipulated in Ind AS 109 and the management estimation of the related impairment provisions, this is considered to be a key audit matter. The Holding Company's impairment allowance is derived from estimates including the historical default and loss ratios. Management exercises judgement in determining the quantum of loss based on a range of factors. The most significant areas are: - Segmentation of loan book - Identification of loans to be measured at fair value through other comprehensive income - Determination of exposure at default - Qualitative and quantitative factors used in staging criteria for loans - basis of estimation and calculation of probability of default / Loss given default for each segment - Consideration of probability weighted scenarios and forward looking macro-economic factors The application of ECL model requires several data inputs. This increases the risk of completeness and accuracy of the data that has been used to create assumptions in the model. Included in Note 38A.3 to the attached consolidated financial statements for disclosures.	3. We assessed the design and implementation of key internal financial controls with respect to computation of provisioning requirements in terms of RBI guidelines 4. Tested the design and effectiveness of controls related to: • The completeness and accuracy of Exposure at Default ("EAD") and the classification of such exposure into stages, as per the Board-approved policy. • The accuracy and relevance of information used in estimating Probability of Default ("PD") and Loss Given Default ("LGD"). • Tested the ECL model, including assumptions, underlying computation of ECL provision performed by the Holding Company on sample basis to assess the arithmetical accuracy. • Completeness and accuracy of the staging of the loans and the underlying data based on which the ECL estimates were computed. • We also made enquiries with the management in respect of justification and quantum of the management overlay.

B. Key audit matters from consolidated financial statements of IIFL Home Finance Limited ("IHFL") (Subsidiary Company)

Sr. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
A	**Key Audit Matters for Holding Company – IIFL Home Finance Limited**	
1	**Impairment of loans as at the balance sheet date (including determination of expected credit losses) (as described in note 3(k) of the attached consolidated financial statements)** IHFL provides for impairment of its loans using the Expected Credit Loss ("ECL") model. ECL involves an estimation of probability weighted loss on financial assets over their life, considering reasonable and supportable information about past events, current conditions, and forecasts of future economic conditions and other factors which could impact the credit quality of the IHFL's loans. In the process, a significant degree of judgement has been applied by the management for:	The audit procedures followed by the auditors of IHFL included the following: • Considered the IHFL's accounting policies for impairment of loans and assessed compliance of the policies with Ind AS 109: Financial Instruments and the governance framework approved by the Board of Directors pursuant to applicable Reserve Bank of India guidelines, ("the RBI Guidelines"). • Evaluated the reasonableness of the management estimates by understanding the process of ECL estimation and related

A	**Key Audit Matters for Holding Company – IIFL Home Finance Limited**	
	a) Defining qualitative/ quantitative factors for 'significant increase in credit risk' ("SICR") and 'default'. b) Grouping of borrowers (retail loan portfolio) based on homogeneity for estimating probability of default, loss given default and exposure at default; c) Determining effect of less frequent past events on future probability of default. d) Determining macro-economic factors impacting credit quality of loans. In view of the high degree of management's judgement involved in estimation of ECL, impairment of loans as at the balance sheet date (including expected credit losses) is a key audit matter.	assumptions. Tested the internal controls around extraction, validation and computation of the input data used in such estimation. • Assessed the criteria for staging of loans based on their past-due status to check compliance with requirement of Ind AS 109. Tested a sample of performing (stage 1) loans to assess whether any SICR or loss indicators were present requiring them to be classified under stage 2 (i.e. default in repayment is within the range of 31 to 90 days) or stage or 3 (i.e. the default in repayment is more than 90 days). • Tested the arithmetical accuracy of computation of ECL provision performed by IHFL. • Assessed the adequacy of disclosures included in the consolidated financial statements with the relevant requirements of Ind AS 107 and 109.
2	The auditors of IIFL Home Finance Limited have determined that there are no other key audit matters to communicate in our report.	
B	**Key Audit Matter for subsidiary company – IIHFL Sales Limited**	
1	No Key audit matters for subsidiary company IIHFL Sales Limited reported by their auditor for the year ended March 31, 2025.	

C. Key audit matters from the standalone financial statements of IIFL Samasta Finance Limited ("ISFL") (Subsidiary Company)

Sr. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
1	**Impairment of loans (Expected Credit Losses):** Refer note 3 (k) of material accounting policies of the attached consolidated financial statements. As at 31 March 2025 as per the standalone financial statements of the ISFL, it has total gross loan assets of Rs. 7,186.13 crores (2024: Rs. 9,708.70 crores) against which an Expected Credit Loss ("ECL") of Rs. 351.33 crores (2024 Rs. 286.44 crores) has been accrued. Included in note 38A.3 for credit disclosures of the attached consolidated financial statements. The ECL approach as required under Ind AS 109, Financial instruments, involves high degree of complexity and requires significant judgement of the management of ISFL. The Management is required to determine the ECL that may occur over either a 12-month period or the remaining life of an asset, depending on the categorization of the individual asset. The key areas of judgment include:	The Audit procedures followed by the auditors of ISFL included, but were not limited to the following to assess the appropriate of management's judgement and estimates used in the impairment analysis: a) Evaluated ISFL's accounting policies for estimation of expected credit loss on loan assets in accordance with the requirements of Ind AS 109, Financial Instruments. b) Obtained an understanding of the modelling techniques adopted by ISFL including the key inputs and assumptions. Since modelling assumptions and parameters are based on historical data, we assessed whether historical experience was representative of current circumstances and was relevant in view of the recent impairment losses incurred within the portfolios.

Sr. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
	1. Categorization of loans in Stage 1, 2 and 3 based on identification of: a) exposures with Significant Increase in Credit Risk ("SICR") since their origination and b) Individually impaired / default exposures. 2. Techniques used to determine Loss Given Default ("LGD") and Probability of Default ("PD") to calculate an ECL are based on past experience and 3. The impact of different future macroeconomic conditions in the determination of ECL. These parameters are derived from ISFL's internally developed statistical models, historical data and a change in such models or assumptions could have a material impact on the accompanying financial statements. These factors required the models to be reassessed based on the available information including the additional risk profiling due to the geographical, political and economic risk to measure the ECL. Management of ISFL has made a number of interpretations and assumptions when designing and implementing models that are compliant with the standard. The accuracy of data flows and the implementation of related controls is critical for the integrity of the estimated impairment provisions. Considering the significance of the above matter to the financial statements and the significant auditor attention required to test such complex accounting estimates, we have identified this as a key audit matter for current year audit.	c) Assessed the design and implementation and tested the operating effectiveness of controls over the modelling process including governance over monitoring of the model and approval of key assumptions. d) Evaluated the appropriateness of ISFL's process of determination of significant increase in credit risk in accordance with the applicable accounting standard and the basis for classification of exposures into various stages. e) Obtained the approved policy of Board of Directors of ISFL, if any, to understand the relief measures sanctioned to various class of borrowers in accordance with the directions given by the RBI and tested, on sample basis, the compliance with respect to asset classification and provisioning norms as per such directions. f) The company has an automated system of computing ECL. We have tested the system computed ECL by performing following procedures: • Evaluated management's groupings of borrowers on the basis of different product lines and customer segments with different risk characteristics. • Tested classification of loans into various categories based on their past due status and other loss indicators. On a sample basis, inspected the repayment schedule from the underlying borrower agreements and collection made on due dates; • Tested the design and operating effectiveness of key controls (including application controls) over approval, recording and monitoring. • Testing of Application controls includes testing of automated controls, reports, and system reconciliations. • Performed test of details of the input information used in ECL computation on a sample basis. • Tested the arithmetical accuracy of the computation. • Performed analytical procedures by determining various ratios or percentage-based measures to review overall reasonableness of the estimate determined by the management.

D. No key audit matters for subsidiary company IIFL Open Fintech Private Limited were reported by their auditor for the year ended March 31, 2025.

Information Other than the Financial Statements and Auditors' Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Annual report, but do not include the consolidated financial statements, standalone financial statements and our auditors' reports thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements / standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 ("The Auditors Responsibilities Relating to Other Information").

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for matter stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective company's to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the respective company or to cease operations, or has no realistic alternative but to do so.

The respective Management or Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the respective company.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement

Sharp & Tannan Associates * Chartered Accountants * ICAI Regn. No. 109983W

G. M. KAPADIA & CO. * Chartered Accountants * MUMBAI

resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company and its subsidiary companies which are companies incorporated in India, have adequate internal financial controls system with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

The consolidated financial statement includes consolidated audited financial statement of one subsidiary and standalone audited financial statements of two subsidiary companies, which have been audited by the other auditors and these statements reflect the total assets of Rs. 37,689.56 Crore as at March 31, 2025, total revenue of Rs. 6,235.01 Crore, total net profit of Rs. 987.71 Crore and total comprehensive income of Rs. 977.50 Crore and net cash outflows Rs. 67.55 Crore for the year ended on that date as considered in the consolidated financial statements.

Sharp & Tannan Associates * Chartered Accountants * ICAI Regn No 109983W

G. M. KAPADIA & CO. * Chartered Accountants * MUMBAI

These financial statements have been audited by the other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiary companies and our report in terms of sub-section (3) and (11) of section 143 of the Act, in so far as it relates to the aforesaid subsidiary companies is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

The consolidated financial statements includes the comparative financial information for the year ended March 31, 2024 which were audited by one of the joint auditors and one of the predecessor auditors and they have issued unmodified opinion vide their report dated June 15, 2024.

Our opinion is not modified in respect of these other matters.

Report on Other Legal and Regulatory Requirements

1. As required by section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate / consolidated financial statements and the other financial information of subsidiaries, as noted in the 'other matter' paragraph, to the extent applicable, we report that:

   a) We/the other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

   b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept by the Holding Company so far as it appears from our examination of those books and reports of other auditors.

   c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated statement of changes in equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

   d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended.

   e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2025 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary companies, none of the directors of the Group companies is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls with reference to consolidated financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in '**Annexure**' which is based on the auditors' report of the holding company and subsidiary companies incorporated in India. wherein we have expressed an unmodified opinion.

   g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, we report that the remuneration paid to the managing director of the Holding Company is in excess of the limit laid down under section 197 of the Act. In this regard we invite attention to note no 42.3 to the consolidated financial statements and Emphasis of Matter section of this report. In our opinion and based on the consideration of reports of other auditors of the subsidiaries, the managerial remuneration for the year ended March 31, 2025 has been paid by the subsidiaries to their directors is in accordance with the provisions of section 197 read with Schedule V to the Act; and

   h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, as amended,("The Rules") in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate / consolidated financial statements and the other financial information of the subsidiaries, as noted in the 'Other matter' paragraph:

i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group in its consolidated financials statements– Refer Note 39 to the consolidated financial statements.

ii. Provisions have been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.

iii. There has been no delay in transferring amounts required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies incorporated in India.

iv. (a) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of their knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiaries ('Ultimate Beneficiaries) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries- (Refer Note no. 41(iv)(A);

(b) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of their knowledge and belief, no funds have been received by the respective Holding Company or any of such subsidiaries from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries -(Refer Note no. 41(iv)(B); and

(c) In our opinion and based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditors' notice that has caused us or the other auditors to believe that the representations under sub-clause (a) and (b) contain any material mis-statement.

v. The final dividend proposed in the previous year, declared and paid by the one subsidiary company during the year, is in accordance with section 123 of the Act to the extent it applies to payment of dividend. Further, during the year the Holding Company and the subsidiaries (other than refer above) which are incorporated in India have not declared / paid any dividend, hence reporting under rule 11(f) of the Rules is not applicable to that extent.

vi. Based on our examination which included test checks, the holding company and based on the consideration of the reports of the other auditors on the consolidated financial statements and / or separate financial statements, as the case may be, of subsidiary companies, the Group has used accounting software for maintaining its books of accounts for the financial year ended March 31, 2025, which has a feature of recording Audit Trail (edit log facility) and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we and as reported by other auditors of subsidiary companies, did not come across any instance of audit trail feature being tempered with and the audit trail (edit log) has been preserved by the holding company and subsidiary companies (as reported by the other auditors of subsidiary companies) as per the statutory requirements for record retention.

Annexure referred to paragraph 1(f) under the heading "Report on Other Legal and Regulatory Requirements" in our report of even date to the members of IIFL Finance Limited on the consolidated financial statement for the year ended March 31, 2025.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

Opinion

In conjunction with our audit of the consolidated financial statements of the IIFL Finance Limited ("Holding Company") as of and for the year ended March 31, 2025, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company.

In our opinion and based on the consideration of the audit reports of the auditors of subsidiary companies, the Holding Company and its subsidiary companies which are companies incorporated in India, (the Holding Company and its subsidiaries together referred to as "the Group"), have, in all material respects, an adequate internal financial controls system with reference to consolidated financial statements and such controls were operating effectively as at March 31, 2025, based on the criteria for internal financial controls with reference to consolidated financial statements established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("The Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI").

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies which are incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the internal financial controls over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note issued by ICAI. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility for the Audit of the Internal Financial Controls with reference to consolidated financial statements

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Group, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of Group.

Sharp & Tannan Associates Chartered Accountants ICAI Regn No 109983W

G. M. KAPADIA & CO. Chartered Accountants MUMBAI

Meaning of Internal Financial Controls with reference to consolidated financial statements

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with reference to consolidated financial statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matter

Our aforesaid reports under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to the consolidated financial statement, in so far as it relates to the consolidated financial statement of one subsidiary and separate financial statements of two subsidiaries incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matter.

Notes:

1. **Share application money pending allotment**: Money received for share application for which allotment is pending.
2. **Capital reserves**: Capital reserve is created on account of composite Scheme of arrangement.
3. **Securities premium reserve**: The amount received in excess of face value of the equity shares is recognised in securities premium reserve. Share issue expense on account of right issue during the year have been utised from the secutities premium reserve.
4. **General reserve**: The reserve can be distributed/utilised by the Group, in accordance with the Companies Act, 2013
5. **Special reserve**: Pursuant to section 45-IC of the Reserve Bank of India Act 1934, being 20% of the profit after tax for the year of IIFL Finance Limited and IIFL Samasta Finance Limited has been transferred from Retained Earnings to Special Reserve.
6. **Special reserve:** Pursuant to section 29C of the National Housing Bank Act, 1987 the Housing Finance Company ("HFC") is required to transfer atleast 20% of its net profit every year to a reserve before any dividend is declared.
7. **Capital redemption reserve**: This reserve has been created on redemption of preference shares capital as per section 55 of the Companies Act, 2013.
8. **Debenture redemption reserve**: Pursuant to Section 71 of the Companies Act, 2013 read with Rule 18 of the Companies (Share Capital and Debentures) Rules, 2014, Non Banking Finance Company ("NBFC") and Housing Finance Company ("HFC") are required to create Debenture Redemption Reserve of a value equivalent to 25% of the debentures offered through public issue. Pursuant to Ministry of Corporate Affairs circular dated August 16, 2019, reserve is not required to be created for the Non Convertible Debentures going forward.
9. **Retained earnings**: These are the profits that the Group has earned till date, less any transfers to Statutory Reserve, Debenture Redemption Reserve, General Reserve, Dividend distribution and capital redemption reserve.
10. **Share options outstanding account**: The employee stock options reserve represents reserve in respect of equity settled share options granted to the employees of the Company and its Group in pursuance of employee stock options plan.
11. **Effective portion of cash flow hedges**: This reserve refers to changes in the fair value of Derivative Financial Contracts which are designated as effective Cash Flow Hedge.
12. **Remeasurements of defined benefit**: This reserve refers to remeasurement of gains and losses arising from experience adjustments, changes in actuarial assumptions and return on plan assets of the defined benefit plan.

Note 1. CORPORATE INFORMATION

Company overview

IIFL Finance Limited (the "Company/ Parent/ Holding Company") is a middle layer Non-Banking Financial Company not accepting public deposits registered with the Reserve Bank of India ("the RBI") under section 45-IA of the Reserve Bank of India Act, 1934 and primarily engaged in financing and related activities. The Company had received the certificate of registration from RBI on March 06, 2020, enabling the Company to carry on business as a Non-Banking Financial Company. The Company offers a broad suite of financial products such as mortgage loan, gold loan, loan against securities loans to small & medium enterprise ("SME"), Micro finance loans ("MFI") and digital finance loans etc.

Note 2. Basis of consolidation

i. Basis of preparation of financial statements

The consolidated financial statements relate to IIFL Finance Limited (the "Company") and its subsidiary/group companies (together hereinafter referred to as "Group"). The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

Control is achieved when the Group has:

- Power over the investee,
- Is exposed or has rights to variable returns from its involvement with the investee, and
- Has the ability to use its power over investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee.
- Rights arising from other contractual arrangements.
- The Group's voting rights and potential voting rights.
- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

ii. Principles of consolidation:

a) The consolidated financial statements of the Group have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 and relevant amendment rules issued thereafter ("Ind AS") on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period as explained below, the relevant provisions of the Companies Act, 2013 (the "Act") and the guidelines issued by the Reserve Bank of India ("RBI") and National Housing Bank ("NHB") to the extent applicable.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/ or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as value in use in Ind AS 36.

Fair value measurements under Ind AS are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date;
- Level 2 inputs are inputs, other than quoted prices included within level 1, (that are not traded in active market) that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the valuation of assets or liabilities.

b) The effects of all intra-Group transactions and balances have been eliminated on consolidation.

c) The consolidated financial statements of the subsidiary companies used in the consolidation are drawn up to the same reporting date as that of the Group, March 31, 2025.

d) The consolidated financial statements of the Group have been combined on a line-by-line basis by adding together like items of assets, liabilities, income and expenses, after eliminating intra-group balances, intra-group transactions and resulting unrealised profits or losses, unless cost cannot be recovered.

e) Business combinations: Business combinations are accounted for using the acquisition method. At the acquisition date, identifiable assets acquired, and liabilities assumed are measured at fair value. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition date fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. The consideration transferred is measured at fair value at acquisition date and includes the fair value of any contingent consideration. However, deferred tax asset or liability and any liability or asset relating to employee benefit arrangements arising from a business combination are measured and recognised in accordance with the requirements of Ind AS 12, Income Taxes and Ind AS 19, Employee Benefits, respectively. Where the consideration transferred exceeds the fair value of the net identifiable assets acquired and

liabilities assumed, the excess is recorded as goodwill. Alternatively, in case of a bargain purchase wherein the consideration transferred is lower than the fair value of the net identifiable assets acquired, and liabilities assumed, the difference is recorded as a gain in other comprehensive income and accumulated in equity as capital reserve. The costs of acquisition excluding those relating to issue of equity or debt securities are charged to the Statement of Profit and Loss in the period in which they are incurred Business combinations involving entities under common control are accounted for using the pooling of interests method. The net assets of the transferor entity or business are accounted at their carrying amounts on the date of the acquisition subject to necessary adjustments required to harmonise accounting policies.

f) Goodwill is an asset representing the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognised. Goodwill is initially measured at cost, being the excess of the consideration transferred over the net identifiable assets acquired and liabilities assumed, measured in accordance with Ind AS 103 – Business Combinations.

Goodwill is considered to have indefinite useful life and hence is not subject to amortisation but tested for impairment at least annually. After initial recognition, goodwill is measured at cost less any accumulated impairment.

Any impairment loss on goodwill is recognised in the Statement of Profit and Loss. An impairment loss recognised on goodwill is not reversed in subsequent periods.

For the purpose of impairment testing, goodwill acquired in a business combination, is from the acquisition date.

The excess of cost to the Group of its investments in the subsidiary companies over its share of equity of the subsidiary companies, at the dates on which the investments in the subsidiary companies are made, is recognised as 'Goodwill' being an asset in the consolidated financial statements. Alternatively, where the share of equity in the subsidiary companies as on the date of investment is in excess of cost of investment of the Group, it is recognised as 'Capital Reserve' and shown under the head 'Other equity', in the consolidated financial statements. Goodwill/ Capital reserve has been netted off and disclosed in the consolidated financial statements. Goodwill arising on consolidation is not amortised but tested for impairment.

g) Non-controlling Interest in the net assets of the consolidated subsidiaries consist of the amount of equity attributable to the minority shareholders at the date on which investments in the subsidiary companies were made and further movements in their share in the equity, subsequent to the dates of investments. Net profit and loss/ other comprehensive income ("OCI") for the year of the subsidiaries attributable to non-controlling interest is identified and adjusted against the profit after tax/ other comprehensive income ("OCI") of the Group in order to arrive at the income attributable to shareholders of the Group.

h) Profit or loss and each component of other comprehensive income ("OCI") are attributed to the equity holders of the Holding Company and to the non-controlling interests, if any.

iii. List of subsidiaries consolidated

The individual Balance Sheet as at March 31, 2025, Statement of Profit and Loss and cash flow statement for the year ended March 31, 2025 of following subsidiaries are included in consolidation:

Name of the entity	Relationship	Country of Incorporation	% of holding and voting power either directly or indirectly through subsidiary	
			As at March 31, 2025	As at March 31, 2024
IIFL Home Finance Limited (HFC) (Consolidated)	Direct Subsidiary	India	79.59%	79.59%
IIFL Samasta Finance Limited (Samasta)	Direct Subsidiary	India	99.56%	99.56%
IFL Open Fintech Private Limited	Direct Subsidiary	India	100.00%	51.02%

iv. Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with Indian Accounting Standards ("Ind AS") requires the management to make estimates, judgments, and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the consolidated financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated financial statements.

The Financial Statements are presented in Indian rupees which is determined to be functional currency of the Group and the currency of primary economic environment in which the Group operates.

v. Statement of compliance

The consolidated financial statements of the Group have been prepared in accordance with the provisions of the Act and the Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 issued by Ministry of Corporate Affairs in exercise of the powers conferred by section 133 read with sub-section (1) of section 210A of the Companies Act, 2013 along with the applicable guidelines issued by Reserve Bank of India ("RBI") and National Housing Bank ("NHB"). In addition, the guidance notes/ announcements issued by the Institute of Chartered Accountants of India ("ICAI") are also applied except where compliance with other statutory promulgations require a different treatment.

vi. Presentation of financial statements

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Division III to Schedule III to the Act applicable for Non-Banking Finance Companies

("NBFC"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the consolidated Financial Statements along with the other notes required to be disclosed under the notified Accounting Standards and regulations issued by the RBI and NHB.

Note 3. MATERIAL ACCOUNTING POLICIES

(a) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured and there exists reasonable certainty of its recovery.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

i. Interest income and dividend income

Interest income on financial instruments at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ("EIR") applicable.

Interest income on Direct assignment pool is recognised on time proportion basis net off amount payable to assignees.

Interest on financial instruments measured at fair value is included within the fair value movement during the period.

The EIR is the rate that exactly discounts estimated future cash flows of the financial instrument through the expected life of the financial instrument or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The future cash flows are estimated considering all the behavioural pattern and contractual terms of the instrument.

The calculation of the EIR includes all fees paid or received between parties to the contract that are incremental and directly attributable to the specific lending arrangement, transaction costs, and all other premiums or discounts. For financial assets at fair value through profit and loss ("FVTPL"), transaction costs are recognised in the Statement of Profit and Loss at initial recognition.

Additional Interest are recognised as income only when revenue is virtually certain which generally coincides with receipts.

Dividend is recognised as income when the right to receive is established.

ii. Fees and charges

Fees and charges include fees other than those that are an integral part of EIR. The fees included in this part of the Group's Statement of Profit and Loss include, among other things, fees charged for servicing a loan. Fees and charges are recognised as income only when revenue is virtually certain which generally coincides with receipts.

Sharp & Tannan Associates Chartered Accountants ICAI Regn. No. 109983W

G. M. KAPADIA & CO. Chartered Accountants MUMBAI

IIFL FINANCE LIMITED

Cheque bounce charges, late payment charges and foreclosure charges are recognised on a point- in-time basis and are recorded when realised.

Fee and commission expenses with regards to services are accounted for as and when the services are delivered.

iii. Income from financial instruments at FVTPL

Income from financial instruments at FVTPL includes all gains and losses from changes in the fair value of financial assets and financial liabilities at FVTPL.

iv. Assignment transactions

In accordance with Ind AS 109, in case of assignment transactions with complete transfer of risks and rewards without any retention of residual interest, gain arising on such assignment transactions is recorded upfront in the Statement of Profit and Loss and the corresponding asset is derecognised from the Balance Sheet immediately upon execution of such transaction. Further, the transfer of financial assets qualifies for derecognition in its entirety, the whole of the interest spread at its present value (discounted over the life of the asset) is recognised on the date of derecognition itself as interest only strip receivable (interest strip on assignment) and correspondingly recognised as profit on derecognition of financial asset.

v. Securitisation transactions

In accordance with Ind AS 109, in case of securitisation transactions, the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and recognises a collateralised borrowing for the proceeds received.

vi. Other operational revenue

Other operational revenue represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

(b) Property, plant and equipment ("PPE")

PPE is recognised when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. PPE is stated at original cost net of tax, if any, less accumulated depreciation. Cost includes professional fees related to the acquisition of PPE and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy.

Subsequent expenditure related to an item of PPE is added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Depreciation is charged using the straight-line method, based on the useful life of PPE as estimated by the Management, as specified below. Depreciation is charged from the month in which new assets are ready to use. No depreciation is charged from the month in which assets are sold. In case of transfer of used PPE from group companies, depreciation is charged over the remaining useful life of the asset. Individual assets / group of similar assets costing up to ₹ 5,000 have been depreciated in full in the year of purchase. Leasehold land is depreciated on a straight-line basis over the

leasehold period.

The estimated useful life of assets is as under:

Class of assets	Useful life
Buildings	20 years
Computers	3 years
Office equipment	5 years
Plant and Equipment	5 years
Furniture and fixtures	5 years
Vehicles	5 years

For above class of assets, based on internal assessment and independent technical evaluation carried out by external valuers, the Management believes that the useful lives as given above best represent the period over which Management expects to use these assets.

An item of PPE is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of PPE is determined as the difference between the sales proceeds and the carrying amount net of accumulated depreciation of the asset and is recognised in the Statement of Profit and Loss.

Capital work in progress

Projects under which PPE are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest, and are disclosed as "capital work-in-progress".

(c) Intangible assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax, less accumulated amortisation and cumulative impairment.

Intangible assets i.e., Software are amortised on straight-line basis over the estimated useful life of 3 years. Amortisation on impaired assets is provided by adjusting the amortisation charge in the remaining periods so as to allocate the assets revised carrying amount over its remaining useful life.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount net of accumulated depreciation of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

Intangible assets under development

Intangible assets not ready for their intended use on the Balance Sheet date are disclosed as "Intangible assets under development".

(d) Investment property

Investment properties are properties held to earn rentals and/ or for capital appreciation (including

property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost, net of accumulated depreciation and accumulated impairment loss, if any.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount net of accumulated depreciation of the asset) is included in Statement of Profit and Loss in the period in which the Investment property is derecognised.

Freehold land and properties under construction are not depreciated.

(e) Non-current Assets held for Sale

Non-current assets are classified as held for sale if their carrying amount is intended to be recovered principally through a sale (rather than through continuing use) when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset and the sale is highly probable and is expected to qualify for recognition as a completed sale within one year from the date of classification.

(f) Impairment of assets

As at the end of each accounting year, the Group reviews the carrying amounts of its PPE, intangible assets and investment property assets to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the PPE, intangible assets and investment property are tested for impairment so as to determine the impairment loss, if any.

Recoverable amount is the higher of fair value less costs of disposal and value in use. If recoverable amount of an asset is estimated to be less than its carrying amount, such deficit is recognised immediately in the Statement of Profit and Loss as impairment loss and the carrying amount of the asset is reduced to its recoverable amount.

When an impairment loss is subsequently reversed, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, to the extent that it does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss.

(g) Share-based payment arrangements

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

Securities premium includes:

- The difference between the face value of the equity shares and the consideration received in respect of shares issued pursuant to Stock Option Scheme.

- The fair value of the stock options which are treated as expense, if any, in respect of shares allotted pursuant to Stock Options Scheme

(h) Employee benefits

Defined contribution plans

The Group's contribution towards Provident Fund and Family Pension Fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees and are accounted for on an accrual basis and recognised in the Statement of Profit and loss.

Defined benefit plans

Short term employee benefits: Employee benefits falling due wholly within twelve months of rendering the service are classified as short-term employee benefits and are expensed in the period in which the employee renders the related service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service. These benefits include performance incentive and compensated absences.
Post employment benefits: The employees' gratuity fund scheme represents defined benefit plan. The present value of the obligation under defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows using a discount rate based on the market yield on government securities of a maturity period equivalent to the weighted average maturity profile of the defined benefit obligations at the Balance Sheet date.

Re-measurement, comprising actuarial gains and losses, the return on plan assets (excluding amounts included in net interest on the net defined benefit liability or asset) and any change in the effect of asset ceiling (if applicable) is recognised in other comprehensive income and is reflected in retained earnings and the same is not eligible to be reclassified to the Statement of Profit and Loss.

Defined benefit costs comprising current service cost, past service cost and gains or losses on settlements are recognised in the Statement of Profit and Loss as employee benefit expenses. Gains or losses on settlement of any defined benefit plan are recognised when the settlement occurs. Past service cost is recognised as expense at the earlier of the plan amendment or curtailment and when the Group recognises related restructuring costs or termination benefits.

In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognise the obligation on a net basis.

Long term employee benefits: The obligation recognised in respect of long-term benefits such as long term compensated absences, is measured at present value of estimated future cash flows expected to be made by the Group and is recognised in a similar manner as in the case of defined benefit plan above.

(i) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e., average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented.

(j) Taxes on income

Current tax

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Group's financial statements and the corresponding tax bases used in computation of taxable profit and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date.

Deferred tax is not recognized for:
- Temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss
- Temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on business plans and the reversal of temporary differences.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. For this purpose, the carrying amount of investment property measured at fair value is presumed to be recovered through sale, and the company has not rebutted this presumption.

For transactions and other events recognised in profit or loss, any related tax effects are also recognised in profit or loss. For transactions and other events recognised outside profit or loss

(either in other comprehensive income or directly in equity), any related tax effects are also recognised outside profit or loss (either in other comprehensive income or directly in equity, respectively).

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off assets against liabilities, representing current tax and where the deferred tax assets and deferred tax liabilities relates to taxes on income levied by the same governing taxation laws.

Current and deferred tax for the year

Current and deferred tax are recognised in the Statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(k) Financial instruments

Financial assets and financial liabilities are recognised in the Group's Balance Sheet when the Group becomes a party to the contractual provisions of the instrument.

Recognised financial assets and financial liabilities are initially measured at fair value. Transaction costs and revenues that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs and revenues directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in the Statement of Profit and Loss.

Financial assets

Classification and measurement

The Group classifies its financial assets into the following measurement categories: amortised cost; fair value through other comprehensive income; and fair value through profit or loss.

All recognised financial assets that are within the scope of Ind AS 109 are required to be subsequently measured at amortised cost or fair value on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Financial instruments measured at amortised cost

Debt instruments that meet the following criteria are measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

For the purpose of SPPI test, principal is the fair value of the financial asset at initial recognition. The principal amount may change over the life of the financial asset (e.g., if there are repayments of principal). Interest consists of consideration for the time value of money, for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin. The SPPI assessment is made in the currency in which the financial asset is denominated.

Sharp & Tannan Associates * Chartered Accountants * ICAI Regn. No. 109983W
G. M. KAPADIA & CO. * Chartered Accountants * MUMBAI
IIFL FINANCE LIMIT

Contractual cash flows that are SPPI are consistent with a basic lending arrangement. Contractual terms that introduce exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement, such as exposure to changes in equity prices or commodity prices, do not give rise to contractual cash flows that are SPPI. An originated or an acquired financial asset can be a basic lending arrangement irrespective of whether it is a loan in its legal form.

An assessment of business models for managing financial assets is fundamental to the classification of a financial asset. The Group determines the business models at a level that reflects how financial assets are managed together to achieve a particular business objective. The Group's business model does not depend on management's intentions for an individual instrument, therefore the business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

Debt instruments that are subsequently measured at amortised cost are subject to impairment.

Financial instruments measured at fair value through other comprehensive income ("FVTOCI")

Debt instruments that meet the following criteria are measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in Statement of profit and loss for FVTOCI debt instruments. Other changes in fair value of FVTOCI financial assets are recognised in other comprehensive income. When the asset is disposed of, the cumulative gain or loss previously accumulated in reserve is transferred to Statement of Profit and Loss.

Financial instruments measured at fair value through Profit and Loss ("FVTPL")

All financial assets are recognized initially at fair value plus transaction cost attributable to the acquisition of the financial asset. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Instruments that do not meet the amortised cost or FVTOCI criteria are measured at FVTPL. Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in the Statement of Profit and Loss. The gain or loss on disposal is recognised in the Statement of Profit and Loss.

Interest income is recognised in the Statement of Profit and Loss for FVTPL debt instruments.

Dividend on financial assets at FVTPL is recognised when the Group's right to receive dividend is established.

Investments in equity instruments at FVTOCI

On initial recognition, the Group makes an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to

investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to Statement of Profit and Loss on disposal of the investments. Dividends from these investments are recognised in the Statement of Profit and Loss when the Group's right to receive dividends is established.

Reclassifications

If the business model under which the Group holds financial assets changes, the financial assets affected are reclassified. The classification and measurement requirements related to the new category apply prospectively from the first day of the first reporting period following the change in business model that result in reclassifying the Group's financial assets. Changes in contractual cash flows are considered under the accounting policy on modification and derecognition of financial assets described below.

Impairment of financial assets

Group recognizes loss allowances using the Expected Credit Loss ("ECL") model for the financial assets which are not fair valued through profit and loss. ECL is calculated using a model which captures portfolio performance over a period of time. ECL is a probability-weighted estimate of credit losses. A credit loss is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive discounted at the original EIR. Vintage loss curve model is used for ECL computation of retail portfolio which involves assessment of performance of segmented portfolio over a time period. The model tracks month-wise losses during the loan tenor. Vintage loss rate models provide a simple, reasonable model for both one-year and lifetime expected credit loss forecasts. For wholesale portfolio, ECL computation is done for each loan account based on CRISIL default study and International Review Board ("IRB") guidelines.

ECL is measured through a loss allowance at an amount equal to:

- 12-month ECL, i.e., ECL that result from those default events on the financial instrument that are possible within 12 months after the reporting date (referred to as Stage 1); or
- full lifetime ECL, i.e., lifetime ECL that result from all possible default events over the life of the financial instrument (referred to as Stage 2 and Stage 3).

A loss allowance for full lifetime ECL is required for a financial instrument if the credit risk on that financial instrument has increased significantly since initial recognition. For all other financial instruments, ECLs are measured at an amount equal to the 12-month ECL.

The Group measures ECL on an individual basis, or on a collective basis for portfolios of loans that share similar economic risk characteristics. The measurement of the loss allowance is based on the present value of the asset's expected cash flows using the asset's original EIR, regardless of whether it is measured on an individual basis or a collective basis.

Key elements of ECL computation are outlined below:

- Probability of default ("PD") is an estimate of the likelihood that customer will default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously de-recognised and is still in the portfolio.
- Loss given default ("LGD") estimates the normalised loss which Group incurs post customer

default. It is usually expressed as a percentage of the Exposure at default ("EAD").

- Effective interest rate ("EIR") is the rate that discounts estimated future cash flows through the expected life of financial instrument. For calculating EIR any upfront fees need to be excluded from the loans and advance amount.

Credit impaired financial assets

A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Credit-impaired financial assets are referred to as Stage 3 assets. Evidence of credit-impairment includes observable data about the following events:

- significant financial difficulty of the borrower or issuer,
- a breach of contract such as a default or past due event,
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider,
- the disappearance of an active market for a security because of financial difficulties; or
- the purchase of a financial asset at a deep discount that reflects the incurred credit losses.

A loan is considered credit-impaired when a concession is granted to the borrower due to a deterioration in the borrower's financial condition, unless there is evidence that as a result of granting the concession the risk of not receiving the contractual cash flows has reduced significantly and there are no other indicators of impairment.

Definition of default

Critical to the determination of ECL is the definition of default. The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL, as default is a component of the probability of default ("PD") which affects both the measurement of ECLs and the identification of a significant increase in credit risk.

Default considered for computation of ECL computation is as per the applicable prudential regulatory norms.

Significant increase in credit risk

The Group monitors all financial assets, issued loan commitments and financial guarantee contracts that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. The Group's accounting policy is not to use the practical expedient that financial assets with 'low' credit risk at the reporting date are deemed not to have had a significant increase in credit risk.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognised. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort, based on the Group's expert credit assessment.

Sharp & Tannan Associates ICAI Regn. No. 109983W Chartered Accountants
G. M. KAPADIA & CO. MUMBAI Chartered Accountants

Modification and derecognition of financial assets

A modification of a financial asset occurs when the contractual terms governing the cash flows of a financial asset are renegotiated or otherwise modified between initial recognition and maturity of the financial asset. A modification affects the amount and/ or timing of the contractual cash flows either immediately or at a future date. In addition, the introduction or adjustment of existing covenants of an existing loan would constitute a modification even if these new or adjusted covenants do not yet affect the cash flows immediately but may affect the cash flows depending on whether the covenant is or is not met (e.g., a change to the increase in the interest rate that arises when covenants are breached).

The Group renegotiates loans to customers in financial difficulty to maximise collection and minimise the risk of default. Loan forbearance is granted in cases where although the borrower made all reasonable efforts to pay under the original contractual terms, there is a high risk of default or default has already happened and the borrower is expected to be able to meet the revised terms. The revised terms in most of the cases include an extension of the maturity of the loan, changes to the timing of the cash flows of the loan (principal and interest repayment), reduction in the amount of cash flows due (principal and interest forgiveness) and amendments to covenants.

When a financial asset is modified, the Group considers the following:

Qualitative factors, such as contractual cash flows after modification are no longer SPPI, change in currency or change of counterparty, the extent of change in interest rates, maturity, covenants. If these do not clearly indicate a substantial modification, then a quantitative assessment is performed to compare the present value of the remaining contractual cash flows under the original terms with the contractual cash flows under the revised terms, both amounts discounted at the original effective interest.

In the case where the financial asset is derecognised, the loss allowance for ECL is remeasured at the date of derecognition to determine the net carrying amount of the asset at that date. The difference between this revised carrying amount and the fair value of the new financial asset with the new terms will lead to a gain or loss on derecognition. The new financial asset will have a loss allowance measured based on 12-month ECL except in the rare occasions where the new loan is considered to be originated-credit impaired. This applies only in the case where the fair value of the new loan is recognised at a significant discount to its revised par amount because there remains a high risk of default which has not been reduced by the modification. The Group monitors credit risk of modified financial assets by evaluating qualitative and quantitative information, such as if the borrower is in past due status under the new terms.

When the contractual terms of a financial asset are modified and the modification does not result in derecognition, the Group determines if the financial asset's credit risk has increased significantly since initial recognition.

For financial assets modified, where modification did not result in derecognition, the estimate of PD reflects the Group's ability to collect the modified cash flows taking into account the Group's previous experience of similar forbearance action, as well as various behavioural indicators, including the borrower's payment performance against the modified contractual terms. If the credit risk remains significantly higher than what was expected at initial recognition the loss allowance will continue to be measured at an amount equal to lifetime ECL. The loss allowance on forborne loans will generally only be measured based on 12-month ECL when there is evidence of the borrower's improved repayment behaviour following modification leading to a reversal of the previous significant increase in credit risk.

Where a modification does not lead to derecognition the Group calculates the modification gain/ loss comparing the gross carrying amount before and after the modification (excluding the ECL allowance). Then the Group measures ECL for the modified asset, where the expected cash flows arising from the modified financial asset are included in calculating the expected cash shortfalls from the original asset.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the asset's cash flows expire (including expiry arising from a modification with substantially different terms), or when the financial asset and substantially all the risks and rewards of ownership of the asset are transferred to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain/loss that had been recognised in OCI and accumulated in equity is recognised in the Statement of Profit and Loss, with the exception of equity investment designated as measured at FVTOCI, where the cumulative gain/loss previously recognised in OCI is not subsequently reclassified to the Statement of Profit and Loss.

Write-off

Loans and debt securities are written off when the Group has no reasonable expectations of recovering the financial asset (either in its entirety or a portion of it). This is the case when the Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. A write-off constitutes a derecognition event. The Group may apply enforcement activities to financial assets written off. Recoveries resulting from the Group's enforcement activities will result in impairment gains.

Financial liabilities and equity Instruments

Debt and equity instruments that are issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Compound instruments

The component parts of compound instruments (e.g., convertible notes) issued by the Group are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Group's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments.

A conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently re-measured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to other component of equity. Where the conversion option remains unexercised at the maturity date of the convertible note, the balance recognised in equity will be transferred to retained earnings. No gain/ loss is recognised in Statement of Profit and Loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the convertible notes are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are recognised directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortised over the life of the convertible notes using the effective interest rate method.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest rate method.
Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest rate method.

The effective interest rate method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

Offsetting of financial instruments
Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet only if there is an enforceable legal right to offset the recognised amounts with an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

(I) Cash and bank balances

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Cash and bank balances also include fixed deposits, margin

money deposits, earmarked balances with banks and other bank balances which have restrictions on repatriation. Short term and liquid investments being subject to more than insignificant risk of change in value, are not included as part of cash and cash equivalents.

(m) Goods and service tax input credit

Goods and service tax input credit is accounted for in the books in the period in which the supply of goods or service received is accounted and when there is no uncertainty in availing/ utilising the credits.

(n) Borrowing costs

Borrowing costs include interest expense calculated using the EIR method.

(o) Foreign currencies

In preparing the consolidated financial statements of, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Statement of Profit and Loss.

Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise.

(p) Segment reporting

The Group's primary business segments are reflected based on the principal business carried out i.e., financing. All other activities of the Group revolve around the main business. The risk and returns of the business of the Group is not associated with geographical segmentation, hence there is no secondary segment reporting based on geographical segment. As such, there are no separate reportable segments.

(q) Provisions, contingent liabilities and contingent assets

Provisions are recognised only when:

- an entity has a present obligation (legal or constructive) as a result of a past event; and
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the amount of the obligation

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Sharp & Tannan Associates Chartered Accountants Regn. No. 109983W
G. M. KAPADIA & CO. Chartered Accountants MUMBAI
IIFL FINANCE LIMITED

Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

Contingent liability is disclosed in case of:

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and
- a present obligation arising from past events when no reliable estimate is possible.

Contingent liabilities are disclosed in the Notes. Contingent assets are neither recognised nor disclosed in the consolidated financial statements.

(r) Commitments

Commitments are future liabilities for contractual expenditure, classified and disclosed as follows:

a) Estimated amount of contracts remaining to be executed on capital account and not provided for,

b) Funding related commitment to associate and joint venture companies; and

c) Other non-cancellable commitments, if any.

(s) Statement of cash flows

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of:

- changes during the period in operating receivables and payables transactions of a non-cash nature,
- non-cash items such as depreciation, provisions, deferred taxes and unrealised foreign currency gains and losses.
- all other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of balance sheet.

(t) Exceptional Items

When items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items is disclosed separately as Exceptional items.

(u) Derivative financial instruments and hedging

The Group enters into derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts, interest rate swaps and cross currency swaps.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the Statement of Profit and Loss immediately unless the

derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in the Statement of Profit and Loss depends on the nature of the hedging relationship and the nature of the hedged item.

Hedge accounting

The Group designates certain hedging instruments, which include derivatives in respect of foreign currency risk, as cash flow hedge.

At the inception of the hedge relationship, the entity documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated under the heading of cash flow hedge reserve. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss and is included in the 'Other income' line item.

Amounts previously recognised in other comprehensive income and accumulated in equity relating to (effective portion as described above) are reclassified to profit or loss in the periods when the hedged item affects profit or loss, in the same line as the recognised hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, such gains and losses are transferred from equity (but not as a reclassification adjustment) and included in the initial measurement of the cost of the non-financial asset or non-financial liability. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in profit or loss.

(v) Leases

The Group assesses whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group considers whether (i) the contract involves the use of identified asset; (ii) the Group has substantially all of the economic benefits from the use of the asset through the period of lease and (iii) the Group has right to direct the use of the asset.

As a lessee

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the site on which it is located, less any lease incentives received.

Certain lease arrangements include the option to extend or terminate the lease before the end of the

lease term. The right-of-use assets and lease liabilities include these options when it is reasonably certain that the option will be exercised.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.
Lease payments included in the measurement of the lease liability comprises of fixed payments, including in-substance fixed payments, amounts expected to be payable under a residual value guarantee and the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option.

The lease liability is subsequently measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Lease liability and the right of use asset have been separately presented in the balance sheet and lease payments have been classified as financing activities.

The Group has elected not to recognise right-of-use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months with no purchase option and assets with low value leases. The Group recognises the lease payments associated with these leases as an expense in statement of profit and loss over the lease term. The related cash flows are classified as operating activities.

Critical accounting estimate and judgement

1. **Determination of lease term**

Ind AS 116 Leases requires lessee to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes assessment on the expected lease term on lease by lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of lease and the importance of the underlying to the Group's operations taking into account the location of the underlying asset and the availability of the suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

2. Discount rate

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

The Group as a lessee

As a lessee, the Group leases assets which includes gold loan branches/office premises and vehicles to employees. The Group previously classified leases as operating, or finance leases based on its assessment of whether the lease transferred significantly all of the risks and rewards incidental to ownership of the underlying asset to the Group. Under Ind AS 116, the Group recognises right-of-use assets and lease liabilities for these leases.

Recent Accounting Pronouncements:

Ministry of Corporate Affairs ('MCA') notifies new standards or amendments to the existing standards under the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time. For the year ended March 31, 2025, the MCA has notified Ind AS 117, Insurance Contracts, and amendments to Ind AS 116, Leases, relating to sale and leaseback transactions, applicable to the Group, w.e.f., April 1, 2024. The Group has reviewed the new pronouncements and based on its evaluation, has determined that the new pronouncement has no significant impact on the Group.

6.1 Hedging activities and derivatives

The Group is exposed to certain risks relating to its ongoing business operations. The primary risks managed using derivative instruments are interest rate and currency risk.

6.1.1 Derivatives designated as hedging instruments

The foreign currency and interest rate risk on borrowings have been actively hedged through a combination of forward contracts, interest rate swaps and cross currency swaps.

The Group is exposed to interest rate risk arising from its floating rate foreign currency borrowings. Interest on the borrowing is payable at a floating rate linked to the benchmark plus margin. The Company hedges the interest rate risk arising from the debt with a 'receive floating - pay fixed' interest rate swap and also with a Derivative Forward Contract.

The Group uses forward exchange contracts, interest rate swaps and cross currency swaps to hedge its risks associated with interest rate and currency risk arising from the foreign currency loans / external commercial borrowings. The Group designates such contracts in a cash flow hedging relationship by applying the hedge accounting principles as per IND AS - 109 (refer note 38.C.2). These contracts are stated at fair value of the spot element of the forward exchange contracts at each reporting date. Changes in the fair value of these contracts that are designated as effective hedge of future cash flows are recognised directly in the "Cash flow hedge reserve" under other comprehensive income and the ineffective portion is recognised immediately in the "Fair value changes" under statement of profit and loss. Hedge accounting is discontinued when the hedged instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting.

There is an economic relationship between the hedged item and the hedging instrument as the terms of the Forward contracts/Interest Rate Swaps match that of the foreign currency borrowings (notional amount, interest payment dates, principal repayment date, etc.). The Group has established a hedge ratio of 1:1 for the hedging relationships as the underlying risk of the forward contracts/ interest rate swaps/ cross currency swaps are identical to the hedged risk components.

The Group does not use derivatives for trading or speculation purposes.

* The parent Company had certain AIF investments that were due to mature in June 2024. In March 2024, the parent Company requested the AIF to do in-specie distribution of assets (i.e.: debentures of underlying SPV companies) in lieu of its investment in the AIF. Subsequently, these debentures were assigned to an ARC, and the book value of the resulting Security Receipts (SRs), based on the same underlying assets as of September 30, 2024, was ₹ 586.50 crores. The RBI Circular dated December 19, 2023, on "Investments in Alternative Investment Funds (AIFs)" required a 100% provision of AIF investments if they were not liquidated within 30 days of the circular being applicable. To comply with the spirit of this circular, the management has decided to make a provision equivalent to 100% of the book value of these SRs, accordingly the same has been disclosed under exceptional items for the year.

*Distress value of above flats is ₹ 159.27 crores.

12.1: The management of the parent Company has acquired possession of these properties in satisfaction of the debts and intends to dispose them in due course, subject to conducive market conditions. These properties have been valued taking into consideration various factors such as location, facilities & amenities, quality of construction, percentage of completion of construction (as for some properties the construction is currently on hold), residual life of building, business potential, supply & demand, local nearby enquiry, market feedback of investigation and ready reckoner published by government. These valuations has been performed by an independent registered valuer registered under rule 2 of Companies (Registered Valuers and Valuation) Rules,2017. The fair values are based on market values, being the estimated amount for which a property could be exchanged in an arm's length transaction. These properties are not depreciated as they have not been ready to use.

12.2: In respect of residential flats located in Mumbai, the Maharashtra Real Estate Regulatory Authority (MAHARERA) has passed an order directing the developer to hand over the possession of the flats along with compensation for the delay. The developer has preferred an appeal against this Order and the matter is pending before the Maharashtra Real Estate Regulatory Appellate Tribunal (MAHAREAT).

12.3: Investment property under construction represent rights acquired by the parent Company in properties which are under construction. These rights are in respect of constructed area in the properties located in prime areas in Mumbai and are part of the projects of recognized real estate developers and not by the Group. Accordingly, disclosures in terms of paragraph WB(vi) of general instructions for preparation of Balance Sheet prescribed in Division III of Schedule III to the Companies Act, 2013 are not made.
The parent Company and the concerned parties are in the process of registering the documents by which the parent Company has acquired the title over the Investment properties under construction. The acquisitions of these rights in the properties were in the normal course of the business and none of the promoters, directors or their relatives are associated with these transactions in any manner.

Borrowings in India	27,897.35	30,147.37
Borrowings outside India	3,161.25	3,950.83
Total (B)	**31,058.60**	**34,098.20**

Notes:

(a) These loans are secured by way of a first pari-passu charge over the current assets in the form of receivables, book debts, bills, outstanding monies receivables including future movable assets, other than those specifically/exclusively charged.

(b) During the previous year, the Group borrowed ₹ 614.48 crores (equivalent to US$ 75 Million) under External commercial borrowing. These are secured by way of a first ranking pari passu charge by way of hypothecation on all the borrower's charged asset in favour of the security holder in accordance with the Deed of Hypothecation.

(c) During the previous year, the Group borrowed ₹ 410.25 crores (equivalent to US$ 50 Million) under External commercial borrowing. These are secured by way of first ranking pari passu against all receivables/current assets of the borrower including book debts/receivables with both present and future but excluding book debt/receivables pertaining to capital market exposure and securitised asset .

(d) During the previous year, the Group borrowed ₹ 410.11 crores (equivalent to US$ 50 Million) under External commercial borrowing. These are secured by way of first ranking pari passu charge over all receivables/current assets of the borrower including book debts/receivables both present and future and which are "standard assets" but excluding book debt/receivables pertaining to capital market exposure and securitised assets.

(e) During the previous year, the Group borrowed ₹ 416.68 crores denominated in Japanese Yen (equivalent to US$ 50 Million) under External commercial borrowing. These are secured by way of first ranking pari passu charge on all present and future standard loan receivables (excluding the receivables given on exclusive charge, if any), book debts, loan and advances and current assets of the borrower.

(f) Out of the total borrowing from Banks, borrowings amounting to ₹ 20.00 crores (As at March 31, 2024 ₹ 20.00 crores) and Refinance Facility from NHB amounting to ₹ 240.33 crores (As at March 31, 2024 ₹ 390.32 crores) are guaranteed by Holding Company i.e. IIFL Finance Limited.

(g) The term loans from banks, Financial Institution and NHB and cash credits from banks are secured by way of first pari passu charge by way of hypothecation on receivables of the Company, both present and future, book debts, loans & advances, except those receivables present and/or future specifically and exclusively charged in Favor of certain existing charge holders. Further, borrowings from Financial Institution amounting to ₹ 378.68 crores (before interest accrued but not due, exchange fluctuation and EIR adjustments) (As at March 31, 2024 ₹ 413.10) are secured by way of first priority exclusive charge on the identified receivables of the Group.

(h) Borrowings from NHB includes ₹ 5,248.17 crores (As at March 31, 2024 ₹ 4,401.16 crores) secured by way of first exclusive charge on unencumbered individual housing loan portfolio in Favor of NHB.

(i) An amount of ₹ 450 crores of Borrowings drawn down as at the end of March 2025 on which security creation is under progress as per the terms agreed with the lenders.

(j) Payment pending adjustment represent the payment made before the due date of ₹ 4.17 crores and ₹ 8.33 crores for the term loan to IDBI Bank Limited and Bandhan Bank Limited respectively, pending to be appropriated and hence disclosed separately.

Maturity Analysis of the Benefit Payments: From the Fund	FY 2024-25	FY 2023-24
Projected Benefits Payable in Future Years From the Date of Reporting		
1st Following Year	4.51	5.07
2nd Following Year	2.10	1.66
3rd Following Year	2.68	1.84
4th Following Year	2.60	2.31
5th Following Year	2.83	2.21
Sum of Years 6 To 10	16.05	12.77
Sum of Years 11 and above	175.30	149.57

(₹ in crores)

Sensitivity Analysis	FY 2024-25	FY 2023-24
Projected Benefit Obligation on Current Assumptions	66.17	53.74
Delta Effect of +1% Change in Rate of Discounting	(8.40)	(6.68)
Delta Effect of -1% Change in Rate of Discounting	9.36	7.36
Delta Effect of +1% Change in Rate of Salary Increase	9.23	7.27
Delta Effect of -1% Change in Rate of Salary Increase	(7.83)	(6.15)
Delta Effect of +1% Change in Rate of Employee Turnover	(0.26)	(0.03)
Delta Effect of -1% Change in Rate of Employee Turnover	0.27	(0.03)

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Notes

Actuarial gains/losses are recognised in the period of occurrence under Other Comprehensive Income (OCI). All above reported figures of OCI are gross of taxation.

Salary escalation & attrition rate are in line with the industry practice considering promotion and demand and supply of the employees.

Maturity analysis of benefit payments is undiscounted cashflows considering future salary, attrition & death in respective year for members as mentioned above.

Average Expected Future Service represents Estimated Term of Post - Employment Benefit Obligation.

Value of asset is considered as fair value of plan asset for the period of reporting.

Expected Rate of Return taken same as discount rate as described in Indian Accounting Standard 19.

Expected Contribution in the next year is considered as the sum of net liability/assets at the end of the current year and current service cost for next year, subject to maximum allowable contribution to the Plan Assets over the next year as per the Income Tax Rules.

Qualitative disclosures

Characteristics of defined benefit plan

The Company has a defined benefit gratuity plan in India (funded). The company's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to a separately administered fund. During the year, there were no plan amendments, curtailments and settlements.

The fund is managed by a trust which is governed by the Board of Trustees. The Board of Trustees are responsible for the administration of the plan assets and for the definition of the investment strategy.

Risks associated with defined benefit plan

Gratuity is a defined benefit plan and company is exposed to the following risks:

Interest rate risk: A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Asset liability matching risk: The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Concentration Risk: Plan is having a concentration risk as all the assets are invested with the insurance entity and a default will wipe out all the assets. Although probability of this is very less as insurance Companies have to follow regulatory guidelines.

Sharp & Tannan Associates Chartered Accountants FRN 109983W

G. M. KAPADIA & CO. Chartered Accountants MUMBAI

Note 38. Risk Management

The Group's activities expose it to market risk, liquidity risk and credit risk.

Risk management is integral to the Group's strategy. An enterprise wide risk management framework is in place to govern the Group's risk management processes. A strong risk management team and an effective credit operations structure ensures that risks are properly identified and timely addressed to ensure minimal impact on the Group's growth and performance.
The Group has developed the necessary competency to identify early stress signals and has also defined processes, including corrective and remedial actions as regards people and processes, for mitigation to ensure minimum damage.

A stress testing mechanism is put in place to carry out the event based sensitivity analysis and identify the accounts under stress due to expected market movement.

The comprehensive understanding of risk management throughout the various levels of an organization aids in driving key decisions related to risk-return balance, capital allocation and product pricing. The Group operates under the guidance of the Board approved risk appetite statement that covers business composition, guidance around gross non-performing assets and net non-performing assets, leverage, funding and liquidity, etc.
Additionally, it is also ensured that appropriate focus is on managing risk proactively by ensuring business operations are in accordance with laid-down risk. A strong risk management team and an effective credit operations structure ensures that risks are properly identified and timely addressed, to ensure minimal impact on the Group's growth and performance.

Risk Management Structure

The Group has established multi-level risk governance for monitoring & control of product and entity level risks. The Board of Directors are responsible for the overall risk management approach and for approving the risk management strategies and principles. The Board has constituted the Risk Management Committee ("RMC") which is responsible for monitoring the overall risk process within the Group. The RMC is empowered to develop an independent risk strategy comprising of principles, frameworks, policies and limits and ensuring its effective implementation. Independent function of Risk management is in place headed by the Chief Risk Officer ("CRO") who reports to the Chief Executive Officer ("CEO") with oversight of RMC of the Board reports to the Chairman and independently to RMC of the Board. The Risk department primarily operationalises risk management framework approved by RMC.

The group has a well –defined risk framework constituting various lines of defence – the first line of defence, consisting of management, is responsible for seamless integration of risk principles across all businesses. Additionally, it ensures adequate managerial and supervisory controls to ensure compliance and highlight inadequate processes and unexpected events. The Group has well-defined internal control measures in every process.
Independent risk and policy team constitutes second line of defence which is responsible for identification and assessment of entity-wide risks. Post its identification, it aims to mitigate risks either through portfolio trigger and caps (Credit risk) or through ongoing risk control and self assessment (Operational risk).
Internal Audit function is the third line of defence that independently reviews activities of the first two lines of defence and reports to the Audit Committee of the Board.

Risk Management Practices

The Group has developed the necessary competency to identify early stress signals and has also defined processes, including corrective and remedial actions as regards people and processes, for mitigation to ensure minimum damage. A stress testing mechanism is put in place to carry out the event based sensitivity analysis and identify the accounts under stress due to expected market movement. In event of susceptibility to external triggers, appropriate risk mitigation would be undertaken and thereby minimize the losses to the Group.
The Group has initiated a detailed portfolio quality review mechanism which enables analysis of portfolio along various behavioural, demographic and financial parameters. Additionally, through tie-ups with external bureaus, an analysis of collection performance coupled with continuous credit assessment for various key segments is undertaken. The practices aid in proactive course correction thereby modifying credit or sourcing mechanisms, if required. Additionally, application scorecard has been developed enabling the Group to standardize credit underwriting & improve sourcing quality in the long run.
The Group's policy is to measure and monitor the overall risk-bearing capacity in relation to the aggregate risk exposure across all risk types and activities. Information pertaining to different type of risks are identified, analysed and tested on timely basis. The same is presented to Risk Management Committee at periodic intervals.

In order to minimise any adverse effects on the financial performance of the Group, derivative financial instruments, such as cross currency interest rate swaps are entered to hedge certain foreign currency risk exposures and variable interest rate exposures.

The Group's central treasury department identifies, evaluates and hedges financial risks in close co- operation with the Group's operating units. The Board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments and investment of excess liquidity. The Group's Treasury is responsible for managing its assets and liabilities and the overall financial structure. It is also primarily responsible for the funding and liquidity risks of the Group.

38A.1. Credit Risk

Credit risk refers to risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group.
Credit risk arises primarily from financial assets such as trade receivables, investments, derivative financial instruments, other balances with banks, loans and other receivables.

Credit quality analysis

The following tables sets out information about the credit quality of financial assets measured at amortised cost. Unless specifically indicated, for financial assets, the amounts in the table represent gross carrying amounts.

(₹ in crores)

Particulars	As at March 31, 2025				
	Financial Assets where loss allowance measured at 12-month ECL	Financial assets for which credit risk has increased significantly and credit not impaired	Financial assets for which credit risk has increased significantly and credit impaired	Financial Assets where loss allowance measured using simplified approach	Total

Other Financial assets	-	-	-	1,458.39	**1,458.39**

* Loans comprises of outstanding principal, interest accrued but not due and principal and interest overdue.

Financial Assets measured using simplified approach:

The Group follows 'simplified approach' for recognition of impairment loss allowance on Cash and Cash Equivalents, Bank Balances, Trade Receivables, other receivables and Other Financial Assets. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

38A.2. Collateral held

The Group holds collateral and other credit enhancements against certain of its credit exposures. The loans are collateralised against equitable mortgage of property, pledge of shares, hypothecation of assets, physical gold, undertaking to create security.

In normal course of business, the Group does not physically repossess properties or collaterals. Once contractual loan repayments are more than 90 days past due, repossession of property(ies) may be initiated under the provisions of the SARFAESI Act, 2002. Repossessed property(ies) is disposed of in the manner prescribed in the SARFAESI Act, 2002, to recover outstanding debt.

38A.3. Loss allowance and Exposure at default

The following tables show reconciliations from the opening to the closing balance of the loss allowance by class of financial instrument.

(₹ in crores)

Reconciliation of loss allowance	Financial Assets where loss allowance measured at 12-month ECL		Financial assets for which credit risk has increased significantly and credit not impaired		Financial assets for which credit risk has increased significantly and credit impaired		Total	
	Principal	Others	Principal	Others	Principal	Others	Principal	Others
Opening ECL Apr-2024	**414.08**	**41.45**	**165.62**	**32.26**	**580.37**	**0.02**	**1,160.07**	**73.73**

38A.4. Write off

Contractual amount outstanding on financial assets that were written off during the reporting period is ₹ 1,519.66 crore (P.Y ₹ 911.13 crore)

38A.5. Modified Financial Instruments

For financial assets, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that the modification does not result in cash flows that are substantially different (thereby not resulting into derecognition), the Group has recorded a modification gain or loss based on the change in cash flows discounted at the original EIR (Effective Interest Rate).

(₹ in crores)

Particulars	FY 2024-2025	FY 2023-2024
Carrying amount of Modified financial assets	222.21	314.81

The terms of the assets have been modified in accordance with NHB (Directions)/RBI (HFC) Directions and as per RBI Notification "Resolution Framework for COVID-19-related Stress".

38A.6. Credit Risk Grading of loans

Credit Risk Grading is an important tool for credit risk management as it helps in understanding and evaluating risks for different credit transactions.

The Group has established overall credit limits at the level of individual borrowers and counterparties, and groups of connected counterparties. It manages and controls credit risk by confining the amount of risk it is willing to accept for individual counterparties, for geographical concentrations, and by closely monitoring such exposures.

The Group has a Credit Risk Policy which is board approved and shared with all credit approving authorities. All customers will be evaluated on a set of pre-defined parameters as detailed below and accordingly classified into any of the following categories:

1. Low Risk
2. Medium Risk
3. High Risk

The high risk category of customers will not be actively sourced by the Group. Any customer, identified as High Risk, can be funded by the Group basis exceptional comfort and availability of justifying mitigates. The extent and nature of due diligence will be the highest for this category. The assessment of a customer being classified into high, medium or low is based on various parameters at the time of on-boarding which are captured in the Credit Approval Memorandum by the credit manager and validated by the relevant approving authority. The parameters are as follows:

1. Customer Profile
2. Financial health
3. Business vintage
4. Credit history
5. Industry feedback
6. Other qualitative/ quantitative factors as mentioned in the policy

Every customer once being stamped into a risk category on a periodic basis would further be subjected to change of his risk profile depending on the repayment history and DPDs through an independent credit quality review process. This process aims to allow the Group to assess the potential loss as a result of the risks to which it is exposed and take corrective actions.

Credit Grading details : **(₹ in crores)**

Period	Stage 1	Stage 2	Stage 3	Total EAD
March 31, 2025	54,764.12	2,436 29	1,212.50	58,412.91
March 31, 2024	51,697.70	2,595 05	1,178.63	55,471.37

38A.7. Concentration of Credit Risk

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions.
In order to avoid excessive concentrations of risk, the Group's policies and procedures include specific guidelines to focus on spreading its lending portfolio across various products/states/customer base with a cap on maximum limit of exposure for an individual/Group. Accordingly, the Group does not have concentration risk.

38B Liquidity Risk

Liquidity risk refers to the risk that the Group may not be able to meet its short-term financial obligations. The Group manages liquidity risk by maintaining sufficient cash and marketable securities and by having access to funding through an adequate amount of credit lines. Further, the Group has well defined Asset Liability Management (ALM) framework with an appropriate organizational structure to regularly monitor and manage maturity profiles of financial assets and financial liabilities including debt financing plans, cash and cash equivalent instruments to ensure liquidity. The Group seeks to maintain flexibility in funding mix by way of sourcing the funds through money markets, debt markets and banks to meet its business and liquidity requirements.

(i) Maturities of financial liabilities

(₹ in crores)

Contractual maturities of financial liabilities (including financial guarantee) As at March 31, 2025	Total	Upto 3 months	Over 3 months to 6 months	Over 6 months to 1 year	Over 1 year to 3 years	Over 3 to 5 years	Over 5 years

Financial guarantee contracts	410.32	410.32	-	-	-	-	-
Total	**50,579.62**	**7,786.23**	**3,982.64**	**6,690.46**	**17,412.77**	**8,920.44**	**5,787.08**

Note 1: Borrowings includes cash credit facilities, has been slotted in "over 6 months to 1 year" and "over 1 year to 3 years" in the ratio of 40% and 60% respectively.

Note 2: The amount represent undiscounted cash flows.

(ii) Financing arrangements

The Group had access to the following undrawn borrowing facilities at the end of the reporting period:

(₹ in crores)

Particulars	As at March 31, 2025	As at March 31, 2024
Floating rate		
- Expiring within one year (bank overdraft and other facilities)	1,687.61	1,743.03

(iii) Change in liabilities arising from financing activities as per IND AS 7 "Statement of cash flows":

(₹ in crores)

Particulars	As at March 31, 2024	Cash flows	Others*	As at March 31, 2025
Debt Securities (Including subordinated liabilities)	12,576.00	7,538.25	(104.82)	20,009.43
Borrowings (Other than debt securities)	34,098.20	(3,078.60)	39.00	31,058.60
Total Liabilities from Financial Activities	**46,674.20**	**4,459.65**	**(65.82)**	**51,068.03**

(₹ in crores)

Particulars	As at March 31, 2023	Cash flows	Others*	As at March 31, 2024
Debt Securities (Including subordinated liabilities)	11,127.72	1,487.47	(39.19)	12,576.00
Borrowings (Other than debt securities)	28,476.27	5,721.42	(99.49)	34,098.20
Total Liabilities from Financial Activities	**39,603.99**	**7,208.89**	**(138.68)**	**46,674.20**

*Includes the effect of amortisation of borrowing cost, interest accrued on borrowings, and exchange differences.

38C Market Risk

Market Risk is the risk that the value of on and off-balance sheet positions of a financial institution will be adversely affected by movements in market rates or prices such as interest rates, foreign exchange rates, equity prices, credit spreads and/or commodity prices resulting in a loss to earnings and capital.

Financial institutions may be exposed to Market Risk in variety of ways. Market risk exposure may be explicit in portfolios of securities / equities and instruments that are actively traded. Conversely it may be implicit such as interest rate risk due to mismatch of loans and deposits. Besides, market risk may also arise from activities categorised as off-balance sheet item. Therefore market risk is potential for loss resulting from adverse movement in market risk factors such as interest rates, forex rates, equity and commodity prices.

The Group's exposure to market risk is primarily on account of interest rate risk and Foreign exchange risk.

Sharp & Tannan Associates ICAI Regn. No 109983W Chartered Accountants
G. M. KAPADIA & CO. MUMBAI Chartered Accountants
IIFL FINANCE LIMITED

38C.1 Interest rate risk

(a) The exposure of the Group's borrowing to interest rate changes at the end of the reporting period are as follows:

(₹ in crores)

	As at March 31, 2025	As at March 31, 2024
Variable rate borrowings	23,254.78	22,687.99
Fixed rate borrowings	27,565.46	23,395.33
Total borrowings	50,820.24	46,083.32

The Group had the following variable rate borrowings outstanding:

(₹ in crores)

	As at March 31, 2025		As at March 31, 2024	
	Balance	% of total borrowings	Balance	% of total borrowings
Bank overdrafts, bank loans	23,254.78	45.76%	22,687.99	49.23%
Net exposure to cash flow interest rate risk	**23,254.78**	**45.76%**	**22,687.99**	**49.23%**

An analysis by maturities is provided in note 38(B)(i) above. The percentage of total loans shows the proportion of loans that are currently at floating rates in relation to the total amount of borrowings.

(b) Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates (assuming other variable constant)

(₹ in crores)

Particulars	Impact on profit after tax		Impact on other components of equity	
	March 31, 2025	March 31, 2024	March 31, 2025	March 31, 2024
Interest rates – increase by 50 basis points	(87.01)	(84.99)	-	-
Interest rates – decrease by 50 basis points	87.01	84.99	-	-

38C.2. Exposure to currency risks

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign currency rates. The Group's exposure to the risk of changes in foreign exchange rates relates primary to the foreign currency borrowings taken from banks and External Commercial Borrowings (ECB) and foreign bond markets.

The Group follows a conservative policy of hedging its foreign currency exposure through Forwards / Futures / and / or Cross Currency Interest Rate Swaps (CCRIS) in such a manner that it has fixed determinate outflows in its functional currency and as such there would be no significant impact of movement in foreign currency rates on the Group's profit before tax (PBT) and equity. However for the unhedged foreign currency exposure(s) there would be an impact on Group's profitability.

The Group's currency position is as under

(₹ in crores)

Particulars	USD	EUR	CHF	JPY	SGD	Other Currencies
Foreign Currency Assets (in INR)	50.25	-	-	-	-	-
Foreign Currency Liabilities (in INR)	99.66	-	-	11.24	-	-
Net Gap as at March 31, 2025	**(49.41)**	**-**	**-**	**(11.24)**	**-**	**-**

(₹ in crores)

Particulars	USD	EUR	CHF	JPY	SGD	Other Currencies
Foreign Currency Assets (in INR)	157.69	-	-	-	-	-
Foreign Currency Liabilities (in INR)	13.54	-	-	19.99	-	-
Net Gap as at March 31, 2024	**144.13**	**-**	**-**	**(19.99)**	**-**	**-**

38C.3. Price Risk

(a) Exposure

The Group's exposure to assets having price risk is as under

(₹ in crores)

Particulars	Equity Share	Mutual Funds /Alternate investment funds/ others	Bonds / Debt securities	Security Receipts	Total
Market Value as on March 31, 2025	227.16	657.35	360.05	3,293.42	4,437.99
Market Value as on March 31, 2024	24.18	482.50	369.31	3,182.99	4,058.98

To manage its price risk arising from investments in equity securities/other assets, the Group diversifies its portfolio.

(b) Sensitivity

The table below summarises the impact of increases/decreases of the index on the Group's equity/other assets and profit for the period. The analysis is based on the assumption that the instrument index has increased by 5% or decreased by 5% with all other variables held constant.

(₹ in crores)

Particulars	Impact on profit after tax		Impact on other components of equity	
	March 31, 2025	March 31, 2024	March 31, 2025	March 31, 2024
Increase by 5%	166.05	151.87	-	-
Decrease by 5%	(166.05)	(151.87)	-	-

38D.Capital Management

For the purpose of the Group's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Group. The primary objective of the Group's capital management is to maximise the shareholder value. The Group monitors capital in accordance with the capital adequacy ratio prescribed by the Reserve Bank of India ("RBI")/ National Housing Bank ("NHB") as applicable.

38E. Fair values of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer an liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using a valuation technique.In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

The following table shows an analysis of financial instruments recorded at Fair Value hierarchy:

(₹ in crores)

Particulars	As at March 31, 2025 Fair Value through profit or loss	Fair value through Other Comprehensive Income	Amortised cost / Cost

38E. 1. Financial instruments measured at fair value – Fair value hierarchy

The following table analyses financial instruments measured at fair value at the reporting date, by the level in the fair value hierarchy into which the fair value measurement is categorised. The amounts are based on the values recognised in the statement of financial position.

38E.2. Valuation methodologies of financial instruments measured at fair value

(i) Quoted equity/instruments are measured based on the last traded price in the exchange and are classified as level 1.
(ii) Mutual Funds are measured based on the published net asset value (NAV) by AMFI and are classified as level 1.
(iii) Alternate Investment Funds are measured based on the latest NAV provided by the fund house and are classified as level 3.
(iv) Equity instruments in non-listed entities are initially recognised at transaction price and re-measured (to the extent information is available) and valued by external independent valuer and classified as Level 3.
(v) Preference shares (unquoted) are classified as Level 2, based on the fair valuation conducted by an external independent valuer.
(vi) Government Securities are valued based on the closing price published by CCIL/ FIMMDA and are classified as level 2.
(vii) Unquoted debt securities are measured based on average of security level prices received from AMFI appointed/designated agencies viz: CRISIL and ICRA and are classified as level 2.
(viii) The fair value of interest rate swaps is calculated as the present value of the net of Pay and Receive side estimated future cash flows based on observable appropriate yield curve inputs.
(ix) Fair value of loans measured at FVOCI approximates its carrying value and are classified as level 3.
(x) Fair value of forward foreign exchange contracts is determined by computing present value of payoff between contractual rate (Strike) and forward exchange rates at the testing date and are classified as Level 2.
(xi) The fair value principal swap is calculated as the present value of the net of Pay and Receive side estimated future cash flows based on observable appropriate yield curve inputs and spot exchange rate as of the testing date and are classified as Level 2.

38E.3. Valuation methodologies of financial instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the Group's financial statements. These fair values were calculated for disclosure purposes only.

Short-term financial assets and liabilities

For financial assets and financial liabilities that have a short-term nature, the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and bank balances, Trade receivables, other receivables, balances other than cash and cash equivalents and trade payables.

Loans, Debts, Borrowings and Subordinated Debts

The fair values of these instruments are estimated by determining the price of the instrument taking into consideration the origination date, maturity date, coupon rate, actual or approximation of frequency of interest payments and incorporating the actual or estimated/proxy yields of identitical or similar instruments through the discounting factor. For instruments, having contractual residual maturity less than one year, the carrying value has been considered as fair value. Loans and advances are presented net of provisions for impairment.

(₹ in crores)

Assets and liabilities which are measured at amortised cost for which fair values are disclosed As at March 31, 2025	Total fair value	Carrying Value	Valuation Hierarchy
Financial assets			
Cash and cash equivalents	2,066.63	2,066.63

38.E.4 Movements in Level 3 financial instruments measured at fair value :

The following tables show the reconciliation of the opening and closing amounts of Level 3 financial assets and liabilities measured at fair value:

(₹ in crores)

Particulars	Loans - Classified under FVOCI
Balances as at April 1, 2024	4,552.10
Issuances	4,444.12
Sale of financial instrument classified as level 3 at the beginning of the financial year	(363.84)
Total gain /losses recognised in profit and loss	(16.28)
Balances As at March 31, 2025	8,616.11
Unrealised gain /losses related to balances held at the end of financial year	-

(₹ in crores)

Particulars	Loans - Classified under FVOCI
Balances as at April 1, 2023	6,959.10
Issuances	3,117.05
Sale of financial instrument classified as level 3 at the beginning of the financial year	(5,544.99)
Total gain /losses recognised in profit and loss	20.94
Balances As at March 31, 2024	4,552.10
Unrealised gain /losses related to balances held at the end of financial year	-

38 F. Transferred financial assets that are derecognised in their entirety

The Group has sold some loans and advances measured at FVTOCI as per assignment deals, as a source of finance. As per the terms of deal, since the derecognition criteria as per IND AS 109, including transfer of substantially all the risks and rewards relating to assets being transferred to the buyer being met, the assets have been derecognised. The management has evaluated the impact of the assignment transactions done during the year for its business model. Based on the future business plans, the Group's business model remains to hold the assets for collecting contractual cash flows.

The following table provide a summary of the amount of the derecognised financial assets during the year and the gain/(loss) on derecognition, which qualify for derecognition:

(₹ in crores)

Particulars	FY 2024-25	FY 2023-24
Financial assets derecognised during the year	7,795.40	14,338.07
Net loss / (gain) on derecognition of financial instruments under FVTOCI category	312.56	136.79

38 G. Transferred financial assets that are recognised in their entirety:

The Group uses securitisations as a source of finance. Such transaction resulted in the transfer of contractual cash flows from portfolios of financial assets to holders of issued debt securities. Such deals resulted in continued recognition of the securitised assets since the Group retains substantial risks and rewards. The table below outlines the carrying amounts and fair values of all financial assets transferred that are not derecognised in their entirety and associated liabilities.

(₹ in crores)

Securitisations	As at March 31, 2025	As at March 31, 2024
Carrying amount of transferred assets measured at amortised cost	1,818.65	280.44
Carrying amount of associated liabilities	1,657.60	255.45
Fair value of assets	1,818.65	280.44
Fair value of associated liabilities	1,657.60	255.74

Note 39. Capital, Other Commitments and Contingent Liabilities at Balance Sheet date:

Contingent Liabilities:

(₹ in crores)

Particulars	As at March 31, 2025	As at March 31, 2024
Claim against the Company not acknowledged as debt:		
In respect of Income tax demands (refer note a and b)	359.74	77.08
In respect of Service tax/ Gst demands (including interest accrued and refer note c)	125.57	70.26
In respect of Profession Tax demands (refer note d)	0.16	0.16
In respect of legal case/ penalties/others	488.64	15.73
In respect of Stamp Duty (refer note e)	16.66	16.66
Bank Guarantee:		
In respect of Bank guarantees given (refer note f)	260.33	410.32
Other money for which the company is contingently liable:		
In respect of Corporate guarantees given	23.34	23.34
Contingent liability in respect of credit enhancement for securitisation transaction	75.54	79.91

(a) The Group has filed appeal against the said demands raised by the Income Tax Department.

(b) Amount paid under protest with respect to income tax demand is 76.32 crores (P.Y ₹ 76.32 crores).

(c) Amount paid under protest with respect to service tax and GST demands are ₹ 3.62 crores (P.Y ₹ 3.62 crores).

(d) Amount paid under protest with respect to profession tax demand ₹ 0.05 crores (P.Y ₹ 0.05 crores).

(e) The Group had received demand towards stamp duty on account of the Composite Scheme of Arrangement.The demand had been raised for a sum of ₹ 75.00 crores. As per the scheme document any incidental expenses will be borne by the resulting companies i.e IIFL Finance Limited, IIFL Securities Limited and 360 ONE WAM Limited (Formerly known as IIFL Wealth Management Limited) equally. The Group has appealed against the same and paid ₹ 8.34 crores under protest towards its share of the liability and shown ₹ 16.66 crores as Contingent.The matter is pending before the court.

(f) Guarantee has been given on behalf of subsidiary.

(g) Apart from the above, group is subject to legal proceedings and claims which have arisen in the ordinary course of the business. The Group's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have material and adverse effect on the Group's financial position.

Commitments not provided for:

(₹ in crores)

Particulars	As at March 31, 2025	As at March 31, 2024
Commitments related to loans sanctioned but undrawn	2,753.33	3,689.95
Estimated amount of contracts remaining to be executed on capital and operating account	16.90	25.60
Commitments related to alternate investment funds	19.83	12.88

Note 40. Employee Stock Option

40.1 Stock option schemes of the Parent Company (IIFL Finance Limited)

The Company has implemented various Employee Stock Option Schemes (ESOP Schemes) and has outstanding options granted under the said Schemes. The options vest in graded manner and must be exercised within a specified period as per the terms of the grants made by the Nomination and Remuneration Committee and ESOP Schemes.

The details of various Employee Stock Option Schemes are as under:

i. ESOP 2008

Particulars	As at March 2025	As at March 2024
Number of Option outstanding	35,58,866	40,80,321

Exercised during the year	1,25,224	218.71-341.65	278.16	-
Outstanding as on March 31, 2024	**40,80,321**	**10.00-625.00**	**130.21**	**6.07**
Exercisable as on March 31, 2024	**1,10,240**	**252.00-350.00**	**263.42**	**4.39**

Fair Value Methodology:

The fair value of the shares are measured using Black scholes formulae. Measurement inputs include share price on measurement date, exercise date of the instrument, exercise price, expected life, risk free interest rate, dividend yield, expected volatility.

Key Assumptions used in Black-Scholes model for calculating fair value as on the date of grant are as follows:

Particulars	05-Jan-24	04-Aug-23	15-Oct-22	26-Aug-22
Stock price (₹)	641.65	575.50	350.00	341.65
Volatility	10.00%	52.22%	10.00%	10.00%
Risk-free Rate	7.00%	7.04%	7.37%	7.02%
Exercise price (₹)	625.00	10.00	350.00	341.65
Time to Maturity (Years)	5.00	4.00	5.00	5.00
Dividend yield	3.00%	1.43%	3.00%	3.00%
Weight Average Value (₹)	89.05	535.83	45.31	42.15

Particulars	22-Dec-21	20-Aug-21	06-May-21
Stock price (₹)	271.40	252.00	252.00
Volatility	10.00%	10.00%	10.00%
Risk-free Rate	5.81%	5.77%	5.66%
Exercise price (₹)	271.40	252.00	252.00
Time to Maturity (Years)	5.00	5.00	5.00
Dividend yield	3.00%	3.00%	3.00%
Weight Average Value (₹)	35.40	35.40	34.72

Stock Price: The closing market price on NSE one day prior to the date of grant has been considered for the purpose of Option valuation.

Volatility: The daily volatility of the stock prices on BSE, over a period prior to the date of grant, corresponding with the expected life of the Options has been considered to calculate the fair value.

Risk-free rate of return: The risk-free rate being considered for the calculation is the India Government Bond Generic Bid Yield with a maturity about equal to the expected life of the options.

Exercise Price: Price of each specific grant has been considered.

Time to Maturity: Time to Maturity / Expected Life of Options is the period for which the Company expects the Options to be live. The minimum life of a stock option is the minimum period before which the Options cannot be exercised and the maximum life is the period after which the Options cannot be exercised.

Expected dividend yield: Expected dividend yield has been calculated as an average of dividend yields for the three financial years preceding the date of the grant. The dividend yield for the year is derived by dividing the dividend per share by the average price per share of the respective period.

Particulars	02-May-18
Stock price (₹)	179.53
Volatility	59.00%
Risk-free Rate	7.13% - 7.34%
Exercise price (₹)	142.22
Time to Maturity (Years)	4.34
Dividend yield	1.00%
Weight Average Value (₹)	106.90

Stock Price: The fair value of stock as on Appointed Date, i.e., April 1, 2018 ("the Effective date" or the "Date of Modification") has been used to value the outstanding grants based on Merchant Banker's Report.

Volatility: The daily volatility of the stock prices on BSE, based on post demerger traded prices has been considered to calculate the fair value.

Risk-free rate of return: The risk-free rate being considered for the calculation is the India Government Bond Generic Bid Yield with a maturity about equal to the expected life of the options.

Exercise Price: Price of each specific grant has been considered based on equity swap ratio of the Composite Scheme of Arrangement.

Time to Maturity: Time to Maturity / Expected Life of Options is the period for which the Company expects the Options to be live. The minimum life of a stock option is the minimum period before which the Options cannot be exercised and the maximum life is the period after which the Options cannot be exercised.

Expected dividend yield: Expected dividend yield has been calculated as an average of dividend yields for the three financial years preceding the date of the grant. The dividend yield for the year is derived by dividing the dividend per share by the average price per share of the respective period.

IIFL FINANCE LIMITED

40.2 Stock option schemes of the Subsidiary Companies:

a. IIFL Home Finance Limited

The Company has IIFL HFL ESOP PLAN-2022, under which options have been granted to eligible employees to be vested from time to time. The plan is established as per the approval granted by the shareholders by a special resolution on August 4, 2022. The Plan is amended vide Board resolution dated June 17, 2023 and approved by shareholders vide resolution dated June 29, 2023.

ESOP will vest to eligible employees as per vesting schedule and vesting ratio. All options will vest with minimum vesting period of 1year and maximum vesting period of 4 years having Graded vesting @ 25%p.a.(vesting ratio of 25:25:25:25).

ESOPs Granted as of April 01, 2024 are performance based grants which will vest to eligible employees as per performance rating in the company over the vesting period every year of graded vesting with option of carry forward benefit for 1 year if employee match target performance rating in next year.

As per ESOP Plan, the Vested Options can be exercised by the Option grantees only in connection with or upon the happening of a Liquidity Event and within such period as prescribed by the Board in this regard.

The Nomination and Remuneration Committee may at any time proceed to settle any or all the unexercised Vested Options held by the Option Grantees, either continuing or separated, by way of cash payment.

Particulars	FY 2024-25		FY 2023-24
Grant Date	January 24, 2025	April 01, 2024	October 01, 2023

Opening ESOP Outstanding Reserve Balance	19.77	-
Expense Recognised/ (Reversed) during the year	57.82	19.77
Closing ESOP Outstanding Reserve Balance	77.59	19.77

b. IIFL Samasta Finance Limited

The Company's Employee Stock Option Plan - 2023 ("ESOP Plan") provide for the grant of stock options to eligible employees. The ESOPs are administered through Direct route by the company. The company transfers share to the eligible employees upon exercise of the options by such employees.

The Company had an ESOP scheme called ESOP Plan 2023. The ESOP plan 2023 came into force on March 24, 2023.

During the financial year 2022-23, the Company has introduced a new stock option scheme namely "ESOS 2023" effective from March 24, 2023. The grant price shall be as decided by the Nomination and Remuneration Committee ('N&RC') of the Company. The number of options and terms could vary at the discretion of the N&RC.

The total number of Employee Stock Options to be granted, which shall not exceed 5% of the Paid up share Capital of the Company, as expanded from time to time, comprising 3,34,21,867 (Three Crores Thirty Four Lakhs Twenty One Thousand Eight Hundred and Sixty Seven) Options which shall be convertible into equal number of Shares

The Company has established share option plans that entitle the employees of the Company to purchase the shares of the Company. Under these plans, holders of the vested options are entitled to purchase shares at the exercise price of the shares determined at the respective date of grant of options. The details of ESOP scheme are as follows:

Particulars	Grant	Number of Options	Vesting period	Vesting Conditions
ESOP Scheme 2023	Grant I	84,41,758	3 Years	20%,40% and 40% vests every year subject to continuance of services.
ESOP Scheme 2023	Grant II	8,17,662		
ESOP Scheme 2023	Grant III	60,37,500		

Grant	Number of ESOPs as on 31-3-2024	Granted during the year	Forfeited during the year	Number of ESOPs as on 31-3-2025	Exercisable 31-03-25
Grant I	69,38,585	-	10,89,106	58,49,479	11,69,896
Grant II	8,17,662	-	3,25,253	4,92,409	98,482
Grant III	59,96,500	-	12,88,500	47,08,000	9,41,600
	1,37,52,747	-	27,02,859	1,10,49,888	22,09,978

Exercise period for all the above schemes is 3 years from the date of grant of the options.

Measurement of fair values

The fair value of the employee share options has been measured using Black-Scholes Option pricing model. For ESOP granted till previous year(s) fair value of each ESOP will remain same as per grant date fair value as determined earlier at time of Grant of options. For Modified options (if any), incremental fair value is calculated on date of modification.

The Fair value (Cost of ESOP) of Equity-settled share-based payment are tabulated below:

Grant Date	Number of ESOPs granted	Number of ESOPs outstanding on 31-03-2025	Fair Value of Vesting Tranche 1	Fair Value of Vesting Tranche 2	Fair Value of Vesting Tranche 3
31-03-2023	84,41,758	58,49,479	6.77	8.35	9.61
21-07-2023	8,17,662	4,92,409	7.54	9.28	10.69
15-01-2024	60,37,500	47,08,000	8.62	10.61	12.21

Grant Date	Number of ESOPs granted	Number of ESOPs outstanding on 31-03-2024	Fair Value of Vesting Tranche 1	Fair Value of Vesting Tranche 2	Fair Value of Vesting Tranche 3
31-03-2023	84,41,758	69,38,585	6.77	8.35	9.61
21-07-2023	8,17,662	8,17,662	7.54	9.28	10.69
15-01-2024	60,37,500	59,96,500	8.62	10.61	12.21

Table showing Weighted average exercise prices of options:

Particulars	FY 2024-25
Outstanding at the beginning of the year	23.62

(Figure in bracket represents previous year figures)

42.3 During the year, the parent Company paid remuneration to the Managing Director in accordance with the terms duly approved by the Board of Directors and the Shareholders, subject to the limits prescribed under Schedule V to the Companies Act, 2013. The Company has inadequate profits for the FY 2024-2025. Consequently, the remuneration paid to the Managing Director exceeded the limits specified under Schedule V, by ₹ 9.88 crores. The Board of Directors has ratified the payment at its meeting and has proposed the matter for Shareholders' approval by way of a special resolution at the forthcoming Annual General Meeting. Pending such approvals, the remuneration paid has been accounted as expense for the year. In accordance with provision contained in section 197(9) of the Act, the excess remuneration is held by the Managing Director in trust for the Company pending such approval.

*0.00 denotes amount less than ₹ fifty thousand

Note 46. Segment Reporting
The Group's primary business segments are reflected based on the principal business carried out, i.e. financing. All other activities of the Group revolve around the main business. The risk and returns of the business of the Group is not associated with geographical segmentation, hence there is no secondary segment reporting based on geographical segment. As such, there are no separate reportable segments as per the Indian Accounting Standard 108 on 'Segment Reporting'.

Note 47. Shared services
The Group operates from and uses the premises, infrastructure and other facilities and services as provided to it by its group companies, which are termed as 'Shared Services'. Hitherto, such shared services consisting of administrative and other revenue expenses paid for by the Group were identified and recovered/recoverable from them based on reasonable management estimates, which are constantly refined in the light of additional knowledge gained relevant to such estimation. These expenses are recovered on an actual basis and the estimates are used only where actual were difficult to determine.

Note 48. On March 04, 2024, the Reserve Bank of India (RBI), under Section 45I(1)(b) of the Reserve Bank of India Act, 1934, directed the parent Company to cease the sanctioning or disbursing of new gold loans and the assignment, securitisation, or sale of existing gold loans with immediate effect. As part of their process RBI initiated a Special Audit by an Independent Professional agency & concluded the same. The parent Company has taken necessary measures to address the identified concerns and prevent their recurrence. Subsequent to this RBI on September 19, 2024 after a careful examination of the submissions made and the remedial actions taken by the parent Company, conveyed its decision to lift the said restrictions with immediate effect. The parent Company has since then commenced its normal business operations.

Note 49: During January 2025, the Income Tax Department conducted a search under the provisions of the Income Tax Act, 1961, at the registered office and other premises of the parent Company and IIFL Home Finance Limited (Subsidiary). The Group has extended full cooperation to the authorities and continues to provide all information, documents, and clarifications as requested. As of the date of these financial statements, the Group has not received any communication from the Department regarding the outcome of the search. Accordingly, the potential financial impact, if any, arising from the search proceedings cannot be ascertained at this stage.

IIFL FINANCE LIMITED

Note 50. The Code on Social Security, 2020

a. Social security means the measures of protection afforded to employees, inclusive of unorganized workers, gig workers and platform workers to ensure access to health care and to provide income security, particularly in cases of old age, unemployment, sickness, invalidity, work injury, maternity or loss of a breadwinner by means of rights conferred on them and schemes framed, under the Code on Social Security, 2020 ("Code").

b. The Code subsumes nine central labour legislations ie., The Employees' Compensation Act, 1923, The Employees' State Insurance Act, 1948, The Employees' Provident Funds and Miscellaneous Provisions Act, 1952, The Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959, The Maternity Benefit Act, 1961, The Payment of Gratuity Act, 1972, The Cine Workers Welfare Fund Act, 1981, The Building and Other Construction Workers Welfare Cess Act, 1996 and the Unorganised Workers' Social Security Act, 2008.

c. The objective of the Code is to amend and consolidate the existing labour laws relating to social security with the wider goal of extending social security benefits to all employees and workers irrespective of belonging to the organised or unorganised sector. The Code brings, within itself the self-employed workers, home workers, wage workers, migrant workers, the workers in the unorganised sector, gig workers and platform workers for the purpose of social security schemes, including life insurance and disability insurance, health and maternity benefits, provident fund.

Note 51. Previous year's figures are regrouped, reclassified and rearranged wherever considered necessary to confirm to current year's presentation.

INDEPENDENT AUDITORS' REPORT

To,
The Members of
IIFL Finance Limited

Report on the Audit of the Standalone financial statements.

Opinion

We have audited the accompanying standalone financial statements of IIFL Finance Limited (the "Company"), which comprise Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to standalone financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its loss, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of standalone financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on standalone financial statements.

Emphasis of Matter

We draw attention to Note 44.3 to the standalone financial statements, which describe the matter relating to excess remuneration as compared to minimum remuneration specified under schedule V to the Act, to the extent of Rs. 9.88 crore paid to the Managing Director of the Company as a result of inadequate profit for the year, and subsequent resolution passed by the Board of Directors of the Company ratifying the same. As stated therein, approval by the Board of Directors is subject to approval by the shareholders of the Company, which is proposed to be taken at the ensuing Annual General Meeting by way of a special resolution. Excess remuneration paid is accounted as expenses for the year and pending the approval, the Managing Director is holding the amount in trust for the Company.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of standalone financial statements of the current period. These matters were addressed in the context of our audit of standalone financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters.

Sr. No.	Key Audit Matters	How our audit addressed the Key Audit Matters
1	**Information technology (IT) systems used in financial reporting process.**	We obtained an understanding of the Company's IT control environment relevant to the audit.

Sharp & Tannan Associates ICAI Regn. No. 109983W Chartered Accountants

G. M. KAPADIA & CO. MUMBAI Chartered Accountants

Sr. No.	Key Audit Matters	How our audit addressed the Key Audit Matters
	The Company's operational and financial processes are dependent on IT systems due to large volume of transactions that are processed daily. The gaps in the IT general control environment could result in a misstatement of the financial accounting. Proper IT general and application controls are essential to ensure accurate, complete, and consistent data processing for reliable financial reporting. We therefore identified IT systems and controls with reference to standalone financial statements as a key audit matter for the Company.	We tested the design, implementation and operating effectiveness of the Company's General IT controls over the key IT systems which are critical to financial reporting. For these elements of the IT infrastructure the areas of our focus included access security (including controls over privileged access), program change controls, database management and network operations. In particular: 1. We tested the design, implementation, and operating effectiveness of the Company's general IT controls over the IT systems relevant to financial reporting. This included evaluation of Company's controls over segregation of duties and access rights being provisioned / modified based on duly approved requests, access for exit cases being revoked in a timely manner and access of all users being recertified during the period of audit. 2. We also tested key automated business cycle controls and logic for the reports generated through the IT infrastructure that were relevant for financial reporting or were used in the exercise of internal financial controls with reference to financial statements. Our tests included testing of the compensating controls or alternate procedures to assess whether there were any unaddressed IT risks that would materiality impact the Financial Statements.
2	**Allowances for Expected credit loss on Loans ("ECL"):** As on March 31, 2025, the carrying value of the loan assets measured at amortised cost and fair value through other comprehensive income aggregated to Rs. 22,867 crores (net of allowance of expected credit loss of Rs. 437 crores) out of the total assets amounting to Rs. 32,114 crores. Since the loans and advances form a major portion of the Company's assets, and due to the significance of the judgments used in classifying loans and advances into various stages and identifying loans which are measured at fair value through other comprehensive income as stipulated in Ind AS 109 and the management estimation of the related impairment provisions, this is considered to be a key audit matter. The Company's impairment allowance is derived from estimates including the	Our audit approach was a combination of test of internal controls and substantive procedures which included the following: 1. Evaluating the Company's accounting policies, as approved by the Board of Directors, for impairment of loans. 2. Obtained an understanding of the modelling techniques / models adopted by the Company including the key inputs and assumptions. 3. We assessed the design and implementation of key internal financial controls with respect to computation of provisioning requirements in terms of RBI guidelines 4. Tested the design and effectiveness of controls related to: • The completeness and accuracy of Exposure at Default (EAD) and the classification of such exposure into stages, as per the Board-approved policy.

Sr. No.	Key Audit Matters	How our audit addressed the Key Audit Matters
	historical default and loss ratios. Management exercises judgement in determining the quantum of loss based on a range of factors. The most significant areas are: - Segmentation of loan book - Identification of loans to be measured at fair value through other comprehensive income - Determination of exposure at default - Qualitative and quantitative factors used in staging criteria for loans - basis of estimation and calculation of probability of default / Loss given default for each segment - Consideration of probability weighted scenarios and forward looking macro-economic factors The application of ECL model requires several data inputs. This increases the risk of completeness and accuracy of the data that has been used to create assumptions in the model. Refer Note 38A.3 to standalone financial statements for disclosures.	• The accuracy and relevance of information used in estimating Probability of Default (PD) and Loss Given Default (LGD). • Tested the ECL model, including assumptions, underlying computation of ECL provision performed by the Company on sample basis to assess the arithmetical accuracy. • Completeness and accuracy of the staging of the loans and the underlying data based on which the ECL estimates were computed. • We also made enquiries with the management in respect of justification and quantum of the management overlay.

Information Other than standalone financial statements and Auditors' Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Annual report but does not include standalone financial statements and our report thereon. Annual report is expected to be made available to us after the date of this report.

Our opinion on standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of standalone financial statements, our responsibility is to read the other information when it becomes available and, in doing so, consider whether the other information is materially inconsistent with standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 "The Auditors Responsibilities Relating to Other Information".

Responsibilities of Management and Those Charged with Governance for standalone financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of

Sharp & Tannan Associates * Chartered Accountants * ICAI Regn. No. 109983W

G. M. KAPADIA & CO. * Chartered Accountants * MUMBAI

appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management and the Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of standalone financial statements

Our objectives are to obtain reasonable assurance about whether standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of standalone financial statements, including the disclosures, and whether standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in standalone financial statements.

Sharp & Tannan Associates ICAI Regn. No. 109983W Chartered Accountants

G. M. KAPADIA & CO. MUMBAI Chartered Accountants

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The standalone financial statements includes the comparative financial information for the year ended March 31, 2024 which were audited by one of the joint auditors and one of the predecessor auditors and they have issued unmodified opinion vide their report dated June 15, 2024.

Our opinion is not modified in respect of this other matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of section 143(11) of the Act, we give in **"Annexure A"** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by section 143(3) of the Act, we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of standalone financial statements.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account maintained for the purpose or preparation of standalone financial statements.

   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

   e) On the basis of the written representations received from the directors as on March 31, 2025, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025, from being appointed as a director in terms of section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls with reference to the standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in **"Annexure B"**.

   g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, we report that the remuneration paid to the managing director is in excess of the limit laid down under section 197 of the Act. In this regard we invite attention to note no 44.3 to the standalone financial statements and Emphasis of Matter section of this report.

   h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 ("the Rules"), in our opinion and to the best of our information and according to the explanations given to us:

Sharp & Tannan Associates * Chartered Accountants * ICAI Regn. No. 109983W

G. M. KAPADIA & CO. * Chartered Accountants * MUMBAI

i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements- Refer Note No 39 of standalone financial statements.

ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.

iii. There has not been any delay in transferring amounts which requires to be transferred to the Investor Education and Protection Fund by the Company during the year.

iv. (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries-(Refer note no.41(iv)(A))

(b) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries- (Refer note nO.41(iv)(B)); and

(c) In our opinion and based on the audit procedures, we have considered reasonable and appropriate in the circumstances; nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v. During the year the Company has not declared / paid any dividend, hence reporting under rule 11 (f) of the Rules is not applicable to that extent.

vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of accounts for the financial year ended March 31, 2025, which has a feature of recording Audit Trail (edit log facility) and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tempered with and the audit trail (edit log) has been preserved by the Company as per the statutory requirements for record retention.

Annexure A referred to paragraph 1 under the heading "Report on Other Legal and Regulatory Requirements" in our report of even date to the members of IIFL Finance Limited on the financial statement for the year ended March 31, 2025.

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

3(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right of use of assets.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) The Company has a program of verification of Property, Plant and Equipment including Right of Use Assets to cover all the items at major locations in a phased manner over a period of three years which, in our opinion, is reasonable having regard to the size of the company and the nature of its assets. Pursuant to such programme, the physical verification of Property, Plant and Equipment including Right of Use Assets was carried out by the management during the previous financial year and on the basis of explanation received no material discrepancies were noticed during the verification.

(c) The title deeds of all the immovable properties held as Property, Plant & Equipment and Investment Properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) are held in the name of the Company. The title deeds of rights in the immovable properties held as Investment Property Under Construction are pending execution in the name of the Company. However, necessary allotments from the developers are in the name of the Company. As stated in note no 12, such rights in the properties were acquired during the year and it's carrying value is Rs. 575 crores.

(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets during the year.

(e) There are no proceedings initiated during the year or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

3(ii) (a) The Company does not have any inventory and accordingly, the requirement to report on paragraph 3(ii)(a) of the Order is not applicable to the Company.

(b) The Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate from banks / financial institutions on the basis of security of current assets namely financial asset. The information furnished by the Company on quarterly basis are in agreement with the books of accounts of the Company.

3(iii) (a) The Company's principal business is to give loans and accordingly, the provisions stated in paragraph 3(iii)(a) of the Order are not applicable to the Company.

(b) In our Opinion the terms and conditions in relations to the investments made, guarantees provided, security given and / or grant of all loans and advances in the nature of loans and guarantees are prima facie not prejudicial to the interest of the Company.

(c) The Company, being a Non-Banking Financial Company, is registered under provisions of Reserve Bank of India Act, 1934 and rules made there under, in pursuance of its compliance with provisions of the said act, particularly, the Income Recognition, Asset Classification and Provisioning norms and generally accepted business practices by the lending institutions, repayments schedules are stipulated basis the nature of loan products. Refer note 38A.1 to the standalone financial statements for summarized details of loans / advances which are not repaid by the borrowers as per the stipulations. Having regard to the voluminous nature of loan transactions, it is not practicable to furnish entity-wise details of the amounts, due date of repayment or receipt and extent of delay in this report (as suggested in the Guidance Note on CARO 2020, issued by the Institute of Chartered Accountants of India for reporting under this paragraph), in respect of loans and advances which are not repaid / paid when they were due or were repaid / paid with a delay, in the normal course of lending business.

(d) In respect of loans and advances in the nature of loans, the total amount of cases which are overdue for more than ninety days as at March 31, 2025 is Rs. 423.69 crores with respect to 64,325 borrowers. In such instances, in our opinion reasonable steps have been taken by the Company for recovery of the overdue amount of principal and interest.

(e) The Company's principal business is to give loans accordingly, the requirement to report on paragraph 3(iii)(e) of the Order is not applicable to the Company.

(f) The Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment. Accordingly, the requirement to report on paragraph 3(iii)(f) of the Order is not applicable to the Company.

3(iv) Loans, Investments, Guarantees and security in respect of which the provisions of sections 185 and 186 of the Companies Act, 2013, are applicable have been complied with by the Company.

3(v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits, within the meaning of section 73 to 76 of the Companies Act, 2013 and Rules framed thereunder, to the extent applicable. Accordingly, the requirement to report on paragraph 3(iii)(v) of the Order is not applicable to the Company.

3(vi) The maintenance of cost records has not been specified by Central Government under Section 148(1) of the Companies Act, 2013 for the Company. Accordingly, the requirement to report on paragraph 3(vi) of the Order is not applicable to the Company.

3(vii)(a) The Company is generally regular in depositing undisputed statutory dues including provident fund, employees state insurance, income tax, goods and services tax, cess and other statutory dues as applicable to the Company with the appropriate authorities. The provisions of sales tax, value added tax, service tax, customs duty, excise duty and cess are not applicable to the Company.

There were no undisputed amounts payable in respect of these statutory dues in arrears as at March 31, 2025, for a period of more than six months from the date they became payable.

(b) The dues of provident fund, employees state insurance, income tax, goods and services tax, sales tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues applicable to the Company, which have not been deposited on account of any dispute as at March 31, 2025 are as follows.

(*) The amount of tax refunds of certain years adjusted by the income tax department against outstanding disputed tax demand is under reconciliation by the Company, by obtaining details from the department. Pending completion of such reconciliation, the amount of taxes paid disclosed above do not include effect of such adjustments, if any.

3(viii) There are no transactions which are not accounted in the books of account which have been surrendered or disclosed as income during the year in the tax assessments of the Company. Also, there are no previously unrecorded income which has been now recorded in the books of accounts. Accordingly, the requirement to report on paragraph 3(viii) of the Order is not applicable to the Company.

3(ix) (a) The Company has not defaulted in repayment of loans or borrowings or in the payment of interest thereon to any lender during the year.

(b) The Company has not been declared as wilful defaulter by any bank or financial institution or other lender during the year.

(c) Money raised during the year by the Company by way of term loans has been applied for the purpose for which they were raised.

(d) On an overall examination of the standalone financial statements of the Company, no funds raised on short term basis have been prima facie used for long term purposes during the year by the Company.

(e) On an overall examination of the standalone financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries. The Company does not have any associates or joint ventures.

(f) The Company has not raised any loans during the year on the pledge of securities held in its subsidiaries. Accordingly, the requirement to report on paragraph 3(ix)(f) of the Order is not applicable to the Company. The Company does not have any associates or joint ventures.

3(x) (a) The money raised by way of initial public offer or further public offer (including debt instruments) have been applied by the Company during the year for the purposes for which they were raised.

(b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partially or optionally convertible). Accordingly, the requirement to report on paragraph 3(x)(b) of the Order is not applicable to the Company. In case of shares issued to the employees under Employee Option scheme the requirements of section 62 or the Act have been complied with and the funds raised have been used for the purposes for which funds were raised.

3(xi) (a) During the year the Company has come across fraud amounting to Rs.2.55 crores in respect of its lending operations out of the same Rs. 0.06 Crore have been recovered please refer Note 53 to the standalone financial statements. No fraud by the Company has been noticed or reported during the year.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.

(c) We have taken into consideration the whistle blower complaints received by the Company during the year, while determining the nature, timing, and extent of our audit procedures.

(c) The Company is a not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India Accordingly, the requirement to report on paragraph 3(xvi)(c) of the Order is not applicable to the Company.

(d) There is no core investment Company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) Accordingly, the requirement to report on paragraph 3(xvi)(d) of the Order is not applicable to the Company.

3(xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.

3(xviii) One of the predecessor joint auditors of the Company have completed its term of appointment during the year pursuant to the requirements of the guidelines for appointment of statutory central auditors (SCAs) / statutory auditors (SAs) of the commercial banks (excluding RRBs), UCBs and NBFCs (Including HFCs) dated April 27, 2021, issued by Reserve bank of India, and there are no issues objections or concerns raised by the outgoing auditor. Accordingly, such change in the auditor is not on account of resignation of the outgoing auditor.

3(xix) On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

3(xx)(a) In respect of other then ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount as at the end of the current financial year, to a fund specified in Schedule VII of the Companies Act, 2013 (the "Act"), in compliance with second proviso to sub section 5 of section 135 of the Act, this matter has been disclosed in note 45to the standalone financial statements.

Annexure B referred to paragraph 2(f) under the heading "Report on Other Legal and Regulatory Requirements" in our report of even date to the members of IIFL Finance Limited on the financial statement for the year ended March 31, 2025.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Opinion

We have audited the internal financial controls with reference to standalone financial statements of IIFL Finance Limited ("the Company") as of March 31, 2025, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, to the best of the information given to us the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such controls were operating effectively as at March 31, 2025, based on the criteria for internal financial controls over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI")

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility for the Audit of the Internal Financial Controls with Reference to Standalone Financial Statements

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, and the Guidance Note on issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls with Reference to Standalone Financial Statements

A Company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to standalone financial statements include those policies and procedures that (1)

Sharp & Tannan Associates * Chartered Accountants * ICAI Regn. No. 109983W

G. M. KAPADIA & CO. * Chartered Accountants * MUMBAI

pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on standalone financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

1. **Share application money pending allotment:** Money received for share application for which allotment is pending.
2. **Capital reserves:** Capital reserve is created on account of composite scheme of arrangement.
3. **Securities premium reserve:** The amount received in excess of face value of the equity shares is recognised in securities premium reserve. Share issue expense on account of right issue during the year have been utised from the secutities premium reserve.
4. **General reserve:** The reserve can be distributed/ utilised by the Company, in accordance with The Companies Act, 2013.
5. **Special reserve:** Pursuant to section 45-IC of the Reserve Bank of India Act, 1934, Company is required to transfer 20% of the profit after tax from retained earnings to special reserve. In absence of profit during the current year, no reserve have been transferred from retained earnings to special reseve.
6. **Capital redemption reserve:** This reserve has been created on redemption of preference shares capital as per section 55 of The Companies Act, 2013.
7. **Debenture redemption reserve:** Pursuant to Section 71 of The Companies Act, 2013 read with Rule 18 of the Companies (Share Capital and Debentures) Rules, 2014 the Company being an NBFC is required to create Debenture Redemption Reserve of a value equivalent to 25% of the debentures offered through public issue. Pursuant to Ministry of Corporate Affairs circular dated August 16, 2019, reserve is not required to be created for the Non Convertible Debentures going forward.
8. **Retained earnings:** These are the profits that the Company has earned till date, less any transfers to statutory reserve, debenture redemption reserve, general reserve, dividend distribution and capital redemption reserve.
9. **Stock option outstanding account:** The employee stock options reserve represents reserve in respect of equity settled share options granted to the employees of the Company and its Group in pursuance of employee stock options plan.
10. **Effective portion of cash flow hedge**: These reserve refers to changes in the fair value of Derivative Financial Contracts which are designated as effective Cash Flow Hedge.
11. **Remeasurements of defined benefit:** This reserve refers to remeasurement of gains and losses arising from experience adjustments, changes in actuarial assumptions and return on plan assets of the defined benefit plan.

Note 1. CORPORATE INFORMATION:

Company overview

IIFL Finance Limited (the "Company") is a middle layer Non-Banking Financial Company not accepting public deposits registered with the Reserve Bank of India ("the RBI") under section 45-IA of the Reserve Bank of India Act, 1934 and primarily engaged in financing and related activities. The Company received the certificate of registration from RBI on March 06, 2020, enabling the Company to carry on business as a Non-Banking Financial Company. The Company offers a broad suite of financial products and deals majorly into loans such as gold loan, loans to Micro, small & medium enterprise ("MSME"), loan against securities and digital finance loans.

The audited financial statements were subject to review and recommendation of Audit Committee and approval of Board of Directors. On May 08, 2025, Board of Directors of the Company approved and recommended the audited financial statements for consideration and adoption by the shareholders in its Annual General Meeting.

Note 2. BASIS OF PREPARATION AND PRESENTATION OF FINANCIAL STATEMENTS:

The financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period as explained in the accounting policies below and the relevant provisions of The Companies Act, 2013 ("Act").

Accounting policies have been consistently applied except where a newly issued Accounting Standard is initially adopted or a revision to an existing Accounting Standard requires a change in the accounting policy hitherto in use.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/ or disclosure purposes in these financial statements is determined on such a basis, except for share based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as value in use in Ind AS 36.

Fair value measurements under Ind AS are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date;
- Level 2 inputs are inputs, other than quoted prices included within level 1,(that are not traded in active market) that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the valuation of assets or liabilities.

(a) Use of estimates and judgments

The preparation of the financial statements in conformity with Indian Accounting Standards ("Ind AS") requires the management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates can change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which these changes are made and, if material, their effects are disclosed in the notes to the financial statements.

The Financial Statements are presented in Indian rupees which is determined to be functional currency of the Company and the currency of primary economic environment in which the Company operates.

(b) Statement of compliance

The standalone financial statements of the Company have been prepared in accordance with the provisions of the Act and Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 issued by Ministry of Corporate Affairs in exercise of the powers conferred by section 133 read with sub-section (1) of section 210A of the Companies Act, 2013 along with the applicable guidelines issued by Reserve Bank of India ("RBI"). In addition, the guidance notes/ announcements issued by the Institute of Chartered Accountants of India ("ICAI") are also applied except where compliance with other statutory promulgations requires a different treatment.

(c) Presentation of financial statements

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Division III to Schedule III to Act applicable for Non-Banking Finance Companies ("NBFC"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the Financial Statements along with the other notes required to be disclosed under the notified Accounting Standards and regulations issued by the RBI.

Note 3. MATERIAL ACCOUNTING POLICIES

(a) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured and there exists reasonable certainty of its recovery.
Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

i. Interest income and dividend income:

Interest income on financial instruments at amortised cost is recognised on a time proportion basis taking into account the amount outstanding.

Interest on financial instruments measured at fair value is included within the fair value movement during the period.

The EIR is the rate that exactly discounts estimated future cash flows of the financial instrument through the expected life of the financial instrument or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The calculation of the EIR includes all fees paid or received between parties to the contract that are incremental and directly attributable to the specific lending arrangement, transaction costs, and all other premiums or discounts. For financial assets at fair value through profit and loss ("FVTPL"), transaction costs are recognised in the Statement of Profit and Loss at initial recognition.

Dividend on equity shares, preference shares and on mutual fund units is recognised as income when the right to receive the dividend is established.

ii. Fees and charges:

Fees and charges include fees other than those that are an integral part of EIR. The fees included in this part of the Company's Statement of Profit and Loss include, among other things, fees charged for servicing a loan.

Cheque bounce charges, late payment charges and foreclosure charges are recognised on a point-in-time basis and are recorded when realised.

Fee and commission expenses with regards to services are accounted for as and when the services are delivered.

iii. Income from financial instruments at FVTPL:

Income from financial instruments at FVTPL includes all gains and losses from changes in the fair value of financial assets and financial liabilities at FVTPL.

iv. Assignment transactions:

In accordance with Ind AS 109, assignment transactions with complete transfer of risks and rewards without any retention of residual interest, gain arising on such assignment transactions is recorded upfront in the Statement of Profit and Loss and the corresponding asset is derecognised from the Balance Sheet immediately upon execution of such transaction. Further, the transfer of financial assets qualifies for derecognition in its entirety, the whole of the interest spread at its present value (discounted over the behavioural tenure of the asset) is recognised on the date of derecognition itself as interest only strip receivable (interest strip on assignment) and correspondingly recognised as profit on derecognition of financial asset.

v. Securitisation transactions

In accordance with Ind AS 109, in case of securitisation transactions, the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

G. M. KAPADIA & CO. MUMBAI Chartered Accountants
Sharp & Tannan Associates Reg. No. 109983W Chartered Accountants

vi. Other operational revenue

Other operational revenue represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

(b) Property, plant and equipment ("PPE")

PPE is recognised when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. PPE is stated at original cost net of tax, if any, less accumulated depreciation. Cost includes professional fees related to the acquisition of PPE and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy.

Depreciation is charged using the straight-line method, based on the useful life of PPE as estimated by the Management, as specified below. Depreciation is charged from the month in which new assets are available for use. No depreciation is charged from the month in which assets are sold. In case of transfer of used PPE from group companies, depreciation is charged over the remaining useful life of the asset. Individual assets / group of similar assets costing up to ₹ 5,000 have been depreciated in full in the year of purchase.

The estimated useful life of assets is as under:

Class of assets	Useful life
Buildings	20 years
Computers	3 years
Office equipment	5 years
Plant and Equipment	5 years
Furniture and fixtures	5 years
Vehicles	5 years

For above class of assets, based on internal assessment and independent technical evaluation carried out by external valuers, the Management believes that the useful lives as given above best represent the period over which Management expects to use these assets.

An item of PPE is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of PPE is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

Capital work in progress

Projects under which PPE are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest and are disclosed as "capital work-in-progress".

(c) Intangible assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax, less accumulated amortisation and cumulative impairment.

G. M. KAPADIA & CO. MUMBAI Chartered Accountants
Sharp & Tannan Associates Chartered Accountants ICAI Regn. No. 109983W
IIFL FINANCE LIMITED

Intangible assets i.e. Software are amortised on straight-line basis over the estimated useful life of 3 years.

Amortisation on impaired assets is provided by adjusting the amortisation charge in the remaining periods so as to allocate the assets revised carrying amount over its remaining useful life.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

Intangible assets under development
Intangible assets not ready for their intended use on the Balance Sheet date are disclosed as "Intangible assets under development".

(d) Investment property

Investment properties are properties held to earn rentals and/ or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost, net of accumulated depreciation and accumulated impairment loss, if any.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in Statement of Profit and Loss in the period in which the Investment property is derecognised.

Freehold land and properties under construction are not depreciated.

(e) Non-current Assets held for Sale

Non-current assets are classified as held for sale if their carrying amount is intended to be recovered principally through a sale (rather than through continuing use) when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset and the sale is highly probable and is expected to qualify for recognition as a completed sale within one year from the date of classification. Non-current assets classified as held for sale are measured at lower of their carrying amount and fair value less costs to sell.

(f) Impairment of assets

As at the end of each accounting year, the Company reviews the carrying amounts of its PPE, intangible assets and investment property assets to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the PPE, intangible assets and investment property are tested for impairment so as to determine the impairment loss, if any.

Recoverable amount is the higher of fair value less costs of disposal and value in use. If recoverable amount of an asset is estimated to be less than its carrying amount, such deficit is recognised immediately in the Statement of Profit and Loss as impairment loss and the carrying amount of the asset is reduced to its recoverable amount.

When an impairment loss is subsequently reversed, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, to an extent that it does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss.

(g) Share-based payment arrangements

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

Securities premium includes:

- The difference between the face value of the equity shares and the consideration received in respect of shares issued pursuant to Stock Option Scheme.
- The fair value of the stock options which are treated as expense, if any, in respect of shares allotted pursuant to Stock Options Scheme

(h) Employee benefits

Defined contribution plans

The Company's contribution towards Provident Fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees and are accounted for on an accrual basis and recognised in the Statement of Profit and loss.

Defined benefit plans

Short term employee benefits: Employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits and are expensed in the period in which the employee renders the related service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service. These benefits include performance incentive and compensated absences.

Post employment benefits: The employees' gratuity fund scheme represents defined benefit plan. The present value of the obligation under defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows using a discount rate based on the market yield on government securities of a maturity period equivalent to the weighted average maturity profile of the defined benefit obligations at the Balance Sheet date.

Re-measurement, comprising actuarial gains and losses, the return on plan assets (excluding amounts included in net interest on the net defined benefit liability or asset) and any change in the effect of asset ceiling (if applicable) is recognised in other comprehensive income and is reflected in retained earnings and the same is not eligible to be reclassified to the Statement of Profit and Loss.

G. M. KAPADIA & CO. MUMBAI Chartered Accountants
Sharp & Tannan Associates Chartered Accountants Regn. No. 109983W

Defined benefit costs comprising current service cost, past service cost and gains or losses on settlements are recognised in the Statement of Profit and Loss as employee benefit expenses. Gains or losses on settlement of any defined benefit plan are recognised when the settlement occurs. Past service cost is recognised as expense at the earlier of the plan amendment or curtailment and when the Company recognises related restructuring costs or termination benefits.

In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognise the obligation on a net basis.

Long term employee benefits: The obligation recognised in respect of long term benefits being long term compensated absences, is measured at present value of estimated future cash flows expected to be made by the Company and is recognised in a similar manner as in the case of defined benefit plan above.

(i) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented.

(j) Taxes on income

Current tax

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Company's financial statements and the corresponding tax bases used in computation of taxable profit and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date.

Deferred tax is not recognized for:
- Temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss
- Temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

- Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on business plans and the reversal of temporary differences.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. For this purpose, the carrying amount of investment property measured at fair value is presumed to be recovered through sale, and the company has not rebutted this presumption.

For transactions and other events recognised in profit or loss, any related tax effects are also recognised in profit or loss. For transactions and other events recognised outside profit or loss (either in other comprehensive income or directly in equity), any related tax effects are also recognised outside profit or loss (either in other comprehensive income or directly in equity, respectively).

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off assets against liabilities, representing current tax and where the deferred tax assets and deferred tax liabilities relates to taxes on income levied by the same governing taxation laws.

Current and deferred tax for the year

Current and deferred tax are recognised in the Statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(k) Financial instruments

Financial assets and financial liabilities are recognised in the Company's Balance Sheet when the Company becomes a party to the contractual provisions of the instrument.

Recognised financial assets and financial liabilities are initially measured at fair value. Transaction costs and revenues that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs and revenues directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in the Statement of Profit and Loss.

Financial assets
Classification and measurement

The Company classifies its financial assets into the following measurement categories: amortised cost; fair value through other comprehensive income; and fair value through profit or loss.

All recognised financial assets that are within the scope of Ind AS 109 are required to be subsequently measured at amortised cost or fair value on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Financial instruments measured at amortised cost

Debt instruments that meet the following criteria are measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

For the purpose of SPPI test, principal is the fair value of the financial asset at initial recognition. The principal amount may change over the life of the financial asset (e.g. if there are repayments of principal). Interest consists of consideration for the time value of money, for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin. The SPPI assessment is made in the currency in which the financial asset is denominated.

Contractual cash flows that are SPPI are consistent with a basic lending arrangement. Contractual terms that introduce exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement, such as exposure to changes in equity prices or commodity prices, do not give rise to contractual cash flows that are SPPI. An originated or an acquired financial asset can be a basic lending arrangement irrespective of whether it is a loan in its legal form.

An assessment of business models for managing financial assets is fundamental to the classification of a financial asset. The Company determines the business models at a level that reflects how financial assets are managed together to achieve a particular business objective. The Company's business model does not depend on management's intentions for an individual instrument, therefore the business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

Debt instruments that are subsequently measured at amortised cost are subject to impairment.

Financial instruments measured at fair value through other comprehensive income ("FVTOCI")

Debt instruments that meet the following criteria are measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in Statement of profit and loss for FVTOCI debt instruments. Other changes in fair value of FVTOCI financial assets are recognised in other comprehensive income. When the asset is disposed of, the cumulative gain or loss previously accumulated in reserve is transferred to Statement of Profit and Loss.

Financial instruments measured at fair value through Profit and Loss ("FVTPL")

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the

G. M. KAPADIA & CO. MUMBAI Chartered Accountants
Sharp & Tannan Associates ICAI Regn. No. 109983W Chartered Accountants

acquisition of the financial asset. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Instruments that do not meet the amortised cost or FVTOCI criteria are measured at FVTPL. Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in the Statement of Profit and Loss. The gain or loss on disposal is recognised in the Statement of Profit and Loss.

Interest income is recognised in the Statement of Profit and Loss for FVTPL debt instruments. Dividend on financial assets at FVTPL is recognised when the Company's right to receive dividend is established.

Investments in equity instruments at FVTOCI

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to Statement of Profit and Loss on disposal of the investments. Dividends from these investments are recognised in the Statement of Profit and Loss when the Company's right to receive dividends is established.

Reclassifications

If the business model under which the Company holds financial assets changes, the financial assets affected are reclassified. The classification and measurement requirements related to the new category apply prospectively from the first day of the first reporting period following the change in business model that result in reclassifying the Company's financial assets. Changes in contractual cash flows are considered under the accounting policy on modification and derecognition of financial assets described below.

Impairment of financial assets

Company recognizes loss allowances using the Expected Credit Loss ("ECL") model for the financial assets which are not fair valued through profit and loss. ECL is calculated using a model which captures portfolio performance over a period of time. ECL is a probability-weighted estimate of credit losses. A credit loss is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive discounted at the original EIR. Vintage loss curve model is used for ECL computation of retail portfolio which involves assessment of performance of segmented portfolio over a time period. The model tracks month-wise losses during the loan tenor. Vintage loss rate models provide a simple, reasonable model for both one-year and lifetime expected credit loss forecasts. For wholesale portfolio, ECL computation is done for each loan account based on CRISIL default study and International Review Board ("IRB") guidelines. Additionally, forecasts of future macro situations and economic conditions are considered as part of forward economic guidance (FEG) model. Forward looking economic scenarios determined with reference to external forecasts of economic parameters that have demonstrated a linkage to the performance of our portfolios over a period of time have been applied to determine impact of macro-economic factors.

ECL is measured through a loss allowance at an amount equal to:

- 12-month ECL, i.e. ECL that result from those default events on the financial instrument that are possible within 12 months after the reporting date (referred to as Stage 1); or
- full lifetime ECL, i.e. lifetime ECL that result from all possible default events over the life of the financial instrument (referred to as Stage 2 and Stage 3).

A loss allowance for full lifetime ECL is required for a financial instrument if the credit risk on that financial instrument has increased significantly since initial recognition. For all other financial instruments, ECLs are measured at an amount equal to the 12-month ECL.

The Company measures ECL on an individual basis, or on a collective basis for portfolios of loans that share similar economic risk characteristics. The measurement of the loss allowance is based on the present value of the asset's expected cash flows using the asset's original EIR, regardless of whether it is measured on an individual basis or a collective basis.

Key elements of ECL computation are outlined below:

- Probability of default ("PD") is an estimate of the likelihood that customer will default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously de-recognised and is still in the portfolio.
- Loss given default ("LGD") estimates the normalised loss which Company incurs post customer default. It is usually expressed as a percentage of the Exposure at default ("EAD").
- Effective interest rate ("EIR") is the rate that discounts estimated future cash flows through the expected life of financial instrument. For calculating EIR any upfront fees needs to be excluded from the loans and advance amount.

Credit impaired financial assets

A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Credit-impaired financial assets are referred to as Stage 3 assets. Evidence of credit-impairment includes observable data about the following events:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- the disappearance of an active market for a security because of financial difficulties; or
- the purchase of a financial asset at a deep discount that reflects the incurred credit losses.

A loan is considered credit-impaired when a concession is granted to the borrower due to a deterioration in the borrower's financial condition, unless there is evidence that as a result of granting the concession the risk of not receiving the contractual cash flows has reduced significantly and there are no other indicators of impairment.

Definition of default

Critical to the determination of ECL is the definition of default. The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL, as default is a component of the probability of default ("PD") which affects both the measurement of ECLs and the identification of a significant increase in credit risk.

Default considered for computation of ECL computation is as per the applicable prudential regulatory norms.

Significant increase in credit risk

The Company monitors all financial assets, issued loan commitments and financial guarantee contracts that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. The Company's accounting policy is not to use the practical expedient that financial assets with 'low' credit risk at the reporting date are deemed not to have had a significant increase in credit risk.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognised. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort, based on the Company's expert credit assessment.

Modification and derecognition of financial assets

A modification of a financial asset occurs when the contractual terms governing the cash flows of a financial asset are renegotiated or otherwise modified between initial recognition and maturity of the financial asset. A modification affects the amount and/ or timing of the contractual cash flows either immediately or at a future date. In addition, the introduction or adjustment of existing covenants of an existing loan would constitute a modification even if these new or adjusted covenants do not yet affect the cash flows immediately but may affect the cash flows depending on whether the covenant is or is not met (e.g. a change to the increase in the interest rate that arises when covenants are breached).

The Company renegotiates loans to customers in financial difficulty to maximise collection and minimise the risk of default. Loan forbearance is granted in cases where although the borrower made all reasonable efforts to pay under the original contractual terms, there is a high risk of default or default has already happened and the borrower is expected to be able to meet the revised terms. The revised terms in most of the cases include an extension of the maturity of the loan, changes to the timing of the cash flows of the loan (principal and interest repayment), reduction in the amount of cash flows due (principal and interest forgiveness) and amendments to covenants.

When a financial asset is modified, the Company assesses whether this modification results in derecognition. In accordance with the Company's policy, a modification results in derecognition when it gives rise to substantially different terms. To determine if the modified terms are substantially different from the original contractual terms the Company considers the following:

Qualitative factors, such as contractual cash flows after modification are no longer SPPI, change in currency or change of counterparty, the extent of change in interest rates, maturity, covenants. If these do not clearly indicate a substantial modification, then a quantitative assessment is performed to compare the present value of the remaining contractual cash flows under the original terms with the contractual cash flows under the revised terms, both amounts discounted at the original effective interest.

In the case where the financial asset is derecognised, the loss allowance for ECL is remeasured at the date of derecognition to determine the net carrying amount of the asset at that date. The difference between this revised carrying amount and the fair value of the new financial asset with the new terms will lead to a gain or loss on derecognition. The new financial asset will have a loss allowance

measured based on 12-month ECL except in the rare occasions where the new loan is considered to be originated-credit impaired. This applies only in the case where the fair value of the new loan is recognised at a significant discount to its revised par amount because there remains a high risk of default which has not been reduced by the modification. The Company monitors credit risk of modified financial assets by evaluating qualitative and quantitative information, such as if the borrower is in past due status under the new terms.

When the contractual terms of a financial asset are modified and the modification does not result in derecognition, the Company determines if the financial asset's credit risk has increased significantly since initial recognition.

For financial assets modified, where modification did not result in derecognition, the estimate of PD reflects the Company's ability to collect the modified cash flows taking into account the Company's previous experience of similar forbearance action, as well as various behavioural indicators, including the borrower's payment performance against the modified contractual terms. If the credit risk remains significantly higher than what was expected at initial recognition the loss allowance will continue to be measured at an amount equal to lifetime ECL. The loss allowance on forborne loans will generally only be measured based on 12-month ECL when there is evidence of the borrower's improved repayment behaviour following modification leading to a reversal of the previous significant increase in credit risk.

Where a modification does not lead to derecognition the Company calculates the modification gain/ loss comparing the gross carrying amount before and after the modification (excluding the ECL allowance). Then the Company measures ECL for the modified asset, where the expected cash flows arising from the modified financial asset are included in calculating the expected cash shortfalls from the original asset.

Derecognition of financial assets

The Company derecognises a financial asset only when the contractual rights to the asset's cash flows expire (including expiry arising from a modification with substantially different terms), or when the financial asset and substantially all the risks and rewards of ownership of the asset are transferred to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain/loss that had been recognised in OCI and accumulated in equity is recognised in the Statement of Profit and Loss, with the exception of equity investment designated as measured at FVTOCI, where the cumulative gain/loss previously recognised in OCI is not subsequently reclassified to the Statement of Profit and Loss.

Write-off

Loans and debt securities are written off when the Company has no reasonable expectations of recovering the financial asset (either in its entirety or a portion of it). This is the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. A write-off constitutes a derecognition event. The Company may apply enforcement activities to financial assets written off.

G. M. KAPADIA & CO. MUMBAI Chartered Accountants
Sharp & Tannan Associates ICAI Regn. No. 109983W Chartered Accountants

Recoveries resulting from the Company's enforcement activities will result in impairment gains.

Financial liabilities and equity Instruments

Debt and equity instruments that are issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Compound instruments

The component parts of compound instruments (e.g. convertible notes) issued by the Company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments.

A conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently re-measured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to other component of equity. Where the conversion option remains unexercised at the maturity date of the convertible note, the balance recognised in equity will be transferred to retained earnings. No gain/ loss is recognised in Statement of Profit and Loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the convertible notes are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are recognised directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortised over the life of the convertible notes using the effective interest rate method.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest rate method.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest rate method.

The effective interest rate method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet only if there is an enforceable legal right to offset the recognised amounts with an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously

(l) Investment in subsidiaries

Investment in subsidiaries is recognised at cost and is not adjusted to fair value at the end of each reporting period as allowed by Ind AS 27 'Separate financial statement'. Cost of investment represents amount paid for acquisition of the said investment.

The Company assesses at the end of each reporting period, if there are any indications that the said investment may be impaired. If so, the Company estimates the recoverable value/amount of the investment and provides for impairment, if any i.e. the deficit in the recoverable value over cost.

(m) Cash and bank balances

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Cash and bank balances also include fixed deposits, margin money deposits, earmarked balances with banks and other bank balances which have restrictions on repatriation. Short term and liquid investments being subject to more than insignificant risk of change in value, are not included as part of cash and cash equivalents.

(n) Goods and service tax input credit

Goods and service tax input credit is accounted for in the books in the period in which the supply of goods or service received is accounted and when there is no uncertainty in availing/ utilising the credits.

(o) Borrowing costs

Borrowing costs include interest expense calculated using the EIR method.

(p) Foreign currencies

In preparing the financial statements, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Statement of Profit and Loss.

Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are

G. M. KAPADIA & CO. MUMBAI Chartered Accountants
Shaip & Tandon Associates ICAI Regn. No. 109983W Chartered Accountants

measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise.

(q) Segment reporting

The Company's primary business segments are reflected based on the principal business carried out, i.e. financing. All other activities of the Company revolve around the main business. The risk and returns of the business of the Company is not associated with geographical segmentation, hence there is no secondary segment reporting based on geographical segment. As such, there are no separate reportable segments.

(r) Provisions, contingent liabilities and contingent assets

Provisions are recognised only when:

- an entity has a present obligation (legal or constructive) as a result of a past event; and
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the amount of the obligation

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Contingent liability is disclosed in case of:

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and
- a present obligation arising from past events, when no reliable estimate is possible.

Contingent liabilities are disclosed in the Notes. Contingent assets are neither recognised nor disclosed in the financial statements.

(s) Statement of Cash Flows

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of:

- changes during the period in operating receivables and payables transactions of a non-cash nature;
- non-cash items such as depreciation, provisions, deferred taxes and unrealised foreign currency gains and losses.
- all other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of balance sheet.

(t) Derivative financial instruments and hedging

The company holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures relating to foreign currency borrowings. Embedded derivatives are separated from the host contract and accounted for separately if certain criteria are met.

The company designates only the change in fair value of the spot element of the forward exchange contract as the hedging instrument in cash flow hedging relationships. The effective portion of changes in fair value of hedging instruments is accumulated in a cash flow hedge reserve as a separate component of equity.

The forward cost are separately accounted for as a cost of hedging and are recognised in OCI and accumulated in a cost of hedging reserve as a separate component within equity.

Cash flow hedges

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognised in OCI and accumulated under the heading of Cash Flow Hedge Reserve. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss, and is included in the other Income line item.

The amount accumulated in equity is retained in OCI and reclassified to profit or loss in the same period or periods during which the hedged forecast cash flows affect profit or loss or the hedged item affects profit or loss.

If the forecast transaction is no longer expected to occur, the hedge no longer meets the criteria for hedge accounting, the hedging instrument expires or is sold, terminated or exercised, or the designation is revoked, then hedge accounting is discontinued prospectively. If the forecast transaction is no longer expected to occur, then the amount accumulated in equity is reclassified to profit or loss.

(u) Leases

The Company assesses whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company considers whether (i) the contract involves the use of identified asset; (ii) the Company has substantially all of the economic benefits from the use of the asset through the period of lease and (iii) the Company has right to direct the use of the asset.

As a lessee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the site on which it is located, less any lease incentives received.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. The right-of-use assets and lease liabilities include these options when it is reasonably certain that the option will be exercised.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of

G. M. KAPADIA & CO. * Chartered Accountants * MUMBAI
Sharp & Tannan Associates * Chartered Accountants * Regn. No. 109483W

the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprises of fixed payments, including in-substance fixed payments, amounts expected to be payable under a residual value guarantee and the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option.

The lease liability is subsequently measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Lease liability and the right of use asset have been separately presented in the balance sheet and lease payments have been classified as financing activities.

The Company has elected not to recognize right-of-use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months with no purchase option and assets with low value leases. The Company recognizes the lease payments associated with these leases as an expense in statement of profit and loss over the lease term. The related cash flows are classified as operating activities.

Critical accounting estimate and judgement

1. **Determination of lease term**

Ind AS 116 Leases requires lessee to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes assessment on the expected lease term on lease by lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of lease and the importance of the underlying to the Company's operations taking into account the location of the underlying asset and the availability of the suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

2. **Discount rate**

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

The Company as a lessee

As a lessee, the Company leases assets which includes gold loan branches/office premises and vehicles to employees. The Company previously classified leases as operating or finance leases based on its assessment of whether the lease transferred significantly all of the risks and rewards incidental to ownership of the underlying asset to the Company. Under Ind AS 116, the Company recognises right-to-use assets and lease liabilities for these leases.

Recent Accounting Pronouncements:

Ministry of Corporate Affairs ('MCA') notifies new standards or amendments to the existing standards under the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time. For the year ended March 31, 2025, the MCA has notified Ind AS 117, Insurance Contracts, and amendments to Ind AS 116, Leases, relating to sale and leaseback transactions, applicable to the Company, w.e.f., April 1, 2024. The Company has reviewed the new pronouncements and based on its evaluation, has determined that the new pronouncement is not applicable to the Company.

6.1 Hedging activities and derivatives

The Company is exposed to certain risks relating to its ongoing business operations. The primary risks managed using derivative instruments are interest rate and currency risk.

6.1.1 Derivatives designated as hedging instruments

The foreign currency and interest rate risk on borrowings have been actively hedged through a combination of forward contracts, interest rate swaps and cross currency swaps.

The Company is exposed to interest rate risk arising from its floating rate foreign currency borrowings. Interest on the borrowing is payable at a floating rate linked to the benchmark plus margin. The Company hedges the interest rate risk arising from the debt with a 'receive floating - pay fixed' interest rate swap.

The Company uses forward exchange contracts, interest rate swaps and cross currency swaps to hedge its risks associated with interest rate and currency risk arising from the foreign currency loans. The Company designates such contracts in a cash flow hedging relationship by applying the hedge accounting principles as per IND AS - 109 (refer note 38.C.2). These contracts are stated at fair value of the spot element of the forward exchange contracts at each reporting date. Changes in the fair value of these contracts that are designated as effective hedge of future cash flows are recognised directly in the "Cash flow hedge reserve" under other comprehensive income and the ineffective portion is recognised immediately in the "Fair value changes" under statement of profit and loss. Hedge accounting is discontinued when the hedged instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting.

There is an economic relationship between the hedged item and the hedging instrument as the terms of the Forward contracts/Interest Rate Swaps match that of the foreign currency borrowings (notional amount, interest payment dates, principal repayment date, etc.). The Company has established a hedge ratio of 1:1 for the hedging relationships as the underlying risk of the forward contracts/ interest rate swaps/ cross currency swaps are identical to the hedged risk components.

The company does not use derivatives for trading or speculation purposes.

*Distress value of above flats is ₹ 159.27 crores.

Note 12.1: Management had acquired possession of these properties in satisfaction of the debts and intends to dispose them in due course, subject to conducive market conditions. These properties have been valued taking into consideration various factors such as location, facilities & amenities, quality of construction, percentage of completion of construction (as for some properties the construction is currently on hold), residual life of building, business potential, supply & demand, local nearby enquiry, market feedback of investigation and ready recknor published by government. These valuations has been performed by an independent registered valuer registered under Rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017. The fair values are based on market values, being the estimated amount for which a property could be exchanged in an arm's length transaction. These properties are not depreciated as they have not been ready to use.

Note 12.2: In respect of residential flats located in Mumbai, the Maharashtra Real Estate Regulatory Authority (MAHARERA) has passed an order directing the developer to hand over the possession of the flats along with compensation for the delay. The developer has preferred an appeal against this Order and the matter is pending before the Maharashtra Real Estate Regulatory Appellate Tribunal (MAHAREAT).

Note 12.3: Investment property under construction represent rights acquired by the Company in properties which are under construction. These rights are in respect of constructed area in the properties located in prime areas in Mumbai and are part of the projects of recognized real estate developers and not by the Company. Accordingly, disclosures in terms of paragraph WB(vi) of general instructions for preparation of Balance Sheet prescribed in Division III of Schedule III to the Companies Act, 2013 are not made.

The Company and the concerned parties are in the process of registering the documents by which the Company has acquired the title over the Investment properties under construction. The acquisitions of these rights in the properties were in the normal course of the business and none of the promoters, directors or their relatives are associated with these transactions in any manner.

Note 18.1 Disclosure under the Micro, Small and Medium Enterprises Development Act, 2006

The following disclosure is made as per the requirement under The Micro, Small and Medium Enterprises Development Act, 2016 ("MSMED Act") on the basis of confirmations sought from suppliers on registration with the specified authorities under MSMED Act:

(₹ in crores)

Particulars	2024-25	2023-24
(a) Principal amount remaining unpaid to any supplier at the year end	2.28	5.72
(b) Interest due thereon remaining unpaid to any supplier at the year end	-	-
(c) Amount of interest paid and payments made to the supplier beyond the appointed day during the year	-	-
(d) Amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the Act	-	-
(e) Amount of interest accrued and remaining unpaid at the year end	-	-
(f) Amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of a deductible expenditure under section 23 of the MSMED Act	-	-

Notes :

a) The aforementioned is based on the responses received by the Company to its inquiries with suppliers with regard to applicability under the MSMED Act.

b) Dues to micro and small enterprises which have not been discharged beyond the specified date under the MSMED Act, as such enterprises have not provided proof of payment of Goods and Services tax to the Company or dues have been held back under the defect / retention clause of the agreement are not reported in the above table as such dues are not considered as due for payment. In addition, no provision for interest is made on such dues.

(₹ in crores)

Sensitivity analysis	FY 2024-25	FY 2023-24
Defined benefit obligation on current assumptions	32.00	26.29
Delta effect of +1% change in rate of discounting	(4.39)	(3.47)
Delta effect of -1% change in rate of discounting	4.96	3.81
Delta effect of +1% change in rate of salary increase	5.25	4.12
Delta effect of -1% change in rate of salary increase	(4.34)	(3.40)
Delta effect of +1% change in rate of employee turnover	0.28	0.36
Delta effect of -1% change in rate of employee turnover	(0.36)	(0.45)

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet.

There is no change in the methods and assumptions used in preparing the sensitivity analysis from previous years.

(₹ in crores)

Expected expenses to be recognized in the statement of profit or loss for next year	FY 2024-25	FY 2023-24
Current service cost	6.22	5.25
Net interest cost	0.58	0.65
Expenses recognized in the statement of profit or loss	6.80	5.90

Notes

Actuarial gains/losses are recognised in the period of occurrence under Other Comprehensive Income (OCI). All above reported figures of OCI are gross of taxation.

Salary escalation & attrition rate are in line with the industry practice considering promotion and demand and supply of the employees.

Maturity analysis of benefit payments is undiscounted cashflows considering future salary, attrition & death in respective year for members as mentioned above.

Average Expected Future Service represents Estimated Term of Post - Employment Benefit Obligation.

Expected Rate of Return taken same as discount rate as described in Indian Accounting Standard 19.

Expected Contribution in the next year is considered as the sum of net liability/assets at the end of the current year and current service cost for next year, subject to maximum allowable contribution to the Plan Assets over the next year as per the Income Tax Rules.

Value of asset is considered as fair value of plan asset for the period of reporting.

Qualitative disclosures
Characteristics of defined benefit plan During the year, there were no plan amendments, curtailments and settlements. The entity has a defined benefit gratuity plan in India (funded). The entity's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to a separately administered fund. The fund is managed by a trust which is governed by the Board of Trustees. The Board of Trustees are responsible for the administration of the plan assets and for the definition of the investment strategy. A separate trust fund is created to manage the Gratuity plan and the contributions towards the trust fund is done as guided by rule 103 of Income Tax Rules, 1962.
Risks associated with defined benefit plan Gratuity is a defined benefit plan and company is exposed to the following risks: **Interest rate risk:** A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset. **Salary risk:** The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability. **Investment risk:** The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments. **Asset liability matching risk:** The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk. **Mortality risk:** Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk. **Concentration Risk:** Plan is having a concentration risk as all the assets are invested with the insurance entity and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

** During the year the Company has paid ₹ 1.33 crore (previous year ₹ 0.27 crore) to the auditors towards certification required for Public Issue of Non Convertible Debentures & Secured Global Medium Term Notes Programme and the same has been amortised over the tenure of the borrowings.

Note 35. Exceptional items

The Company had certain AIF investments that were due to mature in June 2024. In March 2024, the Company requested the AIF to do in-specie distribution of assets (i.e.: debentures of underlying SPV companies) in lieu of its investment in the AIF. Subsequently, these debentures were assigned to an ARC, and the book value of the resulting Security Receipts (SRs), based on the same underlying assets as of September 30, 2024, was ₹ 586.50 crores. The RBI Circular dated December 19, 2023, on "Investments in Alternative Investment Funds (AIFs)" required a 100% provision of AIF investments if they were not liquidated within 30 days of the circular being applicable. To comply with the spirit of this circular, the management has decided to make a provision equivalent to 100% of the book value of these SRs, accordingly the same has been disclosed under exceptional items for year.

Note 38. Risk management

The Company's activities expose it to market risk, liquidity risk and credit risk.

Risk management is integral to Company's strategy. The comprehensive understanding of risk management throughout the various levels of an organization aids in driving key decisions related to risk-return balance, capital allocation and product pricing. The Company operates under the guidance of the Board approved risk appetite statement that covers business composition, guidance around gross stage 3 assets and net stage 3 assets, leverage, funding and liquidity, etc.

Additionally, it is also ensured that appropriate focus is on managing risk proactively by ensuring business operations are in accordance with laid-down risk. A strong risk management team and an effective credit operations structure ensures that risks are properly identified and timely addressed, to ensure minimal impact on the Company's growth and performance.

Risk management structure

The Company has established multi-level risk governance for monitoring and control of product and entity level risks. The Board of Directors are responsible for the overall risk management approach and for approving the risk management strategies and principles. The Board has constituted the Risk Management Committee ("RMC") which is responsible for monitoring the overall risk process within the Company. The RMC is empowered to develop an independent risk strategy comprising of principles, frameworks, policies and limits and ensuring its effective implementation. Independent function of Risk management is in place headed by the Chief Risk Officer ("CRO") who reports to the Managing Director and independently to RMC of the Board. The Risk department primarily operationalises risk management framework approved by RMC.

The Company has a well defined risk framework constituting various lines of defence – the first line of defence, consisting of Business Functions who own and manage risk. They ensures adequate managerial and supervisory controls to ensure compliance and highlight inadequate processes and unexpected events. The Company has well-defined internal control measures in every process.

Independent risk and policy team, Compliance and other control functions constitutes second line of defence which is responsible for identification and assessment of entity-wide risks. Post its identification, it aims to mitigate risks either through portfolio trigger and caps (Credit risk) or through ongoing risk control and self assessment (Operational risk).

Internal Audit function is the third line of defence that independently reviews activities of the first two lines of defence and reports to the Audit Committee of the Board.

Risk management practices

The Company has developed the necessary competency to identify early stress signals and has also defined processes, including corrective and remedial actions as regards people and processes, for mitigation to ensure minimum damage. A stress testing mechanism is put in place to carry out the event based sensitivity analysis and identify the accounts under stress due to expected market movement. In event of susceptibility to external triggers, appropriate risk mitigation would be undertaken and thereby minimize the losses to the company.

It has initiated a detailed portfolio quality review mechanism which enables analysis of portfolio along various behavioural, demographic and financial parameters. Additionally, through tie-ups with external bureaus, an analysis of collection performance coupled with continuous credit assessment for various key segments is undertaken. The practices aid in proactive course correction thereby modifying credit or sourcing mechanisms, if required. Additionally, application scorecard has been developed enabling the Company to standardise credit underwriting and improve sourcing quality in the long run.

The Company's policy is to measure and monitor the overall risk-bearing capacity in relation to the aggregate risk exposure across all risk types and activities. Information pertaining to different type of risks are identified, analysed and tested on timely basis. The same is presented to RMC at periodic intervals.

In order to minimise any adverse effects on the financial performance of the Company, derivative financial instruments, such as cross currency interest rate swaps are entered to hedge certain foreign currency risk exposures and variable interest rate exposures.

The Company's central Treasury department identifies, evaluates and hedges financial risks in close co-operation with the Company's operating units. The Board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments and investment of excess liquidity. The Company's Treasury is responsible for managing its assets and liabilities and the overall financial structure. It is also primarily responsible for the funding and liquidity risks of the Company.

Note: 38A.1. Credit risk

Credit risk refers to risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company.

Credit risk arises primarily from financial assets such as loans, trade receivables, investments, derivative financial instruments, and other receivables.

Credit quality analysis

The following tables sets out information about the credit quality of financial assets measured at amortised cost. Unless specifically indicated, for financial assets, the amounts in the table represent gross carrying amounts.

(₹ in crores)

Particulars	As at March 31, 2025

Financial assets measured using simplified approach

The Company follows 'simplified approach' for recognition of impairment loss allowance on cash and cash equivalents, bank balances, trade receivables, other receivables and other financial assets. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

38A.2. Collateral held

The Company holds collateral and other credit enhancements against certain of its credit exposures. The loans are collateralised against equitable mortgage of property, pledge of shares, hypothecation of assets, company personal guarantees, physical gold, undertaking to create security.

38A.3. Loss allowance and exposure at default

The following table shows movement of the loss allowance on loans and advances:

(₹ in crores)

Reconciliation of loss allowance	Financial assets where loss allowance measured at 12-month ECL		Financial assets for which credit risk has increased significantly and credit not impaired		Financial assets for which credit risk has increased significantly and credit impaired		Total *

38A.4. Write off

Contractual amount outstanding on financial assets that were written off (net of recovery) during the reporting period is ₹ 604.34 crore (previous year ₹ 279.32 crore)

38A.5. Modified financial instruments

For financial assets, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that the modification does not result in cash flows that are substantially different (thereby not resulting into derecognition), the Company has disclosed carrying amount of modification gain/ loss based on discounted cash flow basis in the below table:

(₹ in crores)

Particulars	As at March 31, 2025	As at March 31, 2024
Gross carrying amount of modification (gain)/ loss as on date for the modified financial assets	2.25	3.77

38A.6. Credit risk grading of loans

Credit risk is the risk that the Company will incur a loss because its customers or counterparties fail to discharge their contractual obligations. The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties.
The Company ensures effective monitoring of credit facilities through a portfolio quality review framework. As per this process, an asset is reviewed at a frequency determined based on the risk it carries at the review date.
For effective risk management, the company monitors its portfolio, based on product, underlying security and credit risk characteristics.
The credit quality review process aims to allow the Company to assess the potential loss as a result of the risks to which it is exposed and take corrective actions. An independent risk and policy team reviews adherence to policies and processes on a periodic basis.
Additionally, the Company evaluates risk based on staging as defined in Ind AS, details of which are mentioned below:

Credit grading details (₹ in crores)

Period	Stage 1	Stage 2	Stage 3	Total EAD
March 31, 2025	22,037.63	574.03	423.67	23,035.33
March 31, 2024	17,009.99	1,297.90	653.22	18,961.11

38A.7. Concentration of credit risk

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions.
In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on spreading its lending portfolio across various products/states/customer base with a cap on maximum limit of exposure for an individual/Group. Accordingly, the Company does not have concentration risk.

Sharp & Tannan Associates Regn No 109483W Chartered Accountants

38B Liquidity risk

Liquidity risk refers to the risk that the Company may not be able to meet its short-term financial obligations. The Company manages liquidity risk by maintaining sufficient cash and marketable securities and by having access to funding through an adequate amount of credit lines. Further, the Company has well defined Asset Liability Management (ALM) framework with an appropriate organizational structure to regularly monitor and manage maturity profiles of financial assets and financial liabilities including debt financing plans, cash and cash equivalent instruments to ensure liquidity. The Company seeks to maintain flexibility in funding mix by way of sourcing the funds through money markets, debt markets and banks to meet its business and liquidity requirements.

38C Market risk

Market risk is the risk of any loss in future earnings, in realisable fair values or in future cash flows that may result from a change in the price of a financial instrument.

38C.1 Interest rate risk

The exposure of the Company's borrowing and loans to interest rate changes at the end of the reporting period are as follows:

(₹ in crores)

Particulars	As at March 31, 2025	As at March 31, 2024
Floating rate borrowings	7,570.55	8,951.69
Fixed rate borrowings	16,823.95	10,846.05
Total borrowings	**24,394.50**	**19,797.74**

The Company had the following floating rate borrowings and cross currency interest rate swap contracts outstanding:

(₹ in crores)

Particulars	As at March 31, 2025			As at March 31, 2024		
	Weighted average interest rate (%)	Balance	% of total borrowings	Weighted average interest rate (%)	Balance	% of total borrowings
Bank overdrafts, bank loans	9.73%	7,570.55	31.03%	9.43%	8,951.69	45.22%
Net exposure to cash flow interest rate risk		**7,570.55**			**8,951.69**	

Sensitivity

(i) Profit or loss is sensitive to higher/ lower interest expense from borrowings as a result of changes in interest rates (assuming other variables constant):

(₹ in crores)

Particulars	Impact on profit after tax		Impact on other components of equity	
	March 31, 2025	March 31, 2024	March 31, 2025	March 31, 2024
Interest rates – increase by 50 basis points	(28.33)	(33.49)	-	-
Interest rates – decrease by 50 basis points	28.33	33.49	-	-

(ii) The Company does not have any outstanding variable rate loans given and hence there is no impact on Profit & loss account due to any such change.

38C.2. Exposure to currency risks

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign currency rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the foreign currency borrowings taken from Financial Institutions, External Commercial Borrowings (ECB) and foreign bond markets.

(i) The Company has hedged its foreign currency exposure through Forwards/ Future and / or Cross Currency Interest Rate Swaps in such a manner that it has fixed determinate outflows in its functional currency and as such there would be no significant impact of movement in foreign currency rates on the Company's profitability. However for the unhedged foreign currency exposure(s) there would be an impact on Company's profitability.

As at March 31, 2025

(₹ in crores)

Particulars	USD	EUR	CHF	JPY	SGD	Other currencies
Foreign currency assets	50.25	-	-	-	-	-
Foreign currency liabilities	83.43	-	-	11.24	-	-
Net assets/ (liabilities)	**(33.18)**	-	-	**(11.24)**	-	-

As at March 31, 2024

(₹ in crores)

Particulars	USD	EUR	CHF	JPY	SGD	Other currencies
Foreign currency assets	157.69	-	-	-	-	-
Foreign currency liabilities	10.93	-	-	19.99	-	-
Net assets/ (liabilities)	**146.76**	-	-	**(19.99)**	-	-

(ii) Sensitivity

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments

(₹ in crores)

Particulars	Impact on profit after tax		Impact on other components of equity	
	March 31, 2025	March 31, 2024	March 31, 2025	March 31, 2024
FCY sensitivity*				
Increase by 5%	(151.79)	(15.41)	(119.22)	(143.79)
Decrease by 5%	151.79	15.41	119.22	143.79

* Holding all other variables constant,the sensitivity on profit and loss is due to the timing & cahflow differences between the hedged financial instrument and hedging financial instrument. On the date of maturity of the forward exchange contract & foreign currency borrowings, the sensitivity of profit and loss to changes in the exchange rates will be nil, hence for these contracts - impact is presented under other

38C.3. Price risk

(i) Exposure

The Company's exposure to assets having price risk is as under (net)

(₹ in crores)

Particulars	Equity shares (other than subsidiary)	Preference share	Mutual funds/ alternate investment funds/ others	Bonds/ government securities	Security receipts	Total
Market value as on March 31, 2025	192.11	-	17.24	150.80	2,937.53	**3,297.68**
Market value as on March 31, 2024	24.13	40.16	13.68	59.77	2,911.03	**3,048.77**

To manage its price risk arising from investments in equity shares/ other assets, the Company diversifies its portfolio.

(ii) Sensitivity

The table below summarises the impact of increases/ decreases of the index on the Company's equity/ other assets and profit for the period. The analysis is based on the assumption that the instrument index has increased/ decreased by 5% with all other variables held constant.

Particulars	Impact on profit after tax		Impact on other components of equity	
	March 31, 2025	March 31, 2024	March 31, 2025	March 31, 2024
Increase 5%	123.39	114.07	-	-
Decrease 5%	(123.39)	(114.07)	-	-

38D.Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value. The Company monitors capital using capital adequacy ratio as prescribed by the Reserve Bank Of India (Refer note 41 (xii)) and on the basis of following gearing ratio:

(₹ in crores)

Particulars	As at March 31, 2025	As at March 31, 2024
Total debt	24,524.16	19,985.90
Total equity	6,507.10	5,595.91

38E. 1. Financial instruments measured at fair value – fair value hierarchy

The following table analyses financial instruments measured at fair value at the reporting date, by the level in the fair value hierarchy into which the fair value measurement is categorised. The amounts are based on the values recognised in the statement of financial position.

38E.2. Valuation methodologies of financial instruments measured at fair value

- Quoted equity/ debt instruments are measured based on the closing price in the recognised stock exchange and are classified as level 1.
- Quoted mutual funds are measured based on the published net asset value (NAV) by AMFI and are classified as level 1.
- Government Securities are valued based on the closing price in the recognised stock exchange and are classified as level 1.
- Unquoted debt securities are measured based on average of security level prices received from AMFI appointed/designated agencies viz: CRISIL and ICRA and are classified as level 2.
- Fair value of forward foreign exchange contracts is determined by computing present value of payoff between contractual rate (strike) and forward exchange rates at the testing date and are classified as Level 2.
- Alternate investment funds and unquoted mutual funds are measured based on the latest NAV provided by the fund house and are classified as level 3.
- Equity instruments in non-listed entities are initially recognised at transaction price and re-measured (to the extent information is available) and valued by external independent valuer and classified as Level 3.
- Fair value of loans measured at FVOCI approximates its carrying value and are classified as level 3.
- Security Receipts (SR) are measured as Level 3 basis rating given by independent rating agencies to the asset reconstruction companies (ARC) on the NAV declared by the ARC of these security receipts or based on a fair value report of a registered valuer registered under Rule 2 of the Companies (Registered Valuers and Valuation) Rules, 2017.

38E.3. Valuation methodologies of financial instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the Company's financial statements. These fair values were calculated for disclosure purposes only.

Short-term financial assets and liabilities

For financial assets and financial liabilities that have a short-term nature, the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and bank balances, Trade receivables, other receivables, balances other than cash and cash equivalents, other financial assets and trade payables, other payables and other financial liabilities.

Loans, debts, borrowings and subordinated debts

The fair values of these instruments are estimated by determining the price of the instrument taking into consideration the origination date, maturity date, coupon rate, actual or approximation of frequency of interest payments and incorporating the actual or estimated/proxy yields of identitical or similar instruments through the discounting factor. For instruments, having contractual residual maturity or original maturity less than one year, the carrying value has been considered as fair value. Fair values of Loans and advances are presented net of provisions for impairment.

(₹ in crores)

Assets and liabilities which are measured at amortised cost for which fair values are disclosed As at March 31, 2025	Total fair value	Carrying value	Valuation hierarchy
Financial assets

38F. Transferred financial assets that are derecognised in their entirety

During the year, the Company sold loans measured at FVTOCI through assignment deals. The Company derognised the assets as per IND AS 109 as all the risks and rewards relating to assets were transferred to the buyer.

The table below summarises the carrying amount of the derecognised financial assets measured at FVTOCI and the gain/ (loss) on derecognition, per type of asset.

(₹ in crores)

Particulars	FY 2024-25	FY 2023-24
Financial assets derecognised during the year	2,831.97	9,029.31
Net gain/ (loss) on derecognition of financial instruments under FVTOCI category	(379.12)	(166.77)

38G. Transferred financial assets that are recognised in their entirety:

The Company uses securitisation as a source of finance. Such transaction resulted in the transfer of contractual cash flows from portfolios of financial assets to holders of issued debt securities. Such deals resulted in continued recognition of the securitised assets since the Company retains substantial risks and rewards. The table below outlines the carrying amounts and fair values of all financial assets transferred that are not derecognised in their entirety and associated liabilities.

(₹ in crores)

Particulars	As at March 31, 2025	As at March 31, 2024
Carrying amount of transferred assets measured at amortised cost	369.71	135.45
Carrying amount of associated liabilities	341.33	110.45
Fair value of assets	369.71	135.45
Fair value of associated liabilities	341.33	110.45
Net position at Fair value	28.38	25.00

Note 39. Capital, other commitments and contingent liabilities at balance sheet date:

Contingent liabilities:

(₹ in crores)

Particulars	As at March 31, 2025	As at March 31, 2024
Claim against the Company not acknowledged as debt:		
In respect of Income tax demands (refer note (a) and (b))	352.45	68.95
In respect of GST/ service tax demands (including interest accrued and refer note (c))	113.97	69.50
In respect of profession tax demands (refer note (d))	0.16	0.16
In respect of stamp duty (refer note (f))	16.66	16.66
In respect of legal cases	488.58	15.58
Bank guarantees:		
In respect of bank guarantees given (refer note (e))	260.33	410.32

(a) The Company has filed appeal against the said demands raised by the Income Tax Department.

(b) Amount paid under protest with respect to income tax demand is ₹ 76.32 crores (previous year ₹ 76.32 crores).

(c) Amount paid under protest with respect to service tax demand ₹ 1.55 crores (previous year ₹ 1.55 crores) and with respect to GST demand ₹ 2.03 crores (previous year ₹ 2.03 crores).

(d) Amount paid under protest with respect to profession tax demand ₹ 0.05 crores (previous year ₹ 0.05 crores).

(e) Guarantees has been given on behalf of a subsidiary.

(f) The Company had received demand towards stamp duty on account of the Composite Scheme of Arrangement.The demand had been raised for a sum of ₹ 75.00 crores. As per the scheme document any incidental expenses will be borne by the resulting companies i.e IIFL Finance Limited, IIFL Securities Limited and 360 ONE WAM Limited (formerly known as IIFL Wealth Management Limited) equally. The Company has appealed against the same and paid ₹ 8.34 crores under protest towards its share of the liability and shown ₹ 16.66 crores as Contingent.The matter is pending before the court.

(g) Apart from the above, Company is subject to legal proceedings and claims which have arisen in the ordinary course of the business. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have material and adverse effect on the Company's financial position.

Commitments not provided for:

(₹ in crores)

Particulars	As at March 31, 2025	As at March 31, 2024
Commitments related to loans sanctioned but undrawn	28.92	427.84
Estimated amount of contracts remaining to be executed on capital account	14.64	25.06
Commitments related to alternate investment funds	19.83	12.88

Note 40. Employee stock option

The Company has implemented Employee Stock Option Scheme 2008 (ESOP Schemes) and has outstanding options granted under the said Schemes. The options vest in graded manner and must be exercised within a specified period as per the terms of the grants made by the Nomination and Remuneration Committee and ESOP Schemes.

a) The details of various Employee Stock Option Schemes are as under:

Particulars	As at March 2025 ESOP 2008	As at March 2024 ESOP 2008
Number of option outstanding	35,58,866	40,80,321
Method of accounting	Fair value	Fair value
Vesting plan	Options granted would vest over a period of five years subject to a minimum period of one year from the date of grant of options.	
Exercise period	Seven/ five years from the date of grant	
Grant date	06- May 2021, 20- Aug 2021, 22- Dec 2021, 26- Aug 2022, 15- Oct 2022, 04- Aug 2023, 05- Jan 2024	06- May 2021, 20- Aug 2021, 22- Dec 2021, 26- Aug 2022, 15- Oct 2022, 04- Aug 2023, 05- Jan 2024
Grant price (₹ per share)	₹252.00, ₹252.00, ₹271.40, ₹341.65, ₹350.00, ₹10.00, ₹625.00	₹252.00, ₹252.00, ₹271.40, ₹341.65, ₹350.00, ₹10.00, ₹625.00

(b) (i) Movement of options during the year ended March 31, 2025:

Expired/ forfeited during the year	4,01,435	10.00-625.00	55.68	-
Exercised during the year	1,20,020	252.00-350.00	257.95	-
Outstanding as on March 31, 2025	**35,58,866**	**10.00-625.00**	**134.31**	**5.14**
Exercisable as on March 31, 2025	**2,52,622**	**252.00-625.00**	**337.35**	**3.91**

(b) (ii) Movement of options during the year ended March 31, 2024:

Particulars	Option outstanding	Range of exercise price (in ₹)	Weight average exercise price (in ₹)	Weight average remaining contractual life (Years)
Outstanding as on April 01, 2023	**9,36,947**	**82.02-350.00**	**274.97**	**5.44**
Granted during the year	35,00,000	10.00-625.00	97.86	-
Expired/ forfeited during the year	2,31,402	10.00-341.65	146.95	-
Exercised during the year	1,25,224	218.71-341.65	278.16	-
Outstanding as on March 31, 2024	**40,80,321**	**10.00-625.00**	**130.21**	**6.07**
Exercisable as on March 31, 2024	**1,10,240**	**252.00-350.00**	**263.42**	**4.39**

Fair value methodology:

The fair value of the shares are measured using Black scholes formulae. Measurement inputs include share price on measurement date, exercise date of the instrument, exercise price, expected life, risk free interest rate, dividend yield, expected volatility .

Key Assumptions used in Black-Scholes model for calculating fair value as on the date of grant are as follows:

Particulars	ESOP 2008			
	05-Jan-24	04-Aug-23	15-Oct-22	26-Aug-22
Stock price (₹)	641.65	575.5	350.00	341.65
Volatility	10.00%	52.22%	10.00%	10.00%
Risk-free rate	7.00%	7.04%	7.37%	7.02%
Exercise price (₹)	625.00	10.00	350.00	341.65
Time to maturity (years)	5.00	4.00	5.00	5.00
Dividend yield	3.00%	1.43%	3.00%	3.00%
Weight average value (₹)	89.05	535.83	45.31	42.15

Particulars	ESOP 2008		
	22-Dec-21	20-Aug-21	06-May-21
Stock price (₹)	271.40	252.00	252.00
Volatility	10.00%	10.00%	10.00%
Risk-free rate	5.81%	5.77%	5.66%
Exercise price (₹)	271.40	252.00	252.00
Time to maturity (years)	5.00	5.00	5.00
Dividend yield	3.00%	3.00%	3.00%
Weight average value (₹)	35.40	35.40	34.72

Stock price: The closing market price on NSE one day prior to the date of grant has been considered for the purpose of option valuation.

Volatility: The daily volatility of the stock prices on BSE, over a period prior to the date of grant, corresponding with the expected life of the Options has been considered to calculate the fair value.

Risk-free rate of return: The risk-free rate being considered for the calculation is the India Government Bond Generic Bid Yield with a maturity about equal to the expected life of the options.

Exercise price: Price of each specific grant has been considered.

Time to maturity: Time to Maturity / Expected Life of Options is the period for which the Company expects the Options to be live. The minimum life of a stock option is the minimum period before which the Options cannot be exercised and the maximum life is the period after which the Options cannot be exercised.

Expected dividend yield: Expected dividend yield has been calculated as an average of dividend yields for the three financial years preceding the date of the grant. The dividend yield for the year is derived by dividing the dividend per share by the average price per share of the respective period.

The Company has granted Employee Stock Options under IIFL Finance Employee Stock Option Plan 2020 – Merger Scheme pursuant to aforesaid Composite Scheme of Arrangement.

a) The details of various Employee stock option schemes are as under:

Particulars	As at March 2025 ESOP 2020	As at March 2024 ESOP 2020
Number of option outstanding	12,01,536	16,71,891
Method of accounting	Fair value	Fair value
Vesting plan	Options granted would vest over a period of five years subject to a minimum period of one year from the date of grant of options.	
Exercise period	Seven years from the date of grant	
Grant date	02- May 2018, 21- Nov 2018 and 18- Jan 2019	08- Feb 2017, 02- May 2018, 21- Nov 2018 and 18- Jan 2019
Grant price (₹ per share)	₹142.22, ₹177.04, ₹182.22	₹106.67, ₹142.22, ₹177.04, ₹182.22

(b) (i) Movement of options during the year ended March 31, 2025:

Particulars	Option outstanding	Range of exercise price (in ₹)	Weight average exercise price	Weight average remaining contractual
Outstanding as on April 01, 2024	**16,71,891**	**106.67- 182.22**	**152.90**	**1.25**
Granted during the year	-	-	-	-
Expired/ forfeited during the year	16,510	177.04 - 182.22	178.62	-
Exercised during the year	4,53,845	106.67- 182.22	153.42	-
Outstanding as on March 31, 2025	**12,01,536**	**142.22 - 182.22**	**152.35**	**0.25**
Exercisable as on March 31, 2025	**6,61,536**	**142.22 - 182.22**	**160.61**	**0.38**

(b) (i) Movement of options during the year ended March 31, 2024:

Particulars	Option outstanding	Range of exercise price (in ₹)	Weight average exercise price (in ₹)	Weight average remaining contractual life (Years)
Outstanding as on April 01, 2023	**27,05,444**	**106.67- 182.22**	**212.21**	**3.19**
Granted during the year	-	-	-	-
Expired/ forfeited during the year	40,731	61.48-182.22	172.13	-
Exercised during the year	9,92,822	106.67- 182.22	163.82	-
Outstanding as on March 31, 2024	**16,71,891**	**106.67- 182.22**	**152.90**	**1.25**
Exercisable as on March 31, 2024	**11,31,891**	**106.67- 182.22**	**157.99**	**1.33**

Fair value methodology:

The fair value of the shares are measured using Black scholes formulae. Measurement inputs include share price on measurement date, exercise date of the instrument, exercise price, expected life, risk free interest rate, dividend yield, expected volatility .

Key assumptions used in Black-Scholes model for calculating fair value as on the date of grant are as follows:

Particulars	ESOP 2020			
	18-Jan-19	18-Jan-19	21-Nov-18	02-May-18
Stock price (₹)	179.63	179.63	179.63	179.63
Volatility	59.00%	59.00%	59.00%	59.00%
Risk-free rate	7.28% - 7.49%	7.28% - 7.49%	7.21% - 7.40%	7.13% - 7.40%
Exercise price (₹)	182.22	182.22	177.04	142.22
Time to maturity (years)	5.80	5.55	5.39	5.09
Dividend yield	1.00%	1.00%	1.00%	1.00%
Weight average value (₹)	161.25	102.16	102.29	106.78

Particulars	ESOP 2020 02-May-18
Stock price (₹)	179.63
Volatility	59.00%
Risk-free Rate	7.13% - 7.34%
Exercise price (₹)	142.22
Time to maturity (years)	4.84
Dividend yield	1.00%
Weight average value (₹)	106.90

Stock price: The fair value of stock as on Appointed Date, i.e., April 1, 2018 ("the Effective date" or the "Date of Modification") has been used to value the outstanding grants based on Mercahnt Banker's Report.

Volatility: The daily volatility of the stock prices on BSE, based on post demerger traded prices, has been considered to calculate the fair value.

Risk-free rate of return: The risk-free rate being considered for the calculation is the India Government Bond Generic Bid Yield with a maturity about equal to the expected life of the options.

Exercise price: Price of each specific grant has been considered based on equity swap ratio of the Composite Scheme of Arrangement.

Time to maturity: Time to Maturity / Expected Life of Options is the period for which the Company expects the Options to be live. The minimum life of a stock option is the minimum period before which the Options cannot be exercised and the maximum life is the period after which the Options cannot be exercised.

Expected dividend yield: Expected dividend yield has been calculated as an average of dividend yields for the three financial years preceding the date of the grant. The dividend yield for the year is derived by dividing the dividend per share by the average price per share of the respective period.

The clause (87) of section 2 of the Act read with Companies (Restriction on number of Layers) Rules, 2017 is not applicable to the Company.

(iv) Utilisation of borrowed funds and share premium
(A) The Company has not advanced or loaned or invested funds (either borrowed funds or share premium or any other sources or kind of funds) to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding (whether recorded in writing or otherwise) that the Intermediary shall:
(i) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (Ultimate Beneficiaries) or
(ii) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.

(B) The Company has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:-
(i) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or
(ii) provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(v) Undisclosed income
The Company has disclosed all its income appropriately and in the ongoing Tax Assessments as well there has not been any such undisclosed income recognised by the relavant tax authorities.

(vi) Details of crypto currency or virtual currency
The Company has not traded or invested in Crypto currency or Virtual Currency during the financial year.

(vii) Disclosure of benami property
The Company does not possess any benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.

(viii) Disclosure of borrowings
(a) The quarterly returns and statements of current assets filed by the Company with banks or financial institutions are in agreement with the books of accounts.
(b) The Company has utilised the borrowings from banks and financial institutions for the specific purpose for which it was taken as at March 31, 2025.

(ix) Wilful defaulter
The Company has not been declared as wilful defaulter by any bank or financial institution or other lender.

(x) Title deeds of immovable properties not held in name of the Company

Title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) are held in the name of the company.

(xi) Disclosure on loans and advances
The Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment, to promoters, directors, KMPs and the related parties (as defined under the Companies Act, 2013), either severally or jointly with any other person.

(xii) Ratios

Particulars	As at March 31, 2025	As at March 31, 2024
Capital to risk-weighted assets ratio (CRAR)	18.48%	18.85%
Tier I CRAR	13.78%	12.56%
Tier II CRAR	4.70%	6.29%
Liquidity coverage ratio for the quarter ended March 31	180.62%	192.47%

G. M. KAPADIA & CO. MUMBAI Chartered Accountants

Sharp & Tannan Associates ICAI Regn. No. 109983W Chartered Accountants

Note 42: On March 04, 2024, the Reserve Bank of India (RBI), under Section 45L(1)(b) of the Reserve Bank of India Act, 1934, directed the Company to cease the sanctioning or disbursing of new gold loans and the assignment, securitization, or sale of existing gold loans with immediate effect.
As part of their process RBI initiated a Special Audit by an Independent Professional agency & concluded the same. The Company has taken necessary measures to address the identified concerns and prevent their recurrence.
Subsequent to this RBI on September 19, 2024 after a careful examination of the submissions made and the remedial actions taken by the company, conveyed its decision to lift the said restrictions with immediate effect. The company has since then commenced its normal business operations.

Note 43: During January 2025, the Income Tax Department conducted a search under the provisions of the Income Tax Act, 1961, at the registered office and other premises of the Company. The Company has extended full cooperation to the authorities and continues to provide all information, documents, and clarifications as requested. As of the date of these financial statements, the Company has not received any communication from the Department regarding the outcome of the search. Accordingly, the potential financial impact, if any, arising from the search proceedings cannot be ascertained at this stage.

Sharp & Tannan Associates ICAI Regn. No. 109983W Chartered Accountants

IIFL FINANCE LIMITED

Note 44.3 During the year, the Company paid remuneration to the Managing Director in accordance with the terms duly approved by the Board of Directors and the Shareholders, subject to the limits prescribed under Schedule V to the Companies Act, 2013. The Company has inadequate profits for the FY 2024-2025. Consequently, the remuneration paid to the Managing Director exceeded the limits specified under Schedule V, by ₹ 9.88 crores. The Board of Directors has ratified the payment at its meeting and has proposed the matter for Shareholders' approval by way of a special resolution at the forthcoming Annual General Meeting. Pending such approvals, the remuneration paid has been accounted as expense for the year. In accordance with provision contained in section 197(9) of the Act, the excess remuneration is held by the Managing Director in trust for the Company pending such approval.

Note 45. Corporate social responsibility:

(₹ in crores)

Particulars	FY 2024-25	FY 2023-24
(a) Amount required to be spent	15.89	10.91
(b) Amount of expenditure incurred	4.92	9.30
(i) Construction/ acquisition of any asset	-	-
(ii) On purpose other than (i) above	4.92	9.30
(c) Shortfall at the end of the year	10.97	1.61
(d) Total of previous years shortfall	-	-
(e) Nature of CSR activities	Promoting education and healthcare, eradicating poverty	

Note 45.1. Reason for shortfall The Company had contributed towards the ongoing projects to IIFL Foundation Limited and which remained unspent as on March 31, 2025 and March 31, 2024. The unspent amount has been transferred to a separate Bank account.

Note 45.2. In respect of other than ongoing projects, for the financial year 2023-24, Company had transferred unspent amount of ₹ 0.01 crore to the PM Cares Fund, a fund specified in Schedule VII to the Companies Act, on June 04, 2024 i.e. within a period of six months of the expiry of the financial year 2024.

Note 45.3. The Company contributes its CSR requirement to India Infoline Foundation Limited, a group Company.

Shah & Taraporewala Associates Regn. No. 109983W Chartered Accountants

(c) Disclosures on Risk Exposure in Derivatives:

(i) Qualitative disclosure:

The Company's activities expose it to the financial risks of changes in foreign exchange rates and interest rates. The Company uses derivative contracts such as foreign exchange forward, cross currency contracts, interest rate swaps, foreign currency futures, options and swaps to hedge its exposure to movements in foreign exchange and interest rates. The use of these derivative contracts reduces the risk or cost to the Company and the Company does not use those for trading or speculation purposes.

The Company uses hedging instruments that are governed by the policies of the Company which are approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the risk management strategy of the Company. The Finance Committee and Asset Liability Management Committee (ALCO) of the Board is entrusted with the management and monitoring of risks in derivatives.

To hedge its risks on the principal and/ or interest amount for foreign currency borrowings on its balance sheet, the Company has currently used cross currency derivatives, forwards and principal only swaps. Additionally, the Company has entered into Interest Rate Swaps (IRS) to hedge its interest rate risk on the floating rate foreign currency borrowings.

Derivative financial instruments are initially measured at fair value on the contract date and are subsequently re-measured to fair value at each reporting date. Derivatives are classified as assets when the fair value is positive (positive marked to market value) or as liabilities when the fair value is negative (negative marked to market value). Fair value of derivatives is ascertained from the mark to market and accrual values received from the counterparty banks. Changes in the fair value of future cash flows of these contracts that are designated and effective as hedges are recognized directly in "Cash Flow Hedge Reserve" under Other Equity and the ineffective portion is recognized immediately in the Statement of Profit and Loss. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised, no longer qualifies for hedge accounting or the Company chooses to end the hedging relationship.

(II) Quantitative Disclosure (₹ in crores)

G. M. KAPADIA & CO. MUMBAI Chartered Accountants
Sharp & Tannan Associates ICAI Regn. No. 109983W Chartered Accountants

(x) No registration has been obtained from other financial regulators.

(xi) The disclosures as required by the Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 dated February 27, 2025 as may be amended from time to time and Disclosures in Financial statement-Notes to Accounts as issued by RBI

a. No draw down from reserves have been done during the year.

b. The company does not have any overseas assets.

c. The company does not have any off balancesheet SPV sponsored .

d. The company does not have any parent company hence details of Financing of parent company is not applicable.

e. No revenue recognition has been postponed.

f. Auditors have not expressed modified opinion on the audited financial statements.

g. The Company had certain AIF investments that were due to mature in June 2024. In March 2024, the Company requested the AIF to do in-specie distribution of assets (i.e.: debentures of underlying SPV companies) in lieu of its investment in the AIF. Subsequently, these debentures were assigned to an ARC, and the book value of the resulting Security Receipts (SRs), based on the same underlying assets as of September 30, 2024, was ₹ 586.50 crores. The RBI Circular dated December 19, 2023, on "Investments in Alternative Investment Funds (AIFs)" required a 100% provision of AIF investments if they were not liquidated within 30 days of the circular being applicable. To comply with the spirit of this circular, the management has decided to make a provision equivalent to 100% of the book value of these SRs, accordingly the same has been disclosed under exceptional items for the year ended March 31, 2025.

h. There has been no breach in terms of covenants in respect of loans availed by the Company or debt securities issued by the company including incidence of default.

i. There is no divergence in asset classification and provisioning norms.

j. The company has not financed any advances for which intangible securities such as charges over rights, Licences, authorities etc. has been taken

k. Company has not given loans to Entities associated with directors and their relatives and Senior Officers and their relatives, however Details of loan given to director and their relative is disclosed in Note no. 44 of the Financial statement.

l. There are no prior period items which are impacting company's current year profit and loss.

(xii) The company during the year ended has not exceeded single borrower limit (SGL)/ group borrower limit (GBL) while performing its lending operations.

(xiii) Remuneration paid to Non Executive Directors: **(₹ in crores)**

Name of the Director	FY 2024-25	FY 2023-24
Mr. Arun Kumar Purwar	0.39	0.49
Ms. Geeta Mathur	0.10	0.44
Mr. Nilesh Vikamsey	-	0.48
Mr. Ramakrishnan Subramanian	0.32	0.35
Ms. Nirma Anil Bhandari	0.18	-
Mr. Vijay Kumar Chopra	0.02	0.35
Mr. Bijou Kurien	0.30	0.02
Mr. Nihar Jambusaria	0.40	0.02
Mr. T S Ramakrishnan	0.11	0.04
Total	**1.82**	**2.19**

49. Unhedged Foreign Currency Exposure:

The unhedged foreign currency exposure as on March 31, 2025 is ₹ 2.66 Crores (P.Y ₹ 1.87 Crores).

50. Gold Loan Portfolio

As on March 31, 2025 the gold loan portfolio comprises 43.60 % (P.Y. 34.92 %) of the total assets of the Company.

51. Segment Reporting

The Company's primary business segments are reflected based on the principal business carried out, i.e. financing. All other activities of the Company revolve around the main business. The risk and returns of the business of the Company is not associated with geographical segmentation, hence there is no secondary segment reporting based on geographical segment. As such, there are no separate reportable segments as per the IND AS 108 on 'Segment Reporting'.

52. Shared services

The Company operates from and uses the premises, infrastructure and other facilities and services as provided to it by its group companies, which are termed as 'Shared Services'. Hitherto, such shared services consisting of administrative and other revenue expenses paid for by the Company were identified and recovered/recoverable from them based on reasonable management estimates, which are constantly refined in the light of additional knowledge gained relevant to such estimation. These expenses are recovered on an actual basis and the estimates are used only where actual were difficult to determine.

53. Fraud

During the year under review, the Company had come across frauds totaling to ₹ 2.55 Crores (P.Y. ₹ 6.66 Crores) in respect of its lending operations. Out of the above, frauds amounting to ₹ 0.06 Crores (P.Y. ₹ 0.20 Crores) has already been recovered. Suitable action has been taken by the Company to recover the balance amounts.

54. Disclosure of Loan and advances pursuant to Regulation 53(f) of the Securities and Exchange Board of India (Listing Obligation and Disclosure Requirements) Regulations, 2015:

IIFL Samasta Finance Limited	-	300.00

55. Public disclosure on liquidity risk:

(i) Funding Concentration based on significant counterparty (both deposits and borrowings): (₹ in crores)

Number of Significant Counterparties	Amount*	% of Total Deposits	% of Total Liabilities
23	14,577.46	NA	56.93%
(19)	(15,059.15)	NA	(68.47%)

Note 1 : Total Liabilities represent Total Liabilities as per Balance Sheet less Total Equity
Note 2 : Figures in bracket represent previous year's figures.

(ii) Top 20 large deposits N.A (N.A)

(iii) Top 10 borrowings:

Particulars	Amount *	% of Total Borrowings
Top 10 Borrowings (₹ in crores)	9,553.73	38.96%
	(11,634.99)	(58.14%)

* The above table excludes details of benefeciary holders of the secured medium term note bonds
Note : Figures in bracket represent previous year's figures.

(iv) Funding Concentration based on significant instrument/product:

(₹ in crores)

Name of the instrument/product	Amount	% of Total Liabilities
Non Convertible Debentures	10,637.37	41.54%
	(6,456.15)	(29.36%)
Term Loans	9,611.66	37.53%
	(10,498.79)	(47.74%)
Securitisation	341.33	1.33%
	(133.90)	(0.61%)
Commercial Paper	2,588.85	10.11%
	(839.02)	(3.82%)
Cash Credit / Overdraft Facilties	1,344.95	5.25%
	(2,083.04)	(9.47%)

Note 1 : Total Liabilities represent Total Liabilities as per Balance Sheet less Total Equity
Note 2 : Figures in bracket represent previous year's figures.

(v) Stock Ratios:

Particulars	As at March 31, 2025	As at March 31, 2024
Commercial papers as a % of total liabilities	10.35%	3.87%
Commercial papers as a % of total assets	8.25%	3.08%
Commercial papers as a % of total public funds	10.80%	4.25%
Non-convertible debentures (original maturity of less than one year) as a % of total liabilities	Nil	Nil
Non-convertible debentures (original maturity of less than one year) as a % of total assets	Nil	Nil
Non-convertible debentures (original maturity of less than one year) as a % of total public funds	Nil	Nil
Other short-term liabilities* as a % of total liabilities	2.98%	7.40%
Other short-term liabilities* as a % of total assets	2.38%	5.90%
*Other short-term liabilities as a % of total public funds	3.11%	8.14%

* Short Term liabilities means total of current liabilities as per note 46.1 & 46.2 to the financial statements as reduced by current portion of Debt Securities,Borrowings (other than debt securities) and Subordinated Liabilities.

(vi) Institutional set-up for Liquidity Risk Management

The Board of Directors of the Company has an overall responsibility and oversight for the management of all the risks, including liquidity risk, to which the Company is exposed to in the course of conducting its business.
The Board approves the governance structure, policies, strategy and the risk limits for the management of liquidity risk.
The Board of Directors approves the constitution of the Risk Management Committee (RMC) for the effective supervision, evaluation, monitoring and review of various aspects and types of risks, including liquidity risk, faced by the Company.
Further, the Board of Directors also approves constitution of Asset Liability Committee (ALCO), which functions as the strategic decision-making body for the asset-liability management of the Company from risk return perspective and within the risk appetite and guard-rails approved by the Board.
The main objective of ALCO is to assist the Board and RMC in effective discharge of the responsibilities of asset-liability management, market risk management, liquidity and interest rate risk management and also to ensure adherence to risk tolerance/limits set up by the Board.
ALCO provides guidance and directions in terms of interest rate, liquidity, funding sources, and investment of surplus funds. ALCO board meetings are held once in a quarter or more frequently as warranted from time to time.
Note: Figures in bracket represent previous year's figures.

Qualitative Disclosure

Liquidity Coverage Ratio (LCR) aims to ensure that NBFC's maintains an adequate level of unencumbered High Quality Liquidity Asset (HQLAs) that can be converted into cash to meet liquidity needs for a 30 calendar day time horizon under a significantly severe liquidity stress scenario.

The Company has robust liquidity risk management framework in place that ensures sufficient liquidity including a cushion of unencumbered, high quality liquid assets, to withstand a range of stress events,including those involving the loss or impairment of both unsecured and secured funding sources. The Company has implemented the LCR framework and has maintained LCR well above the regulatory threshold.

HQLA comprises of unencumbered Bank Balances, Cash in Hand and Liquid Investments after appropriate haircut. The Company maintains sufficient balance of Cash and Bank Balance and liquid Investments which can be easily liquidated in times of stress.

Liquidity Coverage Ratio results drive by inflow of next 30 days receivable on loans and advances and corresponding outflow over the next 30 days towards borrowings and other liabilities.

57. Disclosure pursuant to Reserve Bank of India Circular no. RBI/DoR/2023-24/106 DOR.FIN.REC.No.45/03.10.119/2023-24 dated Feb 27, 2025 (the "Notification"), as updated from time to time:

INDEPENDENT AUDITOR'S REPORT

To,
The Members of
IIFL Finance Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of IIFL Finance Limited (hereinafter referred to as the 'Holding Company") its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated Balance Sheet as at March 31, 2024, the consolidated Statement of Profit and Loss (including Other Comprehensive Income), consolidated Statement of Changes in Equity and the consolidated Cash Flows statement for the year then ended, and notes to the consolidated Financial Statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Accounting Standards prescribed under section 133 of the Act and the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2024, of consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the consolidated financial statements" section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Emphasis of Matter

This section of our report contains and we reproduce hereunder sections of our audit report of even date issued on the standalone financial statements of the Holding Company described under Material Uncertainty Relating to Going Concern and Emphasis of Matter sections, respectively.

1. We draw attention to Note No 48 in the financial statements, which explains that the Reserve Bank of India ("RBI") vide its directive dated March 4, 2024 and in exercise of its powers under Section 45I(1)(b) of the Reserve Bank of India, 1934 has directed the Company to cease and desist, with immediate effect, from sanctioning or disbursing gold loans or assigning / securitizing/ selling any of its gold loans. However, the RBI permitted the company to continue to service its existing gold loan portfolio through usual collection and recovery processes.

CHHAJED & DOSHI * CHARTERED ACCOUNTANTS * MUMBAI 400 069.

Sharp & Tannan Associates * Chartered Accountants *

The Company has total Loan book of Rs. 17,842 crores and Rs. 14,047 crores as on March 31, 2024, and March 31, 2023 respectively. Out of the above, the Gold Loan stood at Rs. 9,634 crores (54.00%) and Rs. 8,330 crores (59.30%) for each respective financial year.

These events or conditions may cast significant doubt on the Company's ability to continue as a going concern. However, in view of the factors as described in the note no 49 in the financial statements, the management is of the view that the going concern basis of accounting is appropriate.

2. We refer to Note No 49 of the accompanying financial statements that explains the directives issued by The Reserve Bank of India ("RBI") dated March 4, 2024. The Note explains the supervisory concerns noted by the RBI in respect of restrictions on loan against gold. These supervisory restrictions are under review by RBI post completion of special audit instituted by the RBI.

Our opinion is not modified in respect of these matters of emphasis.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended March 31, 2024. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

A. Key audit matters of the Holding Company

Sr. No.	Key Audit Matter	How our audit addressed the key audit matter
1	**Information technology (IT) systems used in financial reporting process.** The company's operational and financial processes are dependent on IT systems due to large volume of transactions that are processed daily. We therefore identified IT systems and controls over financial reporting as a key audit matter for the Company.	We obtained an understanding of the Company's IT control environment relevant to the audit. We tested the design, implementation and operating effectiveness of the Company's General IT controls over the key IT systems which are critical to financial reporting. We also tested key automated and manual controls and logic for system generated reports relevant to the audit that would materially impact the financial statements. In addition to above, we have also relied on the work of the internal auditors and system auditors.
2	**Impairment of Financial Assets held at amortised cost:** Since the loans and advances form a major portion of the Company's assets, and due to the significance of the judgments used in classifying loans and advances into various stages as stipulated in Indian Accounting Standard (IND AS) 109 and the management estimation of the related	We evaluated appropriateness of the impairment principles used by management based on the requirements of Ind AS 109 and our understanding of the business.

Sr. No.	Key Audit Matter	How our audit addressed the key audit matter
	impairment provisions, this is considered to be a key audit matter. The Company's impairment allowance is derived from estimates including the historical default and loss ratios. Management exercises judgement in determining the quantum of loss based on a range of factors. The most significant areas are: - Segmentation of loan book - Determination of exposure at default - Loan staging criteria - Calculation of probability of default / Loss given default - Consideration of probability weighted scenarios and forward looking macro-economic factors The application of ECL model requires several data inputs. This increases the risk of completeness and accuracy of the data that has been used to create assumptions in the model. **(Refer Note 38A.3 to the Standalone Financial Statements.)**.	We assessed the design and implementation of key Internal financial controls over loan impairment process used to calculate the impairment charge. We evaluated management's controls over collation of relevant information used for determining estimates for management overlays. We tested review controls over measurement of impairment allowances and disclosures in financial statements.

B. Key audit matters of consolidated financial statements of Subsidiary Company – IIFL Home Finance Limited

Sr. No.	Key Audit Matter	How our audit addressed the key audit matter
1	**Impairment of loans as at the balance sheet date (including determination of expected credit losses) (as described in note 3(k) of the consolidated financial statements)** The Company provide for impairment of its loans using the Expected Credit Loss ("ECL") model. ECL involves an estimation of probability weighted loss on financial assets over their life, considering reasonable and supportable information about past events, current conditions, and forecasts of future economic conditions and other factors which could impact the credit quality of the Company's loans. In the process, a significant degree of judgement has been applied by the management for: a) Defining qualitative/ quantitative factors for 'significant increase in credit risk' ("SICR") and 'default'.	Our audit procedures included the following: • Considered the Company's accounting policies for impairment of loans and assessed compliance of the policies with Ind AS 109: Financial Instruments and the governance framework approved by the Board of Directors pursuant to applicable Reserve Bank of India guidelines, ("the RBI Guidelines"). • Evaluated the reasonableness of the management estimates by understanding the process of ECL estimation and related assumptions. Tested the internal controls around extraction, validation and computation of the input data used in such estimation. • Assessed the criteria for staging of loans based on their past-due

CHHAJED & DOSHI * CHARTERED ACCOUNTANTS * MUMBAI 400 069.

Sharp & Tannan Associates * Chartered Accountants * Regn. No. 109983W

Sr. No.	Key Audit Matter	How our audit addressed the key audit matter
	b) Grouping of borrowers (retail loan portfolio) based on homogeneity for estimating probability of default, loss given default and exposure at default; c) Determining effect of less frequent past events on future probability of default. d) Determining macro-economic factors impacting credit quality of loans. In view of the high degree of management's judgement involved in estimation of ECL, impairment of loans as at the balance sheet date (including expected credit loss) is a key audit matter.	status to check compliance with requirement of Ind AS 109. Tested a sample of performing (stage 1) loans to assess whether any SICR or loss indicators were present requiring them to be classified under stage 2 (i.e. default in repayment is within the range of 31 to 90 days) or stage or 3 (i.e. the default in repayment is more than 90 days). • Tested the arithmetical accuracy of computation of ECL provision performed by the Company. • Assessed the adequacy of disclosures included in the consolidated financial statements with the relevant requirements of Ind AS 107 and 109.
2	No Key audit matters for subsidiary company IIHFL Sales Limited reported by the auditor for the year ended March 31, 2024.	

C. Key audit matters of Subsidiary Company – IIFL Samasta Finance Ltd

Sr. No.	Key Audit Matter	How our audit addressed the key audit matter
1	**Expected Credit Loss** Refer note 2 (c) of significant accounting policies and note 40 for credit disclosures. As at 31 March 2024, the Company has total gross loan assets of Rs. 9,708.70 crores (2023: Rs. 7,998.53 crores) against which an Expected Credit Loss ('ECL') of Rs. 286.44 crores (2023 Rs. 257.22 crores) has been accrued. The ECL approach as required under Ind AS 109, Financial instruments, involves high degree of complexity and requires significant judgement of the management. The Management is required to determine the ECL that may occur over either a 12-month period or the remaining life of an asset, depending on the categorization of the individual asset. The key areas of judgment include: 1. Categorization of loans in Stage 1, 2 and 3 based on identification of: a) exposures with Significant Increase in Credit Risk (SICR) since their origination and	Our audit focused on assessing the appropriateness of management's judgment and estimates used in the impairment analysis through procedures that included, but were not limited to, the following: • Evaluated the Company's accounting policies for estimation of expected credit loss on loan assets in accordance with the requirements of Ind AS 109, Financial Instruments. • Obtained an understanding of the modelling techniques adopted by the Company including the key inputs and assumptions. Since modelling assumptions and parameters are based on historical data, we assessed whether historical experience was representative of current circumstances and was relevant in view of the recent impairment losses incurred within the portfolios. • Assessed the design and implementation and tested the operating effectiveness of controls over the modelling process including governance

CHHAJED & DOSHI * CHARTERED ACCOUNTANTS * MUMBAI 400 069.

Sharp & Tannan Associates * Chartered Accountants * Regn. No. 109983W

Sr. No.	Key Audit Matter	How our audit addressed the key audit matter
	b) Individually impaired / default exposures. 2. Techniques used to determine Loss Given Default ('LGD') and Probability of Default ('PD') to calculate an ECL are based on past experience and. 3. The impact of different future macroeconomic conditions in the determination of ECL. These parameters are derived from the Company's internally developed statistical models, historical data and a change in such models or assumptions could have a material impact on the accompanying financial statements. These factors required the models to be reassessed based on the available information including the additional risk profiling due to the impact of COVID-19 Pandemic, geographical, political and economic risk to measure the ECL. Management has made a number of interpretations and assumptions when designing and implementing models that are compliant with the standard. The accuracy of data flows and the implementation of related controls is critical for the integrity of the estimated impairment provisions. Considering the significance of the above matter to the financial statements and the significant auditor attention required to test such complex accounting estimates, we have identified this as a key audit matter for current year audit.	over monitoring of the model and approval of key assumptions. • Evaluated the appropriateness of the Company's process of determination of significant increase in credit risk in accordance with the applicable accounting standard and the basis for classification of exposures into various stages. • Obtained the approved policy of board of directors to understand the relief measures sanctioned to various class of borrowers in accordance with the directions given by the RBI and tested, on sample basis, the compliance with respect to asset classification and provisioning norms as per such directions. • Tested management's computation of ECL by performing following procedures: • Evaluated management's groupings of borrowers on the basis of different product lines and customer segments with different risk characteristics. • Tested classification of loans into various categories based on their past due status and other loss indicators. On a sample basis, inspected the repayment schedule from the underlying borrower agreements and collection made on due dates; • Tested the design and operating effectiveness of key controls (including application controls) over approval, recording, monitoring. • Testing of Application controls includes testing of automated controls, reports, and system reconciliations. • Performed test of details of the input information used in ECL computation on a sample basis. • Tested the arithmetical accuracy of the computation. • Performed analytical procedures by determining various ratios or percentage-based measures to review overall reasonableness of

Sr. No.	Key Audit Matter	How our audit addressed the key audit matter
		the estimate determined by the management.
2	**Identification and Measurement of NPA:** As per RBI's circular dated November 12, 2021 read with earlier circular dated October 1, 2021 on "Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances, Automation of NPA and provisioning is required to be implemented by all lending Institutions. The NPA provisioning as per ECL methodology followed by the Company are not fully automated in Software Applications used by the Company for Loans Management and are performed using other software. Further, marking of some legacy linked accounts at borrower level as NPAs in two different Loan management systems are done manually. These may have impact on the accuracy and completeness of the provision accrued for NPAs. Considering the significance, we have identified this as a key audit matter for current year audit.	Performed other substantive procedures, included but not limited to the following: • Assessed the appropriateness of asset classification and adequacy of related provisioning by performing procedures such as computation of overdue ageing, assessment of borrower level NPA identification and verification of applicable provision rates as per ECL policy of the Company on test check basis; • Selected samples of performing loan accounts to assess, independently, whether such loan accounts should be classified as NPA; • Recompilation of the amount of ECL provisioning on the total advances base considering the stage wise categories of advances, LGD (Loss given default) and PD (Probability of default) arrived by the Company.

Information Other than the Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Director's report and Management Discussion and Analysis report, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon. The Directors report and Management Discussion and Analysis report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Directors report and Management Discussion and Analysis report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 ("The Auditors Responsibilities Relating to Other Information").

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Companies Act, 2013 (the "Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in

CHHAJED & DOSHI * CHARTERED ACCOUNTANTS * MUMBAI 400 069.

Sharp & Tannan Associates * Chartered Accountants * Regn. No. 109183W

accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective company's to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the respective company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the respective company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company and its subsidiary companies which are companies incorporated in India, have adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify

our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

The consolidated financial statement includes consolidated audited financial statement of 1 subsidiary and standalone audited financial statements of 2 subsidiary companies, these have been audited by the other auditors and these statements reflect the total assets of Rs. 36,969.88 Crore as at March 31, 2024, Group's share of total revenue of Rs. 5,897.27 Crore, Group's share of total net profit of Rs. 1,521.39 Crore and Group's share of total comprehensive income of Rs. 1,512.03 Crore and net cash outflows Rs. 262.31 Crore for the year ended on the date as considered in the consolidated financial statements. The reports of auditors of the said subsidiary companies have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiary companies and our report in terms of sub-section (3) and (11) of section 143 of the Act, in so far as it relates to the aforesaid subsidiary companies is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

The Consolidated Financial Statements includes the comparative financial information for the year ended March 31, 2023 were audited by one of the joint auditor and one of the predecessor auditor and has issued unmodified opinion vide their report dated April 26, 2023.

Our opinion is not modified in respect of these other matters.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries, as noted in the 'other matter' paragraph, to the extent applicable, that:

   a) We/the other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

   b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and reports of other auditors.

   c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated statement of changes in equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

   d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

   e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2024 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary companies, none of the directors of the Group companies is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate report in **Annexure**.

   g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

      In our opinion and to the best of our information and according to the explanations given to us, the managerial remuneration paid by the Holding Company to its directors is in accordance with the provisions of section 197 of the Act. In our opinion and based on the consideration of reports of other statutory auditors of the subsidiaries, the managerial remuneration for the year ended March 31, 2024 has been paid by the subsidiaries to their directors is in accordance with the provisions of section 197 read with Schedule V to the Act;

   h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other

auditors on separate financial statements as also the other financial information of the subsidiaries, as noted in the 'Other matter' paragraph:

i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group in its consolidated financials statements– Refer Note 39 to the consolidated financial statements.

ii. The Group has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts - Refer Note 39 to the consolidated financial statements.

iii. There has been no delay in transferring amounts required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies incorporated in India.

iv. (a) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiaries (´Ultimate Beneficiaries) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of its knowledge and belief, no funds have been received by the respective Holding Company or any of such subsidiaries from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditors' notice that has caused us or the other auditors to believe that the representations under sub-clause (a) and (b) contain any material mis-statement.

v. The Interim dividend declared and paid during the year by the Holding Company and its subsidiaries is in compliance with section 123 of the Companies Act, 2013.

vi. Based on our examination which included test checks, the holding company and based on the consideration of the reports of the other auditors on the consolidated financial statements and / or separate financial statements, as the case may be, of subsidiary companies, the Group has used accounting software for maintaining its books of accounts which has a feature of recording

Audit Trail (edit log facility) and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we and as reported by other auditors of subsidiary companies, did not come across any instance of audit trail feature being tempered with.

As proviso of Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

2. With respect to the matters specified in paragraphs 3 (xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/ "CARO") issued by Central Government in terms of Section 143(11) of the Act, to be included in the Auditors report, according to the information and explanation given to us, and based on the CARO report issued by us for the Holding Company and by the statutory auditors of the respective subsidiary companies which are companies incorporated in India, included in the consolidated financial statement of the Company, to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports except for those as stated below:

Annexure referred to paragraph 1(f) under the heading "Report on Other Legal and Regulatory Requirements" in our report of even date to the members of IIFL Finance Limited on the consolidated financial statement for the year ended March 31, 2024.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls over financial reporting of IIFL Finance Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies (hereinafter collectively referred to as "the Group") as of March 31, 2024, which are Companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company and its subsidiary companies which are incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies which are incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding Company and its subsidiary companies which are incorporated in India.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other matters paragraph below read together with the Emphasis of Matter Para in our report to the consolidated financial statements of the Group for the financial year ended March 31, 2024, the Holding Company and subsidiary companies incorporated in India have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to the subsidiary companies incorporated in India, is based solely on the corresponding report of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matters.

4. **General reserve**: The reserve can be distributed/utilised by the Group, in accordance with the Companies Act, 2013
5. **Special reserve**: Pursuant to section 45-IC of the Reserve Bank of India Act 1934, being 20% of the profit after tax for the year of IIFL Finance Limited and IIFL Samasta Finance Limited has been transferred from Retained Earnings to Special Reserve
6. **Special reserve:** Pursuant to section 29C of the National Housing Bank Act, 1987 the Housing Finance Company ("HFC") is required to transfer atleast 20% of its net profit every year to a reserve before any dividend is declared
7. **Capital redemption reserve**: This reserve has been created on redemption of preference shares capital as per section 55 of the Companies Act, 2013.
8. **Debenture redemption reserve**: Pursuant to Section 71 of the Companies Act, 2013 read with Rule 18 of the Companies (Share Capital and Debentures) Rules, 2014, Non Banking Finance Company ("NBFC") and Housing Finance Company ("HFC") are required to create Debenture Redemption Reserve of a value equivalent to 25% of the debentures offered through public issue. Pursuant to Ministry of Corporate Affairs circular dated August 16, 2019, reserve is not required to be created for the Non Convertible Debentures going forward.
9. **Retained earnings**: These are the profits that the Group has earned till date, less any transfers to Statutory Reserve, Debenture Redemption Reserve, General Reserve, Dividend distribution and capital redemption reserve.
10. **Share options outstanding account**: The employee stock options reserve represents reserve in respect of equity settled share options granted to the employees of the Company and its Group in pursuance of employee stock options plan.
11. **Effective portion of cash flow hedges**: This reserve refers to changes in the fair value of Derivative Financial Contracts which are designated as effective Cash Flow Hedge.
12. **Remeasurements of defined benefit:** This reserve refers to remeasurement of gains and losses arising from experience adjustments, changes in actuarial assumptions and return on plan assets of the defined benefit plan

Note 1. CORPORATE INFORMATION

Company overview

IIFL Finance Limited (the "Company/ Parent/ Holding Company") is a middle layer Non-Banking Financial Company not accepting public deposits registered with the Reserve Bank of India ("the RBI") under section 45-IA of the Reserve Bank of India Act, 1934 and primarily engaged in financing and related activities. The Company had received the certificate of registration from RBI on March 06, 2020, enabling the Company to carry on business as a Non-Banking Financial Company. The Company offers a broad suite of financial products such as mortgage loan, gold loan, loan against securities loans to small & medium enterprise ("SME"), Micro finance loans ("MFI") and digital finance loans etc.

Note 2. Basis of consolidation

i. Basis of preparation of financial statements

The consolidated financial statements relate to IIFL Finance Limited (the "Company") and its subsidiary/group companies (together hereinafter referred to as "Group"). The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

Control is achieved when the Group has:

- Power over the investee,
- Is exposed or has rights to variable returns from its involvement with the investee, and
- Has the ability to use its power over investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee.
- Rights arising from other contractual arrangements.
- The Group's voting rights and potential voting rights.
- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

ii. Principles of consolidation:

a) The consolidated financial statements of the Group have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 and relevant amendment rules issued thereafter ("Ind AS") on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period as explained below, the relevant provisions of the Companies Act, 2013 (the "Act") and the guidelines issued by the Reserve Bank of India ("RBI") and National Housing Bank ("NHB") to the extent applicable.

IIFL FINANCE LIMITED

CHHAJED & DOSHI * MUMBAI 400 069. * CHARTERED ACCOUNTANTS

Sharp & Tannan Associates * Firm Reg. No. 109983W * Chartered Accountants

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/ or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as value in use in Ind AS 36.

Fair value measurements under Ind AS are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date;
- Level 2 inputs are inputs, other than quoted prices included within level 1, (that are not traded in active market) that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the valuation of assets or liabilities.

b) The effects of all intra-Group transactions and balances have been eliminated on consolidation.

c) The consolidated financial statements of the subsidiary companies used in the consolidation are drawn up to the same reporting date as that of the Group, March 31, 2024.

d) The consolidated financial statements of the Group have been combined on a line-by-line basis by adding together like items of assets, liabilities, income and expenses, after eliminating intra-group balances, intra-group transactions and resulting unrealised profits or losses, unless cost cannot be recovered.

e) Business combinations: Business combinations are accounted for using the acquisition method. At the acquisition date, identifiable assets acquired, and liabilities assumed are measured at fair value. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition date fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. The consideration transferred is measured at fair value at acquisition date and includes the fair value of any contingent consideration. However, deferred tax asset or liability and any liability or asset relating to employee benefit arrangements arising from a business combination are measured and recognised in accordance with the requirements of Ind AS 12, Income Taxes and Ind AS 19, Employee Benefits, respectively. Where the consideration transferred exceeds the fair value of the net identifiable assets acquired and

IIFL FINANCE LIMITED

CHHAJED & DOSHI MUMBAI 400 069. CHARTERED ACCOUNTANTS

Sharp & Tannan Associates Reg. No. 109983W Chartered Accountants

liabilities assumed, the excess is recorded as goodwill. Alternatively, in case of a bargain purchase wherein the consideration transferred is lower than the fair value of the net identifiable assets acquired, and liabilities assumed, the difference is recorded as a gain in other comprehensive income and accumulated in equity as capital reserve. The costs of acquisition excluding those relating to issue of equity or debt securities are charged to the Statement of Profit and Loss in the period in which they are incurred Business combinations involving entities under common control are accounted for using the pooling of interests method. The net assets of the transferor entity or business are accounted at their carrying amounts on the date of the acquisition subject to necessary adjustments required to harmonise accounting policies.

f) Goodwill is an asset representing the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognised. Goodwill is initially measured at cost, being the excess of the consideration transferred over the net identifiable assets acquired and liabilities assumed, measured in accordance with Ind AS 103 – Business Combinations.

Goodwill is considered to have indefinite useful life and hence is not subject to amortisation but tested for impairment at least annually. After initial recognition, goodwill is measured at cost less any accumulated impairment.

Any impairment loss on goodwill is recognised in the Statement of Profit and Loss. An impairment loss recognised on goodwill is not reversed in subsequent periods.

For the purpose of impairment testing, goodwill acquired in a business combination, is from the acquisition date.

The excess of cost to the Group of its investments in the subsidiary companies over its share of equity of the subsidiary companies, at the dates on which the investments in the subsidiary companies are made, is recognised as 'Goodwill' being an asset in the consolidated financial statements. Alternatively, where the share of equity in the subsidiary companies as on the date of investment is in excess of cost of investment of the Group, it is recognised as 'Capital Reserve' and shown under the head 'Other equity', in the consolidated financial statements. Goodwill/ Capital reserve has been netted off and disclosed in the consolidated financial statements. Goodwill arising on consolidation is not amortised but tested for impairment.

g) Non-controlling Interest in the net assets of the consolidated subsidiaries consist of the amount of equity attributable to the minority shareholders at the date on which investments in the subsidiary companies were made and further movements in their share in the equity, subsequent to the dates of investments. Net profit and loss/ other comprehensive income ("OCI") for the year of the subsidiaries attributable to non-controlling interest is identified and adjusted against the profit after tax/ other comprehensive income ("OCI") of the Group in order to arrive at the income attributable to shareholders of the Group.

h) Profit or loss and each component of other comprehensive income ("OCI") are attributed to the equity holders of the Holding Company and to the non-controlling interests, if any.

iii. List of subsidiaries consolidated

The individual Balance Sheet as at March 31, 2024, Statement of Profit and Loss and cash flow statement for the year ended March 31, 2024 of following subsidiaries are included in consolidation:

IIFL FINANCE LIMITED

CHHAJED & DOSHI CHARTERED ACCOUNTANTS MUMBAI

Sharp & Tannan Associates Chartered Accountants Reg. No. 109983W

Name of the entity	Relationship	Country of Incorporation	% of holding and voting power either directly or indirectly through subsidiary	
			As at March 31, 2024	As at March 31, 2023
IIFL Home Finance Limited (HFC) (Consolidated)	Direct Subsidiary	India	79.59%	79.59%
IIFL Samasta Finance Limited (Samasta)	Direct Subsidiary	India	99.56%	99.51%
IFL Open Fintech Private Limited	Direct Subsidiary	India	51.02%	51.02%

iv. Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with Indian Accounting Standards ("Ind AS") requires the management to make estimates, judgments, and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the consolidated financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated financial statements.

The Financial Statements are presented in Indian rupees which is determined to be functional currency of the Group and the currency of primary economic environment in which the Group operates.

v. Statement of compliance

The consolidated financial statements of the Group have been prepared in accordance with the provisions of the Act and the Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 issued by Ministry of Corporate Affairs in exercise of the powers conferred by section 133 read with sub-section (1) of section 210A of the Companies Act, 2013 along with the applicable guidelines issued by Reserve Bank of India ("RBI") and National Housing Bank ("NHB"). In addition, the guidance notes/ announcements issued by the Institute of Chartered Accountants of India ("ICAI") are also applied except where compliance with other statutory promulgations require a different treatment.

vi. Presentation of financial statements

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Division III to Schedule III to the Act applicable for Non-Banking Finance Companies

("NBFC"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the consolidated Financial Statements along with the other notes required to be disclosed under the notified Accounting Standards and regulations issued by the RBI and NHB.

Note 3. MATERIAL ACCOUNTING POLICIES

(a) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured and there exists reasonable certainty of its recovery.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

i. Interest income and dividend income

Interest income on financial instruments at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ("EIR") applicable.

Interest income on Direct assignment pool is recognised on time proportion basis net off amount payable to assignees.

Interest on financial instruments measured at fair value is included within the fair value movement during the period.

The EIR is the rate that exactly discounts estimated future cash flows of the financial instrument through the expected life of the financial instrument or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The future cash flows are estimated considering all the behavioural pattern and contractual terms of the instrument.

The calculation of the EIR includes all fees paid or received between parties to the contract that are incremental and directly attributable to the specific lending arrangement, transaction costs, and all other premiums or discounts. For financial assets at fair value through profit and loss ("FVTPL"), transaction costs are recognised in the Statement of Profit and Loss at initial recognition.

Additional Interest are recognised as income only when revenue is virtually certain which generally coincides with receipts.

Dividend is recognised as income when the right to receive is established.

ii. Fees and charges

Fees and charges include fees other than those that are an integral part of EIR. The fees included in this part of the Group's Statement of Profit and Loss include, among other things, fees charged for servicing a loan. Fees and charges are recognised as income only when revenue is virtually certain which generally coincides with receipts.

IIFL FINANCE LIMITED

CHHAJED & DOSHI * CHARTERED ACCOUNTANTS * Mumbai 400 069.

Sharp & Tannan Associates * Chartered Accountants * Regn. No. 109983W

Cheque bounce charges, late payment charges and foreclosure charges are recognised on a point- in-time basis and are recorded when realised.

Fee and commission expenses with regards to services are accounted for as and when the services are delivered.

iii. Income from financial instruments at FVTPL

Income from financial instruments at FVTPL includes all gains and losses from changes in the fair value of financial assets and financial liabilities at FVTPL.

iv. Assignment transactions

In accordance with Ind AS 109, in case of assignment transactions with complete transfer of risks and rewards without any retention of residual interest, gain arising on such assignment transactions is recorded upfront in the Statement of Profit and Loss and the corresponding asset is derecognised from the Balance Sheet immediately upon execution of such transaction. Further, the transfer of financial assets qualifies for derecognition in its entirety, the whole of the interest spread at its present value (discounted over the life of the asset) is recognised on the date of derecognition itself as interest only strip receivable (interest strip on assignment) and correspondingly recognised as profit on derecognition of financial asset.

v. Securitisation transactions

In accordance with Ind AS 109, in case of securitisation transactions, the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and recognises a collateralised borrowing for the proceeds received.

vi. Other operational revenue

Other operational revenue represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

(b) Property, plant and equipment ("PPE")

PPE is recognised when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. PPE is stated at original cost net of tax, if any, less accumulated depreciation. Cost includes professional fees related to the acquisition of PPE and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy.

Subsequent expenditure related to an item of PPE is added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Depreciation is charged using the straight-line method, based on the useful life of PPE as estimated by the Management, as specified below. Depreciation is charged from the month in which new assets are ready to use. No depreciation is charged from the month in which assets are sold. In case of transfer of used PPE from group companies, depreciation is charged over the remaining useful life of the asset. Individual assets / group of similar assets costing up to ₹ 5,000 have been depreciated in full in the year of purchase. Leasehold land is depreciated on a straight-line basis over the

leasehold period.

The estimated useful life of assets is as under:

Class of assets	Useful life
Buildings	20 years
Computers	3 years
Office equipment	5 years
Plant and Equipment	5 years
Furniture and fixtures	5 years
Vehicles	5 years

For above class of assets, based on internal assessment and independent technical evaluation carried out by external valuers, the Management believes that the useful lives as given above best represent the period over which Management expects to use these assets.

An item of PPE is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of PPE is determined as the difference between the sales proceeds and the carrying amount net of accumulated depreciation of the asset and is recognised in the Statement of Profit and Loss.

Capital work in progress

Projects under which PPE are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest, and are disclosed as "capital work-in-progress".

(c) Intangible assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax, less accumulated amortisation and cumulative impairment.

Intangible assets i.e., Software are amortised on straight-line basis over the estimated useful life of 3 years. Amortisation on impaired assets is provided by adjusting the amortisation charge in the remaining periods so as to allocate the assets revised carrying amount over its remaining useful life.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount net of accumulated depreciation of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

Intangible assets under development
Intangible assets not ready for their intended use on the Balance Sheet date are disclosed as "Intangible assets under development".

(d) Investment property

Investment properties are properties held to earn rentals and/ or for capital appreciation (including

property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost, net of accumulated depreciation and accumulated impairment loss, if any.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount net of accumulated depreciation of the asset) is included in Statement of Profit and Loss in the period in which the Investment property is derecognised.

Freehold land and properties under construction are not depreciated.

(e) Non-current Assets held for Sale

Non-current assets are classified as held for sale if their carrying amount is intended to be recovered principally through a sale (rather than through continuing use) when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset and the sale is highly probable and is expected to qualify for recognition as a completed sale within one year from the date of classification.

(f) Impairment of assets

As at the end of each accounting year, the Group reviews the carrying amounts of its PPE, intangible assets and investment property assets to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the PPE, intangible assets and investment property are tested for impairment so as to determine the impairment loss, if any.

Recoverable amount is the higher of fair value less costs of disposal and value in use. If recoverable amount of an asset is estimated to be less than its carrying amount, such deficit is recognised immediately in the Statement of Profit and Loss as impairment loss and the carrying amount of the asset is reduced to its recoverable amount.

When an impairment loss is subsequently reversed, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, to the extent that it does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss.

(g) Share-based payment arrangements

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

Securities premium includes:

- The difference between the face value of the equity shares and the consideration received in respect of shares issued pursuant to Stock Option Scheme.

IIFL FINANCE LIMITED

CHHAJED & DOSHI MUMBAI 409063. CHARTERED ACCOUNTANTS

Sharp & Tannan Associates Reg. No. 109983W Chartered Accountants

- The fair value of the stock options which are treated as expense, if any, in respect of shares allotted pursuant to Stock Options Scheme

(h) Employee benefits

Defined contribution plans

The Group's contribution towards Provident Fund and Family Pension Fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees and are accounted for on an accrual basis and recognised in the Statement of Profit and loss.

Defined benefit plans

Short term employee benefits: Employee benefits falling due wholly within twelve months of rendering the service are classified as short-term employee benefits and are expensed in the period in which the employee renders the related service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service. These benefits include performance incentive and compensated absences.
Post employment benefits: The employees' gratuity fund scheme represents defined benefit plan. The present value of the obligation under defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows using a discount rate based on the market yield on government securities of a maturity period equivalent to the weighted average maturity profile of the defined benefit obligations at the Balance Sheet date.

Re-measurement, comprising actuarial gains and losses, the return on plan assets (excluding amounts included in net interest on the net defined benefit liability or asset) and any change in the effect of asset ceiling (if applicable) is recognised in other comprehensive income and is reflected in retained earnings and the same is not eligible to be reclassified to the Statement of Profit and Loss.

Defined benefit costs comprising current service cost, past service cost and gains or losses on settlements are recognised in the Statement of Profit and Loss as employee benefit expenses. Gains or losses on settlement of any defined benefit plan are recognised when the settlement occurs. Past service cost is recognised as expense at the earlier of the plan amendment or curtailment and when the Group recognises related restructuring costs or termination benefits.

In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognise the obligation on a net basis.

Long term employee benefits: The obligation recognised in respect of long-term benefits such as long term compensated absences, is measured at present value of estimated future cash flows expected to be made by the Group and is recognised in a similar manner as in the case of defined benefit plan above.

(i) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year.

IIFL FINANCE LIMITED

CHHAJED & DOSHI MUMBAI 450 069. CHARTERED ACCOUNTANTS

Sharp & Tannan Associates Reg. No. 109983W Chartered Accountants

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e., average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented.

(j) Taxes on income

Current tax

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Group's financial statements and the corresponding tax bases used in computation of taxable profit and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date.

Deferred tax is not recognized for:
- Temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss
- Temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on business plans and the reversal of temporary differences.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. For this purpose, the carrying amount of investment property measured at fair value is presumed to be recovered through sale, and the company has not rebutted this presumption.

For transactions and other events recognised in profit or loss, any related tax effects are also recognised in profit or loss. For transactions and other events recognised outside profit or loss

(either in other comprehensive income or directly in equity), any related tax effects are also recognised outside profit or loss (either in other comprehensive income or directly in equity, respectively).

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off assets against liabilities, representing current tax and where the deferred tax assets and deferred tax liabilities relates to taxes on income levied by the same governing taxation laws.

Current and deferred tax for the year

Current and deferred tax are recognised in the Statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(k) Financial instruments

Financial assets and financial liabilities are recognised in the Group's Balance Sheet when the Group becomes a party to the contractual provisions of the instrument.

Recognised financial assets and financial liabilities are initially measured at fair value. Transaction costs and revenues that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs and revenues directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in the Statement of Profit and Loss.

Financial assets

Classification and measurement

The Group classifies its financial assets into the following measurement categories: amortised cost; fair value through other comprehensive income; and fair value through profit or loss.

All recognised financial assets that are within the scope of Ind AS 109 are required to be subsequently measured at amortised cost or fair value on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Financial instruments measured at amortised cost

Debt instruments that meet the following criteria are measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

For the purpose of SPPI test, principal is the fair value of the financial asset at initial recognition. The principal amount may change over the life of the financial asset (e.g., if there are repayments of principal). Interest consists of consideration for the time value of money, for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin. The SPPI assessment is made in the currency in which the financial asset is denominated.

IIFL FINANCE LIMITED

CHHAJED & DOSHI CHARTERED ACCOUNTANTS MUMBAI 400 069.

Sharp & Tannan Associates Chartered Accountants Regn. No. 109183W

Contractual cash flows that are SPPI are consistent with a basic lending arrangement. Contractual terms that introduce exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement, such as exposure to changes in equity prices or commodity prices, do not give rise to contractual cash flows that are SPPI. An originated or an acquired financial asset can be a basic lending arrangement irrespective of whether it is a loan in its legal form.

An assessment of business models for managing financial assets is fundamental to the classification of a financial asset. The Group determines the business models at a level that reflects how financial assets are managed together to achieve a particular business objective. The Group's business model does not depend on management's intentions for an individual instrument, therefore the business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

Debt instruments that are subsequently measured at amortised cost are subject to impairment.

Financial instruments measured at fair value through other comprehensive income ("FVTOCI")

Debt instruments that meet the following criteria are measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in Statement of profit and loss for FVTOCI debt instruments. Other changes in fair value of FVTOCI financial assets are recognised in other comprehensive income. When the asset is disposed of, the cumulative gain or loss previously accumulated in reserve is transferred to Statement of Profit and Loss.

Financial instruments measured at fair value through Profit and Loss ("FVTPL")

All financial assets are recognized initially at fair value plus transaction cost attributable to the acquisition of the financial asset. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Instruments that do not meet the amortised cost or FVTOCI criteria are measured at FVTPL. Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in the Statement of Profit and Loss. The gain or loss on disposal is recognised in the Statement of Profit and Loss.

Interest income is recognised in the Statement of Profit and Loss for FVTPL debt instruments.

Dividend on financial assets at FVTPL is recognised when the Group's right to receive dividend is established.

Investments in equity instruments at FVTOCI

On initial recognition, the Group makes an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to

IIFL FINANCE LIMITED

CHHAJED & DOSHI * CHARTERED ACCOUNTANTS * MUMBAI 400 069.

Sharp & Tannan Associates * Chartered Accountants * Reg. No. 109983W

investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to Statement of Profit and Loss on disposal of the investments. Dividends from these investments are recognised in the Statement of Profit and Loss when the Group's right to receive dividends is established.

Reclassifications

If the business model under which the Group holds financial assets changes, the financial assets affected are reclassified. The classification and measurement requirements related to the new category apply prospectively from the first day of the first reporting period following the change in business model that result in reclassifying the Group's financial assets. Changes in contractual cash flows are considered under the accounting policy on modification and derecognition of financial assets described below.

Impairment of financial assets

Group recognizes loss allowances using the Expected Credit Loss ("ECL") model for the financial assets which are not fair valued through profit and loss. ECL is calculated using a model which captures portfolio performance over a period of time. ECL is a probability-weighted estimate of credit losses. A credit loss is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive discounted at the original EIR. Vintage loss curve model is used for ECL computation of retail portfolio which involves assessment of performance of segmented portfolio over a time period. The model tracks month-wise losses during the loan tenor. Vintage loss rate models provide a simple, reasonable model for both one-year and lifetime expected credit loss forecasts. For wholesale portfolio, ECL computation is done for each loan account based on CRISIL default study and International Review Board ("IRB") guidelines.

ECL is measured through a loss allowance at an amount equal to:

- 12-month ECL, i.e., ECL that result from those default events on the financial instrument that are possible within 12 months after the reporting date (referred to as Stage 1); or
- full lifetime ECL, i.e., lifetime ECL that result from all possible default events over the life of the financial instrument (referred to as Stage 2 and Stage 3).

A loss allowance for full lifetime ECL is required for a financial instrument if the credit risk on that financial instrument has increased significantly since initial recognition. For all other financial instruments, ECLs are measured at an amount equal to the 12-month ECL.

The Group measures ECL on an individual basis, or on a collective basis for portfolios of loans that share similar economic risk characteristics. The measurement of the loss allowance is based on the present value of the asset's expected cash flows using the asset's original EIR, regardless of whether it is measured on an individual basis or a collective basis.

Key elements of ECL computation are outlined below:

- Probability of default ("PD") is an estimate of the likelihood that customer will default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously de-recognised and is still in the portfolio.
- Loss given default ("LGD") estimates the normalised loss which Group incurs post customer

IIFL FINANCE LIMITED

CHHAJED & DOSHI * CHARTERED ACCOUNTANTS * MUMBAI

Sharp & Tannan Associates * Chartered Accountants * Regn. No. 109983W

default. It is usually expressed as a percentage of the Exposure at default ("EAD").

- Effective interest rate ("EIR") is the rate that discounts estimated future cash flows through the expected life of financial instrument. For calculating EIR any upfront fees need to be excluded from the loans and advance amount.

Credit impaired financial assets

A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Credit-impaired financial assets are referred to as Stage 3 assets. Evidence of credit-impairment includes observable data about the following events:

- significant financial difficulty of the borrower or issuer,
- a breach of contract such as a default or past due event,
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider,
- the disappearance of an active market for a security because of financial difficulties; or
- the purchase of a financial asset at a deep discount that reflects the incurred credit losses.

A loan is considered credit-impaired when a concession is granted to the borrower due to a deterioration in the borrower's financial condition, unless there is evidence that as a result of granting the concession the risk of not receiving the contractual cash flows has reduced significantly and there are no other indicators of impairment.

Definition of default

Critical to the determination of ECL is the definition of default. The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL, as default is a component of the probability of default ("PD") which affects both the measurement of ECLs and the identification of a significant increase in credit risk.

Default considered for computation of ECL computation is as per the applicable prudential regulatory norms.

Significant increase in credit risk

The Group monitors all financial assets, issued loan commitments and financial guarantee contracts that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. The Group's accounting policy is not to use the practical expedient that financial assets with 'low' credit risk at the reporting date are deemed not to have had a significant increase in credit risk.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognised. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort, based on the Group's expert credit assessment.

Modification and derecognition of financial assets

A modification of a financial asset occurs when the contractual terms governing the cash flows of a financial asset are renegotiated or otherwise modified between initial recognition and maturity of the financial asset. A modification affects the amount and/ or timing of the contractual cash flows either immediately or at a future date. In addition, the introduction or adjustment of existing covenants of an existing loan would constitute a modification even if these new or adjusted covenants do not yet affect the cash flows immediately but may affect the cash flows depending on whether the covenant is or is not met (e.g., a change to the increase in the interest rate that arises when covenants are breached).

The Group renegotiates loans to customers in financial difficulty to maximise collection and minimise the risk of default. Loan forbearance is granted in cases where although the borrower made all reasonable efforts to pay under the original contractual terms, there is a high risk of default or default has already happened and the borrower is expected to be able to meet the revised terms. The revised terms in most of the cases include an extension of the maturity of the loan, changes to the timing of the cash flows of the loan (principal and interest repayment), reduction in the amount of cash flows due (principal and interest forgiveness) and amendments to covenants.

When a financial asset is modified, the Group considers the following:

Qualitative factors, such as contractual cash flows after modification are no longer SPPI, change in currency or change of counterparty, the extent of change in interest rates, maturity, covenants. If these do not clearly indicate a substantial modification, then a quantitative assessment is performed to compare the present value of the remaining contractual cash flows under the original terms with the contractual cash flows under the revised terms, both amounts discounted at the original effective interest.

In the case where the financial asset is derecognised, the loss allowance for ECL is remeasured at the date of derecognition to determine the net carrying amount of the asset at that date. The difference between this revised carrying amount and the fair value of the new financial asset with the new terms will lead to a gain or loss on derecognition. The new financial asset will have a loss allowance measured based on 12-month ECL except in the rare occasions where the new loan is considered to be originated-credit impaired. This applies only in the case where the fair value of the new loan is recognised at a significant discount to its revised par amount because there remains a high risk of default which has not been reduced by the modification. The Group monitors credit risk of modified financial assets by evaluating qualitative and quantitative information, such as if the borrower is in past due status under the new terms.

When the contractual terms of a financial asset are modified and the modification does not result in derecognition, the Group determines if the financial asset's credit risk has increased significantly since initial recognition.

For financial assets modified, where modification did not result in derecognition, the estimate of PD reflects the Group's ability to collect the modified cash flows taking into account the Group's previous experience of similar forbearance action, as well as various behavioural indicators, including the borrower's payment performance against the modified contractual terms. If the credit risk remains significantly higher than what was expected at initial recognition the loss allowance will continue to be measured at an amount equal to lifetime ECL. The loss allowance on forborne loans will generally only be measured based on 12-month ECL when there is evidence of the borrower's improved repayment behaviour following modification leading to a reversal of the previous significant increase in credit risk.

IIFL FINANCE LIMITED

CHHAJED & DOSHI MUMBAI 400 069. CHARTERED ACCOUNTANTS

Sharp & Tannan Associates Reg. No. 109983W Chartered Accountants

Where a modification does not lead to derecognition the Group calculates the modification gain/ loss comparing the gross carrying amount before and after the modification (excluding the ECL allowance). Then the Group measures ECL for the modified asset, where the expected cash flows arising from the modified financial asset are included in calculating the expected cash shortfalls from the original asset.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the asset's cash flows expire (including expiry arising from a modification with substantially different terms), or when the financial asset and substantially all the risks and rewards of ownership of the asset are transferred to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain/loss that had been recognised in OCI and accumulated in equity is recognised in the Statement of Profit and Loss, with the exception of equity investment designated as measured at FVTOCI, where the cumulative gain/loss previously recognised in OCI is not subsequently reclassified to the Statement of Profit and Loss.

Write-off

Loans and debt securities are written off when the Group has no reasonable expectations of recovering the financial asset (either in its entirety or a portion of it). This is the case when the Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. A write-off constitutes a derecognition event. The Group may apply enforcement activities to financial assets written off. Recoveries resulting from the Group's enforcement activities will result in impairment gains.

Financial liabilities and equity Instruments

Debt and equity instruments that are issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.
Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Compound instruments

The component parts of compound instruments (e.g., convertible notes) issued by the Group are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Group's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments.

A conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently re-measured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to other component of equity. Where the conversion option remains unexercised at the maturity date of the convertible note, the balance recognised in equity will be transferred to retained earnings. No gain/ loss is recognised in Statement of Profit and Loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the convertible notes are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are recognised directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortised over the life of the convertible notes using the effective interest rate method.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest rate method.
Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest rate method.

The effective interest rate method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

Offsetting of financial instruments
Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet only if there is an enforceable legal right to offset the recognised amounts with an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

(l) Cash and bank balances

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Cash and bank balances also include fixed deposits, margin

IIFL FINANCE LIMITED

CHHAJED & DOSHI MUMBAI 400 069. CHARTERED ACCOUNTANTS

Sharp & Tannan Associates ICAI Regn. No. 109983W Chartered Accountants

money deposits, earmarked balances with banks and other bank balances which have restrictions on repatriation. Short term and liquid investments being subject to more than insignificant risk of change in value, are not included as part of cash and cash equivalents.

(m) Goods and service tax input credit

Goods and service tax input credit is accounted for in the books in the period in which the supply of goods or service received is accounted and when there is no uncertainty in availing/ utilising the credits.

(n) Borrowing costs

Borrowing costs include interest expense calculated using the EIR method.

(o) Foreign currencies

In preparing the consolidated financial statements of, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Statement of Profit and Loss.

Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise.

(p) Segment reporting

The Group's primary business segments are reflected based on the principal business carried out i.e., financing. All other activities of the Group revolve around the main business. The risk and returns of the business of the Group is not associated with geographical segmentation, hence there is no secondary segment reporting based on geographical segment. As such, there are no separate reportable segments.

(q) Provisions, contingent liabilities and contingent assets

Provisions are recognised only when:

- an entity has a present obligation (legal or constructive) as a result of a past event; and
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the amount of the obligation

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

IIFL FINANCE LIMITED

CHHAJED & DOSHI * CHARTERED ACCOUNTANTS * MUMBAI 400 069.

Sharp & Tannan Associates * Chartered Accountants * Regn. No. 109983W

Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

Contingent liability is disclosed in case of:

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and
- a present obligation arising from past events when no reliable estimate is possible.

Contingent liabilities are disclosed in the Notes. Contingent assets are neither recognised nor disclosed in the consolidated financial statements.

(r) Commitments

Commitments are future liabilities for contractual expenditure, classified and disclosed as follows:

a) Estimated amount of contracts remaining to be executed on capital account and not provided for,

b) Funding related commitment to associate and joint venture companies; and

c) Other non-cancellable commitments, if any.

(s) Statement of cash flows

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of:

- changes during the period in operating receivables and payables transactions of a non-cash nature,
- non-cash items such as depreciation, provisions, deferred taxes and unrealised foreign currency gains and losses.
- all other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of balance sheet.

(t) Exceptional Items

When items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items is disclosed separately as Exceptional items.

(u) Derivative financial instruments and hedging

The Group enters into derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts, interest rate swaps and cross currency swaps.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the Statement of Profit and Loss immediately unless the

IIFL FINANCE LIMITED

CHHAJED & DOSHI * MUMBAI 400 069. * CHARTERED ACCOUNTANTS

Sharp & Tannan Associates * Regn. No. 109983W * Chartered Accountants

derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in the Statement of Profit and Loss depends on the nature of the hedging relationship and the nature of the hedged item.

Hedge accounting

The Group designates certain hedging instruments, which include derivatives in respect of foreign currency risk, as cash flow hedge.

At the inception of the hedge relationship, the entity documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated under the heading of cash flow hedge reserve. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss and is included in the 'Other income' line item.

Amounts previously recognised in other comprehensive income and accumulated in equity relating to (effective portion as described above) are reclassified to profit or loss in the periods when the hedged item affects profit or loss, in the same line as the recognised hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, such gains and losses are transferred from equity (but not as a reclassification adjustment) and included in the initial measurement of the cost of the non-financial asset or non-financial liability. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in profit or loss.

(v) Leases

The Group assesses whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group considers whether (i) the contract involves the use of identified asset; (ii) the Group has substantially all of the economic benefits from the use of the asset through the period of lease and (iii) the Group has right to direct the use of the asset.

As a lessee

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the site on which it is located, less any lease incentives received.

Certain lease arrangements include the option to extend or terminate the lease before the end of the

lease term. The right-of-use assets and lease liabilities include these options when it is reasonably certain that the option will be exercised.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.
Lease payments included in the measurement of the lease liability comprises of fixed payments, including in-substance fixed payments, amounts expected to be payable under a residual value guarantee and the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option.

The lease liability is subsequently measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Lease liability and the right of use asset have been separately presented in the balance sheet and lease payments have been classified as financing activities.

The Group has elected not to recognise right-of-use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months with no purchase option and assets with low value leases. The Group recognises the lease payments associated with these leases as an expense in statement of profit and loss over the lease term. The related cash flows are classified as operating activities.

Critical accounting estimate and judgement

1. **Determination of lease term**

Ind AS 116 Leases requires lessee to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes assessment on the expected lease term on lease by lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of lease and the importance of the underlying to the Group's operations taking into account the location of the underlying asset and the availability of the suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

IIFL FINANCE LIMITED

CHHAJED & DOSHI * CHARTERED ACCOUNTANTS * MUMBAI 400 069.

Sharp & Tannan Associates * Chartered Accountants * Regn. No. 109183W

2. Discount rate

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

The Group as a lessee

As a lessee, the Group leases assets which includes gold loan branches/office premises and vehicles to employees. The Group previously classified leases as operating, or finance leases based on its assessment of whether the lease transferred significantly all of the risks and rewards incidental to ownership of the underlying asset to the Group. Under Ind AS 116, the Group recognises right-of-use assets and lease liabilities for these leases.

CHHAJED & DOSHI MUMBAI 400 069. CHARTERED ACCOUNTANTS

Sharp & Tannan Associates Reg. No. 109983W Chartered Accountants

6.1 Hedging activities and derivatives

The Group is exposed to certain risks relating to its ongoing business operations. The primary risks managed using derivative instruments are interest rate and currency risk.

6.1.1 Derivatives designated as hedging instruments

The foreign currency and interest rate risk on borrowings have been actively hedged through a combination of forward contracts and cross currency interest rate swaps.

The Group is exposed to interest rate risk arising from its foreign currency borrowings. Interest on the borrowing is payable at a floating rate linked to the Benchmark Plus Margin. The Group economically hedged the interest rate risk arising from the debt with a 'receive floating pay fixed' cross currency interest rate swap and also with Derivative Forward Contract.

The Group uses Cross Currency Interest Rate Swaps (IRS) Contracts (Floating to Fixed) and Forward Exchange Contracts to hedge its risks associated with interest rate and currency fluctuations relating interest rate and currency risk arising from foreign currency loans / external commercial borrowings. The Group designates such contracts in a cash flow hedging relationship by applying the hedge accounting principles as per IND AS standards. These contracts are stated at fair value of the Spot element of the forward exchange contracts at each reporting date. Changes in the fair value of these contracts that are designated and effective as hedges of future cash flows are recognised directly in "Cash Flow Hedge Reserve" under Other Equity and the ineffective portion is recognised immediately in the Statement of Profit and Loss. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting.

There is an economic relationship between the hedged item and the hedging instrument as the terms of the Forward contracts/Cross Currency Interest Rate Swaps match that of the foreign currency borrowings (notional amount, interest payment dates, principal repayment date, etc.). The Group has established a hedge ratio of 1:1 for the hedging relationships as the underlying risk of the Forward contracts/Cross currency interest rate swaps are identical to the hedged risk components.

12.1: The management of the parent Company has acquired possession of these properties in satisfaction of the debts and intends to dispose them in due course, subject to conducive market conditions. These properties have been valued taking into consideration various factors such as location, facilities & amenities, quality of construction, percentage of completion of construction (as for some properties the construction is currently on hold), residual life of building, business potential, supply & demand, local nearby enquiry, market feedback of investigation and ready reckoner published by government. These valuations has been performed by an independent registered valuer registered under rule 2 of Companies (Registered Valuers and Valuation) Rules,2017. The fair values are based on market values, being the estimated amount for which a property could be exchanged in an arm's length transaction. These properties are not depreciated as they have not been ready to use.

Notes:

(a) These loans are secured by way of a first pari-passu charge over the current assets in the form of receivables, book debts, bills, outstanding monies receivables including future movable assets, other than those specifically/exclusively charged.

(b) During the year FY 2023-24 the Group had borrowed ₹ 614.48 Crores (equivalent to US$ 75 Million) under External commercial borrowing. These are secured by way of a first ranking pari passu charge by way of hypothecation on all the borrower's charged asset in favour of the security holder in accordance with the Deed of Hypothecation.

(c) During the year, Group borrowed ₹ 410.25 Crores (equivalent to US$ 50 Million) under External commercial borrowing. These are secured by way of first ranking pari passu against all receivables/current assets of the borrower including book debts/receivables with both present and future but excluding book debt/receivables pertaining to capital market exposure and securitised asset .

(d) During the year, Group borrowed ₹ 410.11 Crores (equivalent to US$ 50 Million) under External commercial borrowing. These are secured by way of first ranking pari passu charge over all receivables/current assets of the borrower including book debts/receivables both present and future and which are "standard assets" but excluding book debt/receivables pertaining to capital market exposure and securitised assets.

(e) During the year, the Group borrowed ₹ 416.68 Crores denominated in Japanese Yen (equivalent to US$ 50 Million) under External commercial borrowing. These are secured by way of first ranking pari passu charge on all present and future standard loan receivables (excluding the receivables given on exclusive charge, if any), book debts, loan and advances and current assets of the borrower.

(f) During the previous year, the Group borrowed ₹ 395.28 crore (equivalent to USD 50 million) under External commercial borrowing. These are secured by way of first ranking pari passu charge by way of hypothecation on all borrower's charged asset in favour of the security trustee and specity exclusive charge.

(g) During the previous year, the Group borrowed 822.00 crore (equivalent to USD 100 million) under External commercial borrowing. These are secured by way of first ranking pari passu against all receivables/current assets of the borrower including book debts/receivables with both present and future but excluding book debt/receivables pertaining to capital market exposure and securitised asset.

(h) Out of the total borrowing from Banks, borrowings amounting to ₹ 20.00 Crores (As at March 31, 2023 ₹ 20.00 Crores) and Refinance Facility from NHB amounting to ₹ 390.32 Crores (As at March 31, 2023 ₹ 564.94 Crores) are also guaranteed by Holding Company i.e. IIFL Finance Limited.

(i) The term loans from banks, Financial Institution and NHB and cash credits from banks are secured by way of first pari passu charge by way of hypothecation on receivables of the Group, both present and future, book debts, loans & advances, except those receivables present and/or future specifically and exclusively charged in favor of certain existing charge holders. Further, borrowings from Financial Institution amounting to ₹ 413.10 Crores (before interest accrued but not due, exchange fluctuation and EIR adjustments) (As at March 31, 2023 Nil) are secured by way of first priority exclusive charge on the identified receivables of the Group.

(j) Borrowings from NHB includes ₹ 4,401.16 Crores (As at March 31, 2023 ₹ 2,520.49 Crores) secured by way of first exclusive charge on unencumbered individual housing loan portfolio in Favor of NHB.

(iii) Rights attached to equity shares

The Company has issued only one class of equity shares having a par value of ₹ 2/- per share. Each holder of equity share is entitled to one vote per share. The Company declares and pays dividends in Indian Rupees. During the year ended March 31, 2024, equity shareholders were paid an interim dividend of ₹ 4.00/- (P.Y ₹ 4.00/-) per share.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the Company after distribution of all preferential amounts. However, no such preferential amount exists currently. The distribution will be in proportion to the number of equity shares held by the shareholders.

CHHAJED & DOSHI MUMBAI 400 069. CHARTERED ACCOUNTANTS

Sharp & Tannan Associates Reg. No. 109863W Chartered Accountants

Maturity Analysis of the Benefit Payments: From the Fund	FY 2023-24	FY 2022-23
Projected Benefits Payable in Future Years From the Date of Reporting		
1st Following Year	5.07	3.92
2nd Following Year	1.66	1.81
3rd Following Year	1.84	1.89
4th Following Year	2.31	1.51
5th Following Year	2.21	1.87
Sum of Years 6 To 10	12.77	9.51
Sum of Years 11 and above	149.57	119.09

Sensitivity Analysis	FY 2023-24	FY 2022-23
Projected Benefit Obligation on Current Assumptions	53.74	40.81
Delta Effect of +1% Change in Rate of Discounting	(6.88)	(5.05)
Delta Effect of -1% Change in Rate of Discounting	7.36	5.56
Delta Effect of +1% Change in Rate of Salary Increase	7.27	5.38
Delta Effect of -1% Change in Rate of Salary Increase	(6.15)	(4.56)
Delta Effect of +1% Change in Rate of Employee Turnover	(0.03)	0.15
Delta Effect of -1% Change in Rate of Employee Turnover	(0.03)	(0.22)

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Notes

Actuarial gains/losses are recognised in the period of occurrence under Other Comprehensive Income (OCI). All above reported figures of OCI are gross of taxation.

Salary escalation & attrition rate are in line with the industry practice considering promotion and demand and supply of the employees.

Maturity analysis of benefit payments is undiscounted cashflows considering future salary, attrition & death in respective year for members as mentioned above.

Average Expected Future Service represents Estimated Term of Post - Employment Benefit Obligation.

Value of asset is considered as fair value of plan asset for the period of reporting.

Expected Rate of Return taken same as discount rate as described in Indian Accounting Standard 19.

Expected Contribution in the Next Year is the amount as expected by Entity to be contributed to the Plan Assets over the next year.

Qualitative disclosures

Characteristics of defined benefit plan

The Company has a defined benefit gratuity plan in India (funded). The company's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to a separately administered fund. During the year, there were no plan amendments, curtailments and settlements.

The fund is managed by a trust which is governed by the Board of Trustees. The Board of Trustees are responsible for the administration of the plan assets and for the definition of the investment strategy.

Risks associated with defined benefit plan

Gratuity is a defined benefit plan and company is exposed to the following risks:

Interest rate risk: A fall in the discount rate which is linked to the G Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Asset liability matching risk: The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

A separate trust fund is created to manage the Gratuity plan.

Note 38. Risk Management

The Group's activities expose it to market risk, liquidity risk and credit risk.

Risk management is integral to the Group's strategy. An enterprise wide risk management framework is in place to govern the Group's risk management processes. A strong risk management team and an effective credit operations structure ensures that risks are properly identified and timely addressed to ensure minimal impact on the Group's growth and performance.
The Group has developed the necessary competency to identify early stress signals and has also defined processes, including corrective and remedial actions as regards people and processes, for mitigation to ensure minimum damage.

A stress testing mechanism is put in place to carry out the event based sensitivity analysis and identify the accounts under stress due to expected market movement.

The comprehensive understanding of risk management throughout the various levels of an organization aids in driving key decisions related to risk-return balance, capital allocation and product pricing. The Group operates under the guidance of the Board approved risk appetite statement that covers business composition, guidance around gross non-performing assets and net non-performing assets, leverage, funding and liquidity, etc.
Additionally, it is also ensured that appropriate focus is on managing risk proactively by ensuring business operations are in accordance with laid-down risk. A strong risk management team and an effective credit operations structure ensures that risks are properly identified and timely addressed, to ensure minimal impact on the Group's growth and performance.

Risk Management Structure

The Group has established multi-level risk governance for monitoring & control of product and entity level risks. The Board of Directors are responsible for the overall risk management approach and for approving the risk management strategies and principles. The Board has constituted the Risk Management Committee ("RMC") which is responsible for monitoring the overall risk process within the Group. The RMC is empowered to develop an independent risk strategy comprising of principles, frameworks, policies and limits and ensuring its effective implementation. Independent function of Risk management is in place headed by the Chief Risk Officer ("CRO") who reports to the Chief Executive Officer ("CEO") with oversight of RMC of the Board. The Risk department primarily operationalises risk management framework approved by RMC.

The group has a well –defined risk framework constituting various lines of defence – the first line of defence, consisting of management, is responsible for seamless integration of risk principles across all businesses. Additionally, it ensures adequate managerial and supervisory controls to ensure compliance and highlight inadequate processes and unexpected events. The Group has well-defined internal control measures in every process.
Independent risk and policy team constitutes second line of defence which is responsible for identification and assessment of entity-wide risks. Post its identification, it aims to mitigate risks either through portfolio trigger and caps (Credit risk) or through ongoing risk control and self assessment (Operational risk)
Internal Audit function is the third line of defence that independently reviews activities of the first two lines of defence and reports to the Audit Committee of the Board.

Risk Management Practices

The Group has developed the necessary competency to identify early stress signals and has also defined processes, including corrective and remedial actions as regards people and processes, for mitigation to ensure minimum damage. A stress testing mechanism is put in place to carry out the event based sensitivity analysis and identify the accounts under stress due to expected market movement. In event of susceptibility to external triggers, appropriate risk mitigation would be undertaken and thereby minimize the losses to the Group.
The Group has initiated a detailed portfolio quality review mechanism which enables analysis of portfolio along various behavioural, demographic and financial parameters. Additionally, through tie-ups with external bureaus, an analysis of collection performance coupled with continuous credit assessment for various key segments is undertaken. The practices aid in proactive course correction thereby modifying credit or sourcing mechanisms, if required. Additionally, application scorecard has been developed enabling the Group to standardize credit underwriting & improve sourcing quality in the long run.
The Group's policy is to measure and monitor the overall risk-bearing capacity in relation to the aggregate risk exposure across all risk types and activities. Information pertaining to different type of risks are identified, analysed and tested on timely basis. The same is presented to Risk Management Committee at periodic intervals.

In order to minimise any adverse effects on the financial performance of the Group, derivative financial instruments, such as cross currency interest rate swaps are entered to hedge certain foreign currency risk exposures and variable interest rate exposures.

The Group's central treasury department identifies, evaluates and hedges financial risks in close co- operation with the Group's operating units. The Board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments and investment of excess liquidity. The Group's Treasury is responsible for managing its assets and liabilities and the overall financial structure. It is also primarily responsible for the funding and liquidity risks of the Group.

38A.1. Credit Risk

Credit risk refers to risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group.
Credit risk arises primarily from financial assets such as trade receivables, investments, derivative financial instruments, other balances with banks, loans and other receivables.

Credit quality analysis

The following tables sets out information about the credit quality of financial assets measured at amortised cost. Unless specifically indicated, for financial assets, the amounts in the table represent gross carrying amounts.

(₹ in crores)

Particulars	As at March 31, 2024				
	Financial Assets where loss allowance measured at 12-month ECL	Financial assets for which credit risk has increased significantly and credit not impaired	Financial assets for which credit risk has increased significantly and credit impaired	Financial Assets where loss allowance measured using simplified approach	Total
Cash and cash equivalents	-	-	-	2,469.87	2,469.87
Bank Balance other than above	-	-	-	1,775.85	1,775.85
Receivables					
(i) Trade Receivables	-	0.20	-	108.05	108.25
(ii) Other Receivables	-	-	-	29.65	29.65
Loans *	43,583.44	2,557.69	1,179.36	-	47,320.49
Investments	-	-	-	380.32	380.32
Other Financial assets	-	-	-	1,458.40	1,458.40

* Loans comprises of outstanding principal, interest accrued but not due and principal and interest overdue.

(₹ in crores)

Particulars	As at March 31, 2023				
	Financial Assets where loss allowance measured at 12-month ECL	Financial assets for which credit risk has increased significantly and credit not impaired	Financial assets for which credit risk has increased significantly and credit impaired	Financial Assets where loss allowance measured using simplified approach	Total
Cash and cash equivalents	-	-	-	3,632.13	3,632.13
Bank Balance other than above	-	-	-	2,208.36	2,208.36
Receivables					
(i) Trade Receivables	-	0.10	8.11	120.52	128.73
(ii) Other Receivables	-	-	-	15.47	15.47
Loans *	31,053.32	2,061.96	736.77	-	33,852.05
Investments	-	-	-	1,051.40	1,051.40
Other Financial assets	-	-	-	1,653.32	1,653.32

* Loans comprises of outstanding principal, interest accrued but not due and principal and interest overdue.

Financial Assets measured using simplified approach:

The Group follows 'simplified approach' for recognition of impairment loss allowance on Cash and Cash Equivalents, Bank Balances, Trade Receivables, other receivables and Other Financial Assets. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

38A.2. Collateral held

The Group holds collateral and other credit enhancements against certain of its credit exposures. The loans are collateralised against equitable mortgage of property, pledge of shares, hypothecation of assets, physical gold, undertaking to create security

38A.3. Loss allowance and Exposure at default

The following tables show reconciliations from the opening to the closing balance of the loss allowance by class of financial instrument.

(₹ in crores)

Reconciliation of loss allowance	Financial Assets where loss allowance measured at 12-month ECL		Financial assets for which credit risk has increased significantly and credit not impaired		Financial assets for which credit risk has increased significantly and credit impaired		Total	
	Principal	Others	Principal	Others	Principal	Others	Principal	Others
Opening ECL Apr-2023	**716.03**	**65.55**	**138.89**	**10.23**	**304.83**	-	**1,159.75**	**75.78**
New loans disbursed during the year	272.16	28.71	35.57	10.78	209.13	-	516.86	39.49
Loans closed/written off during the year	(324.52)	(42.24)	(42.48)	(4.02)	(229.18)	-	(596.18)	(46.26)
Movement in provision without change in asset staging	(252.91)	(10.37)	38.05	14.14	58.69	-	(156.17)	3.77
Movement in provision due to change in asset staging	3.34	(0.19)	(4.42)	1.15	236.87	-	235.79	0.96
Closing ECL Mar-2024	**414.10**	**41.46**	**165.61**	**32.28**	**580.34**	-	**1,160.05**	**73.74**

The Group has a management overlay of ₹ 116.38 crores included in total ECL provision.

(₹ in crores)

Reconciliation of loss allowance	Financial Assets where loss allowance measured at 12-month ECL		Financial assets for which credit risk has increased significantly and credit not impaired		Financial assets for which credit risk has increased significantly and credit impaired		Total	
	Principal	Others	Principal	Others	Principal	Others	Principal	Others

38A.4. Write off

Contractual amount outstanding on financial assets that were written off during the reporting period is ₹ 911.14 crore (P.Y ₹ 934.98 crore)

38A.5. Modified Financial Instruments

For financial assets, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that the modification does not result in cash flows that are substantially different (thereby not resulting into derecognition), the Group has recorded a modification gain or loss based on the change in cash flows discounted at the original EIR (Effective Interest Rate).

(₹ in crores)

Particulars	FY 2023-2024	FY 2022-2023
Carrying amount of Modified financial assets	311.04	614.61

The terms of the assets have been modified in accordance with NHB (Directions)/RBI (HFC) Directions and as per RBI Notification "Resolution Framework for COVID-19-related Stress".

38A.6. Credit Risk Grading of loans

Credit Risk Grading is an important tool for credit risk management as it helps in understanding and evaluating risks for different credit transactions.

The Group has established overall credit limits at the level of individual borrowers and counterparties, and groups of connected counterparties. It manages and controls credit risk by confining the amount of risk it is willing to accept for individual counterparties, for geographical concentrations, and by closely monitoring such exposures.

The Group has a Credit Risk Policy which is board approved and shared with all credit approving authorities. All customers will be evaluated on a set of pre-defined parameters as detailed below and accordingly classified into any of the following categories:

1. Low Risk
2. Medium Risk
3. High Risk

The high risk category of customers will not be actively sourced by the Group. Any customer, identified as High Risk, can be funded by the Group basis exceptional comfort and availability of justifying mitigates. The extent and nature of due diligence will be the highest for this category. The assessment of a customer being classified into high, medium or low is based on various parameters at the time of on-boarding which are captured in the Credit Approval Memorandum by the credit manager and validated by the relevant approving authority. The parameters are as follows:

1. Customer Profile
2. Financial health
3. Business vintage
4. Credit history
5. Industry feedback
6. Other qualitative/ quantitative factors as mentioned in the policy

Every customer once being stamped into a risk category on a periodic basis would further be subjected to change of his risk profile depending on the repayment history and DPDs through an independent credit quality review process. This process aims to allow the Group to assess the potential loss as a result of the risks to which it is exposed and take corrective actions.

Credit Grading details :

(₹ in crores)

Period	Stage 1	Stage 2	Stage 3	Total EAD
March 31, 2024	51,691.32	2,595.04	1,179.36	55,465.72
March 31, 2023	40,164.57	2,089.94	736.77	42,991.27

38A.7. Concentration of Credit Risk

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions.

In order to avoid excessive concentrations of risk, the Group's policies and procedures include specific guidelines to focus on spreading its lending portfolio across various products/states/customer base with a cap on maximum limit of exposure for an individual/Group. Accordingly, the Group does not have concentration risk.

38B Liquidity Risk

Liquidity risk refers to the risk that the Group may not be able to meet its short-term financial obligations. The Group manages liquidity risk by maintaining sufficient cash and marketable securities and by having access to funding through an adequate amount of credit lines. Further, the Group has well defined Asset Liability Management (ALM) framework with an appropriate organizational structure to regularly monitor and manage maturity profiles of financial assets and financial liabilities including debt financing plans, cash and cash equivalent instruments to ensure liquidity. The Group seeks to maintain flexibility in funding mix by way of sourcing the funds through money markets, debt markets and banks to meet its business and liquidity requirements.

(i) Maturities of financial liabilities

(₹ in crores)

Contractual maturities of financial liabilities (including financial guarantee) As at March 31, 2024	Total	Upto 3 months	Over 3 months to 6 months	Over 6 months to 1 year	Over 1 year to 3 years	Over 3 to 5 years	Over 5 years

38C Market Risk

Market Risk is the risk that the value of on and off-balance sheet positions of a financial institution will be adversely affected by movements in market rates or prices such as interest rates, foreign exchange rates, equity prices, credit spreads and/or commodity prices resulting in a loss to earnings and capital.

Financial institutions may be exposed to Market Risk in variety of ways. Market risk exposure may be explicit in portfolios of securities / equities and instruments that are actively traded. Conversely it may be implicit such as interest rate risk due to mismatch of loans and deposits. Besides, market risk may also arise from activities categorized as off-balance sheet item. Therefore market risk is potential for loss resulting from adverse movement in market risk factors such as interest rates, forex rates, equity and commodity prices.

The Group's exposure to market risk is primarily on account of interest rate risk and Foreign exchange risk.

38C.1 Interest rate risk

(a) The exposure of the Group's borrowing to interest rate changes at the end of the reporting period are as follows:

(₹ in crores)

	As at March 31, 2024	As at March 31, 2023
Variable rate borrowings	22,168.03	17,059.64
Fixed rate borrowings	24,047.76	22,142.97
Total borrowings	**46,215.79**	**39,202.61**

The Group had the following variable rate borrowings outstanding and cross currency interest rate swap contracts outstanding: (₹ in crores)

	As at March 31, 2024			As at March 31, 2023		
	Weighted averuge interest rate (%)	Balance	% of total borrowings	Weighted average interest rate (%)	Balance	% of total borrowings
Bank overdrafts, bank loans	9.52%	22,034.23	47.68%	9.28%	16,944.64	43.22%
Non convertible debentures	9.00%	133.80	0.29%	8.25%	115.00	0.29%
Net exposure to cash flow interest rate risk		**22,168.03**			**17,059.64**	
Currency Interest Rate Swaps	7.74%	**1,523.99**	3.30%	8.97%	**1,394.53**	3.56%

An analysis by maturities is provided in note 38(B)(i) above. The percentage of total loans shows the proportion of loans that are currently at floating rates in relation to the total amount of borrowings.

The Group had the following variable rate loans outstanding: (₹ in crores)

	As at March 31, 2024			As at March 31, 2023		
	Weighted average interest rate (%)	Balance	% of total loans	Weighted average interest rate (%)	Balance	% of total loans
Floating rate loans	12.65%	23,485.10	45.00%	12.93%	18,215.21	44.02%

(b) Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates (assuming other variable constant)

(₹ in crores)

Particulars	Impact on profit after tax		Impact on other components of equity	
	March 31, 2024	March 31, 2023	March 31, 2024	March 31, 2023
Interest rates – increase by 50 basis points	(82.94)	(63.83)	-	-
Interest rates – decrease by 50 basis points	82.94	63.83	-	-

Profit or loss is sensitive to higher/lower interest income from loans as a result of changes in interest rates (assuming other variable constant)

(₹ in crores)

Particulars	Impact on profit after tax		Impact on other components of equity	
	March 31, 2024	March 31, 2023	March 31, 2024	March 31, 2023
Interest rates – increase by 50 basis points	87.87	68.15	-	-
Interest rates – decrease by 50 basis points	(87.87)	(68.15)	-	-

38C.2. Exposure to currency risks

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign currency rates. The Group's exposure to the risk of changes in foreign exchange rates relates primary to the foreign currency borrowings taken from banks and External Commercial Borrowings (ECB).

The Group follows a conservative policy of hedging its foreign currency exposure through Forwards and / or Cross Currency Interest Rate Swaps (CCRIS) in such a manner that it has fixed determinate outflows in its functional currency and as such there would be no significant impact of movement in foreign currency rates on the Group's profit before tax (PBT) and equity. However for the unhedged foreign currency exposure(s) there would be an impact on Group's profitability.

The Group's currency position is as under

(₹ in crores)

Particulars	USD	EUR	CHF	JPY	SGD	Other Currencies
Foreign Currency Assets (in INR)	157.69	-	-	-	-	-
Foreign Currency Liabilities (in INR)	13.54	-	-	19.99	-	-
Net Gap as at March 31, 2024	**144.15**	-	-	**(19.99)**	-	-

(₹ in crores)

Particulars	USD	EUR	CHF	JPY	SGD	Other Currencies
Foreign Currency Assets (in INR)	223.58	-	-	-	-	-
Foreign Currency Liabilities (in INR)	42.37	-	-	-	-	-
Net Gap as at March 31, 2023	**181.21**	-	-	-	-	-

Sensitivity :

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments.

(₹ in crores)

Particulars	Impact on profit after tax		Impact on other components of equity	
	March 31, 2024	March 31, 2023	March 31, 2024	March 31, 2023
Currency sensitivity				
Increase by 5%	(15.41)	-	(143.79)	(182.45)
Decrease by 5%	15.41	-	143.79	182.45

The sensitivity on profit and loss is due to the timing difference of the maturity of the Cross currency interest rate swap. On the date of maturity of the Cross currency interest rate swap, the sensitivity of profit and loss to changes in the exchange rates will be Nil.

38C.3. Price Risk

(a) Exposure

The Group's exposure to assets having price risk is as under

(₹ in crores)

Particulars	Equity Share	Mutual Funds /Alternate investment funds/ others	Bonds / Debt securities	Security Receipts	Total
Market Value as on March 31, 2024	24.18	482.50	369.31	3,182.99	4,058.98
Market Value as on March 31, 2023	0.05	2,284.73	346.52	879.70	3,511.00

To manage its price risk arising from investments in equity securities/other assets, the Group diversifies its portfolio.

(b) Sensitivity

The table below summarises the impact of increases/decreases of the index on the Group's equity/other assets and profit for the period. The analysis is based on the assumption that the instrument index has increased by 5% or decreased by 5% with all other variables held constant.

(₹ in crores)

Particulars	Impact on profit after tax		Impact on other components of equity	
	March 31, 2024	March 31, 2023	March 31, 2024	March 31, 2023
Increase by 5%	151.87	131.37	-	-
Decrease by 5%	(151.87)	(131.37)	-	-

38D.Capital Management

For the purpose of the Group's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Group. The primary objective of the Group's capital management is to maximise the shareholder value. The Group monitors capital in accordance with the capital adequacy ratio prescribed by the Reserve Bank of India ("RBI")/ National Housing Bank ("NHB") as applicable

38E. Fair values of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer an liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using a valuation technique.In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

The following table shows an analysis of financial instruments recorded at Fair Value hierarchy:

(₹ in crores)

Particulars	As at March 31, 2024		
	Fair Value through profit or loss	Fair value through Other Comprehensive Income	Amortised cost / Cost
Financial assets			
Cash and cash equivalents	-	-	2,469.87
Bank Balance other than (a) above	-	-	1,775.85

Total financial liabilities	**9.22**	**33.15**	**42,241.22**

38E. 1. Financial instruments measured at fair value – Fair value hierarchy

The following table analyses financial instruments measured at fair value at the reporting date, by the level in the fair value hierarchy into which the fair value measurement is categorised. The amounts are based on the values recognised in the statement of financial position.

38E.2. Valuation methodologies of financial instruments measured at fair value

(i) Quoted equity instruments are measured based on the last traded price in the exchange and are classified as level 1.
(ii) Mutual Funds are measured based on the published net asset value (NAV) by AMFI and are classified as level 1.
(iii) Alternate Investment Funds are measured based on the latest NAV provided by the fund house and are classified as level 3.
(iv) Equity instruments in non-listed entities are initially recognised at transaction price and re-measured (to the extent information is available) and valued by external independent valuer and classified as Level 3.
(v) Preference shares (unquoted) are classified as Level 2, based on the fair valuation conducted by an external independent valuer.
(vi) Government Securities are valued based on the closing price published by CCIL/ FIMMDA and are classified as level 2.
(vii) Unquoted debt securities are measured based on average of security level prices received from AMFI appointed/designated agencies viz. CRISIL and ICRA and are classified as level 2.
(viii) The fair value of interest rate swaps is calculated as the present value of the net of Pay and Receive side estimated future cash flows based on observable appropriate yield curve inputs.
(ix) Fair value of loans measured at FVOCI approximates its carrying value and are classified as level 3.
(x) Fair value of forward foreign exchange contracts is determined by computing present value of payoff between contractual rate (Strike) and forward exchange rates at the testing date and are classified as Level 2.
(xi) The fair value principal swap is calculated as the present value of the net of Pay and Receive side estimated future cash flows based on observable appropriate yield curve inputs and spot exchange rate as of the testing date and are classified as Level 2.

38E.3. Valuation methodologies of financial instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the Group's financial statements. These fair values were calculated for disclosure purposes only.

Short-term financial assets and liabilities

For financial assets and financial liabilities that have a short-term nature, the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and bank balances, Trade receivables, other receivables, balances other than cash and cash equivalents and trade payables.

Loans, Debts, Borrowings and Subordinated Debts

The fair values of these instruments are estimated by determining the price of the instrument taking into consideration the origination date, maturity date, coupon rate, actual or approximation of frequency of interest payments and incorporating the actual or estimated/proxy yields of identitical or similar instruments through the discounting factor. For instruments, having contractual residual maturity less than one year, the carrying value has been considered as fair value. Loans and advances are presented net of provisions for impairment.

(₹ in crores)

Assets and liabilities which are measured at amortised cost for which fair values are disclosed	Total fair value	Carrying Value	Valuation Hierarchy
As at March 31, 2024

38 F. Transferred financial assets that are derecognised in their entirety

The Group has sold some loans and advances measured at FVTOCI as per assignment deals, as a source of finance. As per the terms of deal, since the derecognition criteria as per IND AS 109, including transfer of substantially all the risks and rewards relating to assets being transferred to the buyer being met, the assets have been derecognised. The management has evaluated the impact of the assignment transactions done during the year for its business model. Based on the future business plans, the Group's business model remains to hold the assets for collecting contractual cash flows.

The following table provide a summary of the amount of the derecognised financial assets during the year and the gain/(loss) on derecognition, which qualify for derecognition:

(₹ in crores)

Particulars	FY 2023-24	FY 2022-23
Financial assets derecognised during the year	14,338.07	14,645.44
Net loss / (gain) on derecognition of financial instruments under FVTOCI category	136.79	(513.81)

38 G. Transferred financial assets that are recognised in their entirety:

The Group uses securitisations as a source of finance. Such transaction resulted in the transfer of contractual cash flows from portfolios of financial assets to holders of issued debt securities. Such deals resulted in continued recognition of the securitised assets since the Group retains substantial risks and rewards. The table below outlines the carrying amounts and fair values of all financial assets transferred that are not derecognised in their entirety and associated liabilities.

(₹ in crores)

Securitisations	As at March 31, 2024	As at March 31, 2023
Carrying amount of transferred assets measured at amortised cost	280.45	743.94
Carrying amount of associated liabilities	280.73	743.94
Fair value of assets	280.43	743.81
Fair value of associated liabilities	280.73	743.94

Note 39. Capital, Other Commitments and Contingent Liabilities at Balance Sheet date:

Contingent Liabilities:

(₹ in crores)

Particulars	As at March 31, 2024	As at March 31, 2023
Claim against the Company not acknowledged as debt:		
In respect of Income tax demands (refer note a and b)	77.08	79.51
In respect of Service tax/ Gst demands (including interest accrued and refer note c)	70.26	65.84
In respect of Profession Tax demands (refer note d)	0.16	0.16
In respect of legal case/ penalties/others	15.73	1.17
In respect of Stamp Duty (refer note e)	16.66	16.66
Bank Guarantee:		
In respect of Bank guarantees given (refer note f)	410.32	584.94
Other money for which the company is contingently liable:		
In respect of Corporate guarantees given	23.34	23.34
Contingent liability in respect of credit enhancement for securitisation transaction	79.91	79.95

(a) The Group has filed appeal against the said demands raised by the Income Tax Department.

(b) Amount paid under protest with respect to income tax demand is 76.32 crores (P.Y ₹ 68.89 crores).

(c) Amount paid under protest with respect to service tax and GST demands are ₹ 1.59 crores (P.Y ₹ 1.89 crores).

(d) Amount paid under protest with respect to profession tax demand ₹ 0.05 crores (P.Y ₹ 0.05 crores).

(e) The Group had received demand towards stamp duty on account of the Composite Scheme of Arrangement.The demand had been raised for a sum of ₹ 75.00 crores. As per the scheme document any incidental expenses will be borne by the resulting companies i.e IIFL Finance Limited, IIFL Securities Limited and 360 ONE WAM Limited (Formerly known as IIFL Wealth Management Limited) equally. The Group has appealed against the same and paid ₹ 8.34 crores under protest towards its share of the liability and shown ₹ 16.66 crores as Contingent.The matter is pending before the court.

(f) Guarantee has been given on behalf of subsidiary.

(g) Apart from the above, group is subject to legal proceedings and claims which have arisen in the ordinary course of the business. The Group's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have material and adverse effect on the Group's financial position.

Commitments not provided for:

(₹ in crores)

Particulars	As at March 31, 2024	As at March 31, 2023
Commitments related to loans sanctioned but undrawn	3,689.95	2,139.07
Estimated amount of contracts remaining to be executed on capital and operating account	25.60	19.90
Commitments related to alternate investment funds	12.88	9.77

Note 40. Employee Stock Option

40.1 Stock option schemes of the Parent Company (IIFL Finance Limited)

The Company has implemented various Employee Stock Option Schemes (ESOP Schemes) and has outstanding options granted under the said Schemes. The options vest in graded manner and must be exercised within a specified period as per the terms of the grants made by the Nomination and Remuneration Committee and ESOP Schemes.

The details of various Employee Stock Option Schemes are as under:

I. ESOP-2008

Particulars	As at March 2024	As at March 2023

Exercised during the year	1,42,925	82.02- 271.40	174.85	-
Outstanding as on March 31, 2023	**9,36,947**	**82.02-350.00**	**274.97**	**5.44**
Exercisable as on March 31, 2023	**75,788**	**252.00-271.40**	**288.15**	**4.54**

Fair Value Methodology:

The fair value of the shares are measured using Black scholes formulae. Measurement inputs include share price on measurement date, exercise date of the instrument, exercise price, expected life, risk free interest rate, dividend yield, expected volatility .

Key Assumptions used in Black-Scholes model for calculating fair value as on the date of grant are as follows:

Particulars	05-Jan-24	04-Aug-23	15-Oct-22	26-Aug-22
Stock price (₹)	641.65	575.50	350.00	341.65
Volatility	10.00%	52.22%	10.00%	10.00%
Risk-free Rate	7.00%	7.04%	7.37%	7.02%
Exercise price (₹)	625.00	10.00	350.00	341.65
Time to Maturity (Years)	5.00	4.00	5.00	5.00
Dividend yield	3.00%	1.43%	3.00%	3.00%
Weight Average Value (₹)	89.05	535.83	45.31	42.15

Particulars	22-Dec-21	20-Aug-21	06-May-21	29-Apr-17
Stock price (₹)	271.40	252.00	252.00	218.71
Volatility	10.00%	10.00%	10.00%	10.00%
Risk-free Rate	5.81%	5.77%	5.66%	6.96%
Exercise price (₹)	271.40	252.00	252.00	218.71
Time to Maturity (Years)	5.00	5.00	5.00	5.00
Dividend yield	3.00%	3.00%	3.00%	3.00%
Weight Average Value (₹)	35.40	35.40	34.72	201.65

Particulars	08-Mar-16
Stock price (₹)	82.02
Volatility	10.00%
Risk-free Rate	7.47%
Exercise price (₹)	82.02
Time to Maturity (Years)	5.00
Dividend yield	3.00%
Weight Average Value (₹)	76.59

Stock Price: The closing market price on NSE one day prior to the date of grant has been considered for the purpose of Option valuation.

Volatility: The daily volatility of the stock prices on BSE, over a period prior to the date of grant, corresponding with the expected life of the Options has been considered to calculate the fair value.

Risk-free rate of return: The risk free rate being considered for the calculation is the India Government Bond Generic Bid Yield with a maturity about equal to the expected life of the options.

Exercise Price: Price of each specific grant has been considered.

Time to Maturity: Time to Maturity / Expected Life of Options is the period for which the Company expects the Options to be live. The minimum life of a stock option is the minimum period before which the Options cannot be exercised and the maximum life is the period after which the Options cannot be exercised.

Expected dividend yield: Expected dividend yield has been calculated as an average of dividend yields for the three financial years preceding the date of the grant. The dividend yield for the year is derived by dividing the dividend per share by the average price per share of the respective period.

Volatility	59.00%	59.00%
Risk-free Rate	7.13% - 7.34%	6.94% - 7.21%
Exercise price (₹)	142.22	106.67
Time to Maturity (Years)	4.84	3.87
Dividend yield	1.00%	1.00%
Weight Average Value (₹)	106.90	110.79

Stock Price: The fair value of stock as on Appointed Date, i.e., April 1, 2018 ("the Effective date" or the "Date of Modification") has been used to value the outstanding grants based on Mercahnt Banker's Report.

Volatility: The daily volatility of the stock prices on BSE, based on post demerger traded prices, has been considered to calculate the fair value.

Risk-free rate of return: The risk-free rate being considered for the calculation is the India Government Bond Generic Bid Yield with a maturity about equal to the expected life of the options.

Exercise Price: Price of each specific grant has been considered based on equity swap ratio of the Composite Scheme of Arrangement.

Time to Maturity: Time to Maturity / Expected Life of Options is the period for which the Company expects the Options to be live. The minimum life of a stock option is the minimum period before which the Options cannot be exercised and the maximum life is the period after which the Options cannot be exercised.

Expected dividend yield: Expected dividend yield has been calculated as an average of dividend yields for the three financial years preceding the date of the grant. The dividend yield for the year is derived by dividing the dividend per share by the average price per share of the respective period.

40.2 Stock option schemes of the Subsidiary Companies:

a. IIFL Home Finance Limited

The Company has IIFL HFL ESOP PLAN-2022, under which options have been granted to eligible employees to be vested from time to time. The plan is established as per the approval granted by the shareholders by a special resolution on August 4, 2022. The Plan is amended vide Board resolution dated June 17, 2023 and approved by shareholders vide resolution dated June 29, 2023.

ESOP will vest to eligible employees as per vesting schedule and vesting ratio. All options will vest with minimum vesting period of 1year and maximum vesting period of 4 years having Graded vesting @ 25%p.a (vesting ratio of 25:25:25:25). As per ESOP Plan, the Vested Options can be exercised by the Option Grantees only in connection with or upon the happening of a Liquidity Event and within such period as prescribed by the Board in this regard.
The Nomination and Remuneration Committee may at any time proceed to settle any or all the unexercised Vested Options held by the Option Grantees, either continuing or separated, by way of cash payment.

Particulars	FY 2023-24	FY 2022-23
Grant Date	01-10-2023	N.A
Option Price Model	Black Scholes Method	N.A
Exercise Price	1,338.00	N.A
Share Price on Grant Date	4,513.38	N.A
Expected Volatility	50.00%	N.A
Expected life of options (Years)	4	N.A

b. IIFL Samasta Finance Limited

The Company's Employee Stock Option Plan - 2023 ("ESOP Plan") provide for the grant of stock options to eligible employees. The ESOPs are administered through Direct route by the company. The company transfers share to the eligible employees upon exercise of the options by such employees.

The Company had an ESOP scheme called ESOP Plan 2023. The ESOP plan 2023 came into force on March 24, 2023.

During the financial year 2022-23, the Company has introduced a new stock option scheme namely "ESOS 2023" effective from March 24, 2023. The grant price shall be as decided by the Nomination and Remuneration Committee ("N&RC") of the Company. The number of options and terms could vary at the discretion of the N&RC.

The total number of Employee Stock Options to be granted, which shall not exceed 5% of the Paid up share Capital of the Company, as expanded from time to time, comprising 3,34,21,867 (Three Crores Thirty Four Lakhs Twenty One Thousand Eight Hundred and Sixty Seven) Options which shall be convertible into equal number of Shares.

The Company has established share option plans that entitle the employees of the Company to purchase the shares of the Company. Under these plans, holders of the vested options are entitled to purchase shares at the exercise price of the shares determined at the respective date of grant of options. The details are ESOP scheme are as follows.

Particulars	Grant	Number of Options	Vesting period	Vesting Conditions
ESOP Scheme 2023	Grant I	84,41,758	3 Years	20%, 40% and 40% vests every year subject to continuance of services
ESOP Scheme 2023	Grant II	48,17,662		
ESOP Scheme 2023	Grant III	89,37,500		

Exercise period for all the above schemes is 3 years from the date of grant of the options.

Measurement of fair values

The fair value of the employee share options has been measured using Black-Scholes Option pricing model.
The fair value of the options and the inputs used in the measurement of the grant-date fair values of the equity-settled share based payment options granted during the year are as follows:

Particulars	Financial Year 2023-24
Grant Date	21-Jul-23
	15-Jan-24
Option Price Model	Black Scholes Method
Exercise Price	23.38 - 26.74
Share Price on Grant Date	23.38 - 26.74
Expected Volatility	50%
Expected time to exercise shares	2 to 4 years
Risk-free rate of return	7.13% - 7.21%
Dividend Yield	0.50%
Fair Value of ESOP at Grant Date	7.54 - 12.21
Weighted Average Fair Value of ESOP at Grant Date	10.69
Method used to determine expected volatility	The expected volatility is based on similar listed companies in finance sector

Table Showing options movement during year:

*0.00 denotes amount less than ₹ fifty thousand

Note 46. Segment Reporting

The Group's primary business segments are reflected based on the principal business carried out, i.e. financing. All other activities of the Group revolve around the main business. The risk and returns of the business of the Group is not associated with geographical segmentation, hence there is no secondary segment reporting based on geographical segment. As such, there are no separate reportable segments as per the Indian Accounting Standard 108 on 'Segment Reporting'.

Note 47. Shared services

The Group operates from and uses the premises, infrastructure and other facilities and services as provided to it by its group companies, which are termed as 'Shared Services'. Hitherto, such shared services consisting of administrative and other revenue expenses paid for by the Group were identified and recovered/recoverable from them based on reasonable management estimates, which are constantly refined in the light of additional knowledge gained relevant to such estimation. These expenses are recovered on an actual basis and the estimates are used only where actual were difficult to determine.

Note 48. Action by the Reserve Bank of India (RBI) against the Parent Company:

On March 04, 2024, the Reserve Bank of India (RBI), under Section 45L(1)(b) of the Reserve Bank of India Act, 1934, imposed supervisory restrictions on the parent Company. This followed an RBI inspection of the parent Company's financial position as of March 31, 2023, which identified significant concerns in our gold loan portfolio. These include:

- Disbursals and collections of loan amounts in cash exceeding statutory limits.
- Non-compliance with the standard auction process.
- Deviations in assaying and certifying the purity and net weight of gold at both the time of loan sanction and auction upon default.
- Breaches in the Loan-to-Value ratio.
- Lack of transparency in charges levied on customer accounts.

Consequently, the RBI directed the parent Company to cease the sanctioning or disbursing of new gold loans and the assignment, securitization, or sale of existing gold loans with immediate effect. However, the parent Company is permitted to continue servicing its existing gold loan portfolio, including loan collections and recoveries, and to maintain its other business operations as usual.

The RBI has initiated a special audit by an independent professional agency, which commenced on April 23, 2024, and has since concluded. The parent Company has taken necessary measures to address the identified concerns and prevent their recurrence. The Board has thoroughly reviewed these deviations and non-compliances, forming a team to implement corrective actions and revise policies and procedures as needed. Management is confident that these actions will resolve all issues raised by the RBI. The Group remains committed to adhering to the highest standards of compliance with RBI regulations, in both letter and spirit.

Note 49 Impact of RBI's Action on the Parent Company's Operations:

The RBI's order, effective March 05, 2024, placed an embargo on the parent Company's gold loan business. While the Gold Loan Business is a major segment of the standalone Company, its consolidated operations benefit significantly from other businesses operating in the standalone company and its subsidiaries. To mitigate any risks to the parent Company's status as a going concern, the following steps have been taken:

1. **Capital infusion:** Raised ₹ 1,271.83 crore through an equity rights issue in May 2024.
2. **Funding:** Secured ₹ 500.00 crore via Non-Convertible Debentures from long-term investors.
3. **Cost control:** Implemented cost control measures, including the reduction of major discretionary expenditures.

These actions ensure that the parent Company's projected cash flows over the next three years will meet its financial obligations, maintaining robust capital adequacy. Management is confident in resolving all issues raised by the RBI and has prepared the financial statements on a going concern basis.

Note 50. The Code on Social Security, 2020

a. Social security means the measures of protection afforded to employees, inclusive of unorganized workers, gig workers and platform workers to ensure access to health care and to provide income security, particularly in cases of old age, unemployment, sickness, invalidity, work injury, maternity or loss of a breadwinner by means of rights conferred on them and schemes framed, under the Code on Social Security, 2020 ("Code").

b. The Code subsumes nine central labour legislations.ie., The Employees' Compensation Act, 1923, The Employees' State Insurance Act, 1948, The Employees' Provident Funds and Miscellaneous Provisions Act, 1952, The Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959, The Maternity Benefit Act, 1961, The Payment of Gratuity Act, 1972, The Cine Workers Welfare Fund Act, 1981, The Building and Other Construction Workers Welfare Cess Act, 1996 and the Unorganised Workers' Social Security Act 2008.

c. The objective of the Code is to amend and consolidate the existing labour laws relating to social security with the wider goal of extending social security benefits to all employees and workers irrespective of belonging to the organised or unorganised sector. The Code brings, within itself the self-employed workers, home workers, wage workers, migrant workers, the workers in the unorganised sector, gig workers and platform workers for the purpose of social security schemes, including life insurance and disability insurance, health and maternity benefits, provident fund.

Note 51. Previous year's figures are regrouped, reclassified and rearranged wherever considered necessary to confirm to current year's presentation.

INDEPENDENT AUDITOR'S REPORT

To,
The Members of
IIFL Finance Limited

Report on the Audit of the Standalone financial statements.

Opinion

We have audited the accompanying standalone financial statements of IIFL Finance Limited (The "Company"), which comprise Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Material Uncertainty related to Going Concern

We draw attention to Note No 42 in the financial statements, which explains that the Reserve Bank of India ("RBI") vide its directive dated March 4, 2024 and in exercise of its powers under Section 45I(1)(b) of the Reserve Bank of India Act, 1934 has directed the Company to cease and desist, with immediate effect, from sanctioning or disbursing gold loans or assigning / securitizing/ selling any of its gold loans. However, the RBI permitted the company to continue to service its existing gold loan portfolio through usual collection and recovery processes.

The Company has total Loan book of Rs. 17,842 crores and Rs. 14,047 crores as on March 31, 2024 and March 31, 2023 respectively. Out of the above, the Gold Loan stood at Rs. 9,634 crores (54.00%) and Rs. 8,330 crores (59.30%) for each respective financial year.

These events or conditions may cast significant doubt on the Company's ability to continue as a going concern. However, in view of the factors as described in the note no 43 in the financial statements, the management is of the view that the going concern basis of accounting is appropriate.

Our opinion is not modified in respect of this matter.

CHHAJED & DOSHI * CHARTERED ACCOUNTANTS * MUMBAI 400 069.

Sharp & Tannan Associates * Chartered Accountants * Firm Reg. No. 109483W

Emphasis of Matter

We refer to Note No 42 of the accompanying financial statements that explains the directives issued by The Reserve Bank of India ("RBI") dated March 4, 2024. The Note explains the supervisory concerns noted by the RBI in respect of restrictions on loan against gold. These supervisory restrictions are under review by RBI post completion of special audit instituted by the RBI.

Our Opinion is not modified in respect of this Emphasis of Matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matters described in the *Material Uncertainty Related to Going Concern section* of this report, we have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	How our audit addressed the key audit matter
1	**Information technology (IT) systems used in financial reporting process.** The company's operational and financial processes are dependent on IT systems due to large volume of transactions that are processed daily. We therefore identified IT systems and controls over financial reporting as a key audit matter for the Company.	We obtained an understanding of the Company's IT control environment relevant to the audit. We tested the design, implementation and operating effectiveness of the Company's General IT controls over the key IT systems which are critical to financial reporting. We also tested key automated and manual controls and logic for system generated reports relevant to the audit that would materially impact the financial statements. In addition to above, we have also relied on the work of the internal auditors and system auditors.
2	**Impairment of Financial Assets held at amortised cost:** Since the loans and advances form a major portion of the Company's assets, and due to the significance of the judgments used in classifying loans and advances into various stages as stipulated in Indian Accounting Standard (IND AS) 109 and the management estimation of the related impairment provisions, this is considered to be a key audit matter.	We evaluated appropriateness of the impairment principles used by management based on the requirements of Ind AS 109 and our understanding of the business. We assessed the design and implementation of key Internal financial controls over loan impairment process used to calculate the impairment charge. We evaluated management's controls over collation of relevant information used for

Sr. No.	Key Audit Matter	How our audit addressed the key audit matter
	The Company's impairment allowance is derived from estimates including the historical default and loss ratios. Management exercises judgement in determining the quantum of loss based on a range of factors. The most significant areas are: - Segmentation of loan book - Determination of exposure at default - Loan staging criteria - Calculation of probability of default / Loss given default - Consideration of probability weighted scenarios and forward looking macro-economic factors The application of ECL model requires several data inputs. This increases the risk of completeness and accuracy of the data that has been used to create assumptions in the model. Refer Note 38A.3 to the Financial Statements.	determining estimates for management overlays. We tested review controls over measurement of impairment allowances and disclosures in financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report and Management Discussion and Analysis report but does not include the financial statements and our auditor's report thereon. The Directors report and Management Discussion and Analysis report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Directors report and Management Discussion and Analysis report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 "The Auditors Responsibilities Relating to Other Information".

CHHAJED & DOSHI * MUMBAI 400 069. * CHARTERED ACCOUNTANTS

Sharp & Tannan Associates * ICAI Regn. No. 109983W * Chartered Accountants

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting standards specified under Sec 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The Financial Statements includes the comparative financial information for the year ended March 31, 2023 were audited by one of the joint auditor and one of the predecessor auditor and has issued unmodified opinion vide their report dated April 26, 2023.

Our opinion is not modified in respect of these other matters.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in **"Annexure A"** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the financial statements.
   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

CHHAJED & DOSHI * CHARTERED ACCOUNTANTS * MUMBAI 400 069.

Sharp & Tannan Associates * Chartered Accountants * ICAI Regn. No. 109983W

c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account maintained for the purpose or preparation of the financial statements.

d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

e) On the basis of the written representations received from the directors as on March 31, 2024, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024, from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in **"Annexure B"**.

g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements- Refer Note No 39 of the financial statements.

ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.

iii. There has not been any delay in transferring amounts which requires to be transferred to the Investor Education and Protection Fund by the Company.

iv. (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

CHHAJED & DOSHI * CHARTERED ACCOUNTANTS * MUMBAI 400 069.

Sharp & Tannan Associates * Chartered Accountants * ICAI Regn. No. 109983W

(c) In our opinion and based on the audit procedures, we have considered reasonable and appropriate in the circumstances; nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v. The dividend declared or paid during the year by the Company is in compliance with section 123 of the Companies Act, 2013.

vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of accounts which has a feature of recording Audit Trail (edit log facility) and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tempered with.

As proviso of Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

Annexure A referred to paragraph 1 under the heading "Report on Other Legal and Regulatory Requirements" in our report of even date to the members of IIFL Finance Limited on the financial statement for the year ended March 31, 2024.

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief we state that:

3(i)(a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right of use of assets.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) The Company has a program of verification of Property, Plant and Equipment including Right of Use Assets to cover all the items at major locations in a phased manner over a period of three years which, in our opinion, is reasonable having regard to the size of the company and the nature of its assets. Pursuant to such programme, the physical verification of Property, Plant and Equipment including Right of Use Assets was carried out by the management during the current year and on the basis of explanation received no material discrepancies were noticed during the verification.

(c) The title deeds of all the immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee) are held in the name of the Company.

(d) The company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets during the year.

(e) There are no proceedings initiated during the year or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

3(ii)(a) The company does not have any inventory and accordingly, the requirement to report on clause 3(ii)(a) of the order is not applicable to the Company.

(b) The company has been sanctioned working capital limits in excess of five crore rupees, in aggregate from banks / financial institutions on the basis of security of current assets namely financial asset. Quarterly returns / statements filed with such banks / financial institutions are in agreement with the unaudited books of account of the Company.

3(iii)(a) The company's principal business is to give loans and accordingly, the provisions stated in paragraph 3(iii)(a) of the order are not applicable to the company.

(b) In our Opinion the terms and conditions in relations to the investments made, guarantees provided, security given and / or grant of all loans and advances in the nature of loans and guarantees are prima facie not prejudicial to the interest of the Company.

(c) The Company, being a Non-Banking Financial Company, is registered under provisions of Reserve Bank of India Act, 1934 and rules made there under, in pursuance of its compliance with provisions of the said act, particularly, the Income Recognition, Asset Classification and Provisioning norms and generally accepted business practices by the lending institutions, repayments schedules are stipulated basis the nature of loan products. Having regard to the voluminous nature of loan transactions, it is not practicable to furnish entity-wise details of the amounts, due date of repayment or receipt and extent of delay in this report (as suggested in the Guidance Note on CARO 2020, issued by the Institute of Chartered Accountants of India for reporting under this clause), in respect of loans and advances which are not

CHHAJED & DOSHI * MUMBAI 400 069. * CHARTERED ACCOUNTANTS *

Sharp & Tannan Associates * Chartered Accountants * Regd. No. 109983W

repaid / paid when they were due or were repaid / paid with a delay, in the normal course of lending business.

(d) In respect of loans and advances in the nature of loans, the total amount of cases which are overdue for more than ninety days as at March 31, 2024 is Rs. 121.10 crores with respect to 1,99,819 borrowers. In such instances, in our opinion reasonable steps have been taken by the company for recovery of the overdue amount of principal and interest.

(e) Since, the Company's principal business is to give loans and Accordingly, the requirement to report on clause 3(iii)(e) of the order is not applicable to the Company.

(f) The company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment. Accordingly, the requirement to report on clause 3(iii)(f) of the order is not applicable to the Company.

3(iv) Loans, Investments, Guarantees and security in respect of which the provisions of sections 185 and 186 of the Companies Act, 2013, are applicable have been complied with by the Company.

3(v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits, within the meaning of section 73 to 76 of the Companies Act, 2013 and Rules framed thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(iii)(v) of the order is not applicable to the Company.

3(vi) The maintenance of cost records has not been specified by Central Government under Section 148(1) of the Companies Act, 2013 for the company. Accordingly, the requirement to report on clause 3(vi) of the order is not applicable to the Company.

3(vii)(a) The Company is generally regular in depositing undisputed statutory dues including provident fund, employees state insurance, income tax, goods and services tax, cess and other statutory dues as applicable to the Company with the appropriate authorities. The provisions of sales tax, value added tax, service tax, customs duty, excise duty and cess are not applicable to the Company.

There were no undisputed amounts payable in respect of these statutory dues in arrears as at March 31, 2024, for a period of more than six months from the date they became payable.

(b) The dues of provident fund, employees state insurance, income tax, goods and services tax, sales tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues applicable to the Company, which have not been deposited on account of any dispute as at March 31, 2024 are as follows.

3(viii) There are no transactions which are not accounted in the books of account which have been surrendered or disclosed as income during the year in the tax assessments of the Company. Also, there are no previously unrecorded income which has been now recorded in the books of accounts. Accordingly, the requirement to report on clause 3(viii) of the order is not applicable to the Company.

3(ix)(a) The Company has not defaulted in repayment of loans or borrowings or in the payment of interest thereon to any lender during the year.

(b) The company has not been declared as wilful defaulter by any bank or financial institution or other lender during the year.

(c) Money raised during the year by the Company by way of term loans has been applied for the purpose for which they were raised.

(d) On an overall examination of the standalone financial statements of the Company, no funds raised on short term basis have been prima facie used for long term purposes during the year by the Company.

(e) On an overall examination of the standalone financial statements of the Company, the company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries. The Company does not have any associates or joint ventures.

(f) The company has not raised any loans during the year on the pledge of securities held in its subsidiaries. Accordingly, the requirement to report on clause 3(ix)(f) of the order is not applicable to the Company. The Company does not have any associates or joint ventures.

3(x) (a) The money raised by way of initial public offer or further public offer (including debt instruments) have been applied by the Company during the year for the purposes for which they were raised.

(b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partially or optionally convertible). Accordingly, the requirement to report on clause 3(x)(b) of the order is not applicable to the Company. In case of shares issued to the employees under Employee Option scheme the requirements of section 62 or the companies act have been complied with and the funds raised have been used for the purposes for which funds were raised.

CHHAJED & DOSHI * CHARTERED ACCOUNTANTS * MUMBAI 400 069.

Sharp & Tannan Associates * Chartered Accountants * Regn. No. 109983W

3(xi)(a) During the year the Company has come across fraud amounting to Rs.6.66 crores in respect of its lending operations out of the same Rs. 0.20 Crore have been recovered please refer Note 53 to the standalone financial statements. No fraud by the company has been noticed or reported during the year.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.

(c) We have taken into consideration the whistle blower complaints received by the Company during the year, while determining the nature, timing, and extent of our audit procedures.

3(xii) The Company is not a Nidhi Company Accordingly, the requirement to report on clause 3(xii) of the order is not applicable to the Company.

3(xiii) The transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013, where applicable and the details have been disclosed in the notes to the Standalone Financial Statements, as required by the applicable accounting standards.

3(xiv)(a) The Company has an adequate internal audit system commensurate with the size and the nature of its business.

(b) The Internal audit reports of the Company issued till the date of audit report, for the period under audit have been considered by us.

3(xv) The Company has not entered into any non-cash transactions with its directors or directors of its subsidiary companies or persons connected with them. Accordingly, the requirement to report on clause 3(xv) of the order is not applicable to the Company.

3(xvi)(a) The Company is required to and has been registered under section 45-IA of the Reserve Bank of India Act, 1934 as Non-Banking Financial Company.

(b) The company has carried on the business of Non- Banking Financial activities with valid Certificate of Registration (CoR) obtained from the Reserve Bank of India as per the Reserve Bank of India Act, 1934. Accordingly, the requirement to report on clause 3(xvi)(b) of the order is not applicable to the Company.

(c) The company is a not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India Accordingly, the requirement to report on clause 3(xvi)(c) of the order is not applicable to the Company.

(d) There is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) Accordingly, the requirement to report on clause 3(xvi)(d) of the order is not applicable to the Company.

3(xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.

3(xviii) One of the predecessor joint auditor of the Company have resigned during the year pursuant to the requirements of the guidelines for appointment of statutory central auditors (SCAs) / statutory auditors (SAs) of the commercial banks (excluding RRBs), UCBs and NBFCs (Including HFCs) dated April 27, 2021, issued by Reserve bank of India, and there are no issues objections or concerns raised by the outgoing auditor.

3(xix) On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date

of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due. (Refer 'Material Uncertainty Relating to Going Concern' section of our audit report of even date)

3(xx)(a) In respect of other then ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount as at the end of the current financial year, to a fund specified in Schedule VII of the Companies Act, 2013 (the "Act"), in compliance with second proviso to sub section 5 of section 135 of the Act, This matter has been disclosed in note 48 to the standalone financial statements.

(b) In respect of ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount as at the end of the current financial year, to a special account within a period of 30 days from the end of the current financial year in compliance with the provision of section 135(6) of the Companies Act, 2013, This matter has been disclosed in note 45 to the standalone financial statements.

Annexure B referred to paragraph 2(f) under the heading "Report on Other Legal and Regulatory Requirements" in our report of even date to the members of IIFL Finance Limited on the financial statement for the year ended March 31, 2024.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of IIFL Finance Limited ("the Company") as of March 31, 2024, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the

CHHAJED & DOSHI * MUMBAI 400 069. * CHARTERED ACCOUNTANTS

Sharp & Tannan Associates * Chartered Accountants *

company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, read together with Emphasis of Matter contained in our even dated audit opinion on the standalone financial statements of the Company for the financial year ended March 31, 2024, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

STANDALONE FINANCIAL STATEMENTS OF IIFL FINANCE LIMITED
STATEMENT OF CHANGES IN EQUITY FOR THE YEAR ENDED MARCH 31, 2024

Notes:

1. **Share application money pending allotment:** Money received for share application for which allotment is pending.
2. **Capital reserves:** Capital reserve is created on account of Composite Scheme of Arrangement.
3. **Securities premium reserve:** The amount received in excess of face value of the equity shares is recognised in Securities Premium Reserve.
4. **General reserve:** The reserve can be distributed/ utilised by the Company, in accordance with The Companies Act, 2013.
5. **Special reserve:** Pursuant to section 45-IC of the Reserve Bank of India Act, 1934, 20% of the profit after tax for the year has been transferred from Retained Earnings to Special Reserve.
6. **Capital redemption reserve:** This reserve has been created on redemption of preference shares capital as per section 55 of The Companies Act, 2013.
7. **Debenture redemption reserve:** Pursuant to Section 71 of The Companies Act, 2013 read with Rule 18 of the Companies (Share Capital and Debentures) Rules, 2014 the Company being an NBFC is required to create Debenture Redemption Reserve of a value equivalent to 25% of the debentures offered through public issue. Pursuant to Ministry of Corporate Affairs circular dated August 16, 2019, reserve is not required to be created for the Non Convertible Debentures going forward.
8. **Retained earnings:** These are the profits that the Company has earned till date, less any transfers to Statutory Reserve, Debenture Redemption Reserve, General Reserve, Dividend distribution and Capital Redemption Reserve.
9. **Stock option outstanding account:** The employee stock options reserve represents reserve in respect of equity settled share options granted to the employees of the Company and its Group in pursuance of employee stock options plan.
10. **Effective portion of cash flow hedge**:These reserve refers to changes in the fair value of Derivative Financial Contracts which are designated as effective Cash Flow Hedge.
11. **Remeasurements of defined benefit:** This reserve refers to remeasurement of gains and losses arising from experience adjustments, changes in actuarial assumptions and return on plan assets of the defined benefit plan.

Note 1. CORPORATE INFORMATION:

Company overview

IIFL Finance Limited (the "Company") is a middle layer Non-Banking Financial Company not accepting public deposits registered with the Reserve Bank of India ("the RBI") under section 45-IA of the Reserve Bank of India Act, 1934 and primarily engaged in financing and related activities. The Company had received the certificate of registration from RBI on March 06, 2020, enabling the Company to carry on business as a Non-Banking Financial Company. The Company offers a broad suite of financial products such as gold loan, loans to Micro, small & medium enterprise ("MSME"), loan against securities and digital finance loans.

The audited financial statements were subject to review and recommendation of Audit Committee and approval of Board of Directors. On June 15, 2024, Board of Directors of the Company approved and recommended the audited financial statements for consideration and adoption by the shareholders in its Annual General Meeting.

Note 2. BASIS OF PREPARATION AND PRESENTATION OF FINANCIAL STATEMENTS:

The financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period as explained in the accounting policies below and the relevant provisions of The Companies Act, 2013 ("Act").

Accounting policies have been consistently applied except where a newly issued Accounting Standard is initially adopted or a revision to an existing Accounting Standard requires a change in the accounting policy hitherto in use.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/ or disclosure purposes in these financial statements is determined on such a basis, except for share based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as value in use in Ind AS 36.

Fair value measurements under Ind AS are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date;
- Level 2 inputs are inputs, other than quoted prices included within level 1,(that are not traded in active market) that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the valuation of assets or liabilities.

(a) Use of estimates and judgments

The preparation of the financial statements in conformity with Indian Accounting Standards ("Ind AS") requires the management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates can change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which these changes are made and, if material, their effects are disclosed in the notes to the financial statements.

The Financial Statements are presented in Indian rupees which is determined to be functional currency of the Company and the currency of primary economic environment in which the Company operates.

(b) Statement of compliance

The standalone financial statements of the Company have been prepared in accordance with the provisions of the Act and Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 issued by Ministry of Corporate Affairs in exercise of the powers conferred by section 133 read with sub-section (1) of section 210A of the Companies Act, 2013 along with the applicable guidelines issued by Reserve Bank of India ("RBI"). In addition, the guidance notes/ announcements issued by the Institute of Chartered Accountants of India ("ICAI") are also applied except where compliance with other statutory promulgations requires a different treatment.

(c) Presentation of financial statements

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Division III to Schedule III to Act applicable for Non-Banking Finance Companies ("NBFC"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the Financial Statements along with the other notes required to be disclosed under the notified Accounting Standards and regulations issued by the RBI.

Note 3. MATERIAL ACCOUNTING POLICIES

(a) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured and there exists reasonable certainty of its recovery.
Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

i. Interest income and dividend income:

Interest income on financial instruments at amortised cost is recognised on a time proportion basis taking into account the amount outstanding.

Interest on financial instruments measured at fair value is included within the fair value movement during the period.

The EIR is the rate that exactly discounts estimated future cash flows of the financial instrument through the expected life of the financial instrument or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The calculation of the EIR includes all fees paid or received between parties to the contract that are incremental and directly attributable to the specific lending arrangement, transaction costs, and all other premiums or discounts. For financial assets at fair value through profit and loss ("FVTPL"), transaction costs are recognised in the Statement of Profit and Loss at initial recognition.

Dividend on equity shares, preference shares and on mutual fund units is recognised as income when the right to receive the dividend is established.

ii. Fees and charges:

Fees and charges include fees other than those that are an integral part of EIR. The fees included in this part of the Company's Statement of Profit and Loss include, among other things, fees charged for servicing a loan.

Cheque bounce charges, late payment charges and foreclosure charges are recognised on a point-in-time basis and are recorded when realised.

Fee and commission expenses with regards to services are accounted for as and when the services are delivered.

iii. Income from financial instruments at FVTPL:

Income from financial instruments at FVTPL includes all gains and losses from changes in the fair value of financial assets and financial liabilities at FVTPL.

iv. Assignment transactions:

In accordance with Ind AS 109, in case of assignment transactions with complete transfer of risks and rewards without any retention of residual interest, gain arising on such assignment transactions is recorded upfront in the Statement of Profit and Loss and the corresponding asset is derecognised from the Balance Sheet immediately upon execution of such transaction. Further, the transfer of financial assets qualifies for derecognition in its entirety, the whole of the interest spread at its present value (discounted over the life of the asset) is recognised on the date of derecognition itself as interest only strip receivable (interest strip on assignment) and correspondingly recognised as profit on derecognition of financial asset.

v. Securitisation transactions

In accordance with Ind AS 109, in case of securitisation transactions, the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

vi. Other operational revenue

Other operational revenue represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

(b) Property, plant and equipment ("PPE")

PPE is recognised when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. PPE is stated at original cost net of tax, if any, less accumulated depreciation. Cost includes professional fees related to the acquisition of PPE and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy.

Depreciation is charged using the straight-line method, based on the useful life of PPE as estimated by the Management, as specified below. Depreciation is charged from the month in which new assets are available for use. No depreciation is charged from the month in which assets are sold. In case of transfer of used PPE from group companies, depreciation is charged over the remaining useful life of the asset. Individual assets / group of similar assets costing up to ₹ 5,000 have been depreciated in full in the year of purchase.

The estimated useful life of assets is as under:

Class of assets	Useful life
Buildings	20 years
Computers	3 years
Office equipment	5 years
Plant and Equipment	5 years
Furniture and fixtures	5 years
Vehicles	5 years

For above class of assets, based on internal assessment and independent technical evaluation carried out by external valuers, the Management believes that the useful lives as given above best represent the period over which Management expects to use these assets.

An item of PPE is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of PPE is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

Capital work in progress

Projects under which PPE are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest and are disclosed as "capital work-in-progress".

(c) Intangible assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax, less accumulated amortisation and cumulative impairment.

Intangible assets i.e. Software are amortised on straight-line basis over the estimated useful life of 3 years.

Amortisation on impaired assets is provided by adjusting the amortisation charge in the remaining periods so as to allocate the assets revised carrying amount over its remaining useful life.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

Intangible assets under development
Intangible assets not ready for their intended use on the Balance Sheet date are disclosed as "Intangible assets under development".

(d) Investment property

Investment properties are properties held to earn rentals and/ or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost, net of accumulated depreciation and accumulated impairment loss, if any.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in Statement of Profit and Loss in the period in which the Investment property is derecognised.

Freehold land and properties under construction are not depreciated.

(e) Non-current Assets held for Sale

Non-current assets are classified as held for sale if their carrying amount is intended to be recovered principally through a sale (rather than through continuing use) when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset and the sale is highly probable and is expected to qualify for recognition as a completed sale within one year from the date of classification. Non-current assets classified as held for sale are measured at lower of their carrying amount and fair value less costs to sell.

(f) Impairment of assets

As at the end of each accounting year, the Company reviews the carrying amounts of its PPE, intangible assets and investment property assets to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the PPE, intangible assets and investment property are tested for impairment so as to determine the impairment loss, if any.

Recoverable amount is the higher of fair value less costs of disposal and value in use. If recoverable amount of an asset is estimated to be less than its carrying amount, such deficit is recognised immediately in the Statement of Profit and Loss as impairment loss and the carrying amount of the asset is reduced to its recoverable amount.

When an impairment loss is subsequently reversed, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, to an extent that it does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss.

(g) Share-based payment arrangements

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

Securities premium includes:

- The difference between the face value of the equity shares and the consideration received in respect of shares issued pursuant to Stock Option Scheme.
- The fair value of the stock options which are treated as expense, if any, in respect of shares allotted pursuant to Stock Options Scheme

(h) Employee benefits

Defined contribution plans

The Company's contribution towards Provident Fund and Family Pension Fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees and are accounted for on an accrual basis and recognised in the Statement of Profit and loss.

Defined benefit plans

Short term employee benefits: Employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits and are expensed in the period in which the employee renders the related service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service. These benefits include performance incentive and compensated absences

Post employment benefits: The employees' gratuity fund scheme represents defined benefit plan. The present value of the obligation under defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows using a discount rate based on the market yield on government securities of a maturity period equivalent to the weighted average maturity profile of the defined benefit obligations at the Balance Sheet date.

Re-measurement, comprising actuarial gains and losses, the return on plan assets (excluding amounts included in net interest on the net defined benefit liability or asset) and any change in the effect of asset ceiling (if applicable) is recognised in other comprehensive income and is reflected in retained earnings and the same is not eligible to be reclassified to the Statement of Profit and Loss.

Defined benefit costs comprising current service cost, past service cost and gains or losses on settlements are recognised in the Statement of Profit and Loss as employee benefit expenses. Gains or losses on settlement of any defined benefit plan are recognised when the settlement occurs. Past service cost is recognised as expense at the earlier of the plan amendment or curtailment and when the Company recognises related restructuring costs or termination benefits.

In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognise the obligation on a net basis.

Long term employee benefits: The obligation recognised in respect of long term benefits being long term compensated absences, is measured at present value of estimated future cash flows expected to be made by the Company and is recognised in a similar manner as in the case of defined benefit plan above.

(i) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented.

(j) Taxes on income

Current tax

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Company's financial statements and the corresponding tax bases used in computation of taxable profit and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date.

Deferred tax is not recognized for:
- Temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss
- Temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

- Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on business plans and the reversal of temporary differences.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. For this purpose, the carrying amount of investment property measured at fair value is presumed to be recovered through sale, and the company has not rebutted this presumption.

For transactions and other events recognised in profit or loss, any related tax effects are also recognised in profit or loss. For transactions and other events recognised outside profit or loss (either in other comprehensive income or directly in equity), any related tax effects are also recognised outside profit or loss (either in other comprehensive income or directly in equity, respectively).

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off assets against liabilities, representing current tax and where the deferred tax assets and deferred tax liabilities relates to taxes on income levied by the same governing taxation laws.

Current and deferred tax for the year

Current and deferred tax are recognised in the Statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(k) Financial instruments

Financial assets and financial liabilities are recognised in the Company's Balance Sheet when the Company becomes a party to the contractual provisions of the instrument.

Recognised financial assets and financial liabilities are initially measured at fair value. Transaction costs and revenues that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs and revenues directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in the Statement of Profit and Loss.

Financial assets
Classification and measurement

The Company classifies its financial assets into the following measurement categories: amortised cost; fair value through other comprehensive income; and fair value through profit or loss.

All recognised financial assets that are within the scope of Ind AS 109 are required to be subsequently measured at amortised cost or fair value on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.
